Re: Lake Houston Spillway Dam Improvement Project

Dear Lieutenant Governor Patrick:

As Commissioner of Montgomery County Precinct 4, I am writing to support the request for additional funding from the state for the Lake Houston Spillway Dam Improvement Project.

Since Hurricane Harvey, the Lake Houston communities, including New Caney and Porter, have been working together for a coordinated solution to flood mitigation. The Lake Houston Dam Spillway Improvement Project is an integral part of that solution, serving as a flood control device in addition to a water reservoir.

Our office has been making strides to address the much needed drainage improvements to East Montgomery County. I have started Montgomery County Precinct 4's first drainage study, which will identify flood-prone areas and assist in developing maintenance level projects throughout the precinct. In addition to our local flood resiliency efforts, this permanent solution of improving the Lake Houston Spillway will greatly reduce the risk of flooding our community's homes and businesses.

I appreciate the state legislature's consideration and assistance in securing the funding for the Lake Houston Spillway Dam.

Sincerely,

A handwritten signature in blue ink, appearing to read "Matt Gray", is written over a faint, larger blue signature graphic.

Commissioner Matt Gray  
Montgomery County Precinct 4
