Accurate, Up-to-Date Coverage of FCC Rules

If it's your job to keep up on the FCC Rules that affect your broadcast operations, trust Pike & Fischer for the information you need!

Choose the detail and frequency of your coverage:

Broadcast Regulation

Updates every other
month.

Broadcast Regulation on CD-ROM is a regularly updated electronic library of the FCC Rules, proposed rules, federal statutes, and FCC decisions that govern broadcast operations. Broadcast Regulation covers FCC Rule Parts 1, 11, 17, 25, 26, 27, 73, 74, 79, and 101. It also provides active Notices of Proposed Rulemaking, the Telecommunications Act of 1996 and the Communications Act of 1934, and FCC decisions since 1994 affecting broadcasters. Also available in print (print version does not include Part 101 or any FCC decisions).

Broadcast Regulation

Now Available on the
Internet.

Broadcast Regulation Service available on the Internet is the ultimate electronic library of the FCC Rules, proposed rules, federal statutes, and FCC decisions that govern broadcast operations: **Service is updated continuously and is fully searchable!** It will put everything you need to stay up-to-date at your fingertips. Service covers FCC Rule Parts 1, 11, 17, 25, 26, 27, 73, 74, 79, and 101. It also provides active Notices of Proposed Rulemaking, the Telecommunications Act of 1996 and the Communications Act of 1934, and FCC decisions since 1994 affecting broadcasters.

Communications Regulation

Updated every month!

Communications Regulation on CD-ROM is a fully searchable CD that includes all of the FCC Rules, all active FCC Notices of Proposed Rulemaking and Notices of Inquiry, and the full text of a variety of communications related statutes, including the Telecommunications Act of 1996 (with legislative history materials) and the Communications Act of 1934, as amended.

In addition, you can choose to subscribe to the most comprehensive collection of communications law decisions available on CD-ROM, with recent decisions not yet published in the FCC Record, the entire FCC Record (1986 to present), FCC Reports 2d (1965 to 1986), and past FCC and court decisions published exclusively by Pike & Fischer. Also available is Pike & Fischer's exclusive library of more than 60,000 topical digests covering every significant communications law holding since 1965. Also available in print.

Key to Radio Listings

Radio listings include AM (amplitude modulation) and FM (frequency modulation) radio stations in the United States, its territories and Canada. All collected data for these listings include information current to January 2000. The following is a breakdown of a sample radio listing. The sample, WOF, is a co-owned AM/FM station. To use the radio key, see boldface numbers and corresponding explanations.

(1) WOF(AM)—**(2)** Oct 8, 1946: **(3)** 1000 khz; 1 kw-D, 250 w-N, DA-D. (L-KQSL) TL: N35 48 31 W121 43 28 (CP: 5 kw-U). **(3a)** Stereo. **(3b)** Hrs opn: 24. **(4)** Box 1000 (99999). (909) 555-1000. FAX: (909) 999-9999. **(5)** Licensee: General Broadcasting Corp. (group owner; acq 7-20-69; \$255,000 with co-located FM; **(5a)** FTR 2-12-83). **(6)** Net: ABC/E, AP; Mountain State Network. Rep: Jones & Company, Penn State. Format: MOR, C&W. Spec prog: Sp 3 hrs wkly. **(7)** John Jones, gen mgr; David Smith, chief engr. **(8)** Rates: \$14; 13.50; 14; 12.50.

(1a) WOF-FM—**(2)** October 1959: **(9)** 101.1 mhz; 3 kw. Ant 300 ft. **(3a)** Stereo. **(10)** Dups AM 50%. Format: C&W. **(11)** WOF-TV affil. **(8)** Rates: \$8.50; 7; 8.50; na.

(1) Station call letters as assigned by the Federal Communications Commission (FCC) or Canadian Radio-television and Telecommunications Commission (CRTC).

(1a) Station call letters for co-owned FM station. WOF-FM has the same ownership as WOF(AM), and the FM listing contains only information different from the AM. Co-owned AM and FM stations are often listed together, even when they have dissimilar call letters. In some instances FM may be listed first.

(2) Date station first went on air (regardless of subsequent ownership changes).

(3) Frequency in kilohertz; power and hours of operation. WOF operates with one kilowatt in daytime hours, 250 watts at night, and uses a directional antenna in daytime. Nighttime operation is limited to hours when dominant station KQSL is operating in daylight. TL refers to the geographical coordinates (longitude and latitude) of the transmitter. WOF holds a construction permit for five kilowatts power day and night.

(3a) WOF broadcasts in stereo.

(3b) WOF broadcasts 24 hours daily.

(4) Address and zip code, telephone and FAX. Teletype Writer Exchange number may also be included.

(5) Licensee name and date of acquisition (if not original owner). If the licensee is a group owner—a company with several broadcast properties—it is so identified, as a group owner of which the

licensee is a subsidiary. Details on group owners are listed in Section A. If the station has been sold and the sale information is available, it is recorded after the acquisition date, ie. acq. date; purchase price; FTR date.

(5a) FTR date. FTR refers to *Broadcasting & Cable* magazine's weekly "For the Record" column that appeared in the magazine until June 8, 1998, where station sales were recorded as received from the FCC. The column (renamed FCC Actions) has been moved from the magazine to the broadcastingcable.com Web Site.

(6) Network, representative and programming. WOF national affiliates are ABC Entertainment Network and AP Network. The regional affiliate is Mountain State. The WOF national sales representative is Jones & Company and their regional sales representative is Penn State. The WOF program format is part middle-of-the-road, part country and western, with three hours weekly of special programming in Spanish. For radio format definitions, see page D-630.

(7) Key personnel.

(8) Advertising rates. This data indicates the prices the station charges for a one-minute spot, run 12-times-a-week during the following time slots: 6 a.m.-10 a.m.; 10 a.m.-3 p.m.; 3 p.m.-7 p.m.; 7 p.m.-midnight, respectively. If a time slot is not applicable, "na" replaces the rate.

(9) Frequency for WOF-FM is 101.1 megahertz, with 3 kilowatts of effective radiated power and an antenna height of 300 feet above average terrain. WOF-FM broadcasts in stereo (see **(3a)**).

(10) Programming. WOF-FM duplicates WOF(AM) programs 50% of the time and has a country and western format.

(11) Co-owned TV. WOF-TV has the same licensee as WOF-AM-FM.

Note: Listings for independent AM & FM stations follow the sample shown for WOF(AM).

An asterisk (*) preceding station call letters indicates noncommercial stations.
