

# Next Generation App Development

Go native with Accenture and Google Cloud

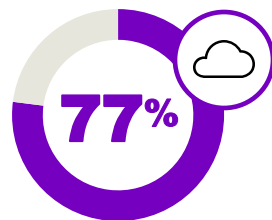

Whether you are born in the cloud or moving into it, Next Generation App Development allows you to enjoy all the benefits of your cloud transformation.

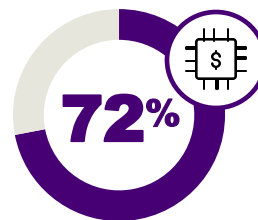

## Clients struggle to keep the pace

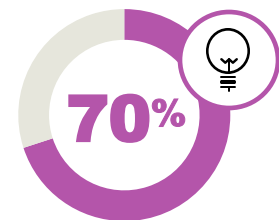

of legacy systems contain trapped value

have at least one app or some infrastructure in the cloud

can't migrate to new technology because of their technical debt

have legacy systems severely limits their IT function's ability to innovate

## The Cloud Journey

### Becoming cloud native

#### Cloud native applications

Building greenfield applications (coding) or modernizing legacy applications (re-coding) to be cloud native ready.

Improve developer productivity

97%

Increased developer productivity

#### Integrating applications and data

Creating conduits to move data between Google Cloud components to where it needs to go and modifying as needed.

Accelerated innovation

85%

Faster delivery of new products and services to market

### Migrate and replatform

#### Replatform and migrate apps

Replatforming apps to achieve cloud native benefits. Enable migration to cloud.

Simplified infrastructure

99.999%

Reliability security and compliance

Reduce Opex

30%

Reliability security and compliance

Reusable assets

Create new reusable assets and accelerators to innovate without legacy applications

# Go Native with Accenture and Google Cloud

## Our Offerings

|   |   |   |
|---|---|---|
|  <b>Cloud native apps everywhere</b><br>Write one, run on prem or in any cloud |  <b>Best-in-class security</b><br>Protect systems, data, and users |  <b>Network</b><br>Speed and predictable performance       |
|  <b>Hybrid &amp; multi-cloud</b><br>Enables choice and flexibility             |  <b>Fully managed no ops</b><br>Ease of use with serverless        |  <b>Embedded AI &amp; ML</b><br>Intelligence in everything |

## Getting Started

- 1**  
**Cloud native discovery**  
Connect with our NGAD team to learn how cloud native development on Google Cloud enables innovation at speed
- 2**  
**Co-create a Google Cloud native blueprint**  
Our NGAD team will work with you to design your cloud native solution
- 3**  
**Build proof of architecture**  
Partner together to develop proof of architecture to confirm solution approach
- 4**  
**Forge cloud native roadmap**  
Develop scalable plan on Google Cloud to achieve differentiated business outcomes

## Our Clients

|   |  |   |   |   |
|---|--|---|---|---|
|  <b>Products</b> |  <b>Communications, media, and technology</b> |  <b>Financial Services</b> |  <b>Resources</b> |  <b>Health and public services</b> |
|---|--|---|---|---|

## Our team
