**“Your Source for Wyoming Labor Market Information”**

## Who We Are

Research & Planning (R&P) functions as an exclusively statistical entity within the Wyoming Department of Workforce Services. R&P collects, analyzes, and publishes timely and accurate labor market information (LMI) meeting established statistical standards. We work to make the labor market more efficient by providing the public and the public’s representatives with the information needed for evidence-based, informed decision making.

## New Short-Term Projections Show Continued Job Growth

by: *Laura Yetter, Senior Economist*

Wyoming is projected to gain more than 8,000 jobs (a 3.0% increase) from second quarter 2023 (2023Q2) to second quarter 2025 (2025Q2), according to the most recent short-term industry and occupational employment projections from the Research & Planning (R&P) section of the Wyoming Department of Workforce Services.

Projections are based on historical trends of how employment levels respond to market conditions. While Wyoming has experienced two periods of economic downturn within the last 10 years<sup>1</sup>, the projections discussed in this article were prepared during a period of increased employment and wage growth for Wyoming from 2020Q3 to 2023Q3 (Bullard, 2024). As noted by Moore (2024), 2023Q3 marked the 10th consecutive quarter of over-the-year job growth in Wyoming. It is important to note that projections cannot account for certain factors, such as extreme weather patterns, large-scale government investments, and economic downturns.

R&P publishes short-term projections annually, and long-term projections every other year. The next set of long-term projections, covering 2022-2032, will be published in July.

This article identifies which industries and occupations are projected to grow over the next two years. The full projections are

---

<sup>1</sup> R&P has defined an economic downturn as a period of at least two consecutive quarters of over-the-year decreases in average monthly employment and total wages based on data from the Quarterly Census of Employment and Wages. The most recent economic downturns occurred from 2015Q2 to 2016Q4 and from 2020Q2 to 2021Q1.

### Now Online

#### Short-Term Industry and Occupational Projections, 2023-2025

<https://doe.state.wy.us/LMI/projections.htm>

available at <https://doe.state.wy.us/LMI/projections.htm>.

### Industry Projections

Industries are classified according to the North American Industry Classification System, (NAICS). The industry projections are developed at the three-digit NAICS subsector level and then summed to the two-digit major industry sectors; a sample of the NAICS structure is presented in Box 1 (see page 6). Some NAICS codes changed in 2022 from the 2017 NAICS codes. This impacted the last 18 months of the base data used in the projections for retail trade and information.

Industry projections at the two-digit sector level are shown in Table 1 (see page 6). The full industry projections table with three-digit NAICS subsectors can be found in Table 6 on page 13.

The newest short-term industry projections indicate that Wyoming's total employment will increase from 281,558 in 2023Q2 to 289,646 in 2025Q2, an increase of 8,088 jobs, or 2.9%. All industries are projected to see job growth, with the largest found in health care & social assistance (1,030, or 3.0%), accommodation & food services (934, or

2.7%), professional, scientific, & technical services (876, or 7.8%), and construction (838, or 3.7%).

Employment in mining (including oil & gas), which drives Wyoming’s economic health, is projected to increase from 17,029 in 2023Q2 to 17,323 in 2025Q2 (294, or 1.7%). It is worth noting that at the three-digit subsector level, employment in the mining, except oil & gas subsector is projected to decline by 63 jobs, or 0.8%. In addition, minimal growth is projected the oil & gas extraction subsector (18 jobs, or 0.8%).

## Occupational Projections

Staffing patterns from the Occupational Employment and Wage Statistics (OEWS) program were used for occupational projections. These staffing patterns are prepared in partnership with the Bureau of Labor Statistics (BLS) and are updated twice a year. This survey collects wage and salary information for all full- and part-time Wyoming workers in nonfarm industries, subsequently producing occupational employment estimates by

metropolitan, nonmetropolitan area, industry, and ownership (Hauf, 2022). These estimates are then combined with the industry projections in the Projections Suite software program to cross-reference industry and occupational codes by the occupational job projection. Occupations are classified using the Standard Occupational Classification, (SOC) system.

In addition to projected growth openings, occupational projections also include openings due to *transfers* (persons changing occupations) and *exits* (persons leaving the workforce). *Total openings* refers to the sum of growth, transfers, and exits. Projected growth or decline is a small component of total openings; for most occupations, more openings are due to transfers and exits than actual growth. In addition to 8,516 openings due to growth, Wyoming also is projected to have 29,346 openings due to exits and 36,953 due to transfers. Overall, Wyoming is projected to have 74,815 total openings over the next two years.

Occupational projections also include the typical requirements to enter the occupation: education, experience, and training.

**Box 1: North American Industry Classification System (NAICS) Structure of Industry Sector and Subsector for Construction (NAICS 23) and Health Care & Social Assistance (NAICS 62)**

Level	NAICS Code	Title
Sector (2-Digit)	23	Construction
Subsector (3-Digit)	236	Construction of Buildings
Subsector (3-Digit)	237	Heavy and Civil Engineering Construction
Subsector (3-Digit)	238	Specialty Trade Contractors
Sector (2-Digit)	62	Health Care & Social Assistance
Subsector (3-Digit)	621	Ambulatory Health Care Services
Subsector (3-Digit)	622	Hospitals
Subsector (3-Digit)	623	Nursing and Residential Care Facilities
Subsector (3-Digit)	624	Social Assistance

Source: North American Industry Classification System (NAICS).

Table 2 shows the top 10 occupations with the greatest projected growth from 2023 to 2025. The occupation with the most projected openings due to growth is heavy & tractor-trailer truck drivers with 419. In addition, this occupation also is projected to have 626 openings due to exits and 810 openings due to transfers, for a total of 1,855 projected openings.

In contrast to Table 2, Table 3 (see page 9) shows the top 10 occupations with the greatest number of total projected opening. Many of these are lower paying jobs that don't require any formal postsecondary education and tend to have high turnover,

including fast food & counter workers (3,027 total openings), retail salespersons (2,780), and cashiers (2,528). Exceptions to this include heavy & tractor-trailer truck drivers (which requires a post-secondary certificate) and general & operations managers (which requires a bachelor's degree).

As mentioned, occupational projections also include the level of education typically required to enter a given occupation. As shown in Table 4 and Figure 1 (see page 10), the vast majority of total openings (72.4%) are in occupations requiring a high school diploma or less. Nearly

one in 10 total openings (9.5%) are in occupations requiring a postsecondary non-degree award or some college, no degree. Occupations requiring a bachelor's degree account for 14.0% of total openings. The remaining educational requirements are associate's degree (1.9%), master's degree (1.1%), and doctoral or professional degree (1.1%).

The top five occupations by total projected openings for each educational

requirement are presented in Table 5 (see page 11).

In occupations with no formal educational credential, the greatest total openings are projected for fast food & counter workers (3,027), retail salespersons (2,780), and cashiers (2,528). For those occupations that require a high school diploma or equivalent, the occupations with the greatest projected openings include office
