

My kids absolutely loved the hands-on nature of every 4-H class they have taken!

Kathy Burr, 4-H Extension Educator, and Donna Kircher, 4-H Assistant, provided hands on learning opportunities for the McCook Area Homeschool Co-op (MAHC). MAHC president Karen Storrs stated, “As a board whose objective is to find quality and engaging educational activities for the students in our group, we appreciate not only that Donna and Kathy are willing to provide a variety of options of classes but that they make learning fun. As parents it’s such a gift to have our children engaged and enjoying the classes Donna and Kathy teach.”

### Programs At-A-Glance

- Welcome to Ruby Collins, Water and Cropping Systems Extension Educator. Rubby brings a number of years of ag-related experience and looks forward to applying this locally.
- Erin Laborie, Livestock Systems, helped host The National Stockmanship and Stewardship Event where 77 producers learned from nationally renowned stockmen and became BQA certified.
