Introduction	1
1 Toward a scientific-realistic theory on the origin of human behavior	11
Manuel Domínguez-Rodrigo	
PART I. ON THE USE OF ANALOGY I: THE EARLIEST MEAT EATERS	
2 Conceptual premises in experimental design and their bearing on the use of analogy: A critical example from experiments on cut marks	47
Manuel Domínguez-Rodrigo	
3 The use of bone surface modifications to model hominid lifeways during the Oldowan	80
Charles P. Egeland	
4 On early hominin meat eating and carcass acquisition strategies: Still relevant after all these years?	115
Karen D. Lupo	
5 Meat foraging by Pleistocene African hominins: Tracking behavioral evolution beyond baseline inferences of early access to carcasses	152
Travis Rayne Pickering and Henry T. Bunn	

6	Can we use chimpanzee behavior to model early hominin hunting?	174
	<i>Travis Rayne Pickering and Manuel Domínguez-Rodrigo</i>	
PART II. ON THE USE OF ANALOGY II: THE EARLIEST STONE TOOLMAKERS		
7	The origins of the Oldowan: Why chimpanzees (<i>Pan troglodytes</i>) still are good models for technological evolution in Africa.	201
	<i>Susana Carvalho and William McGrew</i>	
8	What does Oldowan technology represent in terms of hominin behavior?	222
	<i>David R. Braun</i>	
9	Testing cognitive skills in Early Pleistocene hominins: An analysis of the concepts of hierarchization and predetermination in the lithic assemblages of Type Section (Peninj, Tanzania).	245
	<i>Fernando Díez-Martín, Felipe Cuartero, Policarpo Sánchez Yustos, Javier Baena, Daniel Rubio, and Manuel Domínguez-Rodrigo</i>	
10	The Early Acheulean in Africa: Past paradigms, current ideas, and future directions	310
	<i>Fernando Díez-Martín and Metin I. Eren</i>	
	<i>Index</i>	359
