

Minutes of ABS meeting held on Tuesday, November 14

Present: B. Autin, V. Ducas, M. Lindroos, M. Martini, E. Wildner.

Topic: Papers for EPAC and general information

1. Papers for EPAC

The following papers will be proposed for EPAC'96:

V. Ducas, A. Kazymov, M. Lindroos
Dynamic linkage between object oriented data base and beam optics applications

I. Kirstein, D. Manglunki, M. Martini
Trajectory and transfer matrices in a non-linear stray field

B. Autin, O. Jensen, E. Wildner
Generic and interactive beam optics functions for machine operation

B. Autin, E. Wildner
Application of symbolic techniques to structural beam optics

B. Autin
Analytical model of final foci for muon colliders

2. General information

An Indian delegation visited CERN to explore the conditions of a participation in LHC and met B. Autin on Tuesday, November 7 to discuss a contribution to a general correction package a la ABS. The present work for the PS will therefore be formulated in a way which can be translated into precise specifications for outside contributors.

3. Next meeting

Tuesday, November 28, 1995 at 16 hr in 19-3-031
Agenda: Abstracts of EPAC papers
Status of the selector, by Vincent Ducas

Bruno Autin

Distribution:
ABS team
PS/DI group
Group Leaders
G. de Rijk (SL), J. Schinzel (AT)
