MARMARA UNIVERSITY FACULTY OF PHARMACY

*In the light of science,
In the service of health and pharmacy,
Past to future ...*

E-mail : pharmacy@marmara.edu.tr
URL : <http://pharmacy.marmara.edu.tr>
Language of education : Turkish

1. ... Want to Help People Get Well

- Pharmacists play a major role in improving the health of patients by dispensing the best medicines and helping to avoid side effects.

2. ... Like to Work Directly with Patients

- Pharmacists are generally considered the most accessible member of the healthcare team. Patients can often visit their local pharmacist to seek advice about the medications they are taking without making an appointment.

3. ... Enjoy a Wide Variety of Career Opportunities

- Pharmacists can work in a myriad a professional settings.
- The majority of pharmacists works in their individual community pharmacies and provides counseling to patients on the use of prescription and over-the-counter (OTC) medications.
- Pharmacists can work in numerous other healthcare environments such as the hospitals.
- Pharmacists can work at various fields of the pharmaceutical industry including quality control, quality assurance, research and development, patent, manufacturing, regulatory affairs, marketing and product management.
- Pharmacists can work at the universities and the government.

Haydarpasa Campus has a central location in the downtown.

By the year 2010 according to the OSYM rankings, our faculty came the second among all pharmacy faculties in Turkey.

Keep professionally updated at the computer laboratory and the active learning center.

Have the opportunity of having a modern education from our young, dynamic and highly motivated academic staff that both produce and teach science.

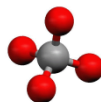

Have the opportunity of making research during the undergraduate and graduate studies at our central research laboratory equipped with high technology devices.

Keep in contact with your faculty and professional bodies through your connection with the Alumni.

Spend your free time at science, culture and arts student clubs and add to your personal development.

Have the opportunity to choose among a variety of graduate programs and have a masters or doctorate degree for a better professional career.

Attend to the "career days" and meet the professionals from drug industry and professional organizations and learn about various aspects of the profession

LEADERSHIP

... is the first faculty of pharmacy that completed and started to practice the 5-year education syllabus.

... together with its Alumni has been organizing the "white coat ceremony" since 2003.

... is the only faculty governing a Clinical Pharmacy Department that has been teaching clinical pharmacy as theoretical and practical courses for many years.

... has got a Cosmetology Department and courses.

... teaches elective culture courses.

... teaches Drug Metabolism courses in graduate studies and has got a Drug Metabolism Postgraduate Program.

... has got Pharmaceutical Chemistry, Pharmacology and Clinical Pharmacy Masters Programs for working professionals.
