

Table of Contents

Answer Set Programming 2003

Theory

Outlier Detection Using Default Logic	3
<i>Fabrizio Angiulli, Rachel Ben-Eliyahu - Zohary, Luigi Palopoli</i>	
Suitable Graphs for Answer Set Programming	15
<i>Thomas Linke</i>	
Translation of Aggregate Programs to Normal Logic Programs	29
<i>Nikolay Pelov, Marc Denecker, Maurice Bruynooghe</i>	
Graphs and colorings for answer set programming with preferences: Preliminary Report	43
<i>Kathrin Konczak, Torsten Schaub, Thomas Linke</i>	
Properties of maximal cliques of a pair-wise compatibility graph for three nonmonotonic reasoning systems	57
<i>R.E. Mercer, V. Risch</i>	
Complexity of Answer Set Checking and Bounded Predicate Arities for Non-ground Answer Set Programming	69
<i>Thomas Eiter, Wolfgang Faber, Michael Fink, Gerald Pfeifer, Stefan Woltran</i>	
Finitary Open Logic Programs	84
<i>Piero A. Bonatti</i>	
CR-Prolog ₂ : CR-Prolog with Ordered Disjunction	98
<i>Marcello Balduccini, Veena Mellarkod</i>	
What's in a model? Epistemological analysis of Logic Programming	113
<i>Marc Denecker</i>	
Parametric Connectives in Disjunctive Logic Programming	124
<i>Nicola Leone, Simona Perri</i>	
Graphs and colorings for answer set programming: Abridged Report	137
<i>Kathrin Konczak, Torsten Schaub, Thomas Linke</i>	
Eliminating Disjunction from Propositional Logic Programs under Stable Model Preservation	151
<i>Thomas Eiter, Michael Fink, Hans Tompits, Stefan Woltran</i>	

VIII

A Counter-Based Approach to Translating Normal Logic Programs into Sets
of Clauses 166
Tomi Janhunnen

Using Nested Logic Programs for Answer Set Programming 181
Thomas Linke

Integrating Semantic Web Reasoning and Answer Set Programming 195
S. Heymans, D. Vermeir

Implementation

Using Criticalities as a Heuristic for Answer Set Programming 211
Orkunt Sabuncu , Ferda N. Alpaslan, Varol Akman

Implementing OCLP as a front-end for Answer Set Solvers: From Theory to
Practice 224
Martin Brain, Marina De Vos

Answer Set Programming with Templates 239
*Giovambattista Ianni, Giuseppe Ielpa, Adriana Pietramala, Maria Carmela
Santoro*

The A-POL System 253
Mauricio Osorio, Enrique Corona

Computing Answer Sets of a Logic Program via-enumeration of SAT certificates 268
Yuliya Lierler , Marco Maratea

Aggregate Functions in DLV 274
*Tina Dell’Armi, Wolfgang Faber, Giuseppe Ielpa, Nicola Leone, Gerald
Pfeifer*

Applications

New properties of the update operator “ \oplus ” 291
Mauricio Osorio, Fernando Zacarías

A Java Wrapper for DLV 305
Francesco Ricca

Mappings Between Domain Models in Answer Set Programming 317
Stefania Costantini, Andrea Formisano, Eugenio G. Omodeo

OntoDLP: a Logic Formalism for Knowledge Representation 330
F. Calimeri, S. Galizia, M Ruffolo, P.Rullo

Towards the use of Semantic Contents in ASP for planning and diagnostic in GIS 345
Mauricio Osorio, Claudia Zepeda

Modeling Hybrid Systems in Action Languages	356
<i>Richard Watson, Sandeep Chintabathina</i>	
Author Index	371
