¹Ladder Rank faculty are faculty holding tenured titles or non-tenured titles in the Professor series in which tenure may be conferred.

²Senate membership is conferred upon a person holding a Professor, Professor in Residence, Professor of Clinical _____ or 100% appointments in the Professor of Teaching series. If an appointee holds a title eligible for Senate membership and a title eligible for Federation membership, the appointee is a Senate member only.

³Academic Federation membership - an appointee must be salaried and appointed in eligible title for a term of one year or more.

⁴Faculty - an academic appointee in a School, College, Division, Department, or Program of instruction and research who has independent responsibility for conducting approved regular University courses for campus credit. Student academic employees are not considered faculty.

⁵Equivalent Title - In matters of academic personnel policies and procedures, the University traditionally uses this term to designate certain academic title series and certain ranks of these series that are to be treated on the same basis in relation to some specific policy as corresponding ranks in the professor series. The Agronomist series is equivalent to the Professor series for purposes of tenure, leaves of absence and retiring allowances.

⁶Eight year limit only applies to Assistant Adjunct Professor, Assistant Health Sciences Clinical Professor and Assistant Professor of Teaching at more than 50% time. (See APM 133)

⁷Term appointments must have end dates. Please refer to APM 137 and the appropriate APM policies and/or Contract for the terms of service for each title series. All title series, including Academic Senate titles which have an Assistant rank, have term limits at that rank.

⁸Limited to one deferral.

⁹Please refer to APM 620. Faculty on the Health Sciences Compensation Plan are not generally awarded off-scale salaries.

¹⁰Academic Coordinators and Academic Administrators are not eligible for deferral if their position is state funded.
