42ND YEAR

## ADAM SCHAAF

FOUNDED IN 1873

A Half Century's Experience Is Exemplified in the  
Matchless Tone of the Adam Schaaf

The Adam Schaaf piano is time-tested by enthusiastic owners. To continue to improve the instrument has been the aim and aspiration of the makers since the Adam Schaaf company was established in 1873.

How well the ambitions of the founder have been directed is made

evident in the Adam Schaaf piano today. It is the product of a house of the highest responsibility. The tone quality appeals to musicians and the company is distinguished for the artistic excellence of its case work. A wise decision today for the dealer keen for sales and profits is to add the Adam Schaaf to his line.
