Correction to: Temporal features of sitting, standing and stepping changes in a cluster-randomised controlled trial of a workplace sitting-reduction intervention

Samantha K. Stephens^{1*}, Elisabeth A. H. Winkler¹, Elizabeth G. Eakin¹, Bronwyn K. Clark¹, Neville Owen^{2,3}, Marj Moodie⁴, Anthony D. La Montagne⁵, David W. Dunstan^{1,2,6,7,8,9} and Genevieve N. Healy^{1,2,10}

<https://doi.org/10.1186/s12966-019-0879-1>

Following publication of the original article [1], it was brought to the journal's attention that there was an error in 'Additional file 3: Table S1'. Specifically, in 'Supplemental Table 4', the headings of the second and third columns, 'Intervention (n=114)' and 'Controls (n=82)', had been erroneously swapped. The file has since been corrected.

This correction does not alter the values detailed in the table.

The authors thank you for reading this erratum and apologize for any inconvenience caused.
