

Biography of Mengzhen Wang:

Mengzhen is from China. He was born in Sichuan Province, and grows up in Guilin, which is one of the most beautiful places in the world. He is an undergraduate student in Department of Engineering Physics, Tsinghua University in Beijing.

During his second year in Tsinghua University, he participated in the data analysis work of STAR at RHIC, and has learned some basic knowledge of high energy physics.

Now he is a summer student of PH-LBD Department in CERN, and is working for the improvement of the material description of the LHCb downstream detectors. After the internship at CERN, he will come back to Tsinghua University to finish his undergraduate courses. He plans to continue the study of high energy physics as a PhD student after graduation.

Brief CV:

2012 - :Undergraduate student in Tsinghua University

2014 summer: Visiting student in University of California, Los Angeles. 2015

summer: CERN summer student
