

Smart Factory optimization in the cloud

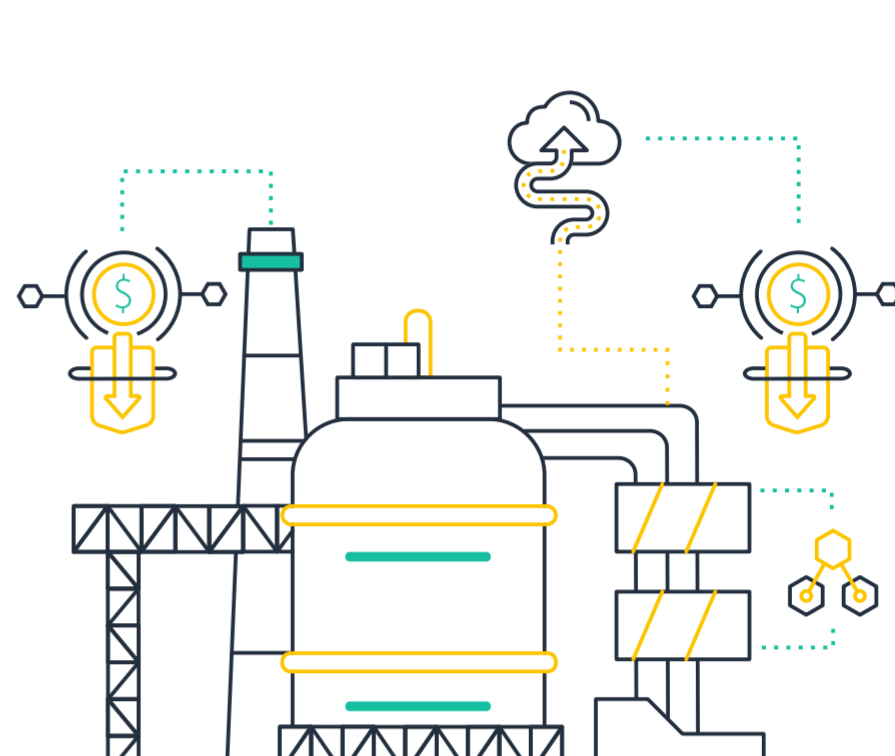

Focus on optimizing your factory operations,
not on the infrastructure needed to make it happen.

AWS cloud helps address challenges faced by manufacturing operations teams

By using AWS, we're saving up to 60% on our SAP infrastructure costs¹

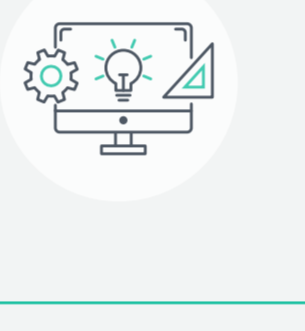

65%
of IndustryWeek's 50 Best Performing U.S. Manufacturers
use AWS services

80%
Forbes' list of Top 25 IoT Startups to Watch In 2019
use AWS services

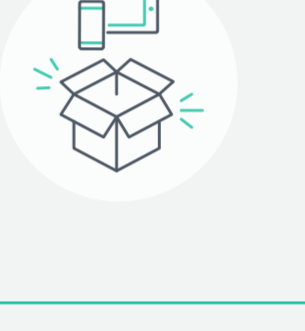

Digital Transformation Opportunities in Manufacturing:

Smart Factory
Lower Cost, Process & Supply Chain Optimization, Predictive Maintenance, SAP Optimization

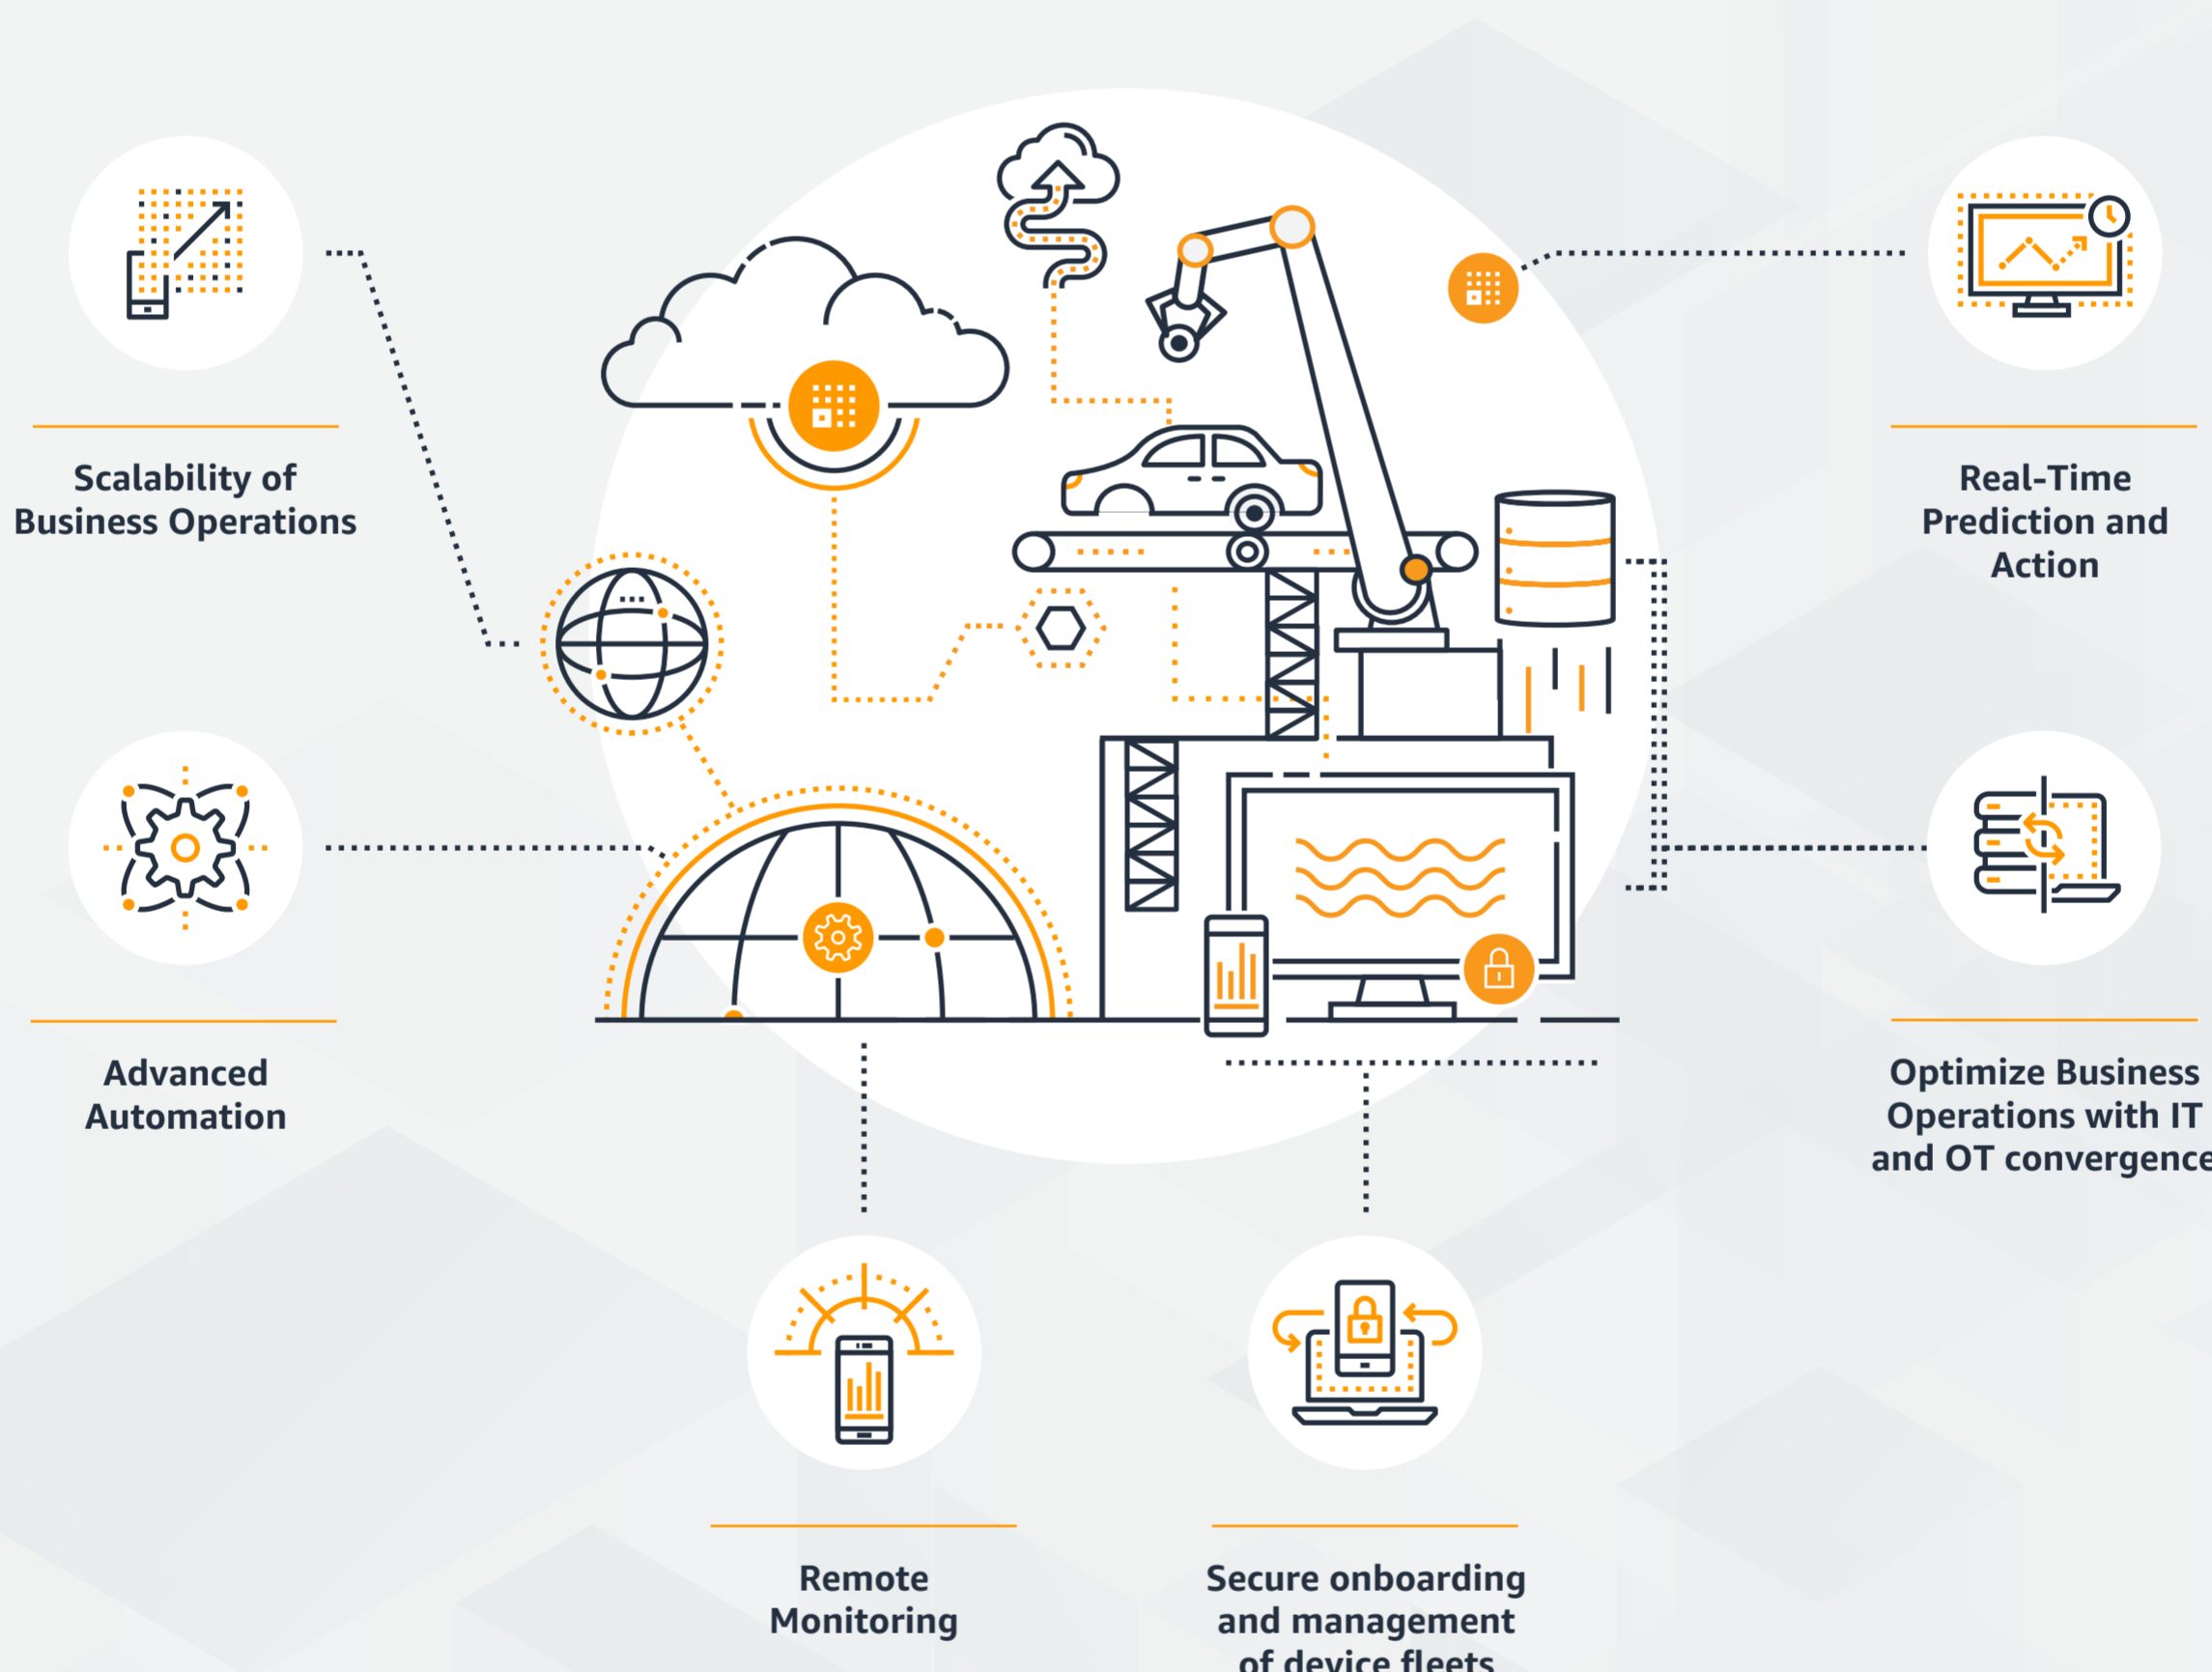

Product and Production Design
Electronic Design Automation, Computer Aided Design, Computational Fluid Dynamics, Finite Element Analysis

Smart Product
New Customer Experiences, Connected Products, New Revenue Streams, Product as a Service

Amazon distributes billions of products using cutting edge automation, machine learning services, and robotics with AWS at its core. AWS understands factory operations.

Opportunities in the Cloud with Industrial IoT

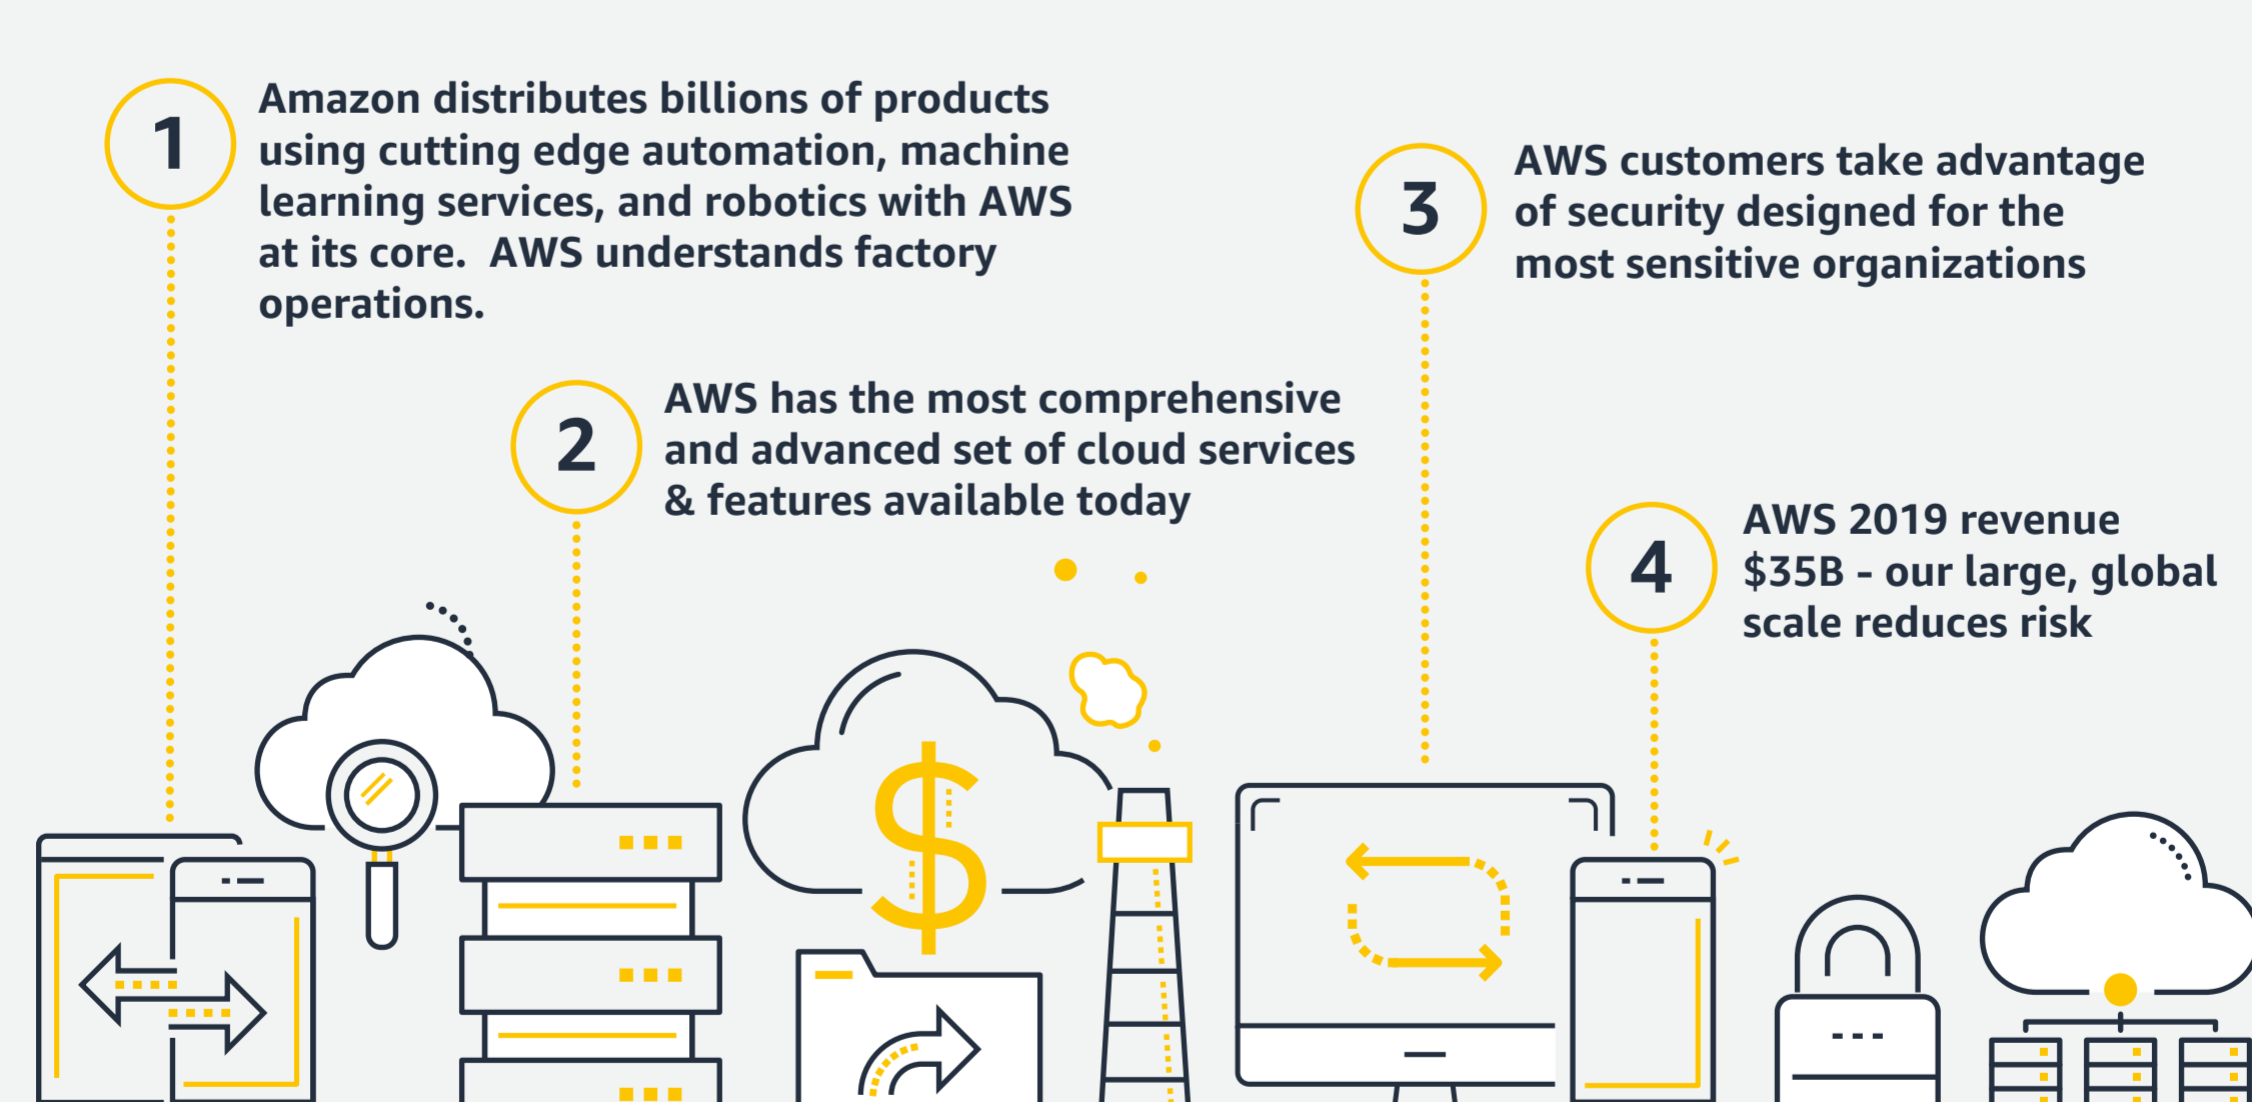

"We have increased profits by millions of dollars for one production line."

Steve Bakalar, Vice President of IT/Digital Transformation, Georgia Pacific

Why choose AWS?

Constant customer focused innovation, and the clear market leader. With AWS organizations can deliver as many as 3 times the features and deploy software up to 90% faster, freeing up resources for you to focus on strategic innovation.

Amazon Web Services cloud solutions portfolio contains over 200 highly reliable, secure, scalable services and solutions

"By reducing paper tears, we have increased profits by millions of dollars for one production line."
