

Cloudya

The Smart Cloud Communications Platform

**Hello there.
Hello everywhere.**

Simplified voice calling. Easy video conferencing. Seamless integrations for CRM and collaboration tools. It's all yours with Cloudya.

Reliable. Independent. Flexible.

Cloudya is everything your landline isn't. And it's purpose-built for hybrid working (in the office, at home or on the go) so you can get more done at a fraction of the time and cost.

Got internet? You're all set.

It really is that simple.

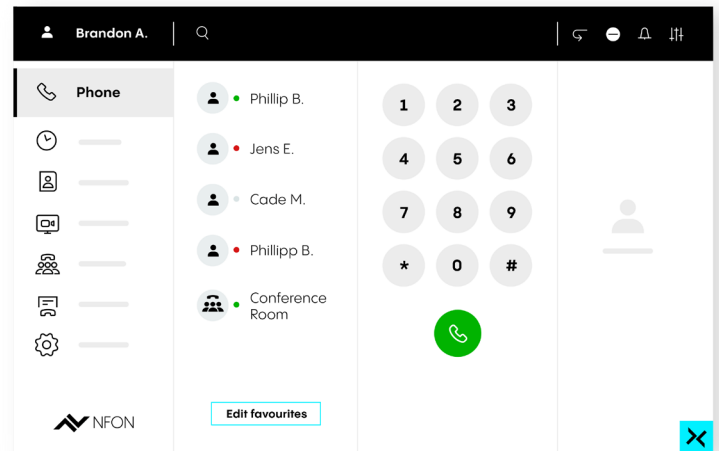

Cloudya is a breeze to set-up and configure. Plus, it plays nicely with your existing communications systems.

Now you can connect colleagues and customers effortlessly from any device – anywhere in the world.

Loaded with features

- Audio and video conferencing
- Screensharing for video conferencing
- Complete app suite for all your needs
- CRM integration with up to 60 platforms
- Single login and phone number
- Freedom to communicate from any device

NFON.COM

Boost your business

- Easy set-up with 2-factor authentication app
- State-of-the-art features that supercharge employee productivity and slash costs
- Central management for multi-site or home offices
- Seamless collaboration through CRM Connect that even technophobic employees will love
- Rock-solid data protection and GDPR compliance
- No fixed contract so you can scale up or down to suit your needs

Treat your teams

- Consistent interfaces for a seamless and satisfying user experience
- Better, closer connections for colleagues, customers and suppliers
- Faster query resolution for less stressful customer interactions
- A full, first-class user experience for employees working remotely
- A sense of belonging for all team members, no matter where they work from

**Freedom calls.
What do you say?**
