

How Barracuda Uses Cookies

Your Privacy

Barracuda Sites may request cookies to be set on your device. We use cookies to let us know when you visit our Barracuda Sites, to understand how you interact with us, to enrich and personalize your user experience, to enable social media functionality and to customize your relationship with Barracuda, including providing you with more relevant advertising. Note that blocking some types of cookies may impact your experience on our Barracuda Sites and the services we are able to offer.

Strictly Necessary Cookies

These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the site will not then work.

Performance Cookies

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. If you do not allow these cookies we will not know when you have visited our site, and will not be able to monitor its performance.

Functional Cookies

These cookies enable the website to provide enhanced functionality and personalisation. They may be set by us or by third party providers whose services we have added to our pages. If you do not allow these cookies then some or all of these services may not function properly.

Targeting Cookies

These cookies may be set through our site by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other sites. They do not directly identify you, but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.

Analytics Cookies

These cookies help Barracuda to understand how visitors to our pages engage within their session. Analytics Cookies assist in generating reporting site usage statistics which do not personally identify individual users.
