WHAT ATTRACTED YOU TO UNF?

“I was excited at the opportunity to return to UNF’s School of Nursing, not only to join the faculty but also to lead this amazing team. It is truly a dream come true! I love the fact I get to work at the University and the School of Nursing that prepared me to one day return to this role. I am a product of this program, and it is so rewarding to be part of educating the next generation of nurses and advanced practice nurses.”

WHAT DO YOU CONSIDER TO BE THE GREATEST VALUE OF UNF’S ONLINE NURSING PROGRAMS?

“UNF’s online nursing programs are vitally important to practicing professionals who are often unable to attend on-campus courses due to their busy professional lives. The RN-BSN, MSN, and post-masters DNP programs provide the greatest flexibility in completing courses asynchronously while maintaining the academic rigor and quality needed to advance their careers. I’ve long held the belief that education is a tremendous gift and one of the best ways to reward yourself personally and professionally.”

WHAT UNIQUE ATTRIBUTES DOES A UNF GRADUATE CONTRIBUTE TO THE WORKFORCE?

“UNF graduates are uniquely prepared as critical thinkers, problem solvers and leaders. We strive to prepare our nursing graduates to apply these attributes not only in healthcare settings but also throughout their engagement with the community. The investment you make in one of UNF’s online nursing programs is well worth the time, energy and financial commitments. It will pay off significantly by opening doors, instilling self-confidence, and preparing you for future professional opportunities and challenges.”
