For literature, sciences and arts

“ ... immettere nel mercato librario tradizionale, testi difficili, su argomenti meno di moda o di presa immediata, ma scritti con lunghe note, diligenza informativa ed archivistica, con indice dei nomi, luoghi, idee, molte illustrazioni utili come documento e non solo come ornamento. Libri che non invecchino presto una volta esauriti, saranno resi possibili sotto forma di microschede; si è ampliata, inoltre, la rete di interessi sul contemporaneo, sull'espansione della cultura europea in altri continenti; sulle motivazioni e basi economiche; grande attenzione è anche prestata al tentativo di riportare alle loro radici storiche alcuni dibattiti ideologici di oggi. Ma deciderà il tempo, accompagnato vorremmo da rigore e modestia ... ”

EUGENIO BATTISTI

Dal manifesto per la fondazione della casa editrice, 1962

“ ... offering the traditional market challenging publications that explore less fashionable or immediately appreciable topics, though backed by lengthy notes, diligent studies and archival research, lists of names, places, ideas, a wealth of illustrations that are more informative than decorative. Books that age slowly, when out of print, will be provided on microcard; also expanded is the network of interest in contemporary issues, in the spread of European culture to other continents; in economic motivations and foundations; there is also a great deal of attention on returning a number of current ideological discussions to their historic roots. However, time will decide, in our intention accompanied by rigour and modesty ... ”

EUGENIO BATTISTI

From the Founding Manifesto of the Publishing House, 1962

Per le lettere, le scienze e le arti

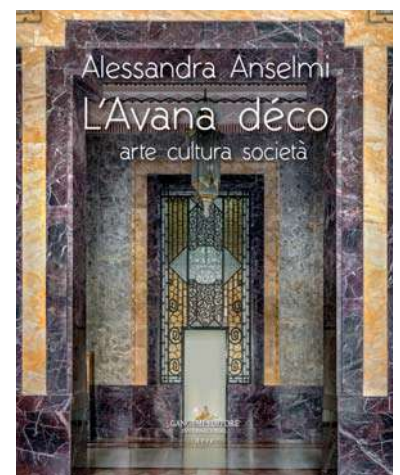

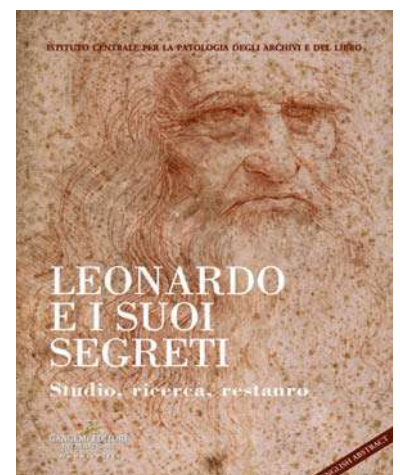

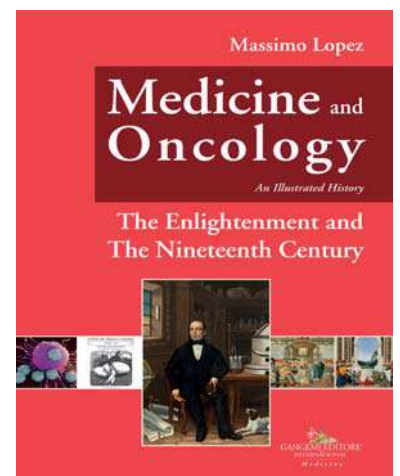

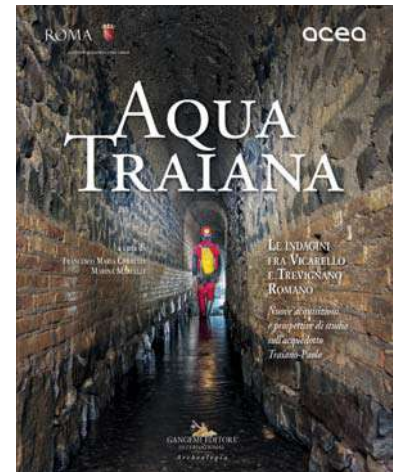

“... E non solo per la necessità di approfondire studi, psicologie, ricerche, ma anche per raccontare, raccontare, raccontare: ogni vera conoscenza e cultura prende coscienza se si comunica nel racconto, nella immedesimazione poetica del lettore con il “qui e ora” della propria storia quotidiana vissuta. Forza propulsiva originaria della Casa editrice (curiosità e scoperta), insieme all’Utopia che percorre tutto il catalogo e lo caratterizza, per cambiare la faccia della terra; ed anche conoscerla approfonditamente nelle sue storie e nei suoi monumenti: condizione essenziale per invertire le tendenze alla distruzione e approntare tutti gli strumenti per la riconquista, per il futuro, e qui è il futuro.”

MARCELLO FABBRI
Per il 50° anno dalla fondazione

“... And not only owing to the need to further studies, psychologies, research, but also to tell stories, and to keep telling stories: each true form of knowledge and culture acquires consciousness when communicated through a story, through the reader’s poetic empathy with the “here and now” of his or her own daily life. This is the Publisher’s unique driving force (curiosity and discovery), together with the Utopia that pervades and characterises its catalogue, to “change the face of the earth”; and to fully understand it through its histories and its monuments: an essential condition for inverting trends of destruction and for developing new tools for winning back the future: the future is here.”

MARCELLO FABBRI

La Gangemi Editore nasce nel 1962 da una esperienza manageriale del suo fondatore; si sviluppa nell'adesione ai principi dell'efficienza economica ed aziendale oltre che per il rigore scientifico e la ricercatezza grafica e tipografica dei testi pubblicati, tanto da divenire in breve una delle poche aziende editoriali italiane inserite nei massimi circuiti di produzione e vendita in Italia e all'estero. Infatti, i libri e i periodici GE (spesso pubblicati con testo inglese a fronte o in alcuni casi direttamente in lingua inglese) sono reperibili in Italia in tutte le librerie e le edicole ed all'estero nelle librerie e nelle edicole delle principali città. La continua attenzione alle più moderne tecniche di vendita, la costante attenzione nelle tecnologie, nelle attrezzature, e la massima collaborazione con gli autori nella progettazione e diffusione delle copertine e degli interni, consentono di offrire al mercato del libro testi di grande pregio grafico oltre che di notevole valore scientifico.

L'éditeur Gangemi naît en 1962 d'une expérience entrepreneuriale de son fondateur; La société se développe grâce au respect des principes de productivité et de gestion ainsi que par la rigueur scientifique et le raffinement graphique et typographique des textes publiés devenant rapidement une des rares sociétés d'édition italiennes introduites dans les plus importants circuits de production et de vente en Italie et à l'étranger; les livres et les revues de la maison d'édition Gangemi (publiés en italien avec des textes anglais en parallèle ou directement en langue anglaise) peuvent être trouvés en Italie dans toutes les librairies et kiosques à journaux et à l'étranger dans les principales villes. La volonté continue d'utiliser les techniques de vente les plus importantes, l'attention constante aux équipements technologiques utilisés et la collaboration maximale avec les auteurs permettent d'offrir au marché des textes de grande renommée au graphisme de haute qualité ainsi que de valeur scientifique reconnue.
