## Impact At-A-Glance

Since 1982, Wilderness Wonders Camp has been sought out as a great first timer camp experience. This camp utilizes the outdoor scenery to provide positive youth development to children ages 5 to 12.

Wilderness Wonders Camp is held annually for youth in the North Panhandle. In 2023, 100 youth members participate in hands on STEM activities at camp. The camp serves as a great way for youth to meet others from around the panhandle. One mother said, “just want to say my son has never gone to anything like this camp. He just came home so unbelievable happy and glowing while telling me everything that went on today.”

### Programs At-A-Glance

- Animals Inside & Out youth learned about animal systems during this field day.
- Estate Planning Workshop provided strategies to plan, start, and complete estate and succession plans for farms. 75% of attendees said they have a better understand of the topic
