
Contents

1	Background on GMOs	1
1.1	Basic Facts About GM Crops <i>Paul Pechan</i>	1
1.2	History and Uses of Plant Biotechnology <i>Andrzej Czaplicki, Jaroslava Ovesna, Gert E. de Vries</i>	10
2	The Science of GMOs	19
2.1	Herbicide Tolerance <i>Janusz Zimny, Gert E. de Vries</i>	19
2.2	Insect Resistance in Crop Plants <i>Gert E. de Vries</i>	26
2.3	Virus Resistance <i>Ervin Balazs, Paul Pechan</i>	34
2.4	GM Crops in the USA and Europe: What Farm Level Benefits Might be Expected? <i>Anne-Katrin Bock</i>	42
2.5	Environmental Issues and Problems Associated with Genetically Modified Plants <i>Gert E. de Vries, Jaroslava Ovesna</i>	61
3	Regulation, Assessment and Monitoring of GMOs	73
3.1	From a Research Proposal to a Product <i>Paul Pechan</i>	73
3.2	Genetically Modified Products: Intellectual Property Issues <i>Gert E. de Vries</i>	75
3.3	GMO Traceability and Labelling Regulations <i>Paul Pechan</i>	82

3.4	Plant Biotechnology and its Regulation in Central and Eastern Europe <i>Paul Pechan, Ervin Balazs</i>	86
3.5	Genetically Modified Plants and Risk Analysis <i>Anne-Katrin Bock</i>	92
3.6	Monitoring of GMOs <i>Paul Pechan, Ervin Balazs</i>	101
4	Socio-Economic Considerations	109
4.1	Implications of the GMO Labelling and Traceability Legislations <i>Paul Pechan</i>	109
4.2	Precautionary Principle <i>Paul Pechan</i>	116
4.3	Public Perception of GM Crops <i>Paul Pechan, Giorgos Sakellaris, Anne-Katrin Bock</i>	135
4.4	Communication Strategies in Biotechnology <i>Paul Pechan, Giorgos Sakellaris</i>	142
4.5	Communicating Risk <i>Paul Pechan, Giorgos Sakellaris</i>	152
4.6	The Morality and Ethics of GMOs <i>Paul Pechan</i>	156
5	Future Applications of GMOs	165
5.1	Second Generation GM Plant Products <i>Gert E. de Vries</i>	165
5.2	Third Generation of GM Plants: Biofactories <i>Anne-Katrin Bock, Janusz Zimny</i>	174
5.3	Biotechnology for Food and Agriculture: Global Issues <i>Gert E. de Vries</i>	182
6	Guide to Terms	207
	Subject Index	211
