CHICAGO, OCTOBER 1, 1927

Published weekly by Presto Publishing Co., 417 S. Dearborn St., Chicago, Ill.

42ND YEAR

SALES

—Where There Were None Before

CURIOSITY, admiration and SALES are greeting the appearance of the new Waltham Cameo Grand. Dealers are greatly pleased with its reception. Trade lethargy vanishes where it is being shown, for it is delightfully "different." It is a beautiful miniature model, a foot shorter and a foot narrower than a Small Baby Grand, and its sounding board area renders it fully capable of producing true grand tone volume.

This little beauty is typically Waltham, greatest care being given to every detail of interior construction, as well as to the artistry employed in exterior design.

Its length is 3 feet, 8 inches; width 3 feet, 10 inches. Hand-carved trusses, copper bass, double repeating grand action, seventy pin block, seventy-three notes. Louis XVI Period design in lacquered mahogany and walnut.

We are placing the new Cameo Grand with dealers everywhere. Write us today for particulars.
