40TH YEAR

DON'T DEFY THE SEASONS—

work with them. Administer your business in conformity with natural laws. Taking inventory December 31st, not only costs more than at June 30th, but its influence is demoralizing.

It's bad psychology to close an old year and commence a new one in the middle of the best business season. Time is the creation of man—the Seasons are inexorable. **Adopt a Fiscal Business Year**—it's the only element you can control.
