cpanminus

tiny, standalone CPAN installer
that "just works"

vs. other installers

Sane defaults. Quiet output.

Fast and lightweight. One file install.

```
% curl -L cpanmin.us \  
| perl - App::cpanminus
```

♥ perlbrew, plenv

```
% cpanm Plack  
Successfully installed Plack-1.0023  
1 distribution installed
```

```
%
```

cpanm 1.6
released in 2/26

What's new?

Pinning versions

Flexible version query

♥ MetaCPAN

- - dev

install via git

cpanfile support

Live DEMO

cpanm 1.7

In development

Sneak Preview

- Smaller executable size: 350KB -> 230KB
- ♥ Travis CI + CPANTS
- Better prerequisite spec support
- Buildargs support
- Uninstall
