WORK TO BE DONE IN THE ELECTRONICS WORKSHOP

Due to the existing pressure on the Electronics Workshop, (Mr. M.Mary) and the need to plan ahead in considering all possible implications, especially the assignment of priorities, it would be very helpful if we could receive from the Section Leaders, a list of all items to be made during the next three months (and even afterward if known) with the following additional indications :

- a) System in which they will be installed.
- b) Date at which they will be absolutely required.

We would like to receive the answers as soon as convenient but in anycase not later than March, 18th.

G. Brianti

distribution : (open)

All Section Leaders of M.G. (10 copies each)
