## Safe Digging Is as Easy as 8-1-1

You bought the tree, you got your shovel . . . time to start planting, right? Not so fast! First, you have to contact 811.

You should contact 811 at least 48 hours, excluding the date of notification, weekends and holidays, before the start of a digging project. This alerts owners of registered pipelines, telecommunication cables and power lines to mark their underground facilities.

Be a Dig Hero by creating a ticket at [OKIE811.org](http://OKIE811.org) or contacting 811 before you dig! It's easy and free.

Learn more about safe digging practices at [beadigherooklahoma.com](http://beadigherooklahoma.com).

## Take the Stress Out of Unexpected Home Repairs with American Home Solutions

American Home Solutions offers optional protection plans to our customers to help with the costs of unexpected repairs. Home warranty plans help take some of the worry and stress out of owning a home by offering protection plans that cover many types of repairs that property owners could face, including repairs to customer-owned natural gas lines.

**Enroll today!** American Home Solutions answers claim calls 24 hours a day, 7 days a week, and has a dedicated customer service team.
