

Contents

Miodrag Zlatić

Foreword

CHAPTER I

LANDCON KEYNOTE

Martin Haigh

Headwater Control: An Agenda for the Future 1

CHAPTER II

GLOBAL CHANGE AND SOIL DEGRADATION

*Gustavo Henrique Merten, Jean Paolo Gomes Minella,
Michele Moro and Clamarion Maier*

**Expansion of Brazilian Agricultural Territory:
Changes in Land Use** 13

CHAPTER III

WATER MANAGEMENT

Ildefonso Pla Sentis

Sustainable Water Management under Climate Change 22

Slobodan Petković

Water Management for Sustainable Development 37

Ludmila Frolova and Svetlana Firsova

**Phytoplankton Genetics: A Potential Tool for Screening
Water Quality** 56

*Jesús Fernández-Gálvez, Robson Clayton Jacques Arthur,
Aránzazu Peña and M^a Dolores Mingorance*

**Soil Quality as Affected by Wastewater Irrigation in a Semi-arid
Agricultural Land** 63

Stevan Prohaska, Aleksandra Ilić, Branka Miloradović and Tioslav Petković

Identification and Classification of Serbia's Historic Floods 71

Codruta Badaluta Minda and Gheorghe Cretu

The Problems Regarding Rehabilitation of the Bega Canal 80

CHAPTER IV

SOIL EROSION, SEDIMENT TRANSPORT AND SEDIMENTATION PROCESSES

Desmond E. Walling and Yusheng Zhang

**A National Assessment of Soil Erosion Based on Caesium-
Caesium-137 Measurements** 89

<i>Ivan Blinkov and Ivan Mincev</i> Multi-Hazard Mapping as a Tool for Effective Risk Management	98
<i>Emiliya Velizarova, Ivan Ts. Marinov and Todor Lubenov</i> Assessment of Soil Erodibility of Different Land-use Types in a Small Mountain Watershed	108
<i>Hossein Ghadiri, Gholamreza Sanjari, Bofu Yu and Cyril Ciesiolka</i> Sediment and Pollutant Transport from Grazing Lands of Australia	119
<i>Ioannis A. Kalinderis, Marios Spountzis, Dimitrios Stathis, Fani Tziaftani, Peristera Kourakli and Panagiotis Stefanidis</i> The Risk of Sedimentation of Artificial Lakes, Following the Soil Loss and Degradation Process in the Wider Drainage Basin. Artificial Lake of Smokovo Case Study (Central Greece)	129
<i>Ivica Kisic, Ferdo Basic, Othmar Nestroy and Mijo Sabolic</i> Soil Erosion under Different Tillage and Cropping Systems in Central Croatia	141
<i>Paolo Porto, Desmond E. Walling and Giovanni Callegari</i> Using ¹³⁷Cs Measurements to Calibrate and Validate the Sediment Delivery Distributed (SEDD) Model for Two Catchments in Southern Italy	150
<i>Ratko Ristić, Sandra Radivojević, Boris Radić, Nevena Vasiljević and Ivana Bjedov</i> Restoration of Eroded Surfaces in Ski Resorts of Serbia	165
<i>Sevilay Hacıyakupoglu, Ahmet Hizal[†], Ferhat Gökbülak and M. Sahip Kızıltaş</i> A Comparison of Soil Losses Estimated Using Fallout Radionuclides and the USLE for the Omerli Watershed, Turkey	175
<i>Sonja Braunović, Svetlana Bilibajkić and Mihailo Ratknić</i> Calculation of Rainfall Erosivity Factor in the Region of Vranje (South-Eastern Serbia)	184
<i>Michael Chiari, Christian Scheidl and Dieter Rickenmann</i> Assessing Morphologic Changes Caused by Torrential Flood Events with Airborne LiDAR Data	192
<i>Seyed Hamidreza Sadeghi, Pari Saeidi, Hamzeh Noor and Mohammad Bagher Raisi</i> Understanding Sediment Yield Processes in a Hyrcanian Forest Watershed	203
<i>Milutin Stefanović, Zoran Gavrilović and Irina Milovanović</i> Risks of Application of Modified Models for Erosion and Sediment Processes	208

CHAPTER V

EROSION AND TORRENT CONTROL IN ENVIRONMENTAL CHANGE

Stanimir Kostadinov

Traditional Uses of Check Dams along History: From Classical to Functional Check Dams 218

Zoran Miletić, Znežana Stajić and Vlado Čokeša

Effect of Artificially Established Stands of Weymouth Pine, Larch and Douglas-fir on the Site of Hungarian Oak and Turkey Oak with Hornbeam (*Carpino betuli-Quercetum farnetto-cerris* (Rud.1949) Jov.1979) on Soil Erodibility 238

Valentin Golosov and Vladimir Belyaev

Recent Advances in the Assessment of Sediment Redistribution in River Basins 245

Sara Lukić, Milan Knežević and Snežana Belanović

Ameliorative Afforestation in Carbon Accumulation 257

Csilla Hudek

Improving Soil and Water Conservation with *Mahonia aquifolium* Horticulture in the Hills of Hungary 269

Ivica Ristović and Ana Borisavljević

New Technology for Prevention of Eolian Erosion of Ash on the Ash Disposals in Power Plant Nikola Tesla in Serbia 278

CHAPTER VI

SOCIO-ECONOMIC, LEGAL AND INSTITUTIONAL ASPECTS OF SOIL AND WATER

Miodrag Zlatić

Socio-Economic Issues of SLM in Serbia 286

Slavoljub Dragicevic and Ivica Milevski

Human Impact of the Landscape – Examples from Serbia and Macedonia 298

Bernard Vanheusden

Recent Developments in the EU Legal Framework for Soil Protection 310

Liljana Keča and Sanja Pajić

Financial Aspects of Restoration in Poplar Plantations with Technology of Full Ground and Soil Preparation 321

Irene L. Heuser

History and Ethics of European (& International) Soil Protection Law 334

Aoife Shields

Environmental Agreements and the Remediation of Protection Law 354
