

29 May – 1 June 2014, Vienna

Buddhism - Science and Medicine Interpretations, Applications and Misuse

Buddhism offers a very rich theory of knowledge and important advices for health care and influenced different medical systems. But only a small part of Buddhist thinking is well known in the western world and many Buddhist ideas are polluted by misunderstanding and misuse in western thinking.

The conference will offer a discussion with important Buddhist scholars and a lot of information about the right use of Buddhist thoughts in science, medicine and health care.

Hosted by: World Buddhist University (Bangkok) and Sigmund Freud Private University Vienna

Venue: Sigmund Freud Privat Universität (SFU), Schnirchgasse 9a, A - 1030 Wien

Organised at: Vienna University and Sigmund Freud Privat Universität (SFU)

Scientific Directory: Prof. Fengli Lan, Prof. Pataraporn Sirikanchana, Prof. Friedrich Wallner

Organisation: Mag. Andreas Schulz

For **registration** please write to Mag. Andreas Schulz: akj.schulz@yahoo.de

The **conference fee** is 100 €(for students: 20 €).
