Lesson 7
Research Project, Cont.

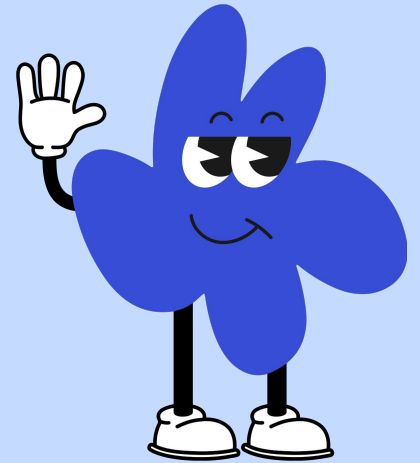

What Do I Want to Be When I Grow Up?

Last time you started researching a career. What was it?

Today you're going to create a career book. You can do this on the computer with a slideshow or with posterboard and art supplies. Here's what it should include:

1. What career did you research?
2. What does a person with that job do all day?
3. What do you like about this career?
4. Why do you think you would be good at this career?
5. What would you need to do to have this career?
6. What else did you learn about this career?

thanks.

APPENDIX: Resources and Activity Worksheets

Research Project Info and Worksheet: Lessons 6-8

The goal of this project, which spans across lessons 6 through 8, is to help students gain a basic understanding of what types of careers are out there, and what the relationship is between career and money. The general premise is that each student will choose a career to investigate and learn about using primary sources. In the final lesson (8), they will present their career path.

Feel free to adapt this project to your own standards as an educator (i.e. change the name, make it more specific, etc.).

NOTE: There is a worksheet attached to lessons 6, 7, and 8, that may be useful while students work on this assignment.

Name _____

The occupation I am learning about is
