ulrichINJECT CT motion™ Syringeless Injector

Less waste. Fewer steps. Do more with syringeless.

Utilizing a fully shielded, mobile design, the system infuses accurate, repeatable, patient-specific doses from a multi-dose vial, all managed through a simple touchscreen.

With less prep time, streamlined patient turnover and fewer steps, the automated syringeless technology of ulrichINJECT CT motion helps facilitate efficiencies that keep your radiology suite moving.

ulrichINJECT CT motion is used in CT procedures for the delivery of Omnipaque™ (iohexol) Injection contrast medium from GE HealthCare as supplied in Imaging Bulk Packaging. Also approved with single-dose Omnipaque and Visipaque™ (iodixanol) Injection.*

- Available as a mobile pedestal version or with a 3D ceiling mount
- Integrated CM heat retainers to maintain CM temperature in container
- Display unit for simple, safe, and quick operation
- Includes a 12" color monitor

Injectors

Medrad® Stellant FLEX® CT Injection System with Contrast Dose Management options

The Medrad™ Stellant FLEX™ helps you meet your financial, clinical, and organizational goals, so that you can continue to deliver quality patient care while maintaining healthy business operations.

Focus on patient safety with added system features

Increase operational efficiency with interoperability and design

Decrease departmental costs with syringe savings

Extend service life of your CT technology

New Options for Contrast Delivery

- 150 mL syringe option is offered in addition to the 200 mL syringe size for protocols that require higher volumes of contrast
- Syringe options offer you the flexibility to optimize contrast media use, reduce environmental impact, and cut the cost of waste disposal, all of which reduce operational costs

Certegra® Workstation

From study set-up and preparation to study administration and results management, the Certegra® Workstation serves as a workflow-centralized technologist interface to help users enhance efficiencies and patient care, enabling options such as:

- Modality Work List connectivity
- Point-of-care data capture
- Interconnectivity with Hospital IT systems including PACS, RIS and Speech Reporting Systems

Pedestal mount configuration includes:

- Dual injector head on pedestal with integral IV pole

Ceiling mount configurations include:

- Dual injector head on Overhead Ceiling Mount

Pedestal mount and ceiling mount configurations include:

- | | |
|--|--|
| <ul style="list-style-type: none"> • Syringe heat maintainer • Certegra Workstation with USB drive • DualFlow software • ISI-ready software to accept ISI900G integrated injector option† • Base control unit • 22.8 m (75 ft) head extension cable • 7.6 m (25 ft) base to display cable | <ul style="list-style-type: none"> • Power cord, North America • Power cord, international • Product information package • Operations manual • Installation, customer’s operational training at time of installation, and one year full on-site warranty in Bayer service countries |

Upgrades for Medrad Stellant FLEX and Stellant D

- Cat# E80151SF is used for an installed base customer who wants to upgrade their injector Medrad Stellant D or Stellant FLEX with integrated communication. Medrad installation is included with the purchase.

Cat#	Description	Warranty
E80151SF	ISI interface Communications Box for Bayer Injectors – for IB	E

BAYER Wall Mount for Mobile Applications

- Compatible with the MRXperion™, Stellant D™ and Stellant FLEX™ injectors
- Designed to securely fasten to a trailer’s wall for Bayer injectors in mobile applications
- Includes the foldable clamp, pad for injector head support, and smaller accessories to affix the desktop control unit

Cat#	Description	Warranty
E80141HG	BAYER Wall Mount for Mobile Applications	E

Certegra® P3T® option is a contrast-injection software that automates personalized contrast dosing at the point of care. Our offerings include:

Certegra® P3T® 2.0 Pulmonary Angiography CT

Certegra® P3T® 2.0 Abdominal CT

Certegra® P3T® 2.0 Cardiac CT

- Save/recall Certegra® P3T® 2.0 software protocols in protocol manager
- Create protocol presets based on radiologist preferences
- Enables generation of individualized contrast injection protocols, customized to the patient
- Increases consistency of individualized protocols amongst clinicians
- Certegra® P3T® (PA and Cardiac) software are used for CT angiography of cardiac structures, coronary arteries, chambers of the heart, thoracic and abdominal aorta, and pulmonary vasculature
- Utilizes the power of DualFlow technology (simultaneous injection of contrast and saline) to obtain functional cardiac data

P3T 2.0 Options

Cat#	Description	Warranty
E80141DE	Medrad P3T Cardiac 2.0 option for Certegra Workstation	H
E80141DF	Medrad P3T Abdomen 2.0 option for Certegra Workstation	H
E80141DG	Medrad P3T Pulmonary Angiography (PA) 2.0 option for Certegra Workstation	H
E80141DH	Medrad P3T 2.0 Bundle option for Certegra Workstation (Cardiac, Abdomen and PA)	H

Medrad Contrast Dose Management Software

A contrast dose management solution is available when the Medrad® Stellant® D Injector is combined with the Certegra™ Workstation and the contrast Dose Management software option. This enables a patient centric workflow designed to enhance personalized contrast delivery, protocol management, and data capture across the Healthcare IT landscape.

CT Point of Care software

Point of care data entry automates direct documentation:

- Auto-populate the accession number, study description, and more – directly from RIS
- Capture vital injection details, including contrast brand and concentration, saline, catheter gauge, injection site, lot number, expiration date and technologist IDs

Outbound interface packages

- Inter-connectivity between the scanner, injector PACS, RIS, and Radiology Reporting System allows captured data to be centrally mobilized and made instantly available, promoting productivity throughout the chain of care

Patient-centric workflow eliminates the guesswork

- Select patient (with demographic information) directly from the Modality Worklist/Patient Worklist
- Instantly tie appropriate contrast delivery directly to each patient

Interface connectivity drives complete and consistent documentation

- Auto-populate patient injection and study information into PACS, RIS, Radiology Speech Reporting Systems with Outbound interface options

Certegra Workstation

Medrad Stellant D Certegra software packages with Integrated CT Communication

** Ceiling mount configurations require catalog #E8007PJ (OCS III mounting plate).

Empower CTA+ Contrast Injection System

Visionary design with high performance engineering creates more connectivity in the CT suite.

- Digital technology increases user’s control and everyday efficiencies
- User-friendly safety enhancements at the patient’s side and in the control room
- Precise, easily accessible features enable immediate control
- Innovative design allows for real-time control and adjustments of contrast management
- Biomed service-friendly enabling efficient system maintenance

Saline Advance

- Delivered via a pendant switch or key on the injector at the patient’s side prior to starting the procedure
- Allows for the use of saline to test patency and vein integrity

Saline Jump

- Once opacification has been reached, allows for the immediate advancement to saline
- Minimizes the contrast a patient receives

eGFR Calculator

- Allows for the critical evaluation of kidney functions, before contrast is delivered

Patented EDA™

- Providing additional patient safety and peace of mind for the technologist
- Detects, notifies, and pauses procedure if clinically significant variation occurs
- Detects extravasation with patented EDA patch

Simultaneously Operating Dual Syringes

- Perform during loading and unloading procedures

E8005JD

Nemoto DUAL SHOT alpha 7 Injector

The Nemoto DUAL SHOT alpha 7 Injector with integrated NCOM option rounds out the GE Accessories family of products for your complete CT suite.

This CT injector can be a useful tool in helping your practice optimize contrast procedures. With its innovative design and intuitive operation, facilities, patients and clinicians alike benefit from this exceptional injection system.

Innovation

- New design with only two components
- Body Weight protocol for optimized image quality in IV contrast management
- Advanced protocols with dilution (simultaneous saline and contrast), multi-phases, and saline flush
- Innovative syringe design provides the option of off-line filling of syringes
- SD memory card for quick and easy software updates
- Dual control of injection pressure to secure injection continuity

Ease of use

- Intuitive anatomical protocol selection complements the GE CT scanner protocol setup
- Minimal button presses required to create protocols
- Real-time injection pressure graph
- Indicator of selected protocol name
- Thumbnail style display for visual protocol settings
- Easy syringe loading and unloading, one touch syringe adapter with snap lock
- Automatic Quick Purge button on head side
- Air Check button on console and head
- Adjustable quick return for easy syringe refill
- Timing bolus injection
- Needle placement test
- Home button for quick return to main menu
- Injection results screen of the last 100 injections, in a table or pressure graph format
- Low pressure warning
- Adjustable maximum pressure per protocol

E8004KB/KC/KD

Nemoto DUAL SHOT alpha 7 CT Injector packages – stand alone injector

Cat#	Description	Warranty
E8004KA	Nemoto DUAL SHOT alpha 7 CT Injector – pedestal mounted	E
E8004KB	Nemoto DUAL SHOT alpha 7 CT Injector – ceiling-mounted, short post (58 cm) [†]	E

E8004KD	Nemoto DUAL SHOT alpha 7 CT Injector – ceiling-mounted, long post (100 cm) [†]	E
E8004NG	Nemoto Mounting Plate for ceiling mount injector	L

Note: DUAL SHOT alpha 7 Injector packages do not include any consumables.

[†] Requires E8004NG mounting plate.

DUAL SHOT alpha 7 NCOM Class 4 Injector with Integrated CT Communication

Designed to save time and increase CT scan throughput, the Nemoto DUAL SHOT alpha 7 CT Injector is validated for use with GE's Enhanced Xtream Injector option on selected scanners – enabling CAN Class 4 functionality for seamless communication. The resulting injector and CT scanner integration benefits include:

- Reduced overall programming time
- Improved scanner and injector protocol matching through programming of the injector from the scanner console
- Better control over contrast injection procedure with a synchronized CT scan start time. A single button-press on the scanner starts both the injector and scanner
- Preview injection parameters before beginning the scan
- Complete post-study reviews of injection results at the scanner console
- Automatic documentation of the injection results in PACS

GE HealthCare offers syringe starter kits for all injectors.

The Medrad Stellant injectors on ceiling mount require the Ceiling Mounting Plate cat # E8007PJ.

The Nemoto DUAL SHOT Alpha 7 on ceiling mount requires the Ceiling Mounting Plate cat # E8004NG.

For complete details for the injector portfolio refer to pages CT 4-12.

Cardiac Gating

IVY 7800 Cardiac Trigger Monitor for CT, PET/CT and SPECT/CT

The Model 7800 is IVY Biomedical's fifth generation cardiac trigger monitor with the intended use primarily on patients in applications requiring precision R-wave synchronization. Incorporating a simple, easy to use touchscreen interface, the 7800 displays two simultaneous ECG vectors along with the patient's heart rate.

Intuitive Operation

Acquiring a trigger ECG can often be a challenging task, and selecting the right ECG vector can be problematic. The 7800's AUTO lead select feature (Trigger lead only) will determine which lead (I, II or III) provides for the best amplitude-to-noise ratio of the ECG signal and thus a more reliable cardiac trigger.

Patient Monitoring

When required, high and low heart rate alarm limits can be adjusted to bracket a patient's heart rate, so that a violation of these limits produces an audible and visual indication of the alarm.

Improved Communications

The Model 7800 has an electrically isolated Ethernet connector with 2 channels, enabling communication between the monitor and the external console, as well as the gantry display. An integrated USB drive allows users to store and retrieve ECG events for retrospective analysis.

Integrated Chart Recorder

Prints ECG strips on demand for manual review.

Precision Engineering

A color Trigger Mark clearly indicates the timing of each synch pulse with respect to the ECG, providing a visual reference for timing and synchronization.

ECG Viewer Software

Included on the USB drive is an easy to use ECG viewer specifically designed to enable detailed analysis of individual ECG.

Touch Screen Operation

Quickly adjust alarm limits, or make adjustments on the fly using the on-screen menus and buttons.

Configurations include everything you need to get started

The Kit includes:

7800 Cardiac Trigger Monitor, set of 4 RT lead wires – 30 in, low noise patient cable – 4 lead, Ethernet Internet cables, ECG adult electrode (box of 40), cord-set hospital grade (12 ft), NuPrep Gel, USB Memory Stick, Recorder Paper, Roll Stand for model 7000 series and IPC cable.

IVY[®] CTM-400 Cardiac Trigger Module for CT

IVY Biomedical’s CTM-400 Cardiac Trigger Module is a sophisticated Computer Tomography (CT) gating module that synchronizes a patient’s ECG to help remove motion artifacts when generating cardiac or other physiological images.

Imaging Applications

The CTM-400 module is intended primarily for use on patients in applications requiring precision R-wave synchronization such as timed imaging studies. Simultaneously ECG vectors and the ECG trigger are sent to the CT system.

Intuitive Operation

Built-in LED indicators provide visual status of power and system communication while a varied intensity light pipe illuminates the perimeter of the module during use. An RS-422 D-sub 15-position standard density network interface connector provides two-way communications between the module and the external console.

ICM Cardiac Assembly Collector Kits

The IVY CTM-400 Cardiac Trigger module is completely integrated with select GE HealthCare CT scanners and installed directly onto the gantry table with bridge and tray assembly included.

Respiratory Gating Systems

C-RAD Sentinel Respiratory Gating System

C-RAD Sentinel offers an easy to use, laser based optical surface scanning system with functionality for 4D CT reconstruction and gated imaging in a CT room.

4D Imaging

The key to a precise treatment plan and dose delivery is knowing the tumor location. C-RAD Sentinel offers an accurate and easy to use system for 4D Imaging in advanced radiation therapy. It covers the full range of your 4D requirements to help ensure high quality images as well as a reproducible setup for imaging and treatment. The workflow has been developed for simplicity and ease of use.

- **Marker Less:** The optimal respiratory points are selected in the software with a single mouse click
- **Audio Coaching:** In-room speakers assist the patient to follow the optimal breathing pattern
- **Multiple Tracking Points:** Advanced correlation models ensure detection of the respiratory pattern in the thorax and abdominal region

Improved Workflow

Breath-hold, deep inspiration and coached/free breathing modes are all supported, along with different triggering modes. This provides maximum flexibility to adapt to different patient capabilities and clinical requirements.

E8819LC

Cat#	Description	Warranty
E8819LC	Sentinel 4D CT Respiratory Gating Device 700 x 200 x 200 mm (27.6 x 7.9 x 7.9 in), 8 kg (17.6 lb)	C

Varian RGSC Respiratory Gating System

Respiratory Gating for Scanners (RGSC) from Varian Medical Systems is used to characterize the patient’s respiratory patterns and monitor the patient position during diagnostic CT image acquisition. Using a single infrared camera and a reflector block, the system tracks the patient’s respiration pattern, range of motion and provides recorded information to the scanner.

- Available in a couch-mount or wall/ceiling-mount configuration
- An integrated database with the ARIA® oncology information system and Eclipse™ treatment planning
- The software user interface is intuitive and helps simplify the image acquisition and treatment delivery process

Laser Systems

CYRPA™ HIT3 Laser System

The HIT3 system consists of:

- Three mobile lasers that generate the sagittal vertical line and two horizontal lines
- Two motorized HIT fixed lasers that generate a vertical line on each side of the patient
- The key advantage of the HIT3 configuration is that all the lines are in independent boxes, so they can be located higher in the room. This means that adjustable positioning/fixation of transversal lasers enables deeper laser-line projection (for example, for larger patients)

Adapted to each treatment room, HIT (High Impact Technology) positioning systems distinguish themselves by allowing you to map patient coordinates with accuracy up to +/- 0.1 mm. Plus, it makes the adjustment of the equipment automatically and faster. The HIT system helps to optimize the time spent treating patients and improves the usability for the professionals operating the equipment.

Instant laser color change to red or green

- With a touch of a button the laser beams can be red or green, changeable at any time
- The user can also decide the color for each laser line independently
- The change from one color to the other is done remotely and instantly

SmartPhantom CT

- The laser positioning device comes with the CYRPA SmartPhantom™ CT which offers an automated calibration process and assures a +/- 0.1 mm accuracy
- The device, placed on the scanner table and positioned at the isocenter of the laser can, due to its many integrated sensors, provides accurate set points for all the laser beams
- No manual adjustments are needed

The automatic calibration process takes about 10 minutes.

LAP Laser DORADOnova 3 Laser System

The DORADOnova® 3 laser system together with the LAP laser CARINAnav® control supports the crucial and important marking process and conforms to your department's workflow. You select the mounting version and the laser color. Offering various configurations and mounting options, the system is designed to meet any and all room requirements.

LAP DORADOnova 3 with CARINAnav®

Laser adjustments are made via remote control.

LAP Laser DORADOnova 3 Laser Control

DORADOnova laser systems are operated by CARINAnav®, consisting of hardware and software. With CARINAnav®, LAP provides you a control system to move the lasers and interact with your RT planning system. Once connected to your RT planning or virtual simulation system the data can be imported via LAP file format or DICOM.

CARINAnav® – Intuitive, Easy, Portable

CARINAnav’s tablet PC is a portable wireless laser control system in a compact design. Patient data is imported via Bluetooth or Wi-Fi interface.

CARINAnav® has been designed to be the platform for future laser alignment tasks. Modular thinking and open design offer the base for developing solutions covering the requirements to come.

- Portable – Move to your preferred working location
- Flexible – Select patient data, enter this data or move the lasers manually
- Intuitive – Touchscreen navigation allows for quick startup and auto reconnect
- Secure – User login required and permanent laser position feedback

CARINAnav

Flat Table Tops

Elekta iBEAM evo CT Overlay

- Equivalent geometric and dosimetric configuration to iBEAM® evo Couchtop
- Integrated indexing system compatible with a wide range of existing surface mounted industry standard accessories
- Designed to help reduce image artifacts
- Quick and easy installation and removal of the iBEAM evo CT Overlay

The iBEAM® evo CT Overlay facilitates new potentials for treatment planning and simulation. The iBEAM evo CT Overlay is identical in design, geometry and dosimetric properties with the iBEAM evo Couchtop and offers the total departmental solution in combination with an iBEAM evo Couchtop (installed on the LINAC table).

The integrated indexing system:

- Optimizes patient positioning accuracy and reproducibility, reducing patient setup time, minimizing patient setup inaccuracies further in the treatment chain and maximizing the stability of positioning devices

Specifications

Material	Carbon-fiber sandwich with foam core
Weight	11 kg (24 lb)
Dimensions (Length x Width)	2000 mm x 530 mm (79 in x 21 in –approx.)
Indexing	BodyFIX 14 indexing system
Estimated Useful Life	10 years
Non-Compatibility	Not compatible with Varian couch-mount respiratory gating systems

CIVCO® 3000 Series Couchtop™

- Facilities who care for cancer patients know the importance of a treatment table that allows you to match the patient’s position that occurred during the CT simulation
- The CIVCO® 3000 Series Overlays are constructed of rigid carbon fiber and have indexing points running down the side
- These indexing points make it possible for facilities to offer accurate and reproducible patient positioning from imaging room to the cancer treatment room
- Prodigy™ indexing at 14 cm increments

Cat#	Description	Warranty
E8505MJ	CIVCO CT Overlay for GE CT & PET/CT systems, (228 x 53 x 5.1 cm); features Prodigy indexing and includes Prodigy Lok-Bar (53 cm) and 1 year manufacturer warranty	L

CIVCO® Universal Couchtop™ 1 Piece

- The CIVCO® Universal Couchtop™ 1 Piece is an excellent IGRT and SBRT solution with a uniform design and no junctions
- This couchtop offers a dosimetrically matched couchtop for most major CT and Linac models
- Prodigy™ 2 indexing at 7 cm increments

Cat#	Description	Warranty
E8516AA	CIVCO Universal Couchtop 1 Piece, for GT1700 table; includes carbon fiber indexable couchtop, mounting hardware, Prodigy2™ Lok-Bar and 5-year manufacture warranty	ZZ
E8516AC	CIVCO Universal Couchtop 1 Piece, for GT2000 table; includes carbon fiber indexable couchtop, mounting hardware, Prodigy2™ Lok-Bar and 5-year manufacture warranty	ZZ

Compatibility: Discovery RT®, Discovery CT 590 and Optima® CT 580

CIVCO® Universal Couchtop Long Extension

- The UCT LE (Universal Couchtop™ Long Extension) is a comprehensive solution for enabling advanced treatments in your clinic
- Specifically designed to answer the demands of IGRT delivery, the CIVCO® UCT LE contains no rails or junctions in the treatment area to help facilitate better dose delivery and target coverage
- This couchtop is dosimetrically matched for most major CT and Linac models
- Prodigy™ 2 indexing at 7 cm increments

Cat#	Description	Warranty
E8516AB	CIVCO UCT LE (Universal Couchtop Long Extension), for GT1700 table; includes carbon fiber base with carbon fiber rectangle extension, mounting hardware, Prodigy2™ Lok-Bar™, Storage Rack and 5-year manufacture warranty	ZZ
E8516AD	CIVCO UCT LE (Universal Couchtop Long Extension), for GT2000 table; includes carbon fiber base with carbon fiber rectangle extension, mounting hardware, Prodigy2™ Lok-Bar, Storage Rack and 5-year manufacture warranty	ZZ

Compatibility: Discovery RT®, Discovery CT 590 and Optima® CT 580

See page CT 26 for optional extensions available.

CIVCO® UCT LE Optional Extensions

Full flexibility with many extension options to help facilitate patient imaging, simulation and treatment. These extensions feature a unique profile allowing for direct attachment of all CIVCO Body Pro-Lok SBRT bridges, Solstice™ and trUpoint ARCH™ SRS/SRT Systems, and head & neck thermoplastics.

Wired Rectangular

- An embedded wire rectangular extension option is available to assist with patient alignment. The standard rectangular extension is provided in the GE offering

Red lines in image shows wire location.

Kevlar

- Compatible with Varian's Calypso® System

Type-S™

- Compatible with Solstice™ SRS System and Type-S Thermoplastics including ClearVision™ open face masks designed for use with vision/camera systems

Grid

- Helps minimize surface dose and skin reactions

Posifix®

- Compatible with Solstice and trUpoint ARCH SRS/SRT Systems and Posifix Thermoplastics

UCT Head

- Extends the patient an additional 17 cm

ProForm™

- Unique head & neck patient immobilization solution for proton therapy

End Plates for Varian

- Allow the use of various QA devices

To order the Optional Extensions contact CIVCO at:
Phone: 800-842-8688 (US/Canada) **Email:** info@CivcoRT.com

Diacor Flat Tabletop

- The Flat Tabletop, or “CT Overlay,” provides a secure, flat surface for CT Simulation applications, consistent with the treatment couch, for accurate and reproducible patient positioning
- Varian Exact technology and indexing immobilization patient positioning system along entire length of the overlay
- Carbon fiber construction with foam core provides a durable, lightweight device with outstanding imaging properties
- Easily locks and unlocks from the CT Table, providing easy transition between therapy and diagnostic procedures
- Measures 85.25 in (L) × 20.87 in (W) × 1.62 in (H)

CT Guided Intervention

IMACTIS® CT-Navigation™

CT-Navigation is a guiding and tracking stereotactic solution for percutaneous CT-guided Interventional Radiology. It displays simulated images on a computer screen of the interventional instrument while also displaying images of the targeted organ(s) allowing the user to anticipate the instrument's trajectory.

Everything you need to get started

- CT-Navigation stand-alone workstation
- CT-Navigation software
- 24 in touch screen
- Application setting
- User documentation
- Mobile cart
- Training/demonstration phantom
- Black pelican case
- 10 NaviKits
- Initial 3-day, in-person customer training

NaviKit

NaviKit is a single-use kit dedicated for percutaneous interventions performed with IMACTIS CT-Navigation. It is used with a non-sterile needle holder for planning.

- Offered in quantity of 5 or 25 Navikits/box

Cat#	Description	Warranty

CT Software

Optellum Virtual Nodule Clinic with Lung Cancer Prediction

World's first and only AI-based lung cancer clinical solution for early lung cancer diagnosis which supports:

- Nurse navigators and pulmonologists with automated identification, management and tracking of patients with reported nodules using Natural Language Processing (NLP) based patient discovery AI
- Pulmonologists with optimal clinical decisions driving earlier cancer treatment and fewer invasive procedures on benign nodules

Lung Cancer Prediction AI is a “radiomics”-based digital biomarker which computes a nodule malignancy score from a CT image.

How it works

1 Patient discovery AI uses natural language processing (NLP) to automatically identify patients with incidentally detected nodules from radiology reports.

2 Patients with lung nodules are presented in Virtual Nodule Clinic for clinicians to schedule follow-up.

3 Virtual Nodule Clinic automatically builds timeline, with prior CTs and reports.

4 Physician clicks on a suspicious nodule, all marked nodules are longitudinally tracked.

5 The Optellum™ AI computes a Lung Cancer Prediction (LCP) score from the CT image.

6 Physician diagnosis and recommended treatment is informed by the power of AI.

Mindways QCT PRO™ Spine and Hip BMD System

Features/Benefits:

- Complete Spine and Hip QCT BMD system
 - 3D Volumetric Spine module isolates and measures only trabecular bone for high sensitivity, and early detection of bone loss and therapeutic response
 - CTXA-Hip module produces DXA-equivalent hip measurements
 - QCT PRO framework manages the patient database, quality control administration, and report generation
 - All BMD results are provided as printed, color reports, and can be exported to PACS
- One set of software can support multiple CT scanners
 - Package Includes:
 - Software with User’s Guide
 - New Solid QA and Calibration Phantoms and accessories
 - SlicePick for extracting a subset of images from a larger data set (e.g. an abdomen CT)
 - One day, on-site installation and training

CC TV System

Closed Circuit TV System

This closed-circuit TV camera package allows for visual monitoring of your patients during their scans and now features an optional integrated recording feature for high-risk patients and for security purposes. Ceiling or wall mounted fixed camera is unobtrusive and transmits high-quality color images in real time to the operator's console where a 17 in TFT LCD monitor is located. A dual camera system is also available allowing split-screen viewing by the technologists to see both the front and back sides of the bore simultaneously.

CC TV System includes:

- 17 in TFT LCD color monitor
- Compact color camera(s) with lens
- Signal interface box
- Exterior-mount power supply
- Mounting brackets for camera(s)
- Set of 3 cables: 10 ft, 40 ft, 100 ft
- Remote control

Slickers and Equipment Covers

Table and Footswitch Slickers

- A slicker cushion is foam material (2.54 cm/1 in thick) fully encased in a protective vinyl slicker cover
- A slicker cover is a vinyl cover made to fit an existing table pad
- Easy to install and comfortable for patients
- Will not interfere with normal operation of the table
- Clear PVC plastic facilitates faster cleanup of blood and fluids
- Prevents contaminate buildup in hard to clean areas
- Thermosealed seams and flaps
- Footswitch slickers and table skirts help protect electronics
- Footswitch slicker includes Velcro® for secure fit

See pages CT 33-35 for Slicker Reference Guides.

Sterile Covers for CT

Sterile Covers for CT Interventional Procedures

Soft, clear, sterile polyethylene covers help protect equipment from fluid contamination during CT interventional procedures.

- Sterile Starter Kit includes the following items for each procedure, 15 procedures per case:
 - (1) remote control cover (8.4 × 83.8 cm) with clips to secure cover to cord
 - (1) hand control cover (8.4 × 83.8 cm) with clips and attached latex bands for securing hand control to physician’s arm for greater mobility
 - (2) CT rail covers (38.1 × 76.2 cm) w/6 tape pieces for securing. Slip cover allows cover to be slid around control bracket, then taped together
 - (1) monitor handle cover (21 × 8.9 cm) for sterile adjustment of CT monitor, fastens to handle with attached adhesive strip
 - (2) hand grip/remote control covers (10.2 × 25.4 cm) with latex bands for securing to hand grip

Cat#	Description	Warranty
E8003CF	Patient Positioning Wedge Kit – 12 pads	H

CT Child Positioner Kit

- Designed for ease of use and enhanced patient comfort, while still helping to reduce body motions during supine studies
- Diagnostic images and staff efficiency may be improved because the child's entire body is restrained
- By reducing body motion and the need for retakes, it may also help to reduce patient exposure

• Replacement pieces also sold separately

Complete kit (E8003S) includes:

- (1) child positioner assembly (cradle only)
- (1) child positioner pad
- (3) sizes of child positioner head cushions
- (1) wide body strap – 10 in (W) x 39 in (L)
- (1) narrow body strap – 5 in (W) x 39 in (L)
- (4) wrist straps
- (3) head straps
- (6) foam sponges
- (1) thick cradle pad

E8100JJ	CT Logbooks (5/box)	H

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and under voltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Dynamic Sag Corrector

Dynamic Sag Corrector (DySC)

- Corrects for voltage sags at the system, department or facility level
- DySC is optimized for fast sag detection and response time (voltage detect time of 1 ms; sags are corrected with a peak voltage response time of 1.5 ms)
- A green power solution at > 99% energy efficiency, the DySC has no batteries and over time can offer lower cost of maintenance
- Smaller footprint and lighter weight than comparable (kVA) UPS systems
- Service Contracts offered by GE Healthcare

E4505SM/E4505SN

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

AC Lighting Controllers

AC Lighting Controllers

- “X-ray in Use” warning and room lighting control panel provides a low voltage interface between the “X-ray in Use” warning lights, interior room general lighting systems and the system
- Convenient, push on/off pre-wired footswitch for control of room general lighting
- Enhances servicing safety by the use of a low voltage interface circuit between the imaging system and the line voltage lighting system

GE Adventure Series – Customized Rooms

The GE HealthCare Design team will work with a small group of your hospital staff to create a custom layout and select themed graphics from the existing catalogs, or at times, create new appliques that fit the space and flow of each room.

In today's crowded markets, standing out and creating a unique patient experience can be a key to success. While Adventure Series provides a range of creative options to choose from, GE HealthCare understands that some discerning facilities desire something even more unique.

For those of you seeking a product experience custom tailored to you and your facility, we are pleased to offer you the ability to customize your Adventure Series room. GE HealthCare will work with you through the custom design process to create the experience you envision.

Adventure Series can be customized for the following spaces:

- Scan rooms
- Hallways
- Waiting rooms
- Uptake rooms
- Cafeterias
- Stress Lab
- Exam rooms

Injectors

Medrad® Stellant FLEX® Injection System for Contrast Enhanced Mammography

The MEDRAD Stellant FLEX helps you meet your financial, clinical, and organizational goals, so that you can continue to deliver quality patient care while maintaining healthy business operations.

Stellant FLEX Injection System

- Compatible with GE SenoBright HD Contrast Enhanced Spectral Mammography
- User-driven design and easy-to-use interface of MEDRAD Stellant FLEX guides efficient Mammography workflow
- Staff experience with FLEX Contrast Injection System drives satisfaction and standardization

Stellant FLEX Enhanced Benefits

- Accurate contrast dose administration for better visualization of abnormalities in breast tissue
- Consistent delivery of contrast for enhancement of tumor tissue
- Simple installation to minimize operational disruption
- Small, intuitive and easy to use design to maximize operability

Certeгра® Workstation

From study set-up and preparation to study administration and results management, the Certeгра Workstation serves as a workflow-centralized technologist interface to help users enhance efficiencies and patient care.

MEDRAD Stellant FLEX Configuration

Pedestal-mount configuration includes:

- Dual injector head on pedestal with integral IV pole
- Syringe heat maintainer
- Certegra Workstation with USB drive
- DualFlow software
- Base control unit
- 22.8 m (75 ft) head extension cable
- 7.6 m (25 ft) base to display cable
- Power cord
- Product information package
- Operations manuals
- Installation, customer’s operational training at time of installation, and one year full on-site warranty in Bayer service countries

More Choices for Operational Efficiency

Options for Contrast Delivery

- 150 mL syringe option is offered in addition to the 200 mL syringe size for protocols that require higher volumes of contrast
- Syringe options offer you the flexibility to optimize contrast media use, reduce environmental impact, and cut the cost of waste disposal, all of which reduce operational costs
- **Colored beacon technology**
A clear indication of the presence of fluid in the syringe with an orange colored identifier
- **MEDRAD Fluidots embedded on the syringe**
Offers additional assurance of fluid in the syringe prior to injection
- **Ultra-clear barrel design**
Further enhances the visualization of fluid to help prevent user error
- **2D barcodes**
System uses barcodes to determine: syringe size, expiration date, if the syringe has already been used

SensorySuite for Mammography

An interactive experience centered around your patient.

Sight & Sound

A flat-screen monitor will display soothing video and relaxing ambient sounds of your selected environment.

Sight

A flat-screen monitor on the wall will display a slide show of photos of your selected ambience.

By focusing on your patients, we've re-invented the experience...and addressed many of the reasons why women avoid mammograms.

Designed to stimulate a woman's senses, SensorySuite can distract her from the perceived discomfort, pain, and anxiety of a mammogram.

SensorySuite lets your patient choose the environmental ambience she prefers for her mammogram:

- Seaside
- Garden
- Waterfall
- Mountain
- Zen Garden
- Natural Rhythms
- Marine
- Mountainside
- Spring Renewal

Designed to help you stand apart, SensorySuite helps enable you to:

- Improve the mammography experience of every woman
- Increase patient compliance with screening mammography
- Promote the high level of patient care you provide
- Differentiate your healthcare facility from others in your area

Advertise and promote your SensorySuite solution to women and referring physicians in your area with our comprehensive marketing tool kit of promotional materials.

Take mammography to a whole new place!

ABUS System Consumables

ABUS Membranes

The ABUS disposable scan membrane provides comfort to the patient during the 3D image acquisition. The flexible, polyester, mesh fabric stabilizes the breast tissue and enables better image quality during the scan. The membrane is single-use only which eliminates the risk of cross-contamination and the need for sterilization.

ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS, and somo-v™ ABUS Platinum systems

Catalog #E8340AB

Curved membrane dimensions:
229 mm (L) x 213 mm (W) x 19 mm (D)

POLYSONIC® Ultrasound Lotion

POLYSONIC® Ultrasound Lotion is an acoustic coupling lotion that is hypo allergenic and has a light pleasing scent.

Protex™ Ultrasound Disinfectant Wipes

Protex™ one-step cleaner disinfectant kills more than 30 pathogens including HIV, H1N1 and MRSA, while remaining safe for even the most sensitive surfaces. The pre-moistened wipes are easy and convenient to use.

Biopsy Solutions

Ultra DBI 3-in-1 Interventional Mammography Table

The Ultra DBI™ maximizes department space by incorporating upright and decubitus stereotactic breast biopsy, as well as mammography into one bariatric capable platform, increasing throughput and increasing continuity of care.

- Easy transition from chair to table provides an all-encompassing platform for varying patient population
- Accommodates both upright and decubitus positions for stereotactic breast biopsy, as well as mammography and breast ultrasound
- Can also be used as the IB contrast injection chair for CESM (Contrast Enhanced Spectral Mammography) or other interventional procedures
- Optional IV pole accessory for CESM exams
- Bariatric capable patient weight capacity of 500 lbs establishes continuity of care
- Reduce turnover time and increase throughput, even in small exam rooms, with interchangeable head and foot rests eliminating the need to reposition the table to accommodate each patient
- Optional battery for use when a plug-in outlet is not available

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

Injectors

Medrad Mark 7 Arterion Injector

The Mark 7 Arterion™ is light, maneuverable and easy to use. Less time positioning and setting up the Arterion means more time with the patient. The clearly visible and intuitive user interface guides you through proper set-up and highlights the information you need to perform injections confidently.

- Ergonomic handle for easier maneuverability
- Front load syringe for simple insertion and clean removal
- Syringe provides a clear view of the contrast
- Light injector head with a handle to make it easier to position for injection
- Smooth arc design of pedestal for extended reach
- Small footprint which increases mobility around a busy lab
- Bright and colorful intuitive user interface is designed to highlight the information you need
- Highlighted armed state to know when the system is ready to inject
- History and protocol screens to easily access the amount of contrast delivered to the patient and to store and recall protocols

Table Shields

Kenex X-ray Shields for Interventional Tables

Our portfolio of Lower Body Shields help substantially reduce exposure to scatter radiation emanating from the table or patient's body. We offer a dedicated head end shield as well as a line of standard table shields from Kenex. They are compatible with the following GE Interventional tables:

- Omega IV
- Omega V
- Innova IQ/IQ OR

NOTE – not compatible with the Maquet table

Kenex Table Head End Lower Body Shield

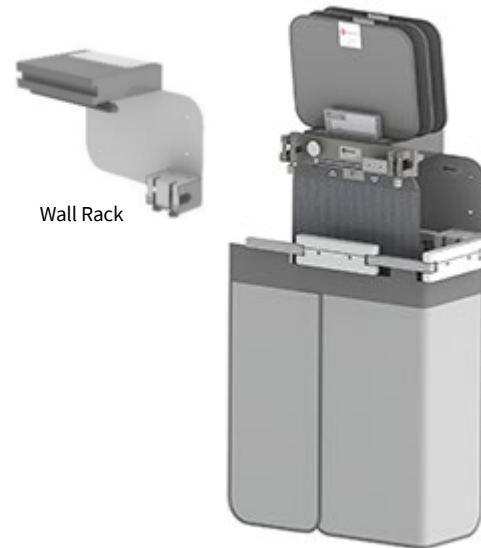

- The radiation exposure shield is dedicated to operators standing near the patient's head, fully integrated with the GE table
- No additional wheel is needed to support the shield, facilitating placement of all other equipment
- Interventional Radiology: Helps reduce exposure for physicians and technologists in all intrajugular and upper chest access procedures
- Interventional Cardiology: Helps reduce exposure for echographers during structural heart procedures such as left atrial appendage closure (LAAC)
- The shield is supplied with a table top adaption bracket allowing it to easily attach to the head end
- The two side curtains (one 24 cm wide, one 68 cm wide) can each attach to either the left or right side of the central section
- Dimensions – 119 cm (W) x 83 cm (H) with the lift-off top shield, 60 cm (H) without the lift-off top shield
- Shield Weight (excluding table adaption bracket) – 13.2 kg / 29.1 lb

Catalog consists of:

- 0.5 mm Pb protective curtain
- 1 central section 37 cm, 1 pivotal section 24 cm
- 1 pivotal section 68 cm
- 1 carbon fiber support fitting on table head end
- 3 lift-off top shields, 23 cm (H) x 29 cm (W)
- 1 adaptation bracket
- 1 wall rack

Head End Table Shield

Wall Rack

Shields stored on Wall Rack

Cat#	Description	Warranty
E30591JK	Kenex table head end lower body shield, 119 cm (W) x 83 cm (H), includes (3) 29 cm lift-off top shields, includes wall rack and adaptation bracket	C

Kenex Standard Table Shields

- Shields easily mount to either side of the table allowing the pivotal arm to always face the head end
- An attachment bracket slides onto a 25 mm high tableside accessory rail (maximum 11 mm thick)
- Catalog # E30591J/JL and E11181EA are configured to fit the 25 mm high tableside rails, but may be quickly adjusted on-site to fit the 29 mm high tableside rails
- Catalog # E30591JA/JM/JS are supplied with a 35 cm long integrated accessory rail (7.7 x 25 mm section) for the attachment of equipment controls that would otherwise be located on the table side
- All shields have an automatic wear adjustment feature ensuring accurate joint friction which prevents unwanted curtain movement even when the table is tilted in any direction
- The curtain forms around the under table X-ray tube without impeding movement

E30591JL

- Dimensions: 78 cm (W) x 70 cm (H) (30.7 in (W) x 27.6 in (H))

Kenex Top Shields

- Top shields are manufactured using the same 0.5 mm Pb protective material as the suspended curtains of the main shield. They include a flexible plastic material that enables them to stand 25 cm above the tableside rail, and provide additional higher and wider protection to the user
- The shape of the top shields (wider at the top) helps ensure that no gaps develop as the adjacent tops are pushed towards the patient during procedures
- Top shields can be quickly removed to ease patient transfer and access
- Solid stainless steel locating pins ensure the top remains in position during use

E30591JC – Kenex optional lift-off top shield, 57 cm wide

- Dimensions: 57 cm (W) x 34 cm (H) (22.4 in (W) x 13.4 in (H))
- Weight: 2.2 kg (4.9 lb)

E30591JN – Kenex optional lift-off top shield, 27 cm wide

Kenex Wall Rack Options

E30591JR – Wall Rack for Kenex Lift-off Top Shields

- The Wall Rack provides a secure storage area for the removable Kenex Top Shields – Cat# E30591JC, E30591JN and E30591JP
- Strong, plastic construction
- Maximum configuration – (1) 57 cm wide top and (2) 27 cm wide tops, or (4) 27 cm wide tops
- Width: 600 mm (23.6 in)
- Height: 108 mm (4.25 in)
- Depth: 146 mm (5.75 in)
- Weight: 1 kg (2.2 lb)

E30591JQ – Wall Rack for Kenex Lift-off Top Shields

- The Wall Rack provides a secure storage area for the Kenex Lower Body Radiation Shields – Cat# E30591JL, E30591JA, E30591JS, E30591JM, and E11181EA
- Strong, plastic construction
- Width: 400 mm (15.75 in)
- Height: 55 mm (2.2 in)
- Depth: 37 mm (1.5 in)
- Weight: 0.8 kg (1.8 lb)

MAVIG Lower Body Shields

Provides convenience, flexibility and enhanced protection for medical personnel. Helps shield technicians against scatter radiation from sources beneath the tabletop and also helps to protect the lower extremities. Flexible 0.5 mm lead equivalent curtains attached to the aluminum alloy pivoting arm. The entire lower body protector can be easily and quickly removed from the table.

The shields are compatible with the following GE interventional tables:

- Omega IV
- Omega V
- Innova IQ/IQ OR

NOTE: not compatible with the Maquet table

E3053J – MAVIG Double-Pivot Lower Body Protector, model 6269

- Pivotal, flexible shield: 35 x 25 in (90 x 65 cm)
- Easy-on upper protective shield: 10 x 25 in (25 x 65 cm)
- Convenient and flexible system

E3053JA – MAVIG Single-Pivot Lower Body Protector, model 6267

- One-piece economical model offers enhanced protection
- Comes with single joint adapter
- Measures 35 x 18 in (90 x 45 cm) including upper portion
- Upper portion is 7 in (H) (17 x 18 in) (17 x 45 cm)

E3053JB – MAVIG Flexible, Double-Pivot Lower Body Protector, model 6260

- This model is designed to offer enhanced protection in combination with tiltable tables
- Performance angle +/-15°
- Adjustable brakes for lower shields
- Left and right table mounting with a single adapter
- Similar features of the E3053J model
- Height: 29.5 in (75 cm) main part
12.2 in (31 cm) upper shield
- Width: 19.3 in (49 cm) 3 overlapping panels
7.9 in (20 cm) adapted sway panel

Ceiling Tracks and Cable Spoolers

MAVIG Ceiling Tracks and Cable Spoolers

The ceiling track is suited for universal use of ceiling guided accessories, including radiation protective shields, lamps, injectors, monitors, and other equipment.

- The innovative structure profile ensures smooth running of the carriage
- With little force, the installed system can be moved and positioned
- The carriage glides smoothly, even after many years of routine use
- Adjustable cross-struts simplifies the system installation
- The cable spooler houses the electrical cables for the lamp. It is only needed when planning to install a lamp on a track mounted system

MAVIG LED Lamps

MAVIG Surgical Lamp LED 3 SC

- Available as a single-color white LED (SC), but always with a multi-faceted lens system to minimize shadiness in the light field
- The LED light technology of the color composition inside the light source features the merging of the different colored LEDs by a computer calculated optical system with a light guide and faceted lens. The result is light composed of bright white or multi-color as it is dispersed homogeneously over the wound/surgical field. The advantages of this LED technology include excellent color rendition, tissue differentiation and shadow reduction with a goal to reduce surgeon eye strain
- Lights from MAVIG provide up to 160,000 Lux for an optimum illumination of the surgical field and at least 40,000 hours of life span

E3053HE

E3053LT/E3053CC

Cable spooler for the lamps

- It is only needed when planning to install a lamp on a track mounted system
- Includes the Mavig Portegra2 Extension Spring Arm (75/91 cm)

Cat#	Description	Warranty
E3053HE	MAVIG LED3 SC (Single-Color) LED lamp with sterilizable handle, electrical and preset Portegra2 suspension arm/extension spring arm (75 cm/91 cm), external power supply unit	D
E3053LT	Retro cable spooler for track length = 400 cm	D
E3053CC	Retro cable spooler for track length = 250 cm	D

Examination Light YLED-1F

- The compact YLED-1F contains 17 powerful LED modules. All modules provide a combined light intensity of 70,000 Lux
- A wide range power supply is integrated into the housing. This integrated power supply enables you to save space and time by means of simple installation
- Covers a wide range of applications, from examinations to minor surgical procedures
- It is intuitively controlled by means of the side-mounted control panel and the sterilizable handle
- Lifetime of at least 60,000 hours for the LED module
- Dimension: 360 x 280 mm

E63611EA/EB

Cat#	Description	Warranty
E63611EA	MAVIG Lamp YLED-1F with Portegra2 extension/spring arm 75/91 cm with 1 sterilizable handle, power supply is integrated into the housing	D

Radiation Protection Shields

MAVIG Radiation Protection Shields with Overlapping Panel Curtain

- Minimization of scattered radiation exposure to the examiner and assistant due to the panel curtain and drapes

Protective shield

- The high quality of the radiation protective shield made from lead acrylic allows optimal transmission and therefore a clearer view

Panel curtain

- The panel curtain is made of a highly flexible, radiation protective material and covered with a suitable textile outer material

Extension arm options

- Catalogs E30611DA/DB have a 750 mm extension arm
- Catalogs E30611DC/DD are the same product, but with a 950 mm extension arm. Select the longer reach if installation of column is far from the patient: extra 200 mm length on total arm's length

E30611DA/DC

E30611DB/DD

Cat#	Description	Warranty
E30611DA	X-ray protective shield with curtain RIGHT, Pb 0.5 mm, incl. Portegra2 extension/spring arm 750/910 mm	D
E30611DB	X-ray protective shield with curtain LEFT, Pb 0.5 mm, incl. Portegra2 extension/spring arm 750/910 mm	D
E30611DC	X-ray protective shield with curtain RIGHT, Pb 0.5 mm, incl. Portegra2 extension/spring arm 950/910 mm	D
E30611DD	X-ray protective shield with curtain LEFT, Pb 0.5 mm, incl. Portegra2 extension/spring arm 950/910 mm	D

MAVIG Radiation Protection Shields

The lead acrylic radiation protective shields have a lead equivalent of 0.5 mm Pb. The shields provide excellent high-optical transmittance. Rounded corners and edges and shatter-proof materials minimize the risk of injury. In an emergency, the shields can be removed quickly and easily.

- All shields include the corresponding Mavig Portegra2 Extension Spring Arm (75/91 cm)

E3053CH

MAVIG Configuration Guide

Suspension Overview

Suspension Configurations Include:

Electrical Availability

Each standard column can support only one electrified feature (lamp or monitor holder) and one non-electrical (shield).

If your configuration requires more than one electrical feature contact the Accessories & Supplies team who can work with MAVIG on a custom order request.

MAVIG Configuration Reference

Create a Customized Solution

Column Length and Bridge Selection depends on the floor to structural ceiling distance (**DistC**) assuming distance between floor and point B (**DistB**) should remain around **210/220 cm**.

The bridge should be hidden on top of the false ceiling i.e. between the structure ceiling and the false ceiling.

Choose the correct column length- and bridge if needed, to achieve this distance.

Do not forget to subtract additional 10 cm (Dist between B and end of column).

Column Length and Bridge Selection

Recommended Distance from False Ceiling to Point B should be $\geq 22.8''$ (57.9 cm) to allow full range movement of Extension/Spring Arm without interference from the False Ceiling or Gantry.

Column Length and Bridge Selection

Selecting the Ceiling Anchorage

Bridge – Optional

1. Select the appropriate Bridge if required by the room configuration (refer to Column length and bridge selection on page 19)

Three bridge heights available (select one)

- 200 mm – E63611CV
- 500 mm – E63611CW
- 900 mm – E63611CX

Contact GE Global Parts to order the bridge.

E63611CV/CW/CX

TS1525

Selecting the Suspension Type (Fixed vs. Track)

Fixed Suspension

2. Select the mounting plate – E3053CA.

Track Suspension

2. If your configuration includes an LED Lamp, please select from:

- 2.5 m Light Cable Spooler – E3053CC
- 4.0 m Track with Light Cable Spooler and Monitor Cable Holders – E3053CB

If your configuration includes a monitor support, please include the Monitor Cable Holders (3 pcs) – E3053CM

Selecting the Shields, Lamps and Monitor Holders

Shields

The corresponding Portegra2 Extension Spring Arm is included with the shields.

E3053CH

- Contour cut out
- Guided by a removable handle
- 24 x 30 in

E3053CJ

- Contour cut out
- Laterally guided
- 30 x 24 in

E3053CK

- Laterally guided
- Flexible curtain
- 30 x 27 in

E30611DA/DB/DC/DD

- Contour cut out
- Flexible curtain
- 30.7 x 35.4 in

LED Lamps

The corresponding Portegra2 Extension Spring Arm is included with the lamps.

E3053HE – Single Color
M3 Surgical Lamp with Video System

- Camera and video system enabled
- 160,000 Lux
- Diameter light head: 57 cm

E63611EA/EB – YLED-1F
Examination Light

- Compact LED
- 70,000 Lux
- Approx. 36 cm x 28 cm

Monitor Holder

The corresponding Mavig Portegra2 Extension Spring Arm is NOT included with the E3053CL. It is available through your local GE Field Engineer. Mavig part #E0T75-70120.

- Flexible holder for one 19" display

- Double jointed hinge to allow a wide range of different viewing angles
- In case of minor collisions, the monitor moves to the side and repositions itself
- Maximum weight load is 17 kg (39 lbs)
- Vesa Adapter 75/100 mm

E3053CL

Mobile Barriers

MAVIG Adjustable Height Mobile Barriers

- Mobile barriers allow easy adjustment of the clear acrylic viewing area
- E3053JH model has laterally-mounted lead rubber apron for under-the-table positioning
- For both models, upper shield is 0.5 mm lead equivalence and lower shield is 1.0 mm lead equivalence
- Wheel-based for easy positioning
- E3053JG –
 - Base width: 31 in (78 cm)
 - Height min: 45 in (115 cm)
 - Height max: 75 in (190 cm)
- E3053JH –
 - Lower width: 51 in (128 cm)
 - Upper width: 43 in (110 cm)
 - Height min: 55 in (140 cm)
 - Height max: 75 in (190 cm)

Personal Radiation Protection

GE HealthCare offers premium-quality radiation protection accessories. Choose from a variety of aprons, glasses, and storage solutions from MAVIG®. MAVIG protective aprons offer innovative, light weight material providing high radiation absorption across the radiology spectrum. Their ergonomic, application-minded design helps ensure comfort for your staff.

MAVIG Allround Vest and Skirt, model RA631 Balance

The model 631 Allround combination offers great weight distribution and cut to see you through a comfortable day.

- Outer material cover: ComforTex™ HPMF Hybrid
- Inlay material: NovaLite™
- Shoulder padding is included
- Lead Equivalency: (front/back) 0.5/0.25 mm
- Color: Blue Admiral

Cat#	Size	Warranty
E11041PA	MED	H
E11041PB	LG	H

- The skirt has a wide belt strap in addition to the high-quality hook & burr fastener
- An elastic insert in the back part allows the user to hold his/her posture and can be easily replaced if necessary, thanks to a zipper
- The upper width of the skirt can be varied by changing the size of the insert

Cat#	Size	Length
E11041PC	MED	70 cm
E11041PD	LG	80 cm

Size	Recommended for
MED	Breast girth 96 – 106 cm Waist girth 98 – 107 cm Hip girth 98 – 107 cm
LG	Breast girth 107 – 117 cm Waist girth 108 – 118 cm Hip girth 108 – 118 cm

Size choice: For the vest, the larger value of the chest and waist girth determines the size. For the skirt, the larger value of the waist and hip girth determines the size.

MAVIG Allround Coat, model RA632 Synergy

Optimally protected all around! This model is for the person that wants an apron that is fast and easy to put on and take off. The coat also includes shoulder padding. Additionally an elastic belt shifts the weight from the shoulders to the hips.

- Front protection is provided from side seam to side seam by overlapping front panels
- Coat’s design creates the required safety zones by a double-layer structure in the sensitive areas
- The variable snap fastener strip permits each user to adjust the belt to his or her individual waist height
- The belt can be buttoned onto the coat on one side or both sides
- In the bottom area, the coat is also secured with a snap buckle fastener
- Outer material cover: comforTex HPMF Hybrid
- Inlay material: NovaLite
- Lead Equivalency: (front/back) 0.5/0.25 mm
- Color: Blue Admiral

Cat#	Size	Length	Warranty
E11041QA	SM	110 cm	H
E11041QB	MED	110 cm	H
E11041QC	LG	120 cm	H
E11041QD	XL	130 cm	H

Size	Recommended for
SM	Breast girth 85 – 95 cm Waist girth 92 – 102 cm Hip girth 92 – 102 cm
MED	Breast girth 96 – 106 cm Waist girth 109 – 119 cm Hip girth 109 – 119 cm
LG	Breast girth 107 – 117 cm Waist girth 120 – 130 cm Hip girth 120 – 130 cm
XL	Breast girth 118 – 128 cm Waist girth 131 – 141 cm Hip girth 131 – 141 cm

Size choice: The size depends on the girth of the chest, waist, or hip depending on which of the three measurements is the largest.

MAVIG front apron, model RA650 Ergonomic

This apron provides protection for the entire front.

Comfortable, wide crossover belts allow the apron to be slid off easily under the surgical gown by simply opening the hook & burr fasteners.

- Apron design includes shoulder padding
- Outer material cover: ComforTex HPMF Hybrid
- Inlay material: NovaLite
- Lead Equivalency (front/back): 0.5/0.25 mm
- Color: Blue Admiral

Cat#	Size	Length	Warranty

MED	Breast girth 96 – 106 cm Waist girth 103 – 112 cm Hip girth 103 – 112 cm
LG	Breast girth 107 – 117 cm Waist girth 113 – 123 cm Hip girth 113 – 123 cm
XL	Breast girth 118 – 128 cm Waist girth 124 – 134 cm Hip girth 124 – 134 cm

Size choice: The size depends on the girth of the chest, waist, or hip depending on which of the three measurements is the largest.

MAVIG thyroid shield, model RA614

- Our thyroid protection with snap fasteners for attachment of the shield to the apron is suitable for all model series
- An uncomplicated hook & burr closure, which is optionally exchangeable, ensures a sufficient range for individual adjustments
- Outer material cover: ComforTex HPMF Hybrid
- Inlay material: NovaLite
- Lead equivalency: 0.5 mm
- Color: Blue Admiral

Cat#	Neck Size	Warranty
E11041JC	32 – 45 cm	H

Visualize your radiation exposure in real time.

RaySafe i3 Dosimetry System

RaySafe i3 visualizes X-ray exposure in real time using easy-to-read bar graphs. Instant feedback empowers medical staff to learn and adapt their behavior to minimize unnecessary radiation exposure.

The measurements are simultaneously stored for post-procedure analysis, to facilitate continued learning as well as to enable comparisons over time or between labs

- **Real-time Dosimeter**

The Real-time Dosimeter measures and records radiation every second. Data is transferred wirelessly to the Real-time Display

- **Real-time Display**

The Real-time Display shows dose data for connected dosimeters in real time

- **Software**

Dose Viewer is used for administrating dosimeters and viewing personal dose information

Intercom System

VIS-A-VIS Vitalinq™ Intercom System

The Vitalinq is a combination intercom and music system designed to meet the specific needs that arise during diagnostic and interventional procedures in Cath, EP and IR labs. Features and benefits of the Vitalinq include:

- Enables physicians to have continuous two-way conversation with control room operators throughout diagnostic and angioplasty procedures
- Physician is not required to wear or touch any type of device
- Capable of picking up conversation in a normal tone of voice. Allows control room operator to respond immediately to physicians' requests
- Specialized microphone design contributes to high voice intelligibility, even within the acoustically active space of a full-functioning procedure room
- Designed to enhance articulation by reducing the potential echo path, Vitalinq gathers and transmits speech in a highly efficient manner
- Provides music via separate ceiling stereo speakers. Music sources include CD, FM receiver and any device that can output to a USB or auxiliary input (smart phones, USB sticks, Satellite radio receivers, etc.)
- Music can be played in both rooms or faded between the rooms to allow different listening volumes or no music at all

Specifications

- Each Vitalinq system includes intercom and music and is provided with everything needed for installation including pre-terminated cables

E6220J

- Ease of installation. Speakers “daisy chain” together using color coded Ethernet cables thereby minimizing the number of cables
- Console Dimensions (Working Surface Footprint): 8.5 in (W) x 9 in (D) x 4.5 in (H)
- Console Weight: 7.4 lbs
- Everything is provided for a complete installation
- Shipping Dimensions and Weight:
 - Ships in 2 cartons totaling 55 lbs
 - Carton 1, 24 in (L) x 10 in (W) x 10 in (H), 19 lbs
 - Carton 2, 29 in (L) x 17 in (W) x 7 in (H), 36 lbs
- 1 Year Warranty
- cETLus Listing

Clarson Public IV Intercom Ceiling LED system

- Easy to install and use
- Cost efficient option
- Push-to-talk
- Headset interface
- Speech key control via footswitch
- Music input
- Recording possibility

Omnidirectional microphone

- Mounts to the DCS

Loudspeaker

- Mount to the ceiling above the user, or on the wall below the ceiling behind the user

Intercom console

- Mount to the ceiling above the user, or on the wall. Place as far from the control room door as possible
- Max speech distance to the microphone: 10 cm

Cat#	Description	Warranty
E62201JA	Public IV Intercom Ceiling LED system	H

Patient Positioning Aids

Headholder and Armboards

The Head Holder and Armboards are designed for patient positioning and immobilization during a variety of radiology and angiography procedures. The unique composite construction provides rigid, secure positioning. They are designed to work with flat top angiography tables and flat imaging tables. They are easily maneuvered to allow for quick positioning adjustments.

Radiolucent Head Holder

- The DSA-2Q Head Holder is provided with straps and a reusable, cleanable pad for patient comfort
- Replacement straps and pad are available (Cat# E6420BH)

Radiolucent Armboard

- The HB-1 Armboard is provided with a reusable, cleanable pad for patient comfort
- A replacement pad is available (Cat# E6420BK)

Radiolucent Double Armboard

- The Double Armboard is provided with a reusable, cleanable pad for patient comfort
- Replacement pads are available (Cat# E6420BN)

Innova Foot-End Table Rail with Two Table Clamps

System controls may be located at the end of the table to enhance patient access by providing an alternate mounting location for controls. It provides for improved panning capabilities and allows dual system control.

- Allows for more physician and technologist tableside work space
- System controls placed at two locations for greater operational flexibility
- System controls can be moved to the end of the table for easy table-end panning
- Location at the foot-end is a more natural push-pull action for table panning
- Fosters productivity in patient loading and unloading, and patient safety
- Allows cardiologist and scrub tech access to the patient, unencumbered by items under the sterile drape

Primary use locations: Angiographic and Cardiographic tables
 Construction: Heavy gauge stainless steel
 Width: 30.5 in
 Depth: 4 in (L) offset
 Height: Variable with 14 in posts
 Includes: Stainless steel clamps (2)

Slickers and Sterile Drapes

X-ray Vascular and Angio Slickers

- Increase system uptime by protecting table from spills and particulate contaminants
- Easy to install and comfortable for patients
- Will not interfere with normal operation of table
- Clear PVC plastic facilitates faster cleanup of blood and fluids; latex-free
- Prevents contaminate buildup in hard-to-clean areas
- Thermosealed seams and flaps
- Recommended for trauma centers and sites concerned about exposure to blood and fluid-borne disease

Sterile Equipment Drapes

- Helps reduce opportunity of cross-contamination
- Large drape (E7009AG) is for 9-20 in diameter opening, measures 27 in D
 - Recommended for draping MLX tube hanger and Polarix or other C-arm intensifiers; also compatible with remote console and 16 in image intensifiers
- Medium drape (E7009AH) is for 6-15 in diameter opening, measures 14 in D
 - Recommended for draping L/U intensifiers, L/U control boxes and handles, ideal for 9 and 12 in image intensifiers and collimators
- Clear polyethylene, latex-free
- Individually packaged, 20 drapes per box
- Product is not returnable for artifacts

Uninterruptible Power Solutions

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Dynamic Sag Corrector

Dynamic Sag Corrector (DySC)

- Corrects for voltage sags at the system, department or facility level
- DySC is optimized for fast sag detection and response time (voltage detect time of 1 ms; sags are corrected with a peak voltage response time of 1.5 ms)
- A green power solution at > 99% energy efficiency, the DySC has no batteries and over time can offer lower cost of maintenance
- Smaller footprint and lighter weight than comparable (kVA) UPS systems
- Service Contracts offered by GE HealthCare

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

Medrad™ Intego PET Infusion System

The Medrad™ Intego PET Infusion System is redefining PET by addressing the complexities of today and the challenges of tomorrow with operating a PET department. From providing personalized patient care, to reducing unnecessary radiation exposure to technologists, to driving improved practice economics. Utilizing a fully shielded, mobile design, the system infuses accurate, repeatable, patient-specific doses from a multi-dose vial, all managed through a simple touchscreen.

Improve Radiopharmaceutical Utilization

- Practical and precise weight-based dosing enables clinicians to prescribe a minimum acceptable dose for each unique patient
- Utilization of a multi-dose vial streamlines workflow, and creates opportunity for schedule compression and fewer radiopharmaceutical deliveries

Drive Operational Efficiency

- Automated dose preparation, administration, and documentation eliminates non-value added steps
- Mobile, with full battery operation streamlines processes and workflow

Enhance Practice Competitiveness

- Precise, personalized dosing differentiates Medrad Intego sites to the surrounding referral base
- Dose-on-demand functionality provides the flexibility to respond to late arriving patients or those with unmet prep conditions

Personalize Patient Care

- Automated weight-based dosing from a simple touchscreen enables clinicians to administer an accurate, personalized dose for each patient
- Variable flow rate (0.5 ml/sec or 1ml/sec) and saline test infusion support treatment for fragile veins

Cardiac Gating

IVY 7800 Cardiac Trigger Monitor for CT, PET/CT and SPECT/CT

The Model 7800 is IVY Biomedical's fifth generation cardiac trigger monitor with the intended use primarily on patients in applications requiring precision R-wave synchronization. Incorporating a simple, easy to use touchscreen interface, the 7800 displays two simultaneous ECG vectors along with the patient's heart rate.

Intuitive Operation

Acquiring a trigger ECG can often be a challenging task, and selecting the right ECG vector can be problematic. The 7800's AUTO lead select feature (Trigger lead only) will determine which lead (I, II or III) provides for the best amplitude-to-noise ratio of the ECG signal and thus a more reliable cardiac trigger.

Patient Monitoring

When required, high and low heart rate alarm limits can be adjusted to bracket a patient's heart rate, so that a violation of these limits produces an audible and visual indication of the alarm.

Improved Communications

The Model 7800 has an electrically isolated Ethernet connector with 2 channels, enabling communication between the monitor and the external console, as well as the gantry display. An integrated USB drive allows users to store and retrieve ECG events for retrospective analysis.

Integrated Chart Recorder

Prints ECG strips on demand for manual review.

Precision Engineering

A color Trigger Mark clearly indicates the timing of each synch pulse with respect to the ECG, providing a visual reference for timing and synchronization.

ECG Viewer Software

Included on the USB drive is an easy to use ECG viewer specifically designed to enable detailed analysis of individual ECG.

Touch Screen Operation

Quickly adjust alarm limits, or make adjustments on the fly using the on-screen menus and buttons.

Configurations include everything you need to get started

The Kit includes:

7800 Cardiac Trigger Monitor, set of 4 RT (radiotranslucent) lead wires – 30 in, low noise patient cable – 4 lead, Ethernet Internet cables, ECG adult electrode (box of 40), cord-set hospital grade (12 ft), NuPrep Gel, USB Memory Stick, Recorder Paper, Roll Stand for model 7000 series and IPC cable.

IVY 7600 Cardiac Trigger Monitor for Nuclear Medicine

The Model 7600 is IVY Biomedical’s fifth generation cardiac trigger monitor with the intended use primarily on patients in applications requiring precision R-wave synchronization. Incorporating a simple, easy to use touchscreen interface, the 7600 displays two simultaneous ECG vectors along with the patient’s heart rate.

Intuitive Operation

Acquiring a trigger ECG can often be challenging task, and selecting the right ECG vector can be problematic. The 7600’s AUTO lead select feature (Trigger lead only) will determine which lead (I, II or III) provides for the best amplitude-to-noise ratio of the ECG signal and thus a more reliable cardiac trigger.

Patient Monitoring

When required, high and low heart rate alarm limits can be adjusted to bracket a patient’s heart rate, so that a violation of these limits produces an audible and visual indication of the alarm.

Improved Connectivity

The Model 7600 has an electrically isolated RS-232 connector that provides two-way direct communications between the monitor and the external console for the transfer of ECG data. The Model 7600 is available with or without an integrated strip chart recorder.

Precision Engineering

A color Trigger Mark clearly indicates the timing of each synch pulse with respect to the ECG, providing a visual reference for timing and synchronization.

Integrated Chart Recorder

Optional recorder prints ECG strips on demand for manual review.

Touchscreen Operation

Quickly adjust alarm limits, or make adjustments on the fly using the on-screen menus and buttons.

Configurations include everything you need to get started

The Kit includes:

7600 Cardiac Trigger Monitor, set of 4 lead wires – 24 in, low noise patient cable – 4 lead, ECG adult electrode (box of 40), cord-set hospital grade (12 ft), Roll Stand for model 7000 series, BNC to BNC interconnect cable (12 ft) and phono to BNC interconnect cable. (Cat# E8007DD includes 1 roll of paper loaded in the recorder).

Respiratory Gating

Varian RGSC Respiratory Gating System

Respiratory Gating for Scanners (RGSC) from Varian Medical Systems is used to characterize the patient’s respiratory patterns and monitor the patient position during diagnostic CT image acquisition. Using a single infrared camera and a reflector block, the system tracks the patient’s respiration pattern, range of motion and provides recorded information to the scanner.

- Available in a couch-mount or wall/ceiling-mount configuration
- An integrated database with the ARIA® oncology information system and Eclipse™ treatment planning
- The software user interface is intuitive and helps simplify the image acquisition and treatment delivery process

Laser Systems

LAP Laser DORADOnova 3 Laser System

The DORADOnova[®] 3 laser system together with the LAP laser CARINAnav[®] control supports the crucial and important marking process and conforms to your department's workflow. You select the mounting version and the laser color. Offering various configurations and mounting options, the system is designed to meet any and all room requirements.

Wall-Ceiling-Wall

LAP Laser DORADOnova 3 Laser Control

DORADOnova laser systems are operated by CARINAnav®, consisting of hardware and software. With CARINAnav®, LAP provides you a control system to move the lasers and interact with your RT planning system. Once connected to your RT planning or virtual simulation system the data can be imported via LAP file format or DICOM.

CARINAnav® – Intuitive, Easy, Portable

CARINAnav’s tablet PC is a portable wireless laser control system in a compact design. Patient data is imported via Bluetooth or Wi-Fi interface.

CARINAnav® has been designed to be the platform for future laser alignment tasks. Modular thinking and open design offer the base for developing solutions covering the requirements to come.

- Portable – Move to your preferred working location
- Flexible – Select patient data, enter this data or move the lasers manually
- Intuitive – Touchscreen navigation allows for quick startup and auto reconnect
- Secure – User login required and permanent laser position feedback

CARINAnav

CYRPA™ HIT3 Laser System

The HIT3 system consists of:

- Three mobile lasers that generate the sagittal vertical line and two horizontal lines
- Two motorized HIT fixed lasers that generate a vertical line on each side of the patient
- The key advantage of the HIT3 configuration is that all the lines are in independent boxes, so they can be located higher in the room. This means that adjustable positioning/fixation of transversal lasers enables deeper laser-line projection (for example, for larger patients)

Adapted to each treatment room, HIT (High Impact Technology) positioning systems distinguish themselves by allowing you to map patient coordinates with accuracy up to +/- 0.1 mm. Plus, it makes the adjustment of the equipment automatically and faster. The HIT system helps to optimize the time spent treating patients and improves the usability for the professionals operating the equipment.

Instant laser color change to red or green

- With a touch of a button the laser beams can be red or green, changeable at any time
- The user can also decide the color for each laser line independently
- The change from one color to the other is done remotely and instantly

SmartPhantom CT

- The laser positioning device comes with the CYRPA SmartPhantom™ CT which offers an automated calibration process and assures a +/- 0.1 mm accuracy
- The device, placed on the scanner table and positioned at the isocenter of the laser can, due to its many integrated sensors, provides accurate set points for all the laser beams
- No manual adjustments are needed

The automatic calibration process takes about 10 minutes.

Flat Table Tops

Elekta iBEAM evo CT Overlay

- Equivalent geometric and dosimetric configuration to iBEAM® evo Couchtop
- Integrated indexing system compatible with a wide range of existing surface mounted industry standard accessories
- Designed to help reduce image artifacts
- Quick and easy installation and removal of the iBEAM evo CT Overlay

The iBEAM® evo CT Overlay facilitates new potentials for treatment planning and simulation. The iBEAM evo CT Overlay is identical in design, geometry and dosimetric properties with the iBEAM evo Couchtop and offers the total departmental solution in combination with an iBEAM evo Couchtop (installed on the LINAC table).

The integrated indexing system:

- Optimizes patient positioning accuracy and reproducibility, reducing patient setup time, minimizing patient setup inaccuracies further in the treatment chain and maximizing the stability of positioning devices

Specifications

Material	Carbon-fiber sandwich with foam core
Weight	11 kg (24 lb)
Dimensions (Length x Width)	2000 mm x 530 mm (79 in x 21 in –approx.)
Indexing	BodyFIX 14 indexing system
Estimated Useful Life	10 years
Non-Compatibility	Not compatible with Varian couch-mount respiratory gating systems

CIVCO® 3000 Series Couchtop™

- Facilities who care for cancer patients know the importance of a treatment table that allows you to match the patient's position that occurred during the CT simulation
- The CIVCO® 3000 Series Overlays are constructed of rigid carbon fiber and have indexing points running down the side
- These indexing points make it possible for facilities to offer accurate and reproducible patient positioning from imaging room to the cancer treatment room
- Prodigy™ indexing at 14 cm increments

Cat#	Description	Warranty
E8505MJ	CIVCO CT Overlay for GE CT & PET/CT systems, (228 x 53 x 5.1 cm); features Prodigy indexing and includes Prodigy Lok-Bar (53 cm) and 1 year manufacturer warranty	L

CIVCO® Universal Couchtop™ 1 Piece

- The CIVCO® Universal Couchtop™ 1 Piece is an excellent IGRT and SBRT solution with a uniform design and no junctions
- This couchtop offers a dosimetrically matched couchtop for most major CT and Linac models
- Prodigy™ 2 indexing at 7 cm increments

Cat#	Description	Warranty
E8516AA	CIVCO Universal Couchtop 1 Piece, for GT1700 table; includes carbon fiber indexable couchtop, mounting hardware, Prodigy2™ Lok-Bar and 5-year manufacture warranty	ZZ
E8516AC	CIVCO Universal Couchtop 1 Piece, for GT2000 table; includes carbon fiber indexable couchtop, mounting hardware, Prodigy2™ Lok-Bar and 5-year manufacture warranty	ZZ
Compatibility: Discovery RT®, Discovery CT 590 and Optima® CT 580		

CIVCO® Universal Couchtop Long Extension

- The UCT LE (Universal Couchtop™ Long Extension) is a comprehensive solution for enabling advanced treatments in your clinic
- Specifically designed to answer the demands of IGRT delivery, the CIVCO® UCT LE contains no rails or junctions in the treatment area to help facilitate better dose delivery and target coverage
- This couchtop is dosimetrically matched for most major CT and Linac models
- Prodigy™ 2 indexing at 7 cm increments

Cat#	Description	Warranty
E8516AB	CIVCO UCT LE (Universal Couchtop Long Extension), for GT1700 table; includes carbon fiber base with carbon fiber rectangle extension, mounting hardware, Prodigy2™ Lok-Bar™, Storage Rack and 5-year manufacture warranty	ZZ
E8516AD	CIVCO UCT LE (Universal Couchtop Long Extension), for GT2000 table; includes carbon fiber base with carbon fiber rectangle extension, mounting hardware, Prodigy2™ Lok-Bar, Storage Rack and 5-year manufacture warranty	ZZ
Compatibility: Discovery RT®, Discovery CT 590 and Optima® CT 580		

See page MI 14 for optional extensions available.

CIVCO® UCT LE Optional Extensions

Full flexibility with many extension options to help facilitate patient imaging, simulation and treatment. These extensions feature a unique profile allowing for direct attachment of all CIVCO Body Pro-Lok SBRT bridges, Solstice™ and trUpoint ARCH™ SRS/SRT Systems, and head & neck thermoplastics.

Wired Rectangular

- An embedded wire rectangular extension option is available to assist with patient alignment. The standard rectangular extension is provided in the GE offering

Red lines in image shows wire location.

Kevlar

- Compatible with Varian's Calypso® System

Type-S™

- Compatible with Solstice™ SRS System and Type-S Thermoplastics including ClearVision™ open face masks designed for use with vision/camera systems

Grid

- Helps minimize surface dose and skin reactions

Posifix®

- Compatible with Solstice and trUpoint ARCH SRS/SRT Systems and Posifix Thermoplastics

UCT Head

- Extends the patient an additional 17 cm

ProForm™

- Unique head & neck patient immobilization solution for proton therapy

End Plates for Varian

- Allow the use of various QA devices

To order the Optional Extensions contact CIVCO at:

Phone: 800-842-8688 (US/Canada)

Email: info@CivcoRT.com

Diacor Flat Tabletop

- The Flat Tabletop, or “CT Overlay,” provides a secure, flat surface for CT Simulation applications, consistent with the treatment couch, for accurate and reproducible patient positioning
- Varian Exact technology and indexing immobilization patient positioning system along entire length of the overlay
- Carbon fiber construction with foam core provides a durable, lightweight device with outstanding imaging properties
- Easily locks and unlocks from the CT Table, providing easy transition between therapy and diagnostic procedures
- Measures 85.25 in (L) × 20.87 in (W) × 1.62 in (H)

Software

INVIA 4DM Software

Quantifies perfusion and function

In simplified terms, 4DM assigns values to parts of the heart based on how much blood the heart muscle retains at rest vs stress – perfusion – and how well the heart expands and contracts at rest vs stress – function.

This quantification enables physicians to assess a patient's cardiac health by reviewing patient images and 4DM values all in a single, convenient, and configurable application. Integrated reporting – within 4DM or with your PACS platform – further streamlines the workflow.

4DM fits seamlessly into your current nuclear imaging workflow, receiving data from PET and SPECT cameras and exporting to PACS and EMRs.

- 1-day onsite training
- Training available in English and French language only

CCTV System

Closed Circuit TV System

This closed-circuit TV camera package allows for visual monitoring of your patients during their scans and now features an optional integrated recording feature for high-risk patients and for security purposes. Ceiling or wall mounted fixed camera is unobtrusive and transmits high-quality color images in real time to the operator's console where a 17 in TFT LCD monitor is located. A dual camera system is also available allowing split-screen viewing by the technologists to see both the front and back sides of the bore simultaneously.

CCTV System includes:

- 17 in TFT LCD color monitor
- Compact color camera(s) with lens
- Signal interface box
- Exterior-mount power supply
- Mounting brackets for camera(s)
- Set of 3 cables: 10 ft, 40 ft, 100 ft
- Remote control

Phantoms

PET Annulus DQA (Daily Quality Assurance) Imaging Phantom

Designed exclusively for the Discovery™ MI, Discovery IQ PET and SIGNA™ PET/MR systems

- Make sure you're getting the most from your GE system by checking it with our custom designed imaging phantoms
- Recommended for accurate calibration of your PET detector and easier quality control
- Designed to be held in place during use by standard source holders provided with scanning equipment
- No mechanical maintenance is required

E8008PN

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

Cat#	Description	Warranty
E8008PN	Daily Quality Assurance (DQA) Phantom for use with Discovery MI/MI DR, Discovery IQ PET and SIGNA PET/MR systems	W
E8008PV	Daily Quality Assurance Phantom for Discovery MI system Gen2 6 ring (30 cm)	W

Note: When not in use, secure this sealed source in a protected shielded area. Should cleaning become necessary, use a cloth moist with mild soap and water. Do not use strong organic solvents for cleaning plastic sources. Leak test annually.

VQC (Volumetric Quality Control) Imaging Phantoms

- Make sure you're getting the most from your GE system by checking it with our custom designed imaging phantoms
- Recommended for accurate calibration of your PET or CT detector and easier quality control
- Designed to be held in place during use by standard source holders provided with scanning equipment
- No mechanical maintenance is required

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

E8008PC/E8008P

Cat#	Description	Warranty
E8008PC	Volumetric Quality Control Phantom for use with Discovery IQ PET system 2 ring (10 cm) detector	W
E8008P	Volumetric Quality Control Phantom for use with Discovery MI/MI DR and Discovery IQ PET system 3, 4, 5 Gen2 6 ring (15 cm, 20 cm, 25 cm, 30 cm) detectors, and Discovery 710, 690, 610, 600 and Optima 560	W

VQC (Volumetric Quality Control) Imaging Phantom

- Make sure you're getting the most from your GE system by checking it with our custom designed imaging phantoms
- Recommended for accurate calibration of your PET/MR detector and easier quality control
- Designed to be held in place during use by standard source holders provided with scanning equipment
- No mechanical maintenance is required

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

E8008PM

Cat#	Description	Warranty
E8008PM	Volumetric Quality Control (VQC) Phantom for use with the SIGNA PET/MR system	W

Compatibility: SIGNA PET/MR system		

PET Annulus Phantom Shields

- Container latch seals the phantom inside to ensure radiation gaps are eliminated
- Wheels feature swivel castors for easy mobility and wheel locks for added stability (Cat# E8008PS)
- Lid features a handle for easier opening
- Spring loaded covered hinge assists when lifting the lid
- Latch includes option to use a padlock to secure the phantom in the container
- Gusset holes allow the facility to secure the shield to the site with a chain or cable
- The container's interior walls feature a soft plastic for easier insertion and removal of the phantom
- Shield features foam cushioning on the lid's top and container's bottom as required for mobile applications (Cat# E8008PT)
- Lid may be secured in the closed position for mobile transportation using the integrated knob (Cat# E8008PT)
- Weight – approximately 300 lb/136 kg

E8008PS

E8008PT – mobile application

Mobile applications phantom shield does not have wheels so it can be bolted directly to the MMU (Mobile Medical Unit) floor (Cat# E8008PT)

Cat#	Description	Warranty
E8008PS	Annulus Phantom Shield Container, non-mobile use only (use with E8008PN)	K
E8008PT	Annulus Phantom Shield Container, validated for use in mobile application (use with E8008PN)	K
E8008PW	Annulus Phantom Shield Container, non-mobile use (use with E8008PV)	K

CT Performance Phantom

- Measures 9 separate performance parameters with just 1 device
- Permits the routine standardization of alignment, beam width, special uniformity, linearity/contrast, spatial resolution, linespread, noise, size independence and absorbed dose
- All components of the phantom are housed in a compact, transparent tank which holds the system together in the correct orientation
- Measures 15 in (L) x 8.5 in (W)

E8008D

Cat#	Description	Warranty
E8008D	CT Performance Phantom	H

StarGuide™ QC/Calibration Source

- The source was created specifically for StarGuide to be used during installation, calibration and as the daily quality control
- The source is encapsulated into a concentric plastic tube interfacing with a mounting jig to the system table. The source's mounting jig is supplied with the system

E8690AG

StarGuide™ Storage Case

- The lead shielded storage case is customized for the Star Guide Co57 QC/ Calibration source (catalog# E8690AG) and jig
- Dimensions: Approx 26 in (L) x 16 in (W) x 4.5 in (D)
- Weight: 29 lbs (13 kg)
- Lead Lining thickness: nominal 1/8 in (0.13 in)

E8690AH

Cat#	Description	Warranty
E8690AG	StarGuide QC/Calibration Co57 source and an encapsulating plastic tub	H
E8690AH	Lead shielded storage case for StarGuide Co57 Calibration/QC source and holding jig	K

PET Pin Sources

Isotope Products Laboratories Ge-68 Pin Sources

- Utilized to calibrate PET scanner systems
- Used as a transmission standard to provide a tissue density correction to permit accurate diagnostic scanning of patients
- Ge-68 uniformly dispersed in a ceramic medium with an outer stainless tube and permanently sealed end caps

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

Cat#	Description	Warranty
E8690AA	Advance Transmission Pin Source	H
E8690AB	PET Advance/Discovery LS Normalization Pin Source	H
E8690AD	Discovery ST Pin Source	H
E8690AE	Discovery 690 Pin Source	H
E8690AF	Discovery 600 Pin Source	H

Reference: See Pin Sources & Phantoms Reference Guide on page 33

Flood and Pin Sources

Co-57 Cobalt Flood Sources

- Recommended for accurate calibration of your camera and easier quality control
- Isotope Products Laboratories (IPL) Co-57 flood sources are manufactured and 100% tested to have a coefficient variation of less than or equal to $\hat{A}\pm 0.7\%$, and integral uniformity of less than or equal to $\hat{A}\pm 1.7\%$. NOTE: Gamma imaging procedures require less than or equal to $\hat{A}\pm 1\%$ coefficient variation
- Co-57 photon energies simulate Tc-99m
- Used to test uniformity of gamma cameras
- Co-57 flood sources contain Cobalt-57 uniformly dispersed in an epoxy medium fully sealed in a high-integrity polymer encapsulation
- Radio nuclide purity is greater than 99.9% (exclusive of Cobalt-56 and Cobalt-58, < 0.15% combined)
- Shielded carrying case for easy storage; cases have casters that allow opening and source access without lifting. Lead shielding minimizes personnel exposure and reduces background radiation levels

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

Slickers and Equipment Covers

MI Table and Footswitch Slickers

- A slicker cushion is foam material (2.54 cm/1 in thick) fully encased in a protective vinyl slicker cover
- Easy to install and comfortable for patients
- Will not interfere with normal operation of the table
- Clear PVC plastic facilitates faster cleanup of blood and fluids
- Prevents contaminate buildup in hard to clean areas
- Thermosealed seams and flaps
- Footswitch slickers and table skirts help protect electronics
- Footswitch slicker includes Velcro® for secure fit

Table Pads and Straps

Table Pads – GE Nuclear Medicine Systems

- Quality replacement table pads for your GE Nuclear systems, covered in durable gray Naugahyde® material to match originals
- Optima table pad (E8500JC) designed for wingless Optima Table, measures 75 in × 12.5 in. Works with Optima Starcam or Optima NX tables without wings
- Table pad set (E8500JN), covered in gray Naugahyde material, includes:
 - (1) Table Pad (E8500JK), measures 0.5 × 17 × 66 in
 - (1) Extender Pad (E8500JL), measures 0.5 × 17 × 19 in
 - (2) Piece Naugahyde Strap Set (E8500JM), measures 3 × 74 in and 5 × 74 in with Velcro hook closures
- Replacement pieces also sold separately

Arm Rests and Leg Rests for Nuclear Systems

Patient Arm Support

- Comfortably supports a patient’s arms during various diagnostic and therapeutic medical procedures
- Engineered with flexibility to fit most imaging tables
- Helps improve productivity and increase technician’s efficiency
- Includes (2) disposable pillows, (2) mounting straps and (1) hand held strap
- Dimensions – 21 in (W) x 13 in (D) x 9 in (H)

E8500NA

Cat#	Description	Warranty
E8500NA	Patient Arm Support	H

Patient Arm and Leg Rests

Catalog #E8500NB – Patient Armrest

- Suited for applications or imaging systems that demand narrow supports
- Hand strap included for patient comfort
- Black coating
- Flat base
- Includes (2) disposable pillows with cases
- Dimensions – 18.5 in (W) x 15 in (D) x 8 in (H)

E8500NB

Catalog #E8500NC – Contoured Leg Rest

- Designed to accommodate many patients
- Contoured Leg Rest helps prevent low back stress and pain that occurs during supine imaging and treatment
- Compatible with most Nuclear Imaging systems and may also be used in CT and PET applications
- Constructed with a comfortable, full support polyfoam with a seamless coated finish
- Dimensions – 13 (W) x 17 (D) x 7 (H) in

E8500NC

Catalog #E8500PC – Patient Leg Rests (3/set)

- 3 piece set of patient leg rests – 5, 7 and 10 in (H)
- Constructed with a comfortable, full support polyfoam with a seamless coated finish

E8500PC
7 in shown
(5 and 10 in not shown)

E8500NB	Patient Armrest	H
E8500NC	Contoured Leg Rest – 7 in (H)	H
E8500PC	Patient Leg Rests – 5, 7 and 10 in (H) (3/set)	H

Compatibility: Most Nuclear, CT, and PET Imaging Systems

Patient Transfer and Transport

Patient Transfer Boards

- Flexible patient transfer board – $\frac{3}{16}$ in high density polyethylene
- Narrow transfer board 18.25 in (W) × 73 in (L) × 0.5 in (H), includes four 1.5 × 16 in security straps
- Wide transfer board 23 in (W) × 73 in (L) × 0.5 in (H), includes four 1.5 × 16 in security straps
- Transfer board hanger can hold up to 5 patient transfer boards, either wide or narrow or both; includes mounting hardware

Cat#	Description	Warranty
E6328BF	Transfer Board Hanger	H
E6328BG	Transfer Board – Narrow	H
E6328BH	Transfer Board – Wide	H

Save time. Order accessories online with Service Shop.

Auto-Reorder

Every 3 Months ▾

Auto-Reorder

Set quantity, schedule frequency

Customize the quantity and order frequency that works for you.

Add to Cart

Add to cart

It's that easy. Your first order has been placed. The product will be auto-delivered at your preferred delivery frequency.

Manage reorders

In advance of each delivery, we will send you a reminder email for your upcoming delivery. Skip your deliveries or cancel your subscriptions at any time.

Quick Order

Know what you need to order? Batch order multiple items at once with Quick Order on Service Shop. Enter a list of item numbers or paste from an excel spreadsheet, select quantity and add to cart. Spend less time ordering!

Payment Options

Pay by PO or credit card or integrate your purchasing system.

Register now at [ServiceShop.GEHealthcare.com](https://www.gehealthcare.com)

1. Visit GE HealthCare Service Shop, navigating to the registration link in the upper left-hand corner of the page.
2. Give us your account details. Pro tip: Provide your customer account number for expedited registration.
3. A welcome message will come to you through the email you provide. Start shopping!

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and under voltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Dynamic Sag Corrector

Dynamic Sag Corrector (DySC)

- Corrects for voltage sags at the system, department or facility level
- DySC is optimized for fast sag detection and response time (voltage detect time of 1 ms; sags are corrected with a peak voltage response time of 1.5 ms)
- A green power solution at > 99% energy efficiency, the DySC has no batteries and over time can offer lower cost of maintenance
- Smaller footprint and lighter weight than comparable (kVA) UPS systems
- Service Contracts offered by GE HealthCare

E4505SM/E4505SN

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

AC Lighting Controllers

AC Lighting Controllers

- “X-ray in Use” warning and room lighting control panel provides a low voltage interface between the “X-ray in Use” warning lights, interior room general lighting systems and the system
- Convenient, push on/off pre-wired footswitch for control of room general lighting
- Enhances servicing safety by the use of a low voltage interface circuit between the imaging system and the line voltage lighting system

GE Adventure Series – Customized Rooms

The GE HealthCare Design team will work with a small group of your hospital staff to create a custom layout and select themed graphics from the existing catalogs, or at times, create new appliques that fit the space and flow of each room.

In today's crowded markets, standing out and creating a unique patient experience can be a key to success. While Adventure Series provides a range of creative options to choose from, GE HealthCare understands that some discerning facilities desire something even more unique.

For those of you seeking a product experience custom tailored to you and your facility, we are pleased to offer you the ability to customize your Adventure Series room. GE HealthCare will work with you through the custom design process to create the experience you envision.

Adventure Series can be customized for the following spaces:

- Scan rooms
- Cafeterias
- Hallways
- Stress Lab
- Waiting rooms
- Exam rooms
- Uptake rooms

GE Adventure Series for PET/CT – Cozy Camp

Adventure Series is currently available in the US, Canada and Puerto Rico. Lead time for installation of Adventure Series rooms is approximately 4-6 weeks from date of order. Lead time for custom rooms is determined in the design process.

Specifications

- All specifications are subject to change without notice
- The product and brand names herein are the trademarks or registered trademarks of their respective owners

Pricing

- Please call to obtain current pricing. All pricing and product availability is subject to change without notice
- Price invoiced will be the price in effect at the time of order entry
- Quotations available upon request

Blanket Purchase Orders

You can save time and money by ordering your consumable products with our Blanket Order program. Blanket orders must be scheduled for a year or more and a signed purchase order agreement must be on file. Contact us for additional details.

Restocking Fee

- Returns are subject to, but not limited to, a minimum 15% restocking fee
- Certain items, such as sterile and environmentally controlled products within this catalog, are non-returnable and nonrefundable unless defective and have been noted as such

Product Returns

- Immediately upon receipt, please inspect all deliveries for order accuracy and condition
- For products shipped in error, please obtain return authorization from the Accessories and Supplies Call Center within thirty (30) days of delivery
- Power Quality items are nonreturnable and nonrefundable

Injectors

MEDRAD® MRXperion™ MR Injection System

Improved Efficiencies

- Snap-on/Twist-off syringe design
- Auto plunger advance and retract when attaching and detaching syringes
- Automatic filling and priming
- Injection/post-injection reminders
- Injection pressure graph

Reproducible Quality

- Proven track record of design and performance
- On-site field service and VirtualCare® Remote Support* for advanced injection system diagnostics and real-time support

Personalized Care

- Patient-Centric workflow design
- Protocol storage/retrieval
- On-board eGFR and weight based dosing calculators
- Injection enabled when head is tilted down

Cat#	Description	Warranty
E88221XA	Medrad MRXperion injector package – no penetration panel filter kit	E
E88221XE	Medrad MRXperion injector package – with penetration panel filter kit	E
E88221XN	Medrad MRXperion injector package (includes Informatics software)	E
E88221XP	Medrad MRXperion injector package (includes Informatics & Analytics software)	E
E88221XC	Medrad penetration panel filter kit option	E
E88221XD	Medrad MRXperion syringe kit XP 65/115VS including one 65 ml syringe, one 115 ml syringe, one large spike for saline, one small spike for contrast media, one 96" low pressure connector tube with T-connector and check valve (box of 20 kits)	H

Optional Penetration Filter Kit

- The penetration panel filter kit is needed when there is no power outlet in the MRI room
- The injector plug-in power supply has been tested to work inside the MRI room with no impact on image quality

Penetration panel filter kit option (E88221XC) includes:

- Filter assembly
- Mounting/centering ring
- Mounting screws
- Conductive O-ring (pre-installed on the filter)
- Power supply cable – 10 ft. (3 m)
- Installation instructions

SMART Packages

Medrad® MRXperion™ Injector SMART Package includes Informatics software

E88221XN

- Bayer’s latest Medrad® MRXperion™ MR Injection System with new automation features to allow less time preparing for the injection and more time to focus on the patient
- Point of Care Software enabling modality worklist connectivity
- Choice of 1 Outbound Interface (PACS, RIS, or Speech Recognition) for automated data capture
- Clinical in-service training
- Software implementation

Package value Benefits: Injection System Automation and Accessible & Automated Contrast Documentation

Medrad® MRXperion™ Injector SMART Plus Package includes Informatics & Analytics software

E88221XP

Includes everything in SMART Package Plus:

- Contrast Dose Management Analytics with Cross Modality Cumulative Patient Scope Card
- Choice of 1 additional Outbound Interface (PACS, RIS, or Speech Recognition)

Package value Benefits: Injection System Automation and Accessible & Automated Contrast Documentation PLUS Accurate Contrast Dose Management (CDM) Dashboards including Cumulative Patient Contrast Dose

BAYER Wall Mount for Mobile Applications

- Compatible with the MRXperion™, Stellant D™ and Stellant FLEX™ injectors
- Designed to securely fasten to a trailer’s wall for Bayer injectors in mobile applications
- Includes the foldable clamp, pad for injector head support, and smaller accessories to affix the desktop control unit

Cat#	Description	Warranty
E80141HG	BAYER Wall Mount for Mobile Applications	E

All MRXperion Injector packages include:

- Dual injector head on pedestal with integral double hook IV pole
- Certegra™ workstation
- Installation, customer’s operational training at time of installation, and one year full on-site warranty in Bayer service countries
- LAN port for VirtualCare Remote Service

Disposable Syringe Kit:

Disposable Syringe Kit option (E88221XD) includes:

- 65 mL Syringe for contrast media
- 115 mL Syringe for Saline
- One large spike for saline
- One small spike for contrast media
- «96” Low Pressure Connector Tube with T-connector and check valve

E88221XD
20 kits/box

E80141HG

MR Chillers

Dimplex Chillers

Multiple cooling capacities (36 kW, 49 kW, 70 kW and 94 kW) specifically designed to provide stable fully dedicated cooling for your MR system's needs.

- Installation support includes support through GE HealthCare's Project Manager of Install and GE HealthCare's Design Center
- Comprehensive and quality service rapidly delivered through our CARES service solution
- Water/glycol outdoor-air-cooled chillers to support your highest exam volumes and your full range of diagnostic procedures
- Redundant fluid pumps with automatic switchover let you keep operating with no loss of cooling even if one pump goes down
- Environmentally friendly and non-ozone harming refrigerant R407C
- Highly recommend a Vibration Isolation Spring Kit for systems that will be rooftop mounted (Catalog # E8911CJ and E8914DP)
- The Long Distance Remote Display upgrade (Catalog # E8911CF and E8914DQ) is required when there is more than 150 feet between the Chiller and the control room
- Choose "near coast" option when facility location is within 30 miles of a coastline
- Chillers that meet seismic requirements are available

SIGNA Artist

49 kW Chiller

49 kW MR Chiller – Dimplex model WO2-2-5000

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 2 preventative maintenance visits.

Compatible with SIGNA™ Artist and Optima™ MR450w

Cat#	Description	Temperature Range
E8912CA	Dimplex MR Chiller 49 kW – Standard Ambient Temp	-22° to 122° F (-30° to 50° C)
E8912CB	Dimplex MR Chiller 49 kW – Standard Ambient Temp Near Coast*	-22° to 122° F (-30° to 50° C)
E8912CC	Dimplex MR Chiller 49 kW – Extreme Cold Ambient Temp	-40° to 105° F (-40° to 40° C)
E8912CD	Dimplex MR Chiller 49 kW – Extreme Cold Ambient Temp Near Coast*	-40° to 105° F (-40° to 40° C)
Chillers – Seismic Certified		
E8912SA	Dimplex MR Chiller 49 kW – Standard Ambient Temp	-22° to 122° F (-30° to 50° C)
E8912SB	Dimplex MR Chiller 49 kW – Standard Ambient Temp Near Coast*	-22° to 122° F (-30° to 50° C)
Chiller Options		
E8912CF	Long Distance Remote Display Upgrade	
E8911CG	Manual Cryogen Compressor Water Bypass	
E8911CJ	Vibration Isolation Spring Kit	

*Within 30 miles of coast

36 kW Chiller

36 kW MR Chiller – Dimplex model WO2-7500

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 2 preventative maintenance visits.

Compatible with SIGNA™ Pioneer, SIGNA Hero and SIGNA Voyager

Cat#	Description	Temperature Range
E8914DJ	Dimplex MR Chiller 36 kW – Standard Ambient Temp	-20° to 122° F (-28.89° to 50° C)
E8914DK	Dimplex MR Chiller 36 kW – Standard Ambient Temp Near Coast*	-20° to 122° F (-28.89° to 50° C)
E8914DL	Dimplex MR Chiller 36 kW – Extreme Cold Ambient Temp	-40° to 122° F (-40° to 50° C)

Chiller Options

E8914DQ	Long Distance Remote Display Upgrade
E8914DP	Vibration Isolation Spring Kit

*Within 30 miles of coast

Note: For SIGNA Pioneer, SIGNA Hero, and SIGNA Voyager installations requiring seismic certification use Catalog # E8912SA/SB (49 kW Chiller). For extreme cold ambient temp near coast, use Catalog # E8912CD (49 kW Chiller).

70 kW Chiller

70 kW MR Chiller – Dimplex model WO2-2-7500

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 2 preventative maintenance visits.

Compatible with SIGNA Architect, SIGNA PET/MR, SIGNA Premier, Discovery™ MR450 and Discovery MR750/750w

Cat#	Description	Temperature Range
E8911CA	Dimplex MR Chiller 70 kW – Standard Ambient Temp	-22° to 122° F (-30° to 50° C)
E8911CB	Dimplex MR Chiller 70 kW – Standard Ambient Temp Near Coast*	-22° to 122° F (-30° to 50° C)
E8911CC	Dimplex MR Chiller 70 kW – Extreme Cold Ambient Temp	-40° to 105° F (-40° to 40° C)
E8911CD	Dimplex MR Chiller 70 kW – Extreme Cold Ambient Temp Near Coast*	-40° to 105° F (-40° to 40° C)

Chillers – Seismic Certified

E8911SA	Dimplex MR Chiller 70 kW – Standard Ambient Temp	-22° to 122° F (-30° to 50° C)
E8911SB	Dimplex MR Chiller 70 kW – Standard Ambient Temp Near Coast*	-22° to 122° F (-30° to 50° C)

Chiller Options

E8911CF	Long Distance Remote Display Upgrade
E8911CG	Manual Cryogen Compressor Water Bypass
E8911CJ	Vibration Isolation Spring Kit

*Within 30 miles of coast

94 kW Chiller

94 kW MR Chiller – Dimplex model WO2-2-10000

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 2 preventative maintenance visits.

Compatible with SIGNA™ Premier XT

Cat#	Description	Temperature Range
E8911BA	Dimplex MR Chiller 94 kW – Standard Ambient Temp	-22° to 104° F (-30° to 40° C)
E8911BB	Dimplex MR Chiller 94 kW – Standard Ambient Temp Near Coast*	-22° to 104° F (-30° to 40° C)
E8911BC	Dimplex MR Chiller 94 kW – Extreme Cold Ambient Temp	-40° to 104° F (-40° to 40° C)
Chillers – Seismic Certified		
E8911BD	Dimplex MR Chiller 94 kW – Standard Ambient Temp	-22° to 122° F (-30° to 50° C)
E8911BE	Dimplex MR Chiller 94 kW – Standard Ambient Temp Near Coast*	-22° to 122° F (-30° to 50° C)
Chiller Options		
E8911CF	Long Distance Remote Display Upgrade	
E8911CG	Manual Cryogen Compressor Water Bypass	
E8911CJ	Vibration Isolation Spring Kit	

*Within 30 miles of coast

Everything you need to get started:

- Chiller Ecats include pre-mixed 50/50 glycol for initial fill
- Filter kit with flow meter included
- Chiller delivery coordinated by GE PMI
- Start-up by OEM representative
- 12 month warranty with full parts and labor commencing at start-up
- 2 preventative maintenance visits in the fall and spring

Site planning information for Chillers available at

KKT MR Chillers

GE HealthCare is pleased to offer KKT chillers’s cBoxX Compact Line of chillers to meet the cooling needs of your MR System.

The cBoxX chiller is highly reliable and is verified to perform with GE HealthCare MR systems. As part of your integrated GE HealthCare solution, you’ll work with a single contact throughout the whole installation. A Project Manager of Installation will help with building layout, room designs, delivery, and installation — every step until your system is ready to scan. Our team will work seamlessly with architects, contractors, and your internal team to help ensure a timely, cost-effective completion.

Once your cooling system is running, you’ll get fast, highly skilled service support managed through GE HealthCare with the same quality and response time you expect from your MR system.

- Designed to provide stable fully dedicated cooling for your MR system’s needs
- Water/glycol outdoor-air-cooled chiller to support your highest exam volumes and your full range of diagnostic procedures
- KKT’s Compact Line (cBoxX models) provide maximum performance at minimum space requirements
- Up to 50% less footprint due to microchannel technology and high efficiency refrigerant R410A
- Dual pumps for redundancy, if a pump fails the second pump is activated automatically to ensure continuous operation
- Built automatically with a cyclic salt corrosion protection so no need to order a specific chiller for geographic saltwater regions. The chiller will not rust when installed near or around the ocean
- Leveling feet and isolation springs on each foot come standard, allowing installation at ground level or on a rooftop
- High operation comfort due to user friendly plain text display with intuitive menu navigation
- This vented chiller is easier to commission than a pressurized system

Inclusions and options

- Chiller ships in a robust full wooden crate for protection during transport
- Special anchoring feet included automatically
- A Chiller Interface Panel including connections for an alternative cooling source for total ICC or HEC backup cooling is optionally available- catalog# E8914KQ or E8914KR
- Remote display panel provides the ability to monitor the system’s operation from the control room, 164 ft (50 m) cable included. For longer distances order Long Distance Remote kit — catalog # E8915LC
- For installation of the chiller below the GE Heat Exchanger Cabinet an anti-backflow kit is required (Catalog # E8915LA or E8915LB)
- BACnet Gateway for communication with building management system optionally available (Catalog # E8914KS)

63kW MR Chiller – KKT Model cBoxX 100

Catalog includes: chiller, glycol, vendor start-up visit, 1-year full parts and labor warranty commencing at start-up including 1 preventative maintenance visit

Compatible with SIGNA™ Artist and Optima™ MR450w

Cat#	Description	Temperature Range
E8914KY	KKT cBoxX 100 63 kW Chiller — vented, standard ambient temp	-13° to 122° F (-25° to 50° C)
Chiller Options		
E8914KR	Chiller Interface Panel option	
E8914KS	BACnet Gateway option	
E8915LC	Long Distance Remote kit option	
E8915LA	Anti-Backflow kit (required for chiller installed below Heat Exchanger Cabinet)	

Specifications

- Supply voltage: 460/3/60 +/- 10%
- Operational weight: 2,822 lbs (1280 kg)
- Width: 33 in (830 mm)
- Depth: 72 in (1840 mm)
- Height: 80 in (2030 mm)
- Maximum power consumption: 46 kW
- Maximum current consumption: 66 A
- Coolant outlet temperature: 48.2° F (9° C)
- Refrigerant: R410 A
- Coolant: Water / Glycol (KKT Protect) 37%

41 kW MR Chiller — KKT Model cBoxX 60

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 1 preventative maintenance visit

Compatible with SIGNA™ Pioneer, SIGNA Hero, and SIGNA Voyager

Cat#	Description	Temperature Range
E8914KX	KKT cBoxX 60 41 kW Chiller — vented, standard ambient temp	-13° to 122° F (-25° to 50° C)

Chiller Options

E8914KQ	Chiller Interface Panel option
E8914KS	BACnet Gateway option
E8915LC	Long Distance Remote kit option
E8915LA	Anti-Backflow kit (required for chiller installed below Heat Exchanger Cabinet)

Specifications

- Supply voltage: 460/3/60 +/- 10%
- Operational weight: 1,977 lbs (897 kg)
- Width: 33 in (830 mm)
- Depth: 49 in (1240 mm)
- Height: 80 in (2030 mm)
- Maximum power consumption: 27 kW
- Maximum current consumption: 43 A
- Coolant outlet temperature: 55° F (13° C)
- Refrigerant: R410 A
- Coolant: Water / Glycol (KKT Protect) 37%

75 kW MR Chiller — KKT Model cBoxX 120

Catalog includes: chiller, glycol, vendor start-up visit, 1 year full parts and labor warranty commencing at start-up including 1 preventative maintenance visit

Compatible with SIGNA Architect, SIGNA™ PET/MR, SIGNA Premier, Discovery™ MR450, and Discovery MR750/750w

Cat#	Description	Temperature Range
E8914KZ	KKT cBoxX 120 75 kW Chiller — vented, standard ambient temp	-13° to 122° F (-25° to 50° C)

Chiller Options

E8914KR	Chiller Interface Panel option
E8914KS	BACnet Gateway option
E8915LC	Long Distance Remote kit option
E8915LB	Anti-Backflow kit (required for chiller installed below Heat Exchanger Cabinet)

Specifications

- Supply voltage: 460/3/60 +/- 10%
- Operational weight: 3,625 lbs (1644 kg)
- Width: 47 in (1200 mm)
- Depth: 105 in (2665 mm)
- Height: 80 in (2030 mm)
- Maximum power consumption: 53.7 kW
- Maximum current consumption: 80 A
- Coolant outlet temperature: 48.2° F (9° C)
- Refrigerant: R410 A
- Coolant: Water / Glycol (KKT Protect) 37%

Everything you need to get started

- Chiller catalogs include pre-mixed 37% glycol/63% distilled water for initial fill
- Chiller delivery coordinated by GE HealthCare PMI
- Start-up by OEM representative
- 12-month warranty with full parts and labor commencing at start-up
- 1 preventative maintenance visit after 6 months

Patient Monitors

Closed-Circuit TV System

This closed-circuit TV camera package allows for visual monitoring of your patients during their scans and now features an optional integrated recording feature for high-risk patients and for security purposes. Ceiling or wall mounted fixed camera is unobtrusive and transmits high-quality color images in real time to the operator's console where a 17 in TFT LCD monitor is located. A dual camera system is also available allowing split-screen viewing by the technologists to see both the front

and back sides of the bore simultaneously.

CCTV System includes:

- 17 in TFT LCD color monitor
- Compact color camera with lens
- Signal interface box
- Exterior-mount power supply
- Mounting brackets for camera
- Set of 3 cables: 10 ft, 40 ft, 100 ft
- Remote control

Expression MR400 MRI Patient Monitoring System

The Expression MR400 MRI Patient Monitoring System is designed to assist clinicians in monitoring patient vital signs in the dynamic magnetic resonance environment.

- 15 in color LED widescreen display for high resolution patient information
- Monitor display is fixed to the cart
- Intuitive touchscreen graphical user interface
- Colored waves and large numeric displays
- Bedside-quality “SINC” parameters
- Exclusive, advanced ECG solution for MRI
- 8-hour battery life and user-replaceable batteries for extended run time
- Simultaneous display of up to 13 parameters, and 6 waveforms and associated values
- Multi-priority visual and audible alarm signals, unique “alarm flag” messages, and pulse tones
- Gating, both digital pulse and analog waveform

E8819TA/TB/TC/TK

Configurations include everything you need to get started:

- Traditional Roll-Around cart
- Wireless ECG (with ECG) module
- Wireless SpO₂ (with SpO₂) module
- ECG lead cables and 25 electrodes
- SPO₂ probes and clips
- NIBP cuffs and hoses
- Applicable starter kit of consumables dependent on configuration selected

Cat#	Description	Vital Sign Parameters					Warranty

IRadimed® 3880Q MRI Patient Monitor

Non-Magnetic. Lightweight. Portable.

- This lightweight, portable monitor has been meticulously engineered to meet the needs of today’s complex MRI workflow
- From bedside through transport, the IRadimed 3880Q non-magnetic monitor is mountable patient-side, on a wall, roll-stand, bed rail, or an anesthesia cart
- The 3880Q can be quickly detached for immediate mobility and provides MR safety with full functionality in a compact, non-magnetic package

E8829TF/TG/TH/TJ

Everything you need to get started

- Patient monitor
- Accessory starter pack
- Non-magnetic roll stand
- Universal mounting bracket
- Anesthesia cart mounting brackets (if applicable)
- IBP pod and charging adapter (if applicable)
- Training is included

E8829TP

E8829TK

- Remotely monitor patients inside the MRI Zones III and IV with minimal interruptions
- Tablet wirelessly controls the 3880Q with full audio and visual alarm functionality
- HL7 and RS232 simultaneous output options allows integration to both legacy and future EMR systems

Infusion System

IRadimed® MRidium 3860+ Infusion System

The better choice for MRI critical IV medication delivery. Traditional infusion pumps are not safe for use in the MRI scan room (Zone IV). MRI IV infusion workarounds can cause delays, hazards and infusion inaccuracies. Adding long IV extensions may reduce drug flow rate and increase the chance of a hospital acquired infection. Instead, use a non-magnetic¹ IV infusion pump to more safely infuse critical medications in the MRI room.

Reduce your patient's time away from their care unit

Connecting the patient to an MRI infusion pump in their originating department streamlines the MRI workflow. Using the MRidium® with critical IV medications allow pump transfers to happen in a familiar and controlled environment.

The MRidium Dual Channel system

The MRidium 3860+ MRI IV Infusion System meets the demanding clinical needs of today's patients, by allowing continuous delivery of medications and anesthetics throughout the MRI care cycle. The dual system allows the simultaneous delivery of 2 IV drugs from a syringe, bag, or bottle fluid source in the MRI room suite.

Its light weight design (11.5 lb/5.2 kg) makes it easy to transport critically ill patients from ICU to the MRI department.

MRidium IV Infusion Pump

The non-magnetic design allows the MRidium infusion pump to safely operate in the MRI room.

MRidium Wireless Remote Control

(optional) The Wireless Remote eliminates delays caused by stopping the MRI scan to titrate or bolus by providing clinicians full operation from the MRI control room. It utilizes the same user interface as the 3860+ infusion pump.

Laser System

LAP[®] Laser Alignment System

- MR Simulation process helps localize, define and reconstruct a patient's tumor in 3 dimensions
- For MR simulation, the system consists of two moving lasers to project the coronal plane and two fixed overhead crosshair laser to project sagittal and axial planes
- Configured as a free-standing structure
- An innovative, absolute encoding system eliminates the need for any calibration
- Precision marking helps enable the radiation therapist to reproduce the treatment set up each day with a high degree of accuracy

Software

DynaCAD® Breast and Prostate Software by Invivo®

DynaCAD Breast

The DynaCAD software has been tailored to enhance your imaging workflow by providing:

- A large flexible workspace with custom hanging protocols
- Multi-vendor viewing capabilities
- Configurable worklists for easy study management
- It can be configured to automatically generate multi-planar reformatted (MPR) and maximum intensity projection (MIP) images
- The system can apply 3D image registration for correction of motion artifacts. The post-processed data is then available for viewing in one of DynaCAD's customized hanging protocols or can be automatically forwarded to a PACS archive

DynaCAD Prostate

- Empowers radiologists with a comprehensive set of advanced visualization tools for real-time analysis, review, and reporting of studies
- Images can be transferred directly from the MRI to DynaCAD for automatic processing and customized display
- Upon case completion key images, statistical data, and prostate PIRADS reports can be automatically transferred to PACS for archiving
- Enhances your multi-parametric approach by calculating color overlay maps based on perfusion characteristics ADC and diffusion values
- Processes and creates ADC and interpolated high b-value image series for your review with a simple menu selection

NordicNeuroLab fMRI Solution

Integrated hardware and software solution for clinical fMRI

The introduction of fMRI (functional Magnetic Resonance Imaging) as a clinical tool has added vital information to patient treatment and evaluation. By utilizing parallel imaging techniques, an fMRI exam can be completed in less than 30 minutes.

nordicAktiva – Stimulus presentation software

- Ready-to-use standard clinical paradigm library
- Includes library with pre-defined paradigms for language, motor, visual, auditory and cognitive tasks

NNL ResponseGrip

Includes interface for monitoring responses in real time, cabling and fiber bundlet.

E8825AE

- Handheld ResponseGrip with two buttons per hand (index finger + thumb)

NNL InroomViewingDevice

An easy to use alternative to conventional projectors or goggle-based image delivery systems.

- 40" LCD monitor
- 4K ultra high definition
- Height adjustable mobile stand
- Monitor can also be ceiling mounted (through third party)

E8825AA

NNL SyncBox

Synchronizes image acquisition with fMRI stimulus delivery.

E8825AC

NNL Hardware Cabinet

Cabinet for safe and clean storage of VisualSystem, ResponseGrip and Shielded Interface Unit.

E8825AM

- Dimensions: H = 895 mm (35 inches), L = 502 mm (20 inches), D = 552 (22 inches)
- Weight – 14kg (31 lb)

NNL VisualSystem – Goggles

Includes everything needed to present images via the goggles in the MRI.

- Full HD resolution displays (1920 x 1200)
- Integrated binocular eye-tracking
- Support for 3D / Stereoscopic
- Built-in diopter- and pupil distance adjustment
- Diopter correction is -7 to +5

MR Music Systems

MRI Audio Music System

MRI Audio premium sound system is designed for comfort and allows the patient to listen to music while being scanned in an MRI. Technologist is in full control of the system headphones, microphone, sound source and volume controls. Standard 3.5 mm plug for music source allows any compatible music player, tablet, or phone. Stethoscope-style headphones work with any head coil. Auto-voice compatible with GE MRI systems.

Package includes:

- Digital amplifier
- iPad Mini
- iPad Mini mount with lock
- 3G transducer
- Stethoscope-style headphones, 29dB noise reduction
- Over-ear headphones, 29dB noise reduction
- Disposable ear tips (300 pairs)
- Technologist's speakers
- 6 ft RCA 3.5 mm cable
- Autovoice/MIC adapter

NeoCoil Guardian Wireless Audio System

The NeoCoil Wireless Audio system provides audio entertainment and facilitates communications between the patient and technologist. Wireless solution eliminates multiple cords and standard 3.5mm audio jack allows any compatible music source.

- Integrates audio entertainment, the technologist’s voice, and AutoVoice for optimum patient communication
- MR conditional wireless audio system for use with high field MRI up to 3.0T
- Wireless solution operates on 3 batteries

E8800XA

Package includes:

- Wireless 29dB headphones (over-ear)
- Wireless audio interface for earbuds (in-ear)
- Wireless earbud assembly
- Disposable 29dB earbud inserts, 125 pair (250/pkg)
- Battery charging dock
- Audio cable, 3.5mm
- Rechargeable Individual Li-Po 3.7V Battery Packs (3)
- Wireless transmitter including couplers for penetration panel
- Technologist console interface
- Audio Source – Amazon® Fire® tablet, tablet stand, tablet lock, and (2) speakers

Newmatic MR Music/Sound System

Equipped for both patient and operator comfort, the MR Music/Sound System provides everything you need to relax your patients with music during their MRI scan. The MR Music/Sound System allows patients and technologists to listen to different music sources at the same time, and with the Dual Active Headsets, both the patient and a companion can wear headsets listening to the same source, allowing for encouragement and assistance when listening to the technologist’s instructions.

Includes everything you need to get started:

- Re-engineered patient amplifier and transducer
- Custom mini iPad with downloaded Apps ready for music
- Anti-theft iPad stand
- High quality technologists speakers with a small footprint
- Push-button desktop microphone for easy communication with patient
- Includes all the necessary wiring
- NGHS29-10, ANSI approved NRR (Noise Reduction Rating) 29dB Noise Guard headset provides a comfortable listening experience
- NHS (Non-Headset) is designed for the tightest of head coils. Using this headset in conjunction with our ear plugs results in the required 29dB NRR. The non-headset has two 1” foam ear muffs which can be positioned at the patient’s ear in a head coil (not pictured)

MRI Magnet Safety DVD

- Demonstrates the effects of a high magnet field on external objects
- Explains recommended safety procedures as applied to ancillary personnel, patients, and department staff
- 1 DVD, approximately 15 minutes

E8804EG

Cat#	Description	Warranty
E8804EG	MRI Magnet Safety DVD	H

MR Safety

We offer two types of safety devices for MRI.

- Handheld metal detectors detect both ferrous and non-ferrous metallic items. These wands are highly user dependent in technique and have low sensitivity. A proper scan takes 1-2 minutes at close proximity to the patient (Cat# E8810BC)
- Wall mounted ferromagnetic detector: Accurately differentiates between both internal and external ferrous and non-ferrous metals, as only ferrous metals are of primary concern in the MRI environment. A proper scan takes 5-10 seconds as the subject makes turns in front of the device, with technologist/operator maintaining a safe social distance (Cat# E8810MA/MB)

MR Handheld Metal Detector

- Identifies ferrous and nonferrous metallic items in the MRI suite
- Slender design provides 360 degrees detection coverage, including tip pinpointing
- Easy to use with 1-touch button and 3-color LED display
- Immediate audio or visual/vibration alarm signals
- Powered by a standard 9V battery or a rechargeable battery is available (E8801BD)

E8810BC

Cat#	Description	Warranty
E8810BC	Handheld Metal Detector	H
E8810BD	Rechargeable Battery and Charger	H

Metrasens Ferroguard Ferromagnetic Detection Systems (FMDS)

Protecting patients and staff from projectile hazards is a priority in every MRI facility. Ferromagnetic detection systems are recommended by the ACR, which states in its 2020 Manual on MRI Safety that FMDS "...have been demonstrated to be highly effective as adjuncts to the MRI safety screening process..."¹ FMDS are also required by the Joint Commission through their adoption of the FGI Guidelines, 2018.²

The Metrasens Ferroguard FMDS product line includes:

1 Manual on MR Safety. Published by the American College of Radiology, 2020.

2 Guidelines for Design and Construction of Hospitals. Published by American Society for Healthcare Engineering, 2018.

MRI Zone 4 entryway protection:

- **Ferroguard Assure** – the market-leading system, for advanced MRI projectile risk management (Cat# E8810MH)
- **Ferroguard Centurion** – for trustworthy Zone 4 protection, fully upgradable to the Assure feature set (Cat# E8810MD)

For screening patients for the smallest risk items:

- **Ferroguard Screener** – detects the risk items that other systems miss (Cat# E8810MA/MB)

Ferroguard Assure – Cat# E8810MH

Ferroguard Centurion – Cat# E8810MD

Ferroguard Screener – Cat# E8810MA/MB

Metrasens Ferroguard – choosing the correct system for your needs

Customer Benefits – entry control systems	Ferroguard Assure CAT# E8810MH	Ferroguard Centurion CAT# E8810MD
24/7 protection of Zone 4. Eliminating catastrophic accidents caused by medium to large projectile items	✓	✓
Always detecting before, not beyond the door. Wall mounted in Zone 3, immediately outside magnet room	✓	✓
Visual Early Warning (ViEW™) technology, providing time to react to prevent an accident	✓	✓
Audible alert reduction, never an alert on exiting the MRI room	✓	✓
Lowest probability of alarm fatigue. Smart system can ignore magnetic signal from MRI door movement	✓	
Data-driven MRI safety management. Automated metrics and reporting for all your protected magnets	✓	
Robust ruggedized aluminum construction, to survive the inevitable gurney collisions	✓	✓
High quality planning, installation and support by Metrasens-certified engineers	✓	✓
Fully upgradable post-installation to full Ferroguard Assure feature set		✓

Customer Benefits – patient screening	Ferroguard Screener CAT# E8810MA/MB
Detects risk items that other FMDS systems miss – as shown in independent testing – laboratory study ³	✓
Demonstrated implant detection efficacy – Work published by Mayo Clinic indicates 99.6% sensitivity to detection of implanted cardiac pacemakers ⁴	✓
May increase throughput efficiency by reducing artifacts and time-wasting restarts	✓
A true FMDS. The ACR recommends against the use of “...conventional metal detectors that do not differentiate between ferrous and non-ferromagnetic material...” ⁵	✓
Robust ruggedized aluminum construction, to survive the inevitable gurney collisions	✓
High quality planning, installation and support by Metrasens-certified engineers	✓

³ Intertek Testing and Certification Performance Laboratory, 2019. Full report available from Metrasens.

⁴ Watson, R.E. et.al. Augmenting MRI Safety Screening Processes: Reliable Identification of Cardiac Implantable Electronic Devices by a Ferromagnetic Detector System. Journal of Magnetic Resonance Imaging, 49, 2019.

Phantoms

PET Annulus DQA (Daily Quality Assurance) Imaging Phantom

Designed exclusively for the Discovery™ MI, Discovery IQ PET and SIGNA™ PET/MR systems

- Make sure you're getting the most from your GE system by checking it with our custom designed imaging phantoms
- Recommended for accurate calibration of your PET detector and easier quality control
- Designed to be held in place during use by standard source holders provided with scanning equipment
- No mechanical maintenance is required

E8008PN

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

Cat#	Description	Warranty
E8008PN	Daily Quality Assurance (DQA) Phantom for use with Discovery MI, Discovery IQ PET and SIGNA PET/MR systems	W

Compatibility: Discovery MI, Discovery IQ and SIGNA PET/MR systems

Note: When not in use, secure this sealed source in a protected shielded area. Should cleaning become necessary, use a cloth moist with mild soap and water. Do not use strong organic solvents for cleaning plastic sources. Leak test annually.

VQC (Volumetric Quality Control) Imaging Phantom

- Make sure you're getting the most from your GE system by checking it with our custom designed imaging phantoms
- Recommended for accurate calibration of your PET/MR detector and easier quality control
- Designed to be held in place during use by standard source holders provided with scanning equipment
- No mechanical maintenance is required

Note: All pin, flood and phantom sources are non-returnable and non-refundable. Copy of site license must be provided before order can be filled.

MR Patient Experience

Caring MR Suite®

The PDC Caring MR Suite® is an MR patient experience suite that empowers patients and caregivers to instantly personalize the MR Suite to every patient's preference. By tapping on the Caring MR Suite® App, they can choose a favorite 4K Nature theme or movie, color of their ambient lighting hue, and in-room music

- Create a Calming Environment
- Improve Patient Comfort
- Elevate Patient Satisfaction
- Increase Exam Productivity
- The systems have been tested and certified to meet all GE MRI requirements and is guaranteed by PDC not to cause image artifacts

MRI Safe, LED Light Retrofit Bulb Kit

- This kit provides everything needed to replace A21 incandescent light bulbs in an existing MRI scan room with LED bulbs
- Catalog includes:
 - 12 LED light bulbs
 - 1 Power Supply
 - Dimmer switch

Cat#	Description	Warranty
E8825BA	MR LED Bulb Retrofit Package	C

In-Bore Viewing with PVD (Portable Video Display)

- This PVD is connected to power and the video source with a 25' cable. The Patient uses a mirror suspended in the MRI bore or mirror Glasses to view the PVD behind the bore.
- The PVD can be connected to an MRI music system supplied by others
- Includes:
 - 1 32" PVD on a rolling cart
 - 1 system control rack with power supply (does not include integration module for lighting control)
 - 4 wall mounted speakers (provide audio in the scan room)
 - 1 touchpad user interface
 - 1 installation cable kit
 - 1 PVD RF filter pack
 - 1 Blu-Ray player
 - 1 wireless access point
 - 1 device adapter

Cat#	Description	Warranty
E8825BE	In-Bore Viewing, Portable Video Display (PVD) Wired Connection	C

NordicNeuroLab ComfortSolution

The nordicComfortSolution is designed to help both the MR technologists and their patients to have a successful scan.

Equipped with relaxing audio and video content, the patient experiences a calm environment, distracting them from the intimidating enclosure of the scanner.

This solution helps to reduce:

- The number of delays
- Aborted scans
- Use of anesthesia or sedation

by improving patient compliance throughout the entire MRI procedure.

Benefits for the patient and the hospital:

Helps reduce:

- Patient anxiety
- Patient movement during exam
- Delays and decrease numbers of aborted and repeated scan
- Need for sedation, especially for pediatric patients

Includes everything you need to get started:

- 40" LCD monitor
 - 4K ultra high definition
 - Height adjustable mobile stand
 - Monitor can also be ceiling mounted (through a third party)
 - Integrated camera for patient viewing
- nordicComfortPlayer software with media library (audio and video) installed on a Microsoft PC
- Fiber transmitter and necessary cabling

Endorectal Coils

Combines eCoil and GE 8-channel HD Torso coil for phased array imaging of the prostate.

- Enhanced ability to visualize internal architecture of the prostate and periprostatic structures; including prostate capsule and neurovascular bundles

Compatible with SIGNA™ Explorer, Optima™ MR450/MR450w, and SIGNA HDxt 1.5T

Interface Device for GEHC 1.5T System

- Compatible with 1.5T prostate eCoil
- Supports 8-channel HD Torso coil from GE
- Provides high-resolution images leading to enhanced treatment planning
- May assist in tumor staging

1.5T Disposable Endorectal Coil — Prostate

- For use with the 1.5 T MR endorectal interface device (E8801RG)
- Disposable endorectal surface coil portion of SIGNA Endocavity Coil System for imaging of the prostate
- Single use, disposable coil for enhanced patient comfort and safety
- Coils are packaged 5 per box

E8801RG/RH. Torso coil is not included

Compatible with Discovery™ MR750/MR750w and SIGNA HDxt 3T

Interface Device for GEHC 3.0T Systems

- Compatible with 3.0T prostate eCoil
- Supports 8-channel HD Torso coil from GE
- Provides high-resolution images leading to enhanced treatment planning
- May assist in tumor staging

3.0T Disposable Endorectal Coil — Prostate

- For use with the 3T MR endorectal interface device (E8801RH)
- Disposable endorectal surface coil portion of SIGNA Endocavity Coil System for imaging of the prostate
- Single use, disposable coil for enhanced patient comfort and safety
- Coils are packaged 5 per box

Positioning Aids for Spine Surface Coils

The CTL foam pad (E8800PD) is a long gray-coated foam pad placed on the coil for patient comfort

- Measures 30.36 in (L) × 15.51 in (W) × 1.8 in thick

C-Spine coil wedge pads (E8800PE) are gray-coated foam pads for positioning between the patient and coil to immobilize patient's head

- Set of 2; one pad for each side of the patient's head
- Oval-shaped wedge pads measure 5.5 × 4 in, tapers from 2 in to 0.25 in thick

Both pads are for use with CTL 1.5T and 1.0T coil assembly

MR Earplugs

Honeywell® Maximum earplugs, Model MAX-1

- Offers excellent attenuation in a single-use earplug
- Polyurethane foam enhances comfort
- Bell shape for maximum in-ear comfort
- Smooth, soil-resistant skin prevents dirt build-up
- NRR 33 dB
- One size fits all
- Diameter: 12.76 mm
- Length: 23.63 mm
- Uncorded
- Orange
- Packaged 200 pairs/box

E8801BD

TaperFit® 2 Disposable Earplugs

- Latex-free, bright yellow, polymer earplugs with curved, tapered shape and smooth, non-allergenic outer skin for fast, comfortable, custom-fit insertions
- Recommended for patients or staff with small to medium ear canals
- Offers NRR 32 dB protection
- Packaged 200 pairs per box

E8801BB

MAXLite® Disposable Earplugs

- Bright green with smooth outer skin and tapered shape for easy insertion
- Special construction exerts less pressure on the ear than other expandable foam plugs, while still providing a high level of noise reduction
- Recommended for pediatric patients or patients with small ear canals
- Offers NRR 30 dB protection
- Packaged 200 pairs per box

E8801BC

Aearo Classic® Foam Disposable Earplugs

- Aearo Classic Foam are bright yellow, latex-free, hypo-allergenic polymer foam earplugs; custom fit to any ear canal by simply rolling and inserting into ear
- Recommended for patients or staff with medium to large ear canals
- Offers NRR 29 dB protection
- Packaged 200 pairs per box

MR Logbooks

- Provides an effective way to track daily patient studies; provides complete exam data in one convenient location
- GE SIGNA patient logbooks record 5 exams per page, 62 pages per book; shipped 6 logbooks per box

E8807AB

Cat#	Description	Packaging	Warranty
E8807AB	GE SIGNA Patient Logbooks	6/box	H

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Dynamic Sag Corrector

Dynamic Sag Corrector (DySC)

- Corrects for voltage sags at the system, department or facility level
- DySC is optimized for fast sag detection and response time (voltage detect time of 1 ms; sags are corrected with a peak voltage response time of 1.5 ms)
- A green power solution at > 99% energy efficiency, the DySC has no batteries and over time can offer lower cost of maintenance
- Smaller footprint and lighter weight than comparable (kVA) UPS systems
- Service Contracts offered by GE HealthCare
- Compatible with SIGNA™ Architect, SIGNA Artist, Discovery™ MR750, and Discovery MR750w/MR750 + GEM

Main Disconnect Panel

Main Disconnect Panel

- The main Disconnect Panel provides emergency/out shut down, undervoltage protection, overcurrent protection, OSHA lockout/tag out provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

GE Adventure Series – Customized Rooms

The GE HealthCare Design team will work with a small group of your hospital staff to create a custom layout and select themed graphics from the existing catalogs, or at times, create new appliques that fit the space and flow of each room.

In today's crowded markets, standing out and creating a unique patient experience can be a key to success. While Adventure Series provides a range of creative options to choose from, GE HealthCare understands that some discerning facilities desire something even more unique.

For those of you seeking a product experience custom tailored to you and your facility, we are pleased to offer you the ability to customize your Adventure Series room. GE HealthCare will work with you through the custom design process to create the experience you envision.

Adventure Series can be customized for the following spaces:

- Scan rooms
- Cafeterias
- Hallways
- Stress Labs
- Waiting rooms
- Exam rooms
- Uptake rooms

GE Adventure Series for MR – Deep Blue Sea

Graphics are designed for use on smooth or textured/acoustic material walls

Cat#	Description	Warranty

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

Main Disconnect Panels *(cont.)*

Cat#	Description	Warranty
MR Main Disconnect Panels		
E4502SP	25 KAIC MR Signa* Main Disconnect Panel w/Shield Cooler Compressor	Y
Nuclear Medicine/PET Main Disconnect Panels		
E4502BB	CT Main Disconnect Panel 90A 380-480VAC 50/60Hz 3 phases	Y
E4502BC	CT Main Disconnect Panel 110A 380-480VAC 50/60Hz 3 phases	Y
E4502BE	CT Main Disconnect Panel 125A 380-480VAC 50/60Hz 3 phases	Y
E4502BF	CT Main Disconnect Panel 150A 380-480VAC 50/60Hz 3 phases	Y
E4502BG	CT Main Disconnect Panel 175A 380-480VAC 50/60Hz 3 phases for Revolution Apex	Y
Mammography Main Disconnect Panels		
E4502PA	MDP UL 208 – 240 V, 60 Hz, for Senographe Pristina/Essential/DS	Y
Interventional Main Disconnect Panels		
E46001BD	MDP for Innova IGS5, IGS7 and IGS 6 AutoRight™	Y

See Power Quality Compatibility Guide on page PS 11-15

AC Lighting Controllers

AC Lighting Controllers

- “X-ray in Use” warning and room lighting control panel provide a low voltage interface between the “X-ray in Use” warning lights, interior room general lighting systems and the X-ray system
- Convenient, push on/off pre-wired footswitch for control of room general lighting
- Enhances servicing safety by the use of a low voltage interface circuit between the imaging system and the line voltage lighting system

E4502SS

Cat#	Description	Warranty
E4502SS	X-ray Warning and Room Lighting Control Panel (X-ray, Vascular, R&F)	Y
E4502RL	X-ray Warning Light Control Panel (CT, MR, X-ray)	Y

 See Power Quality Compatibility Guide on page PS 11-15

Power Quality Analyzer

POWERSIDE PQube 3 Power Quality and Environmental Analyzer

PQube® 3 is an instrument for monitoring electric power systems and environmental conditions, designed to help solve problems that impact the quality and reliability of the medical equipment.

- Records disturbances on the modality supply: sags/dips, swells, interruptions, frequency variations, impulses, and waveform events
- It also records power quality parameters like flicker, unbalance, current and voltage THD (harmonics) and current and voltage harmonics (THD, TDD)
- Implementing a POWERSIDE PQube 3 in your facility will help identify your power anomalies and degradations. Once identified, we can help you find a power solution to solve problems that impact the quality and reliability of your medical equipment.

Compatibility: Long intracavity, large 4-D OB and standard size probes

ABUS System Consumables

ABUS Membranes

The ABUS disposable scan membrane provides comfort to the patient during the 3D image acquisition. The flexible, polyester, mesh fabric stabilizes the breast tissue and enables better image quality during the scan. The membrane is single-use-only which eliminates the risk of cross-contamination and the need for sterilization.

ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS and somo•v™ ABUS Platinum

Catalog #E8340AB

Curved membrane dimensions:

229 mm (L) x 213 mm (W) x 19 mm (D)

Polysonic® Ultrasound Lotion and Protex™ Ultrasound Disinfectant Wipes

GE HealthCare offers an array of consumable supplies for the ABUS (Automated Breast Ultrasound) portfolio of systems including scan membranes, Polysonic® ultrasound lotions, and Protex™ disinfectants.

ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS, and somo•v™ ABUS (Automated Breast Ultrasound) Platinum systems (non-Sterile)

Compatible for use with either ABUS membrane

Compatible for use with ABUS system

Cat#	Description	Quantity per Box	Warranty
E8340AB	ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS, and somo•v™ ABUS (Automated Breast Ultrasound) Platinum systems (non-Sterile)	50/box	W
E8365EC	Polysonic Ultrasound Lotion (Non-Sterile) – 8.5 oz dispenser bottles	12 bottles/box	H
E8365EF	Polysonic Ultrasound Lotion (Non-Sterile) – 1 US gallon with refillable dispenser	4 gallons/case	H
E8365EB	Protex Ultra Disinfectant Wipes – 60 ct Soft-pack w/stay-put adhesive backing – 6.5 in x 6.0 in	12 pack/box	H
E8365EG	Protex Ultra Disinfectant Wipes – 75 ct canister pack – 7 in x 9.5 in	8 pack/case	H
E8365EH	Protex Disinfectant Wipes - 80 ct Softpack – 7 in x 10 in	12/case	H

General Purpose Transducer Covers

PullUp™ Sterile Latex-Free General Purpose Transducer Covers

- Minimizes cross-contamination
- Protects equipment and reduces post-procedure clean-up
- PullUp™ allows cover to be easily propped open for convenient placement of gel and probe
- PullUp™ handle allows for quick application while maintaining a sterile field
- Made of soft polyurethane
- 3D end for seamless scanning
- Sterile, intended for single-use
- Available in lengths of 24 and 48 in
- Packaged 24 Covers per box, sold per box

E8013AD/AV

Cat#	Description	Packaging	Warranty
E8013AD	5.5 in x 48 in (14 cm x 122 cm) PullUp™ with 3D end, sterile gel and bands	24/box	K

Intraoperative Transducer Covers

Protek™ Medical Sterile Latex-Free Polyethylene Intraoperative Transducer Covers

- Minimizes cross-contamination
- Protects and extends equipment life
- Reduces post-procedure clean-up
- Accordion-folded for easy application
- Clear polyethylene (not made with natural rubber latex)
- Sterile, intended for single-use
- Intraoperative transducer cover for a sterile environment
- Extends up the length of the transducer cord, allowing up to 8 ft (2.4 m) of sterile protection
- Catalog #E8013AL includes sterile gel packets and bands
- Packaged 12 Covers per box, sold per box

Ultrasound Gels

Parker Labs Aquasonic 100 Gel

- Original gel for diagnostic and therapeutic applications
- Tested and approved for use with GE transducers
- Blue colored aqueous gel formula is non-staining, non-sensitizing, and non-irritating
- Hypoallergenic, bacteriostatic
- No salt or formaldehyde; not a spermicide
- 5 liter jug with dispenser, 250 ml bottles, or 20 g sterile overwrapped foil pouches

E8365BA

E8365AF

E8365BJ

Cat#	Description	Packaging	Warranty

E8365CA	Aquasonic Clear Gel (250 ml bottles)	12/case	H
E8365CB	Aquasonic Clear Gel (5 L jug – includes dispenser)	1/case	H

Parker Labs SCAN[®] Gel

- Dual viscosity formula allows SCAN gel to be applied as a gel and scan as a fluid
- Less viscous than Aquasonic 100 for ultrasound procedures where a less viscous gel is desired
- Green colored gel is completely water-soluble, will not stain clothing, damage equipment, or irritate skin
- Hypoallergenic, bacteriostatic
- Offered in 250 ml bottles, 1 gallon jug with dispenser

Standoff Pads

Parker Labs Aquaflex[®] Standoff Pads

- Aqueous, flexible, disposable ultrasound standoff pad for use in difficult to visualize and near field areas
- Requires no gel, except in prolonged procedures
- Cushions sensitive areas for comfortable scanning
- Hypoallergenic, bacteriostatic
- Pads are disposable, which helps to prevent cross-contamination
- Each pad measures 2 × 9 cm
- Packaged 6 pads per box, sold per box

E8317C

Cat#	Description	Packaging	Warranty
E8317C	Aquaflex Standoff Pads – 2 × 9 cm	6/box	H

Endocavity Needle Guides

Protek™ Disposable Endocavity Needle Guide (Single Piece)

- For precise needle placement during ultrasound-guided procedures
- Directs instruments according to on-screen biopsy guidelines
- Easily snaps onto probe
- Disposable design of guide helps to reduce the risk associated with cross-contamination
- Smooth profile ensures patient comfort
- Wide funnel for optimal needle entry
- Requires no disinfecting
- Fits needle gauges 16 or thinner
- Sterile, intended for single-use
- 24 disposable procedure kits

E8013AS

E8013AT

Cat#	Description	Packaging	Warranty
E8013AS	E8C/E721/E8C-RS/IC5-9H/MTZ Sterile 16Ga single-use needle guide Includes 24 disposable biopsy needle guides	24/box	K
E8013AT	E8C/E721/E8C-RS/IC5-9H/MTZ Biopsy Kit Sterile 16Ga single-use needle guide, 3.5cm x 20cm latex cover, sterile gel, and bands	24/box	K

Compatibility: GE HealthCare E8C, E721, E8C-RS, E72, IC5-9-D, IC5-9H, IC9B-RS, MTZ, MZ Transducers

Protek™ Disposable Endocavity Needle Guide

- For precise needle placement during ultrasound-guided procedures
- Easily snaps onto probe
- Disposable design of guide reduces risks associated with cross-contamination
- Smooth profile ensures patient comfort
- Wide funnel for optimal needle entry
- Requires no disinfecting
- Fits needle gauges 16 or thinner
- Sterile, intended for single-use
- 25 disposable procedure kits

E8013AQ

Cat#	Description	Packaging	Warranty
E8013AQ	Sterile 16Ga single-use needle guide	25/box	K

Compatibility: GE HealthCare 618E, TR7 Transducers

Protek™ Disposable Endocavity Needle Guides

- For precise needle placement during ultrasound-guided procedures
- Directs instruments according to on-screen biopsy guidelines
- Easily snaps onto probe
- Smooth profile ensures patient comfort
- Wide funnel for optimal needle entry
- Requires no disinfecting
- Fits needle gauges 16 or thinner
- Sterile, intended for single-use
- Each Disposable Biopsy Needle Guide Starter Kit (E8013AW) includes 24 sterile kits:
 - Sterile 16Ga needle guide, 5 in tapered to 2 in x 24 in soft cover, 2.0cm x 20cm latex cover, and bands

E8013AW

Protek™ Reusable Endocavity Needle Guide

- For precise needle placement during ultrasound-guided procedures
- Directs instruments according to on-screen biopsy guideline
- Attaches securely to probe with ease (style varies)
- High-quality, stainless steel
- Safe for sterilization (steam sterilize/autoclave)
- Non-sterile, reusable

E8013AX

Adventure Series for Mobile X-ray

Star Catcher Patient Experience for the Navigate Mobile X-ray System

When young patients feel anxious, they often have difficulty lying still during imaging procedures, which can affect the completion of the scan.

With the Adventure Series program, we can engage children to help improve their coping skills and reduce anxiety levels, leading to much better cooperation during the procedure.

Put children first with the GE Adventure Series, an experience designed to make imaging more inviting for pediatric patients. See pg. 18-24 for more information.

E1500RS

Cat#	Description	Warranty
E1500RS	GE Adventure Series, Starcatcher for AMX™ Navigate Mobile X-ray	Y

Sterile Drapes

AMX Mobile System Drapes

GE HealthCare’s sterile, disposable drape solution helps protect your amx mobile systems. With a greater focus on convenience and productivity for your busy X-ray department, these drapes can be applied by a single technologist. Choose from either the tube or detector drape option.

E7009HA

Cat#	Description	Packaging	Warranty
E7009HA	Sterile Protective Drapes – Tube Drape (74 in x 42 in)	20/Box	H

Mobile X-ray Accessories

Mobile Detector Holder for Flashpad HD Detector

- Compatible with the GE FlashPad® HD detector
- A stable platform enabling images to be taken at any angle
- Counterbalanced vertical movement from floor level to 50.8" (129 cm) high
- FlashPad HD (or a cassette) can overhang the table or trolley up to 24.4" (62 cm)
- Strong and compact design
- Large, quick-locking castor wheels
- Size: 70.5 in (H) x 26.4 in (D) x 24 in (W) (179 cm (H) x 67 cm (D) x 61 cm (W))
- Weight: 121 lbs (55 kg)

E06731BL

Cat#	Description	Warranty
E06731BL	Mobile Detector Holder for Flashpad HD Detector	C
Compatibility: Flashpad HD		

Mobile Adjustable Detector Holder

The height-adjustable mobile detector stand is used in applications with a digital radiography (DR) detector.†

A removable clear acrylic panel and securing straps maximize patient positioning during the procedure.

- Electric height adjustment accommodates patients of various sizes
- Straps and a removable clear acrylic panel improve the accuracy of patient positioning
- Independent detector and grid holders allow for insertion and removal of detector without removing the grid
- Detector and grid can be rotated 90° in either portrait or landscape
- Small footprint with large 4" wheels provides for easy movement from room to room with detector and grid in place
- Four locking casters secure placement of the stand
- Constructed using high-grade steel and aluminum allowing the unit to be cleaned and disinfected using standard medical cleaning agents

† Detector and grids not included.

E6313DA

Cat#	Description	Warranty
E6313DA	Mobile Vertical Detector Holder for Flashpad Digital Detector (120V, 60Hz) – not compatible with Flashpad HD	Y
Compatibility: Flashpad		

Flexi-Holder II Detector and Cassette Holder

- The Flexi-Holder features an extra wide base for increased stability, allowing accurate radiographs to be taken from virtually any angle from floor level to 71 in + (180 cm) high
- Dimensions – 19 in (L) x 22 in (W) x 75 in (H)
- Weight – 110 lbs (50 kg)
- Teflon-coated bracket securely holds digital detector
- Helps eliminate retakes caused by improper cassette positioning
- Permits smoother scheduling and exceptional radiographs, saving film, time and labor for cost-effective radiographic procedures
- Minimizes patient assistance and discomfort in positioning
- Accepts most cassettes and does not obscure cassette film area
- Exclusive GE design

E6314J

Cat#	Description	Warranty
E6314J	Flexi-Holder Detector/Cassette Holder – not compatible with Flashpad HD	Y
Compatibility: Flashpad		

Misc. Accessories

Single Hand Loading Cassette Tray

- The Single Hand Loading Cassette Tray with Automatic Size Sensing is designed for use in radiographic tables and vertical bucky stands
- Sends a signal to the collimator indicating whether a film cassette is in place; if so, the cassette size is indicated
- Utilizes a spring-action clamping mechanism and cassette support tabs that allow the operator to insert and remove film cassettes with one hand
- Validated for use with both the Proteus and Precision 500D systems

E6314M

Cat#	Description	Warranty
E6314M	SHL Cassette Tray	L
Compatibility: Proteus, Precision 500D		

Furniture

Non-Magnetic Foot Stool

- Non-Magnetic Foot Stool works in MR or X-ray environments and offers patient stability
- Stainless steel construction
- Weight – approximately 30 lbs

E8806AB

Cat#	Description	Warranty
E8806AB	Non-Magnetic Foot Stool with Handrail	H

Physician Mobile Armchair

- Padded arms
- Charcoal gray
- Adjusts from 17.7 to 21.7 in (45 to 55 cm)
- Weight 31 lb (14 kg)
- Chair contains some ferro-magnetic material
- Not safe for use in an MRI Suite's Zone IV, use in control room only

E80331BE

Cat#	Description	Warranty
E80331BE	Physician Mobile Armchair	H

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

E4502FD

Cat#	Description	Warranty
Rad/R&F UPS		
E4502DC	ABB 150 kW UPS (non-seismic)	O
E4502DD	ABB 250 kW UPS (non-seismic)	O
E4502WA	Eaton 150 kW 93PM (non-seismic) UPS, non-upgradeable, 6.1 min runtime	O
E4502WB	Eaton 150 kW 93PM (seismic) UPS, non-upgradeable, 6.1 min runtime	O
E4504FQ	Eaton 0.7 kVA Partial System UPS	O

See Power Quality Compatibility Guide on page XR 12

Transformer

Transformer

- Meets or exceeds DOE 2016, NEMA TP-1, NEMA premium and DOD CSL-3 efficiency requirements
- Qualified to the seismic requirements of ASCE7.05, IEEE-693-2005 and IBC-2006
- UL Listed

Cat#	Description	Warranty
E4500TB	112.5 kVA Step Up Transformer – 208-480Y/277 Volt	Y

Dynamic Sag Corrector

Dynamic Sag Corrector (DySC)

- Corrects for voltage sags at the system, department or facility level
- DySC is optimized for fast sag detection and response time (voltage detect time of 1 ms; sags are corrected with a peak voltage response time of 1.5 ms)
- A green power solution at > 99% energy efficiency, the DySC has no batteries and over time can offer lower cost of maintenance
- Smaller footprint and lighter weight than comparable (kVA) UPS systems
- Service Contracts offered by GE HealthCare

E4505SM

Cat#	Description	Warranty
E4505SJ	200 Amp (166 kVA) ProDySC Dynamic Sag Corrector (without installation)	Y
E4505SM	200 Amp GT (166 kVA) ProDySC Dynamic Sag Corrector (without installation)	Y
E4505SK	400 Amp (333 kVA) ProDySC Dynamic Sag Corrector (without installation)	Y

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing

E46001BA

AC Lighting Controllers

AC Lighting Controllers

- “X-ray in Use” warning and room lighting control panel provide a low voltage interface between the “X-ray in Use” warning lights, interior room general lighting systems and the X-ray system
- Convenient, push on/off pre-wired footswitch for control of room general lighting
- Enhances servicing safety by the use of a low voltage interface circuit between the imaging system and the line voltage lighting system

GE Adventure Series – Customized Rooms

The GE HealthCare Design team will work with a small group of your hospital staff to create a custom layout and select themed graphics from the existing catalogs, or at times, create new appliques that fit the space and flow of each room.

In today's crowded markets, standing out and creating a unique patient experience can be a key to success. While Adventure Series provides a range of creative options to choose from, GE HealthCare understands that some discerning facilities desire something even more unique.

For those of you seeking a product experience custom tailored to you and your facility, we are pleased to offer you the ability to customize your Adventure Series room. GE HealthCare will work with you through the custom design process to create the experience you envision.

Adventure Series can be customized for the following spaces:

- Scan rooms
- Cafeterias
- Hallways
- Stress Lab
- Waiting rooms
- Exam rooms
- Uptake rooms

When young patients feel anxious, they often have difficulty lying still during imaging procedures, which can affect the completion of the scan.

With the Adventure Series program, we can engage children to help improve their coping skills and reduce anxiety levels, leading to much better cooperation during the procedure.

This, in turn, may reduce the need for sedation, increase the chances of a successful scan and help reduce the need to rescan the child or reschedule the appointment.[†]

Now children can experience a thrilling adventure while they get their exam!

Put children first with the GE Adventure Series, an experience designed to make imaging more inviting for pediatric patients. Through themed imaging rooms, GE HealthCare leverages captivating characters, lush visuals, and hands-on activities to enhance the imaging experience for the children, their families and the hospital staff.

“I realized that we needed to help children have less anxiety when experiencing an imaging scan and decrease their need for sedation. Our goal in creating Adventure Series was to harness the power of children’s imaginations for the better so they could feel less worried for the entire scan experience.”

– Doug Dietz,
GE Adventure Series Designer

“Watching my daughter come out of sedation after her scan was awful. I wish we could have avoided that.”

– Parent of a young child
who needed a CT scan

[†] Statement based on anecdotal information gathered from facilities who have utilized the Adventure Series product at their facilities. Substantive clinical data not available.

“The biggest change has been decreasing anxiety levels to the point where children are excited to go to the exam room and get their imaging scan.”

– Kathleen Kaspin, R.T., M.S.,
Children’s Hospital of Pittsburgh UPMC

“The success of the Adventure Series program really speaks for itself. Almost half of the facilities install multiple rooms immediately and 30% of our facilities have chosen to add more after the initial adventure is installed.”

– Marcia Taylor,
GE Adventure Series Manager

¹¹ Sedation rate results may vary. Not every hospital will see a decrease in sedation rates, particularly to this level, but three customers have reported a decrease in the level of sedation rates occurring at their facility when utilizing the Adventure Series. Many factors beyond the use of Adventure Series can impact whether a reduction of sedation rates will occur at your facility.

Stand out in the crowd

Advertise and promote your Adventure Series to families and referring physicians in your area with our marketing tool kit of promotional materials.

A sample of a few of the ads you will find in the marketing tool kit.

Patient pamphlet

Create the experience

The GE Adventure Series provides the setting for a great story to help ease the patient through the scan procedure. As part of the product offering we include the Explorer's Handbook. On this CD, you'll find a set of tools for you to use to guide your young patients on a wide array of adventures, which may help you get the scan you need. For example, in the Field Guides, we have provided some tips and suggestions on how to create a narrative that can enrich the experience and may help ease patient anxiety. We encourage you to take a moment to explore the room from a child's perspective and create roles that you both can play.

Your imagination is the final component. With it, the possibilities could be endless.

The Adventure Series Explorer's Handbook includes the artwork for:

Field Guides that offer tips and tricks for creating the adventure stories to help patients feel more comfortable during the scan.

Posters to decorate the department to encourage the entire staff to help improve the scan experience.

Coloring Books that engage young patient's creativity while educating them on what to expect from the scan procedure.

Reward Stickers for patients for a job well done.

Start your own adventure today

There is a story ready to be written. It's the story of your facility taking steps to become a leader in child-friendly imaging. And GE HealthCare is here to help you get started. We'll show you how you may use Adventure Series themes to enhance the imaging experience for patients, families, and your hospital staff as well.
