

Demographics and life-expectancy

Data source: WHO - Global Health Estimates (GHE) (2019), UN Population Division (2024)

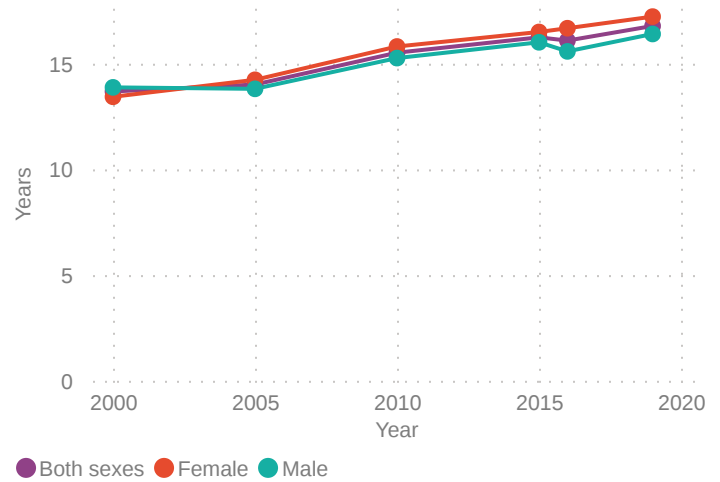

Number of persons aged 60 years or over (thousands)

Data source: UN Population Division

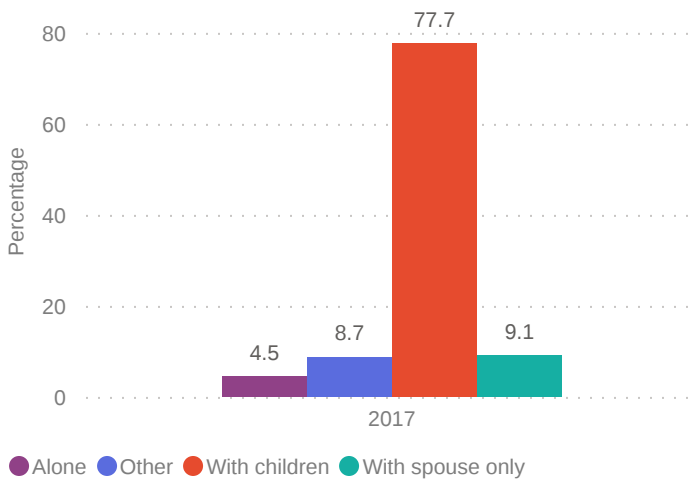

Healthy life-expectancy at age 60

Data source: WHO - Global Health Estimates (GHE)

Living arrangements

Data source: UN Population Division

Ageism

	Year	%
Crude prevalence of high ageist attitudes		no data
Crude prevalence of moderate ageist attitudes		no data
Crude prevalence of low ageist attitudes		no data

Data source: Global Report on Ageism 2020

(<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7246680/>)

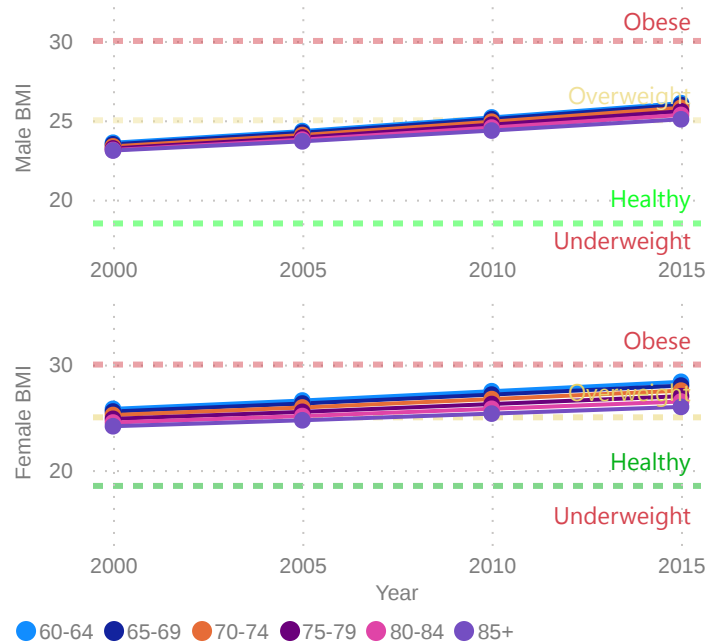

Risk factors

Prevalence of insufficient physical activity in people aged 70 or over (latest data)

Body Mass Index (BMI) by age over time

Data source: NCD-RisC

Top 10 causes of death in older people and years lived with disability

Rank	Causes of death	Causes of years of healthy life lost due to disability
▲		
1	Cardiovascular diseases	Sense organ diseases
2	Ischaemic heart disease	Musculoskeletal diseases
3	Malignant neoplasms	Diabetes mellitus
4	Stroke	Cardiovascular diseases
5	Respiratory diseases	Other hearing loss
6	Chronic obstructive pulmonary disease	Respiratory diseases
7	Genitourinary diseases	Mental and substance use disorders
8	Kidney diseases	Chronic obstructive pulmonary disease
9	Ischaemic stroke	Back and neck pain
10	Haemorrhagic stroke	Neurological conditions

Data source: WHO - Global Health Estimates (GHE) (2019)

Integrated Care for Older People

Prevalence and incidence of common health conditions

Age Groups	Prevalence and incidence of common health conditions			
	Hearing loss*	Blindness and vision impairment*	Low back pain*	Falls**
▲				
60-64	55%	30%	15%	1841
65-69	64%	43%	17%	2127
70-74	71%	56%	18%	2441
75-79	78%	69%	20%	3130
80-84	82%	79%	24%	4169
85-89	81%	86%	25%	5166
90-94	80%	93%	24%	5527
95+	81%	97%	24%	5428

* Prevalence ** Incidence

Data source: IHME (2019)

Age-friendly cities and communities

	Year	%
Percentage of older people living in age-friendly cities and communities		no data
Percentage of older people receiving pension	2020	100.0%
Percentage of older people active in labor market	2019	20.9%
Percentage of older people living in rural areas	2015	70.6%
Percentage of older people living in urban areas	2015	29.4%

National commitments

Focal point on ageing and health in the ministry of health	No
National plans, policies or strategies on ageing and health	Yes
National multi-stakeholder forum or committee on ageing and health	Yes
National legislation and enforcement strategies against age-based discrimination	Yes
National legislation/regulations that provide older adults with access to assistive devices from the WHO Priority Assistive Product List	Yes
National programme to support activities in line with the WHO global Network for Age-friendly Cities and Communities	Yes
National policies in place to support comprehensive assessments of the health and social care needs for older people	Yes
Long-term care policy/plan/strategy/framework (stand-alone or integrated within an ageing and health plan)	Yes
Cross-sectional nationally representative, publicly available and anonymous individual level data on older persons and their health status and needs	No
Longitudinal nationally representative surveys (cohort) on older persons and their status and needs	Yes
Policy, legislation, strategy, or programme to support combating ageism	Yes
Human rights mechanisms dedicated to the promotion and protection of the rights of older persons	No
Specific legal, administrative, or other effective remedies to older persons who have been subject to discrimination	Yes
Contributing to the UN-Open ended working group on ageing	No
Implemented actions to support income generation activities for older persons	No
Provide out-patient-service free of charge in the public sector for older persons	Yes
Provide assistive devices and technologies free of charge in the public sector for older persons	Yes
Provide pharmaceutical products and/or other medical supplies free of charge in the public sector for older persons	Yes
Capacity-building plans to strengthen the geriatric and gerontology workforce	Yes
National guidelines for organizing geriatric care and training	No
National competency frameworks for geriatrics care workers	No
Programmes (in-person or online) available for caregivers of older persons	No
Policy, legislation, strategy, or programme to support the integration of palliative care services into the structure and financing of national healthcare systems at all levels of care	Yes
Availability of resources (human and finance) to implement actions on ageism	Adequate resources
Availability of resources (human and finance) to implement actions on age-friendly environment	Very limited resources
Availability of resources (human and finance) to implement actions on integration care for older persons	Limited resources
Availability of resources (human and finance) to implement actions on long-term care for older persons	Very limited resources
