

A JOURNEY LIKE NO OTHER

EST. SNOWDON MOUNTAIN RAILWAY 1896

HERITAGE STEAM EXPERIENCE 2025

For pre-booked groups of 25+ passengers. Available from June to September.

Visit Hafod Eryri, the award-winning visitor centre on the summit of Snowdon, by travelling on our unique Victorian railway in an authentic heritage steam train.

Enjoy an authentic experience on our heritage steam trains, which run from June to September (weather permitting), with departures running weekdays only. The Snowdon Lily and The Snowdon Mountain Goat are accurate reconstructions of the Snowdon Mountain Tramroad & Hotels Co Ltd observation carriages, built on the original chassis and bogies from 1896 and pushed by original Swiss steam locomotives. This service seats up to 34 passengers per train, offering a spacious and comfortable journey.

We also have a free 72-seat theatre on site showing stunning drone footage of the mountain and the railway. Llanberis Station and the summit visitor centre, Hafod Eryri, both offer hot and cold refreshments at our catering outlets and a range of souvenirs, gifts and Snowdon merchandise is available in our retail shops. You can even send a postcard from our summit post box!

2025 PRICES

or email bookings@snowdonrailway.co.uk

*Rocky Valley fare only applies when trains are unable to access the Summit.

Railway Services

The Heritage Steam Experience operates from June to September weekdays only (subject to weather conditions).

Journey Duration

The Heritage Steam Service to the summit can last up to two and a half hours, which includes a stop of approximately 30 minutes at the summit.

Terms and Conditions

Groups are required to arrive 45 minutes before departure to allow sufficient time for comfort visits (there are no facilities on the trains), collection and distribution of tickets, watching the 10-minute spectacular drone footage of the train journey up Snowdon and boarding the train. Train departures cannot be delayed to allow for late arrivals as timings are critical for single track operation on the mountain. Low cloud and poor visibility do not stop the train from travelling. Passenger number confirmation is required seven days prior to travel and this will be the amount invoiced.

Booking Procedure

To qualify for group rates your party will need to be comprised of 25 or more fare paying passengers. Any bookings that are amended to below 25 passengers will be liable to pay the full fare. Groups need to book in advance to guarantee a time slot. Your group must pay prior to travel or on the day, in one transaction, at the ticket office. Registered coach operators and group travel agencies wishing to be invoiced for the balance can call for information regarding an account. Existing account customers do not need to re-apply.

Cancellations, Non Arrivals and Late Arrivals

Groups are required to confirm final numbers no later than seven days before travel. Passenger numbers cannot be changed on the day of your visit. If you arrive late for your departure time and miss your train you will still be charged for your whole booking.

Additional Information

Snowdon Mountain Railway operates a disabled access policy, our heritage carriages cannot accommodate wheelchairs however our diesel carriages can. We request that you call us to discuss requirements of wheelchair users and passengers with mobility issues. Only assistance animals may be carried on trains. The company reserves the right to close, temporarily withdraw or alter any of the facilities at any time without prior notice for technical, capacity or operational reasons or inclement weather.

Weather Conditions

The weather on Snowdon is very unpredictable and can change very quickly. Trains cannot proceed all the way to the summit if weather conditions become severe i.e. high winds or snow and ice on the track. In such cases, trains will terminate at Rocky Valley which is 5/8 of the way to the summit. Unfortunately, when there are severe winds on the mountain, we cannot allow passengers to disembark at Rocky Valley.

Diolch yn Fawr/Many thanks
