Acknowledgements	11
Preface	13
Executive Summary	15
Chapter 1 Socio-economic Structure and Performance up to 1982/83: The Initial Conditions	
by Roger Downey and Erik Thorbecke	23
1.1 Introduction	23
1.2 Macroeconomic and Sectoral Performance to 1982/83	24
1.3 Interrelationship between Poverty, Employment and Endowment; and Trends to 1982/83	25
1.4 Factorial and Socio-economic Income Distribution in 1980	30
1.4.1 Factor Income Generation and Distribution	31
1.4.2 Income and Expenditures Distribution by Socio-economic Household Groups	32
Notes and references	35
Chapter 2 Macroeconomic Disequilibrium and the Structural Adjustment Program	
by Erik Thorbecke	39
2.1 Macroeconomic Dependence and Vulnerability before the Crisis	39
2.2 The Origin and Sources of the Macroeconomic Disequilibrium	40
2.3 The Adjustment Program and Its Chronology	41
2.3.1 Brief Overview and Chronology of Macroeconomic Developments and Structural Adjustment Policy Response, 1982/83-1988/89	41
2.3.2 The Structural Adjustment Program — 1982/83-1988/89	43
2.3.2.1 Foreign Exchange Management	43
2.3.2.2 Fiscal Policy	43
2.3.2.3 Monetary and Financial Policies	45
2.3.2.4 Trade and Other Regulatory Reforms	46
2.4 Structural Adjustment and Macroeconomic Performance	47
2.4.1 Economic Growth, the Structure of Production and Efficiency	47
2.4.2 External Equilibrium	48
2.4.3 Fiscal and Monetary Equilibrium	50
2.5 Impact of Adjustment on Socio-economic Performance: Income Distribution, Poverty, and Nutrition	50
Notes and references	56

Chapter 3	The Social Accounting Matrix and Adjustment Policies: The Impact of Budget Retrenchment on Income Distribution by <i>Steven Keuning and Erik Thorbecke</i>	63
3.1	Impact of Stabilization and Structural Adjustment on Socio-economic Objectives: A SAM-Based Approach	63
3.2	The Impact of Budget Retrenchment on Income Distribution in Indonesia: A Social Accounting Matrix Application	67
3.2.1	The Changing Public Finance Setting in Indonesia in the 1980s	67
3.2.2	The Social Accounting Matrix as a Framework to Estimate the Impact of Budget Retrenchment on Income Distribution	68
3.2.3	Impact of Budget Retrenchment Simulation Exercises on Income Distribution	72
3.3	Main Results and Conclusions	77
	Notes and references	79
Chapter 4	A Computable General Equilibrium Model Integrating Real and Financial Transactions by <i>Erik Thorbecke</i> in collaboration with <i>Byung Kim, David Roland-Holst and David Berrian</i>	85
4.1	Real and Financial SAMs for the Base Year and Classification of Variables	86
4.2	Description of the CGE Model	87
4.2.1	The Real Sector	87
4.2.2	The Financial Sector	90
4.2.2.1	Specification of Assets and Interest Rates	91
4.2.2.2	Portfolio-balance Equations	92
4.3	Policy Simulation	95
	Notes and references	101
Chapter 5	The SOW Applied General Equilibrium Model by <i>Michiel Keyzer, Wim van Veen and Wouter Tims</i>	103
5.1	Introduction	103
5.2	The Need for Monitoring and Analysis	104
5.3	The Tool of Analysis: An Applied General Equilibrium Model	105
5.3.1	General Characteristics	105
5.3.2	Main Features of the Model	106
5.4	Historical Replication of Actual Adjustment Policies: The Base Run	107
5.5	Alternative Adjustment Policies	109
5.5.1	Overview of Counterfactual Scenarios	109
5.5.2	Limited Policy Response	110
5.5.3	Curtailing All Public Investment	111
5.5.4	Curtailing All Budgetary Expenditures	112
5.5.5	Selective Expenditure Curtailments	113
5.5.6	Gradual Devaluation	114
5.5.7	How Resilient is the Economy?	115
5.5.8	Impact of Alternative Adjustment Scenarios on Income Distribution and Nutrition	115
5.6	Summary and Conclusions	116
	Notes and references	119

Annex 1 **Characteristics of the Model** 121

Annex 2 **Commodity and Sector Classification** 127

Annex 3 **Empirical Approach and Limitations** 131

Chapter 6 **Conclusions: Comparative Evaluation of Policy Outcomes**
 by *Erik Thorbecke* 135

Bibliography 139

List of Tables

Table 1.1	Growth Rates of GDP and Sectoral Value Added during the Pre- and Post-1982-83 Periods	143
Table 1.2	Shares of Sectoral Value Added in GDP 1971-83 at Constant 1973 Market Prices (series A) and 1978-86 at Constant 1983 Market Prices (series B)	144
Table 1.3	Indonesia: Employment by Main Industry, 1971-85	145
Table 1.4	Poverty Magnitudes by Major Regions, February 1980	146
Table 1.5	Household Income by Economic Class, West Java Villages (1976 and 1983)	147
Table 1.6	Number of Farm Households and Average Size Holding on Java and Outer Islands (1963, 1973 and 1983)	148
Table 1.7	Total Employment by Sector, Java and the Outer Islands, 1976 and 1982	149
Table 1.8	Sectoral Employment and Productivity, 1971 and 1980	150
Table 1.9	Java and the Outer Islands: Patterns of Employment and Productivity, 1971-80	151
Table 1.10	Average Returns to Household Labor in Alternative Activities, West Java Villages, 1976 and 1983	152
Table 1.11	Distribution of Value Added by Sector of Production and Factor Type (1980)	153
Table 1.12	Percentage of Factor Income by Sector of Production (1980)	154
Table 1.13	Distribution of Worker Equivalents by Sector of Production and Occupation	155
Table 1.14	Annual Average Labor Income per Worker Equivalent by Sector of Production, Occupation and Location	156
Table 1.15	Distribution of Labor Income by Household Type, Occupation	157
Table 1.16	Agricultural and Non-Agricultural Incomes of Agricultural Households (1980)	158
Table 1.17	Outlays by Socio-economic Group (1980)	159
Table 1.18	Per Capita Incomes and Annual Outlays by Socio-economic Group (1980)	160
Table 1.19	Income Distribution by Socio-economic Group, 1980	161
Table 2.1	Growth Rates of Macroeconomic Variables 1970-83 and Shares of GDP (expressed at <i>current</i> market prices)	162
Table 2.2	Exports of Non-Renewable Resources (Oil, LNG, Timber and Metals + Minerals) and Share of Total Exports 1974-89	163
Table 2.3	Impact of External Shocks, 1983/84-1988/89	164
Table 2.4	Adjustment Policy Response, 1983/84-1988/89	165
Table 2.5	Realized Central Government Expenditures and Ratio of Realized to Planned Expenditures, 1979/80 to 1988/89 at Constant 1980 Prices	167
Table 2.6	Balance of Payments, 1981/82-1988/89	168
Table 2.7	Central Government Budget, 1982/83-1988/89	169
Table 2.8	Indonesia: Real Wage Rates by Sector, 1976-87 (Index numbers, 1976=100)	170

Table 2.9	Indonesia: Real Wages in Agriculture (Nominal Wage Rates Deflated by National CPI Index), 1980-87	171
Table 2.10	Summary Data on Sectors of Employment	172
Table 2.11	Changes in Poverty by Sector of Employment	173
Table 2.12	Government Current and Capital Expenditures on Education and Health, 1980-89	174
Table 3.1	A Basic Social Accounting Matrix (SAM)	175
Table 3.2	Classification of CBS Social Accounting Matrix (SAM) Indonesia, 1980	176
Table 3.3	Indonesia Government Budget at Constant 1980 Prices Selected Years and Annual Average REPELITA III (1979/80 to 1983/84) and REPELITA IV (1984/85 to 1988/89)	179
Table 3.4	Social Accounting Matrix of Indonesia, 1980	180
Table 3.5	Indonesia: Matrix of Marginal Expenditure Propensities: C Matrix for 1980	188
Table 3.6	Fixed Price Multiplier Matrix for 1980 (inverse (I-C))	194
Table 3.7	Experiment 0: Base-Year Experiment. Actual Exogenous Demand in 1980 – X ₀ matrix	199
Table 3.8A	Experiment 0: Base Year (1980) - Y ₀ matrix	200
Table 3.8B	Experiment 0: Per cent Distribution, Base Year (1980) - Y ₀ matrix	201
Table 3.9	Income Distribution in OECD SAM, 1980	202
Table 3.10	Comparison of Experiments: Total Endogenous Incomes	203
Table 3.11	Comparison of Experiments: Total Endogenous Incomes	204
Table 3.12	Impact of Different Government Programs on Income of Socio-economic Groups	205
Table 3.13a	Incomes of Socio-economic Household Groups under Alternative Budget Retrenchment Scenarios after Imputing Educational and Health Benefits	206
Table 3.13b	Percentage Contribution of Imputed Educational and Health Benefits to Total Incomes of Socio-economic Groups under Alternative Budget Retrenchment Scenarios	206
Table 4.1	Transaction Matrix of SAM in 1980 – 51 sectors	207
Table 4.2	1980 Indonesian Financial SAM	212
Table 4.3	Monetary Balance Sheets	221
Table 4.4	1980 Indonesian Flow of Funds	222
Table 4.5	Equations in the Indonesian CGE Model	226
Table 4.6	Short-Run Simulation Results	250
Table 4.7	Long-Run Simulation Results	251
Table 4.8	Short-Run Simulation Results with Mixed Policies	252
Table 4.9	Long-Run Simulation Results with Mixed Policies	253
Table A.1	1979 Indonesian Financial SAM	254
Table 5.1	Annual Comparison of Gross Domestic Product, Base Run versus Observation	258
Table 5.2	Average Annual Growth Rates of GDP, 1980-88	259
Table 5.3	Annual Comparison of Base Run and Observed External Indicators	260
Table 5.4	Annual Comparison of Base Run and Observed Harvested Acreages of Paddy	261
Table 5.5	Main Outcomes of Counterfactual Scenarios Compared to the Base Run	262
Table 5.6	Index Number of Real Income Per Capita, 1988/1980	263
Table 5.7	Index Number of Calorie Intake Per Capita, 1988/1980	264

List of Figures

Figure 1.1	Per Capita Income Distribution by Household Group & Source — 1980	36
Figure 1.2	Per Capita Outlay Distribution by Household Group & Expenditure Type — 1980	37
Figure 2.1	Oil Price Trend	58
Figure 2.2	Consumption per Person 1984 and 1987	59
Figure 2.3	Income per Person 1984 and 1987	60
Figure 2.4	Daily Caloric Intake	61
Figure 3.1	Flow Diagram of SAM Transactions	81
Figure 3.2	Simplified Interrelationship among Principal SAM Accounts (Production Activities, Factors and Institutions)	82
Figure 3.3	Impact of Different Government Current Expenditures Programs on Income and Food Consumption of Socio-economic Groups	83
Figure 3.4	Impact of Different Government Investment Programs on Income and Food Consumption of Selected Socio-economic Household Groups	84
