CERN/TCC 69-24

21.5.1969

M E M O R A N D U M

To : Members of the CERN Track Chamber Committee

From : Chairman of TCC

- 1) As announced at the last meeting of the TCC, a seminar talk will be given by K. Gottstein of the Max-Planck-Institute at Munich with the title

Proposal to measure the Magnetic Moment of the Sigma
using a High Field Hydrogen Bubble Chamber

Time: Tuesday, June 3 at 4.30 p.m. in the CERN Auditorium.

All members of the TCC are invited to this talk.

- 2) After the next meeting of the TCC on June 4, it will probably not be necessary to hold another meeting before September.

- 3) New proposals and renewals of proposals for 1970

At the series of meetings beginning in September, we shall need to discuss the programme of experiments to be performed in the first half of 1970. Therefore, I would like to ask all groups to send in new proposals and to renew all existing ones; this should be done by September 15, 1969.

J. Mulvey
