# OpenStack Day CERN - ”Accelerating Science with OpenStack”

Monday 27 May 2019 - Tuesday 28 May 2019

CERN

# Book of Abstracts

# Contents

Registration . . . . . 1

Welcome/Opening . . . . . 1

OpenStack Foundation . . . . . 1

CERN - Overcoming the LHC Computing Challenges . . . . . 1

SKA - The Square Kilometre Array - Exploring the Universe with an ExaScale Telescope 1

NASA - Past, Present, and Future - A More Flexible Datacenter using Open Infrastructure 1

Wellcome Sanger Institute - Supporting DNA Sequencing at Scale with OpenStack . . . 1

JASMIN - Climate and Earth-system Science Data Analysis with OpenStack . . . . . 2

vGPUs with OpenStack - Accelerating Science . . . . . 2

How OpenStack enables Face Recognition within five minutes with GPUs and FPGAs . . 2

SWITCH - The Swiss Academic Community powered through OpenStack . . . . . 2

Secure IT framework for Personalised Health Data . . . . . 2

Closing . . . . . 2

Trading Flexibility for Performance: The HPC Story in OpenStack . . . . . 2

Integrating OpenStack and Kubernetes . . . . . 3

The Cookbook of Distributed Tracing for OpenStack . . . . . 3

**11**

## Registration

**12**

## Welcome/Opening

**Corresponding Author:** belmiro.moreira@cern.ch

**13**

## OpenStack Foundation

**14**

## CERN - Overcoming the LHC Computing Challenges

**15**

## SKA - The Square Kilometre Array - Exploring the Universe with an ExaScale Telescope

**Corresponding Author:** stig@stackhpc.com

**16**

## NASA - Past, Present, and Future - A More Flexible Datacenter using Open Infrastructure

**17**

## Wellcome Sanger Institute - Supporting DNA Sequencing at Scale with OpenStack

**18**

## JASMIN - Climate and Earth-system Science Data Analysis with OpenStack

**19**

## vGPUs with OpenStack - Accelerating Science

**20**

## How OpenStack enables Face Recognition within five minutes with GPUs and FPGAs

**Corresponding Author:** erwan@erwan.com

**21**

## SWITCH - The Swiss Academic Community powered through OpenStack

**Corresponding Authors:** jens-christian.fischer@switch.ch, simon.leinen@switch.ch

**22**

## Secure IT framework for Personalised Health Data

**Corresponding Author:** jani.heikkinen@unibas.ch

**23**

## Closing

**Corresponding Author:** belmiro.moreira@cern.ch

**26**

## Trading Flexibility for Performance: The HPC Story in OpenStack

**Corresponding Author:** stephenfinucane@gmail.com

**27**

## Integrating OpenStack and Kubernetes

**Corresponding Authors:** zioproto@gmail.com, alberto.colla@garr.it

**28**

## The Cookbook of Distributed Tracing for OpenStack

**Corresponding Author:** shakhat@gmail.com
