**RE: Update From Leadership of the Ohio Society of Pathologists: Governor DeWine: Line-Item Veto Removing All Out-of-Network (OON) Billing Language**

Dear OSP members:

The Ohio budget was signed by Governor DeWine this morning. He did a line item veto, taking out ALL out-of-network (OON) billing language before signing. A legislative over-ride is possible, but, hopefully, not likely.

Wanted to say thank you to our membership, since Ohio pathologists sent out nearly 700 emails to the House and Senate conferees. I can't help but think that was a factor! It really is important to respond to Action Alerts when we get them.

Also, want you to know that OSMA and CAP both did a lot of work on our behalf. If you aren't currently members of these organizations, please reconsider.

Lori
