September Peony Price List

LEE R. BONNEWITZ
VAN WERT, OHIO

November is Peony Blooming Season in Australia

TELEPHONES
CENTRAL 317
WINDSOR 41

105 COLLINS STREET

MELBOURNE

July 16, 1923.

Mr. Lee R. Bonnewitz,
Van Wert, Ohio,
U. S. A.

Dear Sir:

The three collections of peonies arrived in very good condition, per parcels post at the beginning of our fall. I planted them in pots and plunged them in a sheltered place. A couple sent up small leaves, but over 80% have so far shown nothing.

It is now the middle of our winter, and I have planted these out of their pots in their permanent positions. The eyes are just showing pink in the majority of them. They are therefore at the same stage of growth as our local ones, and they are all beginning to make good new root growth. We get no snow here, and they should now go straight ahead.

Peonies flower here in November, and I will let you have a report next year as to the growth they have made. The majority of these had about three eyes. Are these samples of your One Eye Divisions?

The Garden Notes you promised to send me have not arrived--I should very much like to have these.

If time will permit, I may call on you next year during my visit to the States.

Thank you for your attention, and the fine roots you sent.

Yours sincerely,

J. J. Clewinger

September Peony Price List

"How's business" did you say? "Fine!" One always expects it to be better each year, and the season of 1923 has been no exception to the rule. It has increased with me, as I presume it has with every other Peony grower, to such an extent that I have had to increase my force in all departments in order to keep in touch with my Peony friends and handle their wants satisfactorily. There is one disappointing feature in an active business and that is, some varieties sell completely out before the season is far advanced. I dislike to have to return a customer's remittance after an order reaches my desk, not for financial reasons only, but because I know the disappointment which the customer experiences when he is notified that the variety or varieties he has selected can not be furnished. I believe the "substitution practice" has caused more heartaches among real Peony lovers than any other one thing, and so from my first entry in the Peony selling field, it has been an established practice to send only the varieties selected, or promptly refund the remittance. This takes valuable time, which during the rush season now starting, I can hardly spare, and in order to save my time and avoid disappointment for you, I am submitting my **SEPTEMBER PEONY PRICE LIST** which includes only the varieties I can now furnish, and you will note many, many of the **WORLD'S BEST PEONIES** are still in the list.

Many letters reach my desk with the query, "What size roots do you furnish for **Bonnwitz Strong One Eye Divisions**?" My customers can skip this paragraph for they know just what that term means, but for the benefit of my new Peony acquaintances I will say that **Bonnwitz Strong One Eye Divisions** are divisions from vigorous, healthy plants and will have at least two eyes. "Why do I call them one-eye divisions?" Just because **ONE EYE** is all that any Peony root requires to transmit its vigor into satisfactory growth. The extra eye is added merely for insurance and good measure and not because it will be required in the plant's development. In fact customers who have been buying from me during the past three years have learned that they can do the same thing in their planting that I do in mine, namely, cut each of the **Bonnwitz Strong One Eye Divisions** into as many pieces as there are eyes, and that

from each will grow, in a few years, as good and as large a plant as can be grown from a root with three or five eyes planted at the same time. From my own experience I might add, that Peony roots need vigor much more than they need size, and I have seen a small root with vigor in its constitution, weighing two ounces or less, outstrip in growth other roots which weighed over a pound. It was just such experience which led me early to decide to use only strong, vigorous, healthy plants in supplying divisions to my customers, and to this practice do I attribute the reputation **Bonnwitz Strong One Eye Divisions** have attained.

"How do you plant?" This question is often asked me, but I will not take your time nor mine to go into details now, but I will say complete instructions are enclosed with every shipment I make, and as the instructions arrive with the roots, you receive them at the most opportune time.

Here is the list I can still furnish. Glance over it and see how many "Peony Aristocrats" are still included.

9:8	THERESE (Dessert)..... The best pink Peony and its superiority is recognized more each year.	5.00
9.4	TOURANGELLE (Dessert)..... The beautiful dainty, sunrise pink Peony which should never be allowed to open its petals in full sun.	2.50

9.3	WALTER FAXON (Richardson)..... The lovely shade of pink in this Peony makes it a great favorite. It has no harsh lilac tones.	3.00
8.0	WALTER MORGAN (Pleas).....	2.00
7.9	WELCOME GUEST (Hollis)..... I do not believe this Peony is appreciated as much as it should be. To me, it has a similar charm to Phyllis Kelway, and if the true variety gets into the gardens of Peony lovers, I will expect to see it get a much higher rating.	2.00
	W. F. CHRISTMAN (Franklin).....	10.00
8.0	WIESBADEN (G & K).....	3.00
8.4	WILLIAM F. TURNER (Shaylor)..... A splendid early tall, red Peony which this season opened the same day as Umbellata Rosea and Richard Carvel. The laterals were still in bloom two weeks later.	2.50
	ZEST (Hollis)..... This variety gave me one of the most pleasant surprises of the Peony season. It is of a splendid shade of pink which fades to a softer, silvery tone, and the extremely long, loosely placed petals, showing a cup shape at the center, induce me to class it with Exquisite. I never saw it so fine in previous years and, as it may never be so fine again, I am not yet advising its purchase.	3.00

Quantity Price List

I am often asked for a Wholesale Price List, and to all such inquiries I have had to reply that I am catering to the retail trade, and have not propagated stock in large quantities for wholesale offerings. But you know some Peonies increase much faster than others, and as a result my stock of these varieteis has accumulated to such an extent that I can now offer them at a somewhat lower price than my regular list, when purchased in quantities of five, ten and twenty **Bonnwitz Strong One Eye Divisions** of a single variety. This is not strictly a wholesale offer as it is open to any one who can use the varieties in the quantities offered.

J. E. McFARLAND,
VICE PRESIDENT & CASHIER.

July 18, 1923

Dear Mr. Bonnewitz:

I thought it might be perhaps of interest to you to tell you something of our Peony Show held here by the Garden Club and of the success Bonnewitz Strong One Eye Divisions had in it.

I took first prize for the best single bloom in the Show with Martha Bulloch and second with Georgiana Shaylor, both One Eye Divisions bought from you, the Martha Bulloch in September 1920, and Georgiana Shaylor September 1921. I also won first for six blooms in six different varieties with Georgiana Shaylor, Elwood Pleas, Martha Bulloch, Charles McKellip, Jubilee and Mme. Jules Dessert. Three of these were from you and One Eye Divisions. Your One Eye Divisions certainly got some good advertising and they are deserving of it for in two to three years, they are as good as larger divisions and better than big clumps.

Elwood Pleas is a great favorite of mine on its allround qualities but Lady A. Duff (which I got from W. L. Gumm) is to my mind the most beautiful of the two when established. Of the new ones from you last fall which bloomed, I was pleased especially with the color of Phyllis Kelway. Ginette too gives great promise and I liked Souv. de Louis Bigot. The Peony was especially good with us. If I could only get the late spring ones to do well as they do farther north. Am still enjoying your Peony and Iris Notes. Don't fail to send them to me.

Yours,

Alfred Danes Jr.

Dear Mr. Bonnewitz:

Perhaps you will be interested to hear of the success I have had with some of the Peonies which came from your garden.

I exhibited at the show of the New York Horticultural Society, held in the Museum of Natural History, New York City, and received four first prizes in the amateur classes and one second prize in the open classes.

Most of the flowers were from roots purchased from you in the fall of 1920.

In the amateur classes I won first prize for the best vase of six whites with Le Cygne. First prize for the best vase of six reds with Longfellow, and first prize for best twenty-five varieties, and first prize for best twelve varieties.

In the open classes I won second prize with Therese, Lady Alexandra Duff, Rose Bonheur, Georgiana Shaylor, Germaine Bigot and M. Jules Elie, for six vases, light pink, three of a kind.

Right here I want to say that "Bonnewitz Strong One Eye Divisions" are good enough for me.

I enclose order for some new ones I wish to add to my collection. Send September 10th and oblige.

Yours very truly.

Charles E. Hoyt

T E R M S

My terms are cash with order and money will be refunded for any variety which I cannot furnish. I will, under no circumstances, make any substitutions, as it is my established policy to send exactly the plant you order or refund the money.

I believe that every variety I offer is absolutely true to name, but should any prove to be untrue, I will gladly refund the money paid for it.

I like to send roots by express as in that case the customer pays exactly what the transportation costs. If, however, any customer ordering a few roots wishes them sent by parcel post, he may send fifteen cents additional for each root or division, and I will not only pay the postage but will also insure the safe delivery of the package. Express is usually cheaper when five or more roots are ordered.

LEE R. BONNEWITZ.
