Contents

1 Introduction and History 1
1.1 Prologue 1
1.2 Organization of the Book 2
1.3 The Ancient Authors 4
1.3.1 Classical Authors 6
1.3.2 Medieval Authors 10
1.3.3 Arab Authors 14
1.3.4 Chinese and Indian Authors 15

2 Properties of Minerals 17
2.1 Mineral Chemistry 17
2.2 Mineral Structure 17
2.3 Mineral Identification Methods 21
2.3.1 Element Analyses 21
2.3.2 Petrographic Analyses 23
2.3.3 Physical Methods of Identification 25
2.4 Color of Minerals 27

3 Exploitation of Mineral and Rock Raw Materials 45
3.1 Introduction 45
3.2 Rock Classification and Properties 46
3.3 Igneous Rocks 46
3.3.1 Extrusive Igneous Rocks 48
3.3.2 Intrusive Igneous Rocks 51
3.4 Sedimentary Rocks 53
3.4.1 Carbonate Sedimentary Rocks 55
3.4.2 Terrigenous Sedimentary Rocks 56
3.4.3 Pyroclastic Sedimentary Rocks 58
3.5 Metamorphic Rocks 58
3.6 Unconsolidated Deposits 62
3.6.1 Surface Deposits 62

3.6.2 Placer Deposits 63
3.6.3 Residual Deposits 64
3.7 Outcrops, Mining, and Quarrying 65

4 Lithic Materials 69
4.1 Introduction 69
4.2 Microcrystalline Quartz 76
4.3 Other Siliceous Rocks 82
4.3.1 Quartzite 82
4.3.2 Opal 83
4.3.3 Felsite 84
4.3.4 Rhyolite/Andesite 84
4.3.5 Siliceous Shale/Slate/Schist 84
4.4 Obsidian 85
4.5 Other Minerals and Rocks 88

5 Gemstones, Seal Stones, and Ceremonial Stones 91
5.1 Introduction 91
5.2 Quartz Minerals (SiO_2) 94
5.2.1 Crystalline Varieties 94
5.2.2 Cryptocrystalline Varieties 96
5.3 Non-Quartz Silicates and Minerals 100
5.3.1 Coarse-Grained 100
5.3.2 Fine-Grained 106
5.3.3 Glassy 111
5.4 Carbonate and Sulfate Minerals 111
5.4.1 Coarse-Grained 111
5.4.2 Fine-Grained 112
5.5 Oxide Minerals 113
5.6 Organic Gems 116
5.7 Other Gem Minerals 119
5.7.1 Sulfide Minerals 120

6 Soft Stones and Other Carvable Materials 121
6.1 Introduction 121
6.2 Serpentinite 122
6.3 Steatite and Soapstone 125
6.3.1 Asbestos 128
6.4 Alabaster and Gypsum 128
6.5 Limestone and Marble 132
6.6 Catlinite 135
6.7 Other Carved Stone 136
6.8 Sedimentary Rocks 137
6.9 Volcanic Rocks 140
6.10 Miscellaneous Rocks 141

7 Metals and Related Minerals and Ores 143
7.1 Introduction 143
7.2 Gold (Au) 146
7.3 Silver (Ag) 152
7.4 Native Copper (Cu) 154
7.5 Other Copper Minerals 158
7.5.1 The Copper Ore Minerals 164
7.6 Iron (Fe) 166
7.7 Iron Minerals 169
7.8 Tin (Sn) Minerals 171
7.9 Lead (Pb) Minerals 176
7.10 Zinc (Zn) Minerals 178
7.11 Other Ore Minerals and Metals 180
7.12 Oxidation of Metallic Ores 181

8 Ceramic Raw Materials 183
8.1 Introduction 183
8.2 Clays 184
8.3 Pottery 188
8.4 Tempers 189
8.5 Glazes 191
8.6 Porcelain 193
8.7 Glass 194
8.8 Faience 197
8.9 Fired-Brick, Tile, and Terracotta 198
8.10 Refractory Ceramics 200

9 Pigments and Colorants 201
9.1 The Nature of Pigments and Colorants 201
9.2 Historical Background 203
9.3 Iron Oxide Compounds 207
9.4 Manganese Compounds 212
9.5 Copper Compounds 212
9.6 Lead Compounds 213
9.7 Carbon Compounds 215
9.8 Sulfide Compounds 215
9.9 Carbonates 216
9.10 Silicates 217
9.11 Gold and Silver 220
9.12 Tin Compounds 220
9.13 Cobalt 221

10 Abrasives, Salt, Shells, and Miscellaneous Geologic Raw Materials 223
10.1 Introduction 223
10.2 Abrasives 223
10.3 Salt (Halite) 224

10.4 Natron 228
10.5 Alum 230
10.6 Shells, Coral, Fossils, and Fossil Bone 232
10.7 Other Geologic Raw Materials 238
10.7.1 Mica 238
10.7.2 Petroleum Products – Asphalt, Bitumen, and Pitch 239
10.7.3 Sulfur (S) 241
10.7.4 Mercury (Hg) 242
10.7.5 Saltpeter, Niter 243
10.7.6 Epsomite ($MgSO_4 \cdot 7H_2O$, Epsom Salt) 244
10.7.7 Nitric Acid 245
10.7.8 Tutty/Cadmea 245
10.7.9 Fuller's Earth 245
10.7.10 Stone Money 246

11 Building, Monumental, and Statuary Materials 247
11.1 Introduction 247
11.2 Building Stone 247
11.2.1 Granite/Diorite 251
11.2.2 Porphyry 253
11.2.3 Basalt/Andesite/Dolerite 253
11.2.4 Limestone/Sandstone 255
11.2.5 Marble 257
11.2.6 Slate/Schist/Quartzite 259
11.2.7 Gypsum 260
11.3 Cements and Mortars 261
11.3.1 Lime 261
11.3.2 Gypsum 263
11.3.3 Aggregates 264
11.3.4 Hydraulic Reactions 265
11.3.5 Natural Pozzolana 266
11.3.6 Artificial "Pozzolana" 267
11.3.7 Modern Portland Cement 268
11.4 Masonry 268
11.5 Mud Brick, Terracotta, and Other Earthen Architectural Materials 269
11.6 Weathering and Decomposition 273
