Message from the Editor-in-Chief

Proteomes is an international, peerreviewed, open access journal that was first published in 2013 by MDPI. Proteomes addresses all aspects of proteome analysis with a special focus on the quantification and characterisation of the proteome at the level of proteoforms. We encourage submission of articles that accurately guantify and characterise the proteome, as well as new and updated methods and technologies that enhance the accurate guantification and characterisation of the proteome and thereby provide evidence directly facilitating the understanding of biological mechanisms. Articles emphasising a multi/ transdisciplinary approach combining different omics techniques are welcomed.

Editors-in-Chief Prof. Dr. Jens R. Coorssen Dr. Matthew P. Padula

Aims

Proteomes will publish work that investigates proteomes and/ or applies/ refines/optimises/introduces new proteomics technologies.

Scope

- Whole proteome analysis of samples from any organism
- Proteoform analysis utilising a variety of methods
- Proteomes of diseases and pharmaceutical effects on proteoforms and the proteome
- Comparative proteomics
- Proteoform-proteoform and proteoformtarget interactions
- Structural and functional proteomics
- Integration of proteomic and other 'omics' approaches/data (i.e., 'multiomics' and systems biology)
- Methodology and technology developments
- Developments in bioinformatics, data processing/integration, and statistical analysis
- Applications of proteomics
- Translational proteomics for precision medicine including clinical validation
- Proteome dynamics

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2023 Impact Factor: 4.0

(Journal Citation Reports - Clarivate, 2024)

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Journal Rank

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q2 (Clinical Biochemistry)

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and many other databases

Rapid Publication

A first decision is provided to authors approximately 34.2 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024) MDPI is a member of
