Introduction.....	vii
Bernard G. Dennis	

Dedication: Neal FitzSimons (1928-2000), A Memorial.....	ix
Steven M. Pennington	

Birth of American Civil Engineering

A Man for All Reasons: John Smeaton, FRS, The First Civil Engineer.....	1
M.D. Morris	

Benjamin Wright (1770-1842): The Father of American Civil Engineering.....	25
Steven M. Pennington	

The Origins, Founding, and Early Years of American Society of Civil Engineers: A Case Study in Successful Failure Analysis.....	57
Henry Petroski	

Early Development of American Civil Engineering

Civil Engineering Education History (1741 to 1893): An Expanded Civil Engineering History Module.....	69
Jerry R. Rogers	

Analytical Modeling: Its Beginning to 1850.....	75
Francis E. Griggs, Jr.	

Historic Development and Use of Testing/Monitoring Tools.....	109
K. Nam Shiu and Gajanan M. Sabnis	

Historic Development of U.S. Transportation Systems

George Washington, the Potomac Canal, and the Beginning of American Civil Engineering: Engineering Problems and Solutions.....	129
Robert J. Kapsch	

"To Make the Crooked Ways Straight and the Rough Ways Smooth": Surveying and Building America's First Interstate Highway.....	195
Billy Joe Payton	

The History of Building Materials and Methods: Cement and Steel

Hydraulic Cement: The Magic Powder.....273
Emory L. Kemp

Development of Reinforced Concrete Arch Bridges in the U.S.: 1894-1904.....321
Dario A. Gasparini

The Role of John Fritz in the Development of the Three-High Rail Mill, 1855-1863 ...335
Lance E. Metz and Donald Sayenga

Historic Water Supply Systems

The Philadelphia Water Department: 203 Years of Serving a Community's Needs with Engineering Solutions and Environmental Protection.....361
Ed Grusheski

John B. Jervis and the Development of New York City's Water Supply System.....371
Robert A. OJmsted

Worthy of the Nation: The Washington Aqueduct and its Chief Engineer, Montgomery C. Meigs.....379
Thomas P. Jacobus and Patricia A. Gamby

Preservation Case Studies

Lost Inca Trail: Prehistoric Civil Engineering.....397
Kenneth R. Wright, Ruth M. Wright, and Alfredo Valencia Zegarra

Benjamin Wright, Bad Stone, Poor Cement, and One Hundred Miles to Go: Building the Monocacy Aqueduct of the Chesapeake and Ohio Canal.....439
Robert J. Kapsch

U.S. Capitol: Recent Renovations.....465
Newell Anderson

The Geology, History, and Foundations of the Monumental Core.....481
Douglas W. Christie

A British Perspective on American Civil Engineering Achievement Before 1840.....	503
Roland Paxton	
Forts to Freeways, Portages to Project Management: Canadian Civil Engineering and International Technology Transfer.....	515
Alistair MacKenzie	
Alaska: Building "The Great Land".....	529
Howard P. Thomas and Kelly S. Merrill	
Subject Index.....	549
Author Index.....	551
