

Priceless Preteen Camp was held for the second time in August 2023. Schools in Jefferson County nominated twelve 6th grade students, who had demonstrated outstanding leadership skills to attend. Two high-school aged students helped facilitate the camp as Teaching Assistants and led much of the discussion with camp participants. During the camp, students identified and studied difference makers in their lives, named their own strengths, and used that knowledge to invest in others in their communities. This camp focused on meaningful relationships and building up others to be their best.

### Programs At-A-Glance

- Wheat Management Field Day near Diller helped inform future management decisions by farmers for the 3rd most planted crop in the county. "Great program," -NE Wheat Board Director.
- Over 25 families completed the Co-Parenting for Successful Kids Program. Parents reported learning helpful strategies to reduce conflict and how to create a parenting plan.
