Quality Policy

“MARPOL Training Institute, Inc. is committed to delivering innovative, quality software training products related to shipping industry regulations and methodologies associated with pollution of shipping waters. We intend to meet or exceed our customer’s expectations and requirements by producing training with well researched, job-type relevant content in a way that is easily absorbed. Our objectives are to help our customer’s avoid and mitigate fines while better understanding the regulations and advantages related to keeping our oceans clean. Everyone at MARPOL Training Institute is committed to continually improving the quality of our training and the resulting customer satisfaction through the quality management system.”
