## Part I Introduction

|  |    |
|--|----|
| <b>1 Motivation</b> .....                    | 3  |
| <b>2 Goals</b> .....                         | 7  |
| Reference .....                              | 9  |
| <b>3 Setting the Stage and Outline</b> ..... | 11 |

## Part II Cosmic Radiation

|   |    |
|---|----|
| <b>4 Introduction to Cosmic Radiation</b> .....                         | 17 |
| <b>5 The Cosmic Radiation Near Earth</b> .....                          | 19 |
| 5.1 Introduction and History of Cosmic Ray Research .....               | 19 |
| 5.2 The “Rosetta Stone” of Paleocosmic Ray Studies .....                | 21 |
| 5.3 Some Important Definitions .....                                    | 22 |
| 5.4 The Origin and Properties of the Galactic Cosmic Radiation .....    | 27 |
| 5.5 Our Variable Sun .....  | 33 |
| 5.6 The Heliosphere, the Termination Shock, and the Current Sheet ..... | 41 |
| 5.7 Modulation of the Cosmic Radiation in the Heliosphere .....         | 44 |
| 5.7.1 The Cosmic Ray Propagation Equation .....                         | 45 |
| 5.7.2 The Local Interstellar Spectrum .....                             | 48 |
| 5.7.3 The Cosmic Ray Modulation Function and Potential .....            | 51 |
| 5.7.4 Practical Applications of the Modulation Function .....           | 59 |
| 5.7.5 Drift Effects ( $qA$ Positive and $qA$ Negative Effects) .....    | 60 |
| 5.7.6 Shock Wave Effects (The Forbush Decrease and GMIRs) .....         | 62 |

|  |            |
|--|------------|
| <b>5.8 Geomagnetic Field Effects .....</b>   | <b>64</b>  |
| <b>5.8.1 The Properties of the Geomagnetic Field .....</b>                                       | <b>64</b>  |
| <b>5.8.2 The Geomagnetic Cut-off Rigidity .....</b>  | <b>68</b>  |
| <b>5.8.3 The Earth's Magnetosphere and the Polar Aurora .....</b>                                | <b>73</b>  |
| <b>References .....</b>  | <b>77</b>  |
| <b>6 Instrumental Measurements of the Cosmic Radiation .....</b>                                 | <b>79</b>  |
| <b>6.1 Introduction .....</b>  | <b>79</b>  |
| <b>6.2 Ionization Chambers and Muon Telescopes .....</b>   | <b>80</b>  |
| <b>6.3 The IGY and IQSY Neutron Monitors, and Spaceship Earth .....</b>                          | <b>83</b>  |
| <b>6.4 Satellite Borne Detectors .....</b>   | <b>88</b>  |
| <b>6.5 Latitude Effects and the Yield Functions .....</b>  | <b>90</b>  |
| <b>6.6 Inter-calibration of the Different Cosmic Ray Records .....</b>                           | <b>93</b>  |
| <b>6.7 Cosmic Ray Archives .....</b>   | <b>96</b>  |
| <b>References .....</b>  | <b>97</b>  |
| <b>7 Time Variations of the Cosmic Radiation .....</b>   | <b>99</b>  |
| <b>7.1 Introduction and Atmospheric Effects .....</b>  | <b>99</b>  |
| <b>7.2 The Eleven- and Twenty-Two-Year Variations .....</b>                                      | <b>100</b> |
| <b>7.3 The Long-term Variations .....</b>  | <b>103</b> |
| <b>7.4 Forbush Decreases, Globally Merged Interaction Regions and Some Smaller Effects .....</b> | <b>106</b> |
| <b>References .....</b>  | <b>109</b> |
| <b>8 The Solar Cosmic Radiation .....</b>  | <b>111</b> |
| <b>8.1 Historical Overview .....</b>   | <b>111</b> |
| <b>8.2 The Observed Production of Cosmic Rays by the Sun .....</b>                               | <b>112</b> |
| <b>8.2.1 Ground Level Events .....</b>   | <b>112</b> |
| <b>8.2.2 SEP Events Observed by Satellites .....</b>   | <b>115</b> |
| <b>8.2.3 Paleo-Cosmic Ray Measurements of SEP Events .....</b>                                   | <b>119</b> |
| <b>8.3 Overall Characteristics of the Solar Cosmic Radiation .....</b>                           | <b>125</b> |
| <b>8.3.1 The Energy Spectra .....</b>  | <b>125</b> |
| <b>8.3.2 The Effect of Longitude Relative to the Central Solar Meridian .....</b>                | <b>127</b> |
| <b>8.3.3 The Frequency of Occurrence, and the Detection of Historic SEP Events .....</b>         | <b>128</b> |
| <b>References .....</b>  | <b>130</b> |
| <b>Part III Cosmogenic Radionuclides</b>   |            |
| <b>9 Introduction to Cosmogenic Radionuclides .....</b>  | <b>135</b> |
| <b>10 Production of Cosmogenic Radionuclides in the Atmosphere .....</b>                         | <b>139</b> |
| <b>10.1 Introduction .....</b>   | <b>139</b> |

|           |  |            |
|-----------|--|------------|
| 10.2      | Interaction of Primary Cosmic Rays with the Atmosphere .....                       | 142        |
| 10.2.1    | Production of Secondary Particles .....  | 142        |
| 10.2.2    | Ionization and Excitation Processes .....  | 148        |
| 10.2.3    | Simulated Atmospheric Proton and Neutron Fluxes .....                              | 150        |
| 10.3      | Production of Cosmogenic Radionuclides in the Atmosphere ...                       | 157        |
| 10.3.1    | Early Production Models .....  | 159        |
| 10.3.2    | Production Cross-Sections .....  | 161        |
| 10.3.3    | Production Rates and Inventories .....   | 163        |
| 10.4      | Production Results and Analytical Tools .....                                      | 172        |
|           | References .....   | 176        |
| <b>11</b> | <b>Production of Cosmogenic Radionuclides in Other Environmental Systems .....</b> | <b>179</b> |
| 11.1      | Introduction .....   | 179        |
| 11.2      | Terrestrial Solid Matter (Rocks, Ice) .....  | 182        |
| 11.2.1    | $^{36}\text{Cl}$ Production in Limestone and Dolomite .....                        | 183        |
| 11.2.2    | $^{10}\text{Be}$ and $^{14}\text{C}$ Production in Ice .....                       | 185        |
| 11.3      | Extraterrestrial Solid Matter .....  | 186        |
|           | References .....   | 189        |
| <b>12</b> | <b>Alternative Production Mechanisms .....</b>                                     | <b>191</b> |
| 12.1      | Introduction .....   | 191        |
| 12.2      | Natural Production Mechanisms .....  | 191        |
| 12.2.1    | Cosmic Ray Induced Reactions .....   | 191        |
| 12.2.2    | Radioactive Decay-Induced Reactions .....  | 195        |
| 12.3      | Anthropogenic Production Mechanisms .....  | 198        |
| 12.3.1    | Nuclear Power Plant and Nuclear Bomb-Induced Reactions .....                       | 198        |
| 12.3.2    | Research, Industrial, and Medical Induced Reactions .....                          | 200        |
