

# CONTENTS

|   |     |
|---|-----|
| Preface . . . . .   | v   |
| <b>Part I. A survey on differentiability of six operators in relation to probability and statistics</b>                 |     |
| Contents of Part I . . . . .  | 1   |
| 1. Introduction; kinds of differentiability . . . . .   | 2   |
| 2. The two-function composition operator $(F, G) \mapsto F \circ G$ . . . . .   | 12  |
| 3. The quantile (inverse) operator . . . . .  | 17  |
| 4. The integration operator and Young integrals . . . . .   | 20  |
| 5. The product integral . . . . .   | 27  |
| 6. Probability and $p$ -variation . . . . .   | 30  |
| 7. General and $\mathcal{C}$ -differentiability . . . . .   | 35  |
| 8. The chain rule and concluding remarks . . . . .  | 37  |
| Appendices . . . . .  | 43  |
| References . . . . .  | 67  |
| <b>Part II. Product integrals, Young integrals and <math>p</math>-variation</b>   |     |
| Abstract . . . . .  | 73  |
| Contents of Part II . . . . .   | 73  |
| 1. Introduction . . . . .   | 75  |
| 2. $p$ -variation . . . . .   | 81  |
| 3. Stieltjes and Young integrals . . . . .  | 98  |
| 4. Product integrals . . . . .  | 139 |
| 5. Indefinite product integrals . . . . .   | 170 |
| 6. The logarithm operator . . . . .   | 198 |
| 7. References . . . . .   | 205 |
| <b>Part III. Differentiability of the composition and inverse operators for regulated and a.e. continuous functions</b> |     |
| Abstract . . . . .  | 209 |
| Contents of Part III . . . . .  | 209 |
| 1. Introduction . . . . .   | 210 |
| 2. Regulated functions . . . . .  | 213 |
| 3. Almost everywhere continuous functions . . . . .   | 220 |
| 4. The quantile operator . . . . .  | 222 |
| 5. The composition operator for real-valued functions . . . . .   | 228 |
| 6. The composition operator for Banach-valued functions . . . . .   | 234 |
| Appendix . . . . .  | 236 |
| References . . . . .  | 237 |

**Part IV. Bibliographies on  $p$ -variation and  $\phi$ -variation**

by R. M. Dudley, R. Norvaiša and Jinghua Qian

|   |            |
|---|------------|
| Abstract . . . . .                          | 241        |
| Contents of Part IV . . . . .               | 241        |
| Introduction . . . . .                      | 242        |
| Bibliography on $p$ -variation . . . . .    | 243        |
| Bibliography on $\phi$ -variation . . . . . | 262        |
| <b>Subject Index</b> . . . . .              | <b>273</b> |
| <b>Author Index</b> . . . . .               | <b>275</b> |
