Jens-Christian Fischer  
[jens-christian.fischer@switch.ch](mailto:jens-christian.fischer@switch.ch)  
CERN OpenstackDays, 2019-05-27

<https://www.semanticscholar.org/paper/Light-sheet-fluorescence-microscopy%3A-a-review.-Santi/9c6087d7f7637c45435b0c1595121771addf9e6a/figure/4>

## Laser Microscopic Image of Mouse Brain

0.5 TB of data per brain

3 brains imaged per week per microscope

Maybe 120 brains per year

60 TB of brain data per year

Accessible for future researchers over for multiple years

**Please!**

**NO MORE BRAINS IN  
THIS SINK!!!**

Please use the disposal container in the  
Tissue Cyte room!

Thank you!

SWITCH

# Mission

SWITCH is an **integral part of the Swiss academic community.**

Based on our **core competencies**

- Network
- Security
- Identity Management

SWITCH offers collaboratively developed ICT solutions that empower users in and beyond the academic world to achieve leading edge results in a globally competitive environment.

## “Current” Preproduction Cluster

- 1 Controller Node
- 5 Compute Nodes (expected 8)
- Total 120 Cores
- 640 GB RAM
- 24 \* 3 TB SATA Disks: ~72 TB Raw Storage
  
- OpenStack Havana Release
- Ceph Dumping

**Ceph and Openstack at SWITCH**  
6.12.2013 @ CERN

## The Infrastructure

- Two locations (University DCs Lausanne/Zurich), each with
  - 32 2RU dual-Xeon (E5-2650v2) + 128 GB RAM + 2\*10GE + 2\*SSD
  - 16 servers also have 12\*4TB 3.5" disks → Ceph OSDs
  - 2\*48-port 10GE (+6-port 40GE) switches + 1\*48-port GigE
  - Uplink: 2\*10GE w/BGP-4 (IPv4+IPv6) directly to backbone
- Currently two racks used per location
  - Each can grow up to ~20 racks
- Plus a staging setup with two (tiny) sites
  - in one of the two production locations

## Storage

1280 TB raw

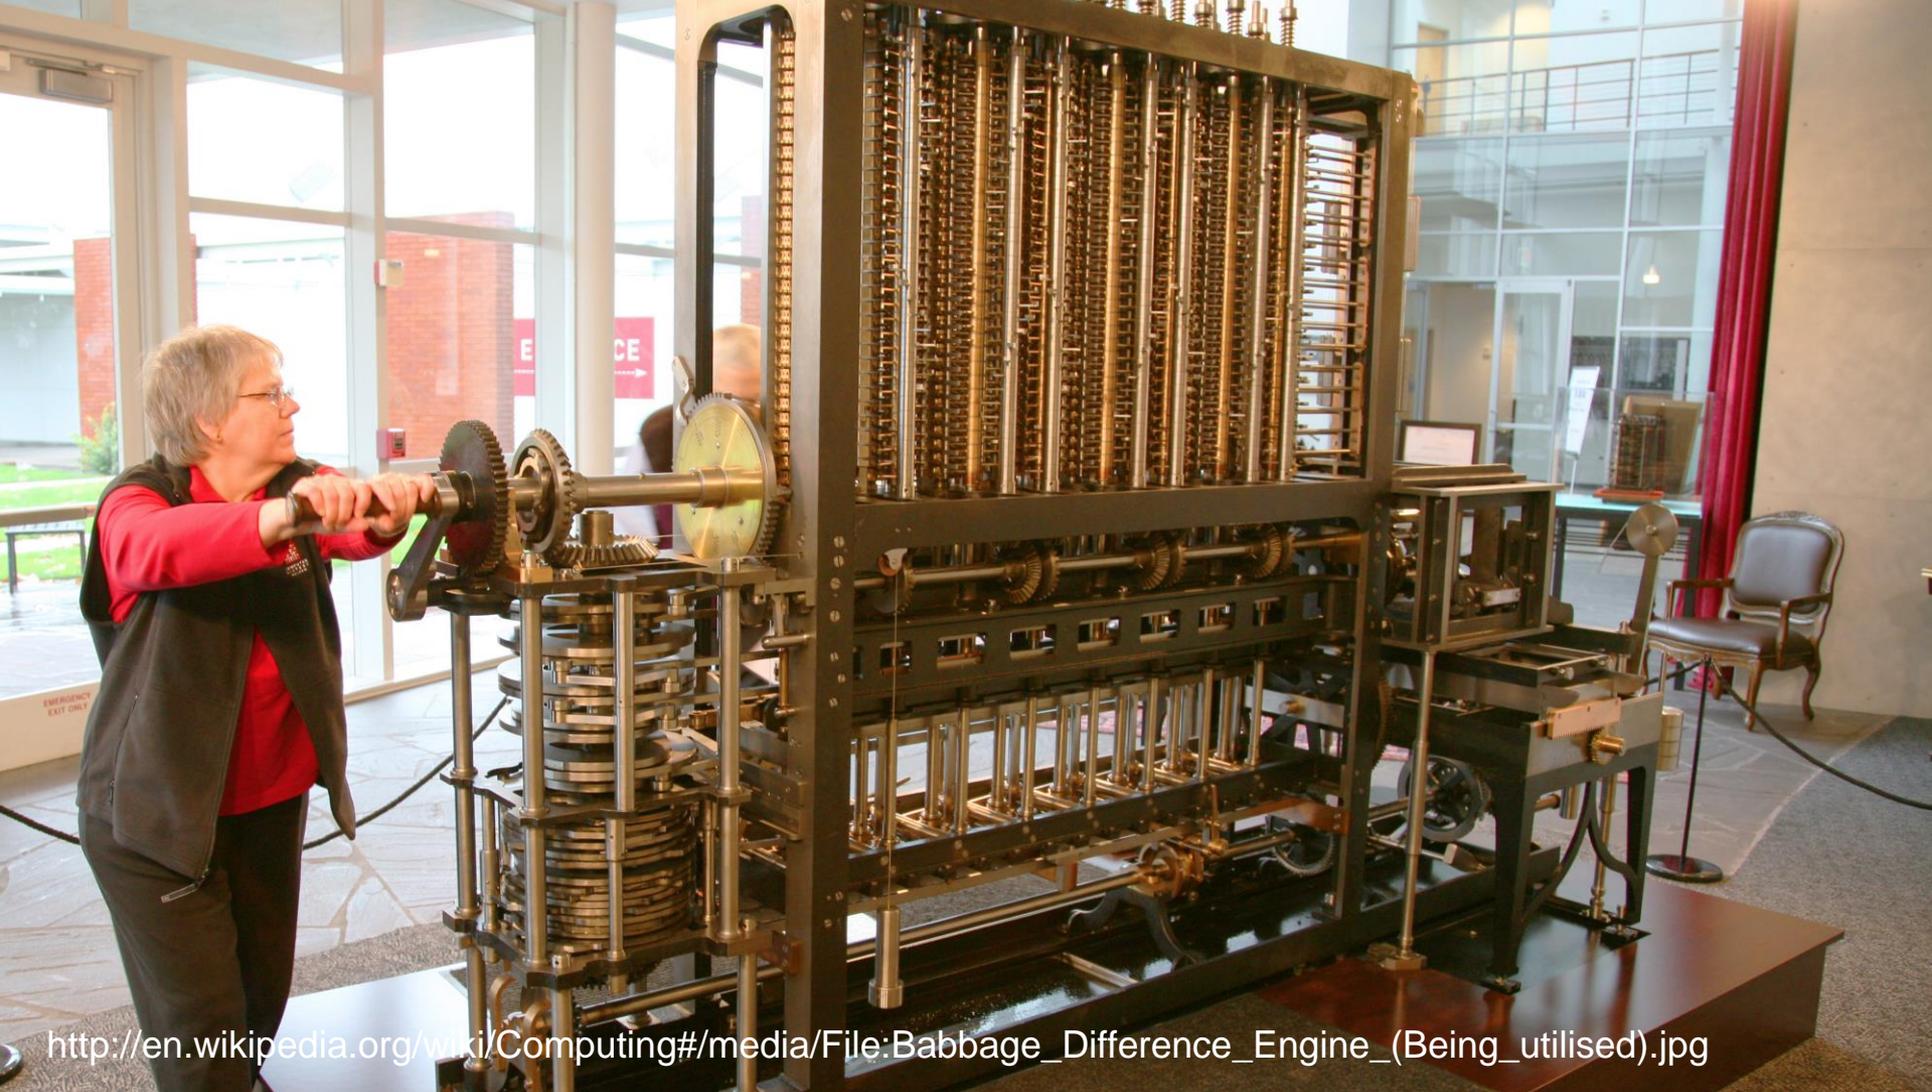

## Compute

448 Cores

3.5 TB RAM

# Now

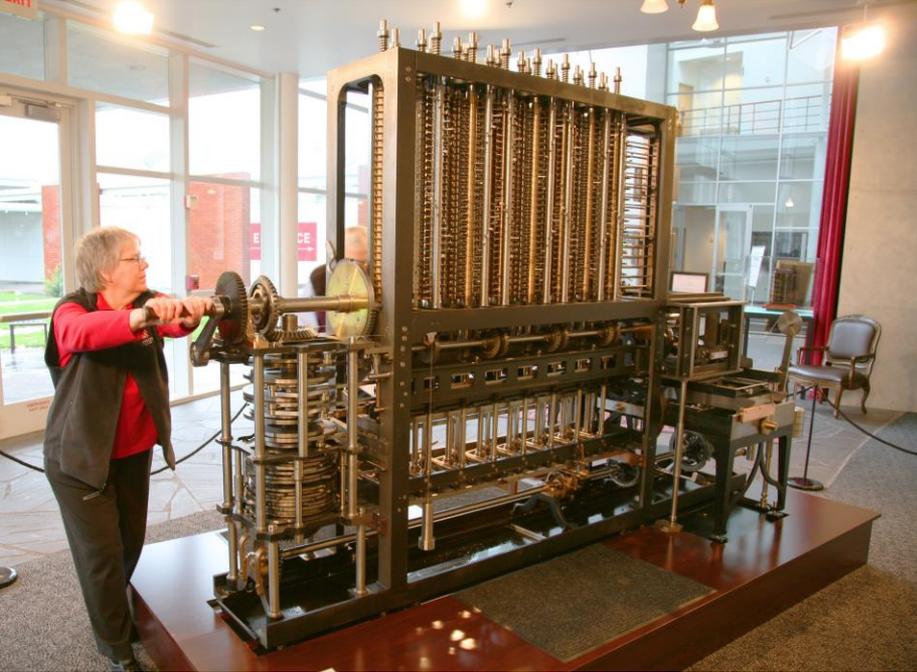

Physical servers: ~ **400**  
CPU cores: **3748** (physical cores)  
Memory: ~ **30** TB  
Storage: ~ **10** PB (Ceph SATA) / ~ 1300 Disks  
~ **100** TB (Ceph SSD) / 50 NVMe  
GPU: **8** Titan XP  
**16** T4  
**34** P100  
Network: **26** Cumulus Linux 40 & 100Gbs switches  
Dual 10 Gbs; upgrading to 100 Gbs (Q2 2019)  
L2 tunnel to campus networks (VPC)

Q tube Highlight All Match Case Whole Words

# Education

- Around 600 Openstack Tenants for just one university
- Tooling for mass provisioning of projects / users
- "Education flavors" for cost savings

<https://datascience.ch/>

# ACE-DATA: Antarctic Circumnavigation Expedition – Delivering Added value To Antarctica

<https://datascience.ch/ace-data-antarctic-circumnavigation-expedition-delivering-added-value-to-antarctica/>

# Use Cases

- Reproducible research & national projects
- Research / simulations
- Education (Network, Server Management, Genome Sequencing, Master Thesis Resources)
- Backup [of Backups]
- Moving “Enterprise” workloads to the cloud

# Real Challenges

- Project / User Provisioning
- User Interface
- Rating / Charging / Billing

## **Solution:**

Write our own software on top of OpenStack / Ceph

## Deployment Models:

...

*Community cloud.* The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.

# International cooperations

## Security

## Trust & Identity

## Network

## Infrastructure & Data Services

## Digital Solutions & Coordination

## More

# Communities (1)

- OpenStack / OpenInfra
  - Summits, Ops Meetups, PTG
  - Code review, bug reports, (few) code contributions
  - Respond to survey, moderate ops sessions, User Committee...

# Communities (2)—Think Globally, Act Locally

- Swiss Openstack User Group Meetup
  - Openstack Operator – bi-weekly Videochat (since Feb 2015)
  - Openstack Operators Slack Channel
- **SIG-CISS** (“Special Interest Group on Cloudy Interoperable Software Stacks”) under the **GÉANT Community Programme (GCP)**
- [meeting](#) here @Cern later this week

## Special events

# Openstack Operators Slack

The screenshot shows a Slack channel named "#general" within a workspace called "cloud-operators...". The interface includes a left sidebar with navigation options like "Jump to...", "Threads", "Channels", and "Direct Messages". The main area displays a message history with various users and their messages, including a reminder from Slackbot about a bi-weekly videochat. The bottom of the screen shows a message input field.

Saturday, May 20th

Monday, May 20th

**mr\_smurf** 10:36 AM  
Linus Nilsson from my team will be there

**kalle** 11:39 AM  
I'm here!

**Michael Bisig** 1:24 PM  
joined #general.

**zioproto** 3:57 PM  
I created the channel #kubecon-19-barcelona

Wednesday, May 22nd

**Leo** 9:49 AM  
joined #general along with trondham.

**simon** 2:24 PM  
Hello folks... I'm afraid I'll have to miss today's meeting again.  
If anyone could moderate, that would be awesome.

**simon** 2:24 PM  
Or maybe everybody is in Barcelona anyway :-)

**Slackbot** 3:00 PM  
Reminder: Join our bi-weekly videochat on <https://rendez-vous.renater.fr/OpenStackOperators>  
rendez-vous.renater.fr  
**Jitsi Meet**  
Join a WebRTC video conference powered by the Jitsi Videobridge

Thursday, May 23rd

**dharma sanassy** 12:23 AM  
joined #general.

+ Message #general

# IT 4 Research Day

- Speakers from the academic community
- September 2019 @ University of Fribourg
- Input from Ed Bugnion, EPFL at first IT4RD led to development of LTS

# User Community

- Various more or less known tools
  - <https://forum.cloud.switch.ch>
  - <https://cloudblog.switch.ch/>
  - @SWITCHengines

# Consistent tools & Engagement

Announcing a new user centric cloud community

- Helping users get the most out of cloud (SWITCHengines and commercial clouds)
- Bringing our various tools together
- Creating new contents (Documents, Templates, Webinars)
- Dedicated Community Manager
