GRADUATE AND PROFESSIONAL CATALOG

Most post-baccalaureate study at the University of Nebraska-Lincoln is overseen by the Office of Graduate Studies and covered by Graduate Studies Policies (p. 494). A few programs are instead covered by Professional Studies Policies (p. 520) (Master of Architecture, Doctor of Veterinary Medicine, Doctor of Plant Health), and Law has its own catalog (<https://catalog.unl.edu/law>).

PROGRAMS

Graduate Programs

Entering a program: What's offered and how to apply. Graduate Programs by College (<http://www.unl.edu/gradstudies/prospective/programs/colleges>) (outside this catalog) lists current offerings by level and major, linked to summary pages with application requirements, specializations, contacts, and more. This catalog contains related policy details, primarily in the Graduate Studies: Admission (p. 498) section.

Progressing through a program: Milestones, courses, and other requirements for completion.

- Degree programs: See Steps to Degree Completion (<http://www.unl.edu/gradstudies/current/degrees>) (outside this catalog) for overall milestones and deadlines, with links to related policy details in this catalog. Additional **program-specific requirements** are managed by academic departments; consult an advisor for details.
- Non-degree programs:
 - Graduate Certificates (p. 5)
 - Teacher Certification (p. 13)

Professional Programs

For details, refer to program websites or consult an advisor.

- Master of Architecture (<http://architecture.unl.edu/prospective-student/professional-programs>)
- Doctor of Veterinary Medicine (<http://vetmed.unl.edu>) (with Iowa State University)
- Doctor of Plant Health (<http://dph.unl.edu>)
- See also: Law Catalog (<https://catalog.unl.edu/law>)

Graduate Certificates

Agricultural Sciences and Natural Resources

Advanced Horticulture

To earn the Graduate Certificate in Advanced Horticulture:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_AdvancedHorticulture)
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours from the following course list, with a grade of B or higher in all courses.

Choose from

HORT 824	Plant Nutrition and Nutrient Management	3
HORT 843E	Advanced Interiorscaping	3
HORT 843K	Advanced Arboriculture	3
HORT 844A	Environmental Nursery Production Practices	3
HORT 844E	General Viticulture	3
HORT 888	Entrepreneurship and Enterprise Development	3
HORT 842E or HORT 843A	Floral Crops Production and Handling Greenhouse Crop Production	2

HORT 842B	Plant Physiology	3
or HORT 842J	Water Issues in Lawn and Landscape	

Floriculture and Nursery Production Management

To earn the Graduate Certificate in Floriculture and Nursery Production Management:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_Floriculture)
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as outlined here, with grades of B or higher in all classes. Only 1 course per "or" group below may be applied toward this certificate.

Core Courses (min 5 cr)

HORT 824	Plant Nutrition and Nutrient Management or HORT 842 Plant Physiology	
HORT 842E	Floral Crops Production and Handling or HORT 843 Greenhouse Crop Production or HORT 844 Environmental Nursery Production Practices	
Electives (min 7 cr)		
HORT 843B	Seed Sciences	3
HORT 843E	Advanced Interiorscaping	3
HORT 844B	Environmental Stress Physiology	1
HORT 888	Entrepreneurship and Enterprise Development	3
ENTO 803	Management of Horticultural Crop Insects	3
or ENTO 812	Entomology and Pest Management	
or ENTO 813	Biological Control of Pests	
or ENTO 820	Insecticide Toxicology	
AGRO 896	Independent Study	1-6
or ENTO 896	Independent Study in Entomology	
or HORT 842A	Plant Pathology	

Food Safety and Defense

To earn the Graduate Certificate in Food Safety and Defense:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_FoodSafety).
2. Consult an advisor to develop a plan of study.
3. Complete a minimum of 12 credit hours, with 9 credit hours in core courses and a minimum of 3 elective credit hours.

Core Courses (9 cr)

FDST 871	A Multidisciplinary Overview of Food Safety and Security (Kansas State Univ)	2
FDST 805	Food Microbiology (Univ of Nebraska)	3
FDST 872	Principles of Hazard Analysis and Critical Control Point System (Kansas State Univ)	2
FDST 873	Food-borne Toxicants (Iowa State Univ)	2
Electives (minimum 3 cr)		
FDST 855	Microbiology of Fermented Foods (Univ of Nebraska, 2 cr)	2
FDST 874	Food Laws, Regulations, and the Regulatory Process (Iowa State Univ, 2 cr)	2
FDST 875	Rapid Methods in Food Microbiology (Kansas State Univ, 2 cr)	2

FDST 876	Risk Assessment for Food, Agriculture, and Veterinary Medicine (Iowa State Univ, 3 cr)	3
FDST 877	Advanced Food Microbiology and Biotechnology (Univ of Missouri-Columbia, 3 cr)	3

Grassland Management

To earn the Graduate Certificate in Grassland Management:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_GrasslandManagement).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as planned. Coursework may be transferred in on a case-by-case basis with approval of the student's advisor.

Available Courses

AGRO 843	Ecology of Invasive Species	3
AGRO 846	Forage Quality	3
AGRO 847	Grassland Fire Ecology	3
AGRO 848	Grassland Monitoring and Assessment	2
AGRO 849	Watershed Management in Grasslands	3
AGRO 851	Grassland Plant Identification	2

Ornamentals, Landscape, and Turf

To earn the Graduate Certificate in Ornamentals, Landscape, and Turf:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_Landscape).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here, with grades of B or higher in all classes.

Core Courses (minimum 6 cr)

HORT 824	Plant Nutrition and Nutrient Management	3
or HORT 842B	Plant Physiology	
or HORT 842J	Water Issues in Lawn and Landscape	

HORT 843K	Advanced Arboriculture	3
-----------	------------------------	---

Electives (minimum 6 cr)

HORT 814	Turfgrass Disease Management	1
HORT 843J	Herbicide Action	4
HORT 844B	Environmental Stress Physiology	1
HORT 880	Modified Rootzones	1
HORT 888	Entrepreneurship and Enterprise Development	3
HORT 813	Turfgrass and Landscape Weed Management	1
or HORT 843M	Weed Science	
ENTO 803	Management of Horticultural Crop Insects	3
or ENTO 812	Entomology and Pest Management	
or ENTO 813	Biological Control of Pests	
or ENTO 820	Insecticide Toxicology	
AGRO 896	Independent Study	1-6
or ENTO 896	Independent Study in Entomology	
or HORT 842A	Plant Pathology	

Arts and Sciences

Digital Humanities

To earn the Graduate Certificate in Digital Humanities:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_DigitalHumanities).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here. The certificate program is comprised of interdisciplinary coursework between: Anthropology; Art, Art History & Design; Classics & Religious Studies; English; History; Modern Languages; and University Libraries. Two specific courses are required; the remaining six credit hours may be drawn from courses approved by the Digital Humanities Program Coordinator Adrian S. Wisnicki awisnicki2@unl.edu. For further information about the certificate, see <https://www.unl.edu/dhcert/home>.

Required Courses

ENGL 872 /	Digital Humanities Practicum	3
HIST 872 /		
MODL 872 /		
ANTH 871		
ANTH 946 /	Interdisciplinary Readings in Digital	3
ENGL 946 /	Humanities	
HIST 946 /		
MODL 946		

Example Electives (6 cr needed)

ANTH 861 /	Geospatial Approaches in Digital	3
CLAS 861 /	Humanities and Social Sciences	
GEOG 861 /		
HIST 861		
ANTH 886	Digital Heritage	3
ENGL 877	Advanced Topics in Digital Humanities	3
ENGL 878	Digital Archives and Editions	3
HIST 970	Seminar in Digital History	3

Geographic Information Science

To earn the Graduate Certificate in Geographic Information Science:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_GeographicInformationScience)
2. Consult an advisor to develop a plan of study.
3. Complete 22 credit hours and a comprehensive examination. These must include the following unless a student can demonstrate that he/she has previously taken equivalent courses or has professional experience that would provide equivalent training.

Core Courses

GEOG 812 /	Introduction to Geographic Information	4
NRES 812	Systems	
GEOG 818 /	Introduction to Remote Sensing	4
NRES 818		
GEOG 827	Introduction to the Global Positioning System (GPS)	2
GEOG 898	Advanced Special Problems	1-24

Electives

GEOG 817	Cartography II: Electronic Atlas Design and Production	3
GEOG 819 / AGRO 819 / GEOL 819	Applications of Remote Sensing in Agriculture and Natural Resources	4
GEOG 820	Digital Image Analysis of Remote Sensing Data	4
GEOG 822	Advanced Techniques in Geographic Information Systems	4
GEOG 844	Geo-demographic and Geographic Information Systems (GIS)	3
GEOG 922	Seminar in Geographic Information Systems (GIS)	3
CIVE 853	GIS in Water Resources	3
CIVE 962	Application of Geographic Information Systems GIS to Transportation	3
CRPL 830	Planning with GIS	3
CRPL 895	Selected Topics in Community and Regional Planning	1-9
CRPL 832	Advanced Spatial Analysis with GIS	3
CRPL 833	GIS in Environmental Design and Planning	3
STAT 831	Spatial Statistics	3

Teaching of Writing

To earn the Graduate Certificate in Teaching of Writing:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_TeachingOfWriting)
2. Consult an advisor to develop a plan of study.
3. Complete 5 courses as listed below for a total of 15-18 credit hours, which may include up to 6 cr outside the English Department.

Required: Take at least one

ENGL 857A	Composition and Rhetorical Theory
ENGL 957	Composition Theory and Practice
ENGL 957B	Nebraska Writing Project

Electives in English

ENGL 857	Composition Theory and Practice
ENGL 857B	Nebraska Writing Project
ENGL 875	Rhetoric
ENGL 875A	Rhetorical Theory: Rhetoric of Women Writers
ENGL 895	Internship in Teaching English
ENGL 895A	Nebraska Writing Project Internship
ENGL 880	Writing Center Theory, Practice, and Research
ENGL 882	Literacy Issues and Community
ENGL 973	Seminar in Literacy Studies
ENGL 976	Seminar in Rhetorical Theory
ENGL 992B	Place Conscious Teaching

Other Electives (maximum 6 cr)

TEAC 813	Studies in Teaching English as a Second Language
TEAC 818	Teaching Writing in K-12 Schools

TEAC 838	Linguistics in Language and Learning Contexts
TEAC 840	Culture and Schooling
TEAC 921	Seminar in Literacy Studies
TEAC 944A	Curriculum as Aesthetic Text
TEAC 950	Contextual Research in English/Language Arts
TEAC 952	Language and Learning
TEAC 953	Seminar on Writing in the Curriculum

Business Administration

Business Analytics

To earn the Graduate Certificate in Business Analytics:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_BusinessAnalytics).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as listed below, in this sequence starting with GRBA 851. (Exception: Certificate applicants admitted in 2014 may begin the sequence with ECON 817 and take GRBA 851 in the summer.)

Required courses

GRBA 851	Business Analytics	3
ECON 817	Introductory Econometrics	3
MRKT 850	Data Driven Marketing Strategy	3

Elective: Take 1 of the following

MRKT 845	Advanced Marketing Analytics	3
SCMA 837	Risk and Simulation Modeling	3
SCMA 851	Predictive Analytics	3
SCMA 852	Data Management and Organization	3
SCMA 853	Business Data Mining and Descriptive Analytics	3
SCMA 854	Advanced Descriptive Analytics	3
SCMA 855	Prescriptive Analytics	3

Supply Chain Management Systems

To earn the Graduate Certificate in Supply Chain Management Systems:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_SupplyChain)
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours: GRBA 815 plus 3 of the other 4 courses listed, with a grade of C or better in each.

Required

GRBA 815	Supply Chain Management Strategies	3
----------	------------------------------------	---

Elective: Take 3 of the following

SCMA 831	Advanced Enterprise Systems	3
SCMA 832	Planning and Controlling Supply Chain Systems	3
SCMA 834	Advanced Topics in Lean Supply Chain Management	3
SCMA 836	Project Management and Implementation	3
SCMA 839	Global Supply Chain Management	3

SCMA 844	Managing Logistics in the Supply Chain	3
SCMA 847	Advanced Supply Chain Technology	3
SCMA 853	Business Data Mining and Descriptive Analytics	3

Education and Human Sciences

Community College Leadership

To earn the Graduate Certificate in Community College Leadership:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_CommunityCollegeLeadership).
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described here.

Required Courses

EDAD 923	The Community/Junior College	3
EDAD 929	Organizational Development and Change	3
EDAD 935	Workforce, Economic, and Community Development	3
EDAD 934	Teaching and Learning in the Community College	3
EDAD 912B	Emerging Issues in Community College Leadership	3

Early Childhood Special Education

To earn the Graduate Certificate in Early Childhood Special Education:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_EarlyChildhoodSpecialEd).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as listed below, with grades of B= or higher in all courses.

Required Courses

SPED 860	Issues in Early Childhood Special Education	3
SPED 861	Infants with Disabilities and Home Visiting	3
or SPED 862	Preschool Children with Disabilities	
SPED 960	Family and School Collaboration in Special Education	3
SPED 863	Medically Fragile infants	3
or SPED 882	Specialized Instruction for Students with Severe and Multiple Disabilities	

Early Literacy

To earn the Graduate Certificate in Early Literacy:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_EarlyLiteracy).
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described below, with an overall minimum GPA of 3.0. Only one course per "or" group may be applied toward the certificate.

Required

TEAC 802	Contemporary Children's Literature: Principles and Practices	3
TEAC 854	Literature in Education	3-9
TEAC 817	Emerging Reading and Language	3
TEAC 813A	Second Language Acquisition	1-3
or TEAC 811	Reading Processes and Practices	
Electives (choose 2)		
CYAF 874	Assessment in Early Childhood	3
PSYC 889	Child Behavior and Development	3
TEAC 811	Reading Processes and Practices	1-6
TEAC 836A	Professional Development: Literacy Coaching	3
TEAC 890	Workshop Seminar (section must be approved by advisory committee)	1-12
SPED 815	Reading and Writing Disabilities: Elementary Students	2
or SPED 815A	Practicum in Reading and Writing Disabilities-Elementary	

Family Financial Planning

To earn the Graduate Certificate in Family Financial Planning:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_FamilyFinancialPlanning).
2. Consult an advisor to develop a plan of study.
3. Complete 18 credit hours as listed here.

Required Courses

CYAF 821	Insurance Planning for Families	3
CYAF 823	Estate Planning for Families	3
CYAF 828	Retirement Planning, Employee Benefits and the Family	3
CYAF 836	Financial Planning Case Studies	3
CYAF 840	Personal Income Taxation	3
CYAF 883	Investing for the Family's Future	3

Financial & Housing Counseling

To earn the Graduate Certificate in Financial & Housing Counseling:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_FinHousingCounseling)
2. Consult an advisor to develop a plan of study.
3. Complete 18 credit hours as listed below.

Required Courses

CYAF 825	Reading in the Content Area	3
CYAF 822	Financial Counseling	3
CYAF 824	Fundamentals of Financial Planning	3
CYAF 841	Housing/Real Estate	3
Electives: Choose 2 courses (6 cr)		
CYAF 821	Insurance Planning for Families	3
CYAF 823	Estate Planning for Families	3
CYAF 826	Military Personal Financial Readiness	3

CYAF 828	Retirement Planning, Employee Benefits and the Family	3
CYAF 840	Personal Income Taxation	3
CYAF 883	Investing for the Family's Future	3
CYAF 897B	Practicum in Family Financial Planning	3-6

K-3 Mathematics Specialist

To earn the Graduate Certificate in K-3 Mathematics Specialist:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_MathSpecialist).
2. Consult an advisor to develop a plan of study.
3. Complete 18 credit hours as described: the prerequisite course, then the 5 required courses.

Prerequisite

MATH 800P	Number and Operation for K-3 Mathematics Specialists	3
-----------	--	---

Required Courses

MATH 801P	Geometry, Measurement, and Algebraic Thinking for K-3 Mathematics Specialists	3
MATH 802P	Number, Geometry and Algebraic Thinking II for K-3 Math Specialists	3
TEAC 808A	Improvement of Instruction in School Mathematics Primary: K-3	3
TEAC 808J	Improvement of Instruction in School Mathematics Special Topics	3
TEAC 907	Seminar in Elementary School Mathematics	3

Medical Family Therapy

To earn the Graduate Certificate in Medical Family Therapy:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_MedicalFamilyTherapy).
2. Consult an advisor to develop a plan of study. There are two approaches to completing this certificate:
 - **Approach A:** Those who hold a qualifying degree will be able to complete the certificate program within one year by taking the four core courses and practicum. For information on qualifying degrees and prerequisites, contact the department.
 - **Approach B:** Those who do not hold a qualifying degree may complete the certificate as a standalone non-degree objective or as part of the Child, Youth and Family Studies master's degree with a specialization in Marriage and Family Therapy. Requirements:
 - The core courses and practicum (as for option A)
 - The seven "other required courses" listed below
 - Nine credit hours in individual development and family relations. Courses offered through UNL, UNMC, UNO, and other institutions will be considered on an individual basis. Courses from the UNL Marriage and Family Therapy Program

which fulfill this include: CYAF 872, 881, 882, 883, 888, 980, 984.

3. Complete 15 (option A) or 45 (option B) credit hours as described here.

Core Courses and Practicum

CYAF 951	Theoretical Foundations of Marriage and Family Therapy	3
FMED 741:	Theory and Practice of Medical Family Therapy (UNMC)	3
FMED 742:	Families, Health, and Illness (UNMC)	3
FMED 743:	Applied Medical Family Therapy (UNMC)	3
FMED 744:	Clinical Practicum (UNMC)	3
Other Required Courses		
CYAF 952	Psychopathology and Dysfunctional Interactions	3
CYAF 954	Assessment in Family Therapy	3
CYAF 955	Clinical Family Therapy (Must take both 955A and 955B)	3
CYAF 956	Couples and Sex Therapy	3
CYAF 953	Issues and Ethics for Family Professionals	3
CYAF 865	Research Design and Methods	3
Individual development and family relations (9 cr, courses vary)		

Mixed Methods Research

To earn the Graduate Certificate in Mixed Methods Research:

1. Submit an Application for Admission to the graduate certificate program through the Office of Graduate Studies.
2. Submit the following additional materials:
 - a. GRE scores
 - b. A personal statement addressing the reason for pursuing the certificate
 - c. A CV or resume
 - d. Three letters of recommendation (for applicants not currently pursuing a graduate degree at UNL) or one letter of recommendation from the applicant's current academic advisor (for applicants currently pursuing another graduate degree at UNL)
 - e. A completed Course of Studies form (https://www.unl.edu/gradstudies/docs/Mixed_Methods_Research_Certificate-Course_of_Studies.pdf) that lists the proposed courses to completed the certificate. Participants must complete five measurement and modeling courses with at least one course from the Measurement section and at least two courses from the Modeling section. See EDPS QQPM courses for details about when courses are offered. With approval, students may transfer in three credit hours towards the Electives requirement; credit hours must be from an accredited institution. If there are questions, please consult an advisor in the EDPS QQPM program.
3. Upon admission, complete 15 credit hours as described here, with a grade of B or better in each course.

Statistics: Choose 1 course (3 cr)

EDPS 859	Statistical Methods ¹	3
----------	----------------------------------	---

EDPS 860	Applications of Selected Advanced Statistics ¹	3
EDPS 941	Intermediate Statistics: Experimental Methods	3
EDPS 942	Intermediate Statistics: Correlational Methods	3
EDPS 971	Structural Equation Modeling	3
EDPS 972	Multivariate Analysis	3
Measurement: Choose 1 course (3 cr)		
EDPS 870	Introduction to Educational and Psychological Measurement ¹	3
EDPS 970	Theory and Methods of Educational Measurement	3
Qualitative Methods: Choose 1 course (3 cr)		
EDPS 900K	Qualitative Approaches to Educational Research ¹	3
EDPS 935	Seminar in Qualitative Research ¹	3
EDPS 930A	Ethnographic Methods	3
EDPS 930D	Discourse Analysis Across School, Home and Community Settings	3
Mixed Methods: Choose 1 course (3 cr)		
EDPS 936	Mixed Methods Research ¹	3

Elective: 1 course (3 cr)

Choose one additional course from the Statistics, Measurement, or Qualitative Methods sections.

¹ EDPS 859, EDPS 860, EDPS 870, EDPS 900K, EDPS 935, and EDPS 936 may be completed online.

Nutrition, Non-coding RNAs, and Extracellular Vesicles (N2V)

To earn the Graduate Certificate in Nutrition, Non-coding RNAs, and Extracellular Vesicles (N2V):

1. Apply and get admitted toward this certificate objective.
2. Consult an advisor to develop a plan of study.
3. [Course and credit hour requirements coming soon...]

Social Justice and Diversity Education

To earn the Graduate Certificate in Social Justice and Diversity Education:

1. Apply and get admitted toward this certificate objective.
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described here: two required courses and three elective approved by the Certificate Program Advisor.

Choose 2 (6 credits) from the following courses options:

TEAC 861	Education for a Pluralistic Society: Foundation and Issues	3
TEAC 862	Seminar in Democratic Education	3
TEAC 944	Seminar in Curriculum Studies	1-3

Choose 3 (9 credits) from the following Course options:

TEAC 813J	Intercultural Communication	3
TEAC 833B	Comparative Education: Special Topics/Travel Study	3-9
TEAC 838	Linguistics in Language and Learning Contexts	3

TEAC 840	Culture and Schooling	3
TEAC 840M	Language and Power	3
TEAC 887	Effecting High School Improvement	3
TEAC 921D	Seminar in Literacy Studies: Language, Culture, and Education	1-9
TEAC 936	Seminar in College Teaching	1-3
TEAC 930M	Introduction to Multimodal Textual Analysis	3
TEAC 811	Reading Processes and Practices	1-6
TEAC 908J	Critical Conversations in U.S. Teacher Preparation Policy and Practice: Teacher Education To What E	3
TEAC 815	Studies in Dual Language Education	3

Quilt Studies

To earn the Graduate Certificate in Quilt Studies:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_QuiltStudies).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here: three required courses and one elective approved by the Certificate Program Advisor.

Required Courses

TMFD 818	Quilts, History, Culture	3
TMFD 905A	Advanced Problems: Textiles	1-6
TMFD 905D	Advanced Problems: Design	1-6

Elective (3 cr): Examples of regularly taught courses that may be applied:

TMFD 997	Internship	1-9
TMFD 978	Seminar in Textile History (Various topics offered as 1-week summer seminars. E.g., Colonial Revival Quilts, Quilts of the Depression Era, A Century of Quilts in Women's Lives, 18th and 19th Century Dyeing and Printing Techniques, Quilts of India and Pakistan, Repair and Stabilization of Quilts.)	1-3
TMFD 890	Workshop/Seminar (Craft, Culture, and Fashion)	1-3

Reading Intervention

To earn the Graduate Certificate in Reading Intervention:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_ReadingIntervention).
2. Consult an advisor to develop a plan of study.
3. Complete 13-15 credit hours as described here: two core courses, one required workshop, and two other TEAC/SPED courses.

Required Courses

TEAC 811B	Special Topics in Reading (Response to Intervention)	1-6
TEAC 893	Workshop Seminar (Response to Intervention)	1-12

Elective: Choose two courses (6-8 cr)

TEAC 811	Reading Processes and Practices (other than Response to Intervention)	1-6	TEAC 813M	Teaching Multilingual Learners in Content Areas	3
TEAC 806	Reading and Writing Disabilities: Adolescents	2	TEAC 833A	Comparative Education Survey	3
TEAC 806A	Reading Center Practicum II	2	TEAC 833B	Comparative Education: Special Topics/Travel Study	3-9
TEAC 836A	Professional Development: Literacy Coaching	3	TEAC 897E	Student Teaching Internship: English as a Second Language	1-10
TEAC 838	Linguistics in Language and Learning Contexts	3	TEAC 838	Linguistics in Language and Learning Contexts	3
TEAC 886	Assessment, Evaluation, and Instruction of At-Risk Readers (specific section must be approved for inclusion by the advisory committee)	1-3	TEAC 921D	Seminar in Literacy Studies: Language, Culture, and Education	1-9
TEAC 886B	Internship in Literacy Assessment and Instruction	1-3			
TEAC 890	Workshop Seminar	1-12			

Sensory Disabilities

To earn the Graduate Certificate in Sensory Disabilities:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_SensoryDisabilities).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here.

Required Courses

SPED 846	Visual Impairments: Characteristics	3
SPED 872	Deaf or Hard of Hearing: Characteristics	3
SPED 960	Family and School Collaboration in Special Education	3
SPED 852	Instructional Methods for Teachers of Students with Visual Impairments	3
or SPED 873	Deaf or Hard of Hearing: Content Methods	

Teaching English to Speakers of Other Languages

To earn the Graduate Certificate in Teaching English to Speakers of Other Languages:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_TeachingEnglish).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here: 4 courses at 3 credit hours each, maintaining a 3.25 GPA for these courses and earning a grade of B or better in each course. Up to 6 credit hours of relevant previous coursework may be applied.

Required Courses

TEAC 813A	Second Language Acquisition	3
TEAC 813K	Linguistics for Language Teachers	3
TEAC 813P	Teaching English as an International Language	3
or TEAC 813B	ESL: Teaching and Curriculum	
Elective: Take at least 1 of these courses		
TEAC 813D	World Languages Assessment	1-3
TEAC 813E	Special Topics in TESOL	1-6
TEAC 813J	Intercultural Communication	3

TEAC 813M	Teaching Multilingual Learners in Content Areas	3
TEAC 833A	Comparative Education Survey	3
TEAC 833B	Comparative Education: Special Topics/Travel Study	3-9
TEAC 897E	Student Teaching Internship: English as a Second Language	1-10
TEAC 838	Linguistics in Language and Learning Contexts	3
TEAC 921D	Seminar in Literacy Studies: Language, Culture, and Education	1-9

Transdisciplinary Childhood Obesity Prevention

To earn the Graduate Certificate in Transdisciplinary Childhood Obesity Prevention:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_ChildhoodObesity).
2. Consult an advisor to develop a plan of study.
3. Complete 14 credit hours as described here, with a grade of B- or better in each course. Participants must also complete a PhD or MS. *With permission, substitutions of equivalent courses may be accepted.*

Required Courses

NUTR 810	Transdisciplinary Obesity Prevention	3
NUTR 910	Research Planning and Grant Writing for Childhood Obesity	3
NUTR 986	Graduate Seminar	1-2
NUTR 911	Practicum: Experiential Learning Experiences in Childhood Obesity Prevention	1

Graduate-level statistics course

Elective: Choose one

EDPS 800	Foundations of Educational Research	3
NUTR 805	Research Methods	3
CYAF 865	Research Design and Methods	3

World Language Teaching: German

To earn the Graduate Certificate in World Language Teaching: German:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_TeachingGerman)
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described below.

Choose any 5 of these:

TEAC 922	Seminar in the Learning and Teaching of Foreign Languages	3
TEAC 922C	The Interpretive Mode: Reading and Listening in the German Language Classroom (formerly 922B)	3
TEAC 922G	Interpersonal and Presentational Writing in the German Language Classroom (formerly 922F)	3
TEAC 922P	Assessment in the German Language Classroom (formerly 922O)	3

TEAC 922T	Planning in the German Language Classroom (formerly 922S)	3
TEAC 922X	Technology-Enhanced German Language Instruction (formerly 922W)	3
TEAC 922Z	Teaching for Intercultural Communicative Competence in the Foreign Language Classroom	3

World Language Teaching: Spanish

To earn the Graduate Certificate in World Language Teaching: Spanish:

1. Apply and get admitted toward this certificate objective. (http://www.unl.edu/gradstudies/prospective/programs/Cert_TeachingSpanish)
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described below.

Choose any 5 of these:

TEAC 922	Seminar in the Learning and Teaching of Foreign Languages	3
TEAC 922B	The Interpretive Mode: Reading and Listening in the Spanish Language Classroom	3
TEAC 922F	Interpersonal and Presentational Writing in the Spanish Language Classroom	3
TEAC 922O	Assessment in the Spanish Language Classroom	3
TEAC 922S	Planning in the Spanish Language Classroom	3
TEAC 922W	Technology-Enhanced Spanish Language Instruction	3
TEAC 922Z	Teaching for Intercultural Communicative Competence in the Foreign Language Classroom	3

Youth Development

To earn the Graduate Certificate in Youth Development:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_YouthDevelopment).
2. Consult an advisor to develop a plan of study and choose a focus: Youth Development Specialist or Youth Program Management and Evaluation.
3. Complete 13 credit hours as described here: a one-hour foundations course plus 12 hours listed below. *Some courses listed here require admission to a Child, Youth and Family Studies graduate degree program or permission.*

May be applied to either focus

CYAF 878	Youth Policy (Michigan State Univ)	3
CYAF 880	Contemporary Youth Issues (Various topics; UNL, Kansas State Univ, Texas Tech Univ, or North Dakota State Univ)	3

Required for the Youth Development Specialist focus

CYAF 861	Foundations of Youth Development (at home univ)	1
----------	---	---

CYAF 864	Community Youth Development (Michigan State Univ)	3
CYAF 868	Adolescents and Their Families (UNL or Kansas State Univ)	3
CYAF 872	Youth Development (UNL or North Dakota State Univ)	3
CYAF 875	Youth in Cultural Contexts (Michigan State Univ)	3

Required for the Youth Program Management and Evaluation focus

CYAF 861	Foundations of Youth Development (at home univ)	1
CYAF 873	Program Design, Evaluation and Implementation (UNL)	3
CYAF 863	Youth Professionals as Consumers of Research (UNL)	3
CYAF 869	Administration and Program Management (UNL or Kansas State Univ)	3

Engineering

Construction Engineering & Management

To earn the Graduate Certificate in Construction Engineering & Management:

1. Apply and get admitted toward this certificate objective.
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described below.

Required

EMGT 805	Teamwork for Organizational Commitment and Collaboration	3
EMGT 905	Strategic Management and Planning	3

Electives

CNST 811	Project Administration	3
CNST 815	Mechanical/Electrical Project Management	3
CNST 820	Professional Practice and Ethics	3
CNST 826	Occupational Health and Safety for Construction	3
CNST 834	The Design/Build Project Delivery System	3
CNST 835	Design/Build: Methods and Application	3
CNST 836	Intent and Application of International Building Code	3
CNST 850	Sustainable Construction	3
CNST 858	Construction Information Management Systems	3
CNST 860	Construction Visualization and Simulation	3
CNST 879	Construction Management and Construction Systems	3
CNST 880	Productivity and Human Factors in Construction	3
CNST 882	Heavy and/or Civil Construction	3
CNST 883	Management of Limited Scope Permitting	3
CNST 885	Construction Planning, Scheduling, and Controls	3
CNST 886	Construction Management Systems	3

CNST 887	Construction Leadership and Strategic Planning	3
CNST 890	Masters Project	3
CNST 844	Construction Site Safety Management	3
CNST 898 / CONE 898	Special Topics in Construction Management **	1-6
CONE 816	Wood and / or Contemporary Materials Design	3
CONE 821	Construction Risk Assessment and Management	3
CONE 859	BIM I: Introduction to Building Information Modeling (BIM)	3
CONE 866	Heavy and/or Civil Estimating	3
CONE 883	Support of Excavation	3
CONE 981	Precast Concrete Construction	3

**Indicates a course that may count as a graduate credit “only” course. The student must work with their advisor, the graduate committee chair, and the course instructor to determine the status of the section taken. A written contract is required.

Engineering Management

To earn the Graduate Certificate in Engineering Management:

1. Apply and get admitted toward this certificate objective.
2. Consult an advisor to develop a plan of study.
3. Complete 15 credit hours as described below.

Required Courses

EMGT 805	Teamwork for Organizational Commitment and Collaboration	3
EMGT 905	Strategic Management and Planning	3
Elective Courses (6 cr needed)		
EMGT 806	Decision and Risk Analysis	3
EMGT 807	Project Management	3
ENGR 823	Reliability Engineering	3
ENGR 830	Applied Statistics and Quality Control	3
EMGT 901	Total Quality Management Using Six Sigma Techniques	3
ENGR 919	Determinants of Occupational Performance	3
ENGR 891	Special Topics in Engineering ^{Legal} Considerations for Engineering Managers and Engineering Leadership	3,6

Fine and Performing Arts

Music Entrepreneurship

To earn the Graduate Certificate in Music Entrepreneurship:

1. Apply and get admitted toward this certificate objective.
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here. These courses are offered each fall and spring term, with the business courses (ENTR) also offered in summer. *Although these are not part of the regular Master of Music program, they may be used as electives in some master's or doctoral programs in Music.*

MUSC 898	Special Topics in Music	3
ENTR 821	Initiating and Managing Entrepreneurial Growth	3
ENTR 822	Managing Rapid Growth and Change in Organizations	3
MUSC 894	Music Internship	3

Journalism and Mass Communications Public Relations and Social Media

To earn the Graduate Certificate in Public Relations and Social Media:

1. Apply and get admitted toward this certificate objective (http://www.unl.edu/gradstudies/prospective/programs/Cert_PublicRelations).
2. Consult an advisor to develop a plan of study.
3. Complete 12 credit hours as described here, with grades of B or higher in all classes.

Required courses

ADPR 830	Strategic Communications: Advertising Issues and Strategies	3
ADPR 834	Digital Insight & Analytics	3
ADPR 850	Public Relations Management and Case Studies	3
ADPR 866	Social Media Theory and Practice	3

Post-Baccalaureate Teacher Certification

Students who already hold a bachelor's degree may pursue Nebraska Department of Education (NDE) Teacher Certification (<https://www.education.ne.gov/tcert>)—including endorsements and administrative certificates—at the graduate level.

1. **Preparation:** Consult UNL's Certification Officer (<http://cehs.unl.edu/cehs/applying-your-teaching-certificate>) or the relevant academic department to ensure that you understand the requirements and know what to select when you apply.
2. **Application:** Apply via the Application for Admission to Graduate Study (<http://go.unl.edu/gradapp>) and get admitted.
3. **Progress and completion:** Consult an advisor, then enroll and complete requirements as described. Questions about specific certifications and their requirements should be directed to the departments listed as contacts. For broader questions about completing NDE requirements at UNL, contact UNL's Certification Officer.

Administrative Endorsements

Curriculum Supervisor (Grades PK-12) (36 cr)

Contact: Departments of Educational Administration, 402-472-3726, and Teaching, Learning and Teacher Education, 402-472-2231.

This is an Administrative Certificate/Endorsement that requires the completion of 36 graduate credit hours. For admission to the master's degree or certificate program and to be recommended for administrative certification and endorsement, students must also satisfy additional NDE state requirements, including but not limited to, possession of a valid Regular Teaching Certificate, evidence of two years of successful

teaching experience, human relations training, special education training, and basic skills competency. Candidates must apply to both the Department of Educational Administration and to the Department of Teaching Learning and Teacher Education.

EDAD 811	Principal Practicum	3
EDAD 830	Administrative Theory in Educational Organizations	3
EDAD 851	Faculty and Staff Appraisal	3
EDAD 903	Issues in Community Relations	3
EDAD 948	Instructional Leadership: Emerging Trends and Practices	3
Select one of the following:		3
EDAD 833	Educational Finance	
EDAD 837	Education Law	
EDAD 852	School Culture and Student Behavior	
TEAC 800	Inquiry into Teaching and Learning	3
TEAC 801	Curriculum Inquiry	3
TEAC 888	Teacher as Scholarly Practitioner	3
Select two of the following approved graduate courses:		6
TEAC 846A	The Middle Level Curriculum	
TEAC 846B	Studies in Middle Level Schooling: Leadership	
TEAC 848	Introduction to Curriculum Studies	
TEAC 944	Seminar in Curriculum Studies	
TEAC 944A	Curriculum as Aesthetic Text	
TEAC 944B	Special Topics in Curriculum	
TEAC 944D	Curriculum Evaluation	
TEAC 944E	Curriculum as Spatial Text	
Select one of the following foundations of education:		3
TEAC 830	Introduction to Philosophy of Education	
TEAC 831	Studies in the Foundations of Education	
TEAC 832	Higher Education in America	
TEAC 834	Ethics and Education	
TEAC 840	Culture and Schooling	
TEAC 840A	Culture and Schooling: Gender	
TEAC 840B	Culture and Schooling: Gender and Science	
TEAC 840D	Culture and Schooling: Special Topics	
TEAC 861	Education for a Pluralistic Society: Foundation and Issues	
TEAC 902	Colloquium in Educational Policy and Practice	
Total Credit Hours		36

Each student must satisfactorily complete a Professional Portfolio, approved by an advisor.

Principal (Grades PK-8 or 7-12) (36-45 cr)

Contact: Department of Educational Administration, 402-472-3726.

This is an Administrative Certificate/Endorsement that requires the completion of 36 graduate credit hours if at the same level as one's teaching endorsement or 45 cr if pursuing this endorsement at a different level.

For admission to the master's degree or certificate program and to be recommended for administrative certification and endorsement, students

must also satisfy additional NDE state requirements, including but not limited to, possession of a valid Regular Teaching Certificate, evidence of two years of successful teaching experience at the relevant level, human relations training, special education training, and basic skills competency.

EDAD 811	Principal Practicum	3
EDAD 830	Administrative Theory in Educational Organizations	3
EDAD 833	Educational Finance	3
EDAD 837	Education Law	3
EDAD 851	Faculty and Staff Appraisal	3
EDAD 852	School Culture and Student Behavior	3
EDAD 903	Issues in Community Relations	3
EDAD 800	Foundations of Research and Methods of Inquiry in Educational Administration	3
Select one of the following:		3
TEAC 801	Curriculum Inquiry	
TEAC 848	Introduction to Curriculum Studies	
TEAC 944	Seminar in Curriculum Studies	
Select one of the following:		3
TEAC 800	Inquiry into Teaching and Learning	
TEAC 946	Instructional Improvement and Decision Making	
TEAC 948	Instructional Leadership: Emerging Trends and Practices	
An approved College of Education and Human Sciences course outside the departments of EDAD or TLTE		3
An elective approved by an advisor		3
Total Credit Hours		36

Each student must satisfactorily complete a Professional Portfolio approved by an advisor.

Special Education Supervisor (Birth-12)

Contact: Department of Educational Administration, 402-472-3726.

Details coming soon.

Superintendent (Grades PK-12) (66 cr)

Contact: Department of Educational Administration, 402-472-3726.

This is an Administrative Certificate/Endorsement that requires the completion of 60 graduate credit hours and completion of a specialist of doctoral program in educational administration. For admission to the six year specialist program or the Ed.D. and to be recommended for administrative certification and endorsement, students must also satisfy additional NDE state requirements, including but not limited to, possession of a valid Regular Teaching Certificate, evidence of two years of successful teaching experience, human relations training, special education training, and basic skills competency.

TEAC 897V	Student Teaching Internship: Secondary Science	4
SPED 801B	Accommodating Exceptional Learners in the Secondary School Classroom	3
EDPS 991	Seminar in Educational Psychology and Measurements	3
Total Credit Hours		42

Special Education: Early Childhood (Birth - K) (33+22 cr; Initial, Subject)

Contact: Department of Special Education and Communication Disorders at 402-472-2141.

Prerequisites: Bachelor’s degree from accredited institution; acceptance into the teacher education program in CEHS and admission with full graduate standing in the master’s degree program in Department of Special Education and Communication Disorders; prerequisite courses (22 cr):

EDPS 362 / EDPS 854	Learning in the Classroom	3
SPED 201	Introduction to Special Education	3
SPED 212	Assessment Techniques for Diverse Learners	3
or CYAF 474	Assessment in Early Childhood	
SPED 362	Early Childhood Special Education	3
SPED 454	Behavior Management	3
SPED 496Y	Directed Field Experience: Inclusion	1
TEAC 330 / TEAC 861	Multicultural Education	3
TEAC 331 / TEAC 831	School and Society	3
Total Credit Hours		22

Required completion (or equivalent) (33 cr):

CYAF 970	Advanced Early Childhood Education	3
SPED 860	Issues in Early Childhood Special Education	3
SPED 861	Infants with Disabilities and Home Visiting	3
SPED 862	Preschool Children with Disabilities	3
SPED 863	Medically Fragile infants	3
SPED 876	Language Development for Teachers	3
or SLPA 251	Normal Language Development	
SPED 882	Specialized Instruction for Students with Severe and Multiple Disabilities	3
SPED 896Q	Directed Field Experience: Early Childhood Special Education	3
SPED 897Q	Student Teaching: Early Childhood Special Education	3
SPED 960	Family and School Collaboration in Special Education	3
TEAC 410 / TEAC 810	Educational Program for Kindergarten Children	3
Total Credit Hours		33

Speech Language Pathologist (Birth-Grade 12) (Subj)

Contact: Department of Special Education and Communication Disorders at 402-472-2141.

Details coming soon.

World Language: French (Grades 7-12) (80 cr; Subject)

Contact: Department of Teaching, Learning and Teacher Education, 402-472-2231.

Must also enroll in a master’s degree program.

FREN 101	Beginning French I	5
FREN 102	Beginning French II	5
FREN 201	Second-Year French I	3
FREN 202	Second-Year French II	3

Total Credit Hours		63

Special Education: Deaf or Hard of Hearing (Birth to Grade 12) (43 cr; Subject)

Contact: Department of Special Education and Communication Disorders, 402-472-2141.

Must have a valid initial teaching certificate in Elementary Education a Secondary Content area or Special Education-Mild/Moderate Disabilities. Students without a Special Education certificate are required to take the listed prerequisite courses. Proficiency requirements: Demonstrated proficiency in American Sign Language: successful completion of SLPA 202 Second Year American Sign Language II or minimum level of Intermediate on Sign Communication Proficiency Interview or EIPA or other approved measure before completion of the program.

Prerequisites

SPED 201	Introduction to Special Education (or equivalent)	3
SPED 212	Assessment Techniques for Diverse Learners	3
SPED 414 or SPED 814	Instructional Methods for Students with Mathematics Learning Disabilities	3
SPED 454	Behavior Management	3
Select one of the following:		3
SLPA 251	Normal Language Development	
SLPA 452 / SLPA 852	Normal Language Development During School Years	
SPED 876	Language Development for Teachers	
Credit Hours Subtotal:		15

Core Requirements

SPED 872	Deaf or Hard of Hearing: Characteristics	3
SPED 873	Deaf or Hard of Hearing: Content Methods	3
SPED 874	Deaf or Hard of Hearing: Language Arts & Literacy	4
SPED 875	Sensory Disabilities: Itinerant Teaching	3
SPED 896D	Directed Field Experience: Deaf/Hard of Hearing	3
SPED 897	Student Teaching	3
SPED 960	Family and School Collaboration in Special Education	3
SLPA 450 / SLPA 850	Audiology for Educators of the Deaf or Hard of Hearing	3
SLPA 884 / SPED 884	Deaf or Hard of Hearing: Speech & Language Issues	3
Credit Hours Subtotal:		28
Total Credit Hours		43

Special Education: Early Childhood (Birth - K) (30 cr; Subject)

Contact: Department of Special Education and Communication Disorders, 402-472-2141.

Must have a valid initial teaching certificate in Elementary Education (K-6), Special Education (K-6 or K-12), Early Childhood Education (P-3) or Inclusive Early Childhood (Birth thru grade 3) and admission to the graduate certificate or master's degree program in special education.

Prerequisite Courses

SPED 201	Introduction to Special Education	3
SPED 454	Behavior Management	3
SPED 212 or CYAF 474	Assessment Techniques for Diverse Learners	3
Credit Hours Subtotal:		9

Required Courses (or equivalent)

CYAF 970	Advanced Early Childhood Education	3
SPED 860	Issues in Early Childhood Special Education	3
SPED 861	Infants with Disabilities and Home Visiting	3

SPED 862	Preschool Children with Disabilities	3
SPED 863	Medically Fragile infants	3
SPED 876	Language Development for Teachers	3
SPED 882	Specialized Instruction for Students with Severe and Multiple Disabilities	3
SPED 896Q	Directed Field Experience: Early Childhood Special Education	3
SPED 960	Family and School Collaboration in Special Education	3
TEAC 810	Educational Program for Kindergarten Children	3
Credit Hours Subtotal:		30
Total Credit Hours		39

Special Education: Early Intervention Specialist (Birth - K) (24 cr; Supplemental)

Contact: Department of Special Education and Communication Disorders, 402-472-2141.

Prerequisites: Must have a valid initial teaching certificate in Special Education (K-6 or K-12) and application to the graduate certificate or master's degree program in special education.

Required completion (or equivalent) of 24 credit hours:

SPED 860	Issues in Early Childhood Special Education	3
SPED 861	Infants with Disabilities and Home Visiting	3
SPED 862	Preschool Children with Disabilities	3
SPED 863 or SPED 882	Specialized Instruction for Students with Severe and Multiple Disabilities	3
SPED 896Q	Directed Field Experience: Early Childhood Special Education	3
SPED 960	Family and School Collaboration in Special Education	3
CYAF 874	Assessment in Early Childhood (or equivalent)	3
CYAF 970	Advanced Early Childhood Education	3
Total Credit Hours		24

Special Education: Visual Impairment (Birth - Grade 12) (36 cr; Subject)

Contact: Department of Special Education and Communication Disorders, 402-472-2141.

Persons with this endorsement may teach students with visual impairments from birth through age 21. Visual impairment includes blindness, low vision (legal blindness and low vision) and vision loss associated with other impairments.

Must have a valid teaching certificate.

The following core classes must be completed for the endorsement:

SPED 454	Behavior Management (or equivalent)	3
SPED 846	Visual Impairments: Characteristics	3
SPED 847	Etiologies of Students with Visual Impairments	3

SPED 849	Braille Codes and Material Adaptations for Students with Visual Impairments	3
SPED 851	Braille II	3
SPED 852	Instructional Methods for Teachers of Students with Visual Impairments	3
SPED 853	Orientation and Mobility I	3
SPED 872	Deaf or Hard of Hearing: Characteristics	3
SPED 882	Specialized Instruction for Students with Severe and Multiple Disabilities	3
SPED 897V	Student Teaching: Visual Impairments	3
SPED 960	Family and School Collaboration in Special Education	3
SPED 852A	Applied Technology Methods for Students with Visual Impairments	1
SPED 852B	Applied Instructional Methods to Teach Students with Visual Impairments	2
Total Credit Hours		36

Proficiency requirements: Pass braille proficiency exam before completion of the program.

COURSES

About these courses

Graduate and professional courses are grouped here by **subject**. Some subjects align one-to-one with majors; some do not. Some courses are **crosslisted** at more than one level (like MATH 415/MATH 815) or in more than one subject (like ENGL 830J/MUSC 830J).

- **Graduate courses** (numbered 800-999) make up the bulk of the A-to-Z subject pages linked below. See also: Graduate Enrollment Toolbox (<http://www.unl.edu/gradstudies/current/enroll>).
- **Professional courses** (numbered 500-799) are in these subjects only: Architecture (ARCH) (p. 69), Landscape Architecture (LARC) (p. 266), Law (LAW) (p. 266), Plant Health (DPLH) (p. 401), Veterinary Medicine (VMED) (p. 487).
- For **undergraduate courses** (0-499) see instead Undergraduate Catalog: Courses (<https://catalog.unl.edu/undergraduate/courses>).

Accounting (ACCT)

ACCT 801 Fraud Examination and Internal Audit

Crosslisted with: ACCT 401

Prerequisites: ACCT Major or Permission; ACCT 314 and ACCT 309 with grade of C or better.

Description: Principles and methodologies of detecting and deterring fraud using accounting, auditing, and investigative skills. Also introduces the fundamentals of internal auditing in a changing business environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

ACCT 802 Accounting Standards

Prerequisites: ACCT 810 with a grade of C or better, or permission

Description: Analysis of changes in authoritative audit and accounting pronouncements. Besides topical coverage, recent discussion memoranda, technical bulletins, interpretations and statements of policy will be emphasized as to their integration into the accounting framework.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 803 Seminar in Financial Accounting

Prerequisites: Admission to the Masters of Professional Accountancy (MPA) program; or permission of MPA faculty adviser and instructor

Description: The economic characteristics of accounting information as they relate to the role played by financial accounting reports in allocating capital.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ACCT 916

ACCT 804 Advanced Accounting

Crosslisted with: ACCT 404

Prerequisites: ACCT Major or Permission; ACCT 314 with grade of C or better.

Description: Special accounting problems relating to the preparation of combined and consolidated financial statements for accounting entities with branch offices and with subsidiaries, both domestic and foreign; partnership accounting; accounting for foreign currency transactions and translations; governmental and not-for-profit accounting.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 807 Professional Responsibility and Ethics in Accounting

Prerequisites: Admission to the Master of Professional Accountancy (MPA) program; or permission of MPA faculty advisor and instructor

Description: Standards of ethical financial reporting and corporate governance in the context of the legal, regulatory, and social environments of corporate business. Acts of law and sanctions imposed for violations of standards of financial reporting.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 808 Business Valuation and Financial Statement Analysis

Prerequisites: ACCT 313 and FINA 361 with grades of C or better.

Description: Provides a broad framework for using financial statement analysis to evaluate a firm's business operations and to predict its future condition using concepts and principles learned in previous accounting and finance courses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 809 Accounting Information Systems (AIS)

Crosslisted with: ACCT 409

Prerequisites: ACCT Major or Permission; ACCT 309 with a grade of C or better.

Description: Identify, document, evaluate, and suggest improvements to accounting information systems (AIS). Focus on impact of new technology on business transactions in an AIS, and how the information system influences and supports business decisions. Current events in the AIS field.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 810 Auditing

Crosslisted with: ACCT 410

Prerequisites: ACCT Major or Permission; ACCT 309 and 314, both with a grade of C or better.

Description: Duties and responsibilities of auditors, methods of conducting various kind of audits; audit working papers; the preparation of the audit report; the auditor's certificate; special problems in the audit of different kinds of enterprises.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ACCT 802; ACCT 832

ACCT 813 Corporate Tax Accounting

Crosslisted with: ACCT 413

Prerequisites: ACCT Major or Permission; ACCT 312 with a grade of C or better.

Description: Federal income taxation for corporations. Tax laws associated with formation, operation, distribution, redemption, and reorganizations are analyzed.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 814 Governmental and Not-For-Profit Accounting

Prerequisites: ACCT 314 with a grade of C or better; Admission to the Master of Professional Accountancy (MPA) program; or permission of MPA faculty advisor and instructor

Description: Accounting and reporting for governmental units and organizations established as not-for-profit corporations. Expanded treatment of fund accounting and reporting for agencies operated in and for the general public interest.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 815 Tax Research and Planning

Prerequisites: ACCT 312/812 with a grade of C or better; Admission to the Master of Professional Accountancy program

Description: Development of skills in identifying problems, interpreting facts, conducting research, and communicating results in the field of Federal taxation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 816 Special Topics in Federal Taxation

Prerequisites: ACCT 312/812 with a grade of C or better; Admission to the Master of Professional Accountancy program

Description: Areas of Federal law that are especially relevant in the prevailing economic and political climate.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 817 The Income Tax and Management Decisions

Prerequisites: Courses constituting the equivalent of the undergraduate Common Body of Knowledge requirement for CBA

Description: The impact of Federal income tax law on management decisions, more from the viewpoint of recognizing problems than prescribing solutions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 819 Partnership Tax Accounting

Prerequisites: ACCT 412/812 with a grade of C or better; Admission to the Master of Professional Accountancy program

Description: Federal income taxation for partnerships. Tax laws associated with formation, operation, distribution, disposal, and dissolution.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 831 Seminar in Auditing

Prerequisites: Admission to the Masters of Professional Accountancy (MPA) program; or permission of MPA faculty advisor and instructor

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 832 Applied Auditing

Prerequisites: ACCT 410/810

Description: Introduction to auditing concepts from a theoretical perspective. Applied course to plan, perform, and complete an audit.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 837 Taxation-Individual Income Tax

Description: The structure and content of the federal income tax system, focusing on taxation of individuals. Income, deductions, income splitting, capital gains, and tax accounting. Technical proficiency in solving tax problems and an understanding of the tax policy decisions implicit in the technical rules.

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: LAW 745, LAW 745G

ACCT 838 Taxation-Corporate

Prerequisites: LAW 637G.

Description: Advanced federal income tax focusing on income taxation of corporations and shareholders.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 840 Fraud Examination

Prerequisites: Admission to the Master of Professional Accountancy (MPA) program; or permission of MPA faculty advisor and instructor

Description: Fraud and how fraud differs from other crimes. Fraud techniques, schemes, and actual fraud cases.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 841 Fraud Detection and Prevention

Prerequisites: ACCT 201 and ACCT 202

Notes: Aimed at non-accountants.

Description: The focus is on fraud prevention and detection of risks and weakness that allow fraud to occur. Criminal theory, ethics training, tone-at-the-top, and desirable company policies and codes are covered in more depth.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACCT 848 Business Planning**Prerequisites:** LAW 632/G, 638/G**Description:** Process of planning business transactions in a way that takes into account many relevant bodies of law as well as the needs of clients. Learn the goals and methods of business planning, the role of ethics in providing legal advice, factors that influence the choice of business entity for a venture, legal rules applying to partnerships and limited liability companies ("LLCs"), relevant laws dealing with corporations and securities regulation, laws that pertain to corporate restructurings, and laws applying to the purchase, sale, or merger of corporate businesses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**ACCT 850 Accounting and Data Analytics****Prerequisites:** Admission to the Masters of Professional Accountancy program.**Description:** Fundamentals of data exploration, analysis, and communication in an accounting setting. Emphasis on written communication and data visualization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**ACCT 857 Controllership****Prerequisites:** Admission to either the Masters of Professional Accountancy (MPA) or MBA program; or permission of MPA faculty adviser and instructor; ACCT 808 or GRBA 810**Description:** Rudiments of conceptual framework for designing and evaluating management accounting and control systems for business firms and situations. Case studies on the management aspects of budgeting, standard setting, variance analysis, cost allocation, operating control, transfer pricing, capital budgeting, performance evaluation, and other pertinent topics relating to managerial uses of accounting data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 24**Format:** LEC**ACCT 858 Seminar in Managerial Accounting****Prerequisites:** Admission to either the Masters of Professional Accountancy (MPA) or MBA program; or permission of MPA faculty adviser and instructor**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ACCT 995**ACCT 863 Taxation-Individual Income II****Description:** Most important tax principles affecting business and investments, as well as an introduction to basic tax procedure (both administrative and judicial), civil and criminal fraud, tax research, and certain ethical issues common in tax practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 888 Financial Reporting and Analysis****Prerequisites:** Intermediate financial accounting or ACCT 805; permission of the MBA director**Description:** How to effectively utilize accounting information presented in financial statements. Analysis of primary financial statements, revenue recognition practices, the financial reporting system, the effects of accounting method choice on reported financial data, and firm valuation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ACCT 906 Seminar in Comparative Accounting Systems****Prerequisites:** Permission (ordinarily at least two senior-level courses in accounting or ACCT 801 and suitable supporting courses)**Description:** A research seminar on the conceptual framework underlying selected accounting systems or subsystems. The specific systems studied vary depending upon interest and background of enrolled students, but ordinarily include insurance or other regulatory systems, governmental or other not-for-profit systems, Securities and Exchange Commission regulations, federal income tax rules, and foreign systems. Contrasts with traditional financial and managerial reporting systems and the reasons for the differences that exist.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 24**Format:** LEC**ACCT 916 Seminar in Contemporary Accounting Theory: Empirical Tests and Methodologies****Prerequisites:** ACCT 803**Description:** Empirical validations and implications of accounting information. The convergence of accounting with other disciplines such as: behavioral sciences; portfolio theory; and information theory. Recent empirical studies such as: implications of the efficient capital market hypothesis on external financial reporting, information content of financial reports, and market perceptions of external accounting information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 920 History and Philosophy of Accounting Thought****Prerequisites:** Admission to the Master of Professional Accountancy (MPA) program; or permission of MPA faculty advisor and instructor**Description:** The historical development of accounting thought and the individuals, institutions, organizations, and philosophies that shaped its past and present and will influence its future.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ACCT 945 Partnership Taxation**Prerequisites:** ACCT 812 or LAW 637G.**Description:** Survey of important principles of partnership taxation.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ACCT 967 Estate Planning****Prerequisites:** Prereq: LAW 637/G**Description:** Federal estate and gift taxation, related income tax rules, estate planning concepts, and state inheritance taxation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 968 Estate Planning Problems****Prerequisites:** LAW 767G.**Description:** Problems of planning and implementing estate plans for clients of substantial wealth with emphasis on skills of drafting the various legal instruments usually required for comprehensive estate planning.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ACCT 969 Tax Policy Seminar****Description:** Policies of federal income taxation with emphasis on current legislative proposals and alternatives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 984 Seminar in Selected Topics****Prerequisites:** Admission to PhD program and permission.**Description:** Topics vary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 990 Accountancy Internship****Prerequisites:** Admission to MPA program, permission of MPA adviser, and acceptance into approved internship program**Notes:** Maximum of 6 sem hrs can be counted towards the MPA degree.**Description:** Students present oral and written reports to faculty seminar once a semester. Independent study of theories, principles, practices, techniques, and strategies utilized in the accounting field. Practical experience in professional accounting situations through a preapproved internship program.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**ACCT 991 Seminar in Capital Market Research in Accounting****Prerequisites:** Admission to PhD program, completion of research tools requirement, and permission**Description:** Capital market effects of accounting measurements and presentation, foundation of capital market research in accounting, methodology in conducting capital market research, and implication of capital market effects on accounting policy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 992 Seminar in Behavioral Accounting Research****Prerequisites:** Admission to PhD program, completion of research tools requirements, and permission**Notes:** MNGT 960 recommended.**Description:** Behavioral factors in accounting system, design, audit judgment, decision making using accounting data, performance evaluation, accounting policy formation, and other accounting-related tasks.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 993 Seminar in Analytical Accounting Models****Prerequisites:** Admission to PhD program and permission**Description:** Measurement alternatives through modeling of choices and economic analysis of information choices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACCT 995 Seminar in Contemporary Managerial Accounting: Selected Topics****Prerequisites:** ACCT 858 or equivalent**Notes:** May be repeated for credit if different subject matter.**Description:** Special subjects in contemporary managerial accounting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 24**Format:** LEC**ACCT 996 Directed Reading or Research****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 24**Format:** IND**ACCT 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Actuarial Science (ACTS)

ACTS 810 Introduction to Credibility, Smoothing of Data, and Simulation

Crosslisted with: ACTS 410

Prerequisites: STAT 463

Description: Full, partial, Buhlmann, and Buhlmann-Straub credibility models. Introduction to empirical Bayes and statistical distributions used to model loss experience. Application of "polynomial splines" to actuarial data. Simulation of "discrete" and "continuous random" variables in context of actuarial models. Simulation to "p-value" of hypothesis test. "Bootstrap method" of estimating the "mean squared error" of an estimator.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ACTS 404

ACTS 825 Survival Models

Crosslisted with: ACTS 425

Prerequisites: STAT 463 with a grade of "C" or better.

Description: Parametric and tabular survival models. Estimation based on observations that might not be complete. Concomitant variables. Use of population data. Applications to groups with impaired lives.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ACTS 404

ACTS 830 Actuarial Applications of Applied Statistics

Crosslisted with: ACTS 430

Prerequisites: STAT 463 with a grade of "C" or better.

Notes: Data sets processed and analyzed using statistical software.

Description: Introduction to forecasting in actuarial science. Simple and multiple regression, instrumental variables, time series methods, and applications of methods in forecasting actuarial variables. Interest rates, inflation rates, and claim frequencies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACTS 840 Interest Theory

Crosslisted with: ACTS 440

Prerequisites: MATH 208 or 208H with a grade of "Pass" or "C" or better, or parallel

Notes: Grade only

Description: Application of financial mathematics to problems involving valuation of financial transactions; equivalent measures of interest; rate of return on a fund; discounting or accumulating a sequence of payments with interest; and yield rates, length of investment, amounts of investment contributions or amounts of investment returns for various types of financial transactions; loans and bonds. Introduction to the mathematics of modern financial analysis. Calculations involving yield curves, spot rates, forward rates, duration, convexity, and immunization.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: ACTS 405; ECON 365; FINA 365; FINA 338; FINA 363; FINA 367; FINA 375; FINA 382; FINA 401; FINA 450

ACTS 841 Introduction to Financial Economics

Crosslisted with: ACTS 441

Prerequisites: MATH 208 with grade of "C" or better or concurrent.

Description: Financial mathematics concepts related to short sales, forwards, options, futures, and swaps, and their use in risk management, hedging and investment strategies, fundamental concepts of put-call parity and no-arbitrage, and interest rate models.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACTS 842 Principles of Pension Valuation

Crosslisted with: ACTS 442

Prerequisites: ACTS 471/871 with a grade of "C" or better.

Description: Actuarial cost methods. Determination of normal costs and accrued liability. Effect on valuation results due to changes in experience, assumptions and plan provisions. Valuation of ancillary benefits. Determination of actuarially equivalent benefits at early or postponed retirement and optional forms of payment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACTS 850 Stochastic Processes for Actuaries

Crosslisted with: ACTS 450

Prerequisites: STAT 463 with a grade of "C" or better.

Description: Introduction to stochastic processes and their applications in actuarial science. Discrete-time and continuous-time processes; Markov chains; the Poisson process; compound Poisson processes; non-homogeneous Poisson processes; arithmetic and geometric Brownian motions. Applications of these processes in computation of resident fees for continuing care retirement communities. Pricing of financial instruments.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ACTS 870 Life Contingencies I

Crosslisted with: ACTS 470

Prerequisites: ACTS 440 and STAT 462, each with a grade of "C" or better.

Notes: First course of a two-course sequence that includes ACTS 471.

Description: Theory and applications of contingency mathematics in the areas of life and health insurance, annuities, and pensions. Probabilistic models.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ACTS 403

ACTS 871 Life Contingencies II**Crosslisted with:** ACTS 471**Prerequisites:** ACTS 470 and STAT 462, each with a grade of "C" or better.**Notes:** Second course of a two-course sequence that includes ACTS 470.**Description:** Life insurance reserve for models based on a single life.

Introduction to multiple life models for pensions and life insurance and to multiple decrement models.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ACTS 403; ACTS 442, ACTS 842**ACTS 873 Introduction to Risk Theory****Crosslisted with:** ACTS 473**Prerequisites:** STAT 462 with a grade of "C" or better.**Description:** Applications of compound distributions in modeling of insurance loss. Continuous-time compound Poisson surplus processes, computation of ruin probabilities, the distributions of the deficit at the time of ruin, and the maximal aggregate loss. The effect of reinsurance on the probability of ruin.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ACTS 403**ACTS 874 Introduction to Property/Casualty Actuarial Science****Crosslisted with:** ACTS 474**Prerequisites:** STAT 462 with a grade of "C" or better.**Description:** Mathematical, financial, and risk-theoretical foundations of casualty actuarial science. Risk theory, loss reserving, ratemaking, risk classification, credibility theory, reinsurance, financial pricing of insurance, and other special issues and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACTS 875 Actuarial Applications in Practice****Crosslisted with:** ACTS 475**Prerequisites:** ACTS 471/871; FINA 307/307H or FINA 338**Description:** Principles and practices of pricing and/or funding and valuation for life, health, property and liability insurance, and annuities and pension plans. Commercially available actuarial modeling software.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACTS 930 Fundamentals of Pension Mathematics****Description:** Basic theory of pension mathematics. Funding methods, unit credit, entry age normal, aggregate cost, actuarial assumptions, tax deductible contributions, multi-employer pension plans, deposit administration dividend formulas, variable annuities, and ERISA.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ACTS 950 Seminar in Actuarial Science****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Advertising and Public Relations (ADPR)

ADPR 829 Jacht**Prerequisites:** By permission only. Requires interview process and submission of portfolio.**Description:** Jacht is an innovative educational experience that puts into practice advertising, public relations, marketing, media, research and creative skills and knowledge in a startup ad agency environment. Students must think holistically about integrated marketing communications strategies and how a campaign contributes to the revenue of an agency as well as to the success of the client being served. Students must consider the broader business goals of both the startup agency and of real-world clients. Students are expected to adhere to strict deadlines and to deliver high quality work on time.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 830 Strategic Communications: Advertising Issues and Strategies****Description:** Seminar for graduate students who do not have the equivalent of an undergraduate degree in advertising. Business of advertising and promotion, and the processes and planning involved in strategic promotional communication. Current issues and strategies faced by advertising practitioners, the importance of branding, integrated marketing communications and promotion. Creation of a strategic marketing plan.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 833 Art Direction****Crosslisted with:** ADPR 433**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, ADPR 283, and ADPR 333.**Notes:** Has individual and team projects.**Description:** Visual and graphic design as applied to the corporate environments of advertising and public relations. Print and electronic design principles, strategies and elements using traditional and new digital technologies. Development of creative materials for actual clients, corporate identities, electronic presentations, professional creative portfolios, non-traditional resumes, and World Wide Web (WWW) sites.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ADPR 834 Digital Insight & Analytics**Crosslisted with:** ADPR 434**Prerequisites:** Junior standing; JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** A study of the digital communication landscape. Course explores how various channels of digital communication can be used to analyze audiences, connect with them and ultimately build brands.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 837 International/Multicultural Public Relations****Crosslisted with:** ADPR 437**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** Content and discussions on global issues affecting the public relations profession, the professional, the specialized practices, and the engagement of stakeholders simultaneously at home and at transnational levels.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 838 Global Advertising****Crosslisted with:** ADPR 438**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, ADPR 283.**Description:** Global advertising and communication. Cultural, economic, political and social differences that affect advertising strategy and execution in foreign markets. Advertising a USA product or service in the global market.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 847 Strategic and Creative Concepting****Crosslisted with:** ADPR 447**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283**Description:** The alternative and advanced methods of communicating a message, a need, a perception or attitude. Creative storytelling and problem-solving, critique and analysis, and how to creatively communicate with strategic thinking and design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 850 Public Relations Management and Case Studies****Crosslisted with:** ADPR 450**Prerequisites:** Junior standing and ADPR 283 or BRDC 227 or JOUR 200B.**Description:** Philosophies and theories that underlie the discipline and profession of public relations. The critical and supportive perspectives used to gain insight into the history and direction of public relations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 851 Public Relations Techniques****Crosslisted with:** ADPR 451**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** Multimedia tools in advertising, public relations, direct marketing, and sales promotion. Promotional writing, publications development, and media relations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 857 Crisis Management in Corporations and Nonprofits****Crosslisted with:** ADPR 457**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** Role of public relations in prevention of crises, response to crises, and recovery from crises. How to preempt, prepare for and respond to corporate, nonprofit and government sector crises from a public relations perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 858 Interactive Media Design****Crosslisted with:** ADPR 458**Prerequisites:** Junior standing, JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** Communication strategies and tactics using interactive media. Exploration of interactive's role in strategic communications, user experience, information architecture, interactive design and development using current web technologies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 864 Sports Media Relations & Promotions****Crosslisted with:** ADPR 464, SPMC 464, SPMC 864**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221 and ADPR 283.**Description:** Issues in sports media relations and integrated marketing communications. Background of the unpredictable nature of the sports industry and the relationships with its various publics and the media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 866 Social Media Theory and Practice****Crosslisted with:** ADPR 466**Prerequisites:** Junior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** Key theories related to the study of social media, important social media monitoring and management practices, and advertising/PR opportunities on the most popular social and mobile media platforms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ADPR 880 Japanese Visual Culture in Context**Crosslisted with:** ADPR 480, ARTP 480, ARTP 880**Prerequisites:** Permission**Notes:** Letter grade only.**Description:** Test and hone visual literacy skills in a foreign country.

Observe, analyze, and interpret visual information without the aid of text in the native Japanese language. Sharpen perceptual and analytical skills through daily drawing, writing, and photography in Japan. Increase global awareness through analysis of an issue.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** SDO**Offered:** SUMMER**ADPR 881 Advertising and Public Relations Research****Description:** Research in the planning, development and evaluation of advertising. The research process, use of secondary sources of information and how to analyze data from these sources. The planning and execution of primary research. Survey techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 883 Portfolio Development****Crosslisted with:** ADPR 483**Prerequisites:** Junior standing; JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Description:** How to improve individual portfolios of creative work and execute a variety of creative pieces that demonstrate improvement in their collections.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ADPR 884 Brands & Branding****Description:** The managerial philosophy, techniques, and processes in advertising. Organizational structures, integrated marketing communications, strategic planning, marketing planning, advertising planning, advertising research, budgeting, and decision paradigms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 888 Media Sales and Promotion****Crosslisted with:** ADPR 488**Prerequisites:** Junior standing, JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, ADPR 283.**Description:** Techniques for print and electronic media sales and promotion. Rate structures, legal requirements, and social and economic effects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 889 Advertising and Public Relations Campaigns****Crosslisted with:** ADPR 489**Prerequisites:** Senior standing and JOMC 101, JOMC 130-134, ADPR 151, ADPR 221, and ADPR 283.**Notes:** Requires working in teams.**Description:** Conduct research and evaluate the findings to develop and present an integrated marketing communications strategy and creative materials for a multimedia advertising and public relations campaign needed by a client. Application of knowledge, experience, and skills learned in previous courses to a new situation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ADPR 891 Special Topics in Advertising****Crosslisted with:** ADPR 491**Notes:** May be repeated up to three times so long as the topics are different. 12 hours max special topics hours at all levels (100, 200, 300, 400) per degree.**Description:** Topics vary each term.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 12**Format:** LEC**ADPR 896 Independent Study in Advertising and Public Relations****Crosslisted with:** ADPR 496**Prerequisites:** Permission**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**ADPR 930 Integrated Media Communications Capstone Seminar****Prerequisites:** Completion of at least two thirds of required coursework (24 hours) and Memorandum of Courses filed**Description:** Capstone course in the Integrated Media Communications (IMC) specialization. Reflect on different theories and concepts and apply those theories and concepts to real-life examples and professional goals in a final paper and presentation to faculty and peers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Agribusiness (ABUS)

ABUS 855 Marketing and Globalization**Crosslisted with:** MRKT 855**Prerequisites:** GRBA 813 or equivalent**Description:** Globalization and resulting changes in the business environment. Access to new consumers, new supplies. The effect on consumer choices. Readings from scholarly and popular press, videos, and a "real world" application. Marketing strategies developed for Nebraska firms and organizations such as value-added food marketers.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

Agricultural Economics (AECN)

AECN 801 Advanced Farm Management and Linear Programming

Crosslisted with: AECN 401

Prerequisites: AECN 201.

Description: The role of budgeting and linear programming in analyzing farm organization problems, theory of linear programming, linear program design, and analysis of linear programmed solutions to farm organization problems. Includes goal programming, multiple objective programming, risk programming, and financial modeling.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 804 Agricultural Law

Description: Legal problems and issues of unique importance to lawyers serving the agricultural sector. Representative topics include economic and environmental regulation of agriculture; organizing the farm business; financing agricultural production; marketing agricultural products; and managing agricultural risk.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 812 Organization and Performance of Agricultural Markets

Description: Economic theory of industrial organization and performance applied to agricultural input, raw product, and processed product markets. Buyer market power at first-handler level, spatial markets, vertical integration and contract coordination, and organizational forms unique to agriculture.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 901B

AECN 814 Agricultural Price Analysis

Description: Economic relationships among the forces that determine the demand, supply and prices for agricultural commodities, products, and factors of production within and across markets. Theoretical foundations reviewed covering individual consumer demand, commodity and factor markets and price determination. Empirical methods applied in analyzing demand, supply and prices, and the factors affecting them. Multiple projects, including interpreting the results, to reinforce understanding of economic behavior.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 815 Analytical Methods in Economics and Business

Crosslisted with: ECON 815

Prerequisites: MATH 104 or 106

Description: Equilibrium Analysis: Applications in business, finance, and economics. Market equilibria, accumulations, and economics. Optimization: profit, cost, and utility functions. Constrained optimization problems with utility functions. Constrained optimization problems in production and consumer allocations; Kuhn and Tucker conditions; static and dynamic input-output Models.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: ECON 917

AECN 818 Behavioral and Experimental Economics

Prerequisites: AECN 873

Description: Provides exposure to the related fields of behavioral and experimental economics through lectures and lab-based instruction.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Offered: SPRING

AECN 821 Orientation to Research

Description: Introduction to approaches to agricultural economics research. Critical evaluation of agricultural economics literature. Identify an area of research interest and present a review of current literature in the area.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AECN 827A Static Optimization with Mathematical Programming

Description: Optimization methods in economics, organized into modules, each of which introduces the fundamental methods used in the analysis of a particular class of economic problems. Each module is taught within the framework of consumer, firm, or social welfare optimization problems.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

AECN 832 Economics of Agricultural Production

Prerequisites: AECN 201, ECON 373, MATH 104

Description: Static economic analysis of multi-variant agriculture response functions. Resource and enterprise choice, cost functions, resource evaluation, and size and scale economies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 840 Applied Welfare Economics and Public Policy**Prerequisites:** AECN/ECON 873**Description:** Principles of welfare economics applied to policy issues in agriculture and natural resources. Review of measures of household welfare, willingness to pay, and notions of Pareto optimality, aggregate welfare and market failure. Practical methods of comparative statics analysis of the effect of public policies on consumer and firm behavior, and on market equilibrium. Theory of externalities and welfare implications of market versus non-market allocation of public goods examined. Applications include evaluation of such policies as taxes, price supports, quotas, pollution controls, environmental damage liability, and intellectual property rights.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AECN 852 Agricultural Finance****Crosslisted with:** AECN 452**Prerequisites:** AECN 201 or 4 hrs accounting.**Description:** Principles and concepts of financial management of farm and agribusiness firms developed. Various strategies for acquiring and using capital resources by the individual firm explored. Institutions providing the sources of agricultural credit are individually studied.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 416**AECN 856 Environmental Law****Crosslisted with:** AECN 456, NREE 456**Prerequisites:** Junior standing. AECN 357/NREE 357.**Notes:** Available through Online and Distance Education.**Description:** Administrative law, risk assessment, environmental impact review, Clean Air Act, Clean Water Act, non-point pollution control, wetlands regulations pesticide and toxic substance regulation, solid and hazardous waste regulation, drinking water protection, land use regulation, energy policy, and international environmental law.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** PSI**AECN 857 Water Law****Crosslisted with:** AECN 457, NREE 457, WATS 457**Prerequisites:** AECN/NREE 357.**Description:** Environmental impact review; public trust doctrine; endangered species; land use controls; wetlands regulation; surface and ground water rights; Indian and federal water rights; impact of water quality regulations on water allocation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** PSI**AECN 865 Resource and Environmental Economics II****Crosslisted with:** AECN 465, NREE 465, WATS 465**Prerequisites:** MATH 104 and one course in statistics.**Description:** Application of resource economics concepts and empirical tools to resource management problems. Public policy issues involving environmental quality, land and water management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 868**AECN 868 Advanced Resource and Environmental Economics****Prerequisites:** AECN/ECON 873, AECN 865, ECON 817**Description:** Application of conceptual and empirical tools for analyzing resource problems. Both public and private dimensions of resource management are considered with emphasis on public policy. Economics of environmental quality, management of exhaustible and renewable resources, valuation of non-market goods and key elements of environmental policy analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 901J**AECN 873 Microeconomic Models and Applications****Crosslisted with:** ECON 873**Prerequisites:** ECON 211, 212, and 215**Description:** This course is intended for MA Option II students and others who do not plan to proceed to PhD studies. Analysis of microeconomic decision-making by individuals and firms with emphasis on consumer demand, production, cost and profit, market structure and the economics of games, uncertainty, and information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 818; AECN 840; AECN 868**AECN 883 Ecological Economics****Crosslisted with:** NRES 883, CDEV 883**Prerequisites:** AECN 141 or ECON 212 or equivalent**Description:** A synthesis across the notion of "utility" as represented in traditional environmental and natural resource economics, "ecology" in ecological economics, and "community" in behavioral economics. Ideas from thermodynamics with a focus on renewable resources. Development, organization, and enhancement of eco-business, eco-industry, eco-government and eco-communities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AECN 893 Law and Economics****Description:** Introduction to economic tools and their application to the law. Overview of the principles of microeconomics and their application to various areas of private law (e.g., torts, contracts, property) and public law (e.g., environmental, constitutional, and criminal law & procedure).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AECN 896 Special Topics in Agricultural Economics

Prerequisites: 12 hrs agricultural economics or closely related areas and permission

Description: Focused agricultural economics topics through research, narrowly targeted literature review, or extension of course work.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

AECN 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

AECN 901 Directed Study of Advanced Topics in Agricultural Economics

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 15

Format: LEC

Prerequisite for: AECN 902

AECN 901A Production Economics

Prerequisites: ECON 912A and 911A

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 902; AECN 902A

AECN 901B Agricultural Industrial Organization

Prerequisites: AECN 812

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 902; AECN 902B

AECN 901D International Agricultural Trade

Prerequisites: ECON 821

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 902; AECN 902E

AECN 901E Agricultural Development

Prerequisites: ECON 912A and 911A

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 902; AECN 902J

AECN 901J Natural Resource Economics

Prerequisites: AECN 868

Description: Significant literature in selected fields of agricultural and resource economics to provide a broad background for conducting research in these fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 902

AECN 902 Research in Agricultural Economics

Prerequisites: Appropriate section of AECN 901

Description: Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 15

Format: LEC

AECN 902A Production Economics

Prerequisites: AECN 901A

Description: Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 902B Agricultural Industrial Organization

Prerequisites: AECN 901B.

Description: Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 902D International Agricultural Trade

Prerequisites: AECN 901C.

Description: Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AECN 902E Agricultural Development**Prerequisites:** AECN 901D.**Description:** Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AECN 902J Natural Resource Economics****Prerequisites:** AECN 901E.**Description:** Investigation of a research issue in a field of agricultural economics. Identification of an issue, discovery and interpretation of relevant research, rigorous development of an additional contribution to the resolution of the issue.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AECN 921 Seminar in International Trade and Finance****Crosslisted with:** ECON 921**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AECN 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Agricultural Engineering (AGEN)

AGEN 824 Machine Design in Agricultural Engineering**Crosslisted with:** AGEN 424**Prerequisites:** Senior standing; AGEN 324; and MECH 130**Description:** Design of machine elements. Definition, analysis, and solution of a design problem in agricultural engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**AGEN 836 Embedded Controls for Agricultural Applications****Crosslisted with:** AGEN 436, MSYM 436, MSYM 836**Prerequisites:** AGEN/BSEN 260 or MSYM 416**Description:** Introduction to the basics of embedded controller programming, and the development of Controller Area Network (CAN) bus systems in agricultural applications. Interfacing sensors with analog and digital signals, closed loop control of actuators, transmission and reception of CAN messages, programming of CAN messages in a distributed controller set up for sensor data acquisition, and actuator control will be studied.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**AGEN 841 Animal Waste Management****Crosslisted with:** AGEN 441, BSEN 441, BSEN 841**Prerequisites:** Senior standing.**Description:** Characterization of wastes from animal production.

Specification and design of collection, transport, storage, treatment, and land application systems. Air and water pollution, regulatory and management aspects.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 846 Unit Operations of Biological Processing****Crosslisted with:** BSEN 446, BSEN 846, AGEN 446**Prerequisites:** AGEN/BSEN 225; and AGEN/BSEN 344**Description:** Application of heat, mass, and moment transport in analysis and design of unit operations for biological and agricultural materials. Evaporation, drying, distillation, extraction, leaching, thermal processing, membrane separation, centrifugation, and filtration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** BSEN 935**AGEN 853 Irrigation and Drainage Systems Engineering****Crosslisted with:** AGEN 453, BSEN 453, BSEN 853**Prerequisites:** CIVE 310 or MECH 310; AGEN 344 or BSEN 344.**Description:** Analytical and design consideration of evapotranspiration, soil moisture, and water movement as related to irrigation and drainage systems; analysis and design of components of irrigation and drainage systems including water supplies, pumping plants, sprinkler systems, and center pivots.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 854, MSYM 854; AGEN 953

AGEN 854 Irrigation Laboratory and Field Course**Crosslisted with:** MSYM 854**Prerequisites:** AGEN 453/853, or MSYM 452/852**Notes:** Offered during the summer pre-session in even calendar years.**Description:** A laboratory and field course which emphasizes irrigation water supply and distribution systems. Laboratory topics include performance of surface, sprinkler, and drip irrigation systems; pipeline hydraulics; flow in streams, canals, and irrigation pipelines; irrigation pumping systems; irrigation well hydraulics; and soil water properties. The field trip includes visits to irrigation water supply and hydroelectric power projects; water resources agencies; irrigation field research sites; and manufacturers and installers of agricultural irrigation systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**Offered:** SUMMER**Prerequisite for:** AGEN 954**AGEN 860 Instrumentation and Controls****Crosslisted with:** AGEN 460, BSEN 460, BSEN 860**Prerequisites:** ELEC 211 or ELEC 215.**Description:** Analysis and design of instrumentation and controls for agricultural and biological production, management and processing. Theory of basic sensors and transducers, analog and digital electrical control circuits, and the interfacing of computers with instruments and controls. Emphasis on signal analysis and interpretation for improving system performance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 889 Seminar I****Crosslisted with:** BSEN 889**Description:** Introduction into departmental and campus resources, professionalism, preparation and delivery of presentations, technical writing, and additional topics as arranged by enrolled students.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGEN 892 Special Topics in Agricultural Engineering****Crosslisted with:** AGEN 492**Prerequisites:** Permission**Description:** Subject matter in emerging areas of Agricultural Engineering not covered in other courses within the curriculum. Topics, activities, and delivery methods vary.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**AGEN 896 Special Problems****Crosslisted with:** BSEN 896**Prerequisites:** Permission**Description:** Investigation and written report on engineering problems not covered in sufficient depth through existing courses. Topic varies by semester.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGEN 897 Masters Project****Crosslisted with:** BSEN 897, MSYM 897**Prerequisites:** Admission to M.S. in Agricultural and Biological Systems Engineering or M.S. in Mechanized Systems Management, and permission of major advisor**Notes:** Intended for students who are pursuing an Option II or III master's degree in Agricultural and Biological Systems Engineering, or Mechanized Systems Management.**Description:** Conception, design, development, and completion of a project that requires data collection, synthesis, analysis of results, and the development of a final written report that will be defended in the final oral examination.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGEN 898 Internship****Crosslisted with:** BSEN 898**Prerequisites:** Permission**Notes:** Students required to write an internship report of their creative accomplishments after completion of the internship. Students may spend up to nine months at the cooperating partner's workplace.**Description:** Solution of engineering or management problems through a non-academic experience within the private sector or a government agency. The experience entails all or some of the following: research, design, analysis, and testing on an engineering problem. A plan, which documents how the individual will demonstrate creativity during the internship must be approved prior to the internship.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**AGEN 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND

AGEN 923 Advanced Design in Agricultural Engineering**Prerequisites:** Agricultural engineering or permission**Description:** The use of theories of failure, fatigue, stress concentrations, shock and impact analysis in the design of machine members. Laboratory work includes an in-depth study of the testing and analysis of machine components.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 941 Agricultural Waste Management****Crosslisted with:** BSEN 941**Prerequisites:** Permission**Description:** Aerobic, anaerobic, and physical-chemical treatment, energy recovery and protein synthesis processes for high-strength organic materials; agricultural applications including composting, ammonia stripping, nitrification, denitrification, and land disposal of organic and chemically treated materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 953 Advanced Irrigation and Drainage Systems Engineering****Prerequisites:** AGEN 853, MATH 821**Description:** Advanced analytical considerations of environmental aspects of soil-plant systems; movement of water in soils; water movement through plants; and irrigation and drainage systems for controlling water in the soil-plant environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 954 Hydrologic Modeling of Small Watersheds****Prerequisites:** AGEN 854 and CIVE 822**Description:** Mathematical modeling of the runoff process for small rural and urban watersheds. Appraisal of techniques for estimating runoff volume and peak discharges for ungaged watersheds; hydrograph synthesis; composite hydrographs; and frequency relationships of rainfall and runoff.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**AGEN 955 Solute Movement in Soils****Crosslisted with:** AGRO 955, CIVE 955, GEOL 985**Prerequisites:** MATH 208; AGRO 861 or GEOL 888 or MSYM 852 or CIVE 858**Description:** Examination of the theory and experimental evidence available to characterize the movement of chemicals in soil. Both saturated and unsaturated flow conditions examined. Initial presentation of basic theoretical concepts. Remainder of class a discussion of the literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGEN 957 Modeling Vadose Zone Hydrology****Crosslisted with:** BSEN 957, CIVE 957, GEOL 957**Prerequisites:** MATH 221/821 or equivalent. AGEN/BSEN 350 or NRES 453/853 or equivalent.**Notes:** Typically offered spring semester in even years.**Description:** Principles and modeling of fluid flow and solute transport in the vadose zone. Topics include hydraulic properties of variably saturated media, application of Darcy's Law in variably saturated media, hydrologic and transport processes in the vadose zone, and solution of steady and unsteady flow problems using numerical techniques including finite element methods. Contemporary vadose zone models will be applied to engineering flow and transport problems. Review and synthesis of classic and contemporary research literature on vadose zone hydrology will be embedded in the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGEN 989 Seminar II****Crosslisted with:** BSEN 989**Description:** Developing a graduate program, orientation to research, grant and research proposal preparation, experimental design and analysis, manuscript preparation and review, preparations and delivery of technical presentations, and research management.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGEN 998 Advanced Topics****Crosslisted with:** BSEN 998**Prerequisites:** Permission**Description:** Individual study in advanced engineering topics that are not covered in regular course work or thesis. Topic varies by term.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGEN 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Agricultural Leadership Education & Communications (ALEC)

ALEC 800 Overview to Program Planning

Crosslisted with: ALEC 400

Prerequisites: ALEC 305 or ALEC/TEAC 805/NUTR 806.

Notes: Designed for individuals interested in developing and/or improving program planning skills.

Description: Theoretical and applied considerations for identifying content, design, implementation, and evaluation of educational programs that vary in length from several hours to several months.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 801 Theoretical Foundations of Leadership

Description: Major research thrusts in leadership field. Historical and contemporary research studies, surveying the literature, developing theory, and conceptualizing original research questions and problems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ALEC 433, ALEC 833; ALEC 802; ALEC 901

ALEC 802 Developing Leadership Capacity in Organizations and Communities

Prerequisites: ALEC 801 or equivalent

Description: Leadership capacity in individuals and organizations. Impact of leadership on organizational outcomes and means for diagnosing leadership developmental needs. Assessing, creating and implementing a comprehensive leadership development program for an organization or community.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 804 Problems of Beginning Agriscience Teachers

Description: Problems in instructional planning and methodology and in organizing secondary and continuing education, FFA, and agriculture experience programs.

Credit Hours: 2-5

Min credits per semester: 2

Max credits per semester: 5

Max credits per degree: 5

Format: LEC

ALEC 805 Advanced Teaching Strategies

Crosslisted with: NUTR 806, TEAC 805

Description: Contemporary and innovative teaching strategies, emphasizing learner-centered instruction, suitable to teaching in college and postsecondary institutions, outreach programs public schools, and other settings. Students participate in active learning as they apply learning theory in practice, prepare and demonstrate teaching methods, and plan for instruction in discipline areas of their choice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ALEC 400, ALEC 800; TEAC 905, ALEC 905

ALEC 807 Supervisory Leadership

Crosslisted with: ALEC 407, CYAF 807

Prerequisites: ALEC 302

Description: Knowledge and theoretical basis for practicing supervisors in a changing workplace where supervisors have increasing responsibilities due to the flattening or organizational structures, solving supervisory challenges in organizing and planning, problem solving and decision making, performance appraisal and leading a diverse workforce.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 809 Diffusion of Innovations: Through an Extension Context

Description: A change agent influences innovative decisions in a direction deemed desirable by a business, agency, or organization. Overview of key characteristics of change agents as well as processes by which they influence the introduction, adoption, and diffusion of technological changes in society. Prepares those who are responsible for bringing about change in their community and within the Extension system.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

ALEC 810 Environmental Leadership

Crosslisted with: ALEC 410, NRES 413, NRES 813

Prerequisites: Junior standing.

Notes: Offered on the World Wide Web (WWW) fall semester of odd-numbered years and in the classroom fall semester of even numbered-years.

Description: Major leaders in conservation and ecology that emphasizes agricultural and cultural issues and relationships with the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 812 Multimedia Applications for Education and Training

Crosslisted with: ALEC 412, NUTR 812

Description: Practical applications in developing and evaluating multimedia resources for students. Surveys new applications, creates and develops various instructional materials, and reviews current practice against relevant theory. Use current software packages to develop materials for various audiences.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 814 Classic Figures in Leadership

Crosslisted with: ALEC 414

Description: Leadership theory in an applied context. Leadership analyzed through a variety of genres: autobiography, drama, fiction, tracts and treaties, speeches.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 816 Management Strategies in Distance Education Environments

Description: Management strategies for a variety of distance education situations. Planning, organization, motivation, and control provide a framework for analyzing distance education in formal and non-formal, large and small, private and public, and established and emerging organizations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 818 Community Engagement

Crosslisted with: CDEV 818

Description: A foundational knowledge of community engagement. This will include understanding a community's readiness to change; strategies to engage community's members and strategies to determine goals and indicators to achieve change. Participants will review and critique various community engagement and readiness processes, gaining an understanding of approaches advantages and limitations. Through case studies, experiential learning and discussions, participants will develop a skillset for community engagement processes that lead to long term change.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

ALEC 820 Improvement of Instructional Programs for Post-High-School Occupational Education

Crosslisted with: ALEC 200

Description: Designing new instructional programs, expanding the impact of student behavioral objectives, and evaluating the total instructional program.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 824 Foundation of Career and Technical Education

Crosslisted with: ALEC 424

Description: Scope and structure of career and technical education within the educational system. Teacher's role and responsibilities in dealing with legislative mandates in planning, management, and evaluation of a local program.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 826 Program Evaluation

Notes: ALEC 833 recommended

Description: Builds upon program development in extension programming and provides a basic overview of program evaluation principles and methods. Applies program evaluation principles in extension education.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 828 Leadership in Public Organizations

Crosslisted with: ALEC 428, NRES 428, NRES 828

Prerequisites: Junior standing.

Description: Leadership in theories, research, and practices in public organizations and natural resource agencies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 830 Introduction to the Development of Distance Education Courses

Crosslisted with: ENTO 830

Description: Introduction to practical aspects of developing and facilitating distance education courses. Create and facilitate interaction, assessments, course delivery, assignments, course etiquette and ADA compliance. Develop a distance course module grounded in distance education theory and instructional design principles.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 833 Dynamics of Effective Leadership in Groups & Teams

Crosslisted with: ALEC 433

Prerequisites: ALEC 801 or parallel

Description: This course will cover the foundational knowledge of team and group dynamics theory and its relationship to the practice of leadership in organizations and communities. Development of leadership, followership, and teamwork skills in small groups and teams. Focus on team and group decision making, problem solving, and creativity, peer assessment, and evaluation using real-world situations and contexts. Critically apply team and group dynamic theories and research to leadership in organizations and communities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 845 Research in Leadership Education

Crosslisted with: CYAF 845

Description: Steps in preparing a research proposal, including statement of the research question, review of relevant literature, and determination of an appropriate research design and methodology. Research methodology, including both quantitative and qualitative procedures.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 866 Leadership and Diversity in Organizations and Communities

Crosslisted with: ALEC 466

Prerequisites: Junior standing.

Description: Leadership theories and their applications to human diversity in organizations and communities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 877 Leadership and Motivation**Crosslisted with:** ALEC 477**Description:** Classic and contemporary motivation theories applied to leadership in organizations and communities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ALEC 888 Leadership, Power and Influence****Crosslisted with:** ALEC 488**Description:** Organizational influence processes, power, and politics in organizations and communities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ALEC 890 Workshop Seminar****Prerequisites:** Permission**Description:** Work, singly or in groups, on practical educational problems, done under the supervision of staff with assistance of selected educational consultants.**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**ALEC 893 Technical Agricultural Workshop****Prerequisites:** Permission**Description:** Group study of technology in agricultural occupations. Workshops, special meetings, and assignments.**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**ALEC 896 Independent Study in Leadership Education****Crosslisted with:** ALEC 496**Prerequisites:** Permission.**Description:** Projects to research, literature review, or extension of course work.**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** IND**ALEC 897 Special Topics****Description:** Readings, in-depth discussions and analysis of current theory, issues and problems, research and practice in leadership education and/or communication. Offered to address emerging topics not covered in other courses.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ALEC 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ALEC 901 Leading Change in Rural America and Beyond****Prerequisites:** ALEC 801, 18 hours graduate credit, or permission**Description:** Skills in leading change in the 21st Century in rural communities and organizations. Strategies for planning, organizing, and institutionalizing change. Develop a change plan for a community or organization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ALEC 903 Teacher Education in Agriscience****Description:** Preparation of agriscience teachers to supervise and mentor student teachers, evaluate/coach performance, and instructional delivery.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ALEC 904 Seminar in Leadership Studies****Description:** Ideas, theories, and practices on recent and emerging leadership research themes.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ALEC 905 Practicum in Postsecondary Teaching****Crosslisted with:** TEAC 905**Prerequisites:** ALEC 805 or permission**Description:** Work with a faculty mentor in a discipline of choice and an instructional supervisor to prepare instruction and teach students in a postsecondary setting. Practicum students are assisted in arranging for the practicum and are provided consultation and feedback during the practicum. Lesson planning and reflective papers are part of the practicum experience.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 1**Format:** FLD**ALEC 906 Theoretical Foundations of Distance Education****Notes:** ALEC 806 recommended**Description:** Major theoretical concepts and research finding of distance education, as broadly conceived. Emphasis on analyzing and deconstruction of major ideas influencing distance education in formal and non-formal settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ALEC 908 Organization of the Agricultural Mechanics Program

Description: Philosophy, objectives, procedures, and techniques used in organizing the program of agricultural mechanics instruction for secondary and post-high school students and adults. Determining units of instruction, evaluating student effort, procedures in shop instruction, selection of equipment, and integration into the vocational agriculture program.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 910 Leadership in Cross-cultural Systems

Notes: ALEC 801 recommended

Description: Issues of leading people in the global marketplace. Focus on understanding the impact of cultural differences, comparing and contrasting domestic and multinational leadership challenges, and review of current multinational leadership.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 913 Program Development in Occupational Education

Description: Philosophy and objectives of occupational education. Techniques of program development, choosing instructional areas, determining sequences, planning time distributions, integrated course of study and meeting individual needs, youth activities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ALEC 914 Leadership and Personality

Description: Personality type and its implications for personal, team, and organizational leadership effectiveness.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

ALEC 995 Doctoral Seminar in Leadership Studies

Prerequisites: Permission

Description: Outcome-based scholarly activity approved in consultation with doctoral advisor. While working on either an individualized or small group basis, develop, execute, and report one or more projects addressing the interaction between research and practice in the field of leadership.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 18

Format: IND

ALEC 996 Research Other Than Thesis

Prerequisites: Permission.

Description: Research in selected problems in leadership education.

Credit Hours: 2-6

Min credits per semester: 2

Max credits per semester: 6

Max credits per degree: 6

Format: IND

ALEC 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Agricultural Sciences (AGRI)

AGRI 810 Research Strategies in Agriculture

Description: Practical topics related to the planning, organization, administration, financing and reporting of research in agriculture.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AGRI 828 Scientific Illustration

Crosslisted with: ENTO 828, AGRO 828, HORT 828

Prerequisites: 12 hrs agricultural and/or biological sciences.

Description: Prepare scientifically accurate, high quality illustrations and graphics for the teaching, presentation, and publication of scientific information. Drawing techniques, drafting, copyright, and publication and presentation of scientific art work.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AGRI 862 Invasive Pests and International Trade

Crosslisted with: AGRI 462

Notes: Offered fully online.

Description: Examination of the global issue of the impact of invasive pests on international trade, food production, and ability to feed increasing populations in the future. Focus on how local changes have biological, economic and social consequences at the global level and impact sustainability. Covers pest introductions and pathways, impact on global agriculture and trade, principles and practices in agricultural pest risk analysis and international cooperation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AGRI 888 Teaching Undergraduate Science

Crosslisted with: AGRI 488, SCIL 488, SCIL 888

Description: The dynamics of undergraduate student learning. Begin to develop the reflective practice of progressive instructional improvement. Interpreting improved educational outcomes in terms of the ability of the instructor to manipulate undergraduate student interactions with instructional materials in an active learning environment.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Offered: FALL

AGRI 896 Independent Study in Agricultural Sciences**Crosslisted with:** AGRI 496**Prerequisites:** Advanced approval of the plan of work and permission.**Description:** Individual or group projects in activities such as research, literature review, extension of course work, or preparation of teaching materials.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 12**Format:** IND**AGRI 897 Master of Applied Science Project****Crosslisted with:** AGRO 897, HORT 897, NRES 897**Prerequisites:** Admission to Master of Applied Science degree program**Notes:** Project activity for the Master of Applied Science degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGRI 899 Master of Applied Science Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Description:** Thesis in support of candidate for a Master of Applied Science degree.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 10**Format:** LEC

Agronomy (AGRO)

AGRO 801 Biology of Plant Pathogens**Crosslisted with:** PLPT 801, HORT 801**Prerequisites:** PLPT 369 or equivalent; an introduction to biochemistry course**Description:** Molecular and cellular approach to the study of plant pathological principles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PLPT 866; PLPT 965, AGRO 965, HORT 965**AGRO 802 Ecology and Management of Plant Pathogens****Crosslisted with:** PLPT 802, HORT 802**Prerequisites:** PLPT 369 or equivalent; an introduction to biochemistry course**Description:** Principles of plant disease epidemiology and disease control through cultural, biological, chemical and host plant resistance strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PLPT 866; PLPT 965, AGRO 965, HORT 965**AGRO 803 Scientific Writing and Communication****Crosslisted with:** AGRO 403, HORT 403, HORT 803**Prerequisites:** Senior standing or higher, an ACE 1 written communication course, an ACE 2 oral communication course, and permission of instructor.**Description:** Reading and critiquing, writing, and presenting scientific information. Use research data to compose a manuscript in standard scientific format, and prepare and present a poster to a general audience. Ethical issues in research and writing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 806 Plant Ecophysiology: Theory and Practice****Crosslisted with:** HORT 406, HORT 806, NRES 406, NRES 806, AGRO 406**Prerequisites:** Junior standing; 4 hrs ecology; and 4 hrs botany or plant physiology.**Description:** Principles of plant physiology which underlie the relationship between plants and their physical, chemical and biotic environments. An introduction to the ecological niche, limiting factors and adaptation. An overview of the seed germination and ecology, plant and soil water relations, nutrients, plant energy budgets, photosynthesis, carbon balance and plant-animal interactions. An introduction to various field equipment used in ecophysiological studies.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**AGRO 807 Plant-Water Relations****Crosslisted with:** NRES 807**Prerequisites:** AGRO 325 or equivalent; MATH 106 recommended**Description:** Quantitative study of water relations in the soil-plant-atmosphere system. Basic physical processes, which describe the movement of water in the soil and the atmosphere, and the physiological processes, which describe water movement inside of the plant. Stomata physiology and the effects of internal water deficits on photosynthesis, respiration, nitrogen metabolism, cell division and cell enlargement. Results from integrative models used to study the relative importance of environmental versus physiological factors for several plant-environment systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

AGRO 808 Microclimate: The Biological Environment

Crosslisted with: AGRO 408, GEOG 408, HORT 408, METR 408, NRES 408, WATS 408, GEOG 808, HORT 808, METR 808, NRES 808

Prerequisites: Junior standing, MATH 106 or equivalent, 5 hrs physics, major in any of the physical or biological sciences or engineering.

Description: Physical factors that create the biological environment. Radiation and energy balances of earth's surfaces, terrestrial and marine. Temperature, humidity, and wind regimes near the surface. Control of the physical environment through irrigation, windbreaks, frost protection, manipulation of light, and radiation. Applications to air pollution research. Instruments for measuring environmental conditions and remote sensing of the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGRO 907, HORT 907, METR 907, NRES 907; BSEN 954, NRES 954

Groups: Physical Geography

AGRO 809A Case studies in plant breeding: Breeding for Disease Resistance

Crosslisted with: AGRO 409A, HORT 409A, HORT 809A

Description: The application of fundamental genetics principles in inheritance, gene mapping and DNA analysis to decision making by plant breeders with the goal of improving disease resistance in crop cultivars. Learning is structured by the genetics discovery story told in published research articles and the thinking process of plant breeders who will use these discoveries in their work.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AGRO 809B Case Studies in plant breeding: Transgenic strategies for disease resistance

Crosslisted with: AGRO 409B, HORT 409B, HORT 809B

Description: The application of basic science and technology by plant genetic engineering experts with the goal of teaming with plant breeders to improve disease resistance in crop cultivars. Learning is structured by the genetics discovery story told in published research articles and the thinking process of genetic engineers and plant breeders who will use these discoveries in their work.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AGRO 810 Plant Molecular Biology

Crosslisted with: BIOC 810, HORT 810

Prerequisites: AGRO 215 or BIOS 206; BIOC 831

Description: Molecular genetic basis of biological function in higher plants. Genome organization, gene structure and function, regulation of gene expression, recombinant DNA, and genetic engineering principles. Material taken primarily from current literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

AGRO 811 Crop Genetic Engineering

Crosslisted with: AGRO 411

Description: Basic steps required to produce genetically engineered crops. Genetic engineering procedures used to develop current crops and innovations that will lead to future products. Genetic engineering process and predicting how changes in different steps of the process influence the final crop. Application of genetic engineering technology to plan the development of new genetically engineered crops.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

AGRO 812 Crop and Weed Genetics

Crosslisted with: AGRO 412

Notes: A previous class in Genetics is highly recommended.

Description: Application of classical and molecular genetic principles to the explanation of variation observed in plant families and populations. Interpretation of information gathered from whole plant trait observation and from molecular analysis. Relationships between crops and weeds. Examples from genetic studies on both crop and weed species are the basis of course.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Offered: SPRING

AGRO 813 Turfgrass and Landscape Weed Management

Crosslisted with: HORT 813, TLMT 813

Description: Fundamental terminology associated with turfgrass and landscape weed management. Weed identification and the cultural practices and herbicide strategies to limit weed invasion and persistence.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AGRO 814 Turfgrass Disease Management

Crosslisted with: AGRO 414, HORT 414, HORT 814, PLPT 414, PLPT 814, TLMT 414, TLMT 814

Prerequisites: BIOS/PLPT 369 or one semester of introductory plant pathology.

Description: Pathogens, epidemiology, and control of diseases specific to turfgrass.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AGRO 815A Self-pollinated Crop Breeding

Crosslisted with: ENTO 815A

Prerequisites: AGRO 215

Description: Self-pollinated plant breeding theory and methods. Pedigree, bulk, single seed descent, back-crossing methods and inbreeding theory.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Prerequisite for: AGRO 816B; AGRO 816E

AGRO 815B Germplasm and Genes**Crosslisted with:** ENTO 815B**Prerequisites:** AGRO 215**Description:** Obtaining germplasm and genes from cultivated plants, wild relatives of cultivated plants, and the biosphere. Origination of crops, mutation genetics, biotechnology as a source of genes, chromosomal engineering and plant reproduction.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** AGRO 816B; AGRO 816E**AGRO 815D Cross-pollinated Crop Breeding****Crosslisted with:** ENTO 815D**Prerequisites:** AGRO 215**Description:** Cross-pollinated breeding theory and methods. Genes in populations, recurrent selection methods, creating populations, hybrid production practices, and population improvement theory.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** AGRO 816B; AGRO 816E**AGRO 816A Heterosis****Description:** Classical concepts of heterosis; genetic hypotheses for hybrid vigor; quantitative genetics of heterosis; new tools to study hybrid vigor, structure and function; organization of germplasm into heterotic groups; prediction of heterosis and hybrid performance; mechanisms for making hybrid seed; and breeding methods/concepts for developing hybrids in plants.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 816B Haploids and Doubled Haploids in Plant Breeding****Prerequisites:** AGRO 815A, B, and D**Description:** Variations in chromosome number, biology and technology of haploids/doubled haploids in higher plants, microspore embryogenesis, wide hybridizations, in vivo maize parthenogenesis-type, and radiation systems. Use of haploids in genetics research, DH systems in self-pollinated, cross-pollinated, and hybrid crop breeding.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 816E Genotype by Environment Interaction****Prerequisites:** AGRO 815A, B, and D, STAT 801A, 802 or equivalent course work**Description:** Types and causes of phenotype instability due to impacts of environmental factors. Topics include adaptation, impacts of G x E on selection and testing, selection of evaluation environments. Statistical concepts to describe/model interactions, breeding for reliability across unpredictable environments, precision phenotyping, selection for specific stresses, use of QTL's for abiotic and biotic stress stability.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**AGRO 817 Plant Pathology Principles and Application****Crosslisted with:** PLPT 817, HORT 817**Prerequisites:** 12 hours of prior coursework in the plant sciences**Description:** Introduction to the biology of plant pathogenic organisms; pathogen-plant interactions; environmental influences; cultural, resistance, and chemical strategies for plant disease management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 818 Agricultural Biochemistry****Crosslisted with:** BIOC 818**Prerequisites:** Undergraduate major in life sciences or related area, and a course in biochemistry**Description:** A Web-based course. Biochemical underpinnings of agricultural production and processing systems. Agricultural biotechnology; bioenergetics; kinetics and enzyme regulation; interaction of biomolecules with light, photosynthesis and the balance between anabolism and catabolism in microbes, plants and animals.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** IND**Prerequisite for:** VBMS 919**AGRO 819 Applications of Remote Sensing in Agriculture and Natural Resources****Crosslisted with:** AGRO 419, GEOG 419, GEOL 419, NRES 420, GEOG 819, GEOL 819, NRES 820**Notes:** GEOG 418/NRES 418 recommended**Description:** Introduction to the practical uses of remote electromagnetic sensing in dealing with agricultural and water-resources issues.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Techniques**AGRO 820 Bioinformatics Applications in Agriculture****Crosslisted with:** AGRO 420**Prerequisites:** AGRO 215 Genetics or equivalent. Undergraduate students must be at the senior class level standing.**Description:** Introduction to applied computational methods to analyze biological data, efficiently manipulate large data sets, and automate workflows using Perl and Shell scripting. Learn strategies for assembling and analyzing data generated by modern high throughput sequencing platforms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**AGRO 821 Learning Biotechnology****Crosslisted with:** HORT 821**Description:** Investigate biotechnology and its application in solving problems and connect biotechnology to basic science concepts in biology and chemistry. Integrate individually-designed biotechnology lessons into learning standards.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AGRO 822 Integrated Weed Management**Crosslisted with:** HORT 822**Prerequisites:** 12 hrs AGRO and/or closely related HORT and/or BIOS**Description:** Principles and application of (IWM). Noxious and invasive weed species. Crops and weed control. Plant population shifts. Use of herbicides and the biologically effective dose. Critical period of weed control and weed threshold. Herbicide tolerant crops.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 824 Plant Nutrition and Nutrient Management****Crosslisted with:** HORT 824**Prerequisites:** AGRO 325 or basic course in plant physiology. A course in organic chemistry or biochemistry recommended**Notes:** Offered spring semesters.**Description:** Macro and micro nutrient elements and their function in the growth and development of plants. Role of single elements. Interaction and/or balances between elements and nutrient deficiency and/or toxicity symptoms as they affect the physiology of the whole plant. Relationship between crop nutrition and production and/or environmental considerations (e.g. yield, drought, temperature, pests).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 826 Invasive Plants****Crosslisted with:** AGRO 426, HORT 426, HORT 826, NRES 426, NRES 826**Prerequisites:** AGRO/HORT/SOIL 153; AGRO/HORT 131**Description:** Identification, biology and ecology of weedy and invasive plants. Principles of invasive plant management by preventative, cultural, biological, mechanical and chemical means using an adaptive management framework. Herbicide terminology and classification, plant-herbicide and soil-herbicide interactions, equipment calibration and dosage calculations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGRO 827 Turfgrass Systems Management****Crosslisted with:** AGRO 427, HORT 427, TLMT 427, HORT 827, TLMT 827**Prerequisites:** TLMT 227 and TLMT 327**Description:** Critical evaluation of turfgrass settings to create economical and environmentally friendly management systems for professionally managed turf areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 828 Scientific Illustration****Crosslisted with:** ENTO 828, AGRI 828, HORT 828**Prerequisites:** 12 hrs agricultural and/or biological sciences.**Description:** Prepare scientifically accurate, high quality illustrations and graphics for the teaching, presentation, and publication of scientific information. Drawing techniques, drafting, copyright, and publication and presentation of scientific art work.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 829A Food Security: A Global Perspective****Crosslisted with:** ANTH 429A, ANTH 829A, AGRO 429A, HORT 429A, HORT 829A, NRES 429A, NRES 829A, NUTR 429A, NUTR 829A**Prerequisites:** Junior standing**Description:** Overview of the technical and sociocultural dimensions of global food insecurity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 831 Spatial Variability in Soils****Prerequisites:** AGRO/SOIL 366 and STAT 801.**Notes:** Offered spring semester of even-numbered years.**Description:** Basic concepts of soil variability, its underlying causes. The impact spatial variability has on soil management, primarily for crop production. Geographic and geo-statistical concepts. Use of spatial information for more profitable crop production.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**AGRO 832 Learning Plant Science****Crosslisted with:** HORT 832**Description:** The biology of plants grown for food, fiber, fuel and fun. Connect applied plant science to basic science concepts in biology and chemistry. Integrate individually-designed plant science lessons into learning standards.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 834 Plant Biochemistry****Crosslisted with:** AGRO 434, BIOC 434, BIOS 434, CHEM 434, BIOC 834, BIOS 834, CHEM 834**Prerequisites:** BIOC/BIOS/CHEM 431/831.**Description:** Biochemical metabolism unique to plants. Relationships of topics previously acquired in general biochemistry to biochemical processes unique to plants. Biochemical mechanisms behind physiological processes discussed in plant or crop physiology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AGRO 835 Agroecology**Crosslisted with:** AGRO 435, HORT 435, NRES 435, NRES 835**Prerequisites:** For AGRO/HORT/NRES 435: Senior standing. For AGRO/NRES 835: 12 hrs biological or agricultural sciences.**Description:** Integration of principles of ecology, plant and animal sciences, crop protection, and rural landscape planning and management for sustainable agriculture. Includes natural and cultivated ecosystems, population and community ecology, nutrient cycling, pest management, hydrologic cycles, cropping and grazing systems, landscape ecology, biodiversity, and socioeconomic evaluation of systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 836 Agroecosystems Analysis****Crosslisted with:** AGRO 436, HORT 436, HORT 836**Prerequisites:** Senior standing.**Notes:** Cost of travel required. Summer travel course with multi-state faculty. Farm visits to Iowa, Minnesota and Nebraska.**Description:** Analysis of production, economics, environmental impacts, and social integration aspects of farms and farming systems**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**AGRO 837 Animal, Food and Industrial Uses of Grain****Crosslisted with:** AGRO 437**Prerequisites:** CHEM 105 or 109, and one of the following: AGRO 204 or ASCI 250.**Description:** Identification and comparison of grain quality characteristics desired by livestock feeders, human food processors and industrial users, and methods used to measure these characteristics.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**AGRO 838 Producing Grain for Animal, Food and Industrial Uses****Crosslisted with:** AGRO 438**Prerequisites:** CHEM 109 and one of the following: AGRO 204 or ASCI 250.**Notes:** AGRO 215 and 437/837 recommended.**Description:** Genetic development, production practices, and grain handling and storage procedures to deliver quality grain to livestock feeders, human food processors and industrial uses.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 839 Organic Farming and Food Systems****Crosslisted with:** AGRO 439, HORT 439, HORT 839**Prerequisites:** Admission to the MS or PhD program**Description:** History of organic farming and horticultural systems, organic certification, nutrient and pest management in organic systems, planning organic enterprises including production and marketing, resilience of organic systems in ecological, economic, and social terms; future issues and potentials of organic food systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 840 Great Plains Ecosystem****Crosslisted with:** AGRO 440, NRES 840, RNGE 440, NRES 440, GRAS 440**Prerequisites:** Junior standing.**Notes:** BIOS 101 and 101L, or equivalent, recommended.**Description:** Characteristics of Great Plains ecosystems, interrelationships of ecological factors and processes, and their application in the management of grasslands. Interactions of fire, vegetation, grazing animals and wildlife.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGRO 841 Perennial Plant Function, Growth, and Development****Crosslisted with:** AGRO 441, HORT 441, HORT 841, RNGE 441, GRAS 441**Prerequisites:** AGRO 325 or equivalent.**Description:** Principles of crop physiology and developmental morphology in relation to function, growth, development, and survival of perennial forage, range, and turf plants. The relationship of physiology and morphological development on plant use and management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGRO 842 Wildland Plants****Crosslisted with:** AGRO 442, NRES 842, RNGE 442, NRES 442, GRAS 442**Prerequisites:** Junior standing.**Notes:** BIOS 101 and 101L, or equivalent, recommended.**Description:** Wildland plants that are important to grassland and shrubland ecosystem management and production. Distribution, utilization, classification, identification (including identification by vegetative parts), uses by Native Americans, and recognition of grasses, forbs, shrubs, exotic and wetland plants.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**AGRO 843 Ecology of Invasive Species****Description:** Ecological principles and their application to invasive species. Discussion of population level characteristics and community and ecosystem level effects of a wide variety of taxa including invasive microbial, fungal, plant, invertebrate, and vertebrate examples. Current global consequences and governmental policies/programs designed to limit the spread of invasives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AGRO 844 Ecosystem Monitoring and Assessment**Crosslisted with:** AGRO 444, NRES 844, RNGE 444, NRES 444, GRAS 444**Prerequisites:** Junior standing.**Notes:** NRES 220 or equivalent, recommended.**Description:** Measurement and monitoring of the important vegetation and environmental factors used to develop management guidelines in grasslands, savannas, woodlands, and wetlands. Emphasis on using ecosystem monitoring protocols for assessment of wildlife habitat, fuels management for wild-land fire, livestock production, and watershed function. Requires field sampling and travel to local field sites.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**AGRO 845 Livestock Management on Range and Pasture****Crosslisted with:** AGRO 445, ASCI 451, ASCI 851, RNGE 445**Prerequisites:** ASCI 250 and AGRO 240 or 340; AECN 201 recommended.**Notes:** AECN 201 recommended.**Description:** Analyzing the plant and animal resources and economic aspects of pasturage. Management of pasture and range for continued high production emphasized.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 846 Forage Quality****Crosslisted with:** ASCI 824**Prerequisites:** AGRO/RNGE 240 and ASCI 320, or equivalents; 3 cr hrs of introductory statistics; and permission**Description:** The chemical characteristics of forage components. The interactions with ruminant physiology and digestion that influence forage feeding value. The laboratory procedures used to evaluate forages for grazing livestock.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**AGRO 847 Grassland Fire Ecology****Prerequisites:** BIOS 101 and 101L, or equivalent, recommended**Description:** Ecological effects of fire on grassland ecosystems. Insight into the history of fires, the people who use them and why, the parts of a fire, how fires behave in relation to fuel and weather, and the conducting and safety of prescribed burns**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 848 Grassland Monitoring and Assessment****Prerequisites:** BIOS 101 and 101L; and AGRO 240, or their equivalents, recommended.**Description:** Vegetation sampling theory and plot selection. Quantitative measures used in vegetation analysis, root growth, and utilization. Similarity index, health, and trend for grassland monitoring and assessment. Use of basic statistics and the microcomputer to analyze data sets comparing methods for determination of biomass, basal cover, frequency, and density.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**AGRO 849 Watershed Management in Grasslands****Prerequisites:** BIOS 101 and 101L; NRES 220; and AGRO 240, or their equivalents, recommended**Description:** Management of physical/biological settings and processes along with human activities on water and watersheds considering preventative and restorative strategies in a natural resource range-land setting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 850 Climate and Society****Crosslisted with:** AGRO 450, GEOG 450, METR 450, NRES 452, GEOG 850, METR 850, NRES 852**Prerequisites:** Junior standing or above.**Notes:** Offered spring semester of even-numbered calendar years.**Description:** Impact of climate and extreme climatic events on society and societal responses to those events. Global in scope and interdisciplinary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Groups:** Physical Geography**AGRO 851 Grassland Plant Identification****Prerequisites:** BIOS 101 and 101L; and AGRO 240, or their equivalents, recommended**Description:** Study of plants that have ecological and/or agricultural importance in the Great Plains. Plant identification, grassland ecosystems and plants forage value, palatability, and utilization by both domestic livestock and wildlife. Cultural and historical uses of grassland.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**AGRO 852 Grazing Ecology and Management****Description:** This course discusses the ecological principles of domesticated livestock grazing and their application to manage grazing lands. Theoretical and applied models of plant/animals interactions will be presented. Grazing systems and their management of ecosystem services will be presented as balance between production and conservation outcomes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AGRO 855 Soil Chemistry and Mineralogy**Crosslisted with:** AGRO 455, NRES 455, NRES 855, SOIL 455**Prerequisites:** AGRO/HORT/SOIL 153 or GEOL 101; CHEM 109 and 110; CHEM 221 or 251; or equivalent.**Description:** Chemical and mineralogical properties of soil components. Inorganic colloidal fraction. Structures of soil minerals as a means of understanding properties, such as ion exchange and equilibria; release and supply of nutrient and toxic materials; and soil acidity and alkalinity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 858 Soil Physical Determinations****Crosslisted with:** AGRO 458, NRES 458, NRES 858, SOIL 458**Prerequisites:** SOIL/AGRO/GEOL/WATS 361; PHYS 141 or equivalent; MATH 102 or 103.**Description:** Survey of measurement techniques and principles used in characterizing the physical properties of soils. Includes analysis of experimental design and sources of experimental error. Techniques include: particle size analysis, soil water content, pore size analysis, field sampling techniques, soil strength, and saturated hydraulic conductivity.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LAB**AGRO 860 Soil Microbiology****Crosslisted with:** AGRO 460, BIOS 460, NRES 460, SOIL 460, BIOS 860, NRES 860**Prerequisites:** One semester microbiology; one semester biochemistry or organic chemistry.**Description:** Soil from a microbe's perspective-growth, activity and survival strategies; principles governing methods to study microorganisms and biochemical processes in soil; mechanisms controlling organic matter cycling and stabilization with reference to C, N, S, and P; microbial interactions with plants and animals; and agronomic and environmental applications of soil microorganisms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGRO 861 Soil Physics****Crosslisted with:** AGRO 461, GEOL 461, NRES 461, SOIL 461, WATS 461, GEOL 861, NRES 861**Prerequisites:** AGRO/SOIL 153; PHYS 141 or equivalent, one semester of calculus.**Description:** Principles of soil physics. Movement of water, air, heat, and solutes in soils. Water retention and movement, including infiltration and field water regime. Movement of chemicals in soils.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 955, AGRO 955, CIVE 955, GEOL 985**AGRO 869 Bio-Atmospheric Instrumentation****Crosslisted with:** AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, GEOG 869, HORT 807, METR 869, MSYM 869, NRES 869**Prerequisites:** Junior standing; MATH 106; 4 hrs physics; physical or biological science major.**Description:** Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Physical Geography**AGRO 872 Applied Soil Physics****Crosslisted with:** AGRO 472, NRES 472, NRES 872, SOIL 472, WATS 472**Prerequisites:** AGRO/HORT/SOIL 153 or equivalent; MATH 104 or MATH 106 or equivalent.**Description:** Emphasis on applied soil physics. Discussion of theoretical principles followed by field and laboratory exercises and applications. Fluxes of water, solutes, air, and heat through the soil. Emphasis on water infiltration, water retention, other soil hydraulic properties. Components of soil water balance. Management of soil water.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 475, MSYM 875, POLS 475, POLS 875**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**AGRO 878 Plant Anatomy****Crosslisted with:** BIOS 478, BIOS 878, AGRO 478, HORT 478, HORT 878**Prerequisites:** 8 hrs biological sciences**Notes:** BIOS 109 recommended.**Description:** Development, structure, and function of tissues and organs of the higher plants. Relationships of structure to physiology and ecology of plants.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOS 879

AGRO 880 Modified Rootzones**Crosslisted with:** AGRO 480, HORT 480, TLMT 480, TLMT 880, HORT 880**Notes:** Offered as a five-week course.**Description:** Modified rootzones and their applications in the turfgrass and landscape management industry. Correct applications and construction techniques.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 884 Water Resources Seminar****Crosslisted with:** AGRO 484, GEOG 484, GEOL 484, NRES 484, WATS 484, NRES 884, GEOG 884, GEOL 884, WATS 884**Prerequisites:** Junior or above standing**Description:** Seminar on current water resources research and issues in Nebraska and the region.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**AGRO 888 Entrepreneurship and Enterprise Development****Crosslisted with:** HORT 488, HORT 888, EAEP 488, AGRO 488, ENTR 488, EAEP 888, ENTR 888, ABUS 488**Description:** The process of starting your own enterprise. Competitive environment, risk management, finance for business startups, funding, and business plan writing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**AGRO 889 Urbanization of Rural Landscapes****Crosslisted with:** AGRO 489, CRPL 489, HORT 489, HORT 889, CRPL 889**Prerequisites:** Senior standing or graduate standing.**Description:** Development converts rural landscapes into housing, roads, malls, parks, and commercial uses. This process fragments landscapes and changes ecosystem functions, drives up land prices, and pushes agriculture into more marginal areas. This multi-disciplinary, experiential course guides students in learning about the urbanization process, the impacts on landscapes, people, and the community, and the choices that are available to informed citizens.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 894 Graduate Degree Project Credits****Crosslisted with:** HORT 894**Prerequisites:** Admission to Master of Agronomy or Horticulture degree program**Notes:** Project activity for the nonthesis option II MS degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGRO 896 Independent Study****Crosslisted with:** AGRO 496, RNGE 496, SOIL 496**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** IND**AGRO 897 Master of Applied Science Project****Crosslisted with:** AGRI 897, HORT 897, NRES 897**Prerequisites:** Admission to Master of Applied Science degree program**Notes:** Project activity for the Master of Applied Science degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**AGRO 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser.**Notes:** P/N only.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**AGRO 906 Crop Growth and Yield Modeling****Crosslisted with:** NRES 906**Prerequisites:** AGRO 325/HORT 325 Introductory Plant Physiology or equivalent**Notes:** Recommended: AGRO 406/806 NRES 406/806 HORT 406/806 Plant Ecophysiology or equivalent.**Description:** Understanding and use of crop simulation models and ability to build crop models. Studying principles and quantitative descriptions of crop production ecology. Offered fall semester of odd-numbered calendar years.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 907 Agricultural Climatology****Crosslisted with:** HORT 907, METR 907, NRES 907**Prerequisites:** NRES 808; STAT 801A or equivalent**Description:** Offered spring semester of odd-numbered calendar years.

Analysis and use of climatological data as applied to agricultural activities and the use of climatological information to assist in decision making.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

AGRO 919 Plant Genetics**Crosslisted with:** HORT 919**Prerequisites:** AGRO 215

Description: Focus student learning on principles related to mendelian, population, and molecular genetics of plants including allelisms, nonallelic gene interaction, linkage and recombination, mode of inheritance, mutation, epigenetics, DNA-based makers and mapping techniques, inheritance of qualitative and quantitative traits, and plant transformation.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 920 Xenobiotics in the Environment****Crosslisted with:** ENTO 920, EOHT 920, HORT 920, NRES 920

Prerequisites: Recommend one course each in organic chemistry, soil science, biochemistry, plant physiology, microbiology and ecology

Description: Fate and ecotoxicological impacts of biologically foreign compounds in soil-water-plant environments; uptake, mechanisms of toxicity and metabolism in plants and other biota. Herbicides and other pesticides.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 931 Population Genetics****Crosslisted with:** ASCI 931, HORT 931**Prerequisites:** AGRO 215 and STAT 801A

Description: Structure of populations, forces affecting gene frequency and frequency of genotypes, continuous variation, population values and means, genotypic and environmental variances and covariances.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** AGRO 932, STAT 847; ASCI 932; ASCI 933; ASCI 944, STAT 844**AGRO 932 Biometrical Genetics and Plant Breeding****Crosslisted with:** STAT 847**Prerequisites:** AGRO 931

Notes: STAT 802 recommended. Offered odd-numbered calendar years.

Description: Theoretical concepts involved in planning breeding programs for the improvement of measurable morphological, physiological, and biochemical traits that are under polygenic control in crop plants of various types.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 940 Forage Evaluation****Crosslisted with:** ASCI 924**Prerequisites:** Permission

Description: Offered even-numbered calendar years. Analytic procedures and research methods used in evaluating biochemical components and nutritive value of forages. An evaluation of the impact of forage quality on forage breeding and animal performance.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 955 Solute Movement in Soils****Crosslisted with:** AGEN 955, CIVE 955, GEOL 985

Prerequisites: MATH 208; AGRO 861 or GEOL 888 or MSYM 852 or CIVE 858

Description: Examination of the theory and experimental evidence available to characterize the movement of chemicals in soil. Both saturated and unsaturated flow conditions examined. Initial presentation of basic theoretical concepts. Remainder of class a discussion of the literature.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 963 Genetics of Host-Parasite Interaction****Crosslisted with:** HORT 963, PLPT 963**Prerequisites:** BIOS 820; and permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AGRO 965 Plant Virology****Crosslisted with:** PLPT 965, HORT 965**Prerequisites:** PLPT 801 or 802; and permission.

Notes: PLPT 865 is offered odd-numbered calendar years.

Description: Virus molecular biology; virosphere; virus-vector relationships; plant resistance to virus infection economic impact and control of plant diseases by viruses.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**AGRO 968 Seminar in Plant Pathology****Crosslisted with:** PLPT 968, HORT 968**Prerequisites:** Permission.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**AGRO 991 Seminar Presentation and Evaluation****Crosslisted with:** HORT 991

Description: Various topics in horticulture, agronomy or related subjects. Emphasis on techniques.

Credit Hours: 1**Max credits per semester:** 1**Max credits per degree:** 2**Format:** LEC

AGRO 992 General Seminar**Crosslisted with:** HORT 992, NRES 992**Prerequisites:** Permission**Notes:** Agronomy and Horticulture PhD students should enroll in this course twice.**Description:** Expected of all Agronomy and Horticulture graduate students. Presentation of thesis/dissertation or non-thesis topics in agronomy, horticulture or related subjects. Agronomy and Horticulture PhD students should enroll in this course twice.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 5**Format:** LEC**AGRO 996 Research in Crops****Prerequisites:** 12 hrs agronomy or closely related sciences and permission**Credit Hours:** 2-5**Min credits per semester:** 2**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**AGRO 996A Research in Soils****Crosslisted with:** NRES 996A**Prerequisites:** 12 hrs AGRO or closely related sciences, and permission**Credit Hours:** 2-5**Min credits per semester:** 2**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**AGRO 999 Doctoral Dissertation****Crosslisted with:** HORT 999**Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair.**Notes:** AGRO 999 is pass/no pass only.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Animal Science (ASCI)

ASCI 806 Animal Science Graduate Seminar**Prerequisites:** Permission**Description:** Orientation in the animal science graduate program involving introduction to departmental research program, philosophy, and policies. Discussion of elements of an effective seminar; experience and critique in oral presentation of research data.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 2**Format:** LEC**ASCI 810 Processed Meats****Crosslisted with:** ASCI 410**Prerequisites:** ASCI 210 or equivalent. Junior standing.**Notes:** 3 cr II classroom. 3 cr I, II, III web.**Description:** Modern meat processing industry and its use of science and technology. The fabrication, processing, preservation, sanitation, food safety, ethnic evolution, and utilization of manufactured and processed meat. Actual laboratory preparation of processed meats and by-products of the meat packing industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 817 Meat Technology****Prerequisites:** ASCI 410 or permission**Description:** Meat processing and fabrication technology. Practical application of tenderization, restructuring, freezing, dehydration, flavor modification, composition control and quality control technology to manufactured and processed meat products.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ASCI 819 Meat Investigations****Crosslisted with:** ASCI 419, FDST 419, FDST 819**Prerequisites:** ASCI 210**Description:** Conduct independent research and study meat industry problems in processing, production, storage, and preparation of meat and meat products.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 820 Feedlot Nutrition and Management****Prerequisites:** CHEM 831**Notes:** Offered odd-numbered calendar years.**Description:** Nutritional requirements of and complete ration formulation for feedlot cattle. Management practices needed for successful feedlot operation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 821 Advanced Animal Nutrition****Crosslisted with:** ASCI 421**Prerequisites:** ASCI 320**Description:** Advanced course dealing with the nutrition of domestic animals. In-depth coverage of nutrients, nutrient metabolism, and nutrient requirements. Biochemical and physiological functions of nutrients in life processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927

ASCI 822 Advanced Feeding and Feed Formulation**Crosslisted with:** ASCI 422**Prerequisites:** ASCI 320 or equivalent.**Description:** Feeding practices for domestic animals. Applied animal nutrition and feed formulation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 824 Forage Quality****Crosslisted with:** AGRO 846**Prerequisites:** AGRO/RNGE 240 and ASCI 320, or equivalents; 3 cr hrs of introductory statistics; and permission**Description:** The chemical characteristics of forage components. The interactions with ruminant physiology and digestion that influence forage feeding value. The laboratory procedures used to evaluate forages for grazing livestock.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**ASCI 831 Advanced Animal Breeding****Crosslisted with:** ASCI 431**Prerequisites:** ASCI 330**Description:** Application of genetic principles to animal breeding. Critical examination of current and potential selection programs and crossbreeding systems. Determination of performance objectives. Expected responses to selection methods and dissemination of improvement in an industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 832 Genome Analysis****Crosslisted with:** ASCI 432**Prerequisites:** AGRO 215 and BIOC 401 or equivalent**Description:** Theoretical and practical aspects of: structure and function of eukaryotic genomes; genome sequencing and assembling, polymorphism and isoform detection and genotyping; gene and genome annotation; strategies used to identify genetic variants responsible for phenotypic differences; and personalized genomics, social and ethical aspects associated with genomic information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**ASCI 841 New Techniques in Reproductive Biology****Crosslisted with:** ASCI 441**Prerequisites:** ASCI 341 or equivalent.**Description:** Mammalian early embryonic development. Basic aspects of embryology and development biology. Modern technologies in animal reproductive biology, in vitro maturation and fertilization, embryo transfer, cloning, assisted reproductive technologies, transgenic animals, and embryonic stem cells.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 842 Endocrinology****Crosslisted with:** ASCI 442, BIOS 442, BIOS 842, VBMS 842**Prerequisites:** A course in vertebrate physiology and/or biochemistry.**Description:** Mammalian endocrine glands from the standpoint of their structure, their physiological function in relation to the organism, the chemical nature and mechanisms of action of their secretory products, and the nature of anomalies manifested with their dysfunction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 843 Physiology of Animal Cells and Tissues****Crosslisted with:** ASCI 443**Prerequisites:** LIFE 121; ASCI 240 or ASCI 340 or BIOS 213; BIOC 401 or BIOC 431**Description:** Molecular, cellular, and tissue dependent functions of neurons, skeletal and smooth muscle, vasculature, and immune cells. Cellular regulation of important physiological processes including blood flow, gas exchange, inorganic solute homeostasis, acid-base balance, water balance, appetite control, and thermal regulation will also be studied. Understand cellular and molecular processes that ensure homeostasis and promote integration of physiological systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**ASCI 845 Animal Physiology I****Crosslisted with:** VMED 645, VBMS 845**Prerequisites:** Undergraduate courses in biochemistry, biology and physiology.**Notes:** Primarily for students in animal or biological sciences or veterinary medicine.**Description:** Mammalian physiology and cellular mechanisms. Physiology of the cell, embryology, and neuro-sensory, neuromuscular, endocrine, and reproductive systems.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ASCI 846 Animal Physiology II****Crosslisted with:** VMED 646, VBMS 846**Prerequisites:** ASCI/VBMS 845 or BIOS 813**Notes:** ASCI/VBMS 846/BIOS 814/VMED 646 is designed for students in animal or biological sciences or veterinary medicine.**Description:** Mammalian physiology and cellular mechanisms. Physiology of the digestive, cardiovascular, respiratory, and renal systems.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

ASCI 847 Interdisciplinary Concepts in Beef Production**Crosslisted with:** VBMS 847**Prerequisites:** Degree in veterinary medicine or animal science, or allied agricultural degree**Notes:** Classroom attendance is required during each of the modules. Between modules distance education technologies (laptop computer, Internet access, a computer operating system with a word processor, spreadsheet, and presentation software, email, etc.) are used and required for discussion and assignments.**Description:** The contributions and interactions of the major academic disciplines upon the production, performance, health, profitability, and sustainability of beef cow and cattle feeding operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**ASCI 847A Interdisciplinary Concepts in Beef Production I****Crosslisted with:** VBMS 847A**Description:** The contributions and interactions of the major academic disciplines upon the production, performance, health, profitability, and sustainability of beef cow and cattle feeding operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 847B, VBMS 847B**ASCI 847B Interdisciplinary Concepts in Beef Production II****Crosslisted with:** VBMS 847B**Prerequisites:** VBMS 847A**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 851 Livestock Management on Range and Pasture****Crosslisted with:** AGRO 445, AGRO 845, ASCI 451, RNGE 445**Prerequisites:** ASCI 250 and AGRO 240 or 340; AECN 201 recommended.**Notes:** AECN 201 recommended.**Description:** Analyzing the plant and animal resources and economic aspects of pasturage. Management of pasture and range for continued high production emphasized.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 860 Quantitative Genetics Applications of Matrix Algebra****Prerequisites:** Graduate Standing in the College of Agricultural Sciences and Natural Resources.**Notes:** This is a five week course taught by Lewis (UNL)**Description:** Principles in matrix algebra to describe and solve problems in the agricultural and life sciences, and particularly quantitative genetics. Material includes vocabulary, concepts, and, to a lesser extent, theory of matrix algebra, with application to ecological systems, genotypic transition matrices, selection indices, and the numerator relationship matrix. With matrix algebra, use least squares procedures and canonical transformation to solve problems in biological sciences.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 861U**ASCI 861U Primer to Quantitative Genetics****Prerequisites:** ASCI 860**Notes:** This is a 5 week course taught by Lewis (UNL).**Description:** Language and foundational principles of quantitative genetics. Material includes basic model for quantitative genetics (additive and non-additive genetic effects, including Mendelian sampling, and environmental effects), sources of variation, heritability, family resemblance and repeatability, selection response, and family selection. Define expected values and concepts in applied statistics.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 861V; ASCI 944, STAT 844**ASCI 861V Selection Index Theory and Application****Prerequisites:** ASCI 861U**Notes:** This is a 5-week course taught by Lewis (UNL).**Description:** Theory and application of selection indices. Material includes design of animal breeding programs, estimating selection response, constructing economic selection indices, and developing multiple-stage selection strategies. Introduces approaches for deriving economic weights, and predicting economic response to selection.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 861W; ASCI 862U; ASCI 866**ASCI 861W Economic Breeding Programs****Prerequisites:** ASCI 861V**Notes:** This is a 5-week course taught by MacNeil (Delta G) and Lewis (UNL).**Description:** Principles for developing an economic basis for multiple-trait selection to improve the profitability of production. Material includes review of concepts relevant to the selection index, introduction to the concept of systems analysis, linear programming, and simulation with emphasis on economic values useful for selection index. Critically analyze relevant literature.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 862U Linear Models in Animal Breeding****Prerequisites:** ASCI 861V**Notes:** This is a 5-week course taught by Spangler (UNL).**Description:** Principles of linear models used in animal breeding. Models discussed in the context of the random variable that is to be predicted. Material includes animal models, sire/maternal grandsire models, and sire models, models with a single and repeated records, and models with both direct and maternal effects.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 862V

ASCI 862V Genetic Prediction**Prerequisites:** ASCI 862U**Notes:** 5-week course taught by Enns (Colorado State University). Permission required before registering. Contact the Animal Science Department at 402-472-6440.**Description:** Principles for using best linear unbiased prediction (BLUP) in genetic prediction. Material includes data integrity diagnosis, contemporary grouping strategies, adjusting for known non-genetic effects, the AWK Programming Language, UNIX/Linux scripting, and use of modern computational tools to perform genetic evaluations. Emphasis on real-world datasets designed to develop applied analytical skills in animal breeding.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 862W, STAT 862W; ASCI 863U; ASCI 867**ASCI 862W Applied Variance Component Estimation in Livestock Genetics****Crosslisted with:** STAT 862W**Prerequisites:** ASCI 862V**Notes:** This is a 5-week course taught by Speidel and Enns (Colorado State University). Permission required before registering. Contact the Animal Science Department at 402-472-6440.**Description:** Principles in the estimation of (co)variance components and genetic parameters required to solve mixed models typical in livestock genetics. Focus on applied knowledge of approaches used to estimate the G and R sub-matrices of the mixed model equations. Demonstrate models commonly used in parameter estimation. Introduce scientific literature concerning implementation, and attributes of the solutions, of variance component estimation strategies.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 863U Marker-Assisted and Gene-Assisted Selection****Prerequisites:** ASCI 862V**Notes:** This is a 5-week course taught by Enns (Colorado State University). Permission required before registering. Contact the department at 402-472-6440.**Description:** Methods for incorporating genetic marker information into selection decisions in livestock. Consider statistical methodologies necessary to analyze large data available from new DNA technologies related to livestock genomes. Material includes recombination, single-gene tests, molecular breeding values, suggested producer guidelines for use of the technologies, and incorporation of genomic information into genetic prediction procedures.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 863V**ASCI 863V Introduction to Marker Association Analysis and QTL Detection****Prerequisites:** ASCI 863U**Notes:** This is a 5-week course taught by Dekkers (Iowa State University). Permission is required before registering. Contact the department at 402-472-6440.**Description:** Methodologies for using genetic markers to identify Quantitative Trait Loci (QTL) and for estimating marker-trait associations in livestock populations. Material includes the basics of linkage and linkage disequilibrium, alternate designs or population structures for QTL mapping, and statistical methods for QTL detection and genome-wide association analyses. Introduce properties and requirements of alternate designs and analysis strategies.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 863W**ASCI 863W From Markers to Gene Function: Functional Change****Prerequisites:** ASCI 863V**Notes:** This is a 5-week course taught by Thomas and Enns (Colorado State University).**Description:** Extend concepts of marker association analyses to the translation of genetic markers into functional changes in the animal genome, and impacts on animal performance, in livestock genetic improvement programs. Material includes introduction to the tools used to generate genomic data, and application of key bioinformatics websites and databases to identify causative genetic variation, and to develop gene pathways and networks**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 864 CyberSheep: a Genetic Simulation Game****Prerequisites:** Graduate Standing**Notes:** This is a 10 week course taught by Lewis (UNL).**Description:** Principles of genetic selection and mating strategies applied in livestock breeding programs. Through use of a web-based genetic simulation game (CyberSheep), develop skills in implementing a virtual animal breeding program, assess the outcomes of decision-making in terms of genetic response, inbreeding, and economic returns, and experience stochastic elements inherent to livestock systems.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 865 History and Perspectives in Animal Breeding and Genetics****Prerequisites:** Graduate Standing**Notes:** This is a 5 week course taught by Spangler and Lewis (UNL).**Description:** Historical perspective to the discipline of animal breeding and genetics. Introduction to the contributions of geneticists who have significantly impacted the discipline. Material includes pre-recorded interviews of scientists that have had an international impact in animal breeding and genetics. Critique key papers.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

ASCI 866 Heterosis and Crossbreeding Systems**Prerequisites:** ASCI 861V**Notes:** This is a 5-week course taught by Cassady (South Dakota State University).**Description:** Principles of heterosis and mating systems utilizing crossbreeding. Material includes models for breed and crossbreeding effects, genetic basis of heterosis, recombination effects, composite populations, estimation of crossbreeding parameters, applications of line breeding and line crossing, and evaluation and utilization of crossbreeding systems.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 867 Prediction and Control of Inbreeding in Breeding Programs****Prerequisites:** ASCI 862V**Notes:** This is a 5-week course taught by Dekkers (Iowa State University).**Description:** Principles in the prediction and control of inbreeding in livestock breeding program. Material includes definition of inbreeding and identity by descent, impacts of inbreeding on genotype frequencies, trait means and variances, random drift, computation of inbreeding coefficients in pedigreed populations, prediction of rates of inbreeding in closed populations, and control and management of inbreeding in breeding populations.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 868 An Introduction to R Programming****Crosslisted with:** STAT 868**Prerequisites:** Graduate Standing**Notes:** This is a 5-week course taught by Maltecca (North Carolina State University).**Description:** Introduction to the R environment for statistical computing, including use of R as a high-level programming language and as a gateway for more formal low-level languages. Material includes language structure, basic and advanced data manipulation, statistical analysis with R, and using R as a programming language.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 869, STAT 869**ASCI 869 MCMC Methods in Animal Breeding: A Primer****Crosslisted with:** STAT 869**Prerequisites:** ASCI 868**Notes:** This is a 5-week course taught by Maltecca (North Carolina State University).**Description:** Principles of Markov Chain Monte Carlo (MCMC) methods in animal breeding. Materials include random variable generation, Monte Carlo integration, stochastic search, Expectation-maximization (EM) algorithm and Monte Carlo EM, Markov Chain principles, Metropolis-Hastings algorithm, Gibbs sample, and MCMC for genomic data. Illustrations developed using R software.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ASCI 896 Independent Study in Animal Science****Crosslisted with:** ASCI 496**Prerequisites:** 12 hrs animal science or closely related areas and permission**Description:** Individual or group projects in research, literature review, or extension of course work under the supervision and evaluation of a departmental faculty member.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 12**Format:** IND**ASCI 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ASCI 905 Animal Industry Seminar****Prerequisites:** Permission**Description:** Current problems in the field of animal industry.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** LEC**ASCI 917 Advanced Meat Science****Prerequisites:** CHEM 831 and FDST 848**Description:** Molecular events occurring during the conversion of muscle to meat. Molecular and cellular properties of meat responsible for the functional and palatability properties of meat products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 918 Growth and Development of Meat Animals****Prerequisites:** Strong background in biological sciences**Notes:** ASCI/VBMS 845 and 846 recommended. BIOC, BIOS, and CHEM 831 and 832 advised.**Description:** Growth and development of livestock animals with emphasis on the prenatal and postnatal differentiation and development of skeletal muscle, bone, and adipose tissue; organ growth discussed. Recent literature as well as classical concepts of animal growth discussed along with the genetic, hormonal, and nutritional factors that affect growth.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ASCI 921 Interdepartmental Nutrition Seminar****Crosslisted with:** NUTR 921**Prerequisites:** Permission**Description:** Presentation and discussion of current literature and research in the field of nutrition.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

ASCI 922 Advanced Animal Nutrition (Ruminant)

Description: Nutrient metabolism and utilization by ruminant animals for maintenance, growth, finishing, reproduction and lactation. Major emphasis on protein and energy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 924 Forage Evaluation

Crosslisted with: AGRO 940

Prerequisites: Permission

Description: Offered even-numbered calendar years. Analytic procedures and research methods used in evaluating biochemical components and nutritive value of forages. An evaluation of the impact of forage quality on forage breeding and animal performance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 925 Energy Metabolism

Crosslisted with: NUTR 925

Prerequisites: ASCI 821, BIOC 831, or NUTR 455 or 950

Notes: Offered odd-numbered calendar years.

Description: Critically evaluate how research in bioenergetics has contributed to scientific discoveries in the fields of nutrition, biochemistry, and physiology. Methodologies for determination of human and animal energy expenditure and body composition. Specifically, direct calorimetry, indirect calorimetry and comparative slaughter techniques. Emphasis on components of organ and tissue energy expenditures. Background information important in other nutrition courses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 926 Carbohydrate and Lipid Nutrition

Crosslisted with: NUTR 926

Prerequisites: BIOC 831, ASCI 821 or NUTR 455 or 950

Notes: Offered even-numbered calendar years.

Description: Nutrition and metabolism of carbohydrates and lipids by animals and humans. Emphasis on fundamental principles and current concepts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 927 Protein and Amino Acid Nutrition

Crosslisted with: NUTR 927

Prerequisites: ASCI 421/821 or NUTR 455 or 950; BIOC/BIOS/CHEM 431/831

Notes: Offered even-numbered calendar years.

Description: Nutrition and metabolism of proteins and amino acids by animals and humans. Fundamental principles and current concepts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 931 Population Genetics

Crosslisted with: AGRO 931, HORT 931

Prerequisites: AGRO 215 and STAT 801A

Description: Structure of populations, forces affecting gene frequency and frequency of genotypes, continuous variation, population values and means, genotypic and environmental variances and covariances.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGRO 932, STAT 847; ASCI 932; ASCI 933; ASCI 944, STAT 844

ASCI 932 Quantitative Animal Genetics I

Prerequisites: ASCI 931 or equivalent

Notes: Offered even-numbered calendar years.

Description: Use of biometrical and population genetics and related physiology, nutrition, pathology, meats, and economics, to develop intrapopulation breeding methods capable of increasing the net bio-economic efficiency of animal production.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 933 Quantitative Animal Genetics II

Prerequisites: ASCI 931

Notes: Offered odd-numbered calendar years.

Description: Evaluation of methods for developing and exploiting genetic diversity among animal populations to improve bio-economic efficiency of animal production.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASCI 944 Quantitative Methods for Genomics of Complex Traits

Crosslisted with: STAT 844

Prerequisites: ASCI 861U or AGRO/ASCI/HORT 931 or BIOS 818 or equivalent; STAT 802 or 821 or equivalent.

Description: Quantitative genetic analysis of complex traits. Quantitative methodologies for connecting phenotypes with high-dimensional genomic information to understand polygenic traits from both prediction and inference perspectives.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

ASCI 945 Complications of Maternal Obesity

Crosslisted with: NUTR 945

Description: Introduction to overnutrition and its complications during maternal obesity and metabolic syndrome.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

ASCI 949 Biochemistry of Nutrition**Crosslisted with:** BIOC 949, BIOS 949, NUTR 949**Prerequisites:** BIOC 832 or 839**Notes:** Offered odd-numbered calendar years.**Description:** Offered odd-numbered calendar years. Interrelationships of nutrients, nutritional state and metabolic processes. Energy metabolism, integration of nutrition and metabolism and nutritional regulation of gene function.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ASCI 996 Problems in Animal Production****Prerequisites:** Permission**Description:** Methods employed in livestock production research. Planning and conducting experiments, keeping records, and analysis of data.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**ASCI 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Anthropology (ANTH)

ANTH 806 Visualizing the Ancient City**Crosslisted with:** AHIS 406, AHIS 806, ANTH 406, CLAS 406, CLAS 806**Prerequisites:** Junior standing.**Notes:** Recommend some background knowledge of ancient art, history, or languages, a general background course such as AHIS 101, ANTH 252, CLAS 209/CLAS 210, or any of the courses listed in the Archaeology or Digital Humanities minors. Computer/design skills welcome but not necessary.**Description:** A new approach to looking at the history and development of ancient cities, combining history and archaeology with digital methods, in particular 3D modeling.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 810 Gender: An Anthropological Perspective****Crosslisted with:** ANTH 410, WMNS 410, WMNS 810**Prerequisites:** 6 hrs ANTH**Description:** Theoretical approaches to gender. Emphasis is placed on cross-cultural differences in gender socialization of as it pertains to sexual behavior, power within domestic and public spheres, and the impact of gender on individual aspirations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 812 Family, Marriage, and Kinship****Crosslisted with:** ANTH 412**Prerequisites:** ANTH 212.**Description:** Cross-cultural variation in family, marriage, and kinship and theories that account for variation in these fundamental areas of social life.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 816 Digital Anthropologies****Crosslisted with:** ANTH 416**Prerequisites:** 12 hours of anthropology or graduate student standing**Description:** Survey of digital methods and emergent technologies in Anthropology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 817 History of Anthropological Theory****Crosslisted with:** ANTH 417**Prerequisites:** 9 hrs ANTH.**Description:** Origins and developments of anthropological theory, method, and thought. Historical growth of the discipline and schools of thought from The Enlightenment through The Contemporary Period.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 818 Ethnology and Museums****Crosslisted with:** ANTH 418**Prerequisites:** 6 hours of anthropology including ANTH 212.**Description:** Explores historical and contemporary aspects of the missions, ethical and political issues concerning exhibits and collections held by museums.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology

ANTH 819 Art and Anthropology of Native North Americans**Crosslisted with:** ANTH 419**Description:** Explores the art of indigenous peoples in the United States. A spectrum of styles, contexts and symbolic meaning will be studied in addition to social aspects of taste, and issues concerning cultural appropriation and the repatriation of religious iconography.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 822 Medical Anthropology****Crosslisted with:** ANTH 422**Description:** Focuses on theoretical and applied significance of health related practices in local and cross-cultural contexts. Cultural constructions of disease, intervention and treatment strategies explored historically and contemporarily.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**ANTH 829A Food Security: A Global Perspective****Crosslisted with:** ANTH 429A, AGRO 429A, AGRO 829A, HORT 429A, HORT 829A, NRES 429A, NRES 829A, NUTR 429A, NUTR 829A**Prerequisites:** Junior standing**Description:** Overview of the technical and sociocultural dimensions of global food insecurity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 830 Nutritional Anthropology****Crosslisted with:** ANTH 430, NUTR 430, NUTR 830**Prerequisites:** ANTH 242 or equivalent.**Description:** Anthropological approaches to the study of nutrition. Background to nutrition science; bio-cultural aspects of obesity, fertility, lactose intolerance, and infant feeding practices; biological differences in nutritional requirements, fertility, and mortality; interpretation of nutritional deficiencies in skeletal remains; reconstructing prehistoric diets from archaeological evidence; and evaluation of relationships between dietary patterns and dental remains in fossil record.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**ANTH 831 Historical Archaeology: Current Topics****Crosslisted with:** ANTH 431**Description:** Development of Historical Archaeology and current research in the field.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 832 History and Theory of Archaeology****Crosslisted with:** ANTH 432**Prerequisites:** 9 hrs ANTH.**Description:** Current concepts and theories used in archaeology to interpret the archaeological record.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**ANTH 833 North American Archaeology****Crosslisted with:** ANTH 433**Prerequisites:** 9 hrs ANTH including ANTH 232**Description:** An areal survey of North American archaeology, methodology, history, and current trends of research. North American prehistory from earliest occupations to The Contact Period.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**ANTH 834 Introduction to Great Plains Archaeology****Crosslisted with:** ANTH 434**Prerequisites:** 9 hrs ANTH including ANTH 232.**Description:** Introduction to the history of archaeological research, taxonomic issues, cultural sequences, and current research topics within the Great Plains area of North America.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**ANTH 835 Introduction to Heritage Management Archaeology****Crosslisted with:** ANTH 435**Prerequisites:** ANTH 232**Description:** Introduction to the nature and purpose of historic preservation as it pertains to resource management and archaeological research. Legislation that forms the basis for: cultural resource management principles; integration of state programs; and archaeological contractors; within the overall framework of land modification planning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**ANTH 836 The Ancient Maya****Crosslisted with:** ANTH 436, LAMS 436**Description:** Introduction to the prehistory of the Maya region and its periphery. Features of the Ancient Maya political, economic, religious, gender and material structures. Main substantive, theoretical and political debates in Mesoamerican scholarship. Interdisciplinary research and the types of methods used to create knowledge about Maya civilization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology

ANTH 837 Cultural Heritage of the American Southwest**Prerequisites:** Graduate student standing**Description:** Advanced survey of past and present indigenous cultures and heritage of the American Southwest.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 838 Archaeologies of Europe****Crosslisted with:** ANTH 438, CLAS 438, CLAS 838**Description:** Survey of the material remains of Europe and of the various approaches to the study of the European past.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**ANTH 842 Human Variation****Crosslisted with:** ANTH 442**Description:** Biological variation of modern humans worldwide through time and space. Standard measurements of phenotypic, e.g. elementary anthropometry. Biological adaptation to environment using recent theoretical perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**ANTH 843 Dental Anthropology****Crosslisted with:** ANTH 443**Description:** Cranio-facial anatomy, development and morphology as well as forensic uses of dentition.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 844 Human Osteology****Crosslisted with:** ANTH 344**Description:** Study of human osteology including histology, pathology, biomechanics and taphonomy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 848 Human Growth and Development****Crosslisted with:** ANTH 448, BIOS 448, BIOS 848**Prerequisites:** ANTH 242 and 242L, or BIOS 101 and 101L.**Description:** Biological diversity from an evolutionary perspective. The history of the study of human physical growth and biological principles of growth. Genetic, epigenetic and hormonal effects on human and other mammal growth patterns, and environmental factors that influence growth. Effects of nutrition, disease, socio-economic status, pollution, etc. Unique features of human growth in its various stages. How anthropologists interpret variation in growth patterns among human populations and the possible adaptive significance of this variation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**ANTH 851 Contemporary Issues of Indigenous Peoples in North America****Crosslisted with:** ANTH 451, ETHN 451**Prerequisites:** ANTH 351 or 352.**Description:** Political, economic, and social issues concerning indigenous peoples in North America.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 854 Ethnographic Field School****Crosslisted with:** ANTH 454**Prerequisites:** Permission of instructor.**Description:** Advanced comparative study of the contemporary populations in a selected area of North America (occasionally outside of the USA) that may combine the traditional survey of ethnographic literature with personal observation, participation, and experiential learning activities in rural, urban, or traditional settings. The ethnographic focus (e.g., Native Americans, recent immigrants to the USA, historic practices) changes depending on research opportunities.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**Groups:** Cultural Anthropology**ANTH 861 Geospatial Approaches in Digital Humanities and Social Sciences****Crosslisted with:** ANTH 461, CLAS 461, CLAS 861, GEOG 461, GEOG 861, HIST 461, HIST 861**Description:** Study of geographic concepts and critical analysis of applications of Geographic Information Systems (GIS) in humanities and social sciences and application of geospatial tools for humanities and social science research; learn how to collect, manage, analyze, and visualize spatial data for real-world projects**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Techniques**ANTH 862 Forensic Anthropology****Crosslisted with:** ANTH 462**Prerequisites:** ANTH 242**Description:** Human skeletal identification and trauma analysis as a model for understanding the applied field of forensic anthropology.

Focuses on the wider scope of human skeletal biology dealing with problems of medico-legal significance, primarily in the determination of personal identity and cause of death from skeletonized human remains, as well as both interpretation and analysis of biological data toward this aim.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**Groups:** Biological Anthropology

ANTH 863 Museum Exhibit Design**Crosslisted with:** ANTH 463**Description:** Develop a museum exhibit to professional standards and participate in the process from conception through installation and ribbon-cutting. Study copy writing, object conservation, 3D model-building, graphic design, prototype development, exhibit construction techniques, and formative assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Groups:** Additional Anthropology Course**ANTH 867 Gender and Material Culture****Crosslisted with:** TMFD 477, TMFD 877, WMNS 477, WMNS 877, ANTH 467**Prerequisites:** Junior Standing; 3 hours in any of the following areas: ANTH, SOCI, HIST, AHIS, TMFD or WMNS.**Description:** In depth analysis of the relationship between material culture and gender roles, categories, and performances. Engages with theoretical frameworks for material culture and gender, as well as topics such as the body, clothing, the built environment, technology and media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 871 Digital Humanities Practicum****Crosslisted with:** ENGL 472, ENGL 872, HIST 472, HIST 872, ANTH 471, MODL 472, MODL 872**Prerequisites:** Junior standing.**Description:** Provide students with real, in-depth experience in collaboratively creating digital humanities projects. Guided by faculty with expertise in a broad range of digital humanities methods and resources, students work in teams to tackle challenges proposed by UNL researchers and/or local and regional humanities organizations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Digital Humanities**ANTH 872 Belief Systems: Animism to Zombies****Crosslisted with:** ANTH 472**Description:** Explores the diversity of beliefs and rituals surrounding the mysteries of birth, life, death and beyond.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 873 Ecological Anthropology****Crosslisted with:** ANTH 473, NRES 873**Description:** Human adaptive systems and their ecological contexts. The dynamic inter-relationships between subsistence, technology, social behavior, human demography, and ecological variability.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 874 Applied and Development Anthropology****Crosslisted with:** ANTH 474**Prerequisites:** ANTH 212**Description:** Efforts by anthropologists and other trained specialists to influence the process of development and socioeconomic change in the modern world.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 875 Artisan Technologies Past and Present****Crosslisted with:** ANTH 475**Prerequisites:** 9 hrs ANTH.**Description:** Study of selected technologies from around the world at the pre-industrial level of production. Examine hand made art and utilitarian artifacts with the goal of understanding them through replication. Analyze technology within its cultural setting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 876 Human Rights, Environment, and Development****Crosslisted with:** ANTH 476**Prerequisites:** ANTH 212**Description:** Human rights from an anthropological perspective. International human rights, development, and the environment; Western and non-Western perspectives on human rights; individual rights and collective (group) rights; social, economic, and cultural rights; women's rights; gay rights; indigenous peoples and minority groups' rights; and planetary (environmental) rights. Rights to food, culture, development, and a healthy ecosystem.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**ANTH 877 Hunters-Gatherers****Crosslisted with:** ANTH 477**Prerequisites:** 9 hrs ANTH including ANTH 212.**Description:** Survey of hunter-gatherer society and its ecological and social adaptations. Hunters-gatherers and their important role in human history and evolution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology

ANTH 878 Pro-seminar in Latin American Studies

Crosslisted with: ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, GEOG 878, HIST 878, POLS 878, SOCI 878, MODL 878, EDPS 878

Prerequisites: Junior standing and permission.

Notes: Topical seminar required for all Latin American Studies majors.

Description: An interdisciplinary analysis of topical issues in Latin American Studies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

Groups: Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research

ANTH 879 Pro-seminar in International Relations I

Crosslisted with: ECON 466, POLS 466, POLS 866, AECN 467, ANTH 479, ECON 866, GEOG 448, GEOG 848, HIST 479, HIST 879, SOCI 466, SOCI 866

Prerequisites: Senior standing and permission.

Notes: Open to students with an interest in international relations.

Description: Topic varies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: International Relations&Compar Integrative Courses, Research Variable group based on topic Comp Intrntnl & Reg Develpmnt Human-Economic Geography

ANTH 881 Landscape Archaeology

Crosslisted with: ANTH 481

Description: Survey of theory, method, and practice in describing and interpreting archaeological landscapes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

ANTH 882 Field Methods in Ethnography

Crosslisted with: ANTH 482

Prerequisites: Anth 212.

Description: Introduction to practical and theoretical issues involved in designing and undertaking qualitative field research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Integrative Courses, Research

ANTH 883 Material Culture Research Methods

Crosslisted with: TMFD 876

Prerequisites: TMFD 807 or TMFD 808

Description: Research methods for material culture study applied to textiles and dress. Methodologies for artifact study and skills. Fiber microscopy as a tool for artifact analysis. Conceptual development, application and evaluation of a model for artifact study.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

ANTH 884 Data Analytics in Anthropology

Crosslisted with: ANTH 484

Prerequisites: 6 hrs ANTH

Description: Collection, management, visualization, and analysis of quantitative anthropological data. Exploratory and confirmatory data analysis. Data analytics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Laboratory and Field Training

ANTH 885 Pro-seminar in Anthropology

Crosslisted with: ANTH 485

Prerequisites: Permission.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Integrative Courses, Research

ANTH 886 Digital Heritage

Description: Exploration and deep evaluation of concept of heritage, digital heritage applications, and hands-on experience in creating digital heritage products using desktop and mobile devices.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

ANTH 887 Analysis of Archaeological Materials

Crosslisted with: ANTH 487

Prerequisites: ANTH 232

Notes: May be repeated.

Description: Survey of vocabulary, techniques, and ideas needed to research major materials found in archaeological sites.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

Groups: Archaeology

ANTH 887A Analysis of Archaeological Materials - Ceramics

Crosslisted with: ANTH 487A

Notes: May be repeated.

Description: Survey of vocabulary, techniques, and ideas needed to research major materials found in archaeological sites.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

ANTH 887B Analysis of Archaeological Materials - Lithics

Crosslisted with: ANTH 487B

Notes: May be repeated.

Description: Survey of vocabulary, techniques, and ideas needed to research major materials found in archaeological sites.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

ANTH 887D Analysis of Archaeological Materials - Archaeofauna**Crosslisted with:** ANTH 487D**Notes:** May be repeated.**Description:** Survey of vocabulary, techniques, and ideas needed to research major materials found in archaeological sites.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**ANTH 887E Analysis of Archaeological Materials - Historic Material Culture****Crosslisted with:** ANTH 487E**Notes:** May be repeated.**Description:** Survey of vocabulary, techniques, and ideas needed to research major materials found in archaeological sites.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**ANTH 888 Contentious Issues in Anthropology****Crosslisted with:** ANTH 488**Prerequisites:** 9 hrs of anthropology beyond ANTH 110.**Description:** Recent controversial issues through the integration of biological, cultural, and archaeological branches of anthropology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Integrative Courses, Research**ANTH 889 GIS in Archaeology****Description:** Introduction to Geographic Information Systems (GIS) in archaeology and anthropology; lecture provides fundamental spatial concepts and a computer lab teaches skills on data acquisition, data integration, spatial analysis, and digital cartography.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ANTH 890 Advanced Field Work****Crosslisted with:** ANTH 490**Prerequisites:** ANTH 290 or equivalent.**Description:** Further practical experience in field research.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** FLD**Groups:** Laboratory and Field Training**ANTH 891 Advanced Laboratory Work****Crosslisted with:** ANTH 491**Prerequisites:** Permission.**Notes:** Only 3 credit hours will count toward the major in ANTH.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LAB**Groups:** Laboratory and Field Training**ANTH 891A Special Topics****Crosslisted with:** JOMC 491, JOMC 891, ANTH 491A**Notes:** 12 hours max special topics hours at all levels (100, 200, 300, 400) per degree. May be repeated up to three times so long as the topics are different.**Description:** Topics vary each term.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 12**Format:** LEC**ANTH 894 Internship in Professional Archaeology****Prerequisites:** 9 hrs ANTH**Description:** Structured professional experience in archaeological research, administration, or curation outside the traditional academic setting.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**ANTH 895 Internship in Anthropology****Crosslisted with:** ANTH 495**Prerequisites:** Sophomore standing; and permission.**Description:** A structured professional experience outside the traditional academic setting designed to allow students to learn and use anthropological skills and knowledge and to develop professional networks.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**Groups:** Integrative Courses, Research**ANTH 896 Special Readings in Anthropology****Crosslisted with:** ANTH 496**Prerequisites:** Permission.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**Groups:** Integrative Courses, Research**ANTH 898 Advanced Current Topics in Anthropology****Crosslisted with:** ANTH 498**Prerequisites:** Permission.**Description:** Seminar on current issues and problems in anthropology.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**Groups:** Integrative Courses, Research

ANTH 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

ANTH 915 Seminar in Ethnology

Description: Intensive study of theory and method in ethnology, with special attention to current research literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ANTH 921D Seminar in Literacy Studies: Language, Culture, and Education

Crosslisted with: TEAC 921D

Description: Research in literacy and schooling.

Credit Hours: 1-9

Min credits per semester: 1

Max credits per semester: 9

Max credits per degree: 9

Format: LEC

ANTH 930A Ethnographic Methods

Crosslisted with: CYAF 930A, EDPS 930A, NUTR 930A, TEAC 930A

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ANTH 935 Seminar in Archaeology

Description: Theory and method in prehistory and historic archaeology. Current research literature in the field.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ANTH 945 Seminar in Physical Anthropology

Description: Intensive study of theory and method in physical anthropology, with special attention to current research literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ANTH 946 Interdisciplinary Readings in Digital Humanities

Crosslisted with: MODL 946, HIST 946, ENGL 946

Description: Methods, theories, and practices of digital humanities scholarship.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ANTH 994 Seminar in Anthropology and Geography

Crosslisted with: GEOG 994

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

ANTH 996 Research Other Than Thesis

Description: Research or reading in selected problems in anthropology, including the preparation of research for publication.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

Architectural Engineering (AREN)

AREN 800 AE Graduate Seminar

Prerequisites: Co-requisites: AREN 425 (AE 4250) or AREN 415 (AE 4150) or CIVE 334

Description: Literature Review, reading and evaluation of technical publications concerned with theory and/or experimental data in various areas of Architectural Engineering, attendance at Architectural Engineering Graduate Project and Team Design presentations, preparation of the Master of Architectural Engineering graduate project proposal, assignments related to improving written and oral communication skills.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AREN 801 Graduate Design Project I

Prerequisites: (UNO) AE 4010 or AE 4020; or (UNO) CIVE 3140; and permission

Notes: Students are permitted to enroll in this course twice. Those who fail to earn a passing grade after enrolling in this course a second time will be referred to the AE Graduate Committee, and this may result in termination of their program of graduate studies.

Description: Perform a detailed investigation in the Option Area of the master of architectural engineering degree.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: IND

Prerequisite for: AREN 802

AREN 802 Graduate Design Project II

Prerequisites: AREN 801 (AE 8010); and permission

Description: Second of a two-course capstone design project for the MAE degree. AREN 802 (AE 8020) requires a professionally-written report and oral presentation that demonstrates both mastery of the subject and a high level of writing and oral communication skills.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

AREN 803 Interdisciplinary Team Design Project

Prerequisites: For Acoustics and/or Mechanical option: AREN 415 (AE 4150) and AREN 430 (AE 4300). For Electrical and/or Lighting option: AREN 425 (AE 4250) and AREN 822 (AE 8220). For Structural option: CIVE 444

Notes: This course is the 1st semester of the capstone design sequence in architectural engineering.

Description: Develop and design the electrical, lighting, mechanical, and structural systems for a building, from programming through design development phase, as an interdisciplinary team effort.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: AREN 804

AREN 804 Interdisciplinary Team Design Project II

Prerequisites: AREN 803

Notes: This course is intended to be taken the semester following AREN 803. AREN 804 is the 2nd semester of the capstone design sequence in architectural engineering.

Description: Develop and design the electrical, lighting, mechanical, and structural systems for a building, from the design development phase through construction documents, as an interdisciplinary team effort.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

AREN 805 Internship in Architectural Engineering

Description: This course requires participation in a full time summer internship associated with an Architectural Engineering related entity. The course includes weekly assignments and a final presentation designed to create interaction between the AE entity and the intern associated with the business side of the entity. General Topics include Business Plans, Marketing, Finance and Budgets, Contracts, Legal issues and professionalism.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: FLD

AREN 806 Architectural Engineering Professional Practice I

Prerequisites: ISMG 2060

Description: Investigation of issues related to the integration of building design processes with professional architectural engineering practice. Aspects of building design project finance, budgets, contracts, legal issues, professional licensure, professional responsibility and professional ethics. The perspective of life-cycle costing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AREN 807

AREN 807 Architectural Engineering Professional Practice II

Prerequisites: IMSE 206/(UNO) IMSE 2060; and AREN 806/(UNO) AE 8060

Notes: Continuation of investigation of issues related to the integration of building design processes with professional architectural engineering design practice.

Description: Building design specifications, estimating, bidding, building construction contract negotiations, building design project management, project team personnel management, project risk, and key regulatory measures.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AREN 808 Applied Experimental Design and Statistical Analysis

Prerequisites: STAT 380/(UNO) 3800

Description: Overview of advanced experimental design methods and statistical analysis techniques. Application of these to the planning, execution, analysis, and description of research in architectural engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AREN 809 Sustainable Building Design

Prerequisites: CIVE 341 or ARCH 332; AREN 310 (AE 3100) or AREN 841 or ARCH 333

Description: Integrates building design with the principles of minimum resource use, energy conservation and healthy indoor environments.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AREN 810 Solar Energy Systems

Prerequisites: MECH 820 or permission

Description: Fundamentals of solar energy system modeling analysis and design. Solar radiation modeling, surface properties of opaque and glazing materials, flat-plate collector design, solar energy storage, solar system thermal calculation, system application and design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AREN 811 Indoor Air Quality Engineering

Prerequisites: AREN 310.

Description: Indoor air quality. Codes, standards, HVAC equipment, commissioning, operation, maintenance, investigation, and remediation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AREN 818; AREN 918

AREN 812 Building Control and Automation Systems**Prerequisites:** MATH 3350 ; AE 3100, AE 4120, AE 4120**Description:** Fundamental concepts of building control theory and automation. Building control: state-variable plant and closed-loop system representation, time and frequency response, stability, root-locus methods and design of building control systems. Automation: thermostats, dampers, valves, direct digital control, control of air handling units, terminal units, primary building systems, supervisory control and system optimization, communication systems, BACnet, and DDC system design and implementation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 913; AREN 915; AREN 916; AREN 917**AREN 814 Building Energy III: Advanced Building Energy System Modeling****Prerequisites:** MECH 300/(UNO) ENG 3000, AREN 310/(UNO) AE 3100, AREN 412/(UNO) AE 4120, MECH 420/(UNO) MENG 4200; or permission.**Description:** Advanced Analysis, Modeling, Diagnostics and Optimization of Building Energy Systems. Be familiar with Engineering Equation Solver (EES) Programming; Be able to build models for Air Handling Unit Systems and Vapor Compression Cycle Equipment; Be able to analyze building operating efficiency and identify faulty operating conditions; Be able to conduct retrofit energy efficiency analysis and feasibility study.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 917**AREN 815 Building Energy Simulation and Performance Contracting****Prerequisites:** AE 3100, AE 4120, AE 4140, and AE 4400 (UNO)**Description:** Integrated approach to deliver energy improvement retrofit projects that provide economical and ecological benefits. Proficiency in EnergyPlus or DOE-2 and in retrofit cost estimation will be attained and integrated into an engineering economic analysis. Partnering configurations, contracts, financing, and measurement and verification. Concepts applied to a practical class project.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 817 Theory and Application of Thermal Systems Measurement****Prerequisites:** STAT 8805 or equivalent**Description:** Analysis, theory, and methods of instrumentation for thermal system energy consumption measurement and scientific research testing. Emphasis on sensors, transducers, and error analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 818 Indoor Air Quality Design****Prerequisites:** AREN 811 or permission**Description:** Fundamentals of project management within the mechanical and electrical contracting industry. Emphasis on codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, all from a speciality contracting perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 820 Lighting II: Theory, Design and Application****Crosslisted with:** AREN 420**Prerequisites:** (UNO) AE 3200**Notes:** Lab sessions include photometric measurements and computer applications.**Description:** Design and analysis of lighting systems; the integration between the lighting design process and the technical foundations for building lighting; design criteria; lighting design procedures lighting modes and subjective effects; and calculation tools.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 425; AREN 823; AREN 825; AREN 920**AREN 821 Lighting II: Advanced Design Practice****Prerequisites:** AREN 820**Description:** Design and analysis of lighting for outdoor sports, floodlighting and interior applications; economic analysis; modeling algorithms; advanced photometrics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 822 Electrical Systems for Buildings II****Prerequisites:** AE 3220**Description:** Power systems analysis and design, integration of electrical system components into functional, safe and reliable power distribution systems for commercial and industrial facilities. Per unit analysis, fault analysis, power quality, grounding, overcurrent protection coordination and complete power system design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 823 Light Sources****Prerequisites:** AREN 820**Description:** Fundamental science and principles of light generation in modern electric light sources; characteristics that influence applications of light sources.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

AREN 824 Lighting Metrics**Prerequisites:** AE 3200 or equivalent**Description:** Critical survey and application of measures developed to characterize the effects of lighting systems on human perception and performance. Contrast, visibility, visual performance (Relative Visual Performance, Visibility Level); visual comfort probability; discomfort glare rating system; and unified glare rating system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 825 DAYLIGHTING****Prerequisites:** AREN 820**Description:** Use of natural light in building design. Solar position, sky luminance, distribution models, daylighting equipment, calculation methods, and psychological concepts. Extensive use of computer modeling and scale models.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 826 Building Communication Systems****Prerequisites:** AREN 322 (AE 3220)**Description:** Integration of voice, data and video systems into overall building design. Scalability; wireless systems; interference; project management; current industry standards and protocols.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 830 ADV NOISE CONTROL****Crosslisted with:** AREN 430**Prerequisites:** AE 3300 or equivalent**Description:** Characterization of acoustic sources; use and measurement of sound power and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 833 ADV ARCH ACOUSTICS****Prerequisites:** AE 3300 or equivalent**Description:** Advanced study of the behavior of sound in rooms. Design of acoustical spaces; physical and computational modeling; measurement techniques; and introduction to sound reinforcement in rooms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 930**AREN 835 ELECTROACOUSTICS****Prerequisites:** AE 3300 or equivalent**Description:** Electrical-mechanical-acoustical circuit analogies; transducers, loudspeakers, microphones, and accelerometers; directivity; calibration techniques; and sound reinforcement systems in rooms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 841 BLDG ENERGY&ACOUSTIC****Prerequisites:** Admission to MEng program or permission**Description:** Building energy and acoustical systems: energy systems, including psychometric processes and applications; load calculations; distribution systems; acoustic fundamentals; room acoustics; and noise control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 851 Masonry and Timber Design****Prerequisites:** CIVE 440 (Reinforced Concrete Design) or equivalent; CIVE 441 (Steel Design) or equivalent.**Description:** Masonry as a structural material, Unreinforced Masonry Design, Reinforced Masonry Design, State-of-the-art Assessment methods for Existing Masonry Structures, Timber as a structural material, Timber Design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 862 MEMS Sensors Dynamics****Crosslisted with:** AREN 462**Prerequisites:** Instructor permission**Description:** Study of the dynamics of Microelectromechanical system (MEMS) beam-structures. Modeling principles and data analysis from different types of MEMS will be explained along with deep theoretical and experimental investigation of nonlinear MEMS dynamics. Learn to conduct experiments using state-of-the-art MEMS characterization tools.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 880 Graduate Seminar in Architectural Engineering and Construction****Description:** The objectives of this course are to broaden student knowledge on engineering topics, improve presentation and professional skills, as well as learn about professional development resources available on campus. To pass the course, a student must attend a minimum of 15 Durham School Graduate Student Seminars, MAE project presentations, and/or MS/PhD thesis presentations in the College of Engineering. The student must also present one seminar within the Durham School Graduate Student Seminar series, prior to the final oral examination. All MS and PhD graduate students in architectural engineering must enroll within their first 3 semesters of matriculation.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** IND**AREN 892 Individual Instruction in Architectural Engineering****Prerequisites:** Permission**Description:** Individual instruction in Architectural Engineering at the graduate level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND

AREN 894 SPECIAL TOPICS**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**AREN 899 MASTERS THESIS****Prerequisites:** Admission to AREN/AE (UNO) masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**AREN 913 DYNAMIC PROGRAMMING****Prerequisites:** AE 3100, AE 4120, AE 4140 ; AREN 812**Description:** Concepts and implementation of dynamic programming for building optimal and adaptive control. Deterministic shortest-path applications and continuous-time optimal control, inventory control, perfect and imperfect state information, suboptimal and adaptive control, discounted infinite horizon and stochastic shortest-path problems including Q-Learning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 915 MOD BLDG CONTROL APP****Prerequisites:** AE 3100, AE 4120, AE 4140 ; AREN 812**Description:** Neuro-dynamic programming/reinforcement learning methodology, fuzzy logic methods, and evolutionary/genetic algorithms (GA) to building control problems. Concepts applied to case studies from problem areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 916 BLDG ENRGY SYS MDLNG****Prerequisites:** AE 420 and AREN 812; or permission**Description:** Modeling, control, and optimization of the secondary building energy systems: building envelope, room comfort zones, air handling units, cooling and heating water loops.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 917 PRIMARY ENERGY SYS****Prerequisites:** AREN 812, AREN 814 or permission**Description:** Modeling, control, and optimization of the primary building energy systems: central distribution systems, chiller systems, boiler systems, central cooling plants, central heating plants, and thermal storage systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 918 FLUID DYNAMC MODELNG****Prerequisites:** AREN 811, MECH 810, or permission**Description:** Application of computational fluid dynamics software to modeling of indoor environments. Turbulence modeling, boundary conditions, natural and forced convection flows, species transport, and fire modeling.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 920 COLOR THEORY****Prerequisites:** AREN 820**Description:** Theories of color vision; theoretical and mathematical basis for chromaticity, color temperature, color rendering metrics, color matching functions, and color spaces; spectral weighing functions; and measurement of color.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 921 RSH: ILLUMINATN THRY****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 922 BEHVRL SCI LIGHT RSH****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 923 PSYCH OF LIGHTING****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 930 TOPC: ARCH ACOUSTICS****Prerequisites:** AREN 833**Description:** Current topics in architectural acoustics. Objective versus subjective measures in performance spaces, electronic enhancement of rooms, advanced computational modeling techniques, and auralization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**AREN 997 RSH OTHER THAN THESI****Prerequisites:** Permission**Description:** Supervised non-thesis research and independent study.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND

AREN 998 SPECIAL TOPICS**Prerequisites:** Permission**Description:** Advanced topics in architectural engineering.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 1**Format:** LEC**AREN 999 DOCTORAL DISSERTATION****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Architecture (ARCH)

Professional Courses

ARCH 500 Architecture Core Studio I: Project**Crosslisted with:** ARCH 800**Prerequisites:** Admission into the 3 Year Master of Architecture program or permission.**Description:** Introduction to architectural design through spatial and formal projects using representational techniques. A series of collaborative and individual projects introduce design process, iteration, tectonics, representation, and structure as fundamental aspects of design that relate architecture to the human subject.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Prerequisite for:** ARCH 501, ARCH 801**ARCH 501 Architecture Core Studio II: Incorporate****Crosslisted with:** ARCH 801**Prerequisites:** ARCH 500**Description:** The studio extends the methodologies from the preceding studio to include outside influences such as site, urbanism, program, culture, and materiality. Projects increase in scope and complexity and integrate a wide range of inputs through research and analysis.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**ARCH 510 Advanced Architectural Design I****Crosslisted with:** ARCH 810**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** FALL**Prerequisite for:** ARCH 613, ARCH 913**ARCH 511 Advanced Architectural Design II****Crosslisted with:** ARCH 811**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** FALL**ARCH 518 Fabrication and Construction Team****Crosslisted with:** ARCH 418, ARCH 818**Prerequisites:** Permission.**Description:** The shifting relationship between conceiving and making through hands-on, collaborative experience with actual design-construct projects in which students play a decisive role in all aspects of research, design and construction of the commission.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**ARCH 526 Digital Fabrication****Crosslisted with:** ARCH 826**Prerequisites:** Permission.**Description:** Examination of the theory and application of the file-to-factory design process. Exploratory case study projects include small fabricated architectural models of forms, surface and structure.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 527 Parametric Modeling for Design****Prerequisites:** ARCH 527**Description:** Introduction to parametric and related basic computational concepts for design. Explorations in specific parametric modeling software techniques.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ARCH 532A Seismic Design for Architects****Crosslisted with:** ARCH 832A**Prerequisites:** Permission.**Description:** Introduction to basic seismic design principles. Making critical decisions concerning the overall performance of a building during an earthquake.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ARCH 540 Details****Crosslisted with:** ARCH 440, ARCH 840**Prerequisites:** ARCH 341 or permission.**Description:** Focused study of architectural theory and problems of practice and physicality examined in the context of the architectural detail.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ARCH 543 Architectural Representations: Theory + Application**Crosslisted with:** ARCH 443, ARCH 843**Prerequisites:** ARCH 311 or by Permission.

Description: Explores architectural practice relative to representational communication both internally within the design process as well as with an external audience. This course also investigates the impact of tangential techniques appropriated to the practice. Readings, discussions, and projects will focus on issues of perception and projection relative to these systems and how they impact the practice of architecture in a contemporary context. Course structure is both a theory seminar addressing the position of representation through readings, as well as a laboratory for investigating their application.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 544 Design Thesis Preparation Seminar****Crosslisted with:** ARCH 844**Prerequisites:** ARCH 489, ARCH 341

Notes: Required preparation for the Design Thesis track (ARCH 613/ARCH 614)

Description: Focused workshop for conceiving and articulating current architectural problems to frame the argumentation and reasoning towards a design thesis proposal.

Credit Hours: 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** SPRING**ARCH 547 African Architecture****Crosslisted with:** ARCH 347, AHIS 366, ETHN 347**Prerequisites:** Sophomore standing.

Description: Survey of the architectural traditions of the African continent, from pre-historic times to the present day. Buildings-famous and typical-theories, and approaches that are appropriate to the specific cultural environments.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 558 The Changing Workplace****Crosslisted with:** ARCH 458, ARCH 858, IDES 458, IDES 858

Description: Survey and integration of theory, methods, research and findings from the social, behavioral, and managerial sciences as they relate to the design of work environments. Factors effecting change in the contemporary workplace.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 561 Urbanism****Crosslisted with:** ARCH 461, LARC 461, ARCH 861**Prerequisites:** Admission to a professional program in the College of Architecture**Notes:** Letter grade only.

Description: Issues of contemporary urbanism and the processes of urban design. Experiential nature of cities, role of public policy, ideology, genesis and development of urban form and space.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 562 Urbanism and the Catalysts of Change****Crosslisted with:** ARCH 862**Prerequisites:** Admission into the graduate portion of the professional program in architecture or permission

Description: Exploration into the relationship between the evolution of urbanism and the cultural, economic and scientific advances made by civilization.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 563 Project Territory****Crosslisted with:** ARCH 863**Prerequisites:** Admission into the graduate portion of the professional program in architecture

Description: Comprehensive review and examination of territorial relationships between spatial development, engineering, ecology, and architecture. Focuses on emerging factors affecting urban, suburban, and rural communities and spatial configurations beyond the binary of city and country.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 565 Configurational Formations****Crosslisted with:** ARCH 865**Prerequisites:** Admissions to the professional architecture program, or permission.

Description: Investigation of evolutions in typological reasoning leading up to and including contemporary configurational theory. Use of graphic modeling to research, dissect, compare and discuss select topics and case studies.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ARCH 566 Community Design Center****Crosslisted with:** ARCH 466, ARCH 866**Prerequisites:** Permission.

Description: Community-oriented design studio. The design process and its relationship to the environmental development process.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

ARCH 567 Planting Design**Crosslisted with:** ARCH 467, ARCH 867, LARC 467, HORT 467**Prerequisites:** HORT/LARC/NRES 212; ARCH 210 or HORT/LARC 266.**Description:** Design processes, principles, and elements as applied to the use of native and ornamental plant materials. Aesthetic, functional, and micro-climatic arrangements of plant material in parks, on commercial property, on home grounds, along roadways, and in urban open spaces. Develop a palette of plants and graphics for designs.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ARCH 581 Women in Design****Crosslisted with:** ARCH 481, ARCH 881, IDES 481**Prerequisites:** Admission to the BSD program.**Description:** Intensive study of particular historical and contemporary contributions by women to the design professions related to the built environment. Evaluation of design work by and about women seen in their aesthetic and intellectual context. Examinations of the roles and values of women in design and their impact on the assumptions and issues currently held by the profession.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 582 Advanced Color Theory****Crosslisted with:** ARCH 482, ARCH 882, IDES 482, IDES 882**Prerequisites:** Admission to the third year in architecture or Interior Design Program.**Description:** Advanced color theories and their application to the Built environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 589 Design Research****Crosslisted with:** ARCH 489, ARCH 889, IDES 489, IDES 889, LARC 489**Prerequisites:** Admission to a professional program in the College of Architecture**Description:** Comprehensive overview of the complementary and contributory relationship between research and design, with a particular emphasis on design research as a projective activity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ARCH 597 Selected Topics in Architecture****Crosslisted with:** ARCH 497, ARCH 497H, ARCH 697, ARCH 897**Prerequisites:** Permission.**Description:** Group investigation of a topic in architecture originated by the instructor.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC**ARCH 598 Problems in Architecture****Crosslisted with:** ARCH 498, ARCH 498H, ARCH 898**Prerequisites:** Permission.**Description:** Individual investigation of a topic in architecture.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** IND**ARCH 610 Advanced Architectural Design III****Crosslisted with:** ARCH 910**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** FALL**ARCH 611 Advanced Architectural Design IV****Crosslisted with:** ARCH 911**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** SPRING**ARCH 613 Architectural Design: Terminal Project Studio I****Crosslisted with:** ARCH 913**Prerequisites:** ARCH 510/810, submission of a statement of intent and a contract with a faculty mentor**Description:** Advanced architectural design. The first part of a year-long design project initiated by the student and developed in conjunction with a faculty mentor. The first course in the sequence consists of initial studies that are further developed and completed in the following semester. These initial studies lead to a written and visual proposal that sets the parameters and the agenda for detailed formal design explorations in the following semester.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**Prerequisite for:** ARCH 614, ARCH 914**ARCH 614 Architectural Design: Terminal Project Studio II****Crosslisted with:** ARCH 914**Prerequisites:** ARCH 613/913**Description:** Advanced architectural design. The second part of a year-long design project initiated by the student under the supervision and guidance of a faculty mentor. The second course in the sequence develops the formal expression and representation of a specific architectural project as described in the previous semester's work.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

ARCH 617 Product Design**Crosslisted with:** ARCH 417, ARCH 817, IDES 417**Prerequisites:** Admission to a professional program in the College of Architecture.**Description:** Practical investigation in the use of materials and their fabrication process with emphasis on wood, plastic, and steel. Generate a design from conception to a finished product.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 680 Professional Practice****Crosslisted with:** ARCH 880**Description:** Orientation to professional practice through a study of the architects' and the contractors' relationships to society, specific clients, their professions, and other collaborators in the environmental design and construction fields. Ethics; professional communication and responsibility; professional organizations; office management; construction management; legal and contractual relationships; professional registration; and owner-architect-contractor relationships.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 691 Seminar in Architecture****Crosslisted with:** ARCH 991**Prerequisites:** ARCH 550/850 and permission**Description:** Contemporary problems in design and practice.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 695 Internship****Crosslisted with:** ARCH 895**Prerequisites:** ARCH 550/850 and permission**Description:** Exposure to the architectural profession through office application including job promotion, client relations, data collection, design, production drawings, estimating, specifications, bid documents, and quality control.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**ARCH 697 Selected Topics in Architecture****Crosslisted with:** ARCH 497, ARCH 497H, ARCH 597, ARCH 897**Prerequisites:** Permission.**Description:** Group investigation of a topic in architecture originated by the instructor.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC**ARCH 699 Masters Thesis****Crosslisted with:** ARCH 899**Prerequisites:** ARCH 896; any two of ARCH 511/911, 612/812, or 613/913; admission to masters degree program and permission of major adviser**Description:** Projects to place special emphasis upon a major field of interest. Design problem or written thesis.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 10**Format:** IND

Graduate Courses

ARCH 800 Architecture Core Studio I: Project**Crosslisted with:** ARCH 500**Prerequisites:** Admission into the 3 Year Master of Architecture program or permission.**Description:** Introduction to architectural design through spatial and formal projects using representational techniques. A series of collaborative and individual projects introduce design process, iteration, tectonics, representation, and structure as fundamental aspects of design that relate architecture to the human subject.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Prerequisite for:** ARCH 501, ARCH 801**ARCH 801 Architecture Core Studio II: Incorporate****Crosslisted with:** ARCH 501**Prerequisites:** ARCH 800**Description:** The studio extends the methodologies from the preceding studio to include outside influences such as site, urbanism, program, culture, and materiality. Projects increase in scope and complexity and integrate a wide range of inputs through research and analysis.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**ARCH 810 Advanced Architectural Design I****Crosslisted with:** ARCH 510**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** FALL**Prerequisite for:** ARCH 613, ARCH 913**ARCH 811 Advanced Architectural Design II****Crosslisted with:** ARCH 511**Prerequisites:** Admission into the Master of Architecture program.**Description:** Vertically integrated 5th and 6th year studio.**Credit Hours:** 5**Max credits per semester:** 5**Max credits per degree:** 5**Format:** SDO**Offered:** FALL

ARCH 815 Architectural Design: Terminal Project Studio I**Prerequisites:** MArch/MCRP dual degree candidate. Coreq: CRPL 990.**Notes:** Submission of a statement of intent and a contract with an architecture faculty mentor is required.**Description:** Advanced architectural design. Initial investigation into the parameters and agenda leading to a proposal for the terminal studio project.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** SDO**ARCH 816 Architectural Design: Terminal Project Studio II****Prerequisites:** Permission.**Description:** Detailed formal design development of the terminal studio project established in ARCH 815 and CRPL 990.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** SDO**ARCH 817 Product Design****Crosslisted with:** ARCH 417, ARCH 617, IDES 417**Prerequisites:** Admission to a professional program in the College of Architecture.**Description:** Practical investigation in the use of materials and their fabrication process with emphasis on wood, plastic, and steel. Generate a design from conception to a finished product.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 818 Fabrication and Construction Team****Crosslisted with:** ARCH 418, ARCH 518**Prerequisites:** Permission.**Description:** The shifting relationship between conceiving and making through hands-on, collaborative experience with actual design-construct projects in which students play a decisive role in all aspects of research, design and construction of the commission.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**ARCH 826 Digital Fabrication****Crosslisted with:** ARCH 526**Prerequisites:** Permission.**Description:** Examination of the theory and application of the file-to-factory design process. Exploratory case study projects include small fabricated architectural models of forms, surface and structure.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 832A Seismic Design for Architects****Crosslisted with:** ARCH 532A**Prerequisites:** Permission**Description:** Introduction to basic seismic design principles. Making critical decisions concerning the overall performance of a building during an earthquake.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ARCH 840 Details****Crosslisted with:** ARCH 440, ARCH 540**Prerequisites:** ARCH 341 or permission.**Description:** Focused study of architectural theory and problems of practice and physicality examined in the context of the architectural detail.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 843 Architectural Representations: Theory + Application****Crosslisted with:** ARCH 443, ARCH 543**Prerequisites:** ARCH 311 or by Permission.**Description:** Explores architectural practice relative to representational communication both internally within the design process as well as with an external audience. This course also investigates the impact of tangential techniques appropriated to the practice. Readings, discussions, and projects will focus on issues of perception and projection relative to these systems and how they impact the practice of architecture in a contemporary context. Course structure is both a theory seminar addressing the position of representation through readings, as well as a laboratory for investigating their application.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 844 Design Thesis Preparation Seminar****Crosslisted with:** ARCH 544**Prerequisites:** ARCH 489, ARCH 341**Notes:** Required preparation for the Design Thesis track (ARCH 613/ARCH 614)**Description:** Focused workshop for conceiving and articulating current architectural problems to frame the argumentation and reasoning towards a design thesis proposal.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** SPRING**ARCH 858 The Changing Workplace****Crosslisted with:** ARCH 458, ARCH 558, IDES 458, IDES 858**Description:** Survey and integration of theory, methods, research and findings from the social, behavioral, and managerial sciences as they relate to the design of work environments. Factors effecting change in the contemporary workplace.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ARCH 861 Urbanism**Crosslisted with:** ARCH 461, LARC 461, ARCH 561**Prerequisites:** Admission to a professional program in the College of Architecture**Notes:** Letter grade only.**Description:** Issues of contemporary urbanism and the processes of urban design. Experiential nature of cities, role of public policy, ideology, genesis and development of urban form and space.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 862 Urbanism and the Catalysts of Change****Crosslisted with:** ARCH 562**Prerequisites:** Admission into the graduate portion of the professional program in architecture**Description:** Exploration into the relationship between the evolution of urbanism and the cultural, economic and scientific advances made by civilization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 863 Project Territory****Crosslisted with:** ARCH 563**Prerequisites:** Admission into the graduate portion of the professional program in architecture**Description:** Comprehensive review and examination of territorial relationships between spatial development, engineering, ecology, and architecture. Focuses on emerging factors affecting urban, suburban, and rural communities and spatial configurations beyond the binary of city and country.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 865 Configurational Formations****Crosslisted with:** ARCH 565**Prerequisites:** Admissions to the professional architecture program, or permission.**Description:** Investigation of evolutions in typological reasoning leading up to and including contemporary configurational theory. Use of graphic modeling to research, dissect, compare and discuss select topics and case studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ARCH 866 Community Design Center****Crosslisted with:** ARCH 466, ARCH 566**Prerequisites:** Permission.**Description:** Community-oriented design studio. The design process and its relationship to the environmental development process.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**ARCH 867 Planting Design****Crosslisted with:** ARCH 467, ARCH 567, LARC 467, HORT 467**Prerequisites:** HORT/LARC/NRES 212; ARCH 210 or HORT/LARC 266.**Description:** Design processes, principles, and elements as applied to the use of native and ornamental plant materials. Aesthetic, functional, and micro-climatic arrangements of plant material in parks, on commercial property, on home grounds, along roadways, and in urban open spaces. Develop a palette of plants and graphics for designs.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ARCH 880 Professional Practice****Crosslisted with:** ARCH 680**Description:** Orientation to professional practice through a study of the architects' and the contractors' relationships to society, specific clients, their professions, and other collaborators in the environmental design and construction fields. Ethics; professional communication and responsibility; professional organizations; office management; construction management; legal and contractual relationships; professional registration; and owner-architect-contractor relationships.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 881 Women in Design****Crosslisted with:** ARCH 481, ARCH 581, IDES 481**Prerequisites:** Admission to the BSD program.**Description:** Intensive study of particular historical and contemporary contributions by women to the design professions related to the built environment. Evaluation of design work by and about women seen in their aesthetic and intellectual context. Examinations of the roles and values of women in design and their impact on the assumptions and issues currently held by the profession.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 882 Advanced Color Theory****Crosslisted with:** ARCH 482, ARCH 582, IDES 482, IDES 882**Prerequisites:** Admission to the third year in architecture or Interior Design Program.**Description:** Advanced color theories and their application to the Built environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ARCH 885 Research Methods in Architecture and Interior Design****Crosslisted with:** IDES 885**Description:** Research methods employed by the diverse specializations within the disciplines of architecture and interior design. Methods which contribute to a theoretical and informational body of knowledge as well as those contributing directly to design application.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ARCH 889 Design Research**Crosslisted with:** ARCH 489, ARCH 589, IDES 489, IDES 889, LARC 489**Prerequisites:** Admission to a professional program in the College of Architecture.**Description:** Comprehensive overview of the complementary and contributory relationship between research and design, with a particular emphasis on design research as a projective activity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ARCH 895 Internship****Crosslisted with:** ARCH 695**Prerequisites:** ARCH 550/850 and permission**Description:** Exposure to the architectural profession through office application including job promotion, client relations, data collection, design, production drawings, estimating, specifications, bid documents, and quality control.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**ARCH 897 Selected Topics in Architecture****Crosslisted with:** ARCH 497, ARCH 497H, ARCH 597, ARCH 697**Prerequisites:** Permission.**Description:** Group investigation of a topic in architecture originated by the instructor.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC**ARCH 898 Problems in Architecture****Crosslisted with:** ARCH 498, ARCH 498H, ARCH 598**Prerequisites:** Permission.**Description:** Individual investigation of a topic in architecture.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** IND**ARCH 899 Masters Thesis****Crosslisted with:** ARCH 699**Prerequisites:** ARCH 896; any two of ARCH 511/911, 612/812, or 613/913; admission to masters degree program and permission of major adviser**Description:** Projects to place special emphasis upon a major field of interest. The first part of a year-long design project initiated by the student and developed in conjunction with a faculty mentor. The first course in the sequence consists of initial studies that are further developed and completed in the following semester. These initial studies lead to a written and visual proposal that sets the parameters and the agenda for detailed formal design explorations in the following semester.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**Prerequisite for:** ARCH 614, ARCH 914**ARCH 914 Architectural Design: Terminal Project Studio II****Crosslisted with:** ARCH 614**Prerequisites:** ARCH 613/913**Description:** Advanced architectural design. The second part of a year-long design project initiated by the student under the supervision and guidance of a faculty mentor. The second course in the sequence develops the formal expression and representation of a specific architectural project as described in the previous semester's work.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**ARCH 991 Seminar in Architecture****Crosslisted with:** ARCH 691**Prerequisites:** ARCH 550/850 and permission**Description:** Contemporary problems in design and practice.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Art History and Criticism (AHIS)

AHIS 805 Curatorial Methods in an Art Museum

Prerequisites: AHIS 905

Description: Understanding through direct experience how the rhetoric of the art museum and art exhibition alters, frames and revises art historical arguments, issues, questions and research. In order to do so, each iteration of the seminar will select a particular art historical concept (e.g. ephemeral art; interactive art; gendered art; labor and(in) art; illness and art, and so on) and critically assess how curators can best express an argument about the history and meaning of art within the terms set by the museum. Those terms include both the ideological and practical: education, conservation, collections management, marketing development, publications, visitor evaluation and administration. Students will gain a sophisticated understanding of the methods available to curators for researching, organizing and expressing an art historical question in the form of an exhibition. The Sheldon Museum of Art serves as a lab for this course. Students will follow the path of an exhibition from original proposal to installation, considering the curator's involvement and interactions with all the departments of the museum.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 806 Visualizing the Ancient City

Crosslisted with: AHIS 406, ANTH 406, ANTH 806, CLAS 406, CLAS 806

Prerequisites: Junior standing.

Notes: Recommend some background knowledge of ancient art, history, or languages, a general background course such as AHIS 101, ANTH 252, CLAS 209/CLAS 210, or any of the courses listed in the Archaeology or Digital Humanities minors. Computer/design skills welcome but not necessary.

Description: A new approach to looking at the history and development of ancient cities, combining history and archaeology with digital methods, in particular 3D modeling.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 811 Classical Architecture

Crosslisted with: AHIS 411

Prerequisites: 12 hrs in art history or related disciplines with permission.

Description: History and development of architectural orders and styles from ancient Greece and Italy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 812 Greek Sculpture

Crosslisted with: AHIS 412

Prerequisites: 12 hrs in art history or related disciplines with permission.

Description: Greek sculpture from the Bronze Age through the Hellenistic periods. Stylistic evolution and classical themes as presented in individual freestanding and architectural sculpture. Techniques, materials, and uses of sculpture.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 813 Roman Painting

Crosslisted with: AHIS 413

Prerequisites: 12 hrs in art history or related disciplines with permission.

Description: Development of Roman painting from the Etruscans through the Age of Constantine.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 818 Gothic Painting and Prints

Crosslisted with: AHIS 418

Prerequisites: 12 hrs in art history, including AHIS 318, or in related disciplines with permission.

Description: Style, iconography, history, and function of painting and prints from ca. 1150 to 1475 in France, Germany, and the Netherlands. Includes manuscript illumination, stained glass, panel painting, woodcuts, and engravings, stressing the development of naturalism before the "Renaissance" in Northern Europe.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 821 The Italian Renaissance City

Crosslisted with: AHIS 421

Prerequisites: 12 hrs in art history, or in related disciplines with permission.

Description: Exploration of the art and architecture of the Italian city in the late middle ages and Renaissance, with particular attention to civic projects and the role of art in defining the identity, and creating the "myths" of that city.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 826 Northern Renaissance and Reformation Art

Crosslisted with: AHIS 426

Prerequisites: 12 hrs in art history, including AHIS 318 or 418, or in related disciplines with permission.

Description: Art of the Renaissance and Reformation in Germany and the Netherlands. Stresses the influences of Italian Renaissance Art and the impact of the Protestant Reformation from ca. 1475 to 1575.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 831 Italian Baroque Art

Crosslisted with: AHIS 431

Prerequisites: 12 hrs in art history or in related disciplines with permission.

Description: Painting, sculpture and architecture in Italy from the late sixteenth to the late seventeenth century.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

AHIS 841 Impressionism and Post-Impressionism**Crosslisted with:** AHIS 441**Prerequisites:** 12 hr in art history or in related disciplines with permission.**Description:** French Impressionism and Post-impressionism with consideration of the historical context out of which they emerged. Art-Drawing (DRAW)

DRAW 801 Drawing I**Description:** Graduate-level work in various drawing media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**DRAW 802 Drawing II****Description:** Graduate-level work in various drawing media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**DRAW 896 Problems in Drawing****Crosslisted with:** DRAW 496**Prerequisites:** Permission of the Instructor**Description:** Independent Study in Drawing**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** IND**DRAW 901 Drawing III****Description:** Graduate-level work in drawing, that can include the exploration of a variety of media and visual ideas.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO

DRAW 902 Drawing IV

Description: Graduate-level work in drawing, that can include the exploration of a variety of media and visual ideas.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Art-Graphic Design & Illustration (GRPH)

GRPH 821 Graphic Design I

Description: Graduate-level work in various graphic design media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: GRPH 921; GRPH 922

GRPH 822 Graphic Design II

Description: Graduate-level work in various graphic design media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: GRPH 921; GRPH 922

GRPH 825 Interaction Design II: Interactive Storytelling

Crosslisted with: GRPH 425

Prerequisites: GRPH 325.

Description: Exploration of interactive, multi-dimensional storytelling on the web, mobile devices, gaming systems and tablets.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: SDO

Prerequisite for: GRPH 925

GRPH 896 Problems in Graphic Design

Crosslisted with: GRPH 496

Prerequisites: Graphic Design major and permission.

Notes: Topics, activities, and delivery methods vary depending on individual course expectations.

Description: Independent study course exploring subject matter in specialized areas of graphic design.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

GRPH 921 Advanced Graphic Design I

Prerequisites: GRPH 821-822 or permission

Description: Advanced graduate-level work in various graphic design media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

GRPH 922 Advanced Graphic Design II

Prerequisites: GRPH 821-822 or permission

Description: Advanced graduate-level work in various graphic design media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

GRPH 925 Book Arts

Prerequisites: GRPH 825 or permission

Description: Continued graduate work in limited edition and/or unique book arts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Art-Painting (PANT)

PANT 851 Painting I

Description: Graduate-level work in various painting media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PANT 951; PANT 952

PANT 852 Painting II

Description: Graduate-level work in various painting media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PANT 951; PANT 952

PANT 896 Problems in Painting

Crosslisted with: PANT 496

Prerequisites: Permission of Instructor

Description: Independent Study in Painting

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 9

Format: IND

PANT 951 Painting III

Prerequisites: PANT 851-852

Description: Graduate-level work in various painting media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

PANT 952 Painting IV

Prerequisites: PANT 851-852

Description: Graduate-level work in various painting media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Art-Photography (PHOT)

PHOT 861 Photography I

Prerequisites: Permission

Description: Graduate-level work in various photographic media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PHOT 862; PHOT 899; PHOT 961

PHOT 862 Photography II

Prerequisites: PHOT861

Description: Graduate-level work in various photographic media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PHOT 899; PHOT 961

Groups: Additional Anthropology Course

PHOT 891 Special Topics in Photography

Crosslisted with: PHOT 491

Prerequisites: PHOT 261.

Description: Special Topics in Photography.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 18

Format: SDO

PHOT 896 Problems in Photography

Prerequisites: Permission

Description: Problems in technique and expression. Independent study.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

PHOT 899 Studio Thesis in Photography

Prerequisites: PHOT 861, 862, 961, 962

Description: Thesis work in various photographic media and concepts.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 10

Format: IND

PHOT 961 Photography III

Prerequisites: PHOT861, 862

Description: Graduate-level work in various photographic media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PHOT 899; PHOT 962

PHOT 962 Photography IV

Prerequisites: PHOT961

Description: Graduate-level work in various photographic media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PHOT 899

PHOT 996 Advanced Problems in Photography

Prerequisites: Permission

Description: Problems in technique and expression. Advanced laboratory experience. Independent study.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

Art-Printmaking (PRNT)

PRNT 841 Printmaking I

Description: Graduate-level work in various printmaking media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PRNT 941; PRNT 942

PRNT 842 Printmaking II

Description: Graduate-level work in various printmaking media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: PRNT 941; PRNT 942

PRNT 891 Special Topics in Printmaking**Crosslisted with:** PRNT 491**Description:** Special Topics in Printmaking, advanced level.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC**PRNT 896 Problems in Printmaking****Crosslisted with:** PRNT 496**Prerequisites:** Permission of Instructor**Description:** Independent study in printmaking.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** LEC**PRNT 941 Printmaking III****Prerequisites:** PRNT 841-842**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**PRNT 942 Printmaking IV****Prerequisites:** PRNT 841-842**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**PRNT 996 Problems in Printmaking****Prerequisites:** Permission**Description:** Independent study in Printmaking.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** SDO

Art-Sculpture (SCLP)

SCLP 811 Sculpture I**Description:** Graduate-level work in various sculpture media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**Prerequisite for:** SCLP 911; SCLP 912**SCLP 812 Sculpture II****Description:** Graduate-level work in various sculpture media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**Prerequisite for:** SCLP 911; SCLP 912**SCLP 896 Problems in Sculpture****Crosslisted with:** SCLP 496**Prerequisites:** Permission of Instructor**Description:** Independent Study in Sculpture**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 9**Format:** IND**SCLP 911 Sculpture III****Prerequisites:** SCLP 811-812**Description:** Graduate-level work in various sculpture media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**SCLP 912 Sculpture IV****Prerequisites:** SCLP 811-812**Description:** Graduate-level work in various sculpture media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO

Art-Special Topics (ARTS)

ARTS 898 Special Topics in Studio Art IV**Crosslisted with:** ARTS 498**Prerequisites:** Permission**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** SDO**ARTS 898A Special Topics in Art IV****Crosslisted with:** ARTS 498A**Prerequisites:** Permission**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC

Art-Watercolor (WATC)

WATC 857 Watercolor I**Description:** Graduate-level work in various watercolor media and concepts.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** SDO**Prerequisite for:** WATC 957; WATC 958

WATC 858 Watercolor II

Description: Graduate-level work in various watercolor media and concepts.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Prerequisite for: WATC 957; WATC 958

WATC 957 Watercolor III

Prerequisites: WATC 857-858

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

WATC 958 Watercolor IV

Prerequisites: WATC 857-858

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: SDO

Astronomy (ASTR)

ASTR 803 Galactic and Extragalactic Astronomy

Crosslisted with: ASTR 403

Prerequisites: ASTR 204 and PHYS 213, and permission.

Description: Introduction to the techniques for determining constituents and dynamics of our galaxy, including interstellar matter and theories of spiral arm formation. Extragalactic topics include basic characteristics of galaxies, active galaxies, quasars, evolution, and the cosmological distance scale.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASTR 804 Stellar Astrophysics

Crosslisted with: ASTR 404

Prerequisites: ASTR 204; PHYS 213; and permission.

Description: Stellar atmospheres, interiors, and evolution. Theoretical and observational aspects of stellar astronomy. The relation between observed parameters and theoretical parameters, star formation, stellar energy generation, and degenerate stars.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASTR 805 Physics of the Solar System

Crosslisted with: ASTR 405

Prerequisites: ASTR 204; MATH 107/107H; PHYS 142/142H or PHYS 212/212H.

Description: Celestial mechanics; tidal effects; planetary interiors; atmospheres and surfaces; comets; asteroids; and the origin of the solar system. Applying physics to the solution of solar system problems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASTR 807 Physics of the Interstellar Medium

Crosslisted with: ASTR 407

Prerequisites: ASTR 204 and PHYS 213.

Description: Gaseous nebulae, interstellar dust, interstellar clouds and star forming regions. Theoretical and observational aspects of the various components of the interstellar medium. Includes the physics of emission nebulae, the properties of the interstellar dust, interstellar molecules and the properties of clouds in which star formation occurs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ASTR 898 Special Topics

Crosslisted with: ASTR 498

Prerequisites: ASTR 204 and permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

ASTR 997 Special Topics in Astronomy

Prerequisites: Permission

Description: Offered as the need arises to treat special topics in astronomy not covered in other 900-level courses.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: IND

Biological Chemistry (BIOC)

BIOC 801 Elements of Biochemistry

Crosslisted with: BIOC 401

Prerequisites: CHEM 255 (preferred) or CHEM 251; BIOS 101 and BIOS 101L or LIFE 120 and LIFE 120L

Notes: Will not count towards a biochemistry major.

Description: Structure and function of proteins, carbohydrates, lipids and nucleic acids; enzymes; principal metabolic pathways; and biochemical expression of genetic information.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: NUTR 450; NUTR 455; VBMS 410

BIOC 810 Plant Molecular Biology

Crosslisted with: AGRO 810, HORT 810

Prerequisites: AGRO 215 or BIOS 206; BIOC 831

Description: Molecular genetic basis of biological function in higher plants. Genome organization, gene structure and function, regulation of gene expression, recombinant DNA, and genetic engineering principles. Material taken primarily from current literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

BIOC 818 Agricultural Biochemistry**Crosslisted with:** AGRO 818**Prerequisites:** Undergraduate major in life sciences or related area, and a course in biochemistry**Description:** A Web-based course. Biochemical underpinnings of agricultural production and processing systems. Agricultural biotechnology; bioenergetics; kinetics and enzyme regulation; interaction of biomolecules with light, photosynthesis and the balance between anabolism and catabolism in microbes, plants and animals.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** IND**Prerequisite for:** VBMS 919**BIOC 831 Structure and Metabolism****Crosslisted with:** BIOC 431, BIOS 431, BIOS 831, CHEM 431, CHEM 831**Prerequisites:** LIFE 120 with a grade of C or better; CHEM 252 or CHEM 262 with a grade of C or better.**Notes:** BIOS 206 or AGRO 215 is recommended.**Description:** Structure and function of proteins, nucleic acids, carbohydrates and lipids; nature of enzymes; major metabolic pathways of catabolism; and biochemical energy production.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, BIOS 834, CHEM 834; AGRO 810, BIOC 810, HORT 810; ASCI 820; ASCI 917; ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927; BIOC 305; BIOC 432, BIOC 832, BIOS 432, CHEM 432, CHEM 832, BIOS 832; BIOC 433, BIOC 833, BIOS 433, BIOS 833, CHEM 433, CHEM 833; BIOS 879; BIOS 950, VBMS 950; FDST 470, FDST 870; NUTR 450; NUTR 455; NUTR 820; NUTR 821; VBMS 410; VBMS 805**BIOC 832 Metabolism and Biological Information****Crosslisted with:** BIOC 432, BIOS 432, CHEM 432, CHEM 832, BIOS 832**Prerequisites:** BIOC 431/831 with a grade of C or better; BIOS 206 or AGRO 215 with a grade of C or better.**Notes:** Continuation of BIOC 431/831.**Description:** Major metabolic pathways of anabolism, structural and biochemical aspects of biological information flow and use in biotechnology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 949, BIOC 949, BIOS 949, NUTR 949; BIOC 435; BIOC 932, BIOS 932, CHEM 932; BIOC 933, BIOS 933, CHEM 933; BIOC 934, BIOS 934, CHEM 934; BIOC 935, BIOS 935, CHEM 935; BIOC 992K, CHEM 992K; BIOC 998; BIOS 950, VBMS 950; VBMS 919; VBMS 951**BIOC 833 Biochemistry Laboratory****Crosslisted with:** BIOC 433, BIOS 433, BIOS 833, CHEM 433, CHEM 833**Prerequisites:** BIOC 431/831 or parallel; or CHEM 435/835.**Description:** Introduction to techniques used in biochemical and biotechnology research, including measurement of pH, spectroscopy, analysis of enzymes, chromatography, fractionation of macromolecules, electrophoresis, and centrifugation.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** BIOC 437, BIOC 837, BIOS 437, BIOS 837; BIOC 898; CHEM 498**BIOC 834 Plant Biochemistry****Crosslisted with:** AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOS 834, CHEM 834**Prerequisites:** BIOC/BIOS/CHEM 431/831.**Description:** Biochemical metabolism unique to plants. Relationships of topics previously acquired in general biochemistry to biochemical processes unique to plants. Biochemical mechanisms behind physiological processes discussed in plant or crop physiology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 836 Physical Basis of Macromolecular Function****Crosslisted with:** CHEM 836**Description:** Introduction to the theory and practice of biophysical characterization of macromolecules. The course will be based on primary research literature, although a supporting text will be used for in depth discussion of the methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 837 Research Techniques in Biochemistry****Crosslisted with:** BIOC 437, BIOS 437, BIOS 837**Prerequisites:** BIOC/BIOS/CHEM 433/833.**Description:** Methods approach to systems biology analysis. Molecular identification and quantification employing techniques such as mass spectrometry, chromatography, electrophoretic fractionation, transcriptomics, proteomics and metabolomics. Data and pathway analysis with computational methods.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** VBMS 919

BIOC 839 Dynamics of Biochemical and Biological Networks**Crosslisted with:** BIOC 439, BIOS 439, BIOS 839**Prerequisites:** BIOS 206 or AGRO 215; BIOC 401 or BIOC 431**Notes:** Letter grade only.**Description:** To introduce and integrate, students in biochemistry and other life sciences, to the field of computational modeling of biochemical and biological network systems into a seamless curriculum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** ASCI 949, BIOC 949, BIOS 949, NUTR 949; BIOC 932, BIOS 932, CHEM 932; BIOC 933, BIOS 933, CHEM 933; BIOC 992K, CHEM 992K; BIOC 998**BIOC 842 Computational Biology****Crosslisted with:** STAT 842, STAT 442, BIOC 442**Prerequisites:** Any introductory course in biology, or genetics, or statistics.**Description:** Databases, high-throughput biology, literature mining, gene expression, next-generation sequencing, proteomics, metabolomics, system biology and biological networks.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 848 Redox Biochemistry****Crosslisted with:** CHEM 848**Prerequisites:** 3 hrs BIOC and 3 hrs inorganic chemistry**Description:** Redox (oxidation and reduction)-based biochemical processes (energy generation, oxygen transfer, enzyme catalysis, signaling, gene regulation, and diseases). Recent progress in these areas. Roles of metals in biochemical reactions, metal homeostasis, and biosynthesis of metal cofactors and metal sites. Biochemistry and pathophysiology of redoxactive species and radicals. Antioxidant molecules and enzymes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 886 Advanced Topics in Biophysical Chemistry****Crosslisted with:** BIOC 486, BIOS 486, BIOS 886, CHEM 486, CHEM 886**Prerequisites:** CHEM 471/871 or CHEM 481/881.**Description:** Applications of thermodynamics to biochemical phenomena, optical properties of proteins and polynucleotides, and kinetics of rapid reactions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 898 Research in Biochemistry****Prerequisites:** BIOC 833 and permission**Description:** Laboratory research on a specific problem under the supervision of a biochemistry faculty member.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**BIOC 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**BIOC 932 Proteins****Crosslisted with:** BIOS 932, CHEM 932**Prerequisites:** BIOC/BIOS/CHEM 832 or BIOC/BIOS/CHEM 839**Description:** Protein structure and function.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**BIOC 933 Enzymes****Crosslisted with:** BIOS 933, CHEM 933**Prerequisites:** BIOC/BIOS/CHEM 432/832, or BIOC/BIOS/CHEM 839**Description:** Kinetics regulation and reaction mechanisms of enzymes.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**BIOC 934 Genome Dynamics and Gene Expression****Crosslisted with:** BIOS 934, CHEM 934**Prerequisites:** BIOC/BIOS/CHEM 832 or permission**Description:** Detailed examination of dynamic control mechanisms of genome maintenance and gene regulation. Mechanisms of transcription, translation, and replication based on analysis of current and seminal literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 935 Metabolic Function and Dysfunction****Crosslisted with:** BIOS 935, CHEM 935**Prerequisites:** BIOC/CHEM/BIOS 432/832 and permission**Description:** Current metabolic research at the bioenergetic, metabolomic, and molecular level. The normal metabolic processes that go awry in cancer, obesity, and oxidative stress.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 949 Biochemistry of Nutrition****Crosslisted with:** ASCI 949, BIOS 949, NUTR 949**Prerequisites:** BIOC 832 or 839**Notes:** Offered odd-numbered calendar years.**Description:** Offered odd-numbered calendar years. Interrelationships of nutrients, nutritional state and metabolic processes. Energy metabolism, integration of nutrition and metabolism and nutritional regulation of gene function.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

BIOC 992K Seminar in Biological Chemistry**Crosslisted with:** CHEM 992K**Prerequisites:** BIOC 832 or 839; and permission**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**BIOC 998 Advanced Topics in Biochemistry****Prerequisites:** BIOC 832 and 839**Description:** BIOC 998 is a special biochemistry topics when faculty and student needs cannot be met by other courses.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOC 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Biological Sciences (BIOS)

BIOS 802 Cancer Biology**Crosslisted with:** BIOS 402**Prerequisites:** BIOS 206 and Senior standing.**Description:** Principles of cancer genetics, cancer prevention, and new methods for diagnosis and therapy. Fundamentals of the cell and molecular events that lead to human cancer.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 803 Principles of Evolution****Description:** Micro- and macroevolutionary patterns and processes. Population genetics, evolutionary ecology, speciation, phylogenetic systematics, and biogeographic patterns of extant and extinct taxa.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 804 Principles of Behavioral Ecology****Description:** Introduction to the ecology and evolution of animal behavior.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BIOS 955; BIOS 962**BIOS 805 Principles of Ecology****Description:** Ecological principles at the populations, community, and ecosystem levels. Population growth, meta-population dynamics, competitive and predatory interactions, temporal and spatial variation in community food webs, trophic cascades, patterns and mechanisms underlying species diversity, ecosystem processes, nutrient cycling, and global change.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BIOS 955; BIOS 958**BIOS 806 Insect Ecology****Crosslisted with:** BIOS 406, ENTO 406, ENTO 806**Prerequisites:** BIOS/NRES 220 and 222.**Description:** Biotic and abiotic factors as they influence insect development, behavior, distribution, and abundance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 807 Biology of Cells and Organelles****Crosslisted with:** BIOS 407**Prerequisites:** BIOS 206.**Description:** Regulation and timing of macromolecular synthesis during the cell cycle; the genetic autonomy of mitochondria and chloroplasts.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 808 Functional Histology****Crosslisted with:** BIOS 408, VBMS 408, VBMS 808**Prerequisites:** BIOS 101 and 101L or LIFE 120 and 120L or BIOS 112; BIOS 213 or ASCI 240 or ASCI 340.**Description:** Microscopic anatomy of the tissues and organs of major vertebrate species, including humans. Normal cellular arrangements of tissues and organs as related to their macroscopic anatomy and function, with reference to sub-cellular characteristics and biochemical processes. Functional relationships among cells, tissues, organs and organ systems, contributory to organismal well being. General introduction to pathological processes and principles underlying some diseases.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 809 Professionalism****Notes:** Pass/No Pass only.**Description:** Discussion of skills needed to be a professional scientist including: writing, submitting, editing, and revision of journal articles and grant proposals; preparation of oral and poster presentations; and ethical issues in research and teaching.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

BIOS 811 Plant Tissue Culture**Crosslisted with:** HORT 811, NRES 811**Description:** Survey of techniques used in plant cell, tissue and organ culture, including current research. Laboratory emphasizes practical manipulation of plant cells, tissues, and organs, including examples from woody and herbaceous plant species.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 812 Human Genetics****Crosslisted with:** BIOS 412**Prerequisites:** BIOS 206 and Senior standing.**Description:** Genetic basis of human variation, with emphasis on methods of applying genetic principles to humankind. Genetic ratios in pooled data; population and quantitative genetics; consanguinity; polygenic inheritance; blood types; sex linkage; linkage and crossing over; sex determination; visible chromosome variation; mutation; heredity and environment; eugenics; anthropological genetics; molecular genetics and molecular basis of disease; human genome project.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 815 Developmental Biology****Crosslisted with:** BIOS 415**Prerequisites:** BIOS 206.**Description:** Survey of topics in developmental biology, both animal and plant development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 816 Biodiversity Conservation****Crosslisted with:** BIOS 416**Prerequisites:** BIOS 207 or NRES 220**Description:** Basic conservation science theory and conservation decision making tools which are essential for making effective decisions for biodiversity conservation. Topics include systematic conservation planning, population viability analysis, risk assessment, and applying those tools to real conservation problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 818 Advanced Genetics****Crosslisted with:** BIOS 418**Prerequisites:** BIOS 206 and Senior standing.**Description:** In-depth study of the principles and methodology of genetics, with emphasis on *Drosophila*: multiple alleles and complex loci, linkage and recombination, chromosome rearrangements, fine structure analysis, sex determination, recombinant DNA, and gene function in development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 820 Molecular Genetics****Crosslisted with:** BIOS 420, VBMS 820, MBIO 420**Prerequisites:** BIOS 206 and Senior standing**Description:** Molecular basis of genetics. Gene structure and regulation, transposable elements, chromosome structure, DNA replication, and repair mechanisms and recombination.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGRO 963, HORT 963, PLPT 963; BIOS 945; BIOS 964, VBMS 964; FDST 908B**BIOS 821 Microbial Diversity****Crosslisted with:** BIOS 421, MBIO 421**Prerequisites:** BIOS 206 and BIOS 312 and Senior Standing.**Description:** Diversity of microbial cell composition, structure, and function enabling movement, metabolism, symbiosis, and adaptation using bacterial, fungal, algal, and viral examples. A physiological, biochemical and molecular approach used throughout.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 822 Comparative Physiology****Crosslisted with:** BIOS 422**Prerequisites:** BIOS 213**Description:** Comprehensive survey of comparative physiology with emphasis on the diversity of adaptations in basic physiological systems and the effects of environmental parameters upon such systems.

Comparative physiology of osmoregulation, temperature regulation, metabolism, muscle, central nervous function, and sensory function.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 823 Quaternary Paleoclimatology and Paleoecology****Crosslisted with:** BIOS 423, GEOL 423, GEOL 823**Prerequisites:** 12 hrs GEOL or BIOS.**Description:** Analysis and interpretation of the Quaternary period's paleoecological data. Patterns of long-term climate variation. Distribution patterns and responses of organisms and ecosystems to Quaternary environmental change.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 824 Biogeochemical Cycles****Crosslisted with:** BIOS 424, GEOL 424, GEOL 824**Prerequisites:** CHEM 109 or 113; 12 hrs GEOL or BIOS.**Description:** Chemical cycling at or near the earth's surface, emphasizing interactions among the atmosphere, biosphere, geosphere and hydrosphere. Modern processes, the geological record, and human impacts on elemental cycles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

BIOS 825 Plant Biotechnology**Crosslisted with:** BIOS 425**Prerequisites:** BIOS 206.

Description: Introduction to the use of plants for basic and applied purposes by deliberate manipulation of their genomes; techniques in plant genetic engineering; manipulations of plant development and metabolism; engineering pest, disease, and stress resistance; plants as bioreactors; and environmental and social impacts of plant biotechnology.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 826 Systems Biology****Crosslisted with:** BIOS 426

Prerequisites: LIFE 120 and LIFE 121 or BIOS 101; STAT 218 or STAT 380 or EDPS 459 or PSYC 350 or ECON 215.

Notes: BIOS 206 and CSCE 155T are recommended, but not required.

Description: Fundamentals of the analysis of high throughput experiments to understand complex biological systems. Principles and methods such as next generation sequencing, protein-protein interaction networks, regulatory networks, and biological data mining and integration. Emerging research in new biotechnology and data analysis in biomedical and life sciences.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 827 Practical Bioinformatics Laboratory****Crosslisted with:** BIOS 427**Prerequisites:** BIOS 206

Notes: No computer programming skill is required.

Description: Basic knowledge and skills needed for general bioinformatics, genomics and proteomics analyses. Various computational analyses including database search, sequence alignment, phylogenetic reconstruction, gene prediction/mining, microarray data analyses and protein structure analyses.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 828 Perl Programming for Biological Applications****Crosslisted with:** BIOS 428**Prerequisites:** LIFE 120 and LIFE 121.

Description: Computer programming, using Perl, as applied to biological sciences, bioinformatics, computational biology, and genomics.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 829 Phylogenetic Biology****Crosslisted with:** BIOS 429**Prerequisites:** BIOS 207 and Senior standing

Description: Principles of phylogenetic inference and emphasis on the application of phylogenetic hypotheses in biology and the biomedical sciences. How inferences derived from phylogenetic trees can be applied in different areas of biological investigation including systematics, biogeography, conservation biology, molecular evolution, genome structure, epidemiology, population biology, ecology, character evolution, behavior, and macroevolution.

Credit Hours: 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 830 Communicating Science through Outreach****Crosslisted with:** BIOS 430**Prerequisites:** BIOS 207.

Notes: Students must have at least one afternoon available for running a middle school science club (typically between 3-5pm). Background checks required.

Description: Introduction to science communication, formal versus informal science education, and best practices in informal science education. Review of state and national science standards and how students learn. Introduction to informal science practitioners and facilities in Nebraska. Role playing and development and implementation of hands on, inquiry-based science activities. Training in evaluation and assessment.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**BIOS 831 Structure and Metabolism****Crosslisted with:** BIOC 431, BIOC 831, BIOS 431, CHEM 431, CHEM 831

Prerequisites: LIFE 120 with a grade of C or better; CHEM 252 or CHEM 262 with a grade of C or better.

Notes: BIOS 206 or AGRO 215 is recommended.

Description: Structure and function of proteins, nucleic acids, carbohydrates and lipids; nature of enzymes; major metabolic pathways of catabolism; and biochemical energy production.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR

Prerequisite for: AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, BIOS 834, CHEM 834; AGRO 810, BIOC 810, HORT 810; ASCI 820; ASCI 917; ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927; BIOC 305; BIOC 432, BIOC 832, BIOS 432, CHEM 432, CHEM 832, BIOS 832; BIOC 433, BIOC 833, BIOS 433, BIOS 833, CHEM 433, CHEM 833; BIOS 879; BIOS 950, VBMS 950; FDST 470, FDST 870; NUTR 450; NUTR 455; NUTR 820; NUTR 821; VBMS 410; VBMS 805

BIOS 832 Metabolism and Biological Information**Crosslisted with:** BIOC 432, BIOC 832, BIOS 432, CHEM 432, CHEM 832**Prerequisites:** BIOC 431/831 with a grade of C or better; BIOS 206 or AGRO 215 with a grade of C or better.**Notes:** Continuation of BIOC 431/831.**Description:** Major metabolic pathways of anabolism, structural and biochemical aspects of biological information flow and use in biotechnology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 949, BIOC 949, BIOS 949, NUTR 949; BIOC 435; BIOC 932, BIOS 932, CHEM 932; BIOC 933, BIOS 933, CHEM 933; BIOC 934, BIOS 934, CHEM 934; BIOC 935, BIOS 935, CHEM 935; BIOC 992K, CHEM 992K; BIOC 998; BIOS 950, VBMS 950; VBMS 919; VBMS 951**BIOS 833 Biochemistry Laboratory****Crosslisted with:** BIOC 433, BIOC 833, BIOS 433, CHEM 433, CHEM 833**Prerequisites:** BIOC 431/831 or parallel; or CHEM 435/835.**Description:** Introduction to techniques used in biochemical and biotechnology research, including measurement of pH, spectroscopy, analysis of enzymes, chromatography, fractionation of macromolecules, electrophoresis, and centrifugation.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** BIOC 437, BIOC 837, BIOS 437, BIOS 837; BIOC 898; CHEM 498**BIOS 834 Plant Biochemistry****Crosslisted with:** AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, CHEM 834**Prerequisites:** BIOC/BIOS/CHEM 431/831.**Description:** Biochemical metabolism unique to plants. Relationships of topics previously acquired in general biochemistry to biochemical processes unique to plants. Biochemical mechanisms behind physiological processes discussed in plant or crop physiology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 835 Evolutionary Medicine****Crosslisted with:** BIOS 435**Prerequisites:** BIOS 207**Description:** Application of evolutionary tools to biomedical questions. Managing the evolution of drug resistance and pathogen virulence. Evolutionary principles of vaccine design. Emerging infectious disease. Human evolutionary history. Life-history trade-offs in human evolution. Parent-offspring and parent-parent conflict. Mismatch hypothesis. Hygiene hypothesis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**BIOS 837 Research Techniques in Biochemistry****Crosslisted with:** BIOC 437, BIOC 837, BIOS 437**Prerequisites:** BIOC/BIOS/CHEM 433/833.**Description:** Methods approach to systems biology analysis. Molecular identification and quantification employing techniques such as mass spectrometry, chromatography, electrophoretic fractionation, transcriptomics, proteomics and metabolomics. Data and pathway analysis with computational methods.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** VBMS 919**BIOS 839 Dynamics of Biochemical and Biological Networks****Crosslisted with:** BIOC 439, BIOC 839, BIOS 439**Prerequisites:** BIOS 206 or AGRO 215; BIOC 401 or BIOC 431**Notes:** Letter grade only.**Description:** To introduce and integrate, students in biochemistry and other life sciences, to the field of computational modeling of biochemical and biological network systems into a seamless curriculum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** ASCI 949, BIOC 949, BIOS 949, NUTR 949; BIOC 932, BIOS 932, CHEM 932; BIOC 933, BIOS 933, CHEM 933; BIOC 992K, CHEM 992K; BIOC 998**BIOS 840 Microbial Physiology****Crosslisted with:** BIOS 440, VBMS 840, MBIO 440**Prerequisites:** BIOS 312; BIOS 313 or BIOS 314.**Description:** Molecular approaches to the study of prokaryotic cell structure and physiology, including growth, cell division, metabolism, and alternative microbial life styles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 841 Pathogenic Microbiology****Crosslisted with:** BIOS 441, VBMS 441, VBMS 441H, VBMS 841**Prerequisites:** BIOS 312**Description:** Fundamental principles involved in host-microorganism interrelationships. Identification of pathogens, isolation, propagation, mode of transmission, pathogenicity, symptoms, treatment, prevention of disease, epidemiology, and methods of control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** VBMS 805; VBMS 949

BIOS 842 Endocrinology**Crosslisted with:** ASCI 442, ASCI 842, BIOS 442, VBMS 842**Prerequisites:** A course in vertebrate physiology and/or biochemistry.**Description:** Mammalian endocrine glands from the standpoint of their structure, their physiological function in relation to the organism, the chemical nature and mechanisms of action of their secretory products, and the nature of anomalies manifested with their dysfunction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 843 Immunology****Crosslisted with:** BIOS 443, VBMS 843, MBIO 443**Prerequisites:** BIOS 206; CHEM 251 or CHEM 255 or CHEM 261.**Description:** Fundamental consideration of cellular and humoral mechanisms of immunity, the structure and function of immunoglobulins, antigen-antibody interactions; hypersensitivity; transplantation and tumor immunity; immune and autoimmune disorders.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BIOS 966, VBMS 966; VBMS 852; VBMS 908; VBMS 910; VBMS 948; VBMS 949**BIOS 844 Geomicrobiology****Crosslisted with:** BIOS 444, GEOL 444, GEOL 844**Prerequisites:** 3 hours of BIOS or 3 hours of LIFE; 3 hours of CHEM**Description:** Lectures and discussions of primary literature regarding microorganisms and their role transforming Earth through geologic time.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 845 Food Microbiology****Crosslisted with:** BIOS 445, FDST 405, FDST 805**Prerequisites:** BIOS 312**Notes:** BIOC 401 or BIOC 431 recommended**Description:** Nature, physiology, and interactions of microorganisms in foods. Introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Food plant sanitation and criteria for establishing microbial standards for food products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** BIOS 446, BIOS 846, FDST 406, FDST 806; FDST 415, FDST 815; FDST 425, FDST 825; FDST 455, FDST 855; FDST 455L, FDST 855L; FDST 460, FDST 860; FDST 875; FDST 877; FDST 908B**BIOS 846 Food Microbiology Laboratory****Crosslisted with:** BIOS 446, FDST 406, FDST 806**Prerequisites:** Parallel in FDST 405/805/BIOS 446/846.**Description:** The microorganisms in foods and the methods used to study them.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LAB**Prerequisite for:** FDST 415, FDST 815**BIOS 848 Human Growth and Development****Crosslisted with:** ANTH 448, ANTH 848, BIOS 448**Prerequisites:** ANTH 242 and 242L, or BIOS 101 and 101L.**Description:** Biological diversity from an evolutionary perspective.

The history of the study of human physical growth and biological principles of growth. Genetic, epigenetic and hormonal effects on human and other mammal growth patterns, and environmental factors that influence growth. Effects of nutrition, disease, socio-economic status, pollution, etc. Unique features of human growth in its various stages. How anthropologists interpret variation in growth patterns among human populations and the possible adaptive significance of this variation.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**BIOS 849 Woody Plant Growth and Development****Crosslisted with:** HORT 849, NRES 849**Prerequisites:** CHEM 251 and AGRO 325**Description:** Plant growth and development specifically of woody plants as viewed from an applied whole-plant physiological level. Plant growth regulators, structure and secondary growth characteristics of woody plants, juvenility, senescence, abscission and dormancy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 850 Biology of Wildlife Populations****Crosslisted with:** BIOS 450, NRES 450, NRES 850**Prerequisites:** NRES 311; MATH 104 or above; STAT 218 or equivalent**Description:** Principles of population dynamics. Management strategies (for consumptive and nonconsumptive fish and wildlife species) presented utilizing principles developed.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING**BIOS 851 Invertebrate Paleobiology****Crosslisted with:** GEOL 451, BIOS 451, GEOL 851**Prerequisites:** At least one of: GEOL 103, GEOL 105, LIFE 121**Description:** Overview of the key traits, relationships and evolutionary dynamics of invertebrate animals over Earth's history, particularly over the Phanerozoic (i.e., the last 540 million years). Emphasis on the use of invertebrate fossil record to test ideas about long term evolutionary patterns as well as learning the histories and basic anatomies of major invertebrate taxa.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

BIOS 852 Field Epidemiology**Crosslisted with:** BIOS 452**Prerequisites:** LIFE 121; LIFE 121L; three hours of BIOS**Notes:** Offered summers only at Cedar Point Biological Station.**Description:** Principles of epidemiology and the role in modern medicine. Combination of theory and practice with living populations.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** VBMS 949**BIOS 853 Predator Ecology****Crosslisted with:** BIOS 453**Prerequisites:** BIOS 207 or NRES 220**Description:** Conservation and management of native and invasive predators. Functional and numerical responses. Evolution of predator-prey interactions. Optimal foraging. Modeling predator-prey population dynamics. Trophic cascades. Prey defenses against predation.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 854 Ecological Interactions****Crosslisted with:** BIOS 454, NRES 454, NRES 854**Prerequisites:** LIFE 121; LIFE 121L; BIOS 207 or NRES 220; Senior Standing**Description:** Nature and characteristics of populations and communities. Interactions within and between populations in community structure and dynamics. Direct and indirect interactions and ecological processes, competition, predation, parasitism, herbivory, and pollination. Structure, functioning and persistence of natural communities, foodweb dynamics, succession, and biodiversity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 856 Mathematical Models in Biology****Crosslisted with:** BIOS 456, NRES 456, NRES 856**Prerequisites:** LIFE 120; LIFE 120L; LIFE 121; LIFE 121L; MATH 107**Description:** Biological systems, from molecules to ecosystems, are analyzed using mathematical techniques. Strengths and weaknesses of mathematical approaches to biological questions. Brief review of college level math; introduction to modeling; oscillating systems in biology; randomness in biology; review of historically important and currently popular models in biology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 857 Ecosystem Ecology****Crosslisted with:** BIOS 457, GEOL 457, GEOL 857**Prerequisites:** BIOS 207 and CHEM 110 and Senior standing**Description:** Processes controlling the cycling of energy and elements in ecosystems and how both plant and animal species influence them. Human-influenced global and local changes that alter these cycles and ecosystem functioning.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BSEN 954, NRES 954**BIOS 859 Limnology****Crosslisted with:** BIOS 459, NRES 459, NRES 859, WATS 459**Prerequisites:** 12 hrs BIOS, including BIOS/NRES 220/BIOS220x; two semesters CHEM.**Description:** Physical, chemical, and biological processes that occur in fresh water. Organisms occurring in fresh water and their ecology; biological productivity of water and its causative factors; eutrophication and its effects.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOS 866, NRES 866**BIOS 860 Soil Microbiology****Crosslisted with:** AGRO 460, BIOS 460, NRES 460, SOIL 460, AGRO 860, NRES 860**Prerequisites:** One semester microbiology; one semester biochemistry or organic chemistry.**Description:** Soil from a microbe's perspective-growth, activity and survival strategies; principles governing methods to study microorganisms and biochemical processes in soil; mechanisms controlling organic matter cycling and stabilization with reference to C, N, S, and P; microbial interactions with plants and animals; and agronomic and environmental applications of soil microorganisms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**BIOS 862 Animal Behavior****Crosslisted with:** BIOS 462**Prerequisites:** BIOS 206, 207 and Senior Standing**Description:** Introduction to animal behavior stressing the ethological approach. Anatomical and physiological bases of behavior, ontogenetic and phylogenetic observations, and the relations of animal behavior studies to genetics, ecology, taxonomy, and evolution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

BIOS 864 Fisheries Biology

Crosslisted with: BIOS 464, NRES 464, NRES 864

Prerequisites: BIOS/NRES 489/889 or equivalent.

Description: Biology of fishes. Factors that affect fishes in the natural environment. Techniques used in the analysis and management of fish populations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 865 Behavioral Neuroscience

Crosslisted with: BIOS 465, PSYC 465, PSYC 865

Prerequisites: PSYC 273

Description: Relationship of physiological variables to behavior, an introduction to laboratory techniques in neuropsychology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 866 Advanced Limnology

Crosslisted with: NRES 866

Prerequisites: NRES 859 or equivalent

Description: In-depth consideration of selected areas of limnology including stream limnology, primary production, secondary production, nutrient cycling, and eutrophication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 868 Field Animal Behavior

Crosslisted with: BIOS 468

Prerequisites: LIFE 120 and LIFE 121

Notes: BIOS 207 or BIOS 220 recommended. Offered summers only at Cedar Point Biological Station.

Description: Behavior of animals. Stresses methods for testing evolutionary hypotheses under field conditions with emphasis on foraging behavior, animal communication, and animal social systems.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BIOS 870 Prairie Ecology

Crosslisted with: BIOS 470

Prerequisites: BIOS 207 or NRES 220

Notes: Extensive field work is required.

Description: Structure, function, and distribution of communities. Interaction of different species with their biotic and abiotic environments.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BIOS 871 Plant Systematics

Crosslisted with: BIOS 471

Prerequisites: LIFE 121 and LIFE 121L.

Description: Overview of the diversity of plants and algae, with emphasis on phylogenetic relationships, the evolution of important physical and genomic characteristics, principles of plant classification and identification, and modern methods of plant molecular systematics. Lab work on taxonomic analysis and plant identification.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BIOS 874 Herpetology

Crosslisted with: BIOS 474, NRES 474, NRES 874

Prerequisites: BIOS/NRES 386 and permission.

Notes: BIOS 388 recommended.

Description: Fossil and living amphibians and reptiles. Anatomy, classification, ecology and evolution.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BIOS 875 Avian Biology

Crosslisted with: BIOS 475

Prerequisites: LIFE 121 & LIFE 121L.

Notes: May also be offered at Cedar Point Biological Station.

Description: Biology of birds emphasizing the behavior and ecology of this group. Topics include avian diversity, systematics & evolutionary history, flight, foraging, migration, communication, reproductive biology, population ecology and conservation biology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 875L Avian Biology Laboratory

Crosslisted with: BIOS 475L

Prerequisites: Parallel registration in BIOS 475/875

Description: Avian field identification in diverse prairie, riparian, and montane habitats. Individual studies of foraging behavior, territoriality, anti-predator behavior, mating systems, or nesting ecology.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

BIOS 876 Mammalogy

Crosslisted with: BIOS 476, NRES 476, NRES 876

Prerequisites: 8 hrs BIOS; BIOS/NRES 386 or NRES 311.

Notes: May also be offered at Cedar Point Biological Station. Field trips are required and may occur outside of scheduled class time. Lab and field time emphasize diversity of mammalian families and species identification of Nebraska mammals.

Description: Evolution, natural history, ecology, and functional morphology of planetary mammals and mammals of the Northern Great Plains.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BIOS 877 Bioinformatics and Molecular Evolution**Crosslisted with:** BIOS 477**Prerequisites:** BIOS 206 or parallel; CHEM 251 or CHEM 255 or CHEM 261.**Notes:** Statistics course recommended.**Description:** Pairwise and multiple alignments, sequence similarity and domain search, distance estimation, phylogenetic methods, gene mining, protein classification and structure. Algorithms used in bioinformatics as well as fundamental concepts of molecular evolution that underlie various bioinformatics methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 878 Plant Anatomy****Crosslisted with:** BIOS 478, AGRO 478, AGRO 878, HORT 478, HORT 878**Prerequisites:** 8 hrs biological sciences**Notes:** BIOS 109 recommended.**Description:** Development, structure, and function of tissues and organs of the higher plants. Relationships of structure to physiology and ecology of plants.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOS 879**BIOS 879 Plant Growth and Development****Prerequisites:** AGRO 325; BIOS 478/878; CHEM 252 or BIOC/BIOS/ CHEM 431/831**Description:** Processes involved in plant growth and development, seed formation, dormancy, germination, differential growth, flowering, and senescence. The role of extrinsic factors (e.g. light, water, and gravity) and intrinsic factors (e.g. hormones, pigments, and energy sources) on these processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 880 Ecology and Evolution of Arachnids****Crosslisted with:** BIOS 480**Prerequisites:** BIOS 207 or NRES 220**Description:** Ecology and evolutionary biology of living arachnids.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 882 Field Entomology****Crosslisted with:** BIOS 482, ENTO 482, ENTO 882**Prerequisites:** 12 hrs biological sciences.**Notes:** Offered only at Cedar Point Biological Station.**Description:** Field course in insect taxonomy and biology emphasizing field collection, specimen preparation, classification, and insect natural history.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SUMMER**BIOS 885 Aquatic Insects****Crosslisted with:** BIOS 485, ENTO 402, ENTO 802, NRES 402, NRES 802**Prerequisites:** 12 hrs biological sciences.**Description:** Biology and ecology of aquatic insects.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Prerequisite for:** BIOS 485L, BIOS 885L, ENTO 402L, ENTO 802L, NRES 402L, NRES 802L**BIOS 885L Identification of Aquatic Insects****Crosslisted with:** BIOS 485L, ENTO 402L, ENTO 802L, NRES 402L, NRES 802L**Prerequisites:** Parallel ENTO 802, NRES 402/802, BIOS 485/885.**Description:** Identification of aquatic insects to the family level.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**BIOS 886 Advanced Topics in Biophysical Chemistry****Crosslisted with:** BIOC 486, BIOC 886, BIOS 486, CHEM 486, CHEM 886**Prerequisites:** CHEM 471/871 or CHEM 481/881.**Description:** Applications of thermodynamics to biochemical phenomena, optical properties of proteins and polynucleotides, and kinetics of rapid reactions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 887 Field Parasitology****Crosslisted with:** BIOS 487**Prerequisites:** LIFE 120; LIFE 120L; LIFE 121; LIFE 121L**Notes:** BIOS 207 or NRES 220 recommended.**Description:** Animal host-parasite relationships, epizootiology, ecology, host distribution, classification, and life cycle stages of animal parasites.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 889 Ichthyology****Crosslisted with:** BIOS 489, NRES 489, NRES 889**Prerequisites:** LIFE 120 and LIFE 121**Notes:** May also be offered at Cedar Point Biological Station.**Description:** Fishes, their taxonomy, physiology, behavior, and ecology. Dynamics of fish stocks and factors regulating their production.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOS 464, BIOS 864, NRES 464, NRES 864; NRES 871**BIOS 897 Special Topics in Biological Sciences****Crosslisted with:** BIOS 497**Prerequisites:** BIOS 206 or BIOS 207**Description:** Topics vary by term.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 24**Format:** LEC

BIOS 898 Independent Research in Biological Sciences**Crosslisted with:** BIOS 498**Prerequisites:** Permission**Notes:** Four credit hours may be counted toward the undergraduate BIOS major. Before registering, arrangements must be made with a School of Biological Sciences faculty member to reach an agreement on the scope and to determine the amount of credit for the project.**Description:** Independent study and laboratory or field investigation of a specific problem.**Credit Hours:** 1-8**Min credits per semester:** 1**Max credits per semester:** 8**Max credits per degree:** 8**Format:** IND**BIOS 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**BIOS 910 Developmental Genetics****Description:** Effects of various mutations on developing biological systems. Mechanisms by which the abnormal genome expresses its pheno-type. Special consideration to vertebrate organisms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915 Graduate Seminar****Prerequisites:** Permission**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915A Genetics, Cellular and Molecular Biology (GCMB)****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915B Graduate Seminar - Behavioral Ecology****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915E Graduate Seminar - Ecology, Evolution and Behavior (EEBE)****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915M Graduate Seminar - Microbiology****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915N Population Ecology****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915P Graduate Seminar - Parasitology****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 915W Graduate Seminar - Evolutionary Biology****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 916 Research Seminar****Description:** Aimed at improving research design in evolutionary biology. Experience with presenting scientific ideas, as well as help with specific project.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 10**Format:** LEC**BIOS 920 Viral Evolution****Description:** The mechanisms by which DNA and RNA viruses evolve. The relationships between virulence, attenuation and host selection. Transfer of genetic material between virus and host. Evolution of HIV leading to escape from immunologic pressure or drug selection.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 922 Viral Oncology****Description:** Viral oncogenes and the cellular pathways that they influence. The mechanisms by which DNA and RNA viruses cause cancer. Discovery of novel tumor viruses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 924 Molecular Phylogenetics****Description:** Theory and methodology of phylogenetic inference based on molecular characters (mainly DNA sequences). Population genetic principles and analysis of microsatellite loci. Emphasis on project design, data analysis, and hypothesis testing. Training on current computer programs for phylogenetic analysis acquired.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

BIOS 932 Proteins**Crosslisted with:** BIOC 932, CHEM 932**Prerequisites:** BIOC/BIOS/CHEM 832 or BIOC/BIOS/CHEM 839**Description:** Protein structure and function.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**BIOS 933 Enzymes****Crosslisted with:** BIOC 933, CHEM 933**Prerequisites:** BIOC/BIOS/CHEM 432/832, or BIOC/BIOS/CHEM 839**Description:** Kinetics regulation and reaction mechanisms of enzymes.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**BIOS 934 Genome Dynamics and Gene Expression****Crosslisted with:** BIOC 934, CHEM 934**Prerequisites:** BIOC/BIOS/CHEM 832**Description:** Detailed examination of dynamic control mechanisms of genome maintenance and gene regulation. Mechanisms of transcription, translation, and replication based on analysis of current and seminal literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 935 Metabolic Function and Dysfunction****Crosslisted with:** BIOC 935, CHEM 935**Prerequisites:** BIOC/CHEM/BIOS 432/832 and permission**Description:** Current metabolic research at the bioenergetic, metabolomic, and molecular level. The normal metabolic processes that go awry in cancer, obesity, and oxidative stress.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 942 Genetics, Genomics, and Bioinformatics of Prokaryotes****Crosslisted with:** VBMS 942**Description:** Prokaryotic gene regulation, DNA exchange, DNA recombination and repair, comparative prokaryotic genomics and computer-based methods of analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 945 RNA Biology****Prerequisites:** BIOS 820**Description:** Role of RNA in regulation of gene expression and in determining genome structure. Regulation of mRNA stability and function, RNA as regulatory molecules and enzymes, and computer-based methods of analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 947 Industrial Microbiology and Biotechnology****Notes:** BIOS 840 recommended.**Description:** Biosynthetic activity of bacteria, yeasts, and fungi, including genetically engineered organisms: antibiotic, amino acid, enzyme, and vitamin production; polysaccharides, steroid transformation, microbes as food sources, microbial insecticides, petroleum microbiology, fermentation engineering, and mass production of microbial cells.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 949 Biochemistry of Nutrition****Crosslisted with:** ASCI 949, BIOC 949, NUTR 949**Prerequisites:** BIOC 832 or 839**Notes:** Offered odd-numbered calendar years.**Description:** Offered odd-numbered calendar years. Interrelationships of nutrients, nutritional state and metabolic processes. Energy metabolism, integration of nutrition and metabolism and nutritional regulation of gene function.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**BIOS 950 Medical Molecular Virology****Crosslisted with:** VBMS 950**Prerequisites:** BIOS/CHEM/BIOC 431/831 and 432/832; VBMS 852**Notes:** Offered odd-numbered calendar years.**Description:** Current topics in molecular virology relevant to the natural history and pathogenesis of viral diseases of humans and animals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BIOS 951 Quantitative Analysis in Biology****Description:** Surveys the kinds of quantitative problems that arise in biological research, particularly in field-oriented disciplines such as ecology, evolution and behavior, and the quantitative methods used to solve them. Practical learning of the strengths and weaknesses of different methods through the analysis of biological data on microcomputers.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**BIOS 952 Likelihood & Bayesian Ecology****Notes:** NRES/STAT 803 recommended.**Description:** Covers the use of maximum likelihood and Bayesian analysis in analyzing ecological data broadly defined. A conceptual understanding of the statistical tools is emphasized as well as a practical experience of conducting the analysis using real data and current software.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

BIOS 953 Advanced Population Ecology

Description: Ecological phenomena in populations. Quantitative description of population processes, life history strategies, foraging theory, resource interactions, population dynamics of competition and predation, and selected current topics in population ecology. Research methodology and historical development of the field as well as analysis, criticism, and synthesis of current research in the area.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 955 Advanced Behavioral Ecology

Prerequisites: BIOS 804 or BIOS 805

Description: Evolution of behavioral attributes of animals with respect to ecological conditions. Overview of the field and area of active research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 956 Biochemical Adaptation

Description: Major aspects of molecular/physiological adaptation in plants and animals including the evolution of metabolic pathways, enzyme function, and gene regulation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 957 Networks in Ecology and Evolution

Description: Fundamentals of network theory as it applies to ecology and evolution. A conceptual foundation for analyzing relational data focusing on ecological and social networks in non-human animals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 958 Genetic Ecology

Prerequisites: BIOS 805

Description: Interplay of genetics and ecology. Genetic basis of adaptation to environmental conditions and particularly the variety of ways in which this may occur.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 959 Advanced Community Ecology

Description: Ecological and evolutionary forces responsible for patterns of numbers and types of species which coexist and form ecological communities. Mathematical models, coevolution, random processes, historical background, and examination of biotic interactions responsible for the observed patterns. Emphasis on critique and synthesis of current theory in light of empirical evidence.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 960 Biosystematics and Nomenclature

Crosslisted with: ENTO 960

Description: Methods and principles of systematics and nomenclature.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 962 Animal Communication

Prerequisites: BIOS 804

Description: Course work in physics recommended. Advanced introduction to the evolution of animal communication. Addresses evolution of signal structure (including acoustic, visual, electrical, and chemical signals), environmental effects on signal transmission, and the evolution of receiver responses to signals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 964 Signal Transduction

Crosslisted with: VBMS 964

Prerequisites: BIOS 820.

Description: Molecular basis of genetics in eukaryotes. Gene structure and regulation, transposable elements, chromosome structure, DNA replication and repair mechanisms and recombination.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 966 Advanced Viral Pathogenesis

Crosslisted with: VBMS 966

Prerequisites: BIOS 843; VBMS 852 or equivalent introductory course in virology or experience

Description: Advanced analysis on the mechanisms of cell and tissue damage by viruses, the spread of viruses through the body, and the host response.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 967 Introduction to R for Biological Sciences

Description: Gain practical knowledge of the R programming language for statistical analysis, graphics, data management and simulations in the biological sciences.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BIOS 996 Research

Prerequisites: Permission of instructor and departmental Graduate Committee

Description: Research other than thesis.

Credit Hours: 3-10

Min credits per semester: 3

Max credits per semester: 10

Max credits per degree: 10

Format: IND

BIOS 998 Special Topics in the Life Sciences**Prerequisites:** Permission**Description:** Reviews of specialized subject areas. Subject dependent on student demand and availability of staff.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**BIOS 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Biological Systems Engineering (BSEN)

BSEN 812 Rehabilitation Engineering**Crosslisted with:** BSEN 412**Description:** Application of engineering methods to the development of assistive technology for people with injuries and disabilities. Characterization of the physical and mental capabilities of people with impairment, universal design, assistive technologies associated with seating, transportation, communication, and recreation. Integration of engineering design principles in a rehabilitation design project.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 814 Medical Imaging Systems****Crosslisted with:** BSEN 414**Prerequisites:** BSEN 311 or ECEN 304**Description:** Underlying physics, instrumentation, and signal analysis of biomedical and biological imaging modalities. MRI, X-ray, CT, ultrasound, nuclear medicine, and the human visual system. Energy-tissue interactions. Resolution, point spread function, contrast, diffraction, comparisons. Information content in images for biological systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 815 Introduction to Magnetic Resonance Imaging****Prerequisites:** Familiarity with linear systems theory (e.g. BSEN 311 or ELEC 304) and MATLAB programming preferred; however, these topics are reviewed for clinicians and bio science students wishing to take the class**Description:** Introduction to the physics, techniques, and biomedical applications of magnetic resonance imaging (MRI) in basic sciences and the clinic. Fundamentals of nuclear magnetic resonance physics, Fourier transforms, MRI hardware, and MRI principles including signal generation, detection and spatial localization techniques. Applications of MRI including tissue relaxometry and diffusion weighted imaging applications to diseases, traumatic brain injury, and cancer.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 816 Introduction to Biomaterials****Crosslisted with:** BSEN 416**Prerequisites:** BSEN/AGEN 225 or MECH 325; BIOC 401 or BIOC 431**Notes:** Requires the evaluation of current primary literature in the field.
Description: Introduction to all types of bio-materials, metals, ceramics, polymers, and natural materials. Characterization of biomaterials, mechanical and physical properties, cell-biomaterials interactions, degradation, and host reaction to biomaterials. FDA testing and applications of biomaterials, implants, tissue engineering scaffolds, artificial organs, drug delivery, and adhesives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BSEN 418, BSEN 818**BSEN 818 Tissue Engineering****Crosslisted with:** BSEN 418**Prerequisites:** BSEN 416/816 or equivalent**Notes:** Uses case studies to demonstrate clinical implementation of engineered tissues.**Description:** Introduction to engineering biological substitutes that can restore, maintain or improve organ function in therapy of diseases. Engineering methods and principles to design tissues and organs, cell and tissue biology, tissue growth and development, biomaterial scaffolds, growth factor and drug delivery, scaffold-cell interactions, and bioreactors.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 822 Pollution Prevention: Principles and Practices****Crosslisted with:** BSEN 422, CIVE 422, CIVE 822**Prerequisites:** Permission.**Description:** Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 954

BSEN 841 Animal Waste Management**Crosslisted with:** AGEN 441, AGEN 841, BSEN 441**Prerequisites:** Senior standing.**Description:** Characterization of wastes from animal production. Specification and design of collection, transport, storage, treatment, and land application systems. Air and water pollution, regulatory and management aspects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 844 Biomass and Bioenergy Engineering****Crosslisted with:** BSEN 444**Prerequisites:** Senior/graduate standing in engineering; BIOC 401 or 431**Description:** Engineering processes for biomass conversion and bioenergy production. Topics include biomass chemistry, conversion reactions, current and emerging bioenergy technologies, feedstock logistics, life cycle assessment. Analysis of primary research literature required for graduate credit.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 845 Bioprocess Engineering****Crosslisted with:** BSEN 445**Prerequisites:** BIOC 401 or BIOC 431; BSEN 303, BSEN 344**Description:** Engineering topics related to processing of biological materials into valuable products. Enzyme kinetics, microbial kinetics, application of enzymes in industrial processes, bioreactor design, equipment scale-up, gas transfer in reactors and bioseparations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**BSEN 846 Unit Operations of Biological Processing****Crosslisted with:** BSEN 446, AGEN 446, AGEN 846**Prerequisites:** AGEN/BSEN 225; and AGEN/BSEN 344**Description:** Application of heat, mass, and moment transport in analysis and design of unit operations for biological and agricultural materials. Evaporation, drying, distillation, extraction, leaching, thermal processing, membrane separation, centrifugation, and filtration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** BSEN 935**BSEN 853 Irrigation and Drainage Systems Engineering****Crosslisted with:** AGEN 453, AGEN 853, BSEN 453**Prerequisites:** CIVE 310 or MECH 310; AGEN 344 or BSEN 344.**Description:** Analytical and design consideration of evapotranspiration, soil moisture, and water movement as related to irrigation and drainage systems; analysis and design of components of irrigation and drainage systems including water supplies, pumping plants, sprinkler systems, and center pivots.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 854, MSYM 854; AGEN 953**BSEN 855 Nonpoint Source Pollution Control Engineering****Crosslisted with:** BSEN 455, CIVE 455, CIVE 855**Prerequisites:** BSEN 326/CIVE 326 or BSEN 355; AGEN/BSEN 350 or CIVE 352 as prerequisite or parallel.**Description:** Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**BSEN 858 Groundwater Engineering****Crosslisted with:** BSEN 458, CIVE 458, CIVE 858**Prerequisites:** CIVE 352 or AGEN 350 or BSEN 350**Description:** Application of engineering principles to the movement of groundwater. Analysis and design of wells, well fields, and artificial recharge. Analysis of pollutant movement..**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 955, AGRO 955, CIVE 955, GEOL 985**BSEN 860 Instrumentation and Controls****Crosslisted with:** AGEN 460, AGEN 860, BSEN 460**Prerequisites:** ELEC 211 or ELEC 215**Description:** Analysis and design of instrumentation and controls for agricultural and biological production, management and processing. Theory of basic sensors and transducers, analog and digital electrical control circuits, and the interfacing of computers with instruments and controls. Emphasis on signal analysis and interpretation for improving system performance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

BSEN 868 Wetlands

Crosslisted with: BIOS 458, NRES 468, NRES 868, WATS 468, BSEN 468
Prerequisites: CHEM 109 and CHEM 110, or CHEM 105 and CHEM 106; Junior or Senior Standing.

Notes: Offered even-numbered calendar years.

Description: Physical, chemical and biological processes that occur in wetlands; the hydrology and soils of wetland systems; organisms occurring in wetlands and their ecology wetland creation, delineation, management and ecotoxicology.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

BSEN 879 Hydroclimatology

Crosslisted with: NRES 479, METR 479, WATS 479, BSEN 479, NRES 879, METR 879

Prerequisites: NRES 208 or METR 100 or METR/NRES 370.

Notes: Offered spring semester of even-numbered calendar years.

Description: Interaction between earth's climate and the hydrologic cycle. Energy and water fluxes at the land-atmosphere interface. Atmospheric moisture transport, precipitation, evaporation, snowmelt, and runoff. Impacts of climate variability and change on the hydrologic cycle.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BSEN 889 Seminar I

Crosslisted with: AGEN 889

Description: Introduction into departmental and campus resources, professionalism, preparation and delivery of presentations, technical writing, and additional topics as arranged by enrolled students.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

BSEN 892 Special Topics

Crosslisted with: BSEN 492

Prerequisites: Permission

Description: Subject matter in emerging areas of Biological Systems Engineering not covered in other courses within the curriculum. Topics, activities, and delivery methods vary.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

BSEN 896 Special Problems

Crosslisted with: AGEN 896

Prerequisites: Permission

Description: Investigation and written report on engineering problems not covered in sufficient depth through existing courses. Topic varies by semester.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

BSEN 897 Masters Project

Crosslisted with: AGEN 897, MSYM 897

Prerequisites: Admission to M.S. in Agricultural and Biological Systems Engineering or M.S. in Mechanized Systems Management, and permission of major advisor

Notes: Intended for students who are pursuing an Option II or III master's degree in Agricultural and Biological Systems Engineering, or Mechanized Systems Management.

Description: Conception, design, development, and completion of a project that requires data collection, synthesis, analysis of results, and the development of a final written report that will be defended in the final oral examination.

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 6

Format: IND

BSEN 898 Internship

Crosslisted with: AGEN 898

Prerequisites: Permission

Notes: Students required to write an internship report of their creative accomplishments after completion of the internship. Students may spend up to nine months at the cooperating partner's workplace.

Description: Solution of engineering or management problems through a non-academic experience within the private sector or a government agency. The experience entails all or some of the following: research, design, analysis, and testing on an engineering problem. A plan, which documents how the individual will demonstrate creativity during the internship must be approved prior to the internship.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: FLD

BSEN 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

BSEN 912 Advanced Ultrasound Imaging

Prerequisites: BSEN 311 or ELEC 304 Engineering design and analysis of medical ultrasound applications

Description: Beamforming, diffraction, wave space, scattering, imaging. Interactions of mechanical energy and tissue. Linear and phased arrays. Doppler estimation of blood flow velocity. Tumor and cyst characterization. Other modern research topics in medical ultrasound.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BSEN 935 Analysis of Engineering Properties of Biological Materials**Prerequisites:** BSEN 846 or equivalent**Description:** Current and relevant mechanical, rheological, thermal, electrical, and optical properties as related to the engineering of processing, storage, handling, and utilization systems for biological materials are selected for analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 941 Agricultural Waste Management****Crosslisted with:** AGEN 941**Prerequisites:** Permission**Description:** Aerobic, anaerobic, and physical-chemical treatment, energy recovery and protein synthesis processes for high-strength organic materials; agricultural applications including composting, ammonia stripping, nitrification, denitrification, and land disposal of organic and chemically treated materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 943 Bioenvironmental Engineering****Prerequisites:** MATH 821**Description:** An engineer analysis of livestock, their environment and the interaction between the two; mathematical models, heat transfer, energy balances, environmental measurements, physiological measurements, calorimetry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 951 Advanced Mathematical Modeling in Biological Engineering****Description:** Advanced mathematical modeling techniques and applications. Specific topics from current literature and vary depending on research interests.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 954 Turbulent Transfer in the Atmospheric Surface Layer****Crosslisted with:** NRES 954**Prerequisites:** MATH 821; MECH 310 or NRES 808 or BIOS 857; or equivalent**Notes:** Offered spring semester of odd-numbered calendar years.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**BSEN 957 Modeling Vadose Zone Hydrology****Crosslisted with:** AGEN 957, CIVE 957, GEOL 957**Prerequisites:** MATH 221/821 or equivalent. AGEN/BSEN 350 or NRES 453/853 or equivalent.**Notes:** Typically offered spring semester in even years.**Description:** Principles and modeling of fluid flow and solute transport in the vadose zone. Topics include hydraulic properties of variably saturated media, application of Darcy's Law in variably saturated media, hydrologic and transport processes in the vadose zone, and solution of steady and unsteady flow problems using numerical techniques including finite element methods. Contemporary vadose zone models will be applied to engineering flow and transport problems. Review and synthesis of classic and contemporary research literature on vadose zone hydrology will be embedded in the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**BSEN 989 Seminar II****Crosslisted with:** AGEN 989**Description:** Developing a graduate program, orientation to research, grant and research proposal preparation, experimental design and analysis, manuscript preparation and review, preparations and delivery of technical presentations, and research management.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**BSEN 998 Advanced Topics****Crosslisted with:** AGEN 998**Prerequisites:** Permission**Description:** Individual study in advanced engineering topics that are not covered in regular course work or thesis. Topic varies by term.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**BSEN 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Biomedical Engineering (BIME)

BIME 999 Doctoral Dissertation**Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Broadcasting (BRDC)

BRDC 833 Digital Motion Graphics

Crosslisted with: BRDC 433

Prerequisites: Upper class standing and successful completion of JOMC 130-134.

Description: Creating digital motion graphics and animation using compositing and animation software. Covers project creation, techniques, workflow management, and related post-production work.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

BRDC 854 Broadcast Management

Crosslisted with: BRDC 454

Prerequisites: Senior standing and major in broadcasting

Description: Organizational and management procedures as they relate to the telecommunications media.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BRDC 862 Advanced Production

Crosslisted with: BRDC 462

Prerequisites: BRDC 328, BRDC 359 and BRDC 360

Notes: Capstone course in the production track.

Description: Produce multiple long-form, edited television programs to be distributed to a mass audience. Directing a weekly, live, thirty-minute television studio newscast. Advanced operation of studio equipment, graphics software and non-linear editing equipment. Prepare demo materials for a professional portfolio.

Credit Hours: 6

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

BRDC 872 Advanced Reporting

Crosslisted with: BRDC 472

Prerequisites: BRDC 369 or BRDC 371, BRDC 370, and JOUR 202

Notes: Capstone course in the news track.

Description: Produce multiple live weekly newscasts with anchors (news, sports, entertainment, social media) to be distributed to a mass audience. Advanced reporting skills, knowledge of graphics software and non-linear editing equipment. Prepare demo materials for a professional portfolio.

Credit Hours: 6

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

BRDC 873 Broadcast Documentary

Crosslisted with: BRDC 473

Prerequisites: Senior standing in broadcasting; BRDC 472.

Description: Depth reporting and advanced production techniques necessary for the preparation of a broadcast documentary program.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

BRDC 891 Special Topics

Crosslisted with: BRDC 491

Notes: 12 hours max special topics hours at all levels (100, 200, 300, 400) per degree. May be repeated up to three times so long as the topics are different.

Description: Topics vary each term.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 12

Format: LEC

Chemical and Biomolecular Engineering (CHME)

CHME 805 Multiple Contact Separation Processes

Prerequisites: CHME 823 and permission

Description: Application of the principles of physical kinetics and the equilibrium stage to separation processes such as absorption, extraction, and distillation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 812 Introduction to Atomistic Simulations

Crosslisted with: CHME 412

Prerequisites: Senior standing

Description: Theory and application of quantum-based computational methods used to model, predict and analyze materials properties.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 815 Advanced Chemical Engineering Analysis

Prerequisites: CHME 833, MATH 820 or MATH 821

Description: Application of advanced mathematics to chemical engineering design, with emphasis upon the derivation of differential equations describing physical situations as well as upon the solution of these equations. Design methods for tubular and stirred tank reactors, ion exchange units, pebble heaters, gas absorbers, mixers, etc.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHME 845

CHME 823 Chemical Engineering Thermodynamics and Kinetics

Crosslisted with: CHME 323

Prerequisites: CHME 223

Description: Application to multi-component systems; thermodynamics, phase equilibria, chemical reaction equilibria, and process analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHME 324; CHME 805; CHME 825; CHME 845; CHME 847, CHME 447; CHME 935; CHME 995

CHME 825 Theoretical and Applied Thermodynamics for Chemical Engineers

Prerequisites: CHME 823 or CHEM 982, MATH 820 or 821 or equivalent

Description: Application of classical engineering and chemical thermodynamics to problems in chemical engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 830 Chemical Engineering Laboratory II

Crosslisted with: CHME 430

Prerequisites: CHME 330; CHME 442 or parallel; CHME 462 or parallel. Parallel: CHME 460.

Description: Selected experiments in chemical engineering. Emphasis on experimental design, interpretation of results, and formal oral and written presentation.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LAB

CHME 832 Transport Operations I

Crosslisted with: CHME 332

Prerequisites: MATH 208; CHME 223

Description: Mass, momentum and energy transport phenomena and their application in chemical engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGEN 325, BSEN 325; AGEN 344, BSEN 344; CHME 330; CHME 333, CHME 833; CHME 420; CHME 835

CHME 833 Transport Operations II

Crosslisted with: CHME 333

Prerequisites: CHME 832

Description: Continuation of CHME 332/832.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHME 475, CHME 875; CHME 815; CHME 835; CHME 935; CHME 995

CHME 834 Diffusional Operations

Crosslisted with: CHME 434

Prerequisites: CHME 332

Description: Application of diffusional theory to the design of processing equipment required for absorption, adsorption, leaching, drying, and chemical reactions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 835 Transport Phenomena I

Prerequisites: MATH 821; CHME 832 and CHME 833 or equivalent

Description: Advanced consideration of molecular and turbulent momentum, energy and mass transport.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHME 836; CHME 845; CHME 925

CHME 836 Transport Phenomena II

Prerequisites: CHME 835

Description: Continuation of Transport Phenomena I.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 842 Chemical Reactor Engineering and Design

Crosslisted with: CHME 442

Prerequisites: CHME 323.

Description: Basic principles of chemical kinetics are coupled with models descriptive of rates of energy and mass transfer for the analysis and design of reactor systems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHME 845

CHME 845 Advanced Chemical Engineering Kinetics

Prerequisites: CHME 815, CHME 823, CHME 835, CHME 842

Description: Kinetics of chemical reactions in several categories of reactors for interpretation of experimental data and design of equipment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 847 Principles and Applications of Catalysis in Reaction Engineering

Crosslisted with: CHME 447

Prerequisites: CHME 323.

Description: Principles and applications of heterogeneous catalysis, mechanisms, catalytic reactor types and catalyst characterization and performance. Case studies on current catalytic technologies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 852 Chemical Engineering Process Economics and Optimization

Crosslisted with: CHME 452

Prerequisites: CHME 333, CHME 331, CHME 434

Notes: Credit toward the degree may be earned only in CHME 452/852

Description: Criteria of chemical process economics: cost and asset accounting, time value of money, profitability, alternative investments, minimum attractive rate of return, sensitivity and risk analysis. Process optimization in: plant operations, unit operations, using successive calculations, linear programming and dynamic programming.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 853 Chemical Engineering Process Design and Safety

Crosslisted with: CHME 453

Prerequisites: CHME 452

Description: Design, evaluation, and safety considerations of chemical engineering process applications.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHME 854 Chemical Process Engineering**Crosslisted with:** CHME 454**Prerequisites:** CHME 430 and 312.**Description:** Practical and theoretical aspects of chemical process analysis, simulation, and synthesis. Case studies used to illustrate principles. Use of the digital computer as a tool of the process engineer is stressed.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 860 Automatic Process Control Laboratory****Crosslisted with:** CHME 460**Prerequisites:** CHME 462 or parallel. Parallel: CHME 430.**Description:** Selected laboratory experiments to demonstrate the theory of the dynamics and control of chemical processes.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**CHME 862 Automatic Process Control****Crosslisted with:** CHME 462**Prerequisites:** MATH 221, CHME 333.**Description:** Analysis and design of automatic control systems. Dynamic responses of measuring instruments, control elements, stability of control systems, and process equipment included in control loops.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHME 965**CHME 873 Biochemical Engineering****Crosslisted with:** CHME 473**Prerequisites:** CHEM 262, CHEM 431**Description:** Dynamics of microbial growth and death. Engineering processes for microbiological synthesis of cellular materials and industrial products, with emphasis on food and pharmaceutical production by bacteria and fungi.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHME 470; CHME 474, CHME 874**CHME 874 Advanced Biochemical Engineering****Crosslisted with:** CHME 474**Prerequisites:** CHME 473/873.**Description:** Recent theoretical and technical developments in biochemical engineering.**Credit Hours:** 2-6**Min credits per semester:** 2**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHME 875 Biochemical Separations****Crosslisted with:** CHME 475**Prerequisites:** CHME 333/833**Description:** Separation and purification of compounds of biological origin from an analytical perspective. Application of unit operations for these separations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 876 Micro/Nano systems for Engineering and Life Sciences****Crosslisted with:** CHME 476**Prerequisites:** Senior standing.**Description:** Introduction to a number of biological problems facing living systems and show how micro/nanotechnology is being used to solve those problems. Emphasis on engineering perspectives of the life sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 877 Molecular Bioengineering****Crosslisted with:** CHME 477**Prerequisites:** Senior standing.**Description:** Introduction to fundamentals and up-to-date developments in the field of bioengineering at the molecular level. Topics to cover include recombinant DNA methods, protein engineering, microbial cell factories, synthetic and systems biology, DNA and protein therapeutics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CHME 882 Polymers****Crosslisted with:** CHME 482**Prerequisites:** CHEM 262, 264 or 264A, and MATH 221**Description:** Introduction to polymer technology stressing polymerization kinetics, methods of resin manufacture and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 886 Electrochemical Engineering****Crosslisted with:** CHME 486**Prerequisites:** CHME 333, and CHME 442, or MECH 310 and MATL 360.**Description:** Thermodynamic and kinetic principles of electrochemistry are applied to the design and analysis of electrochemical processes, including chemical production, batteries, fuel cells, and corrosion prevention.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CHME 889 Air Pollution, Assessment and Control**Crosslisted with:** CHME 489**Prerequisites:** Senior standing.**Description:** Survey of the present status of the air pollution problem and the application of engineering and scientific principles to its practical and effective coordinated control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 896 Advanced Topics in Chemical Engineering Computation****Crosslisted with:** CHME 496**Prerequisites:** CHME 312 or CSCE 455/855 or MECH 480/880, and permission.**Description:** Intensive treatment of special topics of current research interest in such areas as steady-state and dynamic process simulation, design optimization, chemical process synthesis, computer-aided product research, stochastic optimization, and numerical methods applied to transport problems.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**Prerequisite for:** CHME 915**CHME 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**CHME 900 Seminar in Chemical Engineering****Description:** Discussion of research projects and review of current literature in chemical engineering.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 6**Format:** LEC**CHME 915 Systems Analysis in Chemical Engineering****Prerequisites:** CHME 496/896**Description:** Computational methods of process optimization. Techniques of process systems analysis and their application in digital simulators. Process simulation in the presence of uncertainty.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 925 Transport Properties****Prerequisites:** CHME 835, CHEM 882**Description:** Application of the kinetic theories of gases, liquids, and solids to the prediction and correlation of transport properties.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 935 Membrane Principles and Processes****Prerequisites:** CHME 823 and CHME 833**Description:** Fundamental principles relating to membrane effects, the structure and properties of membranes, and applications in electro dialysis, ultrafiltration, diffusion control, artificial organs, and other processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 965 Advanced Process Dynamics and Control****Prerequisites:** CHME 862**Description:** Transient behavior of typical industrial processes and systems-heat exchangers, dryers, distillation columns, absorbers, chemical reactors, etc.-emphasis on the control of such processes. Introduction to systems engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHME 995 Special Problems in Chemical Engineering****Prerequisites:** CHME 823, CHME 833 or equivalent**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**CHME 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Chemistry (CHEM)

CHEM 821 Analytical Chemistry**Crosslisted with:** CHEM 421**Prerequisites:** CHEM 471/871 or CHEM 481/881; parallel CHEM 423/823**Description:** Chemical and physical properties applied to quantitative chemical analysis. Solution equilibria, stoichiometry, and instrumental theory and techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 423, CHEM 823; CHEM 824; CHEM 825A; CHEM 825B; CHEM 825D; CHEM 825E; CHEM 825G; CHEM 825J; CHEM 991A

CHEM 823 Analytical Chemistry Laboratory**Crosslisted with:** CHEM 423**Prerequisites:** CHEM 421/821 or parallel.**Notes:** It is suggested that CHEM 423 be taken parallel with CHEM 421.**Description:** Lab designed to accompany CHEM 421/821. Applications of analytical chemical principles to laboratory problems.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Prerequisite for:** CHEM 421, CHEM 821**CHEM 824 Applied Problems in Analytical Chemistry****Prerequisites:** CHEM 821**Description:** Selection and execution of analytical methods in the solution of typical academic and industrial chemical problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 825A; CHEM 825B; CHEM 825D; CHEM 825E; CHEM 825G; CHEM 825J; CHEM 991A**CHEM 825A Ionic Equilibria****Prerequisites:** or parallel: CHEM 821 or 824**Description:** Survey of theory of ionic equilibrium systems of importance in chemical analysis.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** CHEM 825K**CHEM 825B Electrochemical Methods****Prerequisites:** CHEM 821 or 824**Description:** Survey of principles and applications of electroanalytical chemistry.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 825D Mass Spectrometry****Prerequisites:** CHEM 821 or 824**Description:** Survey of the fundamentals (1 cr) and applications (1 cr) of mass spectrometry.**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 825E Data Handling****Prerequisites:** or parallel: CHEM 821 or 824**Description:** Application of statistical, graphical and numerical methods for the treatment of analytical chemical data.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CHEM 825G Chromatographic Separations****Prerequisites:** CHEM 821 or 824**Description:** Survey of principles and applications of modern chromatographic analysis.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 825J Optical Methods of Analysis****Prerequisites:** CHEM 821 or 824**Description:** Survey of principles and analytical application of modern optical spectrometric methods.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 825K Introduction to Nuclear Magnetic Resonance****Prerequisites:** CHEM 825A**Description:** Introduction to the theory and techniques of nuclear magnetic resonance (NMR) spectroscopy with a particular application to the structure determination of organic compounds. Basic theory of NMR that includes chemical shifts, coupling constants and relaxation. Topics include the application and analysis of two-dimensional NMR spectra to determine chemical structures, the basic design and implementation of an NMR experiment or pulse sequence, and NMR instrumentations, RF pulses, experimental and processing parameters.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 831 Structure and Metabolism****Crosslisted with:** BIOC 431, BIOC 831, BIOS 431, BIOS 831, CHEM 431**Prerequisites:** LIFE 120 with a grade of C or better; CHEM 252 or CHEM 262 with a grade of C or better.**Notes:** BIOS 206 or AGRO 215 is recommended.**Description:** Structure and function of proteins, nucleic acids, carbohydrates and lipids; nature of enzymes; major metabolic pathways of catabolism; and biochemical energy production.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, BIOS 834, CHEM 834; AGRO 810, BIOC 810, HORT 810; ASCI 820; ASCI 917; ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927; BIOC 305; BIOC 432, BIOC 832, BIOS 432, CHEM 432, CHEM 832, BIOS 832; BIOC 433, BIOC 833, BIOS 433, BIOS 833, CHEM 433, CHEM 833; BIOS 879; BIOS 950, VBMS 950; FDST 470, FDST 870; NUTR 450; NUTR 455; NUTR 820; NUTR 821; VBMS 410; VBMS 805

CHEM 832 Metabolism and Biological Information

Crosslisted with: BIOC 432, BIOC 832, BIOS 432, CHEM 432, BIOS 832

Prerequisites: BIOC 431/831 with a grade of C or better; BIOS 206 or AGRO 215 with a grade of C or better.

Notes: Continuation of BIOC 431/831.

Description: Major metabolic pathways of anabolism, structural and biochemical aspects of biological information flow and use in biotechnology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ASCI 949, BIOC 949, BIOS 949, NUTR 949; BIOC 435; BIOC 932, BIOS 932, CHEM 932; BIOC 933, BIOS 933, CHEM 933; BIOC 934, BIOS 934, CHEM 934; BIOC 935, BIOS 935, CHEM 935; BIOC 992K, CHEM 992K; BIOC 998; BIOS 950, VBMS 950; VBMS 919; VBMS 951

CHEM 833 Biochemistry Laboratory

Crosslisted with: BIOC 433, BIOC 833, BIOS 433, BIOS 833, CHEM 433

Prerequisites: BIOC 431/831 or parallel; or CHEM 435/835.

Description: Introduction to techniques used in biochemical and biotechnology research, including measurement of pH, spectroscopy, analysis of enzymes, chromatography, fractionation of macromolecules, electrophoresis, and centrifugation.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Offered: FALL/SPR

Prerequisite for: BIOC 437, BIOC 837, BIOS 437, BIOS 837; BIOC 898; CHEM 498

CHEM 834 Plant Biochemistry

Crosslisted with: AGRO 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, BIOS 834

Prerequisites: BIOC/BIOS/CHEM 431/831.

Description: Biochemical metabolism unique to plants. Relationships of topics previously acquired in general biochemistry to biochemical processes unique to plants. Biochemical mechanisms behind physiological processes discussed in plant or crop physiology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHEM 835 Chemical Biology

Crosslisted with: CHEM 435

Prerequisites: CHEM 252 or 262, and CHEM 221

Notes: Credit toward the undergraduate or graduate degree cannot be earned in both CHEM 435/835 and 431/831 and/or CHEM 432/832 or their equivalents.

Description: Fundamentals of chemical biology with an emphasis on the underlying principles of biomolecular structures, macromolecular-small molecule interactions, including mechanistic aspects of enzymes and cofactors, use of modified enzymes to alter biochemical pathways, and the use of chemical tools for understanding biological processes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: BIOC 433, BIOC 833, BIOS 433, BIOS 833, CHEM 433, CHEM 833

CHEM 836 Physical Basis of Macromolecular Function

Crosslisted with: BIOC 836

Description: Introduction to the theory and practice of biophysical characterization of macromolecules. The course will be based on primary research literature, although a supporting text will be used for in depth discussion of the methods.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CHEM 841 Inorganic Chemistry

Crosslisted with: CHEM 441

Prerequisites: CHEM 221 with a minimum grade of C; CHEM 252 or 262.

Notes: CHEM 443 is recommended to be taken parallel.

Description: CHEM 441/841 and the accompanying lab course, CHEM 443/843, constitute a basic course in inorganic chemistry.

Structure, bonding, properties, and reactions of inorganic compounds with emphasis on the relationships and trends that are embodied in the periodic table of the elements.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHEM 421, CHEM 821; CHEM 845

CHEM 843 Inorganic Chemistry Laboratory

Crosslisted with: CHEM 443

Prerequisites: CHEM 252 or 262, and 264; parallel: CHEM 841

Notes: It is suggested that CHEM 443 be taken in parallel with CHEM 441.

Description: Introduction to typical inorganic chemistry laboratory techniques through the preparation and characterization of inorganic compounds.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: CHEM 845

CHEM 845 Modern Inorganic Chemistry

Prerequisites: CHEM 841, 843, and 882

Description: Topics in inorganic chemistry such as bioinorganics, catalysis, organometallic, materials and solid state chemistry. Theoretical principles and practical applications, and on correlating the physical and chemical properties of the chemical elements and inorganic chemical compounds.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CHEM 943; CHEM 945; CHEM 991B

CHEM 848 Redox Biochemistry**Crosslisted with:** BIOC 848**Prerequisites:** 3 hrs BIOC and 3 hrs inorganic chemistry**Description:** Redox (oxidation and reduction)-based biochemical processes (energy generation, oxygen transfer, enzyme catalysis, signaling, gene regulation, and diseases). Recent progress in these areas. Roles of metals in biochemical reactions, metal homeostasis, and biosynthesis of metal cofactors and metal sites. Biochemistry and pathophysiology of redoxactive species and radicals. Antioxidant molecules and enzymes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 855 Advanced Organic Chemistry****Prerequisites:** CHEM 252 or 262 or equivalent**Description:** Survey of modern concepts of structure/bonding, acidity/basicity, stereochemistry, and reaction mechanisms. Introduction to the fundamental tools used to investigate reaction mechanism (transition state theory, elementary Huckel theory, linear free energy relationships, rate laws and kinetic isotope effects). Mechanistic examples emphasize the major classes of organic reactions, particularly concerted, carbanionic and carbocationic. Development of reasoning skills.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 865A; CHEM 865B; CHEM 865E; CHEM 952; CHEM 953; CHEM 954; CHEM 964; CHEM 991E**CHEM 863 Advanced Organic Preparations****Crosslisted with:** CHEM 463**Prerequisites:** CHEM 252 and CHEM 254.**Notes:** For students who wish additional laboratory work in organic chemistry.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** LAB**CHEM 865A Organic Reactions****Prerequisites:** CHEM 855**Description:** Modern reactions and methodology for organic synthesis. Carbon-carbon bond-forming reactions; alkene synthesis; oxidation; reductions; function group interconversion; use of protecting groups; and organometallic reagents.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 865B Advanced Organic Reactions****Prerequisites:** CHEM 855 and permission**Description:** Additional reactions of importance for organic synthesis. Examples of topics which may be covered include cycloadditions, rearrangements, and radical-based transformations.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CHEM 865E Bioconjugate Reactions****Prerequisites:** CHEM 855 and permission**Description:** Organic reactions of particular relevance to interdisciplinary research in analytical/bioanalytical chemistry, biochemistry, and the life sciences. Formation of esters, thioesters, and amides; surface functionalization of inorganic or polymer supports; methods for cross-linking, conjugation, or immobilization of chemicals and biomolecules.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CHEM 871 Physical Chemistry****Crosslisted with:** CHEM 471**Prerequisites:** CHEM 221; MATH 107; and PHYS 142 or 212.**Notes:** Credit may not be earned in both CHEM 471/871 and CHEM 481/881.**Description:** Conceptual and mathematical foundations of classical and statistical thermodynamics. Applications of thermodynamics to phase and chemical equilibria. Thermodynamics of solutions of small molecules and of polymers. Biological applications of thermodynamics. Introduction to chemical and biochemical spectroscopy.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOC 486, BIOC 886, BIOS 486, BIOS 886, CHEM 486, CHEM 886; CHEM 421, CHEM 821**CHEM 874 Topics in Chemical Pedagogy****Crosslisted with:** TEAC 874**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC**CHEM 874A Topics in Chemical Pedagogy - Green Chemistry****Crosslisted with:** TEAC 874A**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CHEM 874D Topics in Chemical Pedagogy - Demonstrations for High School Chemistry**Crosslisted with:** TEAC 874D**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874E Topics in Chemical Pedagogy - Experiments for High School Chemistry****Crosslisted with:** TEAC 874E**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874J Topics in Chemical Pedagogy - Developing a Safety Culture****Crosslisted with:** TEAC 874J**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CHEM 874K Topics in Chemical Pedagogy - Chemistry of Life Processes: Biomolecules****Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874L Topics in Chemical Pedagogy - Addressing Misconceptions****Crosslisted with:** TEAC 874L**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874M Topics in Chemical Pedagogy - Mathematics Integration****Crosslisted with:** MATH 874M, TEAC 874M**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. May be counted towards the MAT and MScT degrees in mathematics and statistics, not the MA, MS, or PhD. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874N Topics in Chemical Pedagogy - Inquiry Strategies****Crosslisted with:** TEAC 874N**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 874P Topics in Chemical Pedagogy - Chemistry in the Workplace****Crosslisted with:** TEAC 874P**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CHEM 874Y Topics in Chemical Pedagogy - Graphing Calculator Activities**Crosslisted with:** TEAC 874Y**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875 Chemical Pedagogy in the High School Laboratory****Crosslisted with:** TEAC 875**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875A Chemical Pedagogy in the High School Laboratory - Small-scale Experiments****Crosslisted with:** TEAC 875A**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875B Chemical Pedagogy in the High School Laboratory - Technology Integration****Crosslisted with:** TEAC 875B**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 875E Chemical Pedagogy in the High School Laboratory - Inquiry Experiments****Crosslisted with:** TEAC 875E**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875K Chemical Pedagogy in the High School Laboratory - At-home Experiments****Crosslisted with:** TEAC 875K**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875P Chemical Pedagogy in the High School Laboratory - Probe Experiments****Crosslisted with:** TEAC 875P**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 875T Chemical Pedagogy in the High School Laboratory - Traditional Experiments****Crosslisted with:** TEAC 875T**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 881 Physical Chemistry I****Crosslisted with:** CHEM 481**Prerequisites:** CHEM 221 with grade of at least C; MATH 208; PHYS 212.**Notes:** Credit may not be earned in both CHEM 471/871 and CHEM 481/881.**Description:** CHEM 481/881 and 482/882 with accompanying lab 484/884 form a continuous basic course in physical chemistry for students interested in chemistry as a profession. Introduction to quantum mechanics and statistical mechanics; application to problems in atomic and molecular structure and to spectroscopy.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOC 486, BIOC 886, BIOS 486, BIOS 886, CHEM 486, CHEM 886; CHEM 482, CHEM 882; CHEM 484, CHEM 884; CHEM 484A, CHEM 884A; CHEM 991J; PHYS 422, PHYS 822, ECEN 422, ECEN 822

CHEM 882 Physical Chemistry II**Crosslisted with:** CHEM 482**Prerequisites:** CHEM 481/881.**Notes:** This course should parallel CHEM 484/884. Continuation of CHEM 481/881.**Description:** Thermodynamics and statistical mechanics and their application to the study of solids, liquids, gases, solutions, phase equilibria, and chemical equilibria. Chemical kinetics and reaction dynamics.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** CHEM 484, CHEM 884; CHEM 484A, CHEM 884A; CHEM 845; CHEM 987A; CHEM 987B; CHEM 991J; CHME 925; MATL 962; MATL 972**CHEM 884 Physical Chemical Measurements****Crosslisted with:** CHEM 484**Prerequisites:** CHEM 481/881; CHEM 482/882 or parallel.**Notes:** It is suggested that CHEM 484/884 be taken in parallel with CHEM 482/882.**Description:** Applications of physical measurements and principles to study chemical systems and processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 884A Physical Chemical Measurements****Crosslisted with:** CHEM 484A**Prerequisites:** CHEM 481/881; CHEM 482/882 or parallel.**Notes:** It is suggested that CHEM 484A/884A be taken in parallel with CHEM 482/882.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 885 Survey of Modern Physical Chemistry****Description:** A one-semester survey course in modern physical chemistry, covering chemical thermodynamics, chemical kinetics, quantum chemistry, molecular structure and spectroscopy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 943; CHEM 972; CHEM 982; CHEM 983; CHEM 984; CHEM 987A; CHEM 987B; CHEM 991J**CHEM 886 Advanced Topics in Biophysical Chemistry****Crosslisted with:** BIOC 486, BIOC 886, BIOS 486, BIOS 886, CHEM 486**Prerequisites:** CHEM 471/871 or CHEM 481/881.**Description:** Applications of thermodynamics to biochemical phenomena, optical properties of proteins and polynucleotides, and kinetics of rapid reactions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 898 Special Problems****Prerequisites:** Permission**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**CHEM 898A Introduction to Graduate Research****Prerequisites:** Admission to chemistry graduate program.**Description:** Series of lectures and activities designed to prepare for graduate research and graduate studies in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 898B Research Update Interview****Description:** Preparation for and presentation of the Research Update Interview. Open to graduate students in Chemistry in the third semester of their program, or with instructor permission.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** IND**CHEM 898E Original Proposal Oral****Description:** Preparation for and presentation of an Original Research Proposal. Open to graduate students in Chemistry in the sixth semester of their program, or with instructor permission.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** IND**CHEM 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**CHEM 932 Proteins****Crosslisted with:** BIOC 932, BIOS 932**Prerequisites:** BIOC/BIOS/CHEM 832 or BIOC/BIOS/CHEM 839**Description:** Protein structure and function.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 933 Enzymes****Crosslisted with:** BIOC 933, BIOS 933**Prerequisites:** BIOC/BIOS/CHEM 432/832, or BIOC/BIOS/CHEM 839**Description:** Kinetics regulation and reaction mechanisms of enzymes.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC

CHEM 934 Genome Dynamics and Gene Expression**Crosslisted with:** BIOC 934, BIOS 934**Prerequisites:** BIOC/BIOS/CHEM 832**Description:** Detailed examination of dynamic control mechanisms of genome maintenance and gene regulation. Mechanisms of transcription, translation, and replication based on analysis of current and seminal literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 935 Metabolic Function and Dysfunction****Crosslisted with:** BIOC 935, BIOS 935**Prerequisites:** BIOC/CHEM/BIOS 432/832 and permission**Description:** Current metabolic research at the bioenergetic, metabolomic, and molecular level. The normal metabolic processes that go awry in cancer, obesity, and oxidative stress.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 936 Molecular Biology Methods****Prerequisites:** CHEM 431/831, or CHEM 835**Description:** The fundamentals of molecular biology and biotechnology and applications. The fundamentals include methods for DNA cloning, sequencing, annotation, recombination, mutagenesis, and expression. The applications include the production of molecular diagnostics and therapeutic agents etc. with a focus on the molecular biotechnology of microbial systems.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CHEM 943 Solid-State Chemistry****Prerequisites:** CHEM 845 and 885**Description:** Advanced course dealing with the structure, bonding, properties, and reactions of inorganic solid materials.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 945 Advanced Inorganic Chemistry****Prerequisites:** CHEM 845**Description:** Chemistry of the metallic compounds.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 946 Organometallic Chemistry****Description:** The chemistry of compounds that occupy the boundary between inorganic and organic chemistry.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 952 Stereochemistry of Organic Compounds****Prerequisites:** CHEM 855**Description:** Types of stereoisomerism in organic compounds. Steric strain and certain other steric effects in reactions of organic substances.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 953 Organic Reaction Mechanisms****Prerequisites:** CHEM 855**Description:** Classes of reaction mechanisms and the methods whereby mechanisms may be studied. Kinetic and equilibrium studies; isotopic labeling; activation parameters; linear free energy relationships; stereochemistry; NMR and other spectroscopic methods as applied to reaction mechanisms, including direct observation of reactive intermediates; interpreting the results of semi-empirical calculations of reaction pathways; and studies of acid- and base-catalysis mechanisms.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 954 Physical Organic Chemistry****Prerequisites:** CHEM 855**Description:** Elementary aspects of molecular orbital (MO) theory. Selected concepts in molecular symmetry and topology. Applications of MO calculations to reaction mechanisms and elucidation of electronic structure for organic molecules: calculations vs. experiment. Introduction to selected interdisciplinary topics.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 963 Metals in Organic Synthesis****Prerequisites:** CHEM 865**Description:** Use of organometallic reagents and catalysts in organic synthesis.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 964 Bioorganic Chemistry****Prerequisites:** CHEM 855**Description:** Organic chemistry of biological systems with particular emphasis on the molecular mechanisms of action of enzymes and their associated cofactors.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

CHEM 965 Advanced Synthetic Strategy**Prerequisites:** CHEM 865**Description:** Strategy and execution of organic synthesis. Retrosynthetic analysis; total synthesis of natural and unnatural products; methods for asymmetric synthesis; and applications of pericyclic reactions.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 972 Quantum Chemistry I****Prerequisites:** CHEM 885**Description:** Basic principles of quantum mechanics applied to problems in molecular structure and chemical bonding.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 987A; CHEM 987B**CHEM 982 Chemical Thermodynamics****Prerequisites:** CHEM 885**Description:** Principles of thermodynamics, with applications to chemical systems and processes, and illustrations from current literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHEM 983; CHEM 984; CHME 825**CHEM 983 Statistical Thermodynamics****Prerequisites:** CHEM 885 or 982**Description:** Application of equilibrium statistical mechanics to problems of chemical interest. Calculation of thermodynamic functions from molecular structure data. Molecular theories of gases, liquids, and solutions.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 984 Chemical Kinetics****Prerequisites:** CHEM 885 or 982**Description:** Concepts and equations; successive, competing, and reversible reactions; equilibrium, collision, and activated-complex theories; reaction mechanism; heterogeneous reactions; current literature.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 987A Molecular Spectroscopy****Prerequisites:** CHEM 482/882 or 885 or 972; and permission.**Description:** A quantitative treatment of the principal methods of electronic, optical, and magnetic resonance spectroscopy.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 987B Scattering****Prerequisites:** CHEM 482/882 or 885 or 972; and permission.**Description:** A quantitative treatment of the principal methods of light, electron and neutron scattering.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 990 Seminar in Chemistry****Description:** CHEM 990 consists of monthly lectures presented by guest speakers from other colleges and universities, the government, and industry. Registration in CHEM 990 is required of all full-time CHEM graduate students. Current topics of chemical interest.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** LEC**CHEM 991A Selected Topics in Analytical Chemistry****Prerequisites:** CHEM 821 or 824, or parallel**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 991B Special Topics in Inorganic Chemistry****Prerequisites:** CHEM 845 and permission**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 991E Special Topics in Organic Chemistry****Prerequisites:** CHEM 855**Description:** Topics of special interest in modern organic chemistry.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**CHEM 991J Special Topics in Physical Chemistry****Prerequisites:** CHEM 881 and 882, or 885**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 992A Graduate Seminar in Analytical/Bioanalytical Chemistry****Prerequisites:** Graduate student enrollment in Chemistry**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

CHEM 992E Graduate Seminar in Organic Chemistry/Chemical Biology**Prerequisites:** Graduate student enrollment in Chemistry**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 992J Graduate Seminar in Physical/Inorganic/Materials Chemistry****Prerequisites:** Graduate student enrollment in Chemistry, or permission.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CHEM 992K Seminar in Biological Chemistry****Crosslisted with:** BIOC 992K**Prerequisites:** BIOC 832 or 839; and permission**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CHEM 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Child, Youth and Family Studies (CYAF)

CYAF 800 Coaching Methods I: Effective Strategies for Supporting Professional Learning**Prerequisites:** Permission only**Description:** Introductory exploration of the adult learning literature to understand how coaching can support adult professional learning. Identification of key research-based practices to use when coaching in early childhood. Discussion on how to use these key practices in a variety of early childhood settings with a variety of early childhood professionals. Introductory understanding of how to use and evaluate their coaching.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 801 Coaching Methods II: Supporting Professionals' Use of Data to Inform Practice through Effective Coac****Prerequisites:** Permission only**Description:** Build upon students' developing knowledge, skills, and dispositions to deepen and advance coaching practices developed in CYAF 800: Coaching Methods I and CYAF 800L Coaching Practicum I. Further students' abilities to support teachers in collecting data and using data to inform instruction. Effective coaching discussions will bring together a variety of key coaching strategies, as well as discussion on how to use these key practices in a variety of early childhood settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 804A Family and Consumer Sciences Methods****Prerequisites:** Admission to CYAF degree program and permission**Notes:** Distance education course delivered by Central Washington State University.**Description:** The analysis and development of curriculum and methods of teaching Family and Consumer Sciences (FCS) in the context of the National Standards for FCS students, the National Standards for teachers of FCS and the standards for the state in which the candidate will teach. Learners and the learning environment; program leadership; beginning instructional strategies; Family, Career, and Community Leaders of America (FCCLA); curriculum development; integration of technology in the FCS classroom; and assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 804B Family and Consumer Sciences Methods II****Prerequisites:** Admission to CYAF graduate program and permission.**Notes:** Distance education course delivered by Texas Tech University.**Description:** Development of curriculum and methods of teaching Family and Consumer Sciences (FCS) in the context of the National Standards for FCS students, the National Standards for teachers of FCS and the standards for the state in which the candidate will teach. Learners and the learning environment; program leadership; beginning instructional strategies; Family, Career, and Community Leaders of America (FCCLA); curriculum development; integration of technology in the FCS classroom and assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 805 Administration in Family and Consumer Sciences Education****Prerequisites:** Admission to CYAF graduate program**Description:** Administration of family and consumer sciences programs. Emphasis on educational leadership and related issues in a variety of educational settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CYAF 806 Evaluation and Assessment**Prerequisites:** Admission to CYAF Graduate program**Description:** Procedures for appraisal of individual growth and achievement in all subject areas in family and consumer sciences. Development of evaluative instruments for cognitive, affective, and psychomotor learning and interpretation of data in the evaluation of various types of family and consumer sciences programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 807 Supervisory Leadership****Crosslisted with:** ALEC 407, ALEC 807**Prerequisites:** ALEC 302**Description:** Knowledge and theoretical basis for practicing supervisors in a changing workplace where supervisors have increasing responsibilities due to the flattening or organizational structures, solving supervisory challenges in organizing and planning, problem solving and decision making, performance appraisal and leading a diverse workforce.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 808 Occupational Programs in Family and Consumer Sciences****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by Iowa State University.**Description:** Planning and implementing occupational Family and Consumer Sciences programs in career and technical education. Cooperative education, career pathways, and work-based education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 809 Curriculum Development in Family and Consumer Sciences****Prerequisites:** Admission to CYAF Graduate program**Description:** Development of family and consumer sciences programs for secondary schools, colleges, universities, and extension programs. Focus on theories of curriculum and recent trends affecting family and consumer sciences programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 810 Transdisciplinary Obesity Prevention****Crosslisted with:** NUTR 810**Prerequisites:** NUTR 455 or equivalent; Graduate standing**Description:** Using a transdisciplinary team of faculty and guest lecturers, students will be introduced to the interrelationship of obesity and dietary components, behavior, exercise and sports science, physical activity, health promotion, genetics, nutrigenomics, child development, family dynamics, cultural issues, epidemiology, population disparity, educational leadership, public policy and other related topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 910, CYAF 910**CYAF 811 Family Immigration and Migration****Description:** Exploration of migration in a global context, including how policies shape emigration and immigration of families in different parts of the world. Specific attention will be paid to the social, cultural, political, and economic factors related to early childhood education, parenting, adolescent identity, marriage and relationships, elder care, health and wellbeing, and host-country integration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**CYAF 812 Supervision of Secondary Student Teachers****Prerequisites:** Admission to CYAF Graduate program**Description:** The course is designed to prepare cooperating teachers within Career & Technical Education, specifically, family and consumer sciences. Supervision of student teachers is an essential component of teacher preparation, and as such, the roles of student teacher, cooperating teacher, university supervisor, and state department of education will be analyzed. Mentoring strategies, evaluation and feedback models and collaborative teaching approaches will also be discussed. An opportunity will be provided to address potential areas of concern regarding teacher preparation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 813B Internship: Selected Experiences****Prerequisites:** Permission**Notes:** Pass/No Pass only.**Description:** Actual and simulated experiences in working with persons through human resources and family sciences in special focused areas of student's choice, e.g., adult education, career education, post-secondary education, special needs programs, consumer affairs.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CYAF 814 Evaluation in Career and Technical Education****Crosslisted with:** TEAC 814**Description:** Two aspects of evaluation in the classroom: 1) selection and use of evaluation in assessing learning, and 2) consideration of conceptual and methodological issues in conducting evaluation to determine and account for the effectiveness of programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 815 Family and Violence in the Global Context****Description:** The concept of violence includes both interpersonal violence (child abuse, violence against women) and collective violence (war, genocide) and their intersections. The nature, causes, agents, and consequences of, as well as responses to violence are examined in the social, political, economic, cultural and global contexts.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

CYAF 816 Educational Programming**Crosslisted with:** CYAF 416**Prerequisites:** Permission**Description:** Planning and implementing developmentally appropriate educational experiences for a variety of audiences in non-formal settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 817 Critical Issues for the Beginning Family and Consumer Sciences Teacher****Description:** Examines issues faced by beginning or returning Family and Consumer Sciences (FCS) teachers. Possible issues are classroom management, planning, selecting resources, and other critical issues to the new teacher. The theory and its application to the students' educational setting discussed for each issue. Includes how teachers can mentor and support one another as a collaborative group.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 818 History and Philosophy of Family and Consumer Science and Career and Technical Education****Prerequisites:** Admission to CYAF degree program and permission**Notes:** Distance education course delivered by University of Nebraska-Lincoln.**Description:** History, mission, philosophy and development of Family and Consumer Sciences (CYAF) and career and technical education. Societal context for families and communities. Impact of selected legislation on family and consumer sciences programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 820 Family & Consumer Sciences Professional Development****Description:** Enhance career through a wide variety of professional development experiences by utilizing local, state, national and international professional associations. Recognize the importance of building a professional network in Family and Consumer Sciences, Home Economics, government, business, and non-profit organizations. Emphasis is given to leadership and professional development, while drawing upon professional and personal experiences at the state, national and international level. Identification of your leadership style and analyze leadership potential for building your own network and memorable experiences at the national and international level.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 821 Insurance Planning for Families****Prerequisites:** Admission to CYAF graduate program**Description:** Risk management concepts, ethical considerations, tools, and strategies for individuals and families. Life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and, government-subsidized programs. Case studies provide experience in selecting appropriate insurance products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 822 Financial Counseling****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by North Dakota State University.**Description:** Theory and research regarding the interactive process between clients and practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake verification and analysis. Legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 823 Estate Planning for Families****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by Montana State University.**Description:** Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations, and new and emerging issues in the field. Case studies provide experience.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 824 Fundamentals of Financial Planning****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by Kansas State University.**Description:** Issues and concepts related to the overall financial planning process and establishing client-planner relationships. Services provided, documentation required, and client-CFP licensee relationships. Competencies related to gathering of client data, determining goals and expectations, and assessing the client's financial status. Emerging issues and the role of ethics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CYAF 825 Reading in the Content Area**Prerequisites:** Admission to CYAF graduate program**Description:** Basic reading and writing process relating to content literacy including schema theory, comprehension, and second language acquisition. The contribution of content literacy to content material and positive learning environments. Use of a variety of materials including textbooks, literature, Internet resources and media in the content classroom. Assisting diverse students in the use of reading, writing and vocabulary strategies to learn content material.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 826 Military Personal Financial Readiness****Description:** An overview of the topics relevant to the financial planning process including: Unique needs, terminology, benefits, and resources that impact military service members and their families. Status of service member; financial readiness; financial management; recordkeeping; cash flow management; tax management; retirement management; estate management; and special topics management; risk management; credit and debt management; savings, education planning, and investment. Distance education course delivered by Kansas State University.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 827 Lifespan Development****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 827 is open to students in the Military Academic Advancement Program.**Description:** This course covers the human development including the cognitive, social-emotional, motor, language, and moral domains from both a lifespan and a bio-ecological perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 828 Retirement Planning, Employee Benefits and the Family****Prerequisites:** Admission to CYAF graduate program**Description:** Micro and macro considerations in retirement planning for individuals and families. Various types of retirement plans, ethical consideration in providing retirement planning services, assessing and forecasting financial needs, integration of retirement plans with government benefits, and current research and theory. Case studies provide experience.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 829 Leadership, Administration, & Management in Community Programs****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 829 is open to students in the Military Academic Advancement Program.**Description:** This course serves as an overview of management and leadership concepts related to the operational and administrative competencies necessary in effective community-based family and youth organizations and agencies. It is designed to provide students with foundational skills and knowledge to manage day-to-day functions related to organizational systems such as human resource management, financial management, risk management, strategic planning, governance and advisory structures, and marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 830 Family Issues and Public Policy****Description:** Designed to help Family and Consumer Sciences Educators address the impact of private and public family and related community issues and how to take the appropriate social action in a democratic culture. Attention will be given to the role of the educator in helping students critically examining these issues through FCS programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 831 Immigrant Families and Life Stories****Description:** History, culture, and experiences of immigrant and transnational families. Examination of the current state of global immigrant families, future trends, and implications for family services and policy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 832 Techniques of Supervision in Family and Consumer Sciences Education****Prerequisites:** Admission to CYAF Graduate program**Description:** The philosophy, responsibilities, and techniques of supervision in family and consumer sciences and other learning environments. Designed for masters and doctoral level students.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 833 Children, Families, Communities and the Natural Environment****Description:** Examine interconnections among children, families, communities and the natural environment, with implications for sustainability and programming.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CYAF 834 Marriage and Committed Relationships from a Worldwide Perspective

Description: Examination of the complexities of marital and committed relationships from both global and developmental perspectives and through Ecological Systems and Family Systems theoretical lenses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 835 Professional Practices in Financial Planning

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by Kansas State University.

Description: Challenges of managing financial planning practices: business valuation, personnel, marketing, client services, ethics and technical applications. Case study analysis, relying on a theoretical and applied approach, will provide practical exposure to management issues. Emphasis on current research findings.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 836 Financial Planning Case Studies

Prerequisites: Completion of all courses toward the Family Financial Planning specialization or permission

Notes: Distance education course delivered by Kansas State University.

Description: Capstone course integrating both theoretical and applied concepts, including research findings introduced in all other courses. Students develop written financial plans based on comprehensive cases, presented to a panel of practitioners.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 837 Families Across the Life Course

Description: Exploration of family interactions and individual development across the life span and the cultural, political, and social factors that impact development globally.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 838 Parenting Education

Prerequisites: Admission to CYAF graduate program

Notes: CYAF 838 is open to students in the Military Academic Advancement Program.

Description: The course is needed for the online specialization in Family and Community Services. This course will examine theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western and Eastern cultures.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 839 Program Development and Evaluation

Prerequisites: Admission to CYAF graduate program

Notes: CYAF 839 is open to students in the Military Academic Advancement Program.

Description: This course analyzes the principles and methods of program design, implementation, and outcome evaluation of family programs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 840 Personal Income Taxation

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by Montana State University.

Description: Income tax practices and procedures including tax regulations, tax return preparation, tax audits, appeals, preparation for an administrative or judicial forum, and ethical considerations. Family/individual case studies provide practice in applying and analyzing information.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 841 Housing/Real Estate

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by Iowa State University.

Description: The role of housing and real estate in the financial planning process from a theoretical perspective. Taxation, legal aspects, mortgages, and financial calculations related to home ownership and real estate investments. New and emerging issues, as well as the role of ethics in financial planning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 842 Parent-Child Relationships Across the Life Span

Description: Study of parent-child relationships from a developmental, systems, and life-span perspective, including theory, research methods, and application of knowledge.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 843 Family, School and Community Partnerships

Description: The role of family, school, and community partnerships in learning and development across the world. Strategies for mobilizing these partnerships to affect change in diverse environments.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 844 Family Centered Practice through the Life Course

Description: The connection and collaboration between services and families will be explored with an emphasis on building family-friendly, family-supportive community structures that harness family strengths.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 845 Research in Leadership Education**Crosslisted with:** ALEC 845**Description:** Steps in preparing a research proposal, including statement of the research question, review of relevant literature, and determination of an appropriate research design and methodology. Research methodology, including both quantitative and qualitative procedures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 846 Addictions and Families****Crosslisted with:** CYAF 446, CYAF 446H**Description:** Introduction to addictions from a family systems perspective: theories; behavioral patterns; physiological, psychological and social impacts on individuals and the family; and implications for interventions and treatment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 847 Working with Gay, Lesbian, Bisexual and Transgender (GLBT) Youth in Professional Context****Crosslisted with:** WMNS 847, CYAF 447, WMNS 447**Description:** Contextual considerations and research-informed guidelines for working with Gay, Lesbian, Bisexual, and Transgender (GLBT) youth in professional settings such as education, mental health, medical, and community outreach. The systemic context of GLBT youth, including developmental transitions, unique stressors, peer relationships, familial environments, and ways to help GLBT youth thrive**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 848A Financial Theory and Research I****Description:** Theories of family functioning, macroeconomic theory related to family resource allocation decisions, the family as an economic unit, and the interaction of the economy and families.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CYAF 848B**CYAF 848B Financial Theory and Research II****Prerequisites:** CYAF 848A**Description:** Microeconomic theory as it relates to family resource allocation decisions, theories of household behavior, the life cycle hypothesis, behavioral economics, behavioral finance, theories of behavioral change, and psychological theories of family well-being. Develop teaching and/or learning plans for teaching Family and Consumer Sciences. Analyze classroom management practices and develop plans for assessment.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

CYAF 853 Families in Crisis**Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 853 is open to students in the Military Academic Advancement Program.

Description: The purpose of this course is to examine the experiences of individuals and families when crises occur. The course is designed to introduce you to traumatic stress from both individual and systemic theoretical perspectives. It will introduce and review the theoretical and historical beginnings of the concept of trauma, which includes the acceptance of post-traumatic stress disorder (PTSD) as a diagnosis in the DSM IV. This course will discuss various trauma reactions, effects of stressful events, as well as the treatment of trauma, stress and crises. Resilience and transcendence of trauma will be outlined, with an emphasis on the importance of self-care for helping professionals working in this area. A particular focus will be placed in understanding the common and unique experiences of individuals and families affected by grief and loss, addictions and substance abuse, violence, child abuse and neglect, and suicidal ideation based on various contextual factors. The course will include discussion of evidence-based prevention and treatment options as well as community resources for individuals and families affected by stress, trauma, and crises.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 854 Family Dynamics****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 854 is open to students in the Military Academic Advancement Program.

Description: The course will examine theories of family function and dysfunction, techniques of assessment, and models of family intervention.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 855 Psychology of Adolescence****Prerequisites:** Admission to the CYAF graduate program and permission**Notes:** Distance education course delivered by North Dakota State University.

Description: Student differences and ways of adjusting teaching practice to meet individual needs. Application of learning theories to educate the whole child (cognitive, affective, social). Equitable treatment of students.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 856 Foundations and Principles in Family and Community Services****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 856 is open to students in the Military Academic Advancement Program.

Description: This course provides an introduction to the program of family and community services and professions that involve working with individuals and families in communities.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 857 Family Resource Management****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 857 is open to students in the Military Academic Advancement Program.

Description: Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 858 Family Stress and Crisis, Coping and Recovery****Crosslisted with:** CYAF 458**Prerequisites:** Junior standing.

Description: Normative and non-normative family stressors (e.g. violence, economic conditions, war and political conflict, natural disasters) and how they affect family functioning. Family stress theories are used to understand crisis events and how families can cope and recover.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 859 Interpersonal Relationships****Prerequisites:** Admission to CYAF graduate program**Notes:** CYAF 859 is open to students in the Military Academic Advancement Program.

Description: This course will conduct an in-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 860 Human Dimensions of Sustainability****Crosslisted with:** CYAF 460

Description: Examination of the interdependence of human, ecological, economic sustainability and ways to lead a more sustainable life.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 861 Foundations of Youth Development****Prerequisites:** Admission to CYAF graduate program

Description: Fundamentals of youth development and the youth development profession. Ethical, professional and historical elements of youth development as it has evolved toward professionalization.

Credit Hours: 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

CYAF 862 Case Studies: Strengths and Challenges of Families Across the World

Description: Exploration of family strengths and challenges from multiple nations and cultures using case study methodology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 863 Youth Professionals as Consumers of Research

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by the University of Nebraska-Lincoln and North Dakota State University.

Description: Research report evaluation skills for youth development professionals. Fundamental quantitative and qualitative research principles guiding disciplined inquiry. Application of research results and theories to practice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 864 Community Youth Development

Prerequisites: Admission to CYAF graduate program

Notes: May be offered via distance education by Michigan State University.

Description: National emphasis of strength-based or asset approach to community youth development, encompassing individual development and adolescent relationships with environments. Research, theory and practice applied in communities. Existing models, theoretical and applied literature, and current community efforts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 865 Research Design and Methods

Description: Qualitative and quantitative research designs and methods used in conducting research. Students develop a research proposal.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CYAF 982; CYAF 983

CYAF 866 Family Professionals as Consumers of Research

Description: Elements of conducting and reporting research and various research designs. Quantitative and qualitative methodologies. Skills required to effectively evaluate the quality of research reports and how to apply findings to practices in education, counseling, and family policy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 867 Critical Science

Description: Focus on the special topic of critical science, both as a theoretical framework and as a practical/rational process for addressing significant and complex problems facing families. Exploration of critical science through reading and discussing published works of scholars, viewing short narrated PowerPoint lectures, and applying principles of critical science to FCS professional practice and research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 868 Adolescents and Their Families

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by Kansas State University and the University of Missouri-Columbia.

Description: Adolescent development as related to and intertwined with family development. Reciprocal influences between adolescents and their families. Working with youth vis a vis the family system.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 869 Administration and Program Management

Prerequisites: Admission to CYAF graduate program

Notes: Distance education course delivered by Kansas State University and the University of Missouri-Columbia.

Description: Introduction to the development, administration and management of youth-serving organizations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 870 Systemic Treatment of Diverse Couples and Families

Prerequisites: Permission

Description: Develop cultural competency skills for Marriage and Family Therapy treatment. Building the skills needed to treat individuals, couples and families on the awareness of ones own culture, the knowledge of other cultures. Understanding past and current contexts for marginalized families and the impact that has on their experience of seeking mental health treatment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 871 Human Sexuality and Society

Crosslisted with: CYAF 471, EDPS 471, PSYC 471, SOCI 471, EDPS 871, PSYC 871, SOCI 871

Prerequisites: Junior or Senior standing

Notes: Open to advanced students planning careers in the professions in which knowledge of human behavior and society is important (e.g., helping professions, medicine, law, ministry, education, etc.).

Description: Interdisciplinary approach to the study of human sexuality in terms of the psychological, social, cultural, anthropological, legal, historical, and physical characteristics of individual sexuality and sex in society.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 872 Youth Development**Prerequisites:** 12 hours CYAF or social sciences**Notes:** Distance education course delivered by the University of Nebraska-Lincoln and the University of North Dakota.**Description:** Scientific literature concerning the interrelationship of the physiological, psychological and sociological aspects of the adolescent and young adulthood years. Understanding of individuals and their continuous adjustment within the family life cycle as they make the transition from childhood to adulthood.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 873 Program Design, Evaluation and Implementation****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by the University of Nebraska-Lincoln.**Description:** Overview of program development process and outcome evaluation of community children and family programs. Theoretical, methodological and programmatic issues in conducting programs and scholarship.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 874 Assessment in Early Childhood****Crosslisted with:** CYAF 474**Prerequisites:** 12 hours CYAF, PSYC, EDPS, TEAC, or SECD**Description:** Selection, use, and interpretation of assessment instruments for understanding the developmental level of children from birth through age eight. Assessment of reasoning and thinking processes, concept formation, and social cognition.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 362**CYAF 875 Youth in Cultural Contexts****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by Michigan State University and the University of Missouri-Columbia.**Description:** Cultural context factors that affect youth from a holistic perspective within and outside the family unit. The cultural heritage of differing family types. Social and educational processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 876 Cognitive Processes in Children****Crosslisted with:** CYAF 476**Description:** Overview of early childhood cognitive development and education. Nature and development of reasoning and thinking processes and concept formation in children. In-depth examination of early childhood cognitive developmental theories and their implications for teachers, parents, and others working with young children.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 877 Administration of Early Childhood Programs****Crosslisted with:** CYAF 477**Prerequisites:** 12 hrs family and consumer sciences including CYAF 270.**Description:** Administration of early childhood programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 878 Youth Policy****Prerequisites:** Admission to CYAF graduate program**Notes:** Distance education course delivered by Michigan State University.**Description:** Various federal and state policies designed specifically for youth. Existing state and national policies as to whether they contribute to, or act as barriers to, desired developmental outcomes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 879 Research Methods in Family Studies****Description:** Scientific, holistic and innovative approaches to studying children and families across the globe. The influence of international, cross-cultural, and other multi-national social, religious, and political contexts that affect the study of families throughout the world will be explored.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 880 Contemporary Youth Issues****Description:** Issues faced by youth such as life skills, violence, and appearance. The course will include acquisition of resources to address childhood obesity issues, exposure to funding opportunities, research design and grant development, translation of research or programmatic findings to community and professional audiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 911, CYAF 911**CYAF 911 Practicum: Experiential Learning Experiences in Childhood Obesity Prevention****Crosslisted with:** NUTR 911**Prerequisites:** NUTR 910 or CYAF 910 or concurrent**Notes:** Practicum: Experiential Learning Experiences in Childhood Obesity Prevention is a section of the Nutrition and Health Sciences Practicum course.**Description:** An applied, monitored, and supervised field based learning experience. Gain practical experience as they follow a negotiated and/or directed plan of study. The purpose of this course is to provide students with transdisciplinary experiential learning experiences related to childhood obesity prevention or treatment. Students will work with the course instructor to determine a practicum site that meets the student's interests and the requirements of the course. Students will work collaboratively with a transdisciplinary team of individuals at the practicum site to meet the course student learning outcomes through hands on experiences.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** FLD**CYAF 920 Teaching Practicum****Crosslisted with:** NUTR 920, TMFD 920**Prerequisites:** CYAF 918**Description:** Supervised classroom experiences designed to develop competencies in teaching at the college level.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD

CYAF 930 Sociological/Anthropological Research Methods in Education**Crosslisted with:** EDPS 930, NUTR 930, TEAC 930**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**CYAF 930A Ethnographic Methods****Crosslisted with:** EDPS 930A, NUTR 930A, TEAC 930A, ANTH 930A**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 930B Special Topics in Qualitative and/or Quantitative Research Methods****Crosslisted with:** EDPS 930B, NUTR 930B, TEAC 930B**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**CYAF 930D Discourse Analysis Across School, Home and Community Settings****Crosslisted with:** EDPS 930D, NUTR 930D, TEAC 930D**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 930E Introduction to Linguistic Analysis of Classroom Interaction****Crosslisted with:** EDPS 930E, NUTR 930E, TEAC 930E**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 930J Hermeneutic Traditions in Education****Crosslisted with:** EDPS 930J, NUTR 930J, TEAC 930J**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 930K Quantitative Research Traditions in Education****Crosslisted with:** EDPS 930K, NUTR 930K, TEAC 930K**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 930M Introduction to Multimodal Textual Analysis****Crosslisted with:** EDPS 930M, NUTR 930M, TEAC 930M**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CYAF 951 Theoretical Foundations of Marriage and Family Therapy****Prerequisites:** 12 hrs CYAF and/or social sciences**Description:** General systems theory, its derivations and application in family therapy. Family therapy's history, contributions, current theorists, and approaches.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CYAF 954; CYAF 955**CYAF 952 Psychopathology and Dysfunctional Interactions****Description:** Psychological, behavioral and emotional disorders identified in the Diagnostic and Statistical Manual and various interpersonal dysfunctions. Interpersonal antecedents and consequences of these disorders. Integration of individual and family diagnosis. Research supporting treatment from a family systems approach.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CYAF 954**CYAF 953 Issues and Ethics for Family Professionals****Prerequisites:** 12 hrs CYAF and/or social sciences**Description:** Ethical and professional issues that family professionals confront as they assist families to cope with problems and strengthen family systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CYAF 954 Assessment in Family Therapy

Prerequisites: 12 hrs CYAF and/or social sciences; CYAF 951 and 952, or equivalent

Description: Assessment of family systems using objective and subjective measures for the purpose of clinical intervention and research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 955 Clinical Family Therapy

Prerequisites: 12 hrs CYAF and/or social sciences; masters admission in CYAF; CYAF 951, and permission

Description: Didactic training and supervised laboratory/clinic-based experiences in marriage and family therapy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

Prerequisite for: CYAF 997

CYAF 956 Couples and Sex Therapy

Prerequisites: Permission

Notes: CYAF 956 is only open to those students involved in clinical training.

Description: This course examines sexual functioning through a systemic perspective as it relates to clinical practice with individual adults and couples. Research and theories pertaining to sexual development, sexual behavior and expression, and relational sexual functioning are explored. Assessment and treatment of sexual and associated partner relational dysfunctions are examined from theoretical and applied perspectives.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 961 Seminar in Parent/Child Relationships

Description: Relationships between parents and children from the developmental, contextual, and life-span perspectives. Theoretical, methodological, and applied implications of research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 970 Advanced Early Childhood Education

Prerequisites: 18 hrs PSYC, EDPS, SOCI, or CYAF

Description: Advanced philosophy, procedures, and policies relating to early childhood education at the nursery school-kindergarten level and care of children outside the home.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 971 Seminar in Child Development

Prerequisites: 18 hrs PSYC, EDPS, SOCI, or CYAF

Description: Analysis of major studies and current literature in Child Development/Early Childhood Education.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 972 Theories of Human Development and Family Relations

Prerequisites: 18 hrs PSYC, and/or EDPS, and/or SOCI, and/or CYAF

Description: Theoretical basis of child study and family analysis. Critical evaluation of methods and theories in child development, family relations, and human development from an integrative and holistic perspective.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 973 Social Processes in Children

Prerequisites: Graduate Standing

Description: Synthesis of current and historical perspectives in theory and research on children's social development including multiple contexts for socialization/individuation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 974 The Infant in the Family

Prerequisites: 12 hrs in CYAF, or social sciences

Description: Infant development within the context of the family.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 982 International Research Methods for Advanced Global Scholars

Prerequisites: CYAF 865 or equivalent

Description: Introduction to the intricacies of conducting research in countries other than the US. The course is divided into two sections. Section I prepares for successful global research by focusing on cultural competence and sensitivity, developing international relationships and collaborations, and global professional ethics. Section II will focus on applications of these concepts by introducing a variety of successful approaches and research methodologies through the international research of CEHS faculty. The emphasis will be on qualitative and quantitative research methods used across the multiple disciplines represented in the college.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 983 Research Methods for Relational Dynamics

Prerequisites: CYAF 865 or equivalent

Description: Examination of research methods used in family science, focusing on helping students to develop the knowledge and skill needed to evaluate and conduct research in which the family is the primary unit of analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 989 Collaborative Health Care

Description: Conceptual models for collaborative care practices with an emphasis on care delivery systems in rural areas.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CYAF 995 Doctoral Seminar**Prerequisites:** Permission**Notes:** CYAF 995 is intended primarily for doctoral students, although other graduate students may be admitted with permission.**Description:** Develop, execute and report on one or more projects on an individual or small group basis. Immersion in outcome-based scholarly activities with a faculty mentor. The interaction between research and practice.**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 18**Format:** LEC**CYAF 996 Scholarly Practice and Discovery****Prerequisites:** Permission**Description:** Investigation related to family and consumer sciences.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CYAF 997 Advanced Practicum in Family Therapy****Prerequisites:** CYAF 955 and permission**Description:** Supervised marital and family therapy in university and community agencies.**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**CYAF 998 Special Topics in Human Sciences****Crosslisted with:** NUTR 998, TMFD 998**Prerequisites:** Permission**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** IND**CYAF 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Civil Engineering (CIVE)

CIVE 819 Flow Systems Design**Crosslisted with:** CIVE 419**Prerequisites:** CIVE 326 or CIVE 327; parallel CIVE 352.**Description:** Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems, and treatment facilities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 821 Hazardous Waste Management and Treatment****Crosslisted with:** CIVE 421**Prerequisites:** CIVE 326/BSEN 326.**Description:** Survey of the hazardous waste management system in the USA. State and federal hazardous waste regulations. Chemical characteristics of hazardous waste and unit operations and processes used for treatment of soil, water, and air.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 822 Pollution Prevention: Principles and Practices****Crosslisted with:** BSEN 422, BSEN 822, CIVE 422**Prerequisites:** Permission.**Description:** Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 954**CIVE 823 Physical and Chemical Treatment Processes in Environmental Engineering****Prerequisites:** CIVE 326, CIVE 425**Description:** Evaluation and analysis of physical and chemical unit operations and processes applied to the treatment of water, wastewater, and hazardous wastes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 824 Solid Waste Management Engineering****Crosslisted with:** CIVE 424**Prerequisites:** CIVE 326, CIVE 334.**Description:** Planning, design and operation of solid and waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 826 Design of Water Treatment Facilities****Crosslisted with:** CIVE 426**Prerequisites:** CIVE 425.**Description:** Analysis of water supplies and design of treatment and distribution systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CIVE 827 Design of Wastewater Treatment and Disposal Facilities**Crosslisted with:** CIVE 427**Prerequisites:** CIVE 425.**Description:** Analysis of systems for wastewater treatment and disposal.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 828 Environmental Engineering Chemistry****Prerequisites:** CIVE 326**Description:** Basic concepts from general chemistry. Thermodynamic and kinetic basis for the composition of aquatic systems. Equilibrium chemistry, including acid-base reactions, reduction-oxidation reactions, metal speciation and precipitation, and gas/liquid partitioning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**CIVE 829 Biological Waste Treatment****Prerequisites:** CIVE 326**Description:** Principles of biological processes and their application in the design of waste treatment systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 830 Fundamentals of Water Quality Modeling****Crosslisted with:** CIVE 430**Prerequisites:** CIVE 326.**Description:** Comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 831 Small Treatment Systems****Crosslisted with:** CIVE 431**Prerequisites:** CIVE/BSEN 326 or CIVE/BSEN 326H**Description:** Design of small and decentralized waste water management systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 832 Bioremediation of Hazardous Wastes****Crosslisted with:** CIVE 432**Prerequisites:** CIVE/BSEN 326 and CIVE/MECH 310.**Description:** Principles, applications, and limitations of bioremediation of hazardous wastes and design of some bioremediation systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 834 Soil Mechanics II****Crosslisted with:** CIVE 434**Prerequisites:** CIVE 334.**Description:** Application of the effective stress principle to shear strength of cohesive soil; analysis of stability of slopes. Development of continuum relationships for soil; solutions for stresses and displacements for an elastic continuum. Solution of the consolidation equation for various initial and boundary conditions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 836 Foundation Engineering****Crosslisted with:** CIVE 436**Prerequisites:** CIVE 334.**Notes:** Optional lab CIVE 436L/CIVE 836L.**Description:** Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 839 Introduction to Bridge Engineering****Prerequisites:** CIVE 440/840, CIVE 441, CIVE 443/843; CIVE 850 or parallel **Notes:** CIVE 850 co-requisite.**Description:** Types of Bridges, Site Design Overview, Highway Bridge Loading, Bridge Analysis, Bridge Deck Slabs, Prestressed Concrete Bridge Design, Steel Bridge Design, Substructure Design, Fatigue and Bridge Rating.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CIVE 840 Reinforced Concrete Design I****Crosslisted with:** CIVE 440**Prerequisites:** CIVE 341.**Description:** Introduction to the design concepts of reinforced concrete building components. The design of flexural and compression members, simple walls, foundations, and floor systems using the latest American Concrete Institute (ACI) design requirements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 447, CIVE 847

CIVE 842 Structural Dynamics**Prerequisites:** CIVE 341

Description: Concepts of Newtonian and Lagrangian mechanics for dynamical systems. Free and forced vibration of linear single-degree-of-freedom systems and multiple degree-of-freedom systems. Harmonic, periodic, pulse, arbitrary, and earthquake response. Numerical evaluation of dynamic response and linear response spectrum concepts. Introduction to non-linear system response. Dynamic response of continuous beams.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 945; CIVE 948**CIVE 843 Advanced Structural Analysis****Crosslisted with:** CIVE 443**Prerequisites:** CIVE 341.

Description: Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformations, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 839; CIVE 849**CIVE 844 Structural Design and Planning****Crosslisted with:** CIVE 444**Prerequisites:** CIVE 440 and CIVE 441.

Notes: CIVE 844 is not available for graduate credit for civil engineering students.

Description: Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 846 Steel Design II****Crosslisted with:** CIVE 446**Prerequisites:** CIVE 441

Notes: A continuation of the topics covered in CIVE 441.

Description: The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, introduction to seismic design of steel buildings. Plate buckling, beam, column and beam-column design, and frame stability. Introduction to connection design.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 847 Reinforced Concrete Design II****Crosslisted with:** CIVE 447**Prerequisites:** CIVE 440/840

Notes: A continuation of topics covered in CIVE 440/840.

Description: Shear friction theory, strut-and-tie modeling, anchorage, deflection, slender and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various design tasks.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 849 Introductory Finite Element Analysis in Solid Mechanics****Prerequisites:** CIVE 443/843

Description: Matrix methods of analysis. The finite element stiffness method with a focus on solid mechanics. Isoparametric elements formulation based on energy principles. Perform finite element analyses using commercial software.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CIVE 850 Prestressed Concrete****Prerequisites:** CIVE 341 and CIVE 440

Description: Analysis and design of prestressed concrete members. Axial force, bending, shear, torsion, prestress losses, initial and long-term deflection, partial prestressing, statically indeterminate structures.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 839**CIVE 852 Water Resources Development****Crosslisted with:** CIVE 452**Prerequisites:** CIVE 352.

Description: Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hydroelectric power, drainage, water quality, water distribution, irrigation, and water measurement.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 853 GIS in Water Resources****Prerequisites:** Graduate standing in Engineering or a related discipline in Natural Resources or Earth Science

Description: Familiarization with a wide range of spatial information and used in hydrologic and water resources analysis. Development of expertise in GIS systems, especially ArcGIS. Digital mapping and analysis of water resources information. Hydrologic terrain analysis using digital elevation models. Integration of time series and geospatial data. Hydrologic Information Systems. River and watershed networks. Evapotranspiration, Precipitation (PRISM), Soil, and Landuse maps, and databases. Use of Remote Sensing tools.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CIVE 854 Hydraulic Engineering**Crosslisted with:** CIVE 454**Prerequisites:** CIVE 352.**Description:** Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids, and engineering economics to the design of hydraulic structures. Continuity, momentum, and energy principles are applied to special problems from various branches of hydraulic engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 855 Nonpoint Source Pollution Control Engineering****Crosslisted with:** BSEN 455, BSEN 855, CIVE 455**Prerequisites:** BSEN 326/CIVE 326 or BSEN 355; AGEN/BSEN 350 or CIVE 352 as prerequisite or parallel.**Description:** Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**CIVE 856 Surface Water Hydrology****Crosslisted with:** CIVE 456**Prerequisites:** CIVE 352**Description:** Stochastic analysis of hydrological data and processes including rainfall, runoff, infiltration, temperature, solar radiation, wind, and non-point pollution. Space-time hydrologic modeling with emphasis on the application of techniques in the design of engineering projects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 857 Applied Structural Analysis****Prerequisites:** CIVE 851**Description:** Review of basic concepts. Mesh generation using a preprocessor. 2D and 3D Model generation. Boundary conditions. Implicit and explicit solution algorithms. Interpretation of analysis results using a post-processor. Solution of problems using existing FE software.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 858 Groundwater Engineering****Crosslisted with:** BSEN 458, BSEN 858, CIVE 458**Prerequisites:** CIVE 352 or AGEN 350 or BSEN 350**Description:** Application of engineering principles to the movement of groundwater. Analysis and design of wells, well fields, and artificial recharge. Analysis of pollutant movement..**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 955, AGRO 955, CIVE 955, GEOL 985**CIVE 861 Urban Transportation Planning****Crosslisted with:** CIVE 461**Prerequisites:** CIVE 361.**Description:** Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analyses, and traffic assignment. Site development and traffic impact analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 864**CIVE 862 Highway Design****Crosslisted with:** CIVE 462**Prerequisites:** CIVE 361**Notes:** Has an emphasis on design projects.**Description:** Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 865**CIVE 863 Traffic Engineering****Crosslisted with:** CIVE 463**Prerequisites:** CIVE 361**Notes:** Emphasizes design projects.**Description:** Design of signalized intersections, arterial street and network signal systems, and freeway control systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 866**CIVE 864 Analysis and Estimation of Transportation Demand****Prerequisites:** CIVE 461/861**Description:** Introduction to conceptual, methodological, and mathematical foundations of analysis and design of transportation services. Review of probabilistic modeling. Application of discrete choice models to demand analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 865 Highway Geometrics****Prerequisites:** CIVE 462/862**Description:** Principles of highway geometrics. Sight distance, design vehicles, vehicle characteristics, horizontal and vertical alignment, cross section elements, and at-grade intersections and interchanges.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CIVE 866 Transportation Characteristics**Prerequisites:** CIVE 463/863 and MATH/STAT 380**Description:** Use of the concepts of volume, speed, density, and capacity to describe the characteristics and performance of surface, air, and water transportation systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CIVE 964**CIVE 867 Transportation Safety Engineering****Prerequisites:** Permission**Description:** Safety criteria in the planning, design, and operation phases of highway, rail, airport, mass transit, pipeline, and waterway transportation systems. Background of safety legislation and funding requirements. Identification of high accident locations and methods to determine cost/effectiveness of improvements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 868 Airport Planning and Design****Crosslisted with:** CIVE 468**Prerequisites:** CIVE 361.**Description:** Planning and design of general aviation and air carrier airports. Land-side components include vehicle ground-access systems, vehicle circulation parking, and terminal buildings. Air-side components include aircraft apron-gate area, taxi-way systems, runway system, and air traffic control facilities and airspace. Emphasis on design projects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 871 Bituminous Materials and Mixtures****Crosslisted with:** CIVE 471**Prerequisites:** CIVE 378**Description:** Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 872 Pavement Design and Evaluation****Crosslisted with:** CIVE 472**Prerequisites:** CIVE 334.**Description:** Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 475, MSYM 875, POLS 475, POLS 875**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**CIVE 880 Engineering Economy****Prerequisites:** Permission**Description:** Economic comparison of engineering alternatives. Equipment selection and replacement, depreciation, break-even points, and minimum-cost points.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**CIVE 881 Computational Problem Solving In Civil Engineering****Crosslisted with:** CIVE 481**Prerequisites:** MATH 221 and CSCE 155A or 155E or 155H or 155N**Description:** Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 898 Special Topics in Civil Engineering****Crosslisted with:** CIVE 498**Prerequisites:** Permission.**Description:** Special problems, topics, or research in civil engineering.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CIVE 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND

CIVE 916 Environmental Law and Water Resource Management Seminar**Crosslisted with:** NRES 916**Prerequisites:** Permission**Description:** An interdisciplinary seminar with the Department of Civil Engineering. Contemporary environmental issues and water resource management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 945 Structural Analysis and Design for Dynamic Loads****Prerequisites:** CIVE 443/843 and CIVE 842**Description:** Behavior of structural materials and systems under dynamic loads. Analysis and design for dynamic loads. Computational and analytical techniques. Selected laboratory demonstrations of the dynamic behavior of structural systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 948 Blast-resistant Structural Design****Prerequisites:** CIVE 842**Description:** Introduction to explosion effects. Air-blast. Fragmentation. Single-Degree-of-Freedom (SDOF) analysis. Equivalent SDOF systems. Pressure-impulse diagrams. Energy solutions. Steel design. Reinforced concrete design. Masonry design. Progressive collapse. Windows and doors.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 954 Advanced Hydraulics****Prerequisites:** CIVE 854 and permission**Description:** Advanced studies involving pipe and culvert hydraulics, rapidly-varied flow in open channels, sediment transport, river mechanics, control, and design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 955 Solute Movement in Soils****Crosslisted with:** AGEN 955, AGRO 955, GEOL 985**Prerequisites:** MATH 208; AGRO 861 or GEOL 888 or MSYM 852 or CIVE 858**Description:** Examination of the theory and experimental evidence available to characterize the movement of chemicals in soil. Both saturated and unsaturated flow conditions examined. Initial presentation of basic theoretical concepts. Remainder of class a discussion of the literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 957 Modeling Vadose Zone Hydrology****Crosslisted with:** AGEN 957, BSEN 957, GEOL 957**Prerequisites:** MATH 221/821 or equivalent. AGEN/BSEN 350 or NRES 453/853 or equivalent.**Notes:** Typically offered spring semester in even years.**Description:** Principles and modeling of fluid flow and solute transport in the vadose zone. Topics include hydraulic properties of variably saturated media, application of Darcy's Law in variably saturated media, hydrologic and transport processes in the vadose zone, and solution of steady and unsteady flow problems using numerical techniques including finite element methods. Contemporary vadose zone models will be applied to engineering flow and transport problems. Review and synthesis of classic and contemporary research literature on vadose zone hydrology will be embedded in the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**CIVE 958 Contaminant Transport in Porous Media****Prerequisites:** Permission.**Description:** Theory of flow and contaminant transport in porous media including groundwater flow, multiphase flow, equilibrium contaminant distribution, reactive transport of contaminants, and colloid transport in porous media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 961 Mass Transit Systems****Prerequisites:** Permission**Description:** The place of mass transit in solving urban transportation problems: transit system and terminal characteristics and planning criteria. Speed, capacity, accessibility, and operation of mass transit systems. Future prospects in transit technology and case studies of existing systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 962 Application of Geographic Information Systems GIS to Transportation****Prerequisites:** Permission.**Description:** Geographic Information Systems (GIS) structure, functions, and concepts such as spatial data models, relational databases, and spatial analyses. GIS project planning, management, and applications to transportation-related issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CIVE 963 Highway Safety Data Analysis**Prerequisites:** STAT 801A and permission**Description:** Highway safety issues and appropriate accident data analyses. Quantify changes in safety when modifications are made to highways in an effort to enhance safety. Judge reported safety improvements and carry out appropriate analyses for assessing the effectiveness of safety improvements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 964 Theory of Traffic Flow****Prerequisites:** STAT 801A and CIVE 866**Description:** Analysis of traffic characteristics as applied to traffic engineering facility design and flow optimization. Capacity of expressways, ramps, weaving sections, and intersections. Analytical approaches to flow analysis, queueing theory, flow density relationships, and traffic simulation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 965 Traffic Control Systems****Prerequisites:** Permission**Description:** Principles of traffic control. Design an analysis of intersection, arterial street, network, and freeway control systems. Traffic surveillance and driver information systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 966 Transportation Planning and Economics****Prerequisites:** Permission.**Description:** Community growth and development based on planning decisions regarding land use whereby transportation facilities are fitted to land use. Economic studies that consider the consequences to transportation agencies, users, and nonusers. Agency expenditures, capital outlay and annual expenses for maintenance and operations. User consequences such as vehicle operating costs; commercial time costs; accident costs; discomfort and inconvenience costs; and assignment of money valuations to pleasure, recreation, and culture. Nonusers consequences such as cost reductions or increases in public services; increases in value of crops and natural resources where areas become more readily accessible; changes in business and industrial activities; and increase or decrease of residential property values.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 967 Analysis and Design of Transportation Supply Systems****Prerequisites:** Permission**Description:** Operations research techniques for modeling system performance and design of transportation services. Routing and scheduling problems. Network equilibration and partially distributed queueing systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CIVE 989 Seminar in Civil Engineering****Prerequisites:** Permission**Description:** Current topics, research projects, and review of current literature in the various areas of civil engineering.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 6**Format:** LEC**CIVE 998 Special Problems in Civil Engineering****Prerequisites:** Permission**Description:** Reading and evaluation of technical publications concerned with theory and/or experimental data. Subsequent assignments are coordinated with the student's particular interests in his/her field of specialization.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CIVE 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Classics (CLAS)

CLAS 806 Visualizing the Ancient City**Crosslisted with:** AHIS 406, AHIS 806, ANTH 406, ANTH 806, CLAS 406**Prerequisites:** Junior standing.**Notes:** Recommend some background knowledge of ancient art, history, or languages, a general background course such as AHIS 101, ANTH 252, CLAS 209/CLAS 210, or any of the courses listed in the Archaeology or Digital Humanities minors. Computer/design skills welcome but not necessary.**Description:** A new approach to looking at the history and development of ancient cities, combining history and archaeology with digital methods, in particular 3D modeling.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CLAS 807 Early Christianity****Crosslisted with:** CLAS 307, HIST 307, HIST 807, RELG 307**Description:** Life, literature, thought, and institutions of the Christian movement from Jesus to Constantine. A critical, historical approach to the sources in English translation and how they reflect the interaction of Christian, Jew, and pagan in late antiquity. Includes the historical Jesus vis-a-vis the Christ of Faith, the impact of Paul's thought, the formation of Christian dogma, methods of interpreting canonical and extra-canonical Christian literature, the problem of heresy and orthodoxy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Pre-1800 History

CLAS 809 Religion of Late Western Antiquity**Crosslisted with:** CLAS 409, HIST 409, HIST 809, RELG 409**Description:** Examination of the religious institutions, philosophies, and lifeways of the Hellenistic Age from Alexander to Constantine. Includes civic religion of Greece and Rome, popular religion, mystery cults, Judaism, Christianity, popular and school philosophies (Platonism, Aristotelianism, Epicureanism, Cynicism, Stoicism), Gnosticism. History, interrelationships, emerging world view of these movements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Pre-1800 History**CLAS 810 Gnosticism****Crosslisted with:** CLAS 410, RELG 410**Description:** Examination of the nature, history, literature, ritual, and impact of the classical Gnostic religions, 100 BCE to 400 CE. Extensive reading of original Gnostic treatises in English translation, with particular attention to their appropriation and transformation of earlier Jewish, Christian, and pagan religious and philosophical traditions. The principal Gnostic schools to be treated are Simonians, Sethians, Valentinians, Hermetics, and Manichaeans.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CLAS 838 Archaeologies of Europe****Crosslisted with:** ANTH 438, ANTH 838, CLAS 438**Description:** Survey of the material remains of Europe and of the various approaches to the study of the European past.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Archaeology**CLAS 840 Gender and Sexuality in the Ancient World****Crosslisted with:** CLAS 440, WMNS 440, WMNS 840**Description:** Ancient Greek and Roman evidence pertaining to the fields of women's studies, gender studies, and the study of sexuality.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CLAS 861 Geospatial Approaches in Digital Humanities and Social Sciences****Crosslisted with:** ANTH 461, ANTH 861, CLAS 461, GEOG 461, GEOG 861, HIST 461, HIST 861**Description:** Study of geographic concepts and critical analysis of applications of Geographic Information Systems (GIS) in humanities and social sciences and application of geospatial tools for humanities and social science research; learn how to collect, manage, analyze, and visualize spatial data for real-world projects**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Techniques**CLAS 883 Classical Drama****Crosslisted with:** CLAS 483, ENGL 440, ENGL 840**Prerequisites:** Senior standing.**Description:** Greek and Roman tragedy and comedy in translation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Literary and Cultural Studies

Communication Studies (COMM)

COMM 827 Instructional Communication**Crosslisted with:** COMM 427, TEAC 429, TEAC 829**Prerequisites:** COMM 101.**Description:** Advanced introductory course in instructional communication, focusing on understanding variables associated with the communication process in instructional settings and managing instructional communication more effectively. Provides an experimental and a cognitive understanding of the role of communication in the instructional process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**COMM 830 Political Communication****Crosslisted with:** COMM 430, POLS 430, POLS 830**Prerequisites:** 12 hrs communication studies.**Description:** Role of communication in the political process, with emphasis on communication strategies in political campaigns. Includes communication variables important in the political process, an application of communication theory and principles to political rhetoric, and analysis and criticism of selected political communication events.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**COMM 850 Seminar in Gender and Communication****Description:** Relationship between gender and communication. Theories and research on gender and communication, serving as the basis for studying the interrelationships among language, social reality, sex role stereotypes, and cultural values.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**COMM 852 Media and Culture****Description:** Theories of mass media, digital media and culture as the basis for investigation of human communication in a variety of contexts and activities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

COMM 870 Interpersonal Communication Theory

Description: In-depth exploration of interpersonal communication theory and research across contexts. How people interact to create, maintain, and dissolve relationships.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 886 Organizational Communication

Description: Principles and theories relevant to communication behavior within organizations which can be used to guide the way people communicate in organizations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 898 Special Topics

Description: Topic varies.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 24

Format: LEC

COMM 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

COMM 900 Introduction to Graduate Studies in Communication

Description: Systematic introduction to the discipline of communication studies, focusing upon the various dimensions of scholarship essential to successful pursuit of an advanced degree in communication studies. Function of communication studies research, surveys major research trends of the discipline, examines epistemology from a human communication perspective, and helps to develop writing and research skills.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 905 Influential Books in Communication Studies

Description: Study of Historical and foundational texts with opportunity to analyze texts tailored to students' specialization.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 911A Classical Rhetoric

Description: In-depth study of the evolution of rhetorical theory from its origin to St. Augustine, with emphasis on rhetorical theory in Classical Greece and Rome.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 911B Modern Rhetoric

Description: In-depth study of the evolution of rhetorical theory from the middle ages through the modern period, with emphasis on eighteenth- and nineteenth-century British rhetorical thought.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 911D Contemporary Rhetoric

Description: In-depth study of the development of rhetorical theory in the twentieth century.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 927A Seminar in Instructional Communication

Description: Literature and research pertaining to the basic psychological concepts, principles, and communication skills employed in effective instruction. Communication as it applies to instruction by studying and applying theories of learning and communication to instructional contexts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 927B Seminar in Instructional Communication Research

Description: Review and analyze the seminal and current research related to communication in instructional contexts. Foundation for developing theory and generating original research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 927D Current Issues in Instructional Communication

Description: Investigation of current topics in instructional communication and speech communication education. Specific content depends on the semester the course is offered and the research interests of the instructor assigned.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 930 Social Identity and Intergroup Communication

Description: Introduction to the theories, concepts, and research on intergroup communication, personal and social identity, and social categorization. Communicative processes associated with defining self and others including social comparison, prejudice and discrimination, and social conflict.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 950D Special Topics in Rhetoric and Public Culture

Description: Investigation of current topics in the research between cultural processes and human communication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 953 Seminar in Political Communication

Description: In-depth study of the influences of communication behavior on political events. Communication within political campaigns and governmental processes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 954 Seminar in Health Communication

Description: An introduction to the foundational and contemporary issues of health communication, including illness identity, patient-provider communication, family influence, social support, community-based interventions, health disparities, and future directions for the subfield.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 955 Communication and Health Disparities

Description: Emphasizes the role of communication in defining health problems and creating communication-based intervention solutions to improve health disparities, which are defined as preventable differences in health outcomes based on gender, ethnicity, socioeconomic status, geography, age, sexual orientation, and disability.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

COMM 970A Seminar in Interpersonal Communication

Description: Fundamental concepts, theories, and research in interpersonal communication. Selected problems and contemporary research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 970B Seminar in Family Communication

Description: Concepts, theories, and research in family communication. Selected problems and contemporary research across a variety of family contexts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 970D Current Research in Interpersonal Communication

Description: Surveys current research in interpersonal communication. Issues, direction and methodology in interpersonal communication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 971 The Dark Side of Interpersonal and Family Communication

Description: In-depth exploration of aspects of interpersonal and family communication traditionally considered negative and destructive to understand the potentially (dys)functional aspects of these behaviors and processes. Focuses on impact on human health.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 973 Narratives, Health, and Relationships

Description: Explores theory and research that situates narratives as central to making sense of, creating, and coping with our relational lives. Emphasis on how narratives and storytelling are linked to mental, physical, and relational health both within and outside the context of health care.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 981 Rhetorical Criticism

Description: Advanced course in rhetorical criticism and textual analysis. Designing and conducting an in-depth research perspective from a critical perspective.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 982 Rhetoric of Social Movements and Counterpublics

Description: Contemporary approaches to scholarship on movements, social protest, and counterpublics within rhetoric and media studies with a focus on hegemony, embodiment, and coalitions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

COMM 983 Introduction to Quantitative Research Methods

Description: Introduction to quantitative research methodology and analysis. Paradigmatic assumptions, reading and interpreting quantitative research studies, and quantitative research design and analysis. Posing research questions and/or hypotheses, quantitative measurement and study design, data collection, and univariate statistical analyses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 984 Interpretive Research Design

Description: Theory and practice of interpretive research methodologies and methods. Individual and/or group research projects are planned, conducted, and reported.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 985 Cultural Criticism

Description: Advanced course focusing on the critical analysis of cultural artifacts, especially upon the relationship of media, language, and culture. Designing and conducting a research project from a cultural studies perspective.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 986A Perspectives in Organizational Communication

Description: Examines post-positivist, interpretive and critical perspectives on organizational communication research and their use to creatively explore problematic communication situations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 986B Problems and Issues in Organizational Communication

Description: Examines consequential problems of communication in and around contemporary organizations. Recent subjects include communicating and organizing for social change.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 986D Current Research in Organizational Communication

Description: Explores current research foci of the faculty. Recent subjects include the development of a communication perspective on globalization.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

COMM 996 Research Problems Other Than Thesis

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

COMM 998 Special Topics in Communication Studies

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

COMM 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Community and Regional Planning (CRPL)

CRPL 800 Introduction to Planning

Crosslisted with: CRPL 400

Description: Field of community and regional planning introduced and studied in relation to the history of cities, urbanization, and regionalization. Origins and evolution of American urban and regional planning practice. The planning process as a response to social, political, physical, and economic factors is analyzed. Introduces the community comprehensive planning process, plan implementation, and functional areas of planning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRPL 802 Planning Theory

Prerequisites: or parallel: CRPL 800

Description: Linkages between knowledge and organized action in planning practice are analyzed in terms of philosophical underpinnings, decision theory, programming, policy formulation, politics, goals, values, and social change. Historical traditions of contemporary planning theory. The identities, roles, and relationships of planners with society.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRPL 804 Legal Aspects of Planning

Prerequisites: or parallel: CRPL 800

Description: Applications of constitutional, common, administrative, and statutory law in the planning process are studied. Roles of the branches of American government in the regulation and control of land use and development, as well as in the planning, development, and delivery of public services and facilities. Legal theories, issues, cases, and applications relevant to professional planning practice, as well as the legal responsibilities of participants in the planning process.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRPL 810 Qualitative Techniques for Planners

Description: Applied qualitative research techniques. Interpret verbal data generated by the community. Organize, categorize, and analyze the words (data) into critical empirical comparable units of analysis. Optimize *active* listening skills; techniques to incorporate qualitative community concerns into the planning process; and epistemological insights on how to combine data obtained from divergent research methods into a single research project.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRPL 820 Grant Writing and Fund-raising**Crosslisted with:** CRPL 420**Prerequisites:** Senior standing.

Description: Introduces and familiarizes the student with the theory and practice of fund-raising and grant writing. Overview of the principles and concepts of philanthropy and the basic issues of fund-raising. Skills of writing a case statement, conducting a donor search and analysis, designing a fund-raising vehicle, and writing grant applications in "real world" situations.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 830 Planning with GIS****Crosslisted with:** CRPL 430

Description: Theory and practice of spatial analysis and visualization with geographic information systems in planning. Selection and use of computer software and data for problem solving and decision making in community and regional planning and related fields. Various practical applications of geographic information systems, visualization, spatial analytics, geospatial mapping, modeling, and geo-database management. Hands-on training

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CRPL 432, CRPL 832; CRPL 840; CRPL 990**CRPL 832 Advanced Spatial Analysis with GIS****Crosslisted with:** CRPL 432**Prerequisites:** CRPL 830 or introductory level GIS or equivalent

Description: Provides advanced level instruction on the knowledge and methods needed for the complex spatial analysis in developing and utilizing geographic information in planning. The main subjects to be covered are advanced analysis with raster, network analysis, 3D modelling and visualization, spatial-statistical analysis, and geodatabase management. This course also includes wide variety of real world settings for GIS analysis and spatial decision making in planning - from a broad and practical perspective.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 833 GIS in Environmental Design and Planning****Crosslisted with:** CRPL 433**Prerequisites:** Permission

Description: This course provides an introduction of contemporary theories, principles, and methods of environmental survey and analysis in environmental design and planning. It includes an analysis of the critical environmental elements, their interrelationships, and human interactions in environmental design and planning. This course emphasizes synthesizing Geographical Information System (GIS) spatial analysis skills and environmental analysis knowledge into a coherent concept for practical applications. By the end of the course, it is expected that students will have the ability to use GIS to perform environmental spatial analysis and site analysis.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 840 Planning Methods and Analysis****Prerequisites:** Principles of statistics course; CRPL 800; CRPL 830; community and regional planning major

Description: Analytical methods and techniques for research, problem solving, and decision making are studied and applied within the context of the planning process. Statistical analyses; forecasting methods; optimization techniques; models and simulation techniques; and methods of demographic, economic, land use, and policy analyses are studied in relation to community and regional planning.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CRPL 990**CRPL 841 Researching Quality of Life****Crosslisted with:** CRPL 441

Description: The central goal of the course is to help students think critically about issues related to people's quality of life in contemporary communities. How the quality of life of individuals and groups is influenced by the social, psychological, physical, economic and demographic conditions in their environment. It teaches how to systematically carry out an applied research project--how to study a research problem, analyze data, and effectively communicate the results of the research.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 860 Planning and Design in the Built Environment****Crosslisted with:** CRPL 460**Prerequisites:** Senior standing.

Description: Introduces principles and practices of planning, design, and implementation for multiple-structure built environments. Influences of physical, social, environmental, and economic factors upon planned and designed environments. Various planning and design methods, processes, and products introduced. Means of project implementation explored, and examples of existing and proposed projects studied.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 867 Active and Healthy Community Development****Crosslisted with:** CRPL 467

Description: Integrates public health into community planning and design process. Explores how a community's physical environment can have both positive and undesirable influence on human health, physical activity, mental health, safety, air and water pollution, social activity and well-being of its residents. Examines how community planning - such as land development pattern, urban service, housing, zoning, transportation, and land use - has changed walkability, environmental quality, access to services, vulnerable populations, social interaction, quality of life and health conditions. Develops strategies to improve conditions of communities. Utilizes community health impact assessment.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CRPL 870 Environmental Planning and Policy**Crosslisted with:** CRPL 470**Prerequisites:** Senior standing.**Description:** Introduces environmental planning, including its history and origins. Major environmental issues throughout the world, and the roles of planning in addressing these problems. Environmental planning process and environmental legislation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 871 Environmental Impact Assessment****Crosslisted with:** CRPL 471**Description:** This class provides an overview of "environmental impact assessment" in the United States. This course explores how to conduct environmental impact assessments, environmental impact analysis, review of environmental impact statements, and use of various regulatory review processes. It emphasizes the significant environmental legislation - National Environmental Policy Act (NEPA). NEPA applies to all federal agencies and most of the projects and decisions. This class introduces the background and implementation of the NEPA, and explains the preparation of environmental impact statements (EISs). This class covers the major themes of environmental impacts assessment, including air pollution, water quality, land resources, cultural resources, archaeology, traffic, noise, transportation, and so on. This interdisciplinary class fits students in all departments, including Natural Resources Management, Environmental Studies, Civil Engineering, Wildlife and Fisheries, Planning, Landscape Architecture, Architecture, Public Policy, and others.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 872 Hazard Mitigation Planning****Crosslisted with:** CRPL 472**Description:** Overview of theory, principles, methodology, and procedures of planning for hazards, disasters, and emergencies in communities and regions, with the goal of reducing vulnerabilities and increasing resiliency in the disaster management cycle: mitigation, preparation, response, and recovery.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, GEOL 475, GEOL 875, MSYM 475, MSYM 875, POLS 475, POLS 875**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**CRPL 880 Economic Development Planning****Crosslisted with:** CRPL 480**Prerequisites:** Senior standing.**Description:** Introduces the theory and principles of economic development planning. Concepts, analytical approaches, and theories of economic growth of local communities introduced. Consideration of local economic development plans for small communities. International perspectives of economic development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 881 Planning in Developing Countries****Description:** Introduction to the comparative study of urbanization and planning in developing countries. Social, economic, and spatial organization of Third World cities, including international trends, theories of development, life in these cities, and how the people and governments of Third World countries attempt to cope with their problems and plan for a better future.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 889 Urbanization of Rural Landscapes****Crosslisted with:** AGRO 489, AGRO 889, CRPL 489, HORT 489, HORT 889**Prerequisites:** Senior standing or graduate standing.**Description:** Development converts rural landscapes into housing, roads, malls, parks, and commercial uses. This process fragments landscapes and changes ecosystem functions, drives up land prices, and pushes agriculture into more marginal areas. This multi-disciplinary, experiential course guides students in learning about the urbanization process, the impacts on landscapes, people, and the community, and the choices that are available to informed citizens.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 890 Professional Seminar****Prerequisites:** Community and regional planning major**Description:** Diverse issues relating to contemporary professional planning practice are studied through abbreviated case studies and presentations by visiting specialists and participants in the planning process. Interrelated social, economic, political, and physical factors affecting specific planning situations. Current and emerging roles for professional planners.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CRPL 895 Selected Topics in Community and Regional Planning****Crosslisted with:** CRPL 495**Prerequisites:** Senior standing.**Description:** Aspects of community and regional planning not covered elsewhere in the curriculum are presented as the need arises.**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC

CRPL 896 Special Problems in Community and Regional Planning**Crosslisted with:** CRPL 496**Prerequisites:** Senior standing and permission.**Description:** Individual or group investigations of problems relating to community and regional planning.**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** IND**CRPL 897 Planning Internship****Prerequisites:** Community and regional planning major and permission**Description:** Supervised practical experience in a planning-related organization.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** IND**CRPL 898 Professional Project****Prerequisites:** MCRP degree candidate and permission of department graduate committee**Description:** Professional project is a non-thesis culmination of the MCRP degree program. The professional project emulates professional planning practice and is pursued individually by the student with supervision by a faculty advisory committee.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CRPL 899 Masters Thesis****Prerequisites:** Admission to MCRP degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**CRPL 900 Professional Planning Practice****Prerequisites:** Prereq or parallel: CRPL 800**Description:** Current concepts, ideas, and issues relating to professional planning practice are studied. Contexts of planning practice, the professional planner's relationship to society, ethics in professional planning practice, and political and organizational behavior in plan making and policy implementation. Roles of citizens, client groups, and consultants in the planning process. Forms of collaborative problem solving, including mediation and negotiation. Planning office and project management issues and approaches, including personnel administration and project financing and budgeting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CRPL 990 Planning Studio****Prerequisites:** CRPL 800, 830, 840; MCRP degree candidate**Description:** Application and synthesis of multi-disciplinary philosophies, theories, methods, analyses, and techniques of planning in the context of contemporary complex planning projects. Individual and team approaches pursued in specific project contexts for survey research, definition of research questions and hypotheses, analyses, creative problem solving, formulation and evaluation of alternatives, plan making, and development of implementation strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Community Development (CDEV)

CDEV 810 Community Development Orientation**Prerequisites:** Must be enrolled in the Community Development Masters Degree program.**Notes:** Course is taught by faculty from South Dakota State University.**Description:** Seminar will serve as an orientation to on-line learning and communities of practice to provide students with the foundations to community development as an academic discipline; a science-based profession; and a skills and knowledge-based practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CDEV 811 Community and Natural Resource Management****Description:** Community and Natural Resource Management -- Introduction to factors involved in community resource management. Included in the course are theoretical frameworks, methodological investigation and applied practices to enhance the ability of community development professionals to work with their communities to plan, develop, and monitor the conversation and development of natural resources with multiple functions. Course is taught by faculty from South Dakota State University or Iowa State, and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CDEV 812 Community Development I: Principles & Strategies of Community Development

Description: Analyzes principles and practices of community change and development, beginning with definitions of community role of communities in social and economic change. Using case studies and the students' communities of reference, the course will relate Community Development approaches to conceptual models from diverse disciplines. Conceptual models include conflict, neo-classical economic growth, participatory democracy, and others. Students will be exposed to professional practice principles and will leave the course having constructed their personal framework for the practice of community development. Course will be taught by North Dakota State and Iowa and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 813 Community Development II: Organizing for Community Change

Description: This course will examine the role of civil society in community planning efforts and offer students a comparative approach to planning theories and approaches. It will also focus on change within communities and the roles of government, planners, and citizens in reacting to or shaping change. Students will have an opportunity to explore current issues related to planning and dealing with change by examining controversial practices such as covenants and land trusts, as well as by studying various community responses to change. Students will understand how citizens, firms and governments act to improve their community and region; the structure and implications of power; the relation between social relationships and economic activity, coalition building, concepts of inclusiveness (class, gender, ethnicity, geography), voice and conflict and its management in communities and regions. The course will cover dimensions of social capital and the context of change. Students will learn to use this knowledge to promote equitable change at the community and regional level. They will study the implications of economic and demographic shifts on strategies and tactics for change and explore various resources for supporting these efforts. Course will be taught by Iowa State and will be offered summer semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 814 Community and Regional Economic Analysis

Description: A firm grounding in the reality of the local economy is necessary for successful programs in community economic development and for designing successful state and local policy and programs in economic development. The course introduces concepts of communities and regions, theories of economic growth, drivers of economic growth, the economic base of a community sources of growth or decline in the community, roles of local government and institutions, analytical tools, and strategies for local economic development. Course will be taught by Nebraska and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 815 Community Analysis (Introduction to Methods)

Description: Provides an introduction to research methods relevant to community development. Course topics include how to formulate and begin a research effort, methods of data collection and how conceptual frameworks are used to develop the questions and analyze data. Also included are strategies for reporting findings and applying findings in community action. The course will also look at methods of evaluating the entire research process. Significant attention is paid to issues of research ethics and inclusiveness throughout the course. Course will be taught by South Dakota State and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 816 Nebraska Rural Government Law Fundamentals

Description: A practical introduction to county and rural community government in Nebraska. Topics include state law and local governments; local government functions; land use regulation and zoning; drinking water and wastewater regulation; and local government taxes and spending.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 817 Nebraska Rural Government Finance Fundamentals

Description: A broad overview of how local government is financed in Nebraska, specifically the role of property taxes in financing K-12 education, and school finance options lessening the reliance upon property taxes. CDEV 816 recommended.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 818 Community Engagement

Crosslisted with: ALEC 818

Description: A foundational knowledge of community engagement. This will include understanding a community's readiness to change; strategies to engage community's members and strategies to determine goals and indicators to achieve change. Participants will review and critique various community engagement and readiness processes, gaining an understanding of approaches advantages and limitations. Through case studies, experiential learning and discussions, participants will develop a skillset for community engagement processes that lead to long term change.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 819 Community Action Strategies

Description: A foundational understanding of community action planning. Participants will review and critique various community action planning processes, gaining an understanding of process advantages and limitations. Through case studies and discussions, participants will develop a skillset for community planning that clarifies what will be done and resources needed to accomplish the goals for long-term impacts.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 820 Economic Development Strategies and Programs

Description: Course will cover the most widely used strategies and programs for economic development within an action planning process. Retention and expansion of business and industry, retail development and downtown revitalization, incubating new firm creation, industrial attraction, and tourism development all will be covered. These are both strategies and programs that utilize all forms of capital from all sources, the private, public, and nonprofit sectors. Students will study the organized efforts to plan, build, and manage each program. Course will be taught by Iowa and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 821 Community & Regional Economic Analysis II

Description: Substantive grounding in the theories and practice of measuring community economic dynamics; build solid foundation skills for applied community economic analysis. Course will be taught by Iowa and will be offered Summer semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 822 Building Native Community & Economic Capacity

Description: Non-western approaches to helping Native communities build their capacity. Students will learn to take a participatory, culture-centered, and strength-based approach to development. Course will be taught by South Dakota State and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 823 Housing and Development Programs

Description: Review and evaluation of historical and current housing issues, production, and financial systems, including consideration of racial, ethnic, income, and gender issues as they relate to the role of housing developments and programs in community development. Course will be taught by South Dakota State or Kansas State and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 824 Tourism and Community Development

Description: Assess the relation between tourism development initiatives and their contribution to community sustainability and development. Students will learn a variety of tourism models, apply these models in their local context, critically assess the viability of tourism in their area, and compose a proposal for tourism development and policy. Course will be taught by South Dakota State and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 825 Sustainable Economic Development

Description: Overview of the connections between communities and their local systems and how they work together in affecting long-term community and economic development. Through course assignments, participants will be introduced to the complex issues facing local communities, from human capital and environmental concerns to infrastructure and economic development. Tools and strategies for addressing these issues will be a focus of the course lectures and readings.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 826 Fundamentals of Business Analysis

Description: Basic overview of business development skills for professionals who manage economic development organizations and provide initial business analysis for consideration of community investments. Through assigned case studies and course assignments, participants will be able to analyze key performance statements and ratios to help determine viability of business enterprises within their community. The course will engage participants through the use of group discussions based on readings, case studies and course assignments.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 827 Community Workforce Development

Description: The course is designed to expand the student's awareness and knowledge of current workforce issues and trends and then apply the new knowledge to a real-life community situation. The course project, which will be identified by the participant, is a way to add meaning, to problem-solve and also reflect on the new learning in an integrated manner. The course will engage participants through the use of group online discussions and invited speakers.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

CDEV 830 Grant Development & Management

Description: This course will focus on the intricacies of grantsmanship. Topics covered will include identification of funding sources, procedure for proposal preparation, composition of grants, and the affects of organizational and personal linkages. Assignments include proposal preparation, grant application based upon a RFP or a continuous funding sources, addendum or market analysis, and an on-line presentation. Course will be taught by Kansas State and will be offered summer semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 831 Not For Profit Management

Description: This course provides an overview of non-profit management with a consideration of the appropriate role of non-profit organizations as agents of community development in addressing various social problems. It focuses on the growth of the nonprofit sector as a major part of economy of the U.S. and the impact of the sector on the community as a source of citizen empowerment. This course will focus on the structure of the non-profit sector, its tax status, fundraising, volunteer and Board management, the relationship with government and private counterparts, and issues and challenges in nonprofit management. Course will be taught by one of the participating institutions. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 832 Community Leadership & Capacity Building

Description: This course will explore the various approaches to leadership and leadership development, evaluation of leadership projects, and the relationship of leadership to community capacity building. Topics include defining leadership, challenges and opportunities related to leadership, designing and development leadership, impact of leadership training on community development, and evaluation of leadership development programs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 833 Evaluation of Organizations and Programs

Description: Introduction to philosophy, techniques, and methodologies of organizational and program evaluation. Topics covered include overview of program evaluation and theory, techniques to evaluate program processes and performance, evaluation designs, assessing program efficiency, models to diagnose organizations, and methods to assess organizational performance. Course will be taught by South Dakota State and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 840 Introduction to Native Community Development

Description: Base knowledge course for students currently working within or in partnership with Native communities or considering working in this area. Students will develop a basic understanding within the context of community development of the diversity of tribal structures and cultures and the unique history and jurisdictional considerations of these nations. Course topics will include: working with tribes, Federal and Indian relations, and governance and cultural issues. Students taking this course will complete a holistic analysis and conceptual mapping of a tribe. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission. This course is required before students may take other courses in this track.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 850 Immigrants in Communities

Description: Course work will address the considerable demand across the region for such a course from individuals working in communities with new immigrant populations. Many areas in the US experience an increasing immigrant population who represent an important economic engine, but may also be a source of concerns about community continuity and change. This course will be available to practitioners who are facing these issues in their communities and want to frame positive community action. Populations are aging in all of the OECD countries, especially in rural areas. Lower fertility and out-migration of young people is off-set in many counties are off-set by new immigrants. While welcomed by the economic interests, they are seen a putting pressure on social services, of questionable legal status, and of being different. The course will take a comparative approach to how different countries and different communities have responded to new immigrants, based on literature from Australia, Europe, Canada, and the U.S., with reference to Japan and New Zealand. Class members will carry out case studies of the inclusion of immigrants in their own community and an action plan for increasing inclusion to contribute to the economic vitality of that place. Course will be taught by Iowa and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CDEV 883 Ecological Economics**Crosslisted with:** AECN 883, NRES 883**Prerequisites:** AECN 141 or ECON 212 or equivalent**Description:** A synthesis across the notion of "utility" as represented in traditional environmental and natural resource economics, "ecology" in ecological economics, and "community" in behavioral economics. Ideas from thermodynamics with a focus on renewable resources. Development, organization, and enhancement of eco-business, eco-industry, eco-government and eco-communities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CDEV 884 Indian Country Agriculture and Natural Resources****Description:** Historical and contemporary issues related to natural resource management on Native American Lands. Students will study a variety of ecological settings across naïve American lands, and analyze tribal sovereignty as it relates to land tenure and water rights. Federal, State and Tribal policies concerning agriculture, fisheries, wildlife, parks and wilderness co-management, water supply and quality, emerging zoonotic diseases, and agri-security will be debated. Philosophical and economic arguments concerning natural resource conservation, preservation and extraction will be explored. Course will be taught by South Dakota State and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CDEV 885 Sustainable Communities****Description:** Links the management of natural capital to other community-based actions around resource allocation and the impacts on quality of life. The literature on community-based natural resource management will be examined and alternative ways of valuing natural capital will be assessed. Contrasting theories of the role of natural capital in communities and human society will be linked to their implications for community sustainability in terms of economic vitality, social well-being, and ecosystem health. Course will be taught by Iowa and will be offered fall semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CDEV 886 Policy & Politics of Coastal Areas****Description:** Focuses on coastal zone management policy issues. Students learn more about the fragile coastal environment and what they can do to protect it. Course will be taught by Iowa and will be offered summer semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CDEV 894 Practicum/Creative Component/Thesis in Community Development****Description:** The Community Development On-line Master's Program has a research element in addition to the required number of credit hours. Because of the variety of career and academic opportunities that may result from this degree program, students have considerable leeway in choosing projects that suit their programs of study and also fit their future professional or academic goals. Some universities allow Master's candidates to choose either the creative component or the thesis. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

Computer Science and Engineering (CSCE)

CSCE 805T Introduction to Computer Science I for Teachers**Notes:** This course does not count towards a graduate degree in Computer Science or Computer Engineering.**Description:** Introduction to problem solving with computers for teachers. Topics include problem solving methods, software development principles, computer programming, computing in society, and teaching practices for K-12 computer science courses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SUMMER**Prerequisite for:** CSCE 806T**CSCE 806T Introduction to Computer Science II for Teachers****Prerequisites:** A grade of "P" or "C" or better in CSCE 805T**Notes:** This course does not count towards a graduate degree in Computer Science or Computer Engineering.**Description:** Data structures, including linked lists, stacks, queues, and trees; algorithms, including searching, sorting, and recursion; programming language topics, including object-oriented programming; pointers, references, and memory management; design and implementation of a multi-layer application with an SQL database; and teaching practices for K-12 computer science courses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SUMMER

CSCE 810 Information Retrieval Systems**Crosslisted with:** CSCE 410**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Outline of the general information retrieval problem, functional overview of information retrieval. Deterministic models of information retrieval systems; conventional Boolean, fuzzy set theory, p-norm, and vector space models. Probabilistic models. Text analysis and automatic indexing. Automatic query formulation. System-user adaptation and learning mechanisms. Intelligent information retrieval. Retrieval evaluation. Review of new theories and future directions. Practical experience with a working experimental information retrieval system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 811 Data Modeling for Systems Development****Crosslisted with:** CSCE 411**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Concepts of relational and object-oriented data modeling through the process of data model development including conceptual, logical and physical modeling. Techniques for identifying and creating relationships between discrete data members, reasoning about how data modeling and analysis are incorporated in system design and development, and specification paradigms for data models. Common tools and technologies for engineering systems and frameworks for integrating data. Design and analysis of algorithms and techniques for identification and exploration of data relationships, such as Bayesian probability and statistics, clustering, map-reduce, and web-based visualization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 812 Data Visualization****Crosslisted with:** CSCE 412**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; MATH 314.**Description:** Fundamentals and implementations of data visualization techniques. Programming skills and practices in interactive visualization applications. Visualization foundations, human perception for information processing, and visualization techniques for different data types, such as scalar-field data, vector-field data, geospatial data, multivariate data, graph/network data, and text/document data. Advanced visualization algorithms and topics as time permits.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CSCE 813 Database Systems****Crosslisted with:** CSCE 413**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Notes:** Involves practical experience with a working database system.**Description:** Data and storage models for database systems; entity/relationship, relational, and constraint models; relational databases; relational algebra and calculus; structured query language; Logical database design: normalization; integrity; distributed data storage; concurrency; security issues. Spatial databases and geographic information systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 913; CSCE 914**CSCE 821 Foundations of Constraint Processing****Crosslisted with:** CSCE 421**Prerequisites:** A grade of "P" or "C" or better in CSCE 235 and CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Constraint processing for articulating and solving industrial problems such as design, scheduling, and resource allocation. The foundations of constraint satisfaction, its basic mechanisms (e.g., search, backtracking, and consistency-checking algorithms), and constraint programming languages. New directions in the field, such as strategies for decomposition and for symmetry identification.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 921**CSCE 823 Design and Analysis of Algorithms****Crosslisted with:** CSCE 423**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Mathematical preliminaries. Strategies for algorithm design, including divide-and-conquer, greedy, dynamic programming and backtracking. Mathematical analysis of algorithms. Introduction to NP-Completeness theory, including the classes P and NP, polynomial transformations and NP-complete problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 923; CSCE 924**CSCE 824 Computational Complexity Theory****Crosslisted with:** CSCE 424**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Turing machine model of computation: deterministic, nondeterministic, alternating, probabilistic. Complexity classes: Time and space bounded, deterministic, nondeterministic, probabilistic. Reductions and completeness. Complexity of counting problems. Non-uniformity. Lower bounds. Interactive proofs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CSCE 825 Compiler Construction**Crosslisted with:** CSCE 425**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Review of program language structures, translation, loading, execution, and storage allocation. Compilation of simple expressions and statements. Organization of a compiler including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation, error diagnostics, object code optimization techniques, and overall design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 828 Automata, Computation, and Formal Languages****Crosslisted with:** CSCE 428**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Introduction to the classical theory of computer science. Finite state automata and regular languages, minimization of automata. Context free languages and pushdown automata, Turing machines and other models of computation, undecidable problems, introduction to computational complexity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 830 Computer Architecture****Crosslisted with:** CSCE 430**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; Coreq: MATH/STAT 380, ECEN 305 or RAIK 270H**Description:** Architecture of single-processor (Von Neumann or SISD) computer systems. Evolution, design, implementation, and evaluation of state-of-the-art systems. Memory Systems, including interleaving, hierarchies, virtual memory and cache implementations; Communications and I/O, including bus architectures, arbitration, I/O processors and DMA channels; and Central Processor Architectures, including RISC and Stack machines, high-speed arithmetic, fetch/execute overlap, and parallelism in a single-processor system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 437, CSCE 837**CSCE 832 High-Performance Processor Architectures****Crosslisted with:** CSCE 432**Prerequisites:** CSCE 430; MATH 314; MATH/STAT 380 or ECEN 305.**Notes:** Assumes knowledge of computer architecture, pipelining, memory hierarchy, instruction level parallelism, and compiler principles.**Description:** High performance computing at the processor level. The underlying principles and micro-architectures of contemporary high-performance processors and systems. State-of-the-art architectural approaches to exploiting instruction level parallelism for performance enhancements. Case studies of actual systems highlight real-world trade-offs and theories.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 834 VLSI Design****Crosslisted with:** CSCE 434**Prerequisites:** CSCE 335.**Description:** Introduction to VLSI design using metal-oxide semiconductor (MOS) devices primarily aimed at computer science majors with little or no background in the physics or circuitry of such devices. Includes design of nMOS and CMOS logic, data-path, control unit, and highly concurrent systems as well as topics in design automation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 835 Cluster and Grid Computing****Crosslisted with:** CSCE 435**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H, or RAIK 283H.**Notes:** Designed for CSCE and non-CSCE students who have an interest in building or programming clusters to enhance their computationally-intensive research.**Description:** Build and program clusters. Cluster construction, cluster administration, cluster programming, and grid computing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 836 Advanced Embedded Systems****Crosslisted with:** CSCE 436**Prerequisites:** A grade of "P" or "C" or better in CSCE 231, CSCE 236 or ECEN 220.**Description:** Embedded hardware design techniques; transceiver design and low-power communication techniques; sensors and distributed sampling techniques; embedded software design and embedded operating systems; driver development; embedded debugging techniques; hardware and software architectures of embedded systems; and design, development, and implementation of embedded applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 837 File and Storage Systems****Crosslisted with:** CSCE 437**Prerequisites:** CSCE 351 or 451/851; CSCE 430/830.**Description:** System-level and device-level topics in the design, implementation, and use of file and storage systems. Components and organization of storage systems, disk drive hardware and firmware, multi-disk systems, RAID's, local distributed and P2P file systems, and low-power design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CSCE 838 Sensor Networks**Crosslisted with:** CSCE 438**Prerequisites:** CSCE 230; SOFT 260, CSCE 310, CSCE 310H, CSCE 311 or equivalent; senior or graduate standing or instructor permission.**Description:** Basics of sensor networks; theoretical and practical insight into wireless sensor networks, including low-power hardware and wireless communication principles; networking in wireless sensor networks; and applications of sensor networks, such as multimedia, underwater, and underground. A group project that provides hands-on interaction with a wireless sensor network testbed.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 839 Robotics: Algorithms and Applications****Crosslisted with:** CSCE 439**Prerequisites:** A grade of "P" or "C" or better in CSCE 231, CSCE 236 or ECEN 220 and CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H**Description:** Fundamental theory and algorithms for real world robot systems. Design and build a robot platform and implement algorithms in C++ or other high level languages. Topics include: open and closed loop control, reactive control, localization, navigation, path planning, obstacle avoidance, dynamics, kinematics, manipulation and grasping, sensing, robot vision processing, and data fusion.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CSCE 840 Numerical Analysis I****Crosslisted with:** CSCE 440, MATH 440, MATH 840**Prerequisites:** CSCE 155A, CSCE 155E, CSCE 155H, CSCE 155N, CSCE 155T, or SOFT 160; MATH 107.**Notes:** Credit toward the degree may be earned in only one of the following: CSCE/MATH 440/840 and MECH 480/880.**Description:** Principles of numerical computing and error analysis covering numerical error, root finding, systems of equations, interpolation, numerical differentiation and integration, and differential equations. Modeling real-world engineering problems on digital computers. Effects of floating point arithmetic.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**CSCE 841 Approximation of Functions****Crosslisted with:** CSCE 441, MATH 441, MATH 841**Prerequisites:** MATH 221/MATH 221H and MATH 314/MATH 314H.**Description:** Polynomial interpolation, uniform approximation, orthogonal polynomials, least-first-power approximation, polynomial and spline interpolation, approximation and interpolation by rational functions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**Groups:** Advanced Mathematics Courses**CSCE 847 Numerical Linear Algebra****Crosslisted with:** CSCE 447, MATH 447, MATH 847**Prerequisites:** MATH 314**Description:** Mathematics and algorithms for numerically stable matrix and linear algebra computations, including solution of linear systems, computation of eigenvalues and eigenvectors, singular value decomposition, and QR decomposition.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**Groups:** Advanced Mathematics Courses**CSCE 851 Operating Systems Principles****Crosslisted with:** CSCE 451**Prerequisites:** A grade of "P" or "C" or better in CSCE 230, CSCE 230H or CSCE 231 and CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Organization and structure of operating systems. Control, communication, and synchronization of concurrent processes. Processor and job scheduling. Memory organization and management including paging, segmentation, and virtual memory. Resource management. Deadlock avoidance, detection, recovery. File system concepts and structure. Protection and security. Substantial programming.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 437, CSCE 837; CSCE 455, CSCE 855**CSCE 854 Human-Robot Interaction****Crosslisted with:** CSCE 454**Prerequisites:** A grade of "P" or "C" or better in CSCE 156, CSCE 156H, SOFT 161, SOFT 161H, RAIK 184H or CSCE 311.**Notes:** Meeting ACE1 and ACE2 requirements prior to taking this course is recommended. Non-CSCE majors may discuss qualifications with the instructor.**Description:** Introduction to the area of human-robot interaction through the reading and discussion of current peer-reviewed articles on topic to include teleoperation, social robotics, and open questions with field-based or aerial robotic systems. Areas covered include: research methods, experimental design, and identification of problems/open questions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CSCE 855 Distributed Operating Systems****Crosslisted with:** CSCE 455**Prerequisites:** CSCE 451/851.**Description:** Organization and structure of distributed operating systems. Control, communication and synchronization of concurrent processes in the context of distributed systems. Processor allocation and scheduling. Deadlock avoidance, detection, recovery in distributed systems. Fault tolerance. Distributed file system concepts and structure.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHME 496, CHME 896

CSCE 856 Parallel Programming**Crosslisted with:** CSCE 456**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H, or RAIK 283H.**Description:** Introduction to the fundamentals of parallel computation and applied algorithm design. Methods and models of modern parallel computation; general techniques for designing efficient parallel algorithms for distributed and shared memory multiprocessor machines; principles and practice in programming an existing parallel machine.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 857 Systems Administration****Crosslisted with:** CSCE 457**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Introduction to basic concepts of system administration. Operating systems and networking overview. User and resource management. Networking, systems and internet related security. System services and common applications, web services, database services, and mail servers. Basic scripting in shell, Perl, and Expect. Systems administration on UNIX® platform.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 858 Molecular and Nanoscale Communication****Crosslisted with:** CSCE 458**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; STAT 380, ECEN 305 or RAIK 270H.**Notes:** Completing CSCE 462/862 and CSCE 465/865 prior to taking this course is recommended. Exceptions can be granted on a per-student basis by the instructor.**Description:** Overview of nanoscale communication options. Focus on bio-inspired communication through molecule exchange and biochemical reactions. Different techniques to realize nanomachines will be surveyed in the course, with particular attention to the tools provided by synthetic biology for the programming of biological cooperative systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CSCE 859 Genetically Engineered Systems****Crosslisted with:** CSCE 459**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; STAT 380, ECEN 305 or RAIK 270H.**Notes:** Completing CSCE/MATH 440/840, MATH 432/832, MATH 439/839, and CSCE 471/871 prior to taking this course is recommended. Exceptions can be granted on a per-student basis by the instructor.**Description:** Introduction to the field of synthetic biology, and its interdisciplinary foundational concepts. Presents the technologies at the basis of synthetic biology, together with the engineering concepts that underlie the design, modeling, and realization of genetically engineered systems. Surveys examples of cutting edge applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**CSCE 860 Software Engineering for Robotics****Crosslisted with:** SOFT 460, CSCE 460**Prerequisites:** SOFT 261 or RAIK 383H or CSCE 361**Description:** Application of software engineering practices and principles to autonomous robotic systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**CSCE 861 Advanced Topics in Software Engineering****Crosslisted with:** CSCE 461, SOFT 461**Prerequisites:** A grade of "P" or "C" or better in CSCE 361, CSCE 361H, SOFT 261, SOFT 261H or RAIK 383H.**Description:** Advanced or emerging techniques in software engineering. Topics include but not limited to design methodology, software dependability, and advanced software development environments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 862 Communication Networks****Crosslisted with:** CSCE 462**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; STAT 380, ECEN 305 or RAIK 270H.**Description:** Introduction to the architecture of communication networks and the rudiments of performance modeling. Circuit switching, packet switching, hybrid switching, protocols, local and metro area networks, wide area networks and the Internet, elements of performance modeling, and network programming. Network security, asynchronous transfer mode (ATM), optical, wireless, cellular, and satellite networks, and their performance studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 952; CSCE 953

CSCE 863 Data and Network Security**Crosslisted with:** CSCE 463**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Concepts and principles of data and network security. Focuses on practical aspects and application of crypto systems in security protocols for networks such as the Internet. Topics include: applications of cryptography and cryptosystems for digital signatures, authentication, network security protocols for wired and wireless networks, cyberattacks and countermeasures, and security in modern computing platforms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 864 Internet Systems and Programming****Crosslisted with:** CSCE 464**Prerequisites:** A grade of "Pass" or C or better in CSCE 156, SOFT 161, RAIK 184H or CSCE 311 or equivalent programming experience.**Notes:** A grade of "Pass" or C or better in CSCE 156, SOFT 161, RAIK 184H or CSCE 311 or equivalent programming experience.**Description:** Paradigms, systems, and languages for Internet applications. Client-side and server-side programming, object-based and event-based distributed programming, and multi-tier applications. Coverage of specific technologies varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 865 Wireless Communication Networks****Crosslisted with:** CSCE 465**Prerequisites:** A grade of "P" or "C" or better in STAT 380, ECEN 305 or RAIK 270H**Description:** Discussion of theoretical and practical insight to wireless communications and wireless networking, current practices, and future trends. Wireless network architectures, mobility management, radio propagation, modulation, power control, antennas, channel access, pricing, and standards.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 866 Software Design and Architecture****Crosslisted with:** SOFT 466, CSCE 466**Prerequisites:** A grade of "P" or "C" or better in CSCE 361, CSCE 361H, SOFT 261, SOFT 261H or RAIK 383H.**Notes:** Letter grade only.**Description:** Introduction to the concepts, principles, and state-of-the-art methods in software design and architecture. Topics include application of software engineering process models and management approaches for the design and architecture of large-scale software systems, trade-offs of designing for qualities such as performance, security, and dependability, and techniques and tools for analyzing and evaluating software architectures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 867 Testing, Verification and Analysis****Crosslisted with:** SOFT 467, CSCE 467**Prerequisites:** A grade of "P" or "C" or better in CSCE 361, CSCE 361H, SOFT 261, SOFT 261H or RAIK 383H.**Notes:** Letter grade only.**Description:** In-depth coverage of problems related to software quality, and approaches for addressing them. Topics include testing techniques, dynamic and static program analysis techniques, and other approaches for verifying software qualities. Tool support for performing testing, verification, and analysis will also be studied.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 868 Requirements Elicitation, Modeling and Analysis****Crosslisted with:** SOFT 468, CSCE 468**Prerequisites:** A grade of "P" or "C" or better in CSCE 361, CSCE 361H, SOFT 261, SOFT 261H or RAIK 383H.**Notes:** Letter grade only.**Description:** In-depth coverage of processes, methods and techniques for determining, or deciding, what a proposed software system should do. Topics include the requirements engineering process, identification of stakeholders, requirements elicitation techniques, methods for informal and formal requirements documentation, techniques for analyzing requirements models for consistency and completeness, and traceability of requirements across system development and evolution. Tool support for modeling functional and non-functional requirements to support elicitation and analysis will be studied.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 870 Computer Graphics****Crosslisted with:** CSCE 470**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; MATH 314**Description:** Display and recording devices; incremental plotters; point, vector, and character generation; grey scale displays, digitizers and scanners, digital image storage; interactive and passive graphics; pattern recognition; data structures and graphics software; the mathematics of three dimensions; homogeneous coordinates; projections and the hidden-line problem.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CSCE 871 Computational Methods in Bioinformatics**Crosslisted with:** CSCE 471**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Introduction to computational methods for tackling challenges in biological data analysis and modeling and understanding complex systems at the molecular and cellular level. The main topics include bio-sequence analysis, motif finding, structure prediction, phylogenetic inference, regulation network modeling, and high-throughput omics data analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** CSCE 971**CSCE 872 Digital Image Processing****Crosslisted with:** CSCE 472**Prerequisites:** A grade of "Pass" or C or better in CSCE 156, SOFT 161, RAIK 184H or CSCE 311 or equivalent programming experience.**Notes:** A grade of "Pass" or C or better in CSCE 156, SOFT 161, RAIK 184H or CSCE 311 or equivalent programming experience.**Description:** Digital imaging systems, digital image processing, and low-level computer vision. Data structures, algorithms, and system analysis and modeling. Digital image formation and presentation, image statistics and descriptions, operations and transforms, and system simulation. Applications include system design, restoration and enhancement, reconstruction and geometric manipulation, compression, and low-level analysis for computer vision.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 873 Computer Vision****Crosslisted with:** CSCE 473**Prerequisites:** CSCE 156, SOFT 161, or CSCE 311 or equivalent programming experience.**Notes:** A grade of "Pass" or C or better in CSCE 156, SOFT 161, RAIK 184H or CSCE 311 or equivalent programming experience.**Description:** High-level processing for image understanding and high-level vision. Data structures, algorithms, and modeling. Low-level representation, basic pattern-recognition and image-analysis techniques, segmentation, color, texture and motion analysis, and representation of 2-D and 3-D shape. Applications for content-based image retrieval, digital libraries, and interpretation of satellite imagery.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 874 Introduction to Data Mining****Crosslisted with:** CSCE 474**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; STAT 380, ECEN 305 or RAIK 270H.**Notes:** Requires the completion of a project involving the application of data mining techniques to real-world problems.**Description:** Data mining and knowledge discovery methods and their application to real-world problems. Algorithmic and systems issues. Statistical foundations, association discovery, classification, prediction, clustering, spatial data mining and advanced techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 875 Multiagent Systems****Crosslisted with:** CSCE 475**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Distributed problem solving and planning, search algorithms for agents, distributed rational decision making, learning multiagent systems, computational organization theory, formal methods in Distributed Artificial Intelligence, multiagent negotiations, emergent behaviors (such as ants and swarms), and Robocup technologies and real-time coalition formation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 876 Introduction to Artificial Intelligence****Crosslisted with:** CSCE 476**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Description:** Introduction to basic principles, techniques, and tools now being used in the area of machine intelligence. Languages for AI programming introduced with emphasis on LISP. Lecture topics include problem solving, search, game playing, knowledge representation, expert systems, and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 976**CSCE 877 Cryptography and Computer Security****Crosslisted with:** CSCE 477**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H; MATH 314.**Description:** Introductory course on cryptography and computer security. Topics: classical cryptography (substitution, Vigenere, Hill and permutation ciphers, and the one-time pad); Block ciphers and stream ciphers; The Data Encryption Standard; Public-key cryptography, including RSA and El-Gamal systems; Signature schemes, including the Digital Signature Standard; Key exchange, key management and identification protocols.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CSCE 878 Introduction to Machine Learning**Crosslisted with:** CSCE 478**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H**Notes:** STAT 380, ECEN 305, or RAIK 270H recommended.**Description:** Introduction to the fundamentals and current trends in machine learning. Possible applications for game playing, text categorization, speech recognition, automatic system control, data mining, computational biology, and robotics. Theoretical and empirical analyses of decision trees, artificial neural networks, Bayesian classifiers, genetic algorithms, instance-based classifiers and reinforcement learning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 879 Introduction to Deep Learning****Crosslisted with:** CSCE 479**Prerequisites:** A grade of "P" or "C" or better in CSCE 310, CSCE 310H, CSCE 311, SOFT 260, SOFT 260H or RAIK 283H.**Notes:** Completing STAT 380, ECEN 305, or RAIK 270 prior to taking this course is recommended.**Description:** Fundamentals and current trends in deep learning. Backpropagation, activation functions, loss functions, choosing an optimizer, and regularization. Common architectures such as convolutional, autoencoders, and recurrent. Applications such as image analysis, text analysis, sequence analysis, and reinforcement learning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**CSCE 890 Special Topics in Computer Science****Crosslisted with:** CSCE 490**Prerequisites:** Permission**Notes:** Will not count toward a major or minor in Computer Science and Computer Engineering.**Description:** Aspects of computers and computing for non-Computer Science and Computer Engineering majors and/or minors.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**CSCE 891 Internship in Computer Practice****Description:** Experiential learning in conjunction with an approved industrial or governmental agency under the joint supervision of an outside sponsor and a faculty member. A detailed project proposal must be prepared by the student and approved by the department prior to the start of the project. A final report must be submitted.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** FLD**CSCE 896 Special Topics in Computer Science****Crosslisted with:** CSCE 496**Prerequisites:** Senior or graduate standing.**Description:** Aspects of computers and computing not covered elsewhere in the curriculum presented as the need arises.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**CSCE 897 Masters Project****Prerequisites:** Permission of adviser**Notes:** Designed for students pursuing a non-thesis option (Option III) to work on a project under the supervision of a member of the computer science and engineering faculty.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CSCE 898 Computer Problems****Crosslisted with:** CSCE 498**Prerequisites:** Senior or graduate standing.**Description:** Independent project executed under the guidance of a member of the faculty of the Department of Computer Science. Solution and documentation of a computer problem demanding a thorough knowledge of either the numerical or nonnumerical aspects of computer science.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CSCE 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**CSCE 913 Advanced Topics in Database Systems****Prerequisites:** CSCE 813**Description:** Database system topics, coverage varying from year to year. Examples: Normalization theory; statistical databases; distributed databases; failure recovery; implementation issues. Readings in the current literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 914

CSCE 914 Constraint Database Systems**Prerequisites:** CSCE 813 or 913 and permission**Description:** Introduction to constraint database systems. Constraint data model, constraint query languages, query optimization and evaluation, constraint data storage and applications. Assignments in both use and the implementation of systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 921 Advanced Constraint Processing****Prerequisites:** CSCE421/821**Description:** A continuation of the course on Foundations of Constraint Processing (CSCE 421/821). Intended for students with some sophistication and considerable interest in exploring methods for designing and using algorithms useful for solving combinatorial problems. The goal of the course is to study, analyze and critique seminal and recent research papers. Projects are optional.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 923 Development and Analysis of Efficient Algorithms****Prerequisites:** CSCE 423/823**Description:** Analysis of performance of algorithms on random access machines and Turing machines, data structures for design of efficient algorithms, sorting algorithms, divide and conquer strategies, algorithms on graphs and their performance bounds, pattern matching algorithms, achievable lower bounds on complexity, NP complete problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 924 Graph Algorithms****Prerequisites:** CSCE 423/823**Description:** Review concepts related to analysis of algorithms and graph theory. Classical graph theoretic algorithms including Eulerian paths, Hamiltonian circuits, shortest paths, network flows and traveling salesman. Planar graph algorithms. Theory of alternating chains and algorithms for graph matching problems. Approximate and parallel algorithms. Applications of graph algorithms to engineering and physical sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 925 Scheduling Theory****Prerequisites:** Permission**Description:** Scheduling theory with particular emphasis to its application in computer science. Polynomial-time algorithms, NP-hardness proofs and analysis of heuristics. Minimization of makespan and mean flow time. Real-Time scheduling.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 936 Cyber-Physical Systems****Prerequisites:** Permission.**Description:** Introduction to the research, design, and analysis of cyber-physical systems - the tight integration of computing, control, and communication. Applications for CPS research are far reaching and span medical devices, smart buildings, vehicle systems, and mobile computing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 942 Numerical Analysis III****Crosslisted with:** MATH 942**Prerequisites:** CSCE/MATH 840 or 841 or 847**Description:** Advanced topics in numerical analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 952 Advanced Computer Networks****Prerequisites:** CSCE 862**Description:** Advanced-level course on the recent development in computer networks. Integrated Services Digital Networks (ISDN), Broadband-ISDN and Asynchronous Transfer Mode (ATM), Multimedia Source and Traffic Characteristics, Source Policing, Scheduling and Quality of Service, Wireless Communication, Tracking of Mobile Users, Performance Computer networks.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 953 Optical Communication Networks****Prerequisites:** CSCE 462/862 or equivalent**Description:** State-of-the-art optical communication networks, encompassing traditional networks operating on optical fiber and next-generation networks such as wavelength division multiplexed (WDM) and optical time division multiplexed (OTDM) networks. Fundamentals of optical network design, control, and management. Optical network design and modeling, routing and wavelength assignment algorithms, optical network simulation tools and techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 961 Coding Theory****Notes:** MATH 817 desirable**Description:** Channels, introduction to information theory, Shannon's fundamental theorem, Linear codes, Hamming codes, Reed-Muller codes, cyclic codes, idempotents, BCH codes, Reed-Solomon codes, Quadratic residue codes, perfect single-error correcting codes, Sphere packings, the Golay codes, Lloyds theorem, nonexistence theorems, weight enumerators, the MacWilliams equation, association schemes, quasi-symmetric designs, polarities of designs, extension of graphs, self-orthogonal codes and designs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CSCE 962 Advanced Software Engineering**Prerequisites:** CSCE 361 or CSCE 361H

Description: Recent advances in the field of software engineering. Software reuse, artificial intelligence approaches to software design, usability and requirements engineering, and design environments. Computer tools for the design of software products. Analysis of software artifacts. Coordination in distributed software development. Readings from current software engineering literature discussed and evaluated. Students will participate in a group project which investigates specific software engineering research topics.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 970 Pattern Recognition****Prerequisites:** CSCE 310 or 311; MATH 314/814; MATH/STAT 380 or STAT 880 or ELEC 305

Description: Introduction to statistical decision theory, adaptive classifiers, supervised and non-supervised training. Pattern recognition systems: Transducers, feature extractors, decision units. Applications to optical character recognition, speech processing, remote sensing.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 971 Advanced Bioinformatics****Prerequisites:** CSCE 471/871

Description: Advanced algorithmic techniques for bioinformatics. Development and analysis of string matching, graph theoretic and dynamic programming techniques applied to systems and computational biology problems such as multiple sequence alignment, alignment of DNA and protein sequences, genome rearrangements, and phylogeny and haplotypes.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 975 Advanced Multiagent Systems****Notes:** Background in artificial intelligence (AI) or MAS is preferred.

Description: Study of advanced multiagent systems (MAS) in theory, applications, and connections to other AI disciplines, notably in uncertainty reasoning and machine learning. The course is a hybrid of project-based and seminar-based presentations with follow-up discussions. Involve developing and implementing MAS solutions for real-world problems or simulations.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 976 Advanced Artificial Intelligence****Prerequisites:** CSCE 876

Notes: For students with some sophistication and considerable interest in exploring methods of designing and using algorithms useful for finding adequate answers to combinatorically large problems that require largely symbolic rather than numeric computing.

Description: Study, analyze and critique basic and current research papers and to engage in artificial intelligence projects and experiments either alone or in small groups. Artificial intelligence environments, tools and expert system building. Class participation will be encouraged for the review of the more recent AI literature.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 990 Seminar****Prerequisites:** Permission**Description:** Frontiers of an area of computer science.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 24**Format:** LEC**CSCE 991 Directed Doctoral Research**

Prerequisites: Admission to the doctoral degree program and permission.
Notes: Must be completed successfully before registering for CSCE 999 Doctoral Dissertation Research.

Description: Plan and execute a component(s) of a research project, such as a literature review, system development, exploratory experimentation, or proposal development, under supervision of a graduate faculty advisor, as an initial step for doctoral dissertation research. Write a formal report on the research project and its intellectual merit and potential impact. Successfully complete the doctoral program qualifying examination.

Credit Hours: 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CSCE 996 Research Problems Other Than Thesis**

Description: Investigation of minor research problems to introduce graduate students to the methods of research in computer science by assigning a problem which is of research interest but within the capacity of a graduate student to complete within a semester.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**CSCE 999 Doctoral Dissertation**

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Construction Engineering (CONE)

CONE 816 Wood and / or Contemporary Materials Design

Crosslisted with: CONE 416

Prerequisites: CIVE 341

Description: Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design. Masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 817 Formwork Systems

Crosslisted with: CONE 417

Prerequisites: CONE 416; parallel CIVE 441.

Description: Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design. masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 821 Construction Risk Assessment and Management

Prerequisites: STAT 380

Description: The overall process of hazards risk management (risk identification, risk analysis, risk assessment, risk communication), risk based decision making and risk mitigation. Classification of building stock, defining vulnerability, risk assessment methods, assessing economic losses and cost benefit analysis. Case studies will be used to demonstrate the application of risk management principles/techniques in practice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 850 Sustainable Construction

Crosslisted with: CONE 450

Prerequisites: Senior standing.

Description: Sustainable construction and its application to the green building industry. LEED certification process, sustainable building site management, efficient waste water applications, optimizing energy performance, indoor environmental issues, performance measurement and/or verification, recycled content and certified renewable materials.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 859 BIM I: Introduction to Building Information Modeling (BIM)

Crosslisted with: CONE 459

Prerequisites: CNST 112 Construction, or Graduate standing in AREN, CIVE, CNST, or CONE.

Description: This course instructs CAD users on the effective use of Building Information Model (BIM) for Integration of design, document and Construction Estimate. Topics include: model-based 3D design, file formats, interoperability, and MEP modeling.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 866 Heavy and/or Civil Estimating

Crosslisted with: CONE 466

Prerequisites: CONE 319, CONE 378, and CONE 485.

Description: Estimating techniques and strategies for heavy and/or civil construction. Unit pricing, head and civil constructions takeoffs and estimating, equipment analysis, overhead cost and allocations, estimating software and government contracts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 881 Highway and Bridge Construction

Crosslisted with: CONE 481

Prerequisites: Senior standing; CONE/CNST 241.

Description: The methods and equipment required in the construction of roads and bridges. Methods and equipment necessary for roads and bridges. Substructure and superstructures, precast and cast-in-place segments, and standard and specialized equipment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 882 Heavy and/or Civil Construction

Crosslisted with: CNST 482, CNST 882, CONE 482

Prerequisites: Senior or Graduate standing in ARCH, AREN, CIVE, CNST, or CONE.

Description: Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 883 Support of Excavation

Crosslisted with: CONE 483

Prerequisites: Senior standing.

Description: The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, sheet piling and cofferdams, soil mechanics, lateral loads, hydrology, and pumping methods.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CONE 885 Construction Planning, Scheduling, and Controls**Crosslisted with:** CNST 485, CONE 485, CNST 885**Prerequisites:** CNST 378; CNST 2250 (UNO).**Description:** Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling, and monitoring project activities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CNST 489**CONE 891 Special Topics in Construction Engineering****Prerequisites:** Master of engineering in construction or related discipline and permission**Notes:** Topic varies. A signed student-instructor learning contract is required.**Description:** Individual or small group investigation of special topics in construction engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CONE 895 Graduate Internship****Crosslisted with:** CNST 895**Prerequisites:** Open only to Construction Management graduate students.**Description:** Participation in a full-time summer internship with an approved Construction Engineering or Construction Management related entity. Includes weekly assignments and a final presentation that are designed to create interaction between the Construction entity and the intern, and associated with the business aspects of the entity. General topics include Business Plans, Marketing, Finance and Budgets, Contracts, Legal Issues and Professionalism.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**Offered:** SUMMER**CONE 898 Special Topics in Construction Engineering****Prerequisites:** Master of engineering in construction or related discipline and permission**Description:** A signed student-instructor learning contract is required. Individual or small group investigation of special topics in construction engineering. Topic varies.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CONE 981 Precast Concrete Construction****Prerequisites:** CIVE 440 and CIVE 441**Description:** Introduces building and bridge construction using precast concrete components including design, production, and erection challenges with emphasis on precast connection details.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CONE 993 Graduate Seminar****Crosslisted with:** CNST 993**Prerequisites:** Graduate student in Construction Program**Notes:** All MS and PhD graduate students in Construction Engineering and Management (CEMT) must enroll in their first semester of matriculation. P/NP only for 1 hour credit maximum.**Description:** Seminar participation to broaden knowledge of construction engineering and management topics, improve presentation and professional skills, and learn about professional development resources available on campus.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**CONE 999 Doctoral Dissertation****Prerequisites:** Admission to the Doctor of Philosophy in Engineering degree program and permission of the major advisor**Credit Hours:** 1-21**Min credits per semester:** 1**Max credits per semester:** 21**Max credits per degree:** 21**Format:** IND

Construction Management (CNST)

CNST 811 Project Administration**Crosslisted with:** CNST 411**Prerequisites:** CIVE 378 or CNST 379**Description:** An introduction to construction project administration. Ownership and organization of construction companies, construction documentation and specifications, type of contracts, take-offs, estimating, bidding, bonds, insurance, project management and administration, scheduling, time and cost management, labor law and labor relations, and project safety.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 815 Mechanical/Electrical Project Management****Crosslisted with:** CNST 415**Prerequisites:** CNST 305, CNST 306, CNST 379.**Notes:** CNST 405 and CNST 406 are recommended.**Description:** Fundamentals of project management within the mechanical and electrical contracting industry. Codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, from a specialty contracting perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CNST 820 Professional Practice and Ethics**Crosslisted with:** CNST 420**Prerequisites:** CNST 379 and BLAW 300 or BLAW 372.**Notes:** This course is a prerequisite for or must be taken parallel with CNST 489.**Description:** Orientation to professional practice through the designers' and the contractors' relationships to society, specific clients, their professions, and other collaborators in environmental design and construction fields. Ethics, professional communication and responsibility, professional organization, office management, construction management, professional registration, and owner-designer-contractor relationships.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 825 Alternative Project Delivery Methods****Crosslisted with:** CNST 425**Prerequisites:** Senior or graduate standing**Description:** Historical and current project delivery methods (PDM) are explored. Procurement strategies, contractual arrangements, and compensation methods are also discussed in conjunction with risks, costs, and legal and ethical issues that need to be considered when determining which system is best for a particular project.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**CNST 826 Occupational Health and Safety for Construction****Prerequisites:** Permission**Description:** Investigation of occupational health and safety hazards in the construction environment. Accident causation and illness exposure models, construction safety and health programs and contract requirements, project safety and health management, special problems in construction safety, OSHA/EPD/ADA regulation and compliance issues, health assessment and monitoring, safe building methods design, toxic substance exposures, abatement methods, and worker training and protection.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 834 The Design/Build Project Delivery System****Crosslisted with:** CNST 434**Prerequisites:** CNST 379.**Description:** The organizational, managerial, ethical and legal principles involved in design/build as a construction project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 835 Design/Build: Methods and Application****Prerequisites:** Permission**Description:** Investigation, documentation, and application of current Design/Build processes and methodology used in commercial construction. Principles and practices of Design/Build as a project delivery system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 836 Intent and Application of International Building Code****Crosslisted with:** CNST 436**Prerequisites:** CNST 112 and CNST 251.**Description:** This course is designed to provide a fundamental understanding of how to research, interpret and apply building code requirements to the design and construction of both new and renovated structures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 844 Construction Site Safety Management****Crosslisted with:** CNST 444**Prerequisites:** CNST 242**Notes:** Satisfactory completion will partially qualify the individual to be designated by their employer as a construction site "competent person" by successfully completing the OSHA 30-hour Construction Safety Card as well as additional certifications in basic first aid, CPR, and AED.**Description:** Provides introductory construction site safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers' compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA record-keeping and reporting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**CNST 850 Sustainable Construction****Prerequisites:** Graduate standing in ARCH, CET, CIVE, or CNST**Description:** Application of Leadership in Energy and Environmental Design (LEED) best practices in building procurement and delivery systems. History, theory, and state-of-the-art practices in designing and constructing green buildings. Basic principles required to make the multitude of decisions when designing or constructing a green building. LEED construction practices (emerging practices that are economical, produce esthetically pleasing structures, and are environmentally sound).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

CNST 858 Construction Information Management Systems

Prerequisites: Graduate standing in construction management or related discipline with instructor approval

Description: Fundamental knowledge of construction information management systems. Construction project management software will be used including database design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 860 Construction Visualization and Simulation

Prerequisites: Graduate standing in construction management or related discipline with instructor approval

Description: Fundamental knowledge of visualization platforms of buildings and construction. Topics include construction visualization software, basic data structure and programming, interoperability, and building performance simulation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 879 Construction Management and Construction Systems

Prerequisites: Permission

Description: Quantity survey methods, production rate and cost analysis, bidding, contingency and risk analysis. Computer applications of estimating and research topics. Monte Carlo simulation, Virtual 3D, BIM applications relevant to construction estimating and risk analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 880 Productivity and Human Factors in Construction

Crosslisted with: CNST 480

Prerequisites: Senior standing, CNST 378, and MNGT 300.

Notes: This course is a prerequisite for or must be taken parallel with CNST 489.

Description: Motivation and productivity improvement methods in the management of construction workers in their typical job environments. Methods to improve working environments in the field and in the office. Procedures and mechanisms to implement human behavior and ergonomics concepts for enhanced productivity and safety.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CNST 489

CNST 882 Heavy and/or Civil Construction

Crosslisted with: CNST 482, CONE 482, CONE 882

Prerequisites: Senior or Graduate standing in ARCH, AREN, CIVE, CNST, or CONE.

Description: Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 883 Management of Limited Scope Permitting

Prerequisites: Graduate standing in ARCH, CET, CIVE, or CNST

Description: Building code permitting process associated with all projects. Phased projects that require one or more limited scope permits prior to receiving the final full construction permit. How to improve coordination and reduce the confusion and risk associated with managing the permitting process. The permitting process that is applicable to both large and small projects and that can be easily adapted and used in all jurisdictions throughout the United States.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 885 Construction Planning, Scheduling, and Controls

Crosslisted with: CNST 485, CONE 485, CONE 885

Prerequisites: CNST 378; CNST 2250 (UNO).

Description: Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling, and monitoring project activities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: CNST 489

CNST 886 Construction Management Systems

Crosslisted with: CNST 486

Prerequisites: CNST 379

Description: Application of selected topics in systems analysis (operations research) to construction management. Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis and analytic hierarchy processes as used in the construction industry.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 887 Construction Leadership and Strategic Planning

Prerequisites: Permission

Description: New models of construction leadership for the 21st Century. Application of transformational leadership to strategic planning and marketing in construction contracting. Leadership and strategic problem solving constructs and methods.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CNST 888 Residential Construction and Real Estate**Crosslisted with:** CNST 488**Prerequisites:** CNST 379**Description:** Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the pre-construction and bidding process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 890 Masters Project****Prerequisites:** Admission to the master of engineering degree program with an emphasis in construction, and permission**Description:** Technical report, technical paper, or portfolio project, culminating in a final document and oral presentation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 893 Internship Workshop****Crosslisted with:** CNST 493, CONE 493**Prerequisites:** Permission of instructor, Letter of application, Letter of agreement from industry mentor**Description:** Participation in a full-time summer internship associated with a Construction related entity. Includes weekly assignments and a final presentation designed to foster interactions associated with the business side of the entity between the Construction entity and the intern. General topics include Time Management and Scheduling Work, Business Plans and Structures, Finance and Budgets, Marketing Plans, Contracts, Risk Analysis and Management, Personnel Management, Communication and Leadership.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LAB**Offered:** SUMMER**CNST 895 Graduate Internship****Crosslisted with:** CONE 895**Prerequisites:** Open only to Construction Management graduate students.**Description:** Participation in a full-time summer internship with an approved Construction Engineering or Construction Management related entity. Includes weekly assignments and a final presentation that are designed to create interaction between the Construction entity and the intern, and associated with the business aspects of the entity. General topics include Business Plans, Marketing, Finance and Budgets, Contracts, Legal Issues and Professionalism.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**Offered:** SUMMER**CNST 898 Special Topics in Construction Management****Crosslisted with:** CNST 498**Prerequisites:** Masters of engineering in construction or related discipline.**Notes:** A signed student-instructor learning contract is required.**Description:** Individual or small group investigation of topics in construction management.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**CNST 899 Masters Thesis****Prerequisites:** Admission to masters degree program**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 10**Format:** IND**CNST 936 Advanced Topics in Intent and Application of the International Building Code****Prerequisites:** Graduate standing in Construction Management or by instructor permission**Description:** In-depth analysis of research methodology, interpretation and application of building code requirements associated with design and construction of both new and renovated structures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 991 Thesis and Dissertation Methods for Construction Research****Prerequisites:** Graduate standing in AREN, CET, CIVE, CNST, or CONE**Description:** A structured approach to thesis and dissertation methods, conducting a literature review, choosing appropriate analytical methods, and writing and presenting a construction research project. Seminar course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**CNST 993 Graduate Seminar****Crosslisted with:** CONE 993**Prerequisites:** Graduate student in Construction Program**Notes:** All MS and PhD graduate students in Construction Engineering and Management (CEMT) must enroll in their first semester of matriculation. P/NP only for 1 hour credit maximum.**Description:** Seminar participation to broaden knowledge of construction engineering and management topics, improve presentation and professional skills, and learn about professional development resources available on campus.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

CNST 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Criminology and Criminal Justice (CRIM)

CRIM 801D Nature of Crime

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 802 Administration of Justice

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 803 Research Theory & Methodology

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 804 Seminar Police & Soc

Credit Hours: 3

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 818 Criminal Justice Internship

Prerequisites: Admission to graduate program in Criminology and Criminal Justice, successful completion of 15 hours of graduate work, and permission of instructor

Notes: CRIM 818 is not open to nondegree students.

Description: Designed to provide supervised individualized learning experiences in a selected criminal justice agency. The principal objective of the internship is to provide students with the opportunity to apply theoretical and methodological principles acquired in graduate courses to the analysis of problems in local criminal justice agencies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: IND

CRIM 819 Independent Study

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

CRIM 831 Correctional Law

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 835 Community-Based Corrections

Crosslisted with: CRIM 435

Description: For advanced students with a special interest in the correctional process as applied in a community setting. Innovative community-based strategies for dealing with the offender as well as on the processes of probation and parole.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 851 Violence

Crosslisted with: CRIM 451

Prerequisites: Upper Division CRCJ major; CRCJ minor; or CRIM 101 and junior/senior standing.

Description: This course is a survey of the nature and extent of violence. The focus is on patterns of violence across social groups, the causes and correlates of violence and violent behavior, and programs/policies geared toward violence prevention and reduction. Also of interest is the relationship between theory and violence research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

CRIM 880 Special Problems in Criminal Justice

Crosslisted with: CRIM 480

Description: Analysis of contemporary special problems in the broad spectrum of criminal justice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 18

Format: LEC

CRIM 899V Masters Thesis

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 99

Format: IND

Economics (ECON)

ECON 803 Money and the Financial System

Crosslisted with: ECON 403

Prerequisites: ECON 210, or both ECON 211 and ECON 212.

Description: Basic policy implications of monetary economics with special reference to the role of money in the determination of income, employment, and prices. Includes demand for and supply of money, commercial and central banking system, monetary policy-making, nonbank financial system, and other issues in monetary economics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Monetary Economics

ECON 804 Current Issues in Monetary Economics

Crosslisted with: ECON 404

Prerequisites: ECON 210, or both ECON 211 and ECON 212.

Description: Money as developed by classical and modern economists. Emphasis on origins of money, interest rates, inflation, unemployment, business cycles, rational expectations, fiscal policy, international aspects of monetary policy, and other related topics in monetary economics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Monetary Economics

ECON 809 Applied Public Policy Analysis

Crosslisted with: ECON 409

Prerequisites: ECON 210, or both ECON 211 and ECON 212; ECON 215 or equivalent.

Description: Experience with research methods in economics. Statistical analysis to investigate economic issues and related policies; find relevant data; perform and interpret univariate and multivariate statistical analyses; and formulate and test specific hypotheses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Quantitative Economics

ECON 813 Social Insurance

Crosslisted with: FINA 413, ECON 413, FINA 813

Description: Nature and causes of economic insecurity. Analysis of public programs such as Social Security, unemployment insurance, workers' compensation, and public assistance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: General Economics and Theory

ECON 814 Insurance Law

Description: Focuses on the features of common insurance contracts, legislative and administrative restrictions on insurance contracts and judicial techniques for interpreting, construing and regulating insurance contracts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECON 815 Analytical Methods in Economics and Business

Crosslisted with: AECN 815

Prerequisites: MATH 104 or 106

Description: Equilibrium Analysis: Applications in business, finance, and economics. Market equilibria, accumulations, and economics. Optimization: profit, cost, and utility functions. Constrained optimization problems with utility functions. Constrained optimization problems in production and consumer allocations; Kuhn and Tucker conditions; static and dynamic input-output Models.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: ECON 917

ECON 816 Statistics for Decision Making

Crosslisted with: ECON 416

Prerequisites: ECON 215.

Description: Decision making under conditions of uncertainty. Introduction to Bayesian methods including the main methods of traditional statistics. Both prior knowledge and consequences of decision error are explicitly taken into account in the analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Quantitative Economics

ECON 817 Introductory Econometrics

Crosslisted with: ECON 417

Prerequisites: ECON 210, or both ECON 211 and ECON 212; ECON 215 or equivalent.

Description: Designed to give undergraduate and master's level economics students an introduction to basic econometric methods including economic model estimation and analyses of economic data. Hypothesis formulation and testing, economic prediction and problems in analyzing economic cross-section and time series data are considered.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AECN 868

Groups: Econometrics

ECON 819 Topics in Applied Research

Crosslisted with: ECON 419

Prerequisites: ECON 311 and ECON 417.

Description: Selected topics involving the use of quantitative methods in applied research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Quantitative Economics

ECON 821 International Trade**Crosslisted with:** ECON 421**Prerequisites:** ECON 210, or both ECON 211 and ECON 212; ECON 312.**Description:** Determinants of the volume, prices, and commodity composition of trade. Effects of trade, international resource movements, trade restrictions on resource allocation, income distribution, and social welfare.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 901D**Groups:** International Trade & Finance**ECON 822 International Finance****Crosslisted with:** ECON 422**Prerequisites:** ECON 210, or both ECON 211 and ECON 212.**Description:** Determinants of exchange rates, international payments, inflation, unemployment, national income, and interest rates in an open economy. International monetary system and capital and financial markets, and of the mechanisms by which a national economy and the rest of the world adjust to external disturbances.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Trade & Finance**ECON 823 Economics of the Less Developed Countries****Crosslisted with:** ECON 423**Prerequisites:** ECON 210, or both ECON 211 and ECON 212.**Description:** Advanced survey of development problems and goals; roles of land, labor, capital, entrepreneurship, and technical progress in economic growth of the less developed countries. Theories and strategies relating to international trade and economic development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Comp Intrntnl & Reg Develpmnt**ECON 826 Government Intervention in Markets****Crosslisted with:** ECON 426**Prerequisites:** ECON 212.**Description:** Traces the economic and legal incentives for government involvement in the marketplace. Examines why various forms of intervention make sense in certain situations. Defining the limits of allowable competition, and to replacing free market forces with regulation. Includes analysis of utilities and their evolving regulation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Industrial Organization&Reg**ECON 827 Land Use Planning****Description:** Legal and administrative aspects of the regulation of land use and development, the problems and techniques of urban planning at the various levels of government, and the relationship of private owners and builders to the government policies involved in shaping the physical environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 828 Antitrust and Trade Regulation****Description:** Control of business activities through the federal antitrust laws. Emphasis on monopolies, joint ventures, pricefixing, boycotts, resale price maintenance, exclusive dealing and tying arrangements, territorial restrictions, and mergers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 829 Unfair Competition****Description:** Study of the federal and state statutes and common law doctrines restricting unfair methods of competition in business. Topics include false advertising, trademark law, misappropriation, trade secret law and the right of publicity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 830 Products Liability Seminar****Description:** Selected problems in products liability, with emphasis on research and writing projects analyzing the problems.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECON 833 History of Economic Thought****Crosslisted with:** ECON 433**Description:** Development and evolution of economic ideas, including diverse mainstream and dissenting schools of thought from ancient Greece to contemporary texts. Consideration of selected influential economists' writings, relation between economic conditions and ideas and the antecedents of current economic controversies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** General Economics and Theory**ECON 835 Market Competition****Crosslisted with:** ECON 435**Prerequisites:** ECON 212.**Description:** Examination of differing schools of thought about how well a market economy performs. Includes economic analysis and extensive reviews of rivalry among corporations in various sectors of the US economy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Industrial Organization&Reg

ECON 840 Regional Development**Crosslisted with:** ECON 440**Prerequisites:** ECON 210, or both ECON 211 and ECON 212.**Description:** Advanced analysis of regional growth and development. Emphasis on the relationship between national and regional growth as well as local attributes influencing development patterns. Comparisons between developed and developing countries used to highlight similarities and differences in development patterns and policies. Empirical applicability of regional economic models stressed.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECON 442, ECON 842**Groups:** Comp Intrntnl & Reg Develpmnt**ECON 842 Regional Analysis****Crosslisted with:** ECON 442**Prerequisites:** ECON 440/840.**Description:** Advanced study of techniques for regional analysis. Includes indexes of spatial dispersion and concentration, shift-share analysis, export base, and input-output analysis. Special emphasis on input-output analysis. Objective is to equip students with the basic analytical tools of regional economic analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Comp Intrntnl & Reg Develpmnt**ECON 845 Gender Economics and Social Provisioning****Crosslisted with:** ECON 445, WMNS 445, WMNS 845**Prerequisites:** ECON 211 or ECON 212.**Description:** Introduction to the field of feminist economics. Critiques of economic theory and methodology along with gender and household decision-making, the care economy, international migration, development, globalization, the feminization of labor markets, and macroeconomics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** General Economics and Theory**ECON 850 Economics for Teachers****Crosslisted with:** ECON 450**Description:** Structure and function of the economic system and problems in achieving goals of efficient allocation of resources, full employment, stable prices, economic growth, and security. Emphasis on teaching of economics at the pre-college level.**Credit Hours:** 2-6**Min credits per semester:** 2**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**Groups:** Economic Education**ECON 851 Economics Issues for Teachers****Crosslisted with:** ECON 451**Description:** Application of economic principles to current problems. Includes evaluation of economic education materials, scope and sequence for development of economic concepts in the primary and secondary school.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**Groups:** Economic Education**ECON 852 Teaching College Economics and Business****Description:** Organization and planning, instructional strategies, assessment methods, and related topics for teaching economics and business courses in colleges and universities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 853 Economics of Education****Description:** Survey of methods, theories, and analyses of education from an economics perspective. Education and human capital, educational production and cost functions, cost-benefit analysis, supply and demand for educators, education and economic growth. Survey of methods, theories, and analyses of education from an economics perspective. Education and human capital, educational production and cost functions, cost-benefit analysis, supply and demand for educators, education and economic growth.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 854 Economic Education Research****Description:** Survey of research studies in the field of economic education. Research questions, data sources, theoretical models, experimental designs, statistical procedures, and research findings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 857 19th Century United States Economic History****Crosslisted with:** ECON 457, HIST 857, HIST 457**Prerequisites:** ECON 211 and ECON 212, or ECON 210.**Description:** Transformation of the United States economy from an agrarian to an industrial society and the impact of that transformation on people's livelihoods. The economic of slavery, the impact of the railroads, immigration, and the collective response of business and labor to industrialization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** United States or Canadian Hist

ECON 858 20th Century United States Economic History**Crosslisted with:** ECON 458, HIST 458, HIST 858**Prerequisites:** ECON 211 and ECON 212, or ECON 210.**Description:** Transformation of the United States economy in the twentieth century. Attention to the continued consolidation of the business enterprise, business cycle episodes including the Great Depression of the 1930's, organized labor, and the role of government in managing and coping with this transformation in economic life.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** United States or Canadian Hist**ECON 866 Pro-seminar in International Relations I****Crosslisted with:** ECON 466, POLS 466, POLS 866, AECN 467, ANTH 479, ANTH 879, GEOG 448, GEOG 848, HIST 479, HIST 879, SOCI 466, SOCI 866**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations.**Description:** Topic varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar Integrative Courses, Research Variable group based on topic Comp Intrntnl & Reg Develpmnt Human-Economic Geography**ECON 867 Pro-seminar in International Relations II****Crosslisted with:** ECON 467, POLS 467, POLS 867**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations. Topics vary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar**ECON 871 Public Finance****Crosslisted with:** ECON 471**Prerequisites:** ECON 210, or both ECON 211 and ECON 212.**Description:** Microeconomic analysis of policy issues in public finance, emphasizing taxation. Includes public goods and externalities; analysis of tax incidence, efficiency, and equity; and fiscal federalism.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECON 971**Groups:** Public Finance**ECON 872 Efficiency in Government****Crosslisted with:** ECON 472**Prerequisites:** ECON 210, or both ECON 211 and ECON 212.**Description:** Prepares students to conduct social and economic planning, program evaluation, and budgeting. Analysis of the delivery of government goods and services consistent with values and societal goals. Includes: philosophy of government, budget theory, social indicators, social fabric matrix, cost effective analysis, technology assessment, evaluation of the natural environment, and time analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Public Finance**ECON 873 Microeconomic Models and Applications****Crosslisted with:** AECN 873**Prerequisites:** ECON 211, 212, and 215**Description:** This course is intended for MA Option II students and others who do not plan to proceed to PhD studies. Analysis of microeconomic decision-making by individuals and firms with emphasis on consumer demand, production, cost and profit, market structure and the economics of games, uncertainty, and information.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AECN 818; AECN 840; AECN 868**ECON 874 Macroeconomic Models and Applications****Prerequisites:** ECON 211, 212, and 215**Description:** Course prepares student for applied macroeconomic analysis in a business, governmental or academic setting. Empirical modeling strategies are developed from theoretical underpinnings to implementation, including data collection, estimation, forecasting, simulation, presentation and interpretation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECON 875 Theory and Analysis of Institutional Economics****Crosslisted with:** ECON 475**Description:** Survey of the basic ideas of Veblen, Polanyi, Commons, Ayres, Galbraith, and Myrdal. Applications of institutional analysis to major economic problems and policies. Examination of the economic system as part of the holistic human culture, a complex of many evolving institutions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Institutional Economics

ECON 880 Labor Law

Description: Legislative and judicial patterns of the modern labor movement; the objectives of labor combinations; the forms of pressure employed for their realization and prevention; strikes, boycotts, picketing, and lockouts; the legal devices utilized in carving out the permissible bounds of damage suits involving labor activity; the labor injunction; the National Labor Relations Board; the nature of collective bargaining agreements; extra legal procedure for settling labor disputes—the techniques of mediation, conciliation, and arbitration.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECON 881 Economics of the Labor Market

Crosslisted with: ECON 481

Prerequisites: ECON 211, ECON 212 and ECON 215.

Description: Microeconomics of wages and employment; determinants of labor demand and supply; marginal productivity; bargaining theories of wages; labor mobility and allocation among employers; and the impact of unions, government policy, investment in human capital; and discrimination in labor markets.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Labor Economics

ECON 882 Labor in the National Economy

Crosslisted with: ECON 482

Prerequisites: ECON 211, ECON 212 and ECON 215.

Description: Macroeconomics aspects of labor economics; how the labor sector of the economy and the economy's overall performance are interrelated; analysis of the general level of wages, employment, unemployment, business cycles, and inflation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Labor Economics

ECON 885 The Regulatory Environment for Employment and Labor

Crosslisted with: ECON 485, MNGT 466, MNGT 866

Prerequisites: Junior Standing; MNGT 360 and 361 (departmental permission is required if MNGT 360 and/or MNGT 361 have not been completed).

Description: Government regulation of employment and labor relations. Includes laws and agencies relating to employment practices, pay, hours, equal employment opportunity, labor relations, safety, health, pensions, and benefits. Social and economic implications of governmental regulation considered.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Labor Economics

ECON 886 Administrative Law

Description: Origin and growth of the administrative process, the development of administrative law and its impact upon traditional legal institutions, analysis of the types of federal and state administrative tribunals, their powers and functions, and problems of administrative procedure, judicial and other controls upon the administrative process.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECON 887 Economies in Transition

Crosslisted with: ECON 487

Prerequisites: ECON 210, or both ECON 211 and ECON 212.

Description: Evolution of formally centrally planned economies (Soviet Union, central and eastern Europe, China) toward more market-oriented and decentralized economies. Includes comparisons of the speed and pattern of institutional changes, performance outcomes and implications for economic development strategies.

Credit Hours: 3

Max credits per semester: 3

Education (EDUC)

EDUC 892 Special Topics in Education**Crosslisted with:** EDAD 892, EDPS 892, SPED 892, TEAC 892, CYAF 892**Prerequisites:** EDPS 859 or parallel; EDPS 859 or equivalent**Description:** Aspects of education not covered elsewhere in the curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Education and Human Sciences (CEHS)

CEHS 894 International Experience in Communities, Schools, and Families**Crosslisted with:** CEHS 494**Description:** Instructor-guided experiences of a culture in another nation in order to critically examine individual and cross-cultural differences in values, lifestyles, education, history and culture of international families, schools, and communities. Lecture and discussion will be required as part of the field experience. Field hours will be assigned at the rate of two hours per week per student credit hour.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD

Educational Administration (EDAD)

EDAD 800 Foundations of Research and Methods of Inquiry in Educational Administration**Description:** A written report is required. Investigation and analysis of current problems in education administration and supervision.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDAD 983**EDAD 801 Cross-Cultural Leadership Studies****Prerequisites:** Permission**Description:** For those interested in exploring leadership and leadership issues from a cross-cultural perspective. Students construct their understanding of different cultural perspectives on leadership through readings, interviews, and field trips. Provides students with a valuable perspective on their own and other cultural perspectives through the comparison of cultural viewpoints. Native American understanding of leadership.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 811 Principal Practicum****Prerequisites:** Permission**Description:** May be repeated for credit. Rating and supervision of teachers; principles and procedures in the development of school policies; selection and promotion of teachers; courses of study and professional ethics.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 8**Format:** LEC**EDAD 811B Special Education Supervisor Practicum****Prerequisites:** Instructor Permission**Notes:** The practicum experience is designed to be the capstone experience of the course of study for the M.Ed. or Administrative Certification program at the University of Nebraska-Lincoln (UNL). Candidates should complete the practicum prior to or concurrently with the last course in their prescribed course of study.**Description:** Field-based experiences in public or private accredited school(s) providing services for special needs students.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** FLD**Offered:** FALL/SPR**EDAD 813 Administration in Physical Education and Athletics****Description:** Organization and administration of physical education and athletic programs in colleges and school systems. Practices and policies as they relate to various situations and problems and in the theoretical base for these practices and policies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDAD 814 Risk Management for Sport Facilities

Description: Legal and risk management aspects of construction, supervision, and management of sport, athletic, and recreation indoor and outdoor facilities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 821 Foundations of Human Resource Development

Crosslisted with: EDAD 421

Description: Lays the foundation for further study of Human Resource Development (HRD) by examining the knowledge of HRD professionals, the roles they play, and the organizational settings in which HRD occurs.

The design and development of education and training programs, how change occurs in organizations, how career development can optimize the match between individual and organizational goals and needs, and how to improve performance in organizations by analyzing performance opportunities and designing employee training to address these opportunities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDAD 909

EDAD 822 Instructional Design in Human Resource Development

Crosslisted with: EDAD 422

Description: Examines the role of instruction for enhancing human learning and performance in organizations. The analysis of performance problems/opportunities and design of interventions for learning and performance improvement. The essential components of instruction, selecting instructional methods and media to achieve program objectives, the transfer of learning, and evaluating the effectiveness of instruction. The performance enhancing potential of systematically linking needs analysis, instructional design, and program evaluation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDAD 909

EDAD 825 Work-Based Learning/Coordinating Techniques

Crosslisted with: TEAC 425, TEAC 825

Description: Foundation and scope of current and projected vocational cooperative education programs and general education work experience. Coordination techniques, selection and placement, instructional procedures, youth leadership activities, organization and administration, and evaluation of cooperative occupational education.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 830 Administrative Theory in Educational Organizations

Description: Introduction to classic and contemporary administrative theory as applied to educational organizations. The theoretical nature of the course content is relevant to those with an interest in a broad variety of educational institutions. General organizational theory, organizational models, historical schools of administrative theory, authority, power, motivation, and leadership. Frequently students are involved in studying problems of practice as a means of testing theory.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 832 Higher Education in America

Crosslisted with: TEAC 432, TEAC 832

Description: History and development of America's colleges and universities and a study of some recent trends and problems in higher education.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 833 Educational Finance

Description: Critical analysis of the political and economic elements impacting K-12 school finance. Content and activities address both building and district level concerns with an emphasis on principles, programs, and trends in school finance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDAD 985

EDAD 835 Business Management of Schools

Description: Allocation and management of fiscal resources including aspects of financial planning and reporting, budgeting and accounting procedures, purchasing, risk management and insurance, investing and bond issues, and auxiliary service.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 837 Education Law

Description: Evolution, principles, and practice of education law in relation to local, state, and national units of organization. Education law of Nebraska.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDAD 838 Program Evaluation and Assessment of Student Affairs

Description: Review of a variety resources used to evaluate programs and assess student learning in student affairs programs. Presentation of theory and practice with various tools for the assessment and evaluation of student affairs programs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

EDAD 839 Educational Facilities

Description: Techniques for planning educational facilities through use of surveys, educational specifications, and standards. Function of the school administrator in school facilities planning, construction, and utilization.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 840 College Student Development

Description: Introduction to human development theories; psychosocial, cognitive, and structural theories, with a focus on learning to use theory to improve skills in working with students.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 842 College Students in America

Description: This course is designed to provide students an understanding of a broad range of facts and issues pertaining to undergraduate college students in America.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 843 Counseling Principles for Educational Administrators

Description: This is an introductory level counseling course designed specifically for educational administrators. It is not intended to prepare individuals to become professional counseling practitioners. It offers a broad overview of counsel principles. This is a theory-to-practice course.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 844 Human Resources Management in P-12 Educational Organizations

Description: Human resources and personnel work in education. Relevant for school administrators and leaders who lead human resource activities including recruiting, hiring, induction, professional development, evaluation, and compensation. Roles and responsibilities of superintendents, HR professionals, building principals, and other supervisors are considered through readings, discussions, activities, and case studies. For graduate students who are pursuing Master's or Doctoral degrees and/or administrative certification in educational administration. Students in other areas who are interested in planning, organizing, and implementing human resource programs might also find the course of interest.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 845 Human Resources Management in Higher Education

Description: The various aspects of human resources (HR) management and how they contribute to mission accomplishment and organizational success in American higher education (HIED). Students will examine traditional HR responsibilities (e.g., recruitment and selection, supervision and utilization, evaluation, professional development, pay and benefits, etc.) and how these activities operate within a college/university setting. Strategic HR planning concepts will be emphasized for optimizing human capital and strengthening institutional capabilities in the ever-changing HIED environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 846 Studies in Professional Development Leadership

Description: Equips leaders to develop educational organizations that value professional development and match research-based professional learning to meet the daily needs of students. Creation of a professional learning culture to provide opportunity for professional learning opportunities. Improve effectiveness in increasing student achievement.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 12

Format: LEC

EDAD 846A Studies in Professional Development Leadership: Professional Learning Cultures

Description: Equips leaders to develop educational organizations that value professional development and match research-based professional learning to meet the daily needs of students. Creation of a professional learning culture to provide opportunity for professional learning opportunities. Improve effectiveness in increasing student achievement.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 12

Format: LEC

EDAD 846B Studies in Professional Development Leadership: Professional Development Design

Description: Equips leaders to develop educational organizations that value professional development and match research-based professional learning to meet the daily needs of students. Creation of a professional learning culture to provide opportunity for professional learning opportunities. Improve effectiveness in increasing student achievement.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 12

Format: LEC

EDAD 846E Issues in Ensuring Quality Professional Development

Description: Students will examine emerging issues related to selected educational leadership challenges and develop implementation strategies for resolving these issues. Using the standards for professional development identified by Learning Forward (formerly the National Council for Staff Development), students will review the literature and define the selected issue, discuss and evaluate examples of best practice, complete case study analysis activities, and collaboratively develop a professional development plan of response.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 846J Effective Professional Development: Roles and Responsibilities

Description: Educators must utilize a roadmap to provide quality professional learning opportunities for teachers, principals, superintendents, boards of education and education stakeholders. This course will enable participants to use professional development standards focused on context, process and content identified by learning forward, formerly the National Staff Development Council, to deliver high quality professional development based on your specific role and responsibilities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 846K Evaluating the Effectiveness of Professional Development

Description: Every professional development initiative must yield results that are measurable and allow educators to continually improve their effectiveness. Ultimately, improving educator effectiveness enhances student achievement. This course will focus upon designing initiatives and measuring the impact of professional learning for all educational stakeholders.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 851 Faculty and Staff Appraisal

Description: Faculty and support staff in P-12 schools: appraisal, professional learning communities, high standards/high performance and accountability.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 852 School Culture and Student Behavior

Description: School culture and student behavior in P-12 schools. Personalized teaching and learning environments that address student diversity, needs and interests.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 855 Teaching Learners to Learn

Crosslisted with: EDPS 855, NUTR 855, SPED 855, TEAC 855

Description: Effective teachers facilitate student learning. Facilitating student learning depends on understanding learning principles and on designing instruction that is compatible with learning principles. Instructors can provide learning-compatible instruction that helps students learn more effectively and ultimately teaches them how to learn. Assists teachers to teach in learning-compatible ways and helps them embed within their curriculum a program for teaching learners to learn.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 856 Supervising Special Education

Crosslisted with: SPED 856

Description: For principals or other administrators who have special education programs in their buildings. Overview of disabilities, related law, special education programs, personnel issues, etc., and instructional methods and administrative support for effective integration of disabled students into regular programs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 857 Special Education Administration

Crosslisted with: SPED 857

Description: Intensive preparation for special educators who intend to administer special education programs in the public schools. Information about best practices in special education, including programming, supervision, legal/regulatory issues, financing, personnel, as well as current controversial topics which are affecting these programs in the schools.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 858 Special Education Law

Crosslisted with: SPED 858

Description: Body of law that pertains to the organization, administration, and implementation of special education programs in PreK-12 schools. Substantive and procedural rights of disabled students, and the authority and responsibility of states and school districts that are grounded in state and federal law.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 879 Introduction to Student Affairs

Description: Current professional issues related to the organization and administration of student personnel within higher education. Exploration of research literature, some field experiences, and in-depth examination of special topics.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

EDAD 880 Student Affairs Seminar

Notes: EDAD 880 is 1 credit hour seminar experience for students in the Student Affairs cohort. The course is a face-to-face course that meets seven times (approximately 2 hours per session) during the course of a semester. The course will include guest speakers, various group activities, and discussion of selected special topics related to student affairs.

Description: Student Affairs Program cohort members meet to discuss and review current issues in order to become more familiar with special topics related to professional practice and best practice in the field of student affairs.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Offered: FALL/SPR

EDAD 880B Teaching with Technology: Designing Instructional Technology K-12**Crosslisted with:** TEAC 480B, TEAC 880B**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 890 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDAD 892 Special Topics in Education****Crosslisted with:** EDPS 892, EDUC 892, SPED 892, TEAC 892, CYAF 892**Prerequisites:** EDPS 859 or parallel; EDPS 859 or equivalent**Description:** Aspects of education not covered elsewhere in the curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 893 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDAD 893N Workshop Seminar****Crosslisted with:** TEAC 893N, EDPS 893N, SPED 893N**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDAD 896 Independent Study****Prerequisites:** Permission**Description:** Selected topic with the direction and guidance of a staff member.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**EDAD 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**EDAD 900 Pro-Seminar in Educational Leadership and Higher Education****Description:** Provides an opportunity for doctoral students in Educational Leadership and Higher Education to gain a better understanding of the expectations and skills necessary for doctoral education. Students will gain knowledge of the skills and habits necessary to successfully navigate their doctoral program. In addition, the foundations of educational inquiry as well as personal development related to research will be addressed, including the development of critical reading and thinking skills, writing skills, and analytical skills.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 900J Historical Methods in Educational Research****Crosslisted with:** EDPS 900J**Notes:** EDPS 800 and EDPS 859 or equivalents are recommended.**Description:** Connections in the general study of history to the study of the history of education. Concepts employed in educational historical research and the methods used by historical researchers. The methodology of historical research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 901 System-Level School Improvement****Description:** Knowledge and skills required for system-level leaders to bring about school improvement and enhance student achievement. Creating systems that engage the public, performing in complex political environments, and delivering needed services to schools and classrooms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDAD 902**EDAD 902 Data for Decision Making****Prerequisites:** EDAD 901.**Description:** Assessment theory and types of assessments used to measure student performance relative to a school improvement goal. Relationships between profile data and baseline data, locally developed classroom assessments, and post data pertaining to school improvement goals and action plans.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 903 Issues in Community Relations****Description:** Principles of community relations and public relations; development of school and community understanding; collaboration of educators and community agents and agencies; communication tools and evaluation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDAD 904

EDAD 904 Analysis in Continuous Improvement**Prerequisites:** EDAD 903.**Notes:** EDAD 904 requires generating recommendations for proceeding into the next cycle of school improvement and conducting a personal self-analysis of improvement process skills and obtain information from supervisors and/or colleagues regarding abilities as a**Description:** Analyze how staff attitudes and behaviors are impacted through the improvement process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 905 Issues in Governance of Educational Institutions****Description:** Issues in the governance of K-12 schools including administrator-school board roles and relationships.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 906 Issues in System Level Administration****Prerequisites:** Masters degree or equivalent.**Description:** Selected system level issues faced by pre-K to grade 12 school administrators.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 907 Issues in Educational Politics and Policies****Description:** Analyze and evaluate policy processes involved in making choices; develop understanding, apply and evaluate knowledge about key political concepts and theories to the analysis of educational policy issues; analyze and evaluate issues as points of political conflict between institutional structures with competing interests; understand people as the actors in roles they occupy in the political system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 909 Seminar in Human Resource Development****Prerequisites:** EDAD 821 or 822**Description:** Current research and theory within the field of human resource development, broadly defined. Stresses key problems affecting the training, development, and education of human resources within organizational settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 910 The Higher Education Environment****Description:** Universities are adaptive, living systems interacting with their environment. Equips participants with the skills required to analyze and assess the environment of higher education institutions. Environment concepts, components and structures are studied together with analysis techniques and methodological approaches to future study.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 912A Educational Leadership in Higher Education****Description:** Strategic thinking, application of leadership theories in the educational setting. Develop a clear personal philosophy of leadership and engage in collaborative active-learning. Multimedia simulations and/or scenarios and role playing to examine options, consequences, and leadership effectiveness in decision-making.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 912B Emerging Issues in Community College Leadership****Description:** Issues facing community college leaders and the knowledge, skills, and competencies necessary to provide effective leadership in the community college setting. Case studies of community colleges, combined with the literature on community college leadership, and active learning opportunities to examine current practices and develop a personal philosophy of leadership.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 915 Educational Systems and Governance****Prerequisites:** Admission to doctoral program in Educational Administration**Description:** This course is for doctoral students who are current or prospective administrators, researchers, and/or policy analysts in higher education and educational leadership. Students will examine how educational systems, in particular higher education but across the PK-12+ pipeline, are structured and elaborate critiques of those structures through new and emerging frameworks for understanding why and how they work. Students will examine the governance of educational institutions from the federal, state, and institutional perspectives. The impact of demographic, social, legal, political, and financial influences on governance in higher education will also be explored. Students will explore research, policy, and practice implications of issues in educational governance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 920 Diversity and Equity in Educational Organizations****Description:** Understanding the individual and organizational issues of diversity and multiculturalism in P-20 schools. Increase the students' knowledge and appreciation of: cultural, social, political, and economic realities of our complex, pluralistic society in relation to our educational system. Through integration of relevant information from history, law, interpersonal development, organizational development, and philosophy, students will develop a complex, comprehensive understanding of diversity and equity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDAD 921 Administrative Issues in Higher Education

Description: Introduction to contemporary issues in the administration of higher education with a focus on the scholarly literature, a comparative analysis of administration in types of institutions, leadership and planning, institutional environmental issues, and selected topics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 922 Finance in Higher Education

Description: Federal and state government funding, institutional planning, technological and community influences, human resources finance, budgeting, and sources of financial support as they relate to higher education institutions and agencies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDAD 985

EDAD 923 The Community/Junior College

Description: Designed particularly for those interested in upper secondary and college levels. Junior college movement; relationship of movement to provisions for an adequate educational program; functions of the junior college; legal status and basis for extension of junior college; problems of organization, administration, and curriculum.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 924 Teaching, Learning, & Curriculum in Higher Education

Description: Diverse perspectives, current issues and challenges pertaining to teaching, learning, and curriculum in higher education. For individuals who hold or in the future will serve in administrative, teaching, research or policy positions that require understanding of philosophical and theoretical underpinnings of teaching and learning in higher education.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 925 Law and Higher Education

Description: Examination of legal principles applicable to higher education institutions. Overview of the legal system, higher education institutions as legal entities, authority for governance and administration, faculty rights and responsibilities, student rights and responsibilities, institutional and personal liability, and other selected issues.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 926 The American Professoriate: An Administrative Perspective

Description: Contemporary faculty issues in postsecondary education institutions from the perspective of college administrators. Current status of faculty, assigning faculty workloads and monitoring performance levels, evaluating faculty performance, structuring development activities, and special topics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 929 Organizational Development and Change

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 931 Higher Education Information Systems

Description: Foundation in management information systems. Issues in information systems, current research and writings, key terms, and how information systems impacts organizational culture, business processes, work-flow, and overall operations of an institution. The roles in the application, analysis, and management of higher education administration technology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 932 Global Issues in Higher Education

Description: Selected issues affecting global educational policies and practices.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 933 Strategic Planning

Description: System theory, practice and problem solving. The strategic planning process in higher education. Models of strategic planning. EDAD 933 requires the student to analyze their respective institution's planning process and plan, and to participate in a simulation activity that reinforces the principles and practices of strategic planning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 934 Teaching and Learning in the Community College

Description: Develop comprehensive understanding of five aspects of the community college: Curricular missions in general education, transfer education, career education, remedial/developmental education and community education; faculty and student populations; exemplary teaching and assessment of student learning outcomes; program and curriculum development; and human resources aspects related to instructional programs in hiring faculty and providing faculty development programs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 935 Workforce, Economic, and Community Development

Description: Workforce, economic and community development role of higher education within the broader context of recent economic, social, and technological changes in communities, society, and the economy. Applicable to higher education in general with an emphasis on the example of two-year community colleges.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 936 Higher Education Planning

Description: Rationale for planning in a changing environment will be explored; the theoretical base for planning presented; strategic, futuristic planning and operational planning explored; the development of planning strategies, techniques and procedures; the process of evaluation, feedback and revisions explored; and the management of the change process analyzed.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 948 Instructional Leadership: Emerging Trends and Practices

Crosslisted with: TEAC 948

Description: Changing roles for persons engaged in instructional and curricular leadership in educational institutions. Literature on staff development, assessment and evaluation, and effective schools serve as the basis for studying and applying this information to a variety of educational settings. Issues such as teacher empowerment and site-based management, along with cooperative learning provide the focus of the activities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 960 Public Employment Law

Description: Legal issues relating to public employment with particular emphasis on public schools and colleges; collective bargaining by public employees, impasse, and resolution of public employee disputes; grievances, arbitration, and enforcement of agreements; civil rights of public employees; and laws applicable to public employment apart from collective bargaining, such as discrimination acts, wage and hour laws, retirement plans, and public records.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDAD 961 Trial Advocacy

Prerequisites: LAW 646G.

Description: Students perform weekly exercises which are videotaped and critiqued and will try a case. Fundamentals of trial practice. Emphasis on questioning witnesses, selecting and addressing the jury, and admitting items into evidence.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDAD 963 Legislation Seminar

Description: Development of further skills in drafting and interpreting statutes, understanding legislative processes and decision making, and evaluating the role of legislation in governmental regulation. Opportunity for in-depth study of subjects pertaining to or involving legislation, centering on subjects considered by the Nebraska Legislature and the Nebraska legislative process.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDAD 966 Seminar in Educational Administration

Prerequisites: Permission.

Description: Education administration problems with an analysis of research and literature pertaining to these problems.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

EDAD 973 Jurisprudence

Description: Examines central jurisprudential questions that arise in the criminal law. The following topics will be considered: (1) the purpose and justification of punishment, especially the legitimate role, if any, for retribution and the expressive function of punishment; (2) the relationship between retribution and revenge; (3) the justification of capital punishment; (4) the relationship among the state, defendants, and victims in the criminal process, including the proper role, if any, of victim impact statements.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 976 Legal Control of Discrimination

Description: Selected legal issues pertaining to the legal control of discrimination.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDAD 977 Constitutional History

Description: American constitutional history with a focus on "transformative" moments at which the Constitution and the nature of American politics and government changed. American Revolution and the framing of the Constitution and Bill of Rights, Civil War and Reconstruction, and the New Deal. Exploration of the courts and how they stood on history and original intent when they interpret the Constitution.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDAD 980 Seminar in College Student Development**Crosslisted with:** EDPS 977**Description:** Current knowledge, theories, and practices, and related issues in the area of college student development.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**EDAD 981 Intermediate Quantitative Methods for Educational Administration Research****Prerequisites:** Graduate standing, introductory research methods course and intermediate quantitative methods course**Description:** Introduction to the concepts, principles, and methods in intermediate statistical analyses for educational administration research, with a focus throughout on applied data analysis. The frame of reference for this course is experimental and ex post facto research designs. We will review of descriptive statistics (including measures of central tendency, variability, proportions, and basics of probability theory), however, this course particularly focuses on inferential statistics (for example, bivariate correlation, t-tests, one-way ANOVA, chi-square, discriminate analysis, and linear regression). All concepts will be taught from an applied perspective. This course also provides hands-on application of planning, conducting, and reporting of analyses using APA style.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 982 Advanced Quantitative Methods for Educational Administration Research****Prerequisites:** Grad standing. Successful completion of an introductory research methods course & an intermediate quantitative methods course, including in particular knowledge of ANOVA techniques & at least a brief introduction to multiple regression.**Description:** Concepts, principles, and methods in advanced statistical analyses for educational administration research, with a focus throughout on applied data analysis. The frame of reference for this course is correlational and multivariate research designs. A variety of analytical approaches, in particular multiple regression, logistic and multinomial regression, factor analysis, and an introduction to concepts of multilevel models and structural equation modeling, among other possible topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 983 Qualitative Methods for Educational Administration Research****Prerequisites:** EDAD 800**Description:** An overview of concepts and approaches to qualitative methodology in educational administration research including major methodological approaches (e.g. case study, ethnography, phenomenology, grounded theory, and narrative inquiry). Overview of approaches to qualitative research design, fieldwork, data collection, and data analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 984A Historical Methods of Research****Description:** Connections of the general study of history to the study of the history of education are the course's intents. Concepts employed in educational historical research and the methods used by historical researchers will be examined. Knowledge and skills will be developed through practical exercises demonstrating the methodology of historical research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 984B Qualitative Techniques - Case Study Methods****Description:** Provides an introduction to case study methodology, with a focus on qualitative data collection and analysis. Focus on two traditions of case study methodology used in educational research (Yin and Stake). Learn about case study design from start to finish and conduct and write a small scale case study using either own data or data provided by the instructor.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**EDAD 985 Economics of Education P-20****Prerequisites:** EDAD 833 or 922**Description:** This course focuses on (1) the costs of public and private education to society and to individuals, (2) the expected benefits to students, to communities and to society in general and (3) the research associated with those costs and benefits as a result of continued engagement in education in P-20 settings and life experiences in community/family settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 986 Leadership in Educational Organizations****Description:** The examination of leaders and leadership in educational organizations. Through assigned readings and written assignments, students will make applications of the readings to: a) the organization of educational institutions and programs, b) the leadership that occurs in educational organizations and programs, c) the leadership skills and actions that are necessary to achieve the mission, goals, and objectives of educational organizations, and d) the student's individual leadership growth and development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDAD 987A Superintendent Academy I**Prerequisites:** Permission.

Description: A forum for dialogue and an exchange of ideas and experiences while creating a network of support for colleagues. Exploration and developing the skills, knowledge, understandings and unique features required of the superintendent's roles and responsibilities. Multiple perspectives on effective leadership and participants will be challenged to look at educational issues in new ways. Participants will be encouraged to bring contemporary educational issues to the sessions for intensive, confidential review and discussion. Interaction with session leaders and participants will be facilitated in an effort to examine the rapidly changing realities of public education and the impact these changes are having on the roles/responsibilities of the public school superintendent.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 987B Superintendent Academy II****Prerequisites:** Permission.

Description: Designed to provide future school superintendents a link between theory and practice through case studies and voice-of-experience discussions. This academy is a forum for processing the "on-the-job" experiences with participants who are pursuing doctoral studies, those who are about to enter the role of the superintendent, or those who are new to the work of school leadership. Provides training situations for developing leadership skills, examination of the practical challenges that school leaders face. Examination of contemporary educational issues through different organizational frameworks and review of various issues related to the management of change.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 987C Superintendent Internship****Prerequisites:** Permission.

Description: Opportunity for educational administrators to gain an understanding of administering changes or innovations, and to obtain supervised field experience. Consideration will be given antecedents of change, change models, the role of government, forces that restrict or stimulate change, tools to implement change, and evaluation.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 988 Dissertation Proposal Development****Prerequisites:** Admission to a doctoral program

Description: Intended for students who are working on the development of their dissertation proposal. Component parts of the dissertation proposal. Students from all areas of Teachers College and the University of Nebraska who are in the process of developing their proposal will find this course to be of use. Typically the course should be taken after the research tools have been completed.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDAD 989 Survey of Administrative Research**

Description: Intended primarily for students of education who are candidates for doctoral degrees. Readings, discussions, and an analysis of educational problems and research.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**EDAD 990 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDAD 991 Field Studies in Education****Crosslisted with:** NUTR 991, TEAC 991**Prerequisites:** Permission

Description: Identification and solutions of problems associated with program planning; organizational, administrative, and instructional procedures within an institutional setting. Designing, implementing, and evaluating new or modified patterns of operation and teaching within a public school, postsecondary institution, or adult education agency.

Credit Hours: 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**EDAD 993 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDAD 995 Doctoral Seminar****Prerequisites:** Permission

Description: Students are immersed in outcome-based scholarly activities with a faculty mentor. Working on either an individualized or small group basis, students develop, execute and report one or more projects addressing the interaction between research and practice. Intended primarily for doctoral students, although non-doctoral graduate students may be admitted with special permission of the instructor.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 18**Format:** IND**EDAD 998 Internship in Educational Administration****Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** IND**EDAD 999 Doctoral Dissertation**

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Educational Psychology (EDPS)

EDPS 800 Foundations of Educational Research

Notes: EDPS 459/859 or equivalent is recommended

Description: Purposes and characteristics of research process, selection of research problems in education and social sciences, critical review of published research, research ethics and institutional review, sampling methods, threats to validity in research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 845 Computer-Assisted Research Data Analysis

Notes: Pass/No Pass only. One statistics course beyond EDPS 859 is recommended.

Description: Statistical software packages for both mainframe and microcomputers. How to develop and manage data files; how to transfer data files between computers; and principles of data transformation and selection.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 850 Child Psychology

Crosslisted with: EDPS 450

Description: Advanced study of the behavior and development of preschool and elementary school children.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 961; EDPS 962; EDPS 963

EDPS 851 Psychology of Adolescence

Crosslisted with: EDPS 451

Notes: Prior coursework in psychology or a related field is recommended.

Description: Mental, social, and emotional development of boys and girls during the adolescent period.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 961; EDPS 962; EDPS 963

EDPS 853 Psychological Assessment I

Prerequisites: EDPS Masters students only.

Description: Basic assessment and testing skills including "behavioral observation", psychometric issues, intake/diagnostic interviewing, psychological testing, test interpretation feedback, and integrative report writing. Commonly used screening instruments, personality tests, career interest inventories, and symptom-based tests.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 854 Human Cognition and Instruction

Crosslisted with: EDPS 454

Description: Cognitive psychology and its applications in instruction. Memory, problem solving, cognitive process in reading, research approaches, and applications to teaching.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 960; EDPS 967

EDPS 855 Teaching Learners to Learn

Crosslisted with: EDAD 855, NUTR 855, SPED 855, TEAC 855

Description: Effective teachers facilitate student learning. Facilitating student learning depends on understanding learning principles and on designing instruction that is compatible with learning principles. Instructors can provide learning-compatible instruction that helps students learn more effectively and ultimately teaches them how to learn. Assists teachers to teach in learning-compatible ways and helps them embed within their curriculum a program for teaching learners to learn.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 859 Statistical Methods

Crosslisted with: EDPS 459

Description: Computation and interpretation of measures of central position, variability, and correlation; introduction to sampling, probability, and tests of significance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ABUS 341, MRKT 341; ASCI 330; BLAW 371; BLAW 371H; EDAD 892, EDPS 892, EDUC 892, SPED 892, TEAC 892, CYAF 892; EDPS 470, EDPS 870; EDPS 860; EDPS 936; EDPS 941, SRAM 941; EDPS 942, SRAM 942; EDPS 969; FINA 361; FINA 361H; MNGT 301; MNGT 301H; MUED 980; NUTR 486, NUTR 886; SCMA 250; SCMA 331; SCMA 350; SCMA 350H; STAT 318; TEAC 924

EDPS 860 Applications of Selected Advanced Statistics

Prerequisites: EDPS 859

Description: Variety of parametric and nonparametric analyses, including analysis of variance (completely randomized design and various factorial designs), regression analysis, analysis of covariance, full model stepwise multiple regression, chi square Mann-Whitney U, and Wilcoxon test. Understanding and application of these analyses. Appropriate mainframe and microcomputer statistical packages utilized to assist in the numerical analysis of data.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 863 Introduction to Applied Behavior Analysis**Crosslisted with:** EDPS 463**Description:** Research methods and findings, concepts, and principles of operant conditioning as related to the experimental analysis of human behavioral events and to the development of behavior engineering technologies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 952**EDPS 866 Counseling Pre-Practicum****Prerequisites:** EDPS Graduate Student**Description:** Counseling skills required for basic, entry-level clinical work. Practicing skills, receiving peer/instructor performance feedback, and role-playing clinical situations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 964; EDPS 997A**EDPS 867 Ethical and Professional Practice in School Psychology****Description:** Foundations, models, and practices of contemporary school psychology and an exploration of transitions and future developments in the profession. Investigations of the major legal and ethical systems affecting school psychologists and the application of standards for professional practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 868 Multicultural Counseling****Prerequisites:** Permission**Description:** Ethnic subcultures in the US, cross-cultural communication systems, and change strategies. Cultural cues and barriers in counseling, personal assumptions and values, and active experiencing of cultural diversity in the counseling relationship.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 869 Psychopathological Disorders of Childhood and Adolescence****Description:** Investigation of the genesis, course, classification, and treatment of function and organic pathologies found in children and adolescents.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 870 Introduction to Educational and Psychological Measurement****Crosslisted with:** EDPS 470**Prerequisites:** EDPS 459/859**Description:** Introduction to the construction, evaluation, and ethical use of measurement instruments commonly used in education and psychology. Test construction principles, item analysis, reliability, validity, ethical issues in testing, and evaluation of standardized tests.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 970, SRAM 970; EDPS 980**EDPS 871 Human Sexuality and Society****Crosslisted with:** CYAF 471, EDPS 471, PSYC 471, SOCI 471, CYAF 871, PSYC 871, SOCI 871**Prerequisites:** Junior or Senior standing**Notes:** Open to advanced students planning careers in the professions in which knowledge of human behavior and society is important (e.g., helping professions, medicine, law, ministry, education, etc.).**Description:** Interdisciplinary approach to the study of human sexuality in terms of the psychological, social, cultural, anthropological, legal, historical, and physical characteristics of individual sexuality and sex in society.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 878 Pro-seminar in Latin American Studies****Crosslisted with:** ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, ANTH 878, GEOG 878, HIST 878, POLS 878, SOCI 878, MODL 878**Prerequisites:** Junior standing and permission.**Notes:** Topical seminar required for all Latin American Studies majors.**Description:** An interdisciplinary analysis of topical issues in Latin American Studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**Groups:** Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research**EDPS 890 Workshop Seminar****Prerequisites:** Permission of instructor**Notes:** Refer to Workshop Seminars in Education under the "Education" section of this bulletin.**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDPS 892 Special Topics in Education****Crosslisted with:** EDAD 892, EDUC 892, SPED 892, TEAC 892, CYAF 892**Prerequisites:** EDPS 859 or parallel; EDPS 859 or equivalent**Description:** Aspects of education not covered elsewhere in the curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDPS 893N Workshop Seminar**Crosslisted with:** TEAC 893N, EDAD 893N, SPED 893N**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**EDPS 896 Directed Field Experience****Crosslisted with:** EDPS 496**Prerequisites:** Permission of instructor.**Description:** Complete education-based experiences in research or applied settings under faculty supervision.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** FLD**EDPS 898 Special Topics****Crosslisted with:** EDPS 498**Prerequisites:** Permission of instructor.**Description:** Seminar on current issues or topics in educational psychology. Topics vary.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**EDPS 899 Masters Thesis****Prerequisites:** Permission**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**EDPS 900A Correlational and Experimental Methods in Educational Research****Notes:** EDPS 800 and EDPS 859 or equivalents are recommended.**Description:** Integrated view of correlational and experimental research in education and social sciences. Builds on idea of relationships among variables and concept of casual relationships between variables. Possible research designs in light of these general principles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 900B Single-Case Experimental Designs in Educational Research****Description:** Philosophical, strategic, and practical issues in conducting experimental research with single-case experimental designs. There is special emphasis on quantifying behavior, arranging and carrying out experimental comparisons, analysis of data, and drawing valid conclusions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 900D Survey Methods in Educational Research****Notes:** EDPS 800 and EDPS 859 or equivalents are recommended.**Description:** Principles and applications of survey research. Use of appropriate sampling techniques and applications of survey methods to the study of relative incidence, distribution, and interrelations of educational, sociological, and psychological variables.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 900J Historical Methods in Educational Research****Crosslisted with:** EDAD 900J**Notes:** EDPS 800 and EDPS 859 or equivalents are recommended.**Description:** Connections in the general study of history to the study of the history of education. Concepts employed in educational historical research and the methods used by historical researchers. The methodology of historical research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 900K Qualitative Approaches to Educational Research****Notes:** EDPS 800 and EDPS 859 or equivalents are recommended.**Description:** Uses of qualitative research methods in education. The theoretical premises of research using qualitative methods and the application of this information through critique and planning research. Qualitative methods for data collection.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 935, TEAC 935; EDPS 936**EDPS 921 Creativity and Talent Development****Description:** Examination of creative and talented people in various domains and analysis of the psychological, environmental, social, and biological factors that lead to creativity and talent. Implications for self-growth, education, and parenting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 922 Mind, Brain, and Education****Description:** Introduction to educational neuroscience, which has increasingly gained prominence as an interdisciplinary science that integrates neuroscience, psychology, and education. Examine the links between educational issues and the brain and apply the neuropsychological knowledge to their academic interests, such as teaching, learning, and child/adolescent well-being in schools. Widely covers current trends and research in neuroscience, physiology, and genetics that have implications for promoting learning performance and healthy development in children and adolescents.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

EDPS 930 Sociological/Anthropological Research Methods in Education**Crosslisted with:** CYAF 930, NUTR 930, TEAC 930**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**EDPS 930A Ethnographic Methods****Crosslisted with:** CYAF 930A, NUTR 930A, TEAC 930A, ANTH 930A**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 930B Special Topics in Qualitative and/or Quantitative Research Methods****Crosslisted with:** CYAF 930B, NUTR 930B, TEAC 930B**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**EDPS 930D Discourse Analysis Across School, Home and Community Settings****Crosslisted with:** CYAF 930D, NUTR 930D, TEAC 930D**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 930E Introduction to Linguistic Analysis of Classroom Interaction****Crosslisted with:** CYAF 930E, NUTR 930E, TEAC 930E**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 930J Hermeneutic Traditions in Education****Crosslisted with:** CYAF 930J, NUTR 930J, TEAC 930J**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 930K Quantitative Research Traditions in Education****Crosslisted with:** CYAF 930K, NUTR 930K, TEAC 930K**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 930M Introduction to Multimodal Textual Analysis****Crosslisted with:** CYAF 930M, NUTR 930M, TEAC 930M**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 935 Seminar in Qualitative Research****Crosslisted with:** TEAC 935**Prerequisites:** EDPS 900K**Description:** Seminar intended for doctoral-level students who have completed an initial qualitative research methodology course and who want to increase their skills in qualitative research. Data collection and analysis strategies and the application of those strategies to research problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 936 Mixed Methods Research****Prerequisites:** EDPS 859 and EDPS 900K**Description:** EDPS 936 is for students already familiar with quantitative and qualitative research. An introduction to mixed methods research as a distinct methodology in social science research. Topics include the value and use of this approach, philosophical assumptions, various types of design, and approaches to designing and conducting mixed methods research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDPS 941 Intermediate Statistics: Experimental Methods**Crosslisted with:** SRAM 941**Prerequisites:** EDPS 859 or EDPS 942**Description:** Computation, interpretation, and application of analysis of variance techniques, including factorial and mixed model designs. Computer and microcomputer software accessed.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 942, SRAM 942**EDPS 942 Intermediate Statistics: Correlational Methods****Crosslisted with:** SRAM 942**Prerequisites:** EDPS 859 or EDPS 941**Description:** Various correlational-based statistical procedures presented, including linear and nonlinear regression, multiple regression, statistical control, analysis of interactions, the general linear model, factor analysis, and discriminant analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 941, SRAM 941**EDPS 948 Multicultural Issues in School Psychological Service Delivery****Prerequisites:** Permission of instructor.**Description:** Current issues related to psycho-educational service delivery to children and families from different cultural and linguistic backgrounds. Integrating research and field experiences to provide students with skills to develop, implement, and deliver culturally sensitive and effective school psychological services.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 949 Cognitive and Behavioral Therapy with Children and Adolescents****Prerequisites:** Permission**Description:** Cognitive and behavioral techniques. Theoretical issues, application and evaluation of major empirically-validated therapeutic treatments that represent best practices in child and adolescent therapy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 950 Intellectual Assessment****Prerequisites:** Permission of instructor.**Description:** Formal evaluative methods for the investigation of children's learning difficulties, including supervised practicum in administration, scoring, and interpretation of individually administered tests of cognitive abilities.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**EDPS 951 Academic and Behavioral Assessment****Prerequisites:** Permission of instructor.**Description:** Advanced study of the theory and practice in the assessment of educational and psychological problems of children and youth to include assessment of systems that impact on the behavior of children and youth. Assessment techniques include environmental observation, interviewing, standardized assessment procedures for academic skills, adaptive behavior, social and emotional problems, curriculum based assessment, and functional analysis and assessment. Ecological-behavioral basis of assessment is explored. A complete psychological and educational evaluation is conducted in a school or other relevant setting.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**EDPS 952 Systems of School-Based Consultation****Prerequisites:** EDPS 863**Description:** Familiarize with consultation theory, practice, and research with particular emphasis on case-centered behavioral consultation. Case-centered consultation is presented within a broader framework for intervention design for academic and behavioral problems. Learn how to integrate consultation into school-based professional practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 953 Psychological Assessment II****Prerequisites:** EDPS Doctoral Student**Description:** Advanced assessment and testing skills. Selection, administration and interpretation of a battery of psychological tests and integration and synthesis of relevant test and non-test data into an accessible report writing format. Development of effective consultation and test interpretation feedback skills.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** EDPS 956**EDPS 954 School Mental Health and Behavior Interventions****Description:** Understanding of models for the delivery of mental health services in schools; and plan and deliver psychosocial interventions in school settings. Evidence-based interventions delivered at the classroom and school-wide levels emphasized with a three-tiered prevention model of service delivery appropriate for culturally and linguistically diverse students.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDPS 955 Child Therapy**Prerequisites:** Permission of instructor.**Description:** Advanced practicum course that facilitates students' scholarly acquisition of principles and concepts relevant to conducting therapy, and provides opportunities for practical integration of knowledge and skills essential to conducting individual, group, and family psychotherapy. Students acquire competencies in developing, implementing and evaluating interventions by conducting therapy sessions, observing sessions, exchanging feedback with peers, and receiving supervision.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 12**Format:** LEC**EDPS 956 Projective Psychological Assessment****Prerequisites:** EDPS 953 or EDPS Doctoral Student**Description:** The primary goal of this course is to assist doctoral students in developing their ability to utilize projective assessment techniques to integrate information from a variety of sources about a person (an adult or older adolescent) into an integrated, useful psychological report. The broad array of data will include not only the results of formal tests (e.g., the Rorschach), but also personal and family history, and behavioral observations.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING**EDPS 958A Internship in School Psychology****Prerequisites:** Permission of instructor.**Description:** Full-time supervised practice of school psychology in the facilities of public or private schools of educational service agencies.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 12**Format:** FLD**EDPS 958B Practicum in School Psychology Consultation Techniques****Prerequisites:** Permission of instructor.**Description:** Practicum experience in ecological/behavioral, mental health, and organizational consultation techniques within a school or related setting. Supplemented by individual and small group supervisory/feedback sessions each week.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 8**Format:** LEC**EDPS 959 Professional Psychology Internship (Doctoral)****Prerequisites:** Permission of program director.**Description:** Full-time or half-time supervised practice of psychology and related research in schools and supportive mental health and health agencies with emphasis on assessment, diagnosis, and treatment of mental, emotional, and behavioral disorders.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 15**Format:** FLD**EDPS 960 Advanced Cognitive Psychology in Education****Prerequisites:** EDPS 854**Description:** Critical study of the non-Piagetean research literature and theory focusing on higher mental processes in humans through the lifespan. Key course topics include current memory models, encoding and retrieval processes, cognitive load theory, problem solving and critical thinking as well as theories of transfer and expertise development. The effects of self-regulatory processes, social contexts, and beliefs on cognition and learning also are important course emphases.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**EDPS 961 Cognitive Development****Prerequisites:** EDPS 850 or EDPS 851**Description:** Critical examination of theories and research on cognitive development throughout the lifespan, including Piagetean and alternative perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 962 Research Literature in Personality and Social Development****Prerequisites:** EDPS 850 or EDPS 851**Description:** Critical examination of the concepts and principles derived from the study of personality and social development with special emphasis on the research literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 963 Developmental Psychobiology****Prerequisites:** EDPS 850 or EDPS 851**Description:** Biological foundations of human psychological development, including anatomical, physiological, and evolutionary considerations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EDPS 964 Counseling Theories and Intervention Techniques****Prerequisites:** Prereq: EDPS 866**Notes:** Parallel: EDPS 997A and permission of counseling area.**Description:** Overview of theoretical approaches to counseling. Close examination of selected theories and intervention procedures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 997A**EDPS 965A Group Counseling: Social Psychological Aspects****Prerequisites:** EDPS Graduate Student**Notes:** Parallel: EDPS 964 and 997A.**Description:** Develops student competencies in analyzing organizational contexts, designing group counseling experiences, and evaluating group experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

EDPS 966 Psychology of Learning

Notes: EDPS 854 or equivalent is recommended.

Description: Theories of learning and experimental investigation in the field of animal and human behavior and their application to the classroom.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 967 Psychology of Motivation in Education

Prerequisites: EDPS 854

Description: Psychology of Motivation focuses on understanding and impacting students' motivation to learn. Theories discussed in this class are applicable to a wide array of achievement settings (e.g., math, science, writing, health education) as well as more general motivational concerns (e.g., studying, addiction, video games). Content covered includes drive theory, behaviorism as motivation, achievement motivation, goal theory, self-determination theory, social cognitive theory, and ecological theories of motivation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

EDPS 968 Gender and Counseling Psychology

Prerequisites: EDPS Graduate Student

Description: The major purpose of this course is for students to learn about gender issues within the field of counseling psychology from a multicultural and feminist perspective and to gain the essential knowledge and techniques in working with gender issues in diverse settings.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 969 Nonparametric Statistical Methods

Prerequisites: EDPS 859

Description: Presentation of statistical procedures that do not require fundamental assumptions about the distribution property of the variables to be analyzed. Chi Square tests, rank tests of location (Wilcoxon, Mann Whitney, Kruskal-Wallis, Friedman), tests of goodness of fit (Chi Square, Kolmogorov-Smirnoff), tests of randomness (Runs).

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 970 Theory and Methods of Educational Measurement

Crosslisted with: SRAM 970

Prerequisites: EDPS 870

Description: Presentation of various measurement theories and concepts, including classical true-score theory, reliability and validity, test construction, item response theory, test equating, test bias, and criterion-referenced tests.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 971 Structural Equation Modeling

Crosslisted with: SRAM 971

Notes: EDPS 942 and EDPS 970 or equivalents required; EDPS 972 recommended.

Description: Introduction to the techniques of path analysis, confirmatory factor analysis, and structural equation modeling with emphasis on the set-up and interpretation of different models using the LISREL program. Model testing and evaluation, goodness-of-fit indices, violations of assumptions, specification searches, and power analyses..

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 972 Multivariate Analysis

Crosslisted with: SRAM 972

Notes: EDPS 941 and EDPS 942 or equivalents are required.

Description: Techniques of multivariate analyses, including multivariate analysis of variance and covariance, multivariate multiple regression, multigroup discriminant analysis, canonical analysis, repeated measures (Multivariate model), and time series. Mathematical models presented and analyzed. Instruction complemented by appropriate statistical software packages.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 980

EDPS 973A Evaluation Theory and Practice

Notes: EDPS 859 and EDPS 870 or equivalents are required.

Description: Theories and strategies of evaluation examined within the context of society at large and educational and human service programs in particular. Key evaluation models examined as they relate to judgments and decisions about programs. Methodological, social, and political issues in evaluation which pertain equally to an educational program or a human service agency.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 973B

EDPS 973B Evaluation Practicum

Prerequisites: EDPS 973A

Description: Actual supervised evaluation of a program or project.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 974 Guidance and Counseling in Schools

Description: Survey of elementary, middle and secondary school comprehensive models of guidance. Ingredients of effective helping relationships with students in schools. Analysis of school violence, risk assessment models, multicultural influences, prevention models, and guidance roles of teachers/administrators.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 975 Occupations and Vocational Psychology

Description: Evaluation and uses of occupational and educational information; job analysis; psychological and behavioral attributes relating to work and life-styles; occupational taxonomies; career-development theories; impact of accelerating changes on personal and social planning; investigations of value-oriented expectations as sources of work satisfaction and dissatisfaction; critical assessment of the concept of vocational choice. For counselors and educators.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 976 Advanced Counseling Psychology I: Counseling Theory and Practice

Prerequisites: EDPS Doctoral Student

Description: Counseling methodology in relationship to personality theory and research. Consideration of various theories and research in relation to counseling practice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 977 Seminar in College Student Development

Crosslisted with: EDAD 980

Description: Current knowledge, theories, and practices, and related issues in the area of college student development.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

EDPS 978 Advanced Counseling Psychology II: Research in Counseling

Prerequisites: EDPS Doctoral Student

Description: Research strategies appropriate for counseling psychology. Identification of researchable problem and completion of research proposal including literature review, design, and proposed data analysis procedures.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 979 Introduction to Student Affairs

Description: Current professional issues related to the organization and administration of student personnel within higher education. Exploration of research literature, some field experiences, and in-depth examination of special topics.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

EDPS 980 Item Response Theory

Prerequisites: EDPS 870 and EDPS 972; or permission of instructor.

Description: Principles of item response theory (IRT) and its application to a variety of issues in educational and psychological measurement. Theoretical foundations of IRT discussed along with its assumptions and varied applications. Experience using IRT calibration and scoring computer software.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 981 School Practice in School Psychology

Prerequisites: Permission of instructor

Description: Supervised practice in local school districts related to academic, social, behavioral and emotional disorders of children and adolescents.

Credit Hours: 2-4

Min credits per semester: 2

Max credits per semester: 4

Max credits per degree: 8

Format: LEC

EDPS 982 Clinical Practice in School Psychology

Prerequisites: Permission of instructor.

Description: Supervised clinical practice related to academic, social, behavioral and emotional disorders of children and adolescents. Parent and family treatment and behavior interventions emphasized.

Credit Hours: 2-4

Min credits per semester: 2

Max credits per semester: 4

Max credits per degree: 16

Format: LEC

Offered: FALL/SPR

EDPS 983 Community Practice in School Psychology

Prerequisites: Permission of instructor.

Description: Supervised clinical experience working with children, adolescents and families in a variety of school and community settings.

Credit Hours: 2-4

Min credits per semester: 2

Max credits per semester: 4

Max credits per degree: 16

Format: FLD

EDPS 984 Ethics and Ethical Decision Making in Counseling and Education

Prerequisites: EDPS Graduate Student

Description: Ethical principles in the practice of counseling. Application of ethical guidelines and development of ethical decision-making models relevant to school and mental health contents.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 985 Couple and Family Counseling

Prerequisites: EDPS Graduate Student

Description: Couple and family systems and change strategies. Active, brief forms of couple and family counseling and enrichment formats.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 987 Developmental Perspectives on Gender and Sexuality in Counseling

Description: Issues related to gender and sexuality in the process of counseling and psychotherapy. Developmental issues related to gender differences, gender bias, gender identity, gender discrimination, and gender-based disorders. Feminist and affirmative therapy techniques.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

EDPS 988 Lifespan Development

Description: Examine developmental change across the lifespan. Major theories and current research in the field of lifespan development as they inform physical, personality, psychological, cognitive, moral, and social development. Examine some major debates in developmental psychology (e.g. nature vs. nurture, quantitative vs. qualitative change). Provide an overview of life-span developmental changes and impacts on developmental change across the lifespan. Explore and critique theories explaining lifespan development of social, cognitive, and physical capacities. Develop a working understanding of the methods used in developmental research designed for professional school, counseling, or clinical psychologist with focused and in-depth awareness and empathy for the issues of development.

Credit Hours: 0

Max credits per semester:

Max credits per degree:

Format: LEC

EDPS 989 Psychology of Reading and Writing

Crosslisted with: TEAC 989

Notes: Prior graduate coursework in literacy or cognitive psychology recommended.

Description: Study of the research literature on cognitive and motivational processes involved in reading and writing. Readings and classroom discussion will focus on theories and models of reading and writing. Specific topics include the roles of component processes of literacy such as attention, perception, memory, and problem solving, as well as studies of self-regulatory and social influences on literacy development and performance. Literacy research and models are examined at all levels of reading and writing, from early acquisition through high-level reading and writing expertise, as well as with respect to changes in literacy activities tied to new technologies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

EDPS 991 Seminar in Educational Psychology and Measurements

Prerequisites: Permission of instructor.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

EDPS 993 Workshop Seminar

Prerequisites: Permission of instructor

Notes: Refer to Workshop Seminars in Education under the "Education" section of this bulletin.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

EDPS 995 Doctoral Seminar

Prerequisites: Permission of instructor.

Notes: EDPS 995 is intended primarily for EDPS doctoral students, although non-doctoral graduate students may be admitted with special permission of the instructor. Students are immersed in outcome-based scholarly activities with a faculty mentor.

Description: Working on either an individualized or small group basis, students develop, execute and report one or more projects addressing the interaction between research and practice.

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 18

Format: IND

EDPS 996A Research Other Than Thesis

Prerequisites: Permission of instructor.

Description: Independent operational research under faculty supervision.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: IND

EDPS 996B Readings in Educational Psychology

Prerequisites: Permission of instructor.

Description: Readings on selected problems in educational psychology.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: IND

EDPS 997A Practicum in Counseling

Prerequisites: EDPS 866

Description: Supervised laboratory clinic-based experiences in counseling.

Credit Hours: 2-4

Min credits per semester: 2

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDPS 997B Field Placement in Counseling

Prerequisites: EDPS Graduate Student

Description: Supervised field experiences in school counseling, college student personnel, and community social service agencies.

Credit Hours: 2-4

Min credits per semester: 2

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

EDPS 997E Practicum in Counselor Supervision and Consultation**Prerequisites:** EDPS 997G**Description:** Supervised counseling supervision and consultation experience emphasizing process methods and evaluation.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 4**Format:** LEC**EDPS 997G Advanced Practicum in Counseling****Prerequisites:** EDPS Doctoral Student**Description:** Supervised counseling experience in university, schools, and community agencies.**Credit Hours:** 2-4**Min credits per semester:** 2**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** EDPS 997E**EDPS 997K Supervision in School Psychology****Prerequisites:** Permission of instructor.**Description:** Supervised experience in supervising graduate students in practicum settings. Refinement of consultation, assessment, diagnosis, and treatment skills.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 8**Format:** LEC**Offered:** FALL/SPR**EDPS 999 Doctoral Dissertation****Prerequisites:** Permission of instructor.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Electrical and Computer Engineering (ECEN)

ECEN 800 Electronic Instrumentation**Crosslisted with:** ECEN 400**Prerequisites:** Senior standing in engineering.**Description:** Applications of analog and digital devices to electronic instrumentation. Includes transducers, instrumentation amplifiers, mechanical and solid-state switches, data acquisition systems, phase-lock loops, and modulation techniques. Demonstrations with working circuits and systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 806 Power Systems Analysis****Crosslisted with:** ECEN 406**Prerequisites:** ECEN 338/(UNO) ECEN 3380 or ECEN 838/(UNO) ECEN 8386.**Description:** Symmetrical components and fault calculations, power system stability, generator modeling (circuit view point), voltage control system, high voltage DC transmission, and system protection.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 957**ECEN 807 Power Systems Planning****Crosslisted with:** ECEN 407**Prerequisites:** ECEN 305/(UNO) ECEN 3050.**Description:** Economic evaluation, load forecasting, generation planning, transmission planning, production simulation, power plant reliability characteristics, and generation system reliability.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 808 Engineering Electromagnetics****Crosslisted with:** ECEN 408**Prerequisites:** ECEN 306/(UNO) ECEN 3060.**Notes:** Laboratory experiments.**Description:** Applied electromagnetics: Transmission lines in digital electronics and communication. The quasistatic electric and magnetic fields: electric and magnetic circuits and electromechanical energy conversion. Guided waves: rectangular and cylindrical metallic waveguides and optical fibers. Radiation and antennas: line and aperture antennas and arrays.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 810 Multivariate Random Processes****Crosslisted with:** ECEN 410**Prerequisites:** ECEN 305/(UNO) ECEN 3050.**Description:** Probability space, random vectors, multivariate distributions, moment generating functions, conditional expectations, discrete and continuous-time random processes, random process characterization and representation, linear systems with random inputs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 911; ECEN 912; ECEN 915; ECEN 946**ECEN 815 Digital Image Processing****Prerequisites:** ECEN 424/824 (UNO ECEN 4240/8240)**Description:** Topics covering the spatial and spectral analysis of digital image processing systems, the design of multi-dimensional digital filters and systems, and advanced theories and technologies in digital image processing systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ECEN 816 Materials and Devices for Computer Memory, Logic, and Display**Crosslisted with:** ECEN 416**Prerequisites:** PHYS 212/(UNO) PHYS 2120.**Description:** Survey of fundamentals and applications of devices used for memory, logic, and display. Magnetic, superconductive, semiconductive, and dielectric materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 817 Semiconductor Fundamentals II****Crosslisted with:** ECEN 417**Prerequisites:** ECEN 421/(UNO) ECEN 4210 or ECEN 821/(UNO) ECEN 8216.**Description:** Analysis of BJT's and MOSFET's from a first principle materials viewpoint. Static and dynamic analysis and characterization. Device fabrication processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 820 Plasma Processing of Semiconductors****Crosslisted with:** ECEN 420**Prerequisites:** Senior or graduate standing.**Description:** Physics of plasmas and gas discharges developed. Includes basic collisional theory, the Boltzman equation and the concept of electron energy distributions. Results are related to specific gas discharge systems used in semiconductor processing, such as sputtering, etching, and deposition systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 821 Principles of Semiconductor Materials and Devices I****Crosslisted with:** ECEN 421**Prerequisites:** PHYS 213/(UNO) PHYS 2130.**Description:** Introduction to semiconductor fundamentals, charge carrier concentration and carrier transport, energy bands, and recombination. PN junctions, static and dynamic, and special PN junction diode devices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 822 Introduction to Physics and Chemistry of Solids****Crosslisted with:** PHYS 422, PHYS 822, ECEN 422**Prerequisites:** PHYS 213 or CHEM 481/881, MATH 221/821.**Description:** Introduction to structural, thermal, electrical, and magnetic properties of solids, based on concepts of atomic structure, chemical bonding in molecules, and electron states in solids. Principles underlying molecular design of materials and solid-state devices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 824 Digital Signal Processing****Crosslisted with:** ECEN 424**Prerequisites:** ECEN 355 or (UNO) ECEN 3550.**Description:** The temporal and spectral analysis of digital signals and systems, the design of digital filters and systems, and advanced systems including multi-rate digital signal processing techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 815; ECEN 926**ECEN 828 Power Electronics****Crosslisted with:** ECEN 428**Prerequisites:** ECEN 304/(UNO) ECEN 3040 and ECEN 316/(UNO) ECEN 3160.**Description:** Basic analysis and design of solid-state power electronic devices and converter circuitry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 932**ECEN 830 Wind Energy****Crosslisted with:** ECEN 430**Prerequisites:** Senior standing.**Description:** Engineering principles of both the mechanical/aero dynamical and electrical components and systems, along with economic and environmental considerations for citing and public policy, to appropriately cover the relevant topics associated with all scales of wind energy implementations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 833 Microprocessor System Design****Crosslisted with:** ECEN 433**Prerequisites:** ECEN 310 or (UNO) ECEN 3100 with a grade of "C" or better; ECEN 332 or (UNO) ECEN 3320 with a grade of "C" or better.**Description:** Microprocessor based systems: architecture; design; and interfacing. Hardware topics: memory design; input/output ports; serial communications; and interrupts. Software topics: generating assembly ROM code; assembly/C firmware generation; and designing device drivers.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** ECEN 435, ECEN 835

ECEN 835 Embedded Microcontroller Design**Crosslisted with:** ECEN 435**Prerequisites:** ECEN 433/833 or (UNO) ECEN 4330/8336 with a grade of "C" or better; STAT 380 or (UNO) STAT 3800.**Description:** Microcontroller architecture: design, programming, and interfacing for embedded systems. Timing issues, memory interfaces, serial and parallel interfacing, and functions for common microcontrollers.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** ECEN 437, ECEN 837; ECEN 496**ECEN 836 Electric Machines****Crosslisted with:** ECEN 436**Prerequisites:** PHYS 212/(UNO) PHYS 2120 and ECEN 216/(UNO) ECEN 2160.**Description:** Provides a solid background in electric machine analysis, covering fundamental concepts, techniques, and methods for analysis and design. Discussion of transformers and presentation of some new systems and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 932**ECEN 837 Parallel and Distributed Processing****Crosslisted with:** ECEN 437**Prerequisites:** ECEN 435/835 or (UNO) ECEN 4350/8366.**Description:** Parallel and distributed processing concepts, principles, techniques, and machines.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 838 Integrated Systems Programming****Crosslisted with:** ECEN 438**Prerequisites:** ECEN 310 or (UNO) ECEN 3100 and ECEN 332 or (UNO) ECEN 3320**Description:** Introduction to the basics of computer architectural details under the context of computer system programming. Topics include representing and manipulating information, machine level representation of programs, processor architecture and pipelining, compiling and linking, optimizing program performance from the system level, memory hierarchy, dynamic memory allocation and exceptional control flow. Linux system programming tool chain will also be introduced.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** ECEN 406, ECEN 806**ECEN 842 Basic Analytical Techniques in Electrical Engineering****Crosslisted with:** ECEN 442**Prerequisites:** MATH 221/(UNO) MATH 2350.**Description:** Applications of partial differential equations, matrices, vector analysis, complex variables, and infinite series to problems in electrical engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 844 Linear Control Systems****Crosslisted with:** ECEN 444**Prerequisites:** ECEN 304/(UNO) ECEN 3040.**Description:** Classical (transfer function) and modern (state variable) control techniques. Both time domain and frequency domain techniques are studied. Traditional proportional, lead, lag, and PID compensators are examined, as well as state variable feedback.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 848 Decision Analysis****Crosslisted with:** ECEN 448**Prerequisites:** ECEN 305/(UNO) ECEN 3050 or STAT 380/(UNO) STAT 3800.**Description:** Principles of engineering economy including time value of money, net present value and internal rate of return. Use of influence diagram and decision tree to structure and analyze decision situations under uncertainty including use of stochastic dominance, value of information, and utility theory. Fundamentals of two-person matrix games including Nash equilibrium.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 850 Bioinformatics****Crosslisted with:** ECEN 450**Prerequisites:** Computer programming language and ECEN 305/(UNO) ECEN 3050 or MECH 321 or STAT 380/(UNO) STAT 3800 or equivalent**Description:** Examination of how information is organized in biological sequences such as DNA and proteins and computational techniques which make use of this structure. Various biochemical processes that involve these sequences are studied to understand how these processes affect the structure of these sequences. In the process bioinformatics algorithms, tools, and techniques which are used to explore genomic and amino acid sequences are also introduced.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 851 Introduction to VLSI System Design****Crosslisted with:** ECEN 451**Prerequisites:** ECEN 310 or (UNO) ECEN 3100.**Description:** The concepts, principles, and methodology at all levels of digital VLSI system design and focused on gate-level VLSI implementation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ECEN 852 Introduction to Computer-Aided Digital Design**Crosslisted with:** ECEN 452**Prerequisites:** ECEN 310 or (UNO) ECEN 3100.**Description:** The concepts, simulation techniques and methodology in computer-aided digital design at system and logic levels.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 853 Computational and Systems Biology****Crosslisted with:** ECEN 453**Prerequisites:** By permission.**Notes:** Basic knowledge of probability and statistics (e.g. ECEN 305 or STAT 380) and basic programming skills are recommended. This course is to be listed as ECEN 4530/8536 in the UNO catalog as it may also be taught as a distance course for the Omaha campus.**Description:** Provides the required biology primer and covers functional genomics, transcriptomics, differential expression, clustering, classification, prediction, biomarker discovery, pathway analysis and network based approaches to high throughput biological data analysis. Includes the development of databases, algorithms, web-based and other tools regarding management and analysis of life science data. Areas of study include DNA, RNA, and protein sequence analysis, functional genomics and proteomics, 3D macromolecule structure prediction, and systems/network approach.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**ECEN 854 Power Systems Operation and Control****Crosslisted with:** ECEN 454**Prerequisites:** ECEN 338/(UNO) ECEN 3380.**Description:** Characteristics and generating units. Control of generation, economic dispatch, transmission losses, unit commitment, generation with limited supply, hydrothermal coordination, and interchange evaluation and power pool.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 860 Labview Programming****Crosslisted with:** ECEN 460**Prerequisites:** Prior programming experience**Description:** Labview as a programming language and for applications to acquire and analyze data, to access the network, control lab instruments, and for video and sound applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 861 Digital Communications Media****Crosslisted with:** ECEN 461**Prerequisites:** ECEN 325 or (UNO) 3250 or ECEN 462 or (UNO) ECEN 4620**Description:** Topics related to the transport of bit streams from one geographical location to another over various physical media such as wire pairs, coaxial cable, optical fiber, and radio waves. Transmission characteristics, media interfacing, delay, distortion, noise, and error detection and correction techniques.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** ECEN 466, ECEN 866; ECEN 479, ECEN 879; ECEN 885; ECEN 977**ECEN 862 Communication Systems****Crosslisted with:** ECEN 462**Prerequisites:** ECEN 304/(UNO) ECEN 3040 and ECEN 305/(UNO) ECEN 3050.**Description:** Mathematical descriptions of signals in communication systems. Principles of analog modulation and demodulation. Performance analysis of analog communication systems in the presence of noise.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 911**ECEN 863 Digital Signal Processing****Crosslisted with:** ECEN 463**Prerequisites:** ECEN 304/(UNO) ECEN 3040.**Description:** Discrete system analysis using Z-transforms. Analysis and design of digital filters. Discrete Fourier transforms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 915**ECEN 864 Digital Communication Systems****Crosslisted with:** ECEN 464**Description:** Principals of digital transmission of information in the presence of noise. Design and analysis of baseband PAM transmission systems and various carrier systems including ASK, FSK, PSK.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 911; ECEN 912; ECEN 959**ECEN 865 Introduction to Data Compression****Crosslisted with:** ECEN 465**Prerequisites:** ECEN 305/(UNO) ECEN 3050.**Description:** Introduction to the concepts of Information Theory and Redundancy removal. Simulation of various data compression schemes such as Delta Modulation, Differential Pulse Code Modulation, Transform Coding and Runlength Coding.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ECEN 866 Telecommunications Engineering I**Crosslisted with:** ECEN 466**Prerequisites:** ECEN 362 or (UNO) ECEN 3620; ECEN 461/861 or (UNO) ECEN 4610/8610, or parallel.**Description:** Standard telecommunications protocols, architecture of long distance integrated data networks, local area networks, wide area networks, radio and satellite networks. Network management, internetworking, system modeling and performance analysis.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** ECEN 496**ECEN 867 Electromagnetic Theory and Applications****Crosslisted with:** ECEN 467**Prerequisites:** ECEN 306/(UNO) ECEN 3060.**Description:** Engineering application of Maxwell's equations. Fundamental Parameters of Antennas. Radiation, analysis, and synthesis of antenna arrays. Aperture Antennas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 965**ECEN 868 Microwave Engineering****Crosslisted with:** ECEN 468**Prerequisites:** ECEN 306/(UNO) ECEN 3060.**Description:** Applications of active and passive devices to microwave systems. Includes impedance matching, resonators, and microwave antennas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 965**ECEN 869 Analog Integrated Circuits****Crosslisted with:** ECEN 469**Prerequisites:** ECEN 361/(UNO) ECEN 3610.**Description:** Analysis and design of analog integrated circuits both bipolar and MOS. Basic circuit elements such as differential pairs, current sources, active loads, output drivers used in the design of more complex analog integrated circuits.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 913**ECEN 870 Digital and Analog VLSI Design****Crosslisted with:** ECEN 470**Prerequisites:** ECEN 316/(UNO) ECEN 3160.**Description:** Introduction to VLSI design techniques for analog and digital circuits. Fabrication technology and device modelling. Design rules for integrated circuit layout. LSI design options with emphasis on the standard cell approach of digital and analog circuits. Lab experiments, computer simulation and layout exercises.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 871 Computer Communication Networks****Crosslisted with:** ECEN 471**Prerequisites:** ECEN 325 or (UNO) ECEN 3250.**Description:** High-speed access control protocols, routing protocols, traffic management, and network topologies. Giga-bit Ethernet, ATM, and TCP/IP. Performance modeling and simulation techniques.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 873 Mobile and Personal Communications****Crosslisted with:** ECEN 473**Prerequisites:** ECEN 325 or (UNO) ECEN 3250.**Description:** Concepts on mobile and personal communications. Modulation techniques for mobile radio, equalization, diversity, channel coding, and speech coding.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 874 Digital Systems****Crosslisted with:** ECEN 474**Prerequisites:** ECEN 370/(UNO) ECEN 3700.**Description:** Synthesis using state machines; design of digital systems; micro programming in small controller design; hardware description language for design and timing analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 477, ECEN 877**ECEN 875 Satellite Communications****Crosslisted with:** ECEN 475**Prerequisites:** ECEN 325 OR (UNO) ECEN 3250.**Description:** The fundamental concepts of satellite communications. Orbits, launching satellites, modulation and multiplexing, multiple access, earth stations, coding, interference and special problems in satellite communications.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 876 Wireless Communications****Crosslisted with:** ECEN 476**Prerequisites:** ECEN 325 or ECEN 462 or parallel**Description:** The fundamental concepts of wireless communications. Basic communications concepts such as multiple access and spectrum. Propagation, radio standards and internet working. Current issues in wireless communications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 926; ECEN 977

ECEN 877 Digital Systems Organization and Design**Crosslisted with:** ECEN 477**Prerequisites:** ECEN 474/(UNO) ECEN 4740 or ECEN 874/(UNO) ECEN 8746**Description:** Hardware development languages, hardware organization and realization, microprogramming, interrupt, intersystem communication, and peripheral interfacing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 879 Optical Fiber Communications****Crosslisted with:** ECEN 479**Prerequisites:** ECEN 461/861 or (UNO) ECEN 4610/8616**Description:** Fundamentals of lightwave communication in optical fiber waveguides, physical description of fiber optic systems. Properties of the optical fiber and fiber components. Electro-optic devices: light sources and modulators, detectors and amplifiers; optical transmitter and receiver systems. Fiber optic link design and specification; fiber optic networks.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** ECEN 979**ECEN 880 Introduction to Lasers and Laser Applications****Crosslisted with:** ECEN 480, PHYS 480, PHYS 880**Prerequisites:** PHYS 213/(UNO) PHYS 2130.**Description:** Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 882 Antennas and Radio Propagation for Wireless Communications****Crosslisted with:** ECEN 482**Prerequisites:** ECEN 328 or (UNO) ECEN 3280.**Description:** Fundamental theory of antennas and radio propagation for wireless communications. Basic antenna characteristics and various antennas and antenna arrays. Basic propagation mechanisms and various channel models, such as Friis free space model, Hata model, lognormal distribution, and multipath model. Includes practical antenna design for high radio frequency (RF) with modeling software tools such as Numerical Electromagnetic Code (NEC) and Advanced Design System (ADS). Design projects will be assigned as the main part of course.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 883 Random Processes in Engineering****Prerequisites:** STAT 380 (UNO STAT 3800)**Description:** Topics related to the concept of random variables, functions of random variables and random processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 926**ECEN 884 Network Security****Crosslisted with:** ECEN 484**Prerequisites:** ECEN 325 or (UNO) ECEN 3250.**Description:** Network security and cryptographic protocols. Classical encryption techniques, block ciphers and stream cyphers, public-key cryptography, authentications digital signatures, key management and distributions, network vulnerabilities, transport-level security, IP security.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 885 Spread Spectrum Communications****Prerequisites:** ECEN 461/861 (UNO ECEN 4610/8616)**Description:** Introduction to the theory of spread spectrum communications: direct sequence, frequency and time hopping techniques. Topics include properties of pseudo-random binary sequences, low-probability-of-intercept (LPI) and anti-jamming (AJ) methods, performance of spread spectrum systems, applications of spread spectrum techniques in radio frequency and optical code-division multiple access (CDMA) systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 886 Applied Photonics****Crosslisted with:** ECEN 486**Prerequisites:** ECEN 306/(UNO) ECEN 3060 or permission.**Description:** Introduction to the use of electromagnetic radiation for performing optical measurements in engineering applications. Basic electromagnetic theory and light interaction with matter are covered with corresponding laboratory experiments conducted.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECEN 986**ECEN 888 Wireless Security****Crosslisted with:** ECEN 488**Prerequisites:** ECEN 325 or (UNO) ECEN 3250.**Description:** A comprehensive overview on the recent advances in wireless network and system security. Covers security issues and solutions in emerging wireless access networks and systems as well as multihop wireless networks.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ECEN 891 Special Topics in Electrical and Computer Engineering IV****Crosslisted with:** ECEN 491**Prerequisites:** Senior standing.**Description:** Special topics in the emerging areas of electrical, computer, and electronics engineering which may not be covered in other courses in the electrical and computer engineering curriculum.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

ECEN 892 Individual Study in Electrical and Computer Engineering IV**Crosslisted with:** ECEN 492**Prerequisites:** Senior standing.**Notes:** Requires a ECE departmentally approved proposal.**Description:** Individual study in a selected electrical, computer, or electronics engineering area under the supervision and guidance of an electrical and computer engineering faculty member.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**ECEN 893 Independent Study in Computer and Electronics Engineering****Prerequisites:** Departmentally approved proposal.**Description:** Individual study at the graduate level in a selected electrical or computer engineering area under the supervision and guidance of an Electrical & Computer Engineering faculty member.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**ECEN 895 Special Topics****Description:** Special topics in the newly emerging areas of computer and electronics engineering not covered in the other courses in the electrical and computer engineering curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 898 Special Topics in Electrical Engineering IV****Crosslisted with:** ECEN 498**Prerequisites:** Permission**Notes:** Offered as the need arises for electrical engineering topics for fourth-year and graduate students not covered in other courses.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 18**Format:** LEC**ECEN 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser.**Description:** Masters thesis work.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ECEN 911 Communication Theory****Prerequisites:** ECEN 862/(UNO) ECEN 8626, and ECEN 864/(UNO) ECEN 8646 or ECEN 810/(UNO) ECEN 8106**Description:** Applications of probability and statistics to signals and noise; correlation; sampling; shot noise; spectral analysis; Gaussian processes; filtering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 912 Error Control Coding****Prerequisites:** ECEN 410/(UNO) ECEN 4100 or ECEN 810/(UNO) ECEN 8106; and ECEN 464/(UNO) ECEN 4640 or ECEN 864/(UNO) ECEN 8646; or permission.**Description:** Fundamentals of error correction and detection in digital communication and storage systems. Linear and algebraic block codes; Hamming, BCH and Reed-Solomon codes; algebraic decoding techniques; structure and performance of convolutional codes, turbo codes, and trellis coded modulation; MAP, Viterbi, and sequential decoding techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 913 Advanced Analog and Mixed-Signal Integrated Circuits****Prerequisites:** ECEN 869/(UNO) ECEN 8696 and permission**Description:** Advanced current mirrors and op-amps. Comparators and sample/hold (S/H) circuits. Band-gap reference circuits. Trans-linear circuits and analog multipliers. Voltage controlled oscillators. Operational trans-conductance amplifiers (OTA's). Switched capacitor circuits. Data converters. Non-linearity, mismatch, and short-channel effects. Continuous time domain integrated filters. Current conveyors. Phase locked loops. Analog CAD.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 915 Adaptive Signal Processing****Prerequisites:** ECEN 410/(UNO) ECEN 4100 or ECEN 810/(UNO) ECEN 8106; and ECEN 463/(UNO) ECEN 4630 or ECEN 863/(UNO) 8636; and permission**Description:** Adaptive filtering algorithms, frequency and transform domain adaptive filters, and simulation and critical evaluation of adaptive signal processing for real world applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ECEN 926 Statistical Signal Processing for Wireless Communications****Prerequisites:** ECEN 424/824/(UNO) ECEN 4240/8246; ECEN 476/876/(UNO) ECEN 4760/8760; and ECEN 883/(UNO) ECEN 8830**Description:** Statistical signal processing and applications for wireless communications: the characteristics of random signals; optimum linear filters; statistical parameter estimation using maximum likelihood (ML) and minimum mean-square error (MMSE) methods; adaptive signal processing using least-mean-square (LMS) and recursive least-square (RLS) approaches; Kalman filtering; and eigenanalysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ECEN 932 Advanced Power Electronics and Applications

Prerequisites: ECEN 428/(UNO) ECEN 4280 or ECEN 828/(UNO) ECEN 8286; and ECEN 426/(UNO) ECEN 4260 or ECEN 836/(UNO) ECEN 8366.

Description: Analysis and design of power electronic circuits and their applications, including: snubber circuits, resonant converters and soft switching techniques, pulse-width modulation techniques, control of power electronic circuits, power electronics and control for electric machines and wind energy systems, flexible AC-transmission system (FACTS) devices, and high-voltage DC (HVDC) transmission.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 935 Computational Intelligence

Prerequisites: MATH 208/(UNO) MATH 1970, MATH 221/(UNO) MATH 2350, MATH 314/(UNO) MATH 2050, and good skills using MATLAB

Description: Computational intelligence paradigms and their applications, including: artificial neural networks, fuzzy logic systems, swarm intelligence, evolutionary computation (e.g., genetic algorithms), machine learning (e.g., supervised learning, unsupervised learning, and reinforcement learning), neurocontrol and adaptive critic designs, and applications of computational intelligence for system identification, state estimation, time series prediction, signal processing, adaptive control, optimization, diagnostics, prognostics, etc.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 946 Optimal Filtering, Estimation and Prediction

Prerequisites: ECEN 810/(UNO) ECEN 8106

Description: Techniques for optimally extracting information about the past, present, or future status of a dynamic system from noise-corrupted measurements on that system.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 957 Advanced Computer Methods in Power System Analysis

Prerequisites: ECEN 806/(UNO) ECEN 8066

Description: Power system matrices, sparsity techniques, network equivalents, contingency analysis, power flow optimization, state estimation, and power system restructuring examined via computer methods.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 959 Wireless Communications

Prerequisites: ECEN 864/(UNO) ECEN 8646 and permission

Description: Principles of wireless communications, including: description of the wireless channel characteristics; ultimate performance limits of wireless systems; performance analysis of digital modulation techniques over wireless channels; diversity techniques; adaptive modulation; multiple-antenna communications; multi-carrier modulation; and multi-user wireless communications.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 960 Solid-State Devices

Prerequisites: ECEN 315/(UNO) ECEN 3150 or equivalent

Description: Gallium arsenide and silicon devices. Device properties based on structure and physical properties of the materials.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 965 Passive Microwave Components

Prerequisites: ECEN 867/(UNO) ECEN 8676 or ECEN 868/(UNO) ECEN 8686

Description: Application of Maxwell's Equations to the analysis of waveguides, resonant cavities, filters and other passive microwave devices.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 967 Introduction to Quantum Electronics

Description: Introduction to the quantum aspects of electron devices.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ECEN 968; ECEN 975

ECEN 968 Electron Theory of Solids I

Prerequisites: ECEN 967/(UNO) ECEN 9670

Description: Quantitative development of the fundamentals of the quantum-mechanical theory of electrons in solids.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 971 Seminar

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

ECEN 973 Introduction to Nanotechnology

Notes: The content of the course will be updated annually based on new scientific findings.

Description: Topics in nanotechnology as defined by the National nanotechnology Initiative, with emphasis on topics related to electrical engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 975 Optical Properties of Materials

Prerequisites: ECEN 967/(UNO) ECEN 9670 or equivalent

Description: Quantum mechanical description of the optical properties of solids (complex refractive index and its dispersion, effects of electric and magnetic fields, temperature, stress; additional special topics as desired).

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 977 Space-time Wireless Communications

Prerequisites: ECEN 461/861/(UNO) ECEN 4630/8636; ECEN 476/876/(UNO) ECEN 4760/8766

Description: Theory of space-time (ST) wireless communication systems. Spatial diversity, smart antenna systems, MIMO capacity of multi-antenna fading channels, space-time signaling, space-time receivers, and interference mitigation. Overview of more advanced topics such as MIMO-OFDM. Current trends in research and in the industry.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 979 Non-Linear Fiber Optic Systems

Prerequisites: ECEN 479/879 (UNO ECEN 4790/8796)

Description: Linear and non-linear propagations in optical fibers. Topics include fiber non-linearity, fundamentals of optical amplifiers, semiconductor and fiber amplifiers, soliton communications. Applications include high capacity and long distance transmissions, all-optical networks.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 986 Optoelectronics

Prerequisites: ECEN 886/(UNO) ECEN 8866

Description: Modern phenomena associated with optoelectronics. Electro-optical effect such as Pockel effect, Kerr effect, and nonlinear optical phenomena. Material and devices used in modern communications, femtosecond lasers, and optical computer systems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 991 Independent Study

Prerequisites: Permission

Description: Selected topic under the direction and guidance of a faculty member.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

ECEN 992 Research Other Than Thesis

Prerequisites: Permission and graduate standing.

Description: Supervised non-thesis research and independent study.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

ECEN 996 Topics in Electrical Engineering

Prerequisites: Permission

Description: Selected topics in electrical engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 24

Format: LEC

ECEN 998 Advanced Special Topics

Prerequisites: Permission

Description: Advanced topics in computer and electronics engineering.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ECEN 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair.

Description: Dissertation research.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Engineering (ENGR)

ENGR 810 Ergonomics

Notes: Not open to students with credit in IMSE 315.

Description: Introduction to the principles of ergonomics. Information processing, human output and control, workplace design and environmental conditions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 812 Occupational Safety-A Systems Analysis

Prerequisites: MECH 321

Description: Analysis of safety performance, attribution of cost, identification and analysis of accident potential. Fault Tree analysis. Systems safety and reliability.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 815 Cognitive Ergonomics

Prerequisites: ENGR 830 or permission

Description: Human factors affecting work. Focus on humans: energy requirements, lighting, noise, monotony and fatigue, learning, simultaneous versus sequential tasks. Experimental evaluation of concepts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ENGR 919

ENGR 816 Physical Ergonomics

Prerequisites: ENGR 830 or permission

Description: Human performance in work. Human response to various environmental and task-related variables with emphasis on physical and physiological effects.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ENGR 919

ENGR 817 Occupational Safety Hygiene Engineering**Prerequisites:** Senior standing.**Description:** Introduction to occupational hygiene engineering with emphasis on workplace environmental quality. Heat, illumination, noise, and ventilation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 823 Reliability Engineering****Description:** System and component reliability analyses of series, parallel and complex systems. Concepts of reliability, availability, and maintainability in design of systems. Methods of reliability testing and estimation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 830 Applied Statistics and Quality Control****Prerequisites:** MECH 321**Description:** Systematic analysis of processes through the use of statistical analysis, methods, and procedures; statistical process control, sampling, regression, ANOVA, quality control, and design of experiments. Use of software for performing a statistical analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ENGR 815; ENGR 816**ENGR 831 Stochastic Processes****Description:** Fundamentals of stochastic processes and their application in modeling production/inventory control, maintenance and manufacturing systems. Markov and semi-Markov chains, Poisson processes, renewal processes, regenerative processes and Markov decision processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 832 Scheduling****Description:** The problem of scheduling several tasks over time, including measure of performance, single-machine sequencing, flow shop scheduling, the job shop problem and priority dispatching.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 833 STEM Teaching****Description:** This learning experience is designed to provide graduate level training on teaching at the postsecondary level. Evidence-based teaching methods applicable to Science, Technology, Engineering, and Mathematics (STEM) will be investigated and a learner-based pedagogy will be used to engage those in the course to experience STEM practices. The common element of problem solving is emphasized across all STEM disciplines allowing for discovery, exploration, and application of critical thinking skills. Primary tasks include developing a unit on Canvas that includes learning outcomes, lecture and activities, and assessments, a teaching philosophy, and engaging with technologies that support and enhance teaching and learning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**ENGR 840 Discrete Event Simulation Modeling****Prerequisites:** CONE/BSEN 206 and MECH 321; CSCE 155A, CSCE 155E, CSCE 155H, CSCE 155N or CSCE 155T.**Description:** Development of simulation models of discrete systems. Model development, Monte Carlo techniques, random number generators, and output analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 860 Packaging Engineering****Prerequisites:** CONE/BSEN 206, MECH 321, MECH 373.**Description:** Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packaging and environmental regulations, and material selection.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 861 Radio Frequency Identification****Description:** Fundamentals of how radio frequency identification (RFID) components of tag, transponder, and antennae are utilized to create RFID systems. Best practices for implementation of RFID systems in common supply chain operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGR 869 Technology, Science and Civilization****Description:** Development of technology as a trigger of change upon humankind, from the earliest tools of Homo Habilis to the advent of the radio telescope in exploring the creation of the universe. Traces the paths from early science to development of the sciences and technologies that will dominate the new millennium.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ENGR 881 Supply Chain Optimization

Description: Concepts of the economic and service trade-offs in supply chain and logistics management. Using decision support system (DSS) to design optimal logistics network model with given requirements and operational parameters using leading software packages to model problems arising in strategic management of logistics networks.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 882 Material Planning in Logistic Systems

Prerequisites: MECH 321 and IMSE 328.

Description: Theory, practice and application of inventory, demand and supply planning techniques in multistage environments. Managing economies of scale, uncertainties, capacity constraints, and product availability in a supply chain. Integrated planning, supply chain coordination and technology enablers.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 883 Logistics in the Supply Chain

Description: The process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption. Domestic transportation systems, distribution centers and warehousing, international logistics, logistics system controls, and reengineering logistics systems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 891 Special Topics in Engineering

Description: Subject matter in emerging areas of engineering and closely related areas which are not covered in other courses in the College of Engineering graduate programs. Topics, activities, and delivery methods vary.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

ENGR 906 Financial Engineering

Prerequisites: IMSE 806.

Description: Applications of principle and financial economics in industrial and systems engineering. Term structure of interest, capital asset pricing and other capital allocation models. Evaluation of real-options using binomial lattice, Black-Scholes and other pricing models.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGR 919 Determinants of Occupational Performance

Prerequisites: ENGR 815, 816 or permission

Description: Focus on the individual in the industrial working environment. Emphasis on evaluation of fatigue, training, shift work, perception, vigilance, and work-rest scheduling as they relate to the working environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Engineering Management (EMGT)

EMGT 805 Teamwork for Organizational Commitment and Collaboration

Notes: Designed for Engineers working in the field.

Description: Provides an overview of the role that groups and teams play in achieving organizational success. Essential theories and concepts provide a framework for understanding and analyzing how teams are formed and function, including socioemotional and sociotechnical considerations. Critical issues in leading teams and managing team effectiveness are examined, including but not limited to power, influence, and conflict.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

EMGT 806 Decision and Risk Analysis

Prerequisites: BSEN 206; MECH 321 or STAT 380/MATH 380/STAT 880.

Notes: Designed for Engineers working in the field.

Description: Theory and practice of decision making under uncertainty. Graphical modeling techniques including influence diagram and decision trees. The value of information. Utility theory foundations, risk preference, and multi-attribute decision modes. Economic justification of projects.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

EMGT 807 Project Management

Notes: Designed for Engineers working in the field.

Description: Covers the fundamentals of successful project management. Topics include project selection, planning and control, budgeting and cost estimation, scheduling and resource allocation, project termination, and performance measurement using key indicators.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SUMMER

EMGT 808 Engineering Leadership**Prerequisites:** Graduate Standing**Notes:** Engineering work experience is required, but may be waived at the discretion of MEM program director or the faculty teaching the course.**Description:** Provides a framework to become more proficient in recognizing, understanding, predicting, and controlling the dynamics and outcomes of organizational behavior. Introduction to a variety of contemporary leadership theories and provide some suggested methods for developing leadership capacity at the individual and organizational levels.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**EMGT 811 Legal Considerations for Engineering Managers****Prerequisites:** Graduate Standing**Notes:** Engineering work experience is required, but may be waived at the discretion of MEM program director or the faculty teaching the course.**Description:** Covers legal issues and considerations that engineering firms face. Provides a general understanding of the basic legal principles applicable to the practice of engineering and the performance of engineering services. Topics include an overview of the U.S. legal system; business entity choices and licensing; tort and statutory liability; contract negotiation and terms; project delivery, management, and insurance; and dispute resolution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EMGT 819 Applied Management Science for Engineering and Operations****Prerequisites:** Graduate standing, and MECH 321 or MATH 380 or equivalent course in probability and statistics**Notes:** Engineering work experience is required, but may be waived at the discretion of MEM program director or the faculty teaching the course.**Description:** Introduces optimization methods for decision making and planning. Several management science models and their application to engineering and operations management are covered. Emphasis is on problem formulation, software solution, and interpretation for application and decision-making. Topics include: linear programming and its applications such as product mix, blending, multi-period scheduling; data envelopment analysis; distribution models (transportation, transshipment, assignment); network flow models (shortest route, minimal spanning tree, maximal flow); integer programming and nonlinear programming.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EMGT 820 Quantitative Analysis for Engineering Management Decisions****Prerequisites:** Graduate standing, and MECH 321 or MATH 380 or equivalent course in probability and statistics**Notes:** Engineering work experience is required, but may be waived at the discretion of MEM program director or the faculty teaching the course.**Description:** A working knowledge of the topics is essential for an engineering manager to effectively conduct business and communicate with internal and external members of work unit and organization. Emphasis is on problem formulation, software solution, and interpretation for application and decision-making. Topics are: decision analysis, multi-criteria decision making, queuing theory, project management, simulation, forecasting, and inventory management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EMGT 891 Special Topics in Engineering Management****Prerequisites:** Graduate Standing**Description:** Subject matter in emerging areas of engineering management and closely related areas not covered in other courses within the MEM curriculum. Topics, activities, and delivery methods vary.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**EMGT 901 Total Quality Management Using Six Sigma Techniques****Prerequisites:** MECH 321 or equivalent**Notes:** Designed for Engineers working in the field.**Description:** Statistical quality control and improvement is more than an engineering concern. Quality management is a major business strategy for increasing productivity and gaining competitive advantage in all industries and types of organizations. Covers differing perspectives and definitions of quality; tools and techniques for managing quality and continuous improvement; statistical methods; creation and interpretation of variable and attribute control charts; and Six Sigma tools for detection and isolation of sources of variation, process control, and capability analysis. The goal is to develop an operational use and familiarity with contemporary methods that are effective in managing quality, including Six Sigma.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**EMGT 905 Strategic Management and Planning****Notes:** Designed for Engineers working in the field.**Description:** Creating new and innovative business and corporate entrepreneurship requires a strategic vision to inform and align decision making at all organizational levels. Focuses on strategies that a firm could apply to design a structure for becoming a learning and ethical organization, to create value, and to develop and sustain competencies to gain competitive advantage in the market.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Engler Agribusiness Entrepreneurship Program (EAEP)

EAEP 888 Entrepreneurship and Enterprise Development

Crosslisted with: HORT 488, HORT 888, EAEP 488, AGRO 488, ENTR 488, AGRO 888, ENTR 888, ABUS 488

Description: The process of starting your own enterprise. Competitive environment, risk management, finance for business startups, funding, and business plan writing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

EAEP 896 Independent Study in Entrepreneurship

Crosslisted with: EAEP 496

Prerequisites: Sophomore or higher standing plus permission from the instructor.

Notes: The proposed independent study is subject to approval of the Director of the Engler Agribusiness Entrepreneurship Program.

Description: Entrepreneurship can be approached from many angles and with significant diversity in both value proposition, market reach and concept to customer process. This offering provides the opportunity for students to investigate a particular topic or concept that is professionally relevant under the guidance of a faculty advisor(s) with appropriate expertise/skills/network. Requires individual or team project work focused on investigation of a topic relevant to developing entrepreneurial capacity.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

English (ENGL)

ENGL 801 Drama

Crosslisted with: ENGL 401

Prerequisites: Junior or senior standing and one of the following ENGL courses: 200, 205, 206, 208, 212, 215, 216, 230, 230A, 231, 242, 244, 260, or 261.

Description: Particular historical periods or other groupings of dramas. The relation of the writers both to one another and to the aesthetic and intellectual climate of their times. Examples: drama survey, modern drama, American drama, and Shakespeare's contemporaries in drama.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

ENGL 801K LGBTQ Drama and Popular Culture

Crosslisted with: ENGL 401K, WMNS 401K, WMNS 801K

Prerequisites: Junior standing.

Description: Overview of lesbian, gay, bisexual, transgender, and queer drama and popular culture.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

ENGL 802 Poetry

Crosslisted with: ENGL 402

Prerequisites: Junior or senior standing and one of the following ENGL courses: 200, 205, 206, 208, 212, 215, 216, 230, 230A, 231, 242, 244, 260, or 261.

Description: Epic, Renaissance, Romantic, Victorian, American, and contemporary poetry.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

ENGL 802L Romantic Poetry

Crosslisted with: ENGL 402L

Prerequisites: Junior or senior standing and one of the following ENGL courses: 200, 205, 206, 208, 212, 215, 216, 230, 230A, 231, 242, 244, 260, or 261.

Description: Survey of British poetry, 1780-1835. The traditional major authors and some of the many other poets whose works were popular and influential. The social, historical, and cultural context.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

ENGL 803 American Short Story

Crosslisted with: ENGL 403

Prerequisites: Junior or senior standing and one of the following ENGL courses: 200, 205, 206, 208, 212, 215, 216, 230, 230A, 231, 242, 244, 260, or 261.

Description: The narrative genre of the short story, as represented by stories from American authors of the nineteenth century to the present day.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

ENGL 805 Fiction

Crosslisted with: ENGL 405

Prerequisites: Junior or senior standing and one of the following ENGL courses: 200, 205, 206, 208, 212, 215, 216, 230, 230A, 231, 242, 244, 260, or 261.

Description: Fiction, primarily novels, in particular historical periods or other groupings. The relation of the writers both to one another and to the aesthetic and intellectual climate of their time.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

Max credits per degree: 24

Format: LEC

ENGL 945 Seminar in Ethnic Literature**Crosslisted with:** ETHN 945**Description:** Issues of importance to a particular ethnic experience through the study of relevant literary texts.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ENGL 946 Interdisciplinary Readings in Digital Humanities****Crosslisted with:** MODL 946, HIST 946, ANTH 946**Description:** Methods, theories, and practices of digital humanities scholarship.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENGL 953 Seminar in Creative Writing****Description:** The course has three elements: workshop, seminar, and discussion of the teaching of creative writing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**ENGL 957 Composition Theory and Practice****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 957B Nebraska Writing Project****Crosslisted with:** TEAC 957B**Description:** Summer institute for K-12 and college teachers of writing in all curricular areas, taught on the National Writing Project model.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**ENGL 961 Seminar in American Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 962 Seminar in Medieval Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 963 Seminar in Renaissance Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 964 Seminar in Restoration and Eighteenth-Century Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 965 Seminar in Nineteenth-Century Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 967 Seminar in Modern Literature****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 970 Literary Theory****Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ENGL 971 Seminar in Literary Theory****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 973 Seminar in Literacy Studies****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 976 Seminar in Rhetorical Theory****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**ENGL 986 Approaches to English Studies****Description:** Emerging models of English studies that cross traditional boundaries. Traces disciplinary concerns across three registers: scholarship, curriculum, and pedagogy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ENGL 987 Seminar in Humanities and Public Policy

Description: Strategies for using the humanities to change or develop policy, the public policy roles of humanities and education scholars, and strategies for obtaining funding, permanence, and effectiveness.

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

ENGL 988 Introduction to the Interdisciplinary Study of the Middle Ages

Crosslisted with: AHIS 988, HIST 988, MODL 988, MUSC 988

Description: Methods and state of research in the disciplines--art, music, literature, language, history, philosophy--dealing with the Middle Ages.

Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGL 989 Introduction to the Interdisciplinary Study of the Renaissance

Crosslisted with: AHIS 989, HIST 989, MODL 989, MUSC 989

Description: Methods and state of research in the disciplines--art, music, literature, language, history, philosophy--dealing with the Renaissance.

Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENGL 990 Introduction to Research and Scholarship in English

Description: Introduction to a variety of approaches to research and scholarship current in the discipline.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

ENGL 991 Nebraska Literature Project

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

ENGL 992 Nebraska Humanities Project

Crosslisted with: TEAC 992

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

ENGL 992B Place Conscious Teaching

Crosslisted with: TEAC 992B

Description: Theory and practice of teaching writing, literature, and rhetoric in connection with local place, region, and community.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

ENGL 993 Academic Professionalization and Presentation

Description: Personalized feedback on job application materials and assistance in preparing materials that present the student's advanced graduate work.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

ENGL 994 Application of Learning and Teaching English

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

ENGL 995 Teaching of Literature

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

ENGL 996 Bibliography and Methods

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 4

Format: IND

ENGL 997 Independent Directed Reading

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

ENGL 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Entomology (ENTO)

ENTO 800 Insect Biodiversity

Prerequisites: 12 hrs. of biological sciences, graduate standing and ENTO 116 or equivalent for entomology majors

Description: Classification, taxonomy, and biology of adult insects. Identification of orders and families of insects using keys. Collection required using techniques for collecting, preparing, and curating. One oral/written term paper required.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

ENTO 801 Insect Physiology

Crosslisted with: ENTO 401

Prerequisites: CHEM 251 or CHEM 255; 12 hrs entomology or biological sciences (zoology).

Description: Functions and other phenomena associated with the major organ systems of insects; the cuticle, nervous, circulatory, digestive, metabolism, nutrition, locomotion, reproduction, respiration, and growth and development.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENTO 801L Insect Physiology Lab

Prerequisites: CHEM 251 or CHEM 255; 12 hrs. entomology or biological sciences (zoology)

Notes: Must also register for required lecture ENTO 801.

Description: Functions and other phenomena associated with the major organ systems of insects; the cuticle, nervous, circulatory, digestive, metabolism, nutrition, locomotion, reproduction, respiration, and growth and development.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

ENTO 802 Aquatic Insects

Crosslisted with: BIOS 485, BIOS 885, ENTO 402, NRES 402, NRES 802

Prerequisites: 12 hrs biological sciences.

Description: Biology and ecology of aquatic insects.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: BIOS 485L, BIOS 885L, ENTO 402L, ENTO 802L, NRES 402L, NRES 802L

ENTO 802L Identification of Aquatic Insects

Crosslisted with: BIOS 485L, BIOS 885L, ENTO 402L, NRES 402L, NRES 802L

Prerequisites: Parallel ENTO 802, NRES 402/802, BIOS 485/885.

Description: Identification of aquatic insects to the family level.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

ENTO 803 Management of Horticultural Crop Insects

Crosslisted with: ENTO 403

Prerequisites: Introductory biology course.

Description: The biology, ecology and management of insect pests of horticultural crops such as vegetables, fruit trees, trees and shrubs, greenhouse crops, turf and ornamentals. Employing Integrated Pest Management (IPM) strategies to maintain pests below damaging levels while minimizing the use of traditional insecticides.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENTO 805 Introduction to Entomology

Prerequisites: Permission

Notes: Open only to students that have not taken an entomology course.

Description: Introduction to insects (diversity, identification, morphology and physiology, ecology and behavior, and pest management). Beneficial, economic, and medical importance of insects.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Offered: FALL/SPR

ENTO 806 Insect Ecology

Crosslisted with: BIOS 406, BIOS 806, ENTO 406

Prerequisites: BIOS/NRES 220 and 222.

Description: Biotic and abiotic factors as they influence insect development, behavior, distribution, and abundance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENTO 809 Insect Control by Host-Plant Resistance

Crosslisted with: ENTO 409

Prerequisites: 12 hrs agricultural sciences and/or biological sciences including one course in entomology and one course in genetics.

Description: Explore resistance of crops to herbivorous arthropods. Investigate how insect behavior and physiology are affected by resistance, critically review current research on plant resistance genes, and the molecular, biochemical and physiological aspects of insect/microbe interactions with host plants.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENTO 810 Insects as Educational Tools for the Classroom

Prerequisites: Introductory entomology course

Description: Overview of insects. Insect diversity, insect structure and function, insect ecology and behavior, and the beneficial and detrimental roles insects play. Integrating the study of insects into the classroom to enhance science education.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

ENTO 812 Entomology and Pest Management**Crosslisted with:** ENTO 412**Prerequisites:** Introductory course in ENTO.**Description:** Principles and practices of managing insects pests. Pest management theory, us of sampling, evaluation, tactics, types of insect pests, and current issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 813 Biological Control of Pests****Crosslisted with:** PLPT 813**Prerequisites:** 12 hrs biological sciences and/or agricultural sciences**Description:** Principles and practices of using natural enemies and antagonists to manage the abundance of pests and reduce economic losses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 814 Forensic Entomology****Crosslisted with:** ENTO 414, FORS 414, FORS 814**Prerequisites:** ENTO 115 or equivalent introductory course.**Description:** Application of entomology to legal issues. Criminal investigations, insects of forensic importance, insect succession on carrion, and case studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 815 Medical Entomology****Crosslisted with:** ENTO 415**Prerequisites:** Introductory course in ENTO.**Description:** Direct and indirect importance of insects in human medicine. Principles of arthropod-borne disease, medically important arthropod groups, and arthropod-transmitted diseases.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 815A Self-pollinated Crop Breeding****Crosslisted with:** AGRO 815A**Prerequisites:** AGRO 215**Description:** Self-pollinated plant breeding theory and methods. Pedigree, bulk, single seed descent, back-crossing methods and inbreeding theory.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** AGRO 816B; AGRO 816E**ENTO 815B Germplasm and Genes****Crosslisted with:** AGRO 815B**Prerequisites:** AGRO 215**Description:** Obtaining germplasm and genes from cultivated plants, wild relatives of cultivated plants, and the biosphere. Origination of crops, mutation genetics, biotechnology as a source of genes, chromosomal engineering and plant reproduction.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** AGRO 816B; AGRO 816E**ENTO 815D Cross-pollinated Crop Breeding****Crosslisted with:** AGRO 815D**Prerequisites:** AGRO 215**Description:** Cross-pollinated breeding theory and methods. Genes in populations, recurrent selection methods, creating populations, hybrid production practices, and population improvement theory.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** AGRO 816B; AGRO 816E**ENTO 816 Forensic Insect Succession****Crosslisted with:** ENTO 416**Description:** Forensic insect succession and specific forensically important insects including their life cycle, biology, and association with decomposition. Case studies about how forensic entomology has been used in solving crimes will also be covered.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**ENTO 817 Pest Management Systems****Prerequisites:** 10 hrs entomology and crop production courses**Description:** Different philosophies and theories of insect pest management, theory vs. reality of management, interactions of public and private sectors, development and implementation of pest management programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 818 Insect Identification and Natural History****Prerequisites:** Introductory course in entomology**Notes:** Credit toward the degree may not be earned in both ENTO 800 and ENTO *818.**Description:** Biology and identification of major insect orders, families, classification, and ecology.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING

ENTO 819 Insect Behavior**Prerequisites:** Introductory course in entomology**Description:** The process of behavioral study involves investigating the relationship between animals and their surroundings, and their response to their kin and to other organisms. Topics include characterizing how insects find and defend their resources, how they avoid predators, how they find mates, how they mate, and how some exist in highly ordered social settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 820 Insecticide Toxicology****Prerequisites:** 12 hrs biological sciences; 4 hrs organic chemistry**Description:** Principles of toxicology, insecticide classification, mode of action, metabolism and consequences of insecticide use.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 825 Management of Agronomic Crop Insects****Prerequisites:** An introductory entomology course**Description:** Identification, biology, ecology and management of insect pests of agronomic crops such as corn, soybeans, sorghum, wheat, and alfalfa. Integrated Pest Management (IPM) strategies employed to maintain pests below damaging levels while minimizing the use of traditional insecticides.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 827 Population and Ecological Genetics****Prerequisites:** Introductory Genetics, Introductory Algebra**Description:** Introduction to key theoretical concepts in population genetics and their application. Mutation, genetic drift, structured populations, natural selection, molecular evolution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 828 Scientific Illustration****Crosslisted with:** AGRI 828, AGRO 828, HORT 828**Prerequisites:** 12 hrs agricultural and/or biological sciences.**Description:** Prepare scientifically accurate, high quality illustrations and graphics for the teaching, presentation, and publication of scientific information. Drawing techniques, drafting, copyright, and publication and presentation of scientific art work.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 830 Introduction to the Development of Distance Education Courses****Crosslisted with:** ALEC 830**Description:** Introduction to practical aspects of developing and facilitating distance education courses. Create and facilitate interaction, assessments, course delivery, assignments, course etiquette and ADA compliance. Develop a distance course module grounded in distance education theory and instructional design principles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 835 Chemical Ecology of Insect-Plant Interactions****Prerequisites:** 15 hours of agricultural sciences and/or biological sciences including one course in entomology & one course in biochemistry.**Description:** A focus on insect-plant interactions including direct and indirect plant defenses against herbivory, tritrophic interactions among plant, insect herbivores and herbivore natural enemies, biochemical mechanisms of plant defenses, insect herbivore-produced elicitors of plant defenses, semiochemicals based IPM, chemical ecology of insect vectors of plant diseases, and chemical ecology of insect pollination.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**ENTO 837 IPM in Sensitive Environments****Description:** Concepts of Integrated Pest Management (IPM) and methods used to control insect pests in sensitive environments such as schools, day cares, hospitals, nursing homes, zoos, and prisons.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** FALL**ENTO 882 Field Entomology****Crosslisted with:** BIOS 482, BIOS 882, ENTO 482**Prerequisites:** 12 hrs biological sciences.**Notes:** Offered only at Cedar Point Biological Station.**Description:** Field course in insect taxonomy and biology emphasizing field collection, specimen preparation, classification, and insect natural history.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SUMMER**ENTO 888 MS Degree Project****Prerequisites:** Completion of 24 hrs toward the MS degree**Description:** Application of graduate course work for the non-thesis MS degree program.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** FLD

ENTO 896 Independent Study in Entomology**Crosslisted with:** ENTO 496**Prerequisites:** 12 hrs biological sciences and/or agricultural sciences.**Notes:** Independent study contracts must be filed with the department.**Description:** Individual or group projects in research, literature review, or extension of course work.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** IND**ENTO 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ENTO 905 Seminar in Entomology****Description:** Presentation of topics in entomology or related subjects.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 8**Format:** LEC**ENTO 915 Presentation Methods****Prerequisites:** Permission**Description:** This course prepares entomology graduate students to give scientific and public presentations. It includes instruction in preparing posters and on-screen shows, image editing, finding entomological resources in libraries and on the internet, insect photography, and public speaking. Students develop a portfolio of their work, and they make two 12- and one 30-minute presentations to their classmates.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 920 Xenobiotics in the Environment****Crosslisted with:** AGRO 920, EOHT 920, HORT 920, NRES 920**Prerequisites:** Recommend one course each in organic chemistry, soil science, biochemistry, plant physiology, microbiology and ecology**Description:** Fate and ecotoxicological impacts of biologically foreign compounds in soil-water-plant environments; uptake, mechanisms of toxicity and metabolism in plants and other biota. Herbicides and other pesticides.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 960 Biosystematics and Nomenclature****Crosslisted with:** BIOS 960**Description:** Methods and principles of systematics and nomenclature.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTO 991 Advanced Topics in Entomology****Prerequisites:** Permission**Description:** Advanced study of selected topics not presented in established courses.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** LEC**ENTO 996 Research in Entomology****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** IND**ENTO 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Description:** Research credits required for a doctoral dissertation for completion of degree.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 55**Format:** IND

Entrepreneurship (ENTR)

ENTR 821 Initiating and Managing Entrepreneurial Growth**Crosslisted with:** MNGT 821**Prerequisites:** MNGT 321 and 360**Description:** Focuses on the management of new firms, including small businesses designed to be lifestyle ventures and firms destined to grow. Exposure to variety of growth opportunities including franchising, organic growth and expansion of smaller businesses or units within larger firms. Teaches how to manage a new business and exploit an entrepreneurial opportunity and manage resources to sustain the firm once the business is running. Learn through a variety of hands-on methods designed to enhance their critical thinking and practical business skills. Case study analysis and exposure to thought leadership in the field are part of the core learning methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ENTR 822 Managing Rapid Growth and Change in Organizations**Crosslisted with:** MNGT 822**Prerequisites:** MNGT 321 or 360

Description: Addresses financial, human resource, operations and marketing issues that face entrepreneurs whose businesses are confronted with significant growth. In addition, will learn change management concepts that are targeted towards managing an organization in extremely turbulent times. Prepares students to work in fast-growth firms, whether they are interested in starting their own business or joining an already established fast-growth firm. Helpful for students interested in fast-growth industries such as life science and high technology.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTR 823 Business Plan Development and Decision Making****Crosslisted with:** MNGT 823**Prerequisites:** MNGT 321 or MNGT 360

Notes: ENTR 823 may be taken by non-management majors with departmental permission.

Description: Takes an in-depth look at the business planning process. By the end of the class, students produce their own business plans. Learn through their own business plan writing, through in-depth cases studies, by engaging in role plays and by interacting with business executives. Business plans are a critical part of any organization, thus, preparing students to develop business plans for a variety of new concepts and ideas, whether inside an established firm or as part of the start-up new venture. Students will be asked to enter their business plans into the business planning competitions in which the University participates.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ENTR 888 Entrepreneurship and Enterprise Development****Crosslisted with:** HORT 488, HORT 888, EAEP 488, AGRO 488, ENTR 488, EAEP 888, AGRO 888, ABUS 488

Description: The process of starting your own enterprise. Competitive environment, risk management, finance for business startups, funding, and business plan writing.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR

Environmental Engineering (ENVE)

ENVE 851 Soils, Water, and Environmental Chemistry**Crosslisted with:** NRES 451, NRES 851**Prerequisites:** NRES/WATS/SOIL/AGRO/GEOL 361 or graduate standing

Description: Environmental chemistry related to the fate and transport of organic contaminants in soil-water environments. Application of computer simulation models (i.e., MODFLOW) for predicting contaminant fate in aquifers. Basic chemical and biological principles of remediating contaminated soil and water.

Credit Hours: 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING**ENVE 890 Practicum in Environmental Engineering****Prerequisites:** Permission

Description: Problems in engineering or management in a non-academic experience within the private sector or a government agency. Research, design, analysis, and testing.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**ENVE 898 Special Problems in Environmental Engineering****Prerequisites:** Permission

Description: Special research-oriented problems in current topics in environmental engineering.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**ENVE 899 Masters Thesis**

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**ENVE 990 Seminar in Environmental and Water Resources Engineering****Prerequisites:** Permission

Description: Current research topics and projects in environmental and water resources engineering and closely allied areas.

Credit Hours: 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ENVE 998 Special Topics in Environmental Engineering****Prerequisites:** Permission

Description: Independent library and/or experimental research, analysis, evaluation and presentation of current and advanced topics in environmental engineering and closely related areas.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

Ethnic Studies (ETHN)

ETHN 848 Family Diversity**Crosslisted with:** ETHN 448, SOCI 448, SOCI 848**Prerequisites:** 9 hours of SOCI, or Senior standing.

Description: Analyzes diversity in family structure and family choices.

Includes: rural families, gay/lesbian families, Native American families, African American families, Latino families, working class and working poor families and cohabitation.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

ETHN 881 Minority Groups**Crosslisted with:** ETHN 481, SOCI 481, SOCI 881**Prerequisites:** 9 hours of SOCI, or Senior standing.**Description:** Systematic examination of racial, ethnic, and other minority groups. History and present status of such groups, the origins of prejudice and discrimination, and the application of social science knowledge toward the elimination of minority group problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**ETHN 890 Critical Issues in U.S. and Global Society: Race, Social Justice and Inequality****Description:** Contemporary and historical issues surrounding race, social justice and inequality. Topics include racism and inequality in U.S. society, environmental and social justice, and global issues such as migration and human trafficking. Letter grade only.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**ETHN 896 Independent Study in Ethnic Studies****Prerequisites:** Permission**Description:** Individual or group study on a topic in Ethnic Studies under the supervision and evaluation of an Ethnic Studies faculty member.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**ETHN 945 Seminar in Ethnic Literature****Crosslisted with:** ENGL 945**Description:** Issues of importance to a particular ethnic experience through the study of relevant literary texts.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**ETHN 983 Readings and Problems in Race, Ethnicity, and Identity in History****Crosslisted with:** HIST 983**Description:** Engages with recent and classic scholarship on race, ethnicity, and identity, primarily in American history. Covers new comparative and transnational scholarship. May emphasize different themes and readings depending on area of expertise of faculty. Letter grade only.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Finance (FINA)

FINA 801 Quantitative Methods in Finance**Prerequisites:** Admission to the Masters of Science in Finance program or by permission.**Description:** Practical use of statistical and quantitative methods that have wide applicability in business and financial decision making.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 802 Fixed Income Analysis****Prerequisites:** Admission to the Masters of Science in Finance program or by permission.**Description:** Basic understanding of fixed-income markets, fixed-income securities, and tools employed by market participants to the analysis of fixed-income investments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 803 Case Studies in Financial Management****Prerequisites:** Admission to the Masters of Science in Finance program or by permission.**Description:** Development and implementation of financial strategies and policies. Cases will cover financial statement analysis, working capital management, capital structure planning, cost of capital, and capital expenditure analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 804 Portfolio Management II & Ethics****Prerequisites:** Admission to the Masters of Science in Finance program or by permission.**Description:** Covers elements of the investment management process. Investment management process considers risk, return, and investment constraints. Ethical considerations of this investment management industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 807 Property and Liability Insurance****Prerequisites:** FINA 307**Description:** Open to masters level and PhD students only. Analysis of risk theory, property and liability risks, and the economic functions of property insurance. Traditional and modern theories of risk, property and liability coverages, and functional insurance areas. The role of property and liability insurance in meeting current economic and social problems in urban core areas of major central cities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

FINA 812 Life and Health Insurance**Crosslisted with:** FINA 412**Prerequisites:** 2.5 cum GPA; FINA 338.**Description:** The economic functions of life insurance. The human-life value concept and the basic forms of life insurance and annuities used in insuring life values. Life insurance pricing, functional company operations, legal aspects, and contractual provision. Health and other specialized forms of human-life value insurance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 813 Social Insurance****Crosslisted with:** ECON 813, FINA 413, ECON 413**Description:** Nature and causes of economic insecurity. Analysis of public programs such as Social Security, unemployment insurance, workers' compensation, and public assistance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** General Economics and Theory**FINA 820 Employee Benefit Plans****Crosslisted with:** FINA 420**Prerequisites:** ECON 210, or 211 and 212; FINA 307**Description:** Analysis of group life insurance, group medical expense and disability income insurance, private pension plans, profit sharing and thrift plans, Section 401(k) plans, individual retirement accounts (IRAs), Keogh plans for the self-employed, group property and liability insurance, and other employee benefits. An analysis of major public policy issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 838 Enterprise Risk Management****Crosslisted with:** FINA 438**Prerequisites:** FINA 338.**Description:** Major and minor pure loss exposures facing business firms, the alternative risk management techniques for dealing with these exposure, the most appropriate technique(s) for controlling each exposure, and the financial results so the risk management program remains effective. Actual risk management audits of business firms and case studies are used to integrate the concepts, techniques, and tools.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 850 Multinational Financial Analysis****Prerequisites:** GRBA 811 and permission**Notes:** FINA 850 is open to masters level and PhD students only.**Description:** International aspects of financial management. Exchange risk analysis and management. Accessing international capital markets. International capital budgeting. Numerical optimization technique.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 855 Capital Markets and Financial Institutions****Prerequisites:** FINA 365**Notes:** Open to masters level and PhD students only.**Description:** Analysis of the development and functions of the various financial institutions, with emphasis on the nonbank financial intermediary. Sources and uses of funds for each of the major types of intermediary, the nature and structure of financial markets, the behavior of financial institutions, and the theories of interest rate determination.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 861 Advanced Finance****Crosslisted with:** FINA 461**Prerequisites:** 2.5 cum GPA; FINA 361/361H with a grade of C or above; or ACTS 440/840.**Description:** Advanced development of the corporate finance tools used in financial management. Application of quantitative techniques used in financial statement forecasting, advanced capital budgeting, advanced cost of capital estimation, corporate valuation, and external financing policy of the firm.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** FINA 475**FINA 862 Security Valuation and the Buffett Investment Method****Prerequisites:** GRBA 811 or equivalent**Description:** This course covers methods used to value publicly-traded and private equities. Methods used by Warren Buffett are emphasized.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**FINA 863 Portfolio Management****Prerequisites:** GRBA 811**Description:** The workings of securities markets. The fundamental intuition of the risk-return trade-off. The role of information in financial markets. All major asset pricing models and application to risk management in a portfolio context.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** FINA 467, FINA 867**FINA 865 Bank Management****Crosslisted with:** FINA 465**Prerequisites:** 2.5 cum GPA; FINA 361/361H with a grade of C or above or ACTS 440/840; and FINA 365.**Description:** Bank asset management; policy and practices for reserves, loans and investments. Internal organization of commercial banks. New problems and recent innovations in commercial banking.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

FINA 867 Options, Futures and Derivative Securities**Crosslisted with:** FINA 467**Prerequisites:** 2.5 cum GPA; FINA 338 or 367 or 863.**Description:** The use of derivative securities in risk reduction and portfolio management strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ACTS 405**FINA 867A Options, Futures and Derivative Securities for Actuarial Science****Crosslisted with:** FINA 467A**Prerequisites:** ACTS 441 and STAT 380.**Description:** Introduction to financial mathematics related to pricing of derivative securities, including standard options, exotic options and interest rate and bond derivatives. Covers required material for the Society of Actuaries Models for Financial Economics (MFE) exam.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 871 Nonprofit Financial Management****Prerequisites:** Admission to the MBA or MPA program or by permission of the MBA director.**Description:** Financial Management for the non profit firm examines the planning process for operating, capital expenditure, and cash budgets. This process includes long-term financial planning and the importance of capital structure and investment policies that are aligned to the organization's strategic objectives. All these topics build on the foundation of nonprofit accounting and nonprofit financial statements.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**FINA 882 Real Estate Finance****Crosslisted with:** FINA 482**Prerequisites:** FINA 382.**Description:** Consideration of procedure, instruments, techniques, and trends in financing urban real property; an examination of realty credit markets and sources of funds (private and public); valuation of real property for lending and investment purposes; and measurement of investment performance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**FINA 907 Insurance Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 960 Financial Management****Prerequisites:** Completion of the MBA core requirements**Description:** Open to masters level and PhD students only. Assuming a background of knowledge which includes the finance function in business and the technique of financial analysis, this course confronts the student with the unique role of financial management which relates both to the company as an operating entity and to the interest of the owners in the results of the operation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 961 Advanced Theory of Finance****Prerequisites:** FINA 361**Description:** Open to masters level and PhD students only. Critical examination of the relation of the capital markets to the external financing problems of the firm. Advanced developments of the finance specialization with major emphasis on the theoretical issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** FINA 994**FINA 962 Research Methods in Finance and Accounting****Prerequisites:** Admitted to PhD degree program in Economics or the College of Business Administration**Description:** This class covers the research methods used in accounting and finance. Emphasis is on empirical testing using statistical and mathematical programming languages.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 963 Survey of Teaching Methods in Business****Prerequisites:** Admission to PhD degree program in Finance**Description:** This course is a primer to help facilitate new PhD candidates in their transition from student to teacher. The course is largely self-directed study, however there is mentoring from a faculty member. The course is based around four accountabilities. The student will learn strategies to develop: 1) an environment conducive to learning, 2) a curriculum, 3) a delivery system for the curriculum, and 4) an evaluation system. The course culminates with the construction of a teaching portfolio.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**FINA 965 Seminar in Banking****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

FINA 966 Seminar in Investments**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 968 Seminar in Finance****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 969 Finance Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 994 Seminar in Selected Subjects: Special Topics****Prerequisites:** FINA 961**Notes:** Open to PhD students only.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FINA 996 Directed Reading or Research****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 24**Format:** IND**FINA 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Food Science and Technology (FDST)

FDST 801 Teaching Applications of Food Science**Crosslisted with:** FDST 401**Prerequisites:** BIOS 101 and CHEM 109**Notes:** Will not count toward a FDST major or minor.**Description:** Overview of the science of food and how food can be used in the classroom to enhance science education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 803 Food Quality Assurance****Crosslisted with:** FDST 403**Prerequisites:** FDST 205; STAT 218.**Description:** Quality related issues as they pertain to manufacturing, processing, and/or testing of foods, with a major emphasis on food regulations, statistical process control and Hazard Analysis of Critical Control Points (HACCP).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 805 Food Microbiology****Crosslisted with:** BIOS 445, BIOS 845, FDST 405**Prerequisites:** BIOS 312**Notes:** BIOC 401 or BIOC 431 recommended**Description:** Nature, physiology, and interactions of microorganisms in foods. Introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Food plant sanitation and criteria for establishing microbial standards for food products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** BIOS 446, BIOS 846, FDST 406, FDST 806; FDST 415, FDST 815; FDST 425, FDST 825; FDST 455, FDST 855; FDST 455L, FDST 855L; FDST 460, FDST 860; FDST 875; FDST 877; FDST 908B**FDST 806 Food Microbiology Laboratory****Crosslisted with:** BIOS 446, BIOS 846, FDST 406**Prerequisites:** Parallel in FDST 405/805/BIOS 446/846.**Description:** The microorganisms in foods and the methods used to study them.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LAB**Prerequisite for:** FDST 415, FDST 815**FDST 812 Cereal Technology****Crosslisted with:** FDST 412**Prerequisites:** FDST 205.**Description:** Chemistry and technology of the cereal grains. Post-harvest processing and utilization for food and feed. Current industrial processes and practices, and the theoretical basis for these operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 813 Baking Technology****Crosslisted with:** FDST 413**Prerequisites:** FDST 205**Description:** Chemistry and technology of bakery products, including formulation, ingredient functionality, processing, and quality evaluation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

FDST 815 Molds and Mycotoxins in Food, Feed, and the Human Environment**Crosslisted with:** FDST 415**Prerequisites:** FDST 405/805/BIOS 445/845 and FDST 406/806/BIOS 446/846.**Description:** Occurrence, growth, and mycotoxin production of molds in human foods, animal feeds, and the human environment. Spoilage, mycotoxin production conditions, toxicity, and pathological effects. Culture media, methods and techniques for enumerating and identifying molds, analytical methods for mycotoxins, and effects of food and feed processing on mycotoxin stability.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 819 Meat Investigations****Crosslisted with:** ASCI 419, ASCI 819, FDST 419**Prerequisites:** ASCI 210**Description:** Conduct independent research and study meat industry problems in processing, production, storage, and preparation of meat and meat products.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 820 Fruit and Vegetable Technology****Crosslisted with:** FDST 420**Prerequisites:** FDST 205.**Description:** Harvesting and postharvest handling of fruit and vegetables, processing and safety issues, processes of ripening and/or maturation in fresh fruits and vegetables.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 823 Food Safety Risk Analysis****Prerequisites:** Instructors' approval**Description:** Risk analysis principles applied to food safety issues; quantitative approaches for risk assessment using epidemiological, statistical and simulation tools; step-by-step demonstration of quantitative risk assessment model development; methods for framing risk management questions; introduction of risk communication; real-world examples of microbial, food allergen, and chemical risk assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**FDST 825 Food Toxicology****Crosslisted with:** FDST 425**Prerequisites:** FDST 405/805, BIOC 401, or equivalent.**Description:** Toxic substances that may be found in foods with emphasis on bacterial toxins, mycotoxins, and naturally occurring toxicants of plants, animals, and seafood. Basic toxicological methodology and the effects of food processing and handling on food-borne toxicants.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 829 Dairy Products Technology****Crosslisted with:** FDST 429**Prerequisites:** FDST 205**Notes:** Offered spring semester of odd-numbered calendar years.**Description:** Physical, chemical, and microbiological properties of milk. Principles of milk processing and manufacture of cultured dairy products, cheeses, ice cream, and concentrated dairy products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 830 Sensory Evaluation****Crosslisted with:** FDST 430, STAT 430, STAT 830**Prerequisites:** Introductory course in statistics.**Description:** Food evaluation using sensory techniques and statistical analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 841 Functional Properties of Food****Crosslisted with:** FDST 441, NUTR 441, NUTR 841**Prerequisites:** NUTR 245 and BIOC 401; or FDST 448.**Description:** Relationship of structure and functionality of ingredients in food systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 449**FDST 842 Omnivore's Digestive-Tract Microbiome****Crosslisted with:** FDST 442**Prerequisites:** BIOS 312 or equivalent**Description:** Detailed examples and conceptual overview of studies that define the digestive tract microbial ecosystem both at the local and systemic scale in the context of omnivores such as humans and animals are presented. The concepts in focus are associated with high-dimensional datasets (or big data) used for studying these complex biosystems, and the multi-dimensional interactions between the microbiomes in its ecosystem. Topics include the host-cycle of life in health and disease in relation to the bacteria of the digestive tract, as well as the modification of their ecology due to health issues, nutrition, and microbial competition or chemical modification.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

FDST 845 Experimental Foods**Crosslisted with:** FDST 445, NUTR 445, NUTR 845**Prerequisites:** NUTR 244 and 245; BIOC 401.**Description:** Introduction to food research. Application of research techniques to selected problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 449**FDST 848 Food Chemistry****Crosslisted with:** FDST 448**Prerequisites:** FDST 205; CHEM 251; BIOC 401.**Description:** Molecular components of various foods and the reactions of these components during the processing of foods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 917; FDST 449, FDST 849; FDST 452, FDST 852; FDST 458, FDST 858; FDST 460, FDST 860; NUTR 449**FDST 849 Food Chemistry Laboratory****Crosslisted with:** FDST 449**Prerequisites:** FDST 205; FDST 448/848 or parallel; BIOC 401.**Description:** Experiments involving the isolation, purification, and characterization of the molecular components of foods.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**Prerequisite for:** FDST 458, FDST 858**FDST 852 Physical Chemistry of Foods****Crosslisted with:** FDST 452**Prerequisites:** FDST 448/848 or instructor approval.**Description:** The basic theory of physical chemistry that is relevant in food science and technology. Understand and predict changes occurring in a food during processing, storage, and handling using physical chemistry theory. Design and improvement of processes to make foods having specific qualities in an efficient way.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 855 Microbiology of Fermented Foods****Crosslisted with:** FDST 455**Prerequisites:** FDST 405/805**Notes:** On-campus students must also register for FDST 455L/855L.**Description:** Physiology, biochemistry, and genetics of microorganisms important in food fermentation. How microorganisms are used in fermentation and the effects of processing and manufacturing conditions on production of fermented foods.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 855L Microbiology of Fermented Foods Laboratory****Crosslisted with:** FDST 455L**Prerequisites:** FDST 405/805 and parallel FDST 455/855**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**FDST 858 Advanced Food Analysis****Crosslisted with:** FDST 458**Prerequisites:** FDST 205, 448/848, and FDST 449/849.**Description:** Theory and application of molecular and atomic spectroscopy, immunochemistry and thermal methods to the analysis of foods. Chemical separation techniques for the isolation of food constituents.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 860 Food Product Development Concepts I****Crosslisted with:** FDST 460**Prerequisites:** FDST 805 and FDST 848**Notes:** Capstone course.**Description:** Develop a commercially viable food product using chemical, microbiological and sensory analysis principles, and marketing and packaging sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 865 Food Engineering Unit Operations****Crosslisted with:** FDST 465, MSYM 465, MSYM 865**Prerequisites:** FDST/MSYM 363.**Description:** Unit operations and their applications to food processing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 866 Scientific Method in Practice****Notes:** The course is pass/no pass.**Description:** Introduction to the concepts of scientific inquiry (the scientific method, logical fallacies, publication, scientific ethics). Practical aspects of the modern research environment (academic and non-academic career paths), scientific communication and intellectual property.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SUMMER**FDST 870 Nutraceuticals and Functional Foods****Crosslisted with:** FDST 470**Prerequisites:** BIOC 401 or BIOC/BIOS/CHEM 431/831.**Description:** Evaluation of natural compounds impact on human health. Inflammation, cancer, heart disease, and the impact of gut micro-flora on health.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

FDST 871 A Multidisciplinary Overview of Food Safety and Security**Prerequisites:** 3 hrs BIOS or CHEM**Description:** Instruction in FDST 871 is provided by numerous subject matter experts. Multidisciplinary food safety and security perspectives. Food safety policy, ag bioterrorism, border security, animal ID, food defense, and site security, risk analysis, crisis communication, epidemiology, Hazard Analysis and Critical Control Point System, and more.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 872 Principles of Hazard Analysis and Critical Control Point System****Prerequisites:** 3 hrs BIOS or CHEM**Description:** The Hazard Analysis and Critical Control Point (HACCP) System and its application in the food industry.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 873 Food-borne Toxicants****Prerequisites:** 3 hrs BIOS or CHEM**Description:** Mechanisms of action, metabolism, sources, remediation and/or detoxification, and risk assessment of major food-borne toxicants of current interest. Design of Hazard Analysis and Critical Control Point plans for use in food industries to target food-borne toxicants.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 874 Food Laws, Regulations, and the Regulatory Process****Prerequisites:** 3 hrs FDST at 200 level or above**Description:** FDST 874 has presentations by state and federal food regulators. History of the development of the current federal state food regulations. Guidelines that govern the practice of regulating the wholesomeness of red meats, poultry, and eggs.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 875 Rapid Methods in Food Microbiology****Prerequisites:** FDST 405/805/BIOS 445/845**Description:** The different types of rapid microbial detection approaches available for use in foods. Commercial reagents and detection platforms, and the "next generation" approaches currently under development in academia or industry. Challenges to detection posed by the complexity of most food matrices and the sample preparation methods for separating microorganisms from such matrices.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 876 Risk Assessment for Food, Agriculture, and Veterinary Medicine****Prerequisites:** 3 hrs STAT**Description:** Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analyses. Uncertainty analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 877 Advanced Food Microbiology and Biotechnology****Prerequisites:** FDST 405/805/BIOS 445/845**Description:** Basic principles in biotechnology and applied food microbiology. Current topics of interest in food biotechnology. Introduction to recombinant DNA techniques and how they are applied to genetically modify microorganisms. The use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and down-stream processing techniques, and regulatory aspects of food biotechnology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FDST 878 Food Protection and Defense: Essential Concepts****Prerequisites:** Admission to Food Safety & Defense certificate program; and permission**Description:** Foundational concepts relevant to protecting the food supply from intentional contamination. Section 1 addresses the nature of the policy and regulatory aspects of food defense, threats to food and agricultural systems, as well as concepts and strategies related to response and mitigation of food protection incidents. Section 2 provides an understanding of the principles required in a food defense program for a food manufacturing, warehousing, or distribution center.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 880 Advanced Food Science: Selected Topics****Credit Hours:** 2-6**Min credits per semester:** 2**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**FDST 880A Food Carbohydrates****Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**FDST 880E Food Flavors****Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC

FDST 880L Food Lipids

Description: n-depth discussion of: composition, quality, and chemical and physical properties and reactions of fats and oils in food systems; processing and refining of food fats and oils; manufacture of various fat and oil products; current research related to fats and oils.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 880P Food Proteins

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 896 Independent Study in Food Science and Technology

Prerequisites: 12 hrs FDST or closely related areas

Description: Individual or group projects in research, literature review, or extension of course work under supervision and evaluation of a departmental faculty member.

Credit Hours: 1-5

Min credits per semester: 1

Max credits per semester: 5

Max credits per degree: 5

Format: IND

FDST 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

FDST 908 Topics in Advanced Food Microbiology

Description: Current topics in food microbiology.

Credit Hours: 2-8

Min credits per semester: 2

Max credits per semester: 8

Max credits per degree: 8

Format: LEC

FDST 908A Food Biotechnology

Description: Microbial genetics and recombinant DNA technology as applied to food science. Includes modification and improvement of microorganisms important in food fermentations; effects of bacteriophages in food fermentations; enzyme engineering; principles of plant and animal tissue culture; bioprocess engineering and down stream processing; DNA probe and monoclonal antibody technology; and regulatory and ethical aspects of biotechnology.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 908B Food Borne Pathogens

Prerequisites: FDST 805 (BIOS 845). BIOS 820, or permission. BIOC 831 and 832 recommended

Description: Survey of current research topics in the molecular biology of agents of food borne disease. Includes structure-function analyses of toxin molecules and other virulence determinants; genetic mechanisms of phenotypic variation, coordinate regulation of virulence gene expression; mobile genetic elements that contribute to pathogenesis; invasion of host tissues; and stress-response systems and survival.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 908D Food Mycology

Description: Food borne filamentous micro-fungi or molds. Culture media and methods. Techniques for enumerating and identifying molds belonging to the genera *Aspergillus*, *Penicillium*, *Fusarium*, *Alternaria*, *Cladosporium*, *Rhizopus*, *Mucor* and others. Food spoilage by molds, mycotoxin production and pathological effects.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 908E Readings in Food Microbiology

Prerequisites: FDST 805

Description: Primarily a literature course focusing on current and emerging topics in food microbiology. Relevant articles from basic and applied microbiology journals reviewed and discussed. Emphasis on foodborne pathogen detection, testing, characterization, control, and epidemiology.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Offered: SPRING

FDST 908J Gastrointestinal Microbiology

Description: Introduction to the complex microbial populations that inhabit the gastrointestinal tracts of human and non-ruminant animals, and how they impact their hosts. Aspects of gut microbiota having medical or agricultural applications.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 951 Advanced Food Science Seminar

Prerequisites: Permission

Description: Advanced study and discussion of the scientific literature and research pertaining to food science.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

FDST 996 Research in Food Science and Technology**Prerequisites:** 6 hrs microbiology, 12 hrs chemistry**Description:** Studies and investigational work relating to chemistry, microbiology, and processing of food products.**Credit Hours:** 1-8**Min credits per semester:** 1**Max credits per semester:** 8**Max credits per degree:** 8**Format:** IND**FDST 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Forensic Science (FORS)

FORS 803 Advanced Forensic Photography**Crosslisted with:** FORS 403**Prerequisites:** FORS 120/L or FORS 302.**Description:** Advanced concepts, techniques, analysis, and interpretation of photographic evidence.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**Prerequisite for:** FORS 411; FORS 804, FORS 404**FORS 804 Bloodstains as Evidence****Crosslisted with:** FORS 404**Prerequisites:** FORS 120/L, FORS 302 or FORS 403/803.**Description:** Documentation and interpretation of geometric bloodstains, calculating probable origins, and collecting blood as a source of DNA evidence.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** FALL**FORS 814 Forensic Entomology****Crosslisted with:** ENTO 414, ENTO 814, FORS 414**Prerequisites:** ENTO 115 or equivalent introductory course.**Description:** Application of entomology to legal issues. Criminal investigations, insects of forensic importance, insect succession on carrion, and case studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FORS 815 Forensic Toxicology****Crosslisted with:** FORS 415**Prerequisites:** CHEM 252/254; BIOC 401 (concurrent).**Description:** Provides a comprehensive understanding of the principles of toxicology, pharmacokinetics, metabolism, analytical methods and instrumentation relative to forensic science.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**FORS 820 Forensic Science and Criminal Investigation****Description:** Theory and practice in forensic science. The legal system, crime scene investigation, taphonomy, and criminalistics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FORS 845 Human Remains in Forensic Science****Crosslisted with:** FORS 445, NRES 445, NRES 845**Prerequisites:** LIFE 120/L and LIFE 121/L, CHEM 109, CHEM 110, and FORS 120/L.**Description:** Forensic anthropology within the broader context of forensic sciences and physical anthropology. Decomposition and bone modification through artificial means. Determination of individual identity, diet, chronic pathology and cause of death from human remains.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL**FORS 846 Pollen Analysis for Behavioral, Biological and Forensic Science****Crosslisted with:** FORS 446, NRES 446, NRES 846**Prerequisites:** BIOS 109 and FORS 120.**Description:** Collection, processing, identification of common North American pollen types. Pollination ecology relating to scene reconstruction. Fundamental statistics and presentation requirements for a legal and scientific audience.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL**FORS 898 Special Topics in Forensic Science****Crosslisted with:** FORS 498**Prerequisites:** 3 hrs FORS or equivalent.**Description:** Current issues in forensic science.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** LEC

French (FREN)

FREN 803 Advanced Grammar

Crosslisted with: FREN 403

Prerequisites: FREN 303 or 304; an additional 3 hours from FREN 301, 302, 303, or 304

Description: Detailed analysis of French syntax giving students the means to achieve greater sophistication in self-expression.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 804 French Stylistics

Crosslisted with: FREN 404

Prerequisites: FREN 303 or 304; an additional 3 hours from FREN 301, 302, 303, or 304

Description: Principles of explication of texts, translation and composition in French, review of linguistic principles, for advanced students, particularly prospective teachers, who wish to acquire a more sophisticated means of expression in French.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 806 Translation

Crosslisted with: FREN 406

Prerequisites: FREN 303 or 304; an additional 3 hours from FREN 301, 302, 303, or 304

Description: Principles of translation, French-English and English-French. Attention to problems of vocabulary, syntax, semantics, and technical, literary, and commercial translation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 822 Topics in French Civilization

Crosslisted with: FREN 422

Prerequisites: FREN 301 and 302

Description: Analysis of interrelationships of cultural, social, economic, and political factors contributing to French culture and civilization.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 845 Topics in Medieval and Early Modern French Writing

Crosslisted with: FREN 445

Prerequisites: FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304

Description: Readings and discussion on a topic, genre, author, and/or geographical area of the French-speaking world from the medieval period to the seventeenth century

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 849 Eighteenth Century I

Crosslisted with: FREN 449

Prerequisites: FREN 301 and 302

Notes: See instructor if you believe an equivalent course(s) may count for prerequisite.

Description: Philosophical writings and the theatre of eighteenth-century France.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 853 Topics in Nineteenth Century French Culture and Writing

Crosslisted with: FREN 453

Prerequisites: FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304

Description: Readings in the major cultural, historical and literary developments from 1789 to 1914

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 857 Modern French Writing

Crosslisted with: FREN 457

Prerequisites: FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304

Description: Main trends in French writing from 1900 to the present.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 860 Literatures of French Expression

Crosslisted with: FREN 460

Prerequisites: FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304

Description: Survey of writing and film from French-speaking cultures of Africa, the Caribbean, Oceania, Canada, and the Indian Ocean.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 861 Cultural Productions of the French-Speaking World

Crosslisted with: FREN 461

Prerequisites: FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304

Description: A topic, genre, author, or geographical area of the French-speaking world.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

FREN 882 Short Fiction**Crosslisted with:** FREN 482**Prerequisites:** FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304**Description:** A survey of short fiction, including topics from the medieval period to the present. Theme and scope of readings will vary based on instructor.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 883 French/Francophone Theater****Crosslisted with:** FREN 483**Prerequisites:** FREN 301 or FREN 302; an additional 3 hours from FREN 301, FREN 302, FREN 303 or FREN 304**Description:** Examines the theatre of French expression from the Middle Ages to the present in France and the French-speaking world. Thematic approaches, authors, and plays examined will vary depending on the instructor.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Literary and Cultural Studies Writing, Rhetoric, Culture**FREN 885 Writing the Self: Autofiction in/and the French-Speaking World****Crosslisted with:** FREN 485**Prerequisites:** FREN 301 or 302; an additional 3 hours from FREN 301, FREN 302, FREN 303, FREN 304**Description:** An exploration of the various modes, techniques, and impacts of auto-fictional writing in the French-speaking world. Includes a strong creative writing component.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 886 French and Francophone Women Writers****Crosslisted with:** FREN 486**Prerequisites:** FREN 301 or 302; an additional 3 hours from FREN 301, FREN 302, FREN 303, FREN 304**Description:** Considers women writers in the French-speaking world from the medieval period to the present. Addresses questions of gender, sexuality, theory via writings, film, and song.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 891 Special Topics in French****Crosslisted with:** FREN 491**Notes:** Specific topic to be covered in any given semester and credit to be awarded to be determined by the instructor at that time.**Description:** Language, literature, and civilization.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**FREN 896 Independent Study in French****Crosslisted with:** FREN 496**Prerequisites:** Permission.**Description:** Special research project or reading program under the direction of a staff member in the department.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**FREN 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**FREN 901 Old French Language****Prerequisites:** Permission**Description:** Phonology and morphology of Old French as derived from Vulgar Latin. Attention to a detailed reading of the "Chanson de Roland" and the "Lais" of Marie de France.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 902 Old French Literature****Prerequisites:** Permission**Description:** Readings from Medieval epics, saints' lives, Arthurian romances, prose chronicles, and drama. Introduction to the modern critical principles of editing Medieval manuscript.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 919 Sixteenth Century I****Prerequisites:** Permission**Description:** Masterpieces of Renaissance literature. Works of Rabelais, the Pleiade, Montaigne, etc.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**FREN 920 Sixteenth Century II****Prerequisites:** Permission**Notes:** FREN 919 continued.**Description:** Seminars in French. The works of one author, or groups of works centering in a period, or those illustrating the development of a literary age are studied with respect to content, sources, style, and influence.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

FREN 925 Drama

Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

FREN 927 Novel

Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

Max credits per degree: 3
Format: LEC

FREN 929 Special Topics

Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

FREN 996 Research Problems in French

Prerequisites: Permission
Description: Individual research on a literary or linguistic problem involving original investigation in areas not covered by seminars or thesis.
Credit Hours: 1-8
Min credits per semester: 1
Max credits per semester: 8
Max credits per degree: 8
Format: IND

FREN 997 Directed Readings in French

Prerequisites: Permission
Description: Topic varies.
Credit Hours: 1-24
Min credits per semester: 1
Max credits per semester: 24
Max credits per degree: 24
Format: IND

FREN 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair
Credit Hours: 1-24
Min credits per semester: 1
Max credits per semester: 24
Max credits per degree: 99
Format: IND

Geography (GEOG)

GEOG 806 Spatial and Environmental Influences in Social Systems

Crosslisted with: GEOG 406
Description: How space, spatial structure, and spatially oriented behavior operate in social systems, emphasizing their influence on interpersonal communication and/or social exchange.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Groups: Human-Economic Geography

GEOG 808 Microclimate: The Biological Environment

Crosslisted with: AGRO 408, GEOG 408, HORT 408, METR 408, NRES 408, WATS 408, AGRO 808, HORT 808, METR 808, NRES 808
Prerequisites: Junior standing, MATH 106 or equivalent, 5 hrs physics, major in any of the physical or biological sciences or engineering.
Description: Physical factors that create the biological environment. Radiation and energy balances of earth's surfaces, terrestrial and marine. Temperature, humidity, and wind regimes near the surface. Control of the physical environment through irrigation, windbreaks, frost protection, manipulation of light, and radiation. Applications to air pollution research. Instruments for measuring environmental conditions and remote sensing of the environment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: AGRO 907, HORT 907, METR 907, NRES 907; BSEN 954, NRES 954
Groups: Physical Geography

GEOG 812 Introduction to Geographic Information Systems

Crosslisted with: GEOG 412, NRES 412, NRES 812
Description: Introduction to conceptual foundations and applications of computer-based geographic information systems (GIS). GIS database development, spatial data analysis, spatial modeling, GIS implementation and administration.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC
Prerequisite for: GEOG 422, GEOG 822; GEOG 432, GEOG 832; GEOG 922, NRES 922
Groups: Techniques

GEOG 814 Quantitative Methods in Geography

Crosslisted with: GEOG 414
Prerequisites: STAT 218 or 380 and 6 hrs of geography.
Description: Introduction to quantitative techniques utilized in geographic research. Fundamental statistical and mathematical techniques used in analyzing spatial relationships examined.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Groups: Techniques

GEOG 815 Introduction to Computer Mapping

Crosslisted with: GEOG 415
Prerequisites: GEOG 317.
Description: Introduction to the tools, techniques, and analytical uses of computer mapping. Programming necessary for producing own computer mapping programs.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: GEOG 915
Groups: Techniques

GEOG 817 Cartography II: Electronic Atlas Design and Production**Crosslisted with:** GEOG 417**Prerequisites:** GEOG 317.**Description:** Computer-map design and production for the purpose of assembling an environmental electronic atlas, using advanced computer hardware and software. Extensive discussions and demonstrations on content, design, and methods used in computer mapping.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOG 483, GEOG 883; GEOG 915**Groups:** Techniques**GEOG 818 Introduction to Remote Sensing****Crosslisted with:** GEOG 418, NRES 418, NRES 818**Prerequisites:** 9 hours of GEOL, NRES or GEOG.**Notes:** Advanced standing in geography, natural resources, environmental sciences, engineering or agronomy recommended.**Description:** Introduction to remote sensing of the earth from aerial and satellite platforms. Aerial photography, multispectral scanning, thermal imaging and microwave remote sensing techniques. Physical foundations of remote sensing using electromagnetic energy, energy-matter interactions, techniques employed in data acquisition and methods of image analysis. Weekly laboratory provides practical experience in visual and digital interpretation of aerial photography, satellite imagery, thermal and radar imagery. Applications in geographic, agricultural, environmental and natural resources analyses.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** GEOG 420, GEOG 820; GEOG 421, GEOG 821, NRES 421, NRES 821**Groups:** Techniques**GEOG 819 Applications of Remote Sensing in Agriculture and Natural Resources****Crosslisted with:** AGRO 419, GEOG 419, GEOL 419, NRES 420, AGRO 819, GEOL 819, NRES 820**Notes:** GEOG 418/NRES 418 recommended**Description:** Introduction to the practical uses of remote electromagnetic sensing in dealing with agricultural and water-resources issues.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Techniques**GEOG 820 Digital Image Analysis of Remote Sensing Data****Crosslisted with:** GEOG 420**Prerequisites:** GEOG 418/818 or 419/819.**Description:** Principles and methods of digital image processing of remotely sensed data. The biophysical basis of remote sensing and the various sensor systems typically used for monitoring terrestrial and aquatic environments. Algorithms for the preprocessing, enhancement, classification and mapping of digital data for agricultural, urban, geological, environmental, and natural resource management problems.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Techniques**GEOG 821 Field Techniques in Remote Sensing****Crosslisted with:** GEOG 421, NRES 421, NRES 821**Prerequisites:** GEOG 418/818**Description:** Field techniques as they relate to remote-sensing campaigns. Research methods, systematic approaches to data collection, field spectroscopy, collecting ancillary information linked with spectroscopic data sets as well as aircraft or satellite missions and subsequent analyses of acquired data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Techniques**GEOG 822 Advanced Techniques in Geographic Information Systems****Crosslisted with:** GEOG 422**Prerequisites:** GEOG 412/812.**Description:** Vector and quadtree data structures, use of relational database management systems, topologically structured databases, query languages, digital terrain modeling, advanced data analysis methods and research issues in GIS. Extensive practical experience with the current GIS software.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** GEOG 922, NRES 922**Groups:** Techniques**GEOG 825 Scientific Visualization in Cartography****Crosslisted with:** GEOG 425**Prerequisites:** GEOG 317 and either GEOG 415 or GEOG 417.**Description:** Explores cartographic applications of computer animation and multimedia for the dual purposes of assisting visual thinking in map-oriented research and data exploration, and in communicating geographic ideas to others.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Techniques**GEOG 827 Introduction to the Global Positioning System (GPS)****Crosslisted with:** GEOG 427, NRES 427, NRES 827**Prerequisites:** Junior standing.**Notes:** Familiarity with mapping and GIS recommended.**Description:** Integrated lectures, lab exercises and field experience provide an understanding of GPS technology and applications. Students will learn to collect, correct and use GPS data in a geographic information system (GIS) environment.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC

GEOG 831 Cultural Geography**Crosslisted with:** GEOG 431**Description:** The history of cultural geography from von Humboldt through Carl Sauer to the 'new' cultural geographies of Don Mitchell, Gillian Rose and Noel Castree. The current theoretical debates of feminism, post-structuralism, post-colonialism and environmentalism, and the influences of literary and cultural studies in the development of cultural geography and the various methodologies involved.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human-Economic Geography**GEOG 832 GIS Programming for Advanced Spatial Analysis and Modeling****Crosslisted with:** GEOG 432**Prerequisites:** GEOG/NRES 412/812.**Notes:** 18 hours of GIS practice may be substituted for prerequisite by permission.**Description:** Techniques for Geoprocessing script programming to customize geographic information systems (GIS), utilize GIS tools, and implement application-specific spatial analysis, modeling algorithms and procedures.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**GEOG 835 Cultural Survival: Indigenous People's Rights****Crosslisted with:** GEOG 435**Description:** Threats against indigenous peoples' lands, resources and cultural patrimony, languages and knowledge systems more than 500 years after Columbus instigated European colonialism, creating the first global world order. The responses of Indigenous peoples to the imposition of Western dominated economic and political systems. Land rights, economic development, and women's rights from the perspective of different Indigenous communities around the world.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human-Economic Geography**GEOG 844 Geo-demographic and Geographic Information Systems (GIS)****Crosslisted with:** GEOG 444**Description:** Geo-demographic and geographic information system (GIS) analysis, interpretation and mapping of geographical patterns of population size, population composition, and composition change. Theoretical and applied investigation of geo-demographic issues involving marketing research, public facilities planning, public health provision, and small-area population change forecasting. GIS use of TIGER and small-area census data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human-Economic Geography**GEOG 847 Political Geography****Crosslisted with:** GEOG 447**Description:** Importance of factors of a physical, economic, and human character in political development at local to global scales; international geopolitical aspects of environment, territoriality, core areas, capitals, and boundaries; national geographical patterns of voting, representation, public administration and public policy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human-Economic Geography**GEOG 848 Pro-seminar in International Relations I****Crosslisted with:** ECON 466, POLS 466, POLS 866, AECN 467, ANTH 479, ANTH 879, ECON 866, GEOG 448, HIST 479, HIST 879, SOCI 466, SOCI 866**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations.**Description:** Topic varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar Integrative Courses, Research Variable group based on topic Comp Intrntnl & Reg Developmnt Human-Economic Geography**GEOG 850 Climate and Society****Crosslisted with:** AGRO 450, GEOG 450, METR 450, NRES 452, AGRO 850, METR 850, NRES 852**Prerequisites:** Junior standing or above.**Notes:** Offered spring semester of even-numbered calendar years.**Description:** Impact of climate and extreme climatic events on society and societal responses to those events. Global in scope and interdisciplinary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Groups:** Physical Geography**GEOG 861 Geospatial Approaches in Digital Humanities and Social Sciences****Crosslisted with:** ANTH 461, ANTH 861, CLAS 461, CLAS 861, GEOG 461, HIST 461, HIST 861**Description:** Study of geographic concepts and critical analysis of applications of Geographic Information Systems (GIS) in humanities and social sciences and application of geospatial tools for humanities and social science research; learn how to collect, manage, analyze, and visualize spatial data for real-world projects**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Techniques

GEOG 867 Great Plains Field Pedology

Crosslisted with: AGRO 477, GEOG 467, NRES 477, SOIL 477, NRES 877
Prerequisites: AGRO/SOIL 153.

Description: Spatial relationship of soil properties on various parts of landscape typical of the Plains, causal factors, and predictions of such relationships on other landscapes. Grouping these properties into classes, naming the classes, and the taxonomy that results from this grouping. Application of a taxonomy to a real situation through making a field soil survey in a region representative of the Plains border, predicting land use response of various mapped units as it affects the ecosystem, and evaluating the effectiveness of the taxonomic system used in the region surveyed.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Groups: Physical Geography

GEOG 869 Bio-Atmospheric Instrumentation

Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, AGRO 869, HORT 807, METR 869, MSYM 869, NRES 869

Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.

Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Physical Geography

GEOG 878 Pro-seminar in Latin American Studies

Crosslisted with: ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, ANTH 878, HIST 878, POLS 878, SOCI 878, MODL 878, EDPS 878

Prerequisites: Junior standing and permission.

Notes: Topical seminar required for all Latin American Studies majors.

Description: An interdisciplinary analysis of topical issues in Latin American Studies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

Groups: Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research

GEOG 883 Cognitive Processes in Map Comprehension and Use

Crosslisted with: GEOG 483

Prerequisites: GEOG 317 and 417/817.

Description: How cognitive processes help individuals to comprehend the spatial circumstances or arenas they confront when carrying out their daily activities. Awareness of space, spatial knowing, formation of cognitive maps, importance of spatial images in negotiation of surroundings, and the relationship of cognitive maps to orientation and wayfinding.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOG 884 Water Resources Seminar

Crosslisted with: AGRO 484, GEOG 484, GEOL 484, NRES 484, WATS 484, NRES 884, AGRO 884, GEOL 884, WATS 884

Prerequisites: Junior or above standing.

Description: Seminar on current water resources research and issues in Nebraska and the region.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

GEOG 891 Geography Field Tour

Crosslisted with: GEOG 491, NRES 491

Description: Group educational tours to specific sites that illustrate aspects of physical and cultural geography. Off-campus travel required.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 6

Format: FLD

Groups: Physical Geography

GEOG 897 Internship in Geography

Crosslisted with: GEOG 497

Prerequisites: Permission.

Description: Applying geographic training with on-the-job learning.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: FLD

GEOG 898 Advanced Special Problems

Crosslisted with: GEOG 498

Notes: Topic varies, see course description or registration guide.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

GEOG 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

GEOG 901 Pro-seminar in Research Methods and Professional Development

Description: Development of skills required for success in completing a graduate degree and forging a career as a geographer. Setting career goals, designing a graduate program, preparing research proposals, presenting research proposals, presenting research at professional conferences, reviewing professional literature and writing articles for publication.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOG 902 General Seminar**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 3**Format:** LEC**GEOG 903 History and Philosophy of Geography****Description:** History of geographical thought concentrating on the period since 1800. Emphasis on both the traditional and modern ways of viewing the nature of geography and to the linkages between them.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOG 904 Explanation in Geography****Description:** Course directly complements GEOG 903. Methodology or methods of explanation employed in geographic research and their relationship to the goals of the discipline. Problems, hypotheses, laws, theories, and models of a spatial nature.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOG 915 Seminar in Cartography****Prerequisites:** GEOG 815, 817.**Description:** Review and examination of cartographic research on map design. Primary emphasis on efficiency and accuracy of maps as devices for spatial understanding and analytical cartography.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**GEOG 922 Seminar in Geographic Information Systems (GIS)****Crosslisted with:** NRES 922**Prerequisites:** GEOG/NRES 812 and 822; or equivalent**Description:** Study of current research and trends in geographic information systems (GIS), GIScience, and GeoComputation. Advanced spatial analytical techniques and geospatial modeling emphasizing GIS applications in natural resources assessment, environmental analyses, agriculture, and land management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOG 931 Comparative Studies of the Dispossession of Indigenous Peoples****Description:** Dispossession of the indigenous peoples of Australia, Canada, New Zealand, and the United States from a historical, spatial and interdisciplinary approach. Emphasis on human rights, including topics such as the legal assumptions of colonization, reduction of land holdings, population loss, resistance, and land claims.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOG 935 Seminar in Historical Geography****Crosslisted with:** NRES 935**Description:** Discussion of current literature and research on selected aspects of historical geography. Specific theme of course varies according to instructor.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**GEOG 940 Seminar in Human Geography****Description:** Structure of settlement patterns and the factors influencing their development.**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**GEOG 983 Seminar on Behavioral Processes in Person/Environment Relations****Prerequisites:** Senior-level masters degree candidate or PhD-level in human geography or design or planning or any of the social and behavioral disciplines or permission**Description:** Consists of a four, participant-led, research/discussion sessions. Environments as potentially significant components of behavioral episodes based on the premise that places, settings, or environments provide the contexts for and arenas within which people act, interact, and transact. Significance of the physical/sociocultural surrounds derived not solely from their physical presence, but from them, meaning attached to them, and their importance. Topics: common importance of person/environment relations to diverse interests concerned with individual and group behavior in everyday, natural settings; how people experience their environments or "environmental knowing" through perceptual/cognitive processes; environmental representations, images, schemas, and/or cognitive "maps"; and attributions of meaning and significance to environments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOG 994 Seminar in Anthropology and Geography****Crosslisted with:** ANTH 994**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**GEOG 996 Non-thesis Research****Prerequisites:** 24 hrs geography and permission**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 24**Format:** IND

GEOG 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Geology (GEOL)

GEOL 812 Volcanology and Igneous Petrology

Crosslisted with: GEOL 412

Prerequisites: GEOL 201; and either CHEM 109 or CHEM 113

Description: The study of igneous systems, including an investigation of volcanic processes, mineral equilibria, petrography, and the geochemistry of magmas and minerals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 815 Geochemical Thermodynamics

Notes: This course requires command of material covered in MATH 107 and GEOL 201 or equivalent.

Description: Exploration of the fundamentals of geochemistry from thermodynamics, including the laws of thermodynamics, multicomponent analysis, extrapolation to temperatures and pressures of interest, nonideal solution behavior, phase diagrams, volatile fugacities, and redox reactions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 816 Isotope Geochemistry

Prerequisites: GEOL 410

Description: Behavior of stable and radiogenic isotopes in geological and cosmochemical systems. Application of isotope geochemistry to determining the age of rocks, as well as the sources of the chemical components in the rocks.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 817 Organic Geochemistry

Crosslisted with: GEOL 417

Prerequisites: GEOL 410 and CHEM 251.

Description: Origin, preservation and transport of organic compounds found in the rock record. Applications of organic geochemistry to paleoclimatic and paleoenvironmental interpretations as well as discerning the origins of coal, oil and natural gas.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 818 Chemistry of Natural Waters

Crosslisted with: GEOL 418, NRES 419, NRES 819, WATS 418

Prerequisites: CHEM 109 and 110, 113 and 114, or CHEM 111.

Description: Principles of water chemistry and their use in precipitation, surface water, and groundwater studies. Groundwater applications used to determine the time and source of groundwater recharge, estimate groundwater residence time, identify aquifer mineralogy, examine the degree of mixing between waters of various sources and evaluate what types of biological and chemical processes have occurred during the water's journey through the aquifer system.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: GEOL 418L, GEOL 818L, NRES 419L, NRES 819L, WATS 418L; GEOL 917, NRES 917

GEOL 818L Chemistry of Natural Waters Laboratory

Crosslisted with: GEOL 418L, NRES 419L, NRES 819L, WATS 418L

Prerequisites: CHEM 109 and 110 or CHEM 113 and 114; GEOL 418 or parallel.

Description: Basic laboratory techniques used to perform water analysis including various wet chemical techniques, instrument use (AA, IC, UV-Visible) and computer modeling. Techniques for sample collection and preservation, parameter estimation and chemical analysis.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

GEOL 819 Applications of Remote Sensing in Agriculture and Natural Resources

Crosslisted with: AGRO 419, GEOG 419, GEOL 419, NRES 420, AGRO 819, GEOG 819, NRES 820

Notes: GEOG 418/NRES 418 recommended

Description: Introduction to the practical uses of remote electromagnetic sensing in dealing with agricultural and water-resources issues.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Groups: Techniques

GEOL 821 Carbonate Petrology

Crosslisted with: GEOL 421

Prerequisites: GEOL 310.

Notes: Lab focuses on field, petrographic and geochemical methods.

Description: Depositional settings and processes, petrography, geochemistry, diagenesis and geological significance of modern and ancient carbonate rocks and sediments.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 823 Quaternary Paleoclimatology and Paleoecology**Crosslisted with:** BIOS 423, BIOS 823, GEOL 423**Prerequisites:** 12 hrs GEOL or BIOS.**Description:** Analysis and interpretation of the Quaternary period's paleoecological data. Patterns of long-term climate variation. Distribution patterns and responses of organisms and ecosystems to Quaternary environmental change.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 824 Biogeochemical Cycles****Crosslisted with:** BIOS 424, BIOS 824, GEOL 424**Prerequisites:** CHEM 109 or 113; 12 hrs GEOL or BIOS.**Description:** Chemical cycling at or near the earth's surface, emphasizing interactions among the atmosphere, biosphere, geosphere and hydrosphere. Modern processes, the geological record, and human impacts on elemental cycles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 825 Geostatistics****Crosslisted with:** NRES 825**Prerequisites:** MATH 106 and STAT 218**Notes:** Offered fall semester of odd-numbered calendar years.**Description:** Practical methods for solving spatial interpolation and related estimation problems with emphasis on geostatistical methods. Introduction to applied statistical simulation and prediction in geology, hydrogeology and environmental studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 828 Stratigraphic Architecture and Sequence Stratigraphy****Prerequisites:** GEOL 310**Description:** Analysis of stratigraphic stacking patterns in sedimentary basins and sequence stratigraphic methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 830 Quantitative Methods in Paleontology****Crosslisted with:** GEOL 430**Prerequisites:** GEOL 310.**Description:** Numerical and statistical analysis of paleontological data including biometry, syn-ecology, and quantitative biostratigraphy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 831 Micro-paleontology****Crosslisted with:** GEOL 431**Prerequisites:** GEOL 310.**Description:** Morphology, classification, ecology and geological application of common fossil and extant marine, brackish, and freshwater microfossils.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 835 Vertebrate Paleontology****Crosslisted with:** GEOL 435**Prerequisites:** Permission or graduate standing.**Description:** Survey of the evolution of the vertebrates, including the geological and biological factors that influence the pattern of evolution, and laboratory study of fossil materials of the major vertebrate groups.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 836 Evolution of Cenozoic Mammals****Crosslisted with:** GEOL 436, NRES 436, NRES 836**Prerequisites:** GEOL 103**Description:** Survey of mammalian evolution with emphasis on the origin, radiation, and phylogenetic relationships of Cenozoic fossil mammals. Overview of climatic and ecological changes affecting mammalian adaptations and hands on experience with specimens.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOL 935**GEOL 840 Tectonics****Crosslisted with:** GEOL 440**Prerequisites:** GEOL 400.**Description:** Theory of plate tectonics; tectonic controls on rock assemblages; interpretation of regional structure and tectonic history; origin and tectonic evolution of terrestrial planets.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 842 Environmental Geophysics I****Crosslisted with:** GEOL 442**Prerequisites:** MATH 107; PHYS 211; GEOL 101 or 106.**Description:** Introduction to the principles of seismic, ground-penetrating radar, and bore-hole geophysical methods and their application to groundwater, engineering, environmental, and archaeological investigations.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

GEOL 843 Environmental Geophysics II**Crosslisted with:** GEOL 443**Prerequisites:** MATH 107; PHYS 211; GEOL 101 or 106.**Description:** Introduction to principles of magnetic, electromagnetic, resistivity, and gravity methods and their application to ground water, engineering, environmental, and archaeological investigations.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**GEOL 844 Geomicrobiology****Crosslisted with:** BIOS 444, BIOS 844, GEOL 444**Prerequisites:** 3 hours of BIOS or 3 hours of LIFE; 3 hours of CHEM**Description:** Lectures and discussions of primary literature regarding microorganisms and their role transforming Earth through geologic time.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 845 Advanced Geophysics****Crosslisted with:** GEOL 445**Prerequisites:** GEOL 344**Description:** Integrative analysis of geophysical data (gravity, magnetics, seismic) with geological information (well logs, tectonic history, etc.)**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 846 Exploration Geophysics****Crosslisted with:** GEOL 446**Prerequisites:** GEOL 485**Description:** Geophysical methods used for petroleum exploration: potential fields, seismology, electrical and electromagnetic surveying.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 850 Surficial Processes and Landscape Evolution****Crosslisted with:** GEOL 450**Prerequisites:** GEOL 310.**Description:** Fluvial, glacial, eolian, and coastal processes and landforms. Roles of tectonics, climate, and climate change in landscape evolution. Lab stresses description and interpretation of landforms from remotely-sensed, cartographic, and field data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOL 465, GEOL 865, NRES 465, NRES 865**GEOL 851 Invertebrate Paleobiology****Crosslisted with:** GEOL 451, BIOS 451, BIOS 851**Prerequisites:** At least one of: GEOL 103, GEOL 105, LIFE 121**Description:** Overview of the key traits, relationships and evolutionary dynamics of invertebrate animals over Earth's history, particularly over the Phanerozoic (i.e., the last 540 million years). Emphasis on the use of invertebrate fossil record to test ideas about long term evolutionary patterns as well as learning the histories and basic anatomies of major invertebrate taxa.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**GEOL 857 Ecosystem Ecology****Crosslisted with:** BIOS 457, BIOS 857, GEOL 457**Prerequisites:** BIOS 207 and CHEM 110 and Senior standing**Description:** Processes controlling the cycling of energy and elements in ecosystems and how both plant and animal species influence them. Human-influenced global and local changes that alter these cycles and ecosystem functioning.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BSEN 954, NRES 954**GEOL 861 Soil Physics****Crosslisted with:** AGRO 461, GEOL 461, NRES 461, SOIL 461, WATS 461, AGRO 861, NRES 861**Prerequisites:** AGRO/SOIL 153; PHYS 141 or equivalent, one semester of calculus.**Description:** Principles of soil physics. Movement of water, air, heat, and solutes in soils. Water retention and movement, including infiltration and field water regime. Movement of chemicals in soils.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 955, AGRO 955, CIVE 955, GEOL 985**GEOL 865 Soil Geomorphology and Paleopedology****Crosslisted with:** GEOL 465, NRES 465, NRES 865**Prerequisites:** GEOL 450/850 and NRES 477/877.**Description:** Soils and paleosols as evidence in reconstruction landscape evolution and paleoenvironments. Role of paleosols in stratigraphy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 870 Field Techniques in Hydrogeology****Crosslisted with:** GEOL 470**Prerequisites:** GEOL 488/888.**Description:** Basic techniques, field procedures, instruments, and software for data interpretation, and characterization of groundwater flow and contaminant transport.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

GEOL 872 Water in Geosciences**Crosslisted with:** GEOL 472**Prerequisites:** MATH 106 and 107; PHYS 141; and one of the following: GEOL 101 or 106 or METR 100.**Description:** Quantitative approach to water in geological media, earth surface and atmosphere. Understanding and analysis of physical processes involved in groundwater-surface-atmosphere interactions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, MSYM 475, MSYM 875, POLS 475, POLS 875**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**GEOL 880 Economic Geology of the Metals****Crosslisted with:** GEOL 480**Prerequisites:** GEOL 400; CHEM 114, 221.**Description:** Occurrence and utilization of the metallic ores. Elementary theory of ore genesis.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**GEOL 884 Water Resources Seminar****Crosslisted with:** AGRO 484, GEOG 484, GEOL 484, NRES 484, WATS 484, NRES 884, AGRO 884, GEOG 884, WATS 884**Prerequisites:** Junior or above standing.**Description:** Seminar on current water resources research and issues in Nebraska and the region.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**GEOL 885 Fossil Fuel Geology and Exploration****Crosslisted with:** GEOL 485**Prerequisites:** GEOL 310.**Description:** Geology of coal, oil and gas, and methods of exploration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 888 Groundwater Geology****Crosslisted with:** GEOL 488, NRES 488, NRES 888**Prerequisites:** GEOL 100-level course; MATH 106 or equivalent.**Description:** Occurrence, movement, and development of water in the geologic environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGEN 955, AGRO 955, CIVE 955, GEOL 985; GEOL 470, GEOL 870; GEOL 889, NRES 887; GEOL 986; NRES 918**GEOL 889 Hydrogeology****Crosslisted with:** NRES 887**Prerequisites:** GEOL 888/NRES 488 and MATH 208**Description:** Principles of flow through porous media with emphasis on basic classical solutions, flow-net analysis, and elementary modern numerical solutions that aid in the analysis and development of groundwater supplies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOL 988; NRES 918**GEOL 895 Economic and Exploration Geology****Crosslisted with:** GEOL 495**Prerequisites:** GEOL 310.**Notes:** A required parallel course will be indicated by the instructor. Field trips which are required and supported by alumni endowment may be scheduled during semester breaks. Course content will vary on a 3-year rotational basis. Combined lectures, seminars, weekend short courses, and field trips.**Description:** E.F. Schramm Course in Economic Geology. Aspects of fossil fuel geology and exploration.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**GEOL 917 Environmental Isotope Hydrology****Crosslisted with:** NRES 917**Prerequisites:** NRES 819.**Description:** Theory and use of stable, radiogenic and radioactive isotopes in hydrologic studies. Abundance and variation of the stable isotopes of oxygen, hydrogen, carbon, sulphur, chlorine, nitrogen, and strontium. Application of the isotopes to determine water origin, movement, geochemical history, recharge age and residence time, and to delineate contaminant sources and solute migration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 918 Seminar in Geochemistry****Description:** Seminar in the study of geochemistry. Topics will vary.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

GEOL 919 Seminar in Mineralogy and Petrology

Description: Advanced seminar on the study of mineralogy and petrology. Topics will vary.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

GEOL 920 Seminar in Stratigraphy

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 921 Sedimentary Petrography and Diagenesis

Description: Study of sedimentary rocks under the microscope, including origin, composition, texture, and diagenesis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 922 Seminar in Sedimentary Environments

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 925 Seminar in Sedimentology

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 926 Marine Geology and Paleooceanography

Description: Geology of the oceanic realm, formation of oceanic crust, circulation, geochemistry, pelagic sediments and their diagenesis, correlation, and oceanic history.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 929 Mesozoic and Cenozoic Stratigraphy

Description: Application of stratigraphic principles and methods to the solution of Mesozoic and Cenozoic problems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GEOL 935 Cenozoic Vertebrate Paleocology

Prerequisites: GEOL 836

Description: Terrestrial vertebrate history during the Cenozoic Era with emphasis on the fossil record of Great Plains mammalian communities within the last fifteen million years.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 936 Siliceous Phytoplankton Paleontology

Description: Biostratigraphy, paleoecology, and paleobiogeography of fossil diatoms, silicoflagellates and ebridians.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

GEOL 937 Mesozoic Calcareous Nannofossil Paleontology

Description: Biostratigraphy, paleoecology, and paleobiogeography of Mesozoic calcareous nannofossils.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

GEOL 938 Cenozoic Calcareous Microfossil Paleontology

Description: Biostratigraphy, paleoecology, and paleobiogeography of Cenozoic calcareous nannofossils.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

GEOL 939 Seminar in Paleontology

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 940 Advanced Structural Geology

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

GEOL 945 Seminar in Structural Geology and Tectonics

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 956 Seminar in Quaternary Geology

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOL 957 Modeling Vadose Zone Hydrology**Crosslisted with:** AGEN 957, BSEN 957, CIVE 957**Prerequisites:** MATH 221/821 or equivalent. AGEN/BSEN 350 or NRES 453/853 or equivalent.**Notes:** Typically offered spring semester in even years.**Description:** Principles and modeling of fluid flow and solute transport in the vadose zone. Topics include hydraulic properties of variably saturated media, application of Darcy's Law in variably saturated media, hydrologic and transport processes in the vadose zone, and solution of steady and unsteady flow problems using numerical techniques including finite element methods. Contemporary vadose zone models will be applied to engineering flow and transport problems. Review and synthesis of classic and contemporary research literature on vadose zone hydrology will be embedded in the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**GEOL 985 Solute Movement in Soils****Crosslisted with:** AGEN 955, AGRO 955, CIVE 955**Prerequisites:** MATH 208; AGRO 861 or GEOL 888 or MSYM 852 or CIVE 858**Description:** Examination of the theory and experimental evidence available to characterize the movement of chemicals in soil. Both saturated and unsaturated flow conditions examined. Initial presentation of basic theoretical concepts. Remainder of class a discussion of the literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 986 Contaminant Hydrogeology****Prerequisites:** GEOL 888, MATH 208.**Description:** Occurrence, behavior and remediation of contamination in geological media. Fundamentals of physical, mathematical, chemical, and engineering processes affecting movement of contaminants in the hydrogeological environment and their applications. Teamwork, projects, seminar presentations, field trips and invited lectures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOL 987 Seminar in Hydrogeology****Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**GEOL 988 Introduction to Groundwater Modeling****Prerequisites:** GEOL 889, MATH 208 or equivalent, programming language.**Description:** Application of fundamentals of modeling techniques (analytical, semi-analytical, finite-difference and finite elements) to the solution of hydrogeological problems. Emphasis on development of model concepts for specific groundwater flow and transport conditions, selection of solution methods, including computer software and hardware, performance of computer modeling, and interpretation of results.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Geosciences (GEOS)

GEOS 810 Teaching & Learning in Post-Secondary Science Education**Prerequisites:** One semester of teaching a college level science, technology, engineering, or mathematics course.**Notes:** This course is designed for graduate students, postdoctoral researchers, and others who teach at the college level. Students may seek permission from instructor to enroll in the course concurrent with their first semester of teaching.**Description:** Integrate learning theories, pedagogy, and evidence-based practices to promote student learning in science, technology, engineering, and mathematics (STEM) courses in post-secondary education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GEOS 811 STEM Education Seminar****Crosslisted with:** NRES 841**Prerequisites:** Graduate student in a science, technology, engineering, or mathematics (STEM) discipline**Notes:** This seminar is designed for graduate students interested in STEM education in formal or informal environments with children or adult learners.**Description:** Acquire familiarity with the broad range of current STEM education research, outreach, and other activities taking place at UNL and across the nation in order to build a larger context for and connections to one's own STEM research and activities.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** RCT**GEOS 898 Special Problems in Geosciences****Prerequisites:** 12 hours geosciences**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** LEC

GEOS 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

GEOS 900 Professional Development in Geosciences

Description: Professional skills. Time management, laboratory and field safety, abstract writing, proposal writing, grantsmanship, and presentations. The philosophy and ethical conduct of science.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

GEOS 996 Research Other Than Thesis

Prerequisites: Permission

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

GEOS 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

German (GERM)

GERM 803 Advanced Syntax and Stylistics in German

Crosslisted with: GERM 403

Prerequisites: One of GERM 301, 302, 303 or 304.

Notes: Recommended for all German majors. See instructor if you believe an equivalent course(s) may count for prerequisite.

Description: Advanced syntax and style in their application to composition.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERM 804 Advanced Grammar and Composition in German

Crosslisted with: GERM 404

Prerequisites: One of GERM 301, 302, 303 or 304.

Notes: Recommended for all German majors. See instructor if you believe an equivalent course(s) may count for prerequisite.

Description: Advanced grammar study and its practical applications to writing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERM 805 Linguistics in German

Crosslisted with: GERM 405

Prerequisites: One of GERM 301, 302, 303 or 304.

Notes: See instructor if you believe an equivalent course(s) may count for prerequisite.

Description: Phonetics, phonemics, morphology, and transformational grammar as applied to standard German.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: GERM 810

GERM 807 History of the German Language

Crosslisted with: GERM 407

Prerequisites: One of GERM 301, 302, 303 or 304.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: GERM 929

GERM 809 Morphemics in German

Prerequisites: Permission

Description: Morphemic theory and its application to modern German.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERM 810 Applied Linguistics in German

Prerequisites: GERM 805 or permission

Notes: Recommended for graduate students in German.

Description: Application of linguistic theory to teaching or learning German as a second language.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERM 842 Survey of Medieval German Literature in Translation

Crosslisted with: GERM 442, MODL 442, MODL 842

Prerequisites: Permission.

Gerontology (GERO)

GERO 810 Educational Gerontology

Crosslisted with: GERO 410

Description: Introduction to the field of education for and about the aging. Institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 835 Issues in Aging

Crosslisted with: GERO 435

Prerequisites: Junior or senior standing.

Description: For students in gerontology and in other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

GERO 842 Recreation Therapy: Intervention for the Aging

Crosslisted with: GERO 442

Description: Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 846 Psychology of Adult Development and Aging

Crosslisted with: GERO 446, PSYC 446

Prerequisites: PSYC 181 or GERO 200.

Description: Major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change including their implications for behavior.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 847 Mental Health and Aging

Crosslisted with: GERO 447

Prerequisites: Junior or senior standing.

Description: Mental health needs of older adults. Identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 850 Legal Aspects of Aging

Crosslisted with: GERO 450

Description: Consideration of the legal concerns which are likely to arise as people age. Includes introduction to the American legal system and emphasis on underlying legal concepts and issues of special importance to older persons.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 851 Long-term Care Administration

Crosslisted with: GERO 451

Description: Investigation of the broad range of policy issues, theoretical concerns, and practical management strategies influencing the design, organization, and delivery of long-term care services.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 852 Senior Housing

Crosslisted with: GERO 452

Prerequisites: Junior/Senior Standing

Description: Provides an in-depth understanding of the various housing options available to older adults including aging in place to hospice. Gain a working knowledge of the needs of older adults and how this is used in making decisions about housing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 855 Health Aspects of Aging

Crosslisted with: GERO 455

Description: Psychological, sociological, and physiological factors that influence the health of the aging, with particular emphasis given to biological changes that have implications for disease and health disorders.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 859 Disorders of Communication in Older Adults

Crosslisted with: GERO 459

Description: Familiarizes the student with the identification and symptomology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. Beneficial to students majoring in gerontology, or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 867 Programs and Services for the Elderly**Crosslisted with:** GERO 467**Prerequisites:** Junior or senior standing.**Description:** Historical overview of programs for the elderly, to examine the national policy process as it relates to the older American, and to review the principles and practices relative to the existing national programs for the aged.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GERO 869 Working with Minority Elderly****Crosslisted with:** GERO 469**Prerequisites:** Junior or senior in gerontology or social work.**Description:** Interdisciplinary course designed to provide the student with knowledge of the differing status, attitudes, and experiences of the elderly within four major minority groups and to examine various service systems and practice models in terms of their relevance and effectiveness in meeting needs of minority elderly.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GERO 872 Baby Boomers and 21st century****Crosslisted with:** GERO 472**Description:** Marketing decisions and strategies apply to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**GERO 875 Mid-life Career Change and Pre-Retirement****Crosslisted with:** GERO 475**Description:** Examination of mid-life as it applies to the concept of second careers, existing resources, and the future of second careers; and the concept and practical implications of preretirement planning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GERO 885 Hospice and Other Services for the Dying Patient/Family****Crosslisted with:** GERO 485**Description:** Designed to involve students in the recognition of fears, concerns, and needs of dying patients and their families by examining the hospice concept and other services available in our community. Factual information, readings, professional presentations, films, and experiential exercises are offered to aid the student in understanding that hospice is an alternative to the traditional medical model so that when the "cure" system is no longer functional, then the "care" system, hospice, can be offered.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GERO 892 Special Studies in Gerontology****Crosslisted with:** GERO 492**Description:** Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics, or politics of aging, as well as operation of various service systems. May be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**GERO 894 Practicum****Crosslisted with:** GERO 494**Prerequisites:** 9 hrs gerontology and permission.**Description:** Opportunity for students to share field experiences; to obtain guidance concerning various relationships with agency, staff, and clients; and to develop a broadly based perspective of the field of aging.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** FLD**GERO 898 Counseling Skills in Gerontology****Crosslisted with:** GERO 498**Prerequisites:** Junior or senior standing.**Description:** Develops basic counseling skills for application in gerontology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**GERO 899 Masters Thesis****Prerequisites:** Permission**Description:** The thesis is written under the supervision of the thesis adviser and the thesis committee. Independent research project required of all students working toward the master of arts degree.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 99**Format:** IND

GERO 902 Graduate Seminar in Statistical Applications

Description: Provides an introduction to statistical methods and data management used in the social, behavioral and health sciences.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 911 Applied Social Gerontology

Description: Restricted to graduate students only; required of gerontology students. Social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GERO 946 Aging and Human Behavior

Description: Intended primarily for graduate students in psychology and gerontology. Age-related changes in psychological processes and the implications of these changes for behavior.

GRBA 898 Managerial Skills Seminar

Description: Seminar in current topics in business. Topical issues such as diversity, ethics, leadership, business communication, etc. New topics announced prior to each term in which the course is being offered.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 12

Format: LEC

Graduate College (GRDC)

GRDC 98 Responsible Research Training

Notes: Pass/No Pass only.

Description: Web-based course providing didactic training in the Responsible Conduct of Research (RCR) designed to meet the RCR training requirement specified by the National Science Foundation and specific programs at the National Institutes of Health.

Credit Hours: 0

Max credits per semester:

Max credits per degree:

Format: LEC

GRDC 900A Future Faculty I

Description: First course in a two-semester Preparing Future Faculty Program introducing advanced graduate students to various faculty roles. Seminar participants interact with faculty from surrounding campuses, prepare teaching portfolios, present job talks, and engage in mock interviews. They discuss teaching and research expectations, tenure and promotion standards, campus life, and faculty governance at different types of colleges and universities.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Prerequisite for: GRDC 900B; GRDC 900D

GRDC 900B Future Faculty II

Prerequisites: GRDC 900A

Notes: P/N. Second course in a two-semester Preparing Future Faculty Program introducing advanced graduate students to various faculty roles.

Description: Seminar participants interact with faculty from surrounding campuses, prepare teaching portfolios, present job talks, and engage in mock interviews. They discuss teaching and research expectations, tenure and promotion standards, campus life, and faculty governance at different types of colleges and universities.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Prerequisite for: GRDC 900D

GRDC 900D Future Faculty III

Prerequisites: GRDC 900A and 900B

Notes: P/N only. Third course in a three-semester sequence, Preparing Future Faculty program that introduces advanced graduate students to various faculty roles and to the use of technology in college instruction.

Description: Participants develop instructional technology applications and are mentored in the delivery of distance education.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

GRDC 901 Professional Ethics

Prerequisites: Permission

Description: Major ethical issues in the conduct of research and teaching. Topics identified by the National Academy of Science as critical to responsible research: the acquisition and maintenance of research data, including issues of informed consent and rules about safety and animal use; responsible reporting of research, including authorship issues, duplicate and fragmented publication, and reporting in the public media; peer review, including issues of confidentiality and conflict of interest; and the ethical training and supervision of students, including the assignment of mentors, appropriate supervision and fair performance evaluation, and the avoidance of exploitation.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

GRDC 902 Grant Writing and Grant Management

Prerequisites: Permission

Notes: P/N only.

Description: Tips for writing successful grants, for identifying funding sources, and for making effective use of program officers. Core issues in grant management, including issues related to IRB review and approval, development of a budget and matching fund requests, and reporting responsibilities. Students develop and refine a submittable dissertation research proposal.

HIST 876A Gender and Sexuality in Latin America**Crosslisted with:** HIST 476A, ETHN 476A, WMNS 476A, WMNS 876A**Prerequisites:** Junior standing.**Description:** Experience of femininity and masculinity compared according to time and place, revealing the intimate connections with nation, modernity, race, and ethnicity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 876B Race in Modern Latin America****Crosslisted with:** HIST 476B, ETHN 476B**Prerequisites:** Junior standing.**Description:** The experience of race and ethnicity in the 20th and 21st centuries compared according to time and place, revealing the intimate connections with nation and modernity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 877 Indigenous Peoples of the World****Crosslisted with:** ETHN 477, HIST 477**Prerequisites:** Junior standing.**Description:** Indigenous peoples worldwide and current issues concerning them. Tribal sovereignty, territorial conflicts, globalization, ecosystem destruction, human rights, and the World Indigenous Movement.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 878 Pro-seminar in Latin American Studies****Crosslisted with:** ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, ANTH 878, GEOG 878, POLS 878, SOCI 878, MODL 878, EDPS 878**Prerequisites:** Junior standing and permission.**Notes:** Topical seminar required for all Latin American Studies majors.**Description:** An interdisciplinary analysis of topical issues in Latin American Studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**Groups:** Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research**HIST 879 Pro-seminar in International Relations I****Crosslisted with:** ECON 466, POLS 466, POLS 866, AECN 467, ANTH 479, ANTH 879, ECON 866, GEOG 448, GEOG 848, HIST 479, SOCI 466, SOCI 866**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations.**Description:** Topic varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar Integrative Courses, Research Variable group based on topic Comp Intrntnl & Reg Developmnt Human-Economic Geography**HIST 881 History of Premodern Japan****Crosslisted with:** HIST 381**Prerequisites:** Sophomore, junior, or senior standing.**Notes:** Pre-1800 content.**Description:** Analysis of premodern Japanese society with emphasis on institutional and cultural developments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist Pre-1800 History**HIST 882 History of Modern Japan****Crosslisted with:** HIST 382**Prerequisites:** Sophomore, junior, or senior standing.**Description:** Establishment of a modern state; foundations of economic power; liberalism and oligarchical rule; militarism; post-World War II developments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 883 History of Premodern China****Crosslisted with:** HIST 383**Prerequisites:** Sophomore, junior, or senior standing.**Notes:** Pre-1800 content.**Description:** History of China to 1800 with emphasis on intellectual history (Confucianism, Taoism, Buddhism, Neo-Confucianism) and the political, economic, and social development of the Chinese empire (221 BC to 1800 AD).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** HIST 380**Groups:** Pre-1800 History Lat Am,Asian,Middle East Hist

HIST 886 History of South Africa**Crosslisted with:** ETHN 486, HIST 486**Prerequisites:** Junior standing.**Description:** Survey of the history of South Africa from the Stone Age to the evolution of the political, economic, legal and social framework of apartheid, and the recent efforts to achieve political accommodation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 890 Topics in World History****Crosslisted with:** HIST 490**Prerequisites:** Junior standing.**Description:** Topic varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**HIST 894 Directed Readings****Prerequisites:** Permission**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**HIST 895 Internship in Digital Humanities****Crosslisted with:** MODL 895, ENGL 895E**Description:** Active participation in an ongoing digital humanities project in the Center for Digital Research in the Humanities, including weekly meetings designed to build technical and project management skills.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HIST 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**HIST 900 Introduction to Historical Study****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**HIST 918 Interdisciplinary Seminar in Nineteenth-Century Studies****Crosslisted with:** ENGL 918, MODL 918**Description:** Invention of the nineteenth century, gender, colonialism, class, realism science and technology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**HIST 919 Interdisciplinary Approaches to the Nineteenth Century****Crosslisted with:** ENGL 919, MODL 919**Description:** Introduction to the nineteenth century in North America (focusing on the US), Great Britain, and Europe (focusing on France, Germany, Russia, and Spain), organized through themes such as constructions of gender and sexuality, democracy in the nation-state, and challenges to religion.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HIST 931 Readings and Problems in Pre-Modern European History****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**HIST 933 Readings and Problems in Recent European History****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**HIST 941 Readings and Problems in American History Before 1877****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**HIST 943 Readings and Problems in American History since 1877****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HIST 946 Interdisciplinary Readings in Digital Humanities****Crosslisted with:** MODL 946, ENGL 946, ANTH 946**Description:** Methods, theories, and practices of digital humanities scholarship.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HIST 950 Graduate Seminar in Reading and Writing History****Description:** Leads students through intensive primary source research and writing project on historical topic of student's choice. Letter grade only.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**HIST 951 History of Women and Gender****Crosslisted with:** WMNS 951**Description:** A comparative approach, offering readings on a central theme from a variety of periods and/or areas. Themes vary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

HIST 953 Comparative Topics and Approaches in History

Description: Exploration of particular topics or approaches to history across multiple time frames and geographical areas. Topics and approaches will vary depending on professor's area of expertise. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 961 Readings and Problems in World History

Description: Explores major transformations that shaped world history from late medieval to modern eras. Examines ecological, economic, political, and cultural perspectives. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 963 Reading and Problems in Non-Western History

Description: Introduction to major problems and debate in non-Western history. Rotates among faculty who specialize in African, Asian, Latin American, and Middle Eastern history. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 970 Seminar in Digital History

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 983 Readings and Problems in Race, Ethnicity, and Identity in History

Crosslisted with: ETHN 983

Description: Engages with recent and classic scholarship on race, ethnicity, and identity, primarily in American history. Covers new comparative and transnational scholarship. May emphasize different themes and readings depending on area of expertise of faculty. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 985 Readings and Problems in German and Central European History

Crosslisted with: GERM 985

Description: Examines recent and classic scholarship on German and Central European History. Covers different periods, topics, and regions depending on professor's expertise. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 987 Readings and Problems in 20th-Century International History

Crosslisted with: POLS 987

Description: Provides a foundational understanding of major developments in the 20th century, including colonialism and decolonization, great-power conflicts, world economy, and role of ideology. Incorporates perspectives of international relations, world history, and transnational history. Letter grade only.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 988 Introduction to the Interdisciplinary Study of the Middle Ages

Crosslisted with: AHIS 988, ENGL 988, MODL 988, MUSC 988

Description: Methods and state of research in the disciplines—art, music, literature, language, history, philosophy—dealing with the Middle Ages. Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 989 Introduction to the Interdisciplinary Study of the Renaissance

Crosslisted with: AHIS 989, ENGL 989, MODL 989, MUSC 989

Description: Methods and state of research in the disciplines—art, music, literature, language, history, philosophy—dealing with the Renaissance. Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 990 Seminar in Special Problems of Teaching History

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

HIST 991 Readings and Problems in the History of the North American West

Crosslisted with: GPSP 991

Description: History of the North American West with special attention to Great Plains. Past and present historiography; modern themes and methodologies; and topical and comparative historical treatments.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 993 Press Internship

Prerequisites: Permission of the Graduate Chair in History.

Notes: Work in HIST 993 is to be supervised by the History Acquisitions editor at the University of Nebraska Press. HIST 993 is Pass/No Pass only.

Description: Internship at the University of Nebraska Press.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: FLD

HIST 995 History Practicum

Description: Allows graduate students to volunteer or intern at a museum, archive, historical society, or other history-related organization. Pass/No Pass only.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HIST 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Horticulture (HORT)

HORT 801 Biology of Plant Pathogens

Crosslisted with: PLPT 801, AGRO 801

Prerequisites: PLPT 369 or equivalent

Description: Molecular and cellular approach to the study of plant pathological principles.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PLPT 866; PLPT 965, AGRO 965, HORT 965

HORT 802 Ecology and Management of Plant Pathogens

Crosslisted with: PLPT 802, AGRO 802

Prerequisites: PLPT 369 or equivalent; an introduction to biochemistry course

Description: Principles of plant disease epidemiology and disease control through cultural, biological, chemical and host plant resistance strategies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PLPT 866; PLPT 965, AGRO 965, HORT 965

HORT 803 Scientific Writing and Communication

Crosslisted with: AGRO 403, AGRO 803, HORT 403

Prerequisites: Senior standing or higher, an ACE 1 written communication course, an ACE 2 oral communication course, and permission of instructor.

Description: Reading and critiquing, writing, and presenting scientific information. Use research data to compose a manuscript in standard scientific format, and prepare and present a poster to a general audience. Ethical issues in research and writing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 806 Plant Ecophysiology: Theory and Practice

Crosslisted with: AGRO 806, HORT 406, NRES 406, NRES 806, AGRO 406

Prerequisites: Junior standing; 4 hrs ecology; and 4 hrs botany or plant physiology.

Description: Principles of plant physiology which underlie the relationship between plants and their physical, chemical and biotic environments. An introduction to the ecological niche, limiting factors and adaptation. An overview of the seed germination and ecology, plant and soil water relations, nutrients, plant energy budgets, photosynthesis, carbon balance and plant-animal interactions. An introduction to various field equipment used in ecophysiological studies.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

HORT 807 Bio-Atmospheric Instrumentation

Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, AGRO 869, GEOG 869, METR 869, MSYM 869, NRES 869

Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.

Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Physical Geography

HORT 808 Microclimate: The Biological Environment

Crosslisted with: AGRO 408, GEOG 408, HORT 408, METR 408, NRES 408, WATS 408, AGRO 808, GEOG 808, METR 808, NRES 808

Prerequisites: Junior standing, MATH 106 or equivalent, 5 hrs physics, major in any of the physical or biological sciences or engineering.

Description: Physical factors that create the biological environment. Radiation and energy balances of earth's surfaces, terrestrial and marine. Temperature, humidity, and wind regimes near the surface. Control of the physical environment through irrigation, windbreaks, frost protection, manipulation of light, and radiation. Applications to air pollution research. Instruments for measuring environmental conditions and remote sensing of the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGRO 907, HORT 907, METR 907, NRES 907; BSEN 954, NRES 954

Groups: Physical Geography

HORT 809A Case studies in plant breeding: Breeding for Disease Resistance

Crosslisted with: AGRO 409A, AGRO 809A, HORT 409A

Description: The application of fundamental genetics principles in inheritance, gene mapping and DNA analysis to decision making by plant breeders with the goal of improving disease resistance in crop cultivars. Learning is structured by the genetics discovery story told in published research articles and the thinking process of plant breeders who will use these discoveries in their work.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

HORT 809B Case Studies in plant breeding: Transgenic strategies for disease resistance

Crosslisted with: AGRO 409B, AGRO 809B, HORT 409B

Description: The application of basic science and technology by plant genetic engineering experts with the goal of teaming with plant breeders to improve disease resistance in crop cultivars. Learning is structured by the genetics discovery story told in published research articles and the thinking process of genetic engineers and plant breeders who will use these discoveries in their work.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

HORT 810 Plant Molecular Biology

Crosslisted with: AGRO 810, BIOC 810

Prerequisites: AGRO 215 or BIOS 206; BIOC 831

Description: Molecular genetic basis of biological function in higher plants. Genome organization, gene structure and function, regulation of gene expression, recombinant DNA, and genetic engineering principles. Material taken primarily from current literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

HORT 811 Plant Tissue Culture

Crosslisted with: BIOS 811, NRES 811

Description: Survey of techniques used in plant cell, tissue and organ culture, including current research. Laboratory emphasizes practical manipulation of plant cells, tissues, and organs, including examples from woody and herbaceous plant species.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

HORT 812 Landscape Ecology

Crosslisted with: NRES 810

Prerequisites: 12 hrs biological sciences or related fields including BIOS 320

Description: Spatial arrangements of ecosystems, the interaction among component ecosystems through the flow of energy, materials and organisms, and alteration of this structure through natural or anthropogenic forces.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 813 Turfgrass and Landscape Weed Management

Crosslisted with: AGRO 813, TLMT 813

Description: Fundamental terminology associated with turfgrass and landscape weed management. Weed identification and the cultural practices and herbicide strategies to limit weed invasion and persistence.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

HORT 814 Turfgrass Disease Management

Crosslisted with: AGRO 414, AGRO 814, HORT 414, PLPT 414, PLPT 814, TLMT 414, TLMT 814

Prerequisites: BIOS/PLPT 369 or one semester of introductory plant pathology.

Description: Pathogens, epidemiology, and control of diseases specific to turfgrass.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

HORT 817 Plant Pathology Principles and Application

Crosslisted with: PLPT 817, AGRO 817

Prerequisites: 12 hours of prior coursework in the plant sciences
Description: Introduction to the biology of plant pathogenic organisms; pathogen-plant interactions; environmental influences; cultural, resistance, and chemical strategies for plant disease management.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 818 Agroforestry Systems in Sustainable Agriculture**Crosslisted with:** HORT 418, NRES 417, NRES 817**Prerequisites:** 12 hours biological or agricultural sciences.**Description:** The roles of woody plants in sustainable agricultural systems of temperate regions. Emphasis on the ecological and economic benefits of trees and shrubs in the agricultural landscape. Topics include: habitat diversity and biological control; shelterbelts structure, function, benefits and design; intercropping systems; silvopastoral systems; riparian systems; and production of timber and specialty crops. Comparison of temperate agroforestry systems to those of tropical areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 821 Learning Biotechnology****Crosslisted with:** AGRO 821**Description:** Investigate biotechnology and its application in solving problems and connect biotechnology to basic science concepts in biology and chemistry. Integrate individually-designed biotechnology lessons into learning standards.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 822 Integrated Weed Management****Crosslisted with:** AGRO 822**Prerequisites:** 12 hrs AGRO and/or closely related HORT and/or BIOS**Description:** Principles and application of (IWM). Noxious and invasive weed species. Crops and weed control. Plant population shifts. Use of herbicides and the biologically effective dose. Critical period of weed control and weed threshold. Herbicide tolerant crops.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**HORT 824 Plant Nutrition and Nutrient Management****Crosslisted with:** AGRO 824**Prerequisites:** AGRO 325 or basic course in plant physiology. A course in organic chemistry or biochemistry recommended**Notes:** Offered spring semesters.**Description:** Macro and micro nutrient elements and their function in the growth and development of plants. Role of single elements. Interaction and/or balances between elements and nutrient deficiency and/or toxicity symptoms as they affect the physiology of the whole plant. Relationship between crop nutrition and production and/or environmental considerations (e.g. yield, drought, temperature, pests).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 826 Invasive Plants****Crosslisted with:** AGRO 426, AGRO 826, HORT 426, NRES 426, NRES 826**Prerequisites:** AGRO/HORT/SOIL 153; AGRO/HORT 131**Description:** Identification, biology and ecology of weedy and invasive plants. Principles of invasive plant management by preventative, cultural, biological, mechanical and chemical means using an adaptive management framework. Herbicide terminology and classification, plant-herbicide and soil-herbicide interactions, equipment calibration and dosage calculations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**HORT 827 Turfgrass Systems Management****Crosslisted with:** AGRO 427, HORT 427, TLMT 427, AGRO 827, TLMT 827**Prerequisites:** TLMT 227 and TLMT 327**Description:** Critical evaluation of turfgrass settings to create economical and environmentally friendly management systems for professionally managed turf areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 828 Scientific Illustration****Crosslisted with:** ENTO 828, AGRI 828, AGRO 828**Prerequisites:** 12 hrs agricultural and/or biological sciences.**Description:** Prepare scientifically accurate, high quality illustrations and graphics for the teaching, presentation, and publication of scientific information. Drawing techniques, drafting, copyright, and publication and presentation of scientific art work.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 829A Food Security: A Global Perspective****Crosslisted with:** ANTH 429A, ANTH 829A, AGRO 429A, AGRO 829A, HORT 429A, NRES 429A, NRES 829A, NUTR 429A, NUTR 829A**Prerequisites:** Junior standing**Description:** Overview of the technical and sociocultural dimensions of global food insecurity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 832 Learning Plant Science****Crosslisted with:** AGRO 832**Description:** The biology of plants grown for food, fiber, fuel and fun. Connect applied plant science to basic science concepts in biology and chemistry. Integrate individually-designed plant science lessons into learning standards.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

HORT 836 Agroecosystems Analysis**Crosslisted with:** AGRO 436, AGRO 836, HORT 436**Prerequisites:** Senior standing.**Notes:** Cost of travel required. Summer travel course with multi-state faculty. Farm visits to Iowa, Minnesota and Nebraska.**Description:** Analysis of production, economics, environmental impacts, and social integration aspects of farms and farming systems**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**HORT 839 Organic Farming and Food Systems****Crosslisted with:** AGRO 839, AGRO 439, HORT 439**Prerequisites:** Admission to the MS or PhD program**Description:** History of organic farming and horticultural systems, organic certification, nutrient and pest management in organic systems, planning organic enterprises including production and marketing, resilience of organic systems in ecological, economic, and social terms; future issues and potentials of organic food systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 840 Turfgrass and Landscape Integrated Pest Management****Crosslisted with:** TLMT 840**Description:** Principles of turfgrass and landscape plant pest management and tools to implement Integrated Pest Management (IPM) approaches. Creating healthy landscapes and effectiveness of IPM alternatives.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**HORT 841 Perennial Plant Function, Growth, and Development****Crosslisted with:** AGRO 441, AGRO 841, HORT 441, RNGE 441, GRAS 441**Prerequisites:** AGRO 325 or equivalent.**Description:** Principles of crop physiology and developmental morphology in relation to function, growth, development, and survival of perennial forage, range, and turf plants. The relationship of physiology and morphological development on plant use and management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**HORT 842A Plant Pathology****Description:** Survey of the principles and practice of plant pathology.

The main and genetic elements in plant disease will be covered. Many of the major diseases, as well as their causes and effects, will be surveyed.

Course is taught by faculty from the University of Nebraska-Kearney, and will be offered in the spring semester of even-numbered calendar years. To enroll, students must be accepted into the horticulture graduate certificate program or get permission.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 842B Plant Physiology****Description:** Life processes of plants, with an emphasis on water relations and hormonal and stress physiology. Includes fundamental concepts underlying the science of crop physiology, including crop phenology, canopy development and light interception, photosynthesis and respiration, and dry matter partitioning. Course is taught by faculty from the University of Nebraska-Kearney, and will be offered in the fall semester of even-numbered calendar years. To enroll, students must be accepted into the horticulture graduate certificate program or get permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 842E Floral Crops Production and Handling****Prerequisites:** Admission to the Horticulture graduate certificate program; and permission**Notes:** Distance education course delivered by Kansas State University.

HORT 842E is offered spring semester of even-numbered calendar years.

Description: Principles and commercial practices for producing floral potted crops and cut flowers and the physical responses of plants to their environment. Aspects of post harvest physiology.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**HORT 842J Water Issues in Lawn and Landscape****Prerequisites:** Admission to the Horticulture graduate certificate program; and permission**Notes:** Distance education course delivered by Kansas State University.

Hort 842J is offered spring semesters.

Description: Critical water issues related to irrigation in urbanizing watersheds and water quality and quantity. Factors impacting water scarcity and quality. Interrelatedness of correct irrigation practices and water quality/quantity and equip students to protect water resources through application of science-based irrigation practices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 843A Greenhouse Crop Production****Prerequisites:** Admission to the Horticulture graduate certificate program; and permission**Notes:** Distance education course delivered by Texas Tech University.

Hort 843A is offered spring semester of odd-numbered calendar years.

Description: Introduction to the concepts of greenhouse construction, operation and management for a variety of horticultural crops, with an emphasis on ornamental crops. Greenhouse construction, heating, cooling, growing media, pest management, nutrition, fertility, growth regulation, irrigation, post-harvest handling, and marketing of greenhouse crops.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

HORT 843B Seed Sciences

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by Texas Tech University. HORT 843B is offered spring semester of even-number calendar years.

Description: Seed morphology, anatomy, and chemistry. Germination, emergence, and dormancy processes in seed, as well as various quality aspects including vigor, longevity, and deterioration. Discussion of genetically engineered seeds and other current topics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 843E Advanced Interiorscaping

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by Texas Tech University. HORT 843E is offered spring semester of even-numbered calendar years.

Description: Physiological principles and industry practices in the production, moving, care, and maintenance of interior plants. Career tools to design, install and maintain interior plant-scapes. Review of pertinent literature and class exercises designed to improve skills and knowledge of interior plant physiology, care and maintenance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 843J Herbicide Action

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by Texas Tech University. HORT 843J is offered spring semester of odd-numbered calendar years.

Description: Familiarize advanced students with current state of knowledge on herbicide modes and mechanisms of action and recent developments by industry and universities in plant physiology. Integration of plant pathology, plant physiology, biochemistry, plant breeding, and principles of weed science as they relate to herbicide modes and mechanisms of action.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

HORT 843K Advanced Arboriculture

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by Texas Tech University. HORT 843K is offered fall semester of odd-numbered calendar years.

Description: Physiological principles and industry practices in the production, moving, care, and maintenance of ornamental trees, shrubs, and ground covers. Provides career tools for installation and maintenance woody plants.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 843M Weed Science

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by Texas Tech University. HORT 843M is offered fall semester of odd-numbered calendar years.

Description: Weeds and weed control methods in agronomic and horticultural crops and turf grass with chemical weed control. History of weed control, weed characteristics, weed competition, and methods of weed control including mechanical, cultural, biological, and chemical. Discussion of herbicides by family with regard to chemical structure, efficacy, mode and mechanism of action, crop selectivity, soil activity and persistence, and cost.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

HORT 844A Environmental Nursery Production Practices

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by North Carolina State University. HORT 844A is offered spring semester of odd-numbered calendar years.

Description: Cultural nursery crop production practices presented in consideration of current best management practices, conservation of resources, scientific research-based investigations related to nursery cultural practices, potential risks to nursery personnel, and off-site movement of airborne materials and effluents to surrounding areas and public watersheds.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 844B Environmental Stress Physiology

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by North Carolina State University. HORT 844B is offered spring semester every year and fall semester of even-numbered calendar years.

Description: Physiology of plant responses to environmental stresses, with emphasis on current research in selected physiological, molecular, and biochemical mechanisms for tolerance to environmental stresses, such as temperature extremes, drought, salt, pathogens and other plants.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

HORT 844E General Viticulture

Prerequisites: Admission to the Horticulture graduate certificate program; and permission

Notes: Distance education course delivered by North Carolina State University. HORT 844E is offered spring semester of odd-numbered calendar years.

Description: Aspects of grapes from vine anatomy to final products. Cultivars, propagation, canopy management, diseases, weed control, physiology, anatomy, irrigation, wine production, climates and soils.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

HORT 849 Woody Plant Growth and Development**Crosslisted with:** BIOS 849, NRES 849**Prerequisites:** CHEM 251 and AGRO 325**Description:** Plant growth and development specifically of woody plants as viewed from an applied whole-plant physiological level. Plant growth regulators, structure and secondary growth characteristics of woody plants, juvenility, senescence, abscission and dormancy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 871 Vines, Wines and You****Crosslisted with:** HORT 471, NUTR 471, NUTR 871, HRTM 471, HRTM 871**Prerequisites:** 6 hrs science or equivalent experience; 21 years of age or older**Notes:** Proof of age is required.**Description:** Origin, botany, historical and cultural significance of the grapevine and related species. Principles and practices of vineyard establishment, management and processing of grape products, importance and/or scope of grape and wine industry; global and local significance. Culinary applications, health, environmental and safety-related issues, business and industry relations and experience.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 878 Plant Anatomy****Crosslisted with:** BIOS 478, BIOS 878, AGRO 478, AGRO 878, HORT 478**Prerequisites:** 8 hrs biological sciences**Notes:** BIOS 109 recommended.**Description:** Development, structure, and function of tissues and organs of the higher plants. Relationships of structure to physiology and ecology of plants.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** BIOS 879**HORT 880 Modified Rootzones****Crosslisted with:** AGRO 480, HORT 480, TLMT 480, TLMT 880, AGRO 880**Notes:** Offered as a five-week course.**Description:** Modified rootzones and their applications in the turfgrass and landscape management industry. Correct applications and construction techniques.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**HORT 888 Entrepreneurship and Enterprise Development****Crosslisted with:** HORT 488, EAEP 488, AGRO 488, ENTR 488, EAEP 888, AGRO 888, ENTR 888, ABUS 488**Description:** The process of starting your own enterprise. Competitive environment, risk management, finance for business startups, funding, and business plan writing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**HORT 889 Urbanization of Rural Landscapes****Crosslisted with:** AGRO 489, AGRO 889, CRPL 489, HORT 489, CRPL 889**Prerequisites:** Senior standing or graduate standing.**Description:** Development converts rural landscapes into housing, roads, malls, parks, and commercial uses. This process fragments landscapes and changes ecosystem functions, drives up land prices, and pushes agriculture into more marginal areas. This multi-disciplinary, experiential course guides students in learning about the urbanization process, the impacts on landscapes, people, and the community, and the choices that are available to informed citizens.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 894 Graduate Degree Project Credits****Crosslisted with:** AGRO 894**Prerequisites:** Admission to Master of Agronomy or Horticulture degree program**Notes:** Project activity for the nonthesis option II MS degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**HORT 896 Independent Study****Prerequisites:** 12 hrs plant sciences, permission and advance approval of plan of work**Description:** Individual or group projects in research and literature review under supervision and evaluation of a departmental faculty member.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**HORT 897 Master of Applied Science Project****Crosslisted with:** AGRI 897, AGRO 897, NRES 897**Prerequisites:** Admission to Master of Applied Science degree program**Notes:** Project activity for the Master of Applied Science degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**HORT 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND

HORT 907 Agricultural Climatology**Crosslisted with:** AGRO 907, METR 907, NRES 907**Prerequisites:** NRES 808; STAT 801A or equivalent**Description:** Offered spring semester of odd-numbered calendar years. Analysis and use of climatological data as applied to agricultural activities and the use of climatological information to assist in decision making.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 919 Plant Genetics****Crosslisted with:** AGRO 919**Prerequisites:** AGRO 215**Description:** Focus student learning on principles related to mendelian, population, and molecular genetics of plants including allelisms, nonallelic gene interaction, linkage and recombination, mode of inheritance, mutation, epigenetics, DNA-based markers and mapping techniques, inheritance of qualitative and quantitative traits, and plant transformation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 920 Xenobiotics in the Environment****Crosslisted with:** AGRO 920, ENTO 920, EOHT 920, NRES 920**Prerequisites:** Recommend one course each in organic chemistry, soil science, biochemistry, plant physiology, microbiology and ecology**Description:** Fate and ecotoxicological impacts of biologically foreign compounds in soil-water-plant environments; uptake, mechanisms of toxicity and metabolism in plants and other biota. Herbicides and other pesticides.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 931 Population Genetics****Crosslisted with:** AGRO 931, ASCI 931**Prerequisites:** AGRO 215 and STAT 801A**Description:** Structure of populations, forces affecting gene frequency and frequency of genotypes, continuous variation, population values and means, genotypic and environmental variances and covariances.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGRO 932, STAT 847; ASCI 932; ASCI 933; ASCI 944, STAT 844**HORT 963 Genetics of Host-Parasite Interaction****Crosslisted with:** AGRO 963, PLPT 963**Prerequisites:** BIOS 820; and permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HORT 965 Plant Virology****Crosslisted with:** PLPT 965, AGRO 965**Prerequisites:** PLPT 801 or 802; and permission.**Notes:** PLPT 865 is offered odd-numbered calendar years.**Description:** Virus molecular biology; virosphere; virus-vector relationships; plant resistance to virus infection economic impact and control of plant diseases by viruses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**HORT 968 Seminar in Plant Pathology****Crosslisted with:** PLPT 968, AGRO 968**Prerequisites:** Permission**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**HORT 991 Seminar Presentation and Evaluation****Crosslisted with:** AGRO 991**Description:** Various topics in horticulture, agronomy or related subjects. Emphasis on techniques.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 2**Format:** LEC**HORT 992 General Seminar****Crosslisted with:** AGRO 992, NRES 992**Notes:** Agronomy and Horticulture PhD students should enroll in this course twice.**Description:** Expected of all Agronomy and Horticulture graduate students. Presentation of thesis/dissertation or non-thesis topics in agronomy, horticulture or related subjects. Agronomy and Horticulture PhD students should enroll in this course twice.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 5**Format:** LEC**HORT 996 Research Other Than Thesis****Prerequisites:** Permission**Description:** Investigations, without reference to thesis work, on genetic, physiological, ecological, meteorological, and morphological aspects of horticultural crops.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND

HORT 999 Doctoral Dissertation**Crosslisted with:** AGRO 999**Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair.**Notes:** AGRO 999 is pass/no pass only.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Hospitality, Restaurant and Tourism Management (HRTM)

HRTM 871 Vines, Wines and You**Crosslisted with:** HORT 471, HORT 871, NUTR 471, NUTR 871, HRTM 471**Prerequisites:** 6 hrs science or equivalent experience; 21 years of age or older**Notes:** Proof of age is required.**Description:** Origin, botany, historical and cultural significance of the grapevine and related species. Principles and practices of vineyard establishment, management and processing of grape products, importance and/or scope of grape and wine industry; global and local significance. Culinary applications, health, environmental and safety-related issues, business and industry relations and experience.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 874 Food and Beverage Management****Crosslisted with:** HRTM 474**Prerequisites:** HRTM 274 or equivalent**Notes:** Letter Grade only**Description:** Functioning and operation of food-service units. Principles of food and beverage management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 875 Club Management****Crosslisted with:** HRTM 475**Prerequisites:** HRTM 171 or PGAM Major.**Description:** The operation and management of private and public clubs. Topics include: the general manager concept, organizational structure of clubs, board of directors, membership requirements, equity and non-equity clubs, tax-exempt clubs and non-tax-exempt clubs, duties and responsibilities of department heads in clubs, governmental regulations, the future of clubs, and their relationship to the hospitality industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 876 Internship in Hospitality Management****Crosslisted with:** HRTM 476**Prerequisites:** HRTM 397 and permission of the Hospitality Management Committee.**Notes:** Requires a total of 400 hours of full-time experience. Letter Grade only.**Description:** Approved professional experience as an entry-level manager in the hospitality industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**HRTM 880 Advanced Tourism****Crosslisted with:** HRTM 480**Prerequisites:** HRTM 280**Description:** Introduction to the integrated and sustainable development approach in tourism. Explore the background of and approaches to tourism planning, historical and contemporary development of tourism, as well as the concepts and components of the planning process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**HRTM 881 Legal Environment in Hospitality Management****Crosslisted with:** HRTM 481**Prerequisites:** Senior standing; HRTM major or minor**Notes:** Letter grade only.**Description:** Laws and regulations affecting the hospitality industry.

Recognition of potential legal hazards, correcting hazardous situations, and reacting in unforeseen circumstances.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 883 Hospitality Finance****Crosslisted with:** HRTM 483**Prerequisites:** Senior standing; Major or minor in HRTM; HRTM 310**Notes:** Letter grade only.**Description:** Introduction to basic skills of financial management in a hospitality industry setting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 884 Human Resources Management in the Hospitality Industry****Crosslisted with:** HRTM 484**Prerequisites:** HRTM Major or Minor and Junior Standing.**Description:** Study of management and human resource systems common in the hospitality industry. Case studies, role plays, and simulations are used to examine management and human resource problems unique to the hospitality industry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

HRTM 885 Advanced Lodging Operations**Crosslisted with:** HRTM 485**Prerequisites:** HRTM 285**Notes:** Requires field trips to local lodging facilities. Letter Grade only.**Description:** Senior management techniques required to operate a lodging facility applying strategic and critical thinking with case study analysis to solve problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 889 Advanced Event Operations****Crosslisted with:** HRTM 489**Prerequisites:** HRTM 289**Notes:** Requires field trips to local conference and meeting centers. Letter Grade only.**Description:** The management and operation of events. Design, marketing, and promotion efforts. Identifying sponsors. Marketing to attendees, exhibitors, and other participants.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HRTM 895 Hospitality Management Study Tour****Crosslisted with:** HRTM 495**Notes:** Number of credits hours earned is determined by tour length, assignments, and sites visited. Requires off-campus travel.**Description:** Broadening perspective and developing an understanding of the hospitality industry through visits. Tours to hospitality facilities, national food and equipment shows; food processors; equipment manufacturers; and trade exchanges.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** FLD**HRTM 896 Independent Study****Crosslisted with:** HRTM 496**Prerequisites:** 12 hrs HRTM**Notes:** Requires a contract with an individual HRTM faculty member in HRTM. Letter grade only.**Description:** Individual projects in research, literature review, and/or creative activity.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** IND

Human Sciences (HUMS)

HUMS 865 International Perspectives of Human Sciences**Prerequisites:** 9 hours of human sciences classes**Description:** Cross-cultural interdisciplinary perspectives of human sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HUMS 875 Research Methods****Crosslisted with:** TMFD 875**Description:** Research methods that addresses practical and theoretical issues involved in designing, conducting, and evaluating research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**HUMS 891 Special Topics in Human Sciences****Crosslisted with:** NUTR 891, SLPA 891, TEAC 891, TMFD 891, CYAF 891**Description:** Aspects of human sciences not covered elsewhere in the curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Industrial and Management Systems Engineering (IMSE)

Integrative Biomedical Sciences (IBMS)

IBMS 999 Doctoral Dissertation**Prerequisites:** Admission to IBMS doctoral degree program and supervisory committee chair**Credit Hours:** 1-15**Min credits per semester:** 1**Max credits per semester:** 15**Max credits per degree:** 99**Format:** IND

Interior Design (IDES)

IDES 820 Branding**Crosslisted with:** IDES 420**Prerequisites:** Acceptance into the IDES, ARCH or LARC professional program, or into the MS in Architecture programs**Description:** An examination of the relationship between the Brand and the Branded Environment and the emotional connections created.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** PSI**IDES 821 Environmental Graphic Design****Crosslisted with:** IDES 421**Prerequisites:** Acceptance into the IDES, ARCH or LARC professional program, or into the MS in Architecture programs**Description:** Focuses on the way people understand the built environment. Design for wayfinding, information graphics, architectural graphics such as signage, exhibit design, and themed environments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

IDES 845 History of Interiors and Designed Objects**Crosslisted with:** IDES 445**Prerequisites:** Admission to the professional program in interior design or architecture**Description:** History and development of interiors and furnishings from prehistoric times to the present day, emphasizing the eighteenth, nineteenth, and twentieth centuries. Interiors and furnishings focused on the West yet considered within a global context.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 858 The Changing Workplace****Crosslisted with:** ARCH 458, ARCH 558, ARCH 858, IDES 458**Description:** Survey and integration of theory, methods, research and findings from the social, behavioral, and managerial sciences as they relate to the design of work environments. Factors effecting change in the contemporary workplace.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 861 Design of Senior Housing****Crosslisted with:** IDES 461**Prerequisites:** Acceptance into the IDES, ARCH or LARC professional program, or into the MS in Architecture programs**Description:** Focuses on critical issues in aging and their application to the built environment. Theoretical concepts related to aging and the environment will be examined. Emphasis will be placed on the application of evidence based to design to project solutions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** PSI**IDES 882 Advanced Color Theory****Crosslisted with:** ARCH 482, ARCH 582, ARCH 882, IDES 482**Prerequisites:** Admission to the third year in architecture or Interior Design Program.**Description:** Advanced color theories and their application to the Built environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 884 Material Culture: The Social Life of Things****Crosslisted with:** IDES 484**Description:** The theories and practices of material culture. History and interior design—and the broad category of humanity itself—through the lens of material objects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 885 Research Methods in Architecture and Interior Design****Crosslisted with:** ARCH 885**Description:** Research methods employed by the diverse specializations within the disciplines of architecture and interior design. Methods which contribute to a theoretical and informational body of knowledge as well as those contributing directly to design application.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 886 Evolving Issues in Interior Design****Crosslisted with:** IDES 486**Prerequisites:** Admission to the BSD Program.**Description:** Contemporary and controversial issues. Nuances of the field and practice of interior design and its relationship to the allied design disciplines.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**IDES 889 Design Research****Crosslisted with:** ARCH 489, ARCH 589, ARCH 889, IDES 489, LARC 489**Prerequisites:** Admission to a professional program in the College of Architecture.**Description:** Comprehensive overview of the complementary and contributory relationship between research and design, with a particular emphasis on design research as a projective activity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**IDES 891 Selected Topics in Interior Design****Crosslisted with:** IDES 491**Description:** Group investigation of a topic in interior design originated by instructor.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**IDES 898 Problems in Interior Design****Crosslisted with:** IDES 498**Description:** Individual investigation of a topic in interior design.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND

Journalism & Mass Communications-New Core (JOMC)

JOMC 808 Politics and the Media

Crosslisted with: JOMC 408

Description: Current issues in media and politics, domestically and internationally.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 812 Literature of Journalism

Crosslisted with: JOMC 412

Description: The roles and effects of mass media and major works exemplifying the practice of journalism.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 820 Financial Communications

Crosslisted with: JOMC 420

Notes: This is an eight-week, asynchronous, online course.

Description: Understanding and writing about corporate, economic and business topics as journalists or as public relations professionals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

JOMC 822 Race, Gender, and Media

Crosslisted with: JOMC 422

Notes: Open to non-College of Journalism and Mass Communications majors.

Description: Multicultural and gender diversity issues within the mass media. Broadcast news, print, and advertising media messages of racial, ethnic, and gender based minorities including African Americans, Hispanic Americans, Asian Americans, Native Americans, and women.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 844 Science Writing

Crosslisted with: JOMC 444, ALEC 444

Prerequisites: Permission.

Notes: Open to all majors. Articles may be submitted for publication.

Description: Advanced writing about science for the non-expert and/or for the general public. Issues in science communication through reading the best writers in science and journalism. Research and write short articles and longer profiles about science and scientists at the University of Nebraska-Lincoln (UNL) and elsewhere. Polish writing skills for doing work in science classes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 885 Mass Media History

Crosslisted with: JOMC 485

Prerequisites: Junior standing; major in advertising and public relations, broadcasting, or journalism

Description: History of American mass media in cultural and philosophical contexts; the evolution of mass media as a social institution.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 886 Mass Media Law

Crosslisted with: JOMC 486

Prerequisites: Junior standing; major in ADPR, BRDC, or JOUR.

Description: Legal basis for freedom of speech and press. Limitations imposed upon rights by statute, common law and court decisions. Resolving conflicts between those rights and other constitutional rights. Enhancing critical-thinking and writing skills. Roles, rights, and responsibilities of mass media in a free society through analysis of cases.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 887 Media, Ethics and Society

Crosslisted with: JOMC 487

Prerequisites: Junior standing; major in ADPR, BRDC or JOUR.

Notes: Required of all students seeking a degree through the College of Journalism and Mass Communications.

Description: Interrelationships between the American mass media and society, integrating ethics, theories and contemporary issues.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOMC 891 Special Topics

Crosslisted with: JOMC 491, ANTH 491A, ANTH 891A

Notes: 12 hours max special topics hours at all levels (100, 200, 300, 400) per degree. May be repeated up to three times so long as the topics are different.

Description: Topics vary each term.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 12

Format: LEC

Journalism (JOUR)

JOUR 801 Depth Reporting

Crosslisted with: JOUR 401

Prerequisites: JOUR 302

Notes: Work will appear on the student news World Wide Web (WWW) site. Letter grade only.

Description: Long-form writing, interviewing, computer-generated research, refined writing and teamwork in the creation of a single-subject project.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: SDO

JOUR 804 Digital Photojournalism/Multimedia I

Crosslisted with: JOUR 404

Prerequisites: JOMC 101 and JOMC 130-134.

Notes: Student work will appear on student news World Wide Web (WWW) site.

Description: News, feature, sports and picture-story journalism.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: SDO

Prerequisite for: JOUR 406, JOUR 806

JOUR 806 Digital Photojournalism/Multimedia II

Crosslisted with: JOUR 406

Prerequisites: JOUR 404/804

Notes: Work will appear on the student news World Wide Web (WWW) site.

Description: Building visual skills to recognize action, reaction and/or emotion, and incorporating them into the shootings and pictures.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOUR 807 Data Visualization

Crosslisted with: JOUR 407

Prerequisites: JOUR 202

Description: Storytelling with visuals generated from data. Theory and practice of visualization and analysis basics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOUR 813 Media Economics

Description: Economic theory applied to analysis of mass media industries. Structure, performance, and competitions across print media, advertising, broadcasting, and new digital media. Preparation for conducting economic analyses of mass media behavior and performance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOUR 814 Government Controls of Information

Crosslisted with: JOUR 414

Description: Laws, regulations, and practices by which federal, state, and local government enhance or retard access to information about the executive, legislative, and judicial branches.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOUR 867 School Publications

Crosslisted with: JOUR 467

Notes: Open only to students seeking a 7-12 journalism teaching endorsement.

Description: Problems and procedures involved in producing school newspapers, yearbooks, literary magazines, and radio and/or video projects.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JOUR 890 Global Multimedia Photojournalism Project

Crosslisted with: JOUR 490

Prerequisites: JOUR 404.

Description: Research and then visit a selected country and produce a multimedia story dealing with an emerging country in which there is need. Spend eight weeks conducting story research on campus then travel to the country either during winter break or in May. Spend three weeks in the country while working on the story then finish writing and editing after returning to Nebraska.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

JOUR 891 Special Topics

Crosslisted with: JOUR 491

Notes: 12 hours max special topics hours at all levels (100, 200, 300, 400) per degree

Description: Topics vary each term.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 12

Format: LEC

JOUR 897 Nebraska News Service

Crosslisted with: JOUR 497

Prerequisites: Complete all required 100-level courses and JOUR 201, JOUR 202 and JOUR 302.

Notes: Contact instructor for application.

Description: The Nebraska News Service functions as a statehouse news bureau for client news organizations throughout the state, generating original spot news and enterprise stories as well as responding to specific story requests from news service clients.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

Journalism - Graduate (JGRD)

JGRD 809 Media Law Seminar

Prerequisites: Permission

Description: Reading, discussion, and research on current issues in mass media law or theoretical bases for freedom of expression.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 811 Seminar in Media History

Description: Readings and discussion of major issues, events, and people in the history of mass media in the United States.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 819 Graduate Writing, Reporting and Editing

Description: This course teaches, at an accelerated graduate level, the principles and practices of reporting, writing and editing. It includes discussion of the ethical principles of journalism and the application of basic statistics the development of news and feature work.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 820 Mass Media: Introduction

Prerequisites: Permission

Description: Mass media structure, development, systems, responsibilities and ethics, and criticisms.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 831 Strategic Communications: Writing and Design

Description: Seminar for graduate students who do not have an undergraduate degree in advertising. Strategic and creative components of advertising, both from the visual and textual perspectives. Specific strategies for writing and designing advertising, promotional and public relations materials; creative aspects related to strategic planning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 835 International Communications

Prerequisites: Permission

Description: Systems of mass communications in foreign countries and across international boundaries.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 891 Special Topics

Description: Topics vary. Course may be repeated up to three times so long as topics are different.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 12

Format: LEC

JGRD 896 Independent Study

Prerequisites: Permission of major adviser

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: IND

JGRD 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 99

Format: IND

JGRD 901 Ethics and Issues in Mass Communication

Description: Ethical framework for exploring current issues in mass communications.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 902 Multi-platform Journalism

Description: Skills and technologies involved with multi-platform journalism and management.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 903 Entrepreneurial Journalism

Description: Current issues in business management related to the media environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 915 Mass Communication Theory

Description: Process and effects of mass communication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

JGRD 919 Methods of Mass Communication Research

Description: Research concepts and procedures with emphasis on methodology and research techniques in mass communication. Development of competency in consumption and interpretation of research combined with an introduction to research design, analysis, and decision making.

Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

JGRD 954 MASS MEDIA & GOVT

Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

JGRD 992 Professional Project

Description: Development of thesis topic may come from JGRD 992. JGRD 992 is designed for increasing competency in professional practice and depending on goals, may be concentrated in ADVT, BRDC, or NEWS. Translation of social, political, and economic affairs to mass audiences in both print and electronic media.

Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Format: IND

JGRD 995 Issues in Mass Communication

Description: Current problems in mass communication and interrelated social, economic, and political factors. Topic varies.

Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

Judaic Studies Program (JUDS)

JUDS 892 Advanced Special Topics in Jewish Studies

Crosslisted with: JUDS 492
Prerequisites: Junior/senior/grad standing
Notes: Letter grade only
Description: Advanced seminar on special topics taught by Jewish Studies faculty. Typically requires a substantial research project.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

Landscape Architecture (LARC)

LARC 597 Selected Topics in Landscape Architecture

Crosslisted with: LARC 397, LARC 497
Prerequisites: Permission.
Description: Group investigation of a topic in landscape architecture.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 24
Format: LEC

Latin (LATN)

LATN 856 Latin of the Middle Ages

Crosslisted with: LATN 456
Description: Selections from representative authors.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

LATN 891 Topics in Latin Prose

Crosslisted with: LATN 491
Description: Readings from Latin prose masterpieces, Topics vary.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 24
Format: LEC

LATN 892 Topics in Latin Poetry

Crosslisted with: LATN 492
Description: Readings from Latin verse masterpieces, Topics vary.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 24
Format: LEC

LATN 896 Reading and Research

Prerequisites: Permission
Credit Hours: 1-24
Min credits per semester: 1
Max credits per semester: 24
Max credits per degree: 24
Format: IND

LATN 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser
Credit Hours: 1-10
Min credits per semester: 1
Max credits per semester: 10
Max credits per degree: 99
Format: IND

LATN 941 Seminar in Latin Literature

Credit Hours: 1-24
Min credits per semester: 1
Max credits per semester: 24
Max credits per degree: 24
Format: LEC

Law (LAW)

Students enrolling as both Graduate and Law should note that several LAW courses have a G version and a non-G version, like 501 and 501G, and consult an advisor to ensure that they select the correct courses.

LAW 501 Contracts I**Crosslisted with:** LAW 501G**Notes:** This is a 2-semester course: Part II is Contracts II (Law 502/502G) and is offered each spring.**Description:** Basic principles governing the creation, interpretation and enforcement of private agreements. Offer and acceptance, consideration, the effect of changed or unforeseen circumstances, conditions and remedies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**LAW 501G Contracts I****Crosslisted with:** LAW 501**Notes:** This is a 2-semester course: Part II is Contracts II (Law 502/502G) and is offered each spring.**Description:** Basic principles governing the creation, interpretation and enforcement of private agreements. Offer and acceptance, consideration, the effect of changed or unforeseen circumstances, conditions and remedies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**LAW 502 Contracts II****Crosslisted with:** LAW 502G**Notes:** This is a 2 semester course. The sources of international law and the relationship of international law (particularly treaties) to the U.S. legal system. An overview of conflict of law rules, a survey of differences in the major legal systems of the world, and comparative examination of how foreign legal systems regulate other areas of law studied in the first year, such as torts, contracts, property, and civil procedure.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** SPRING

LAW 518G International Perspectives in U.S. Legal System: Practicing Law in a Global Legal Environment**Crosslisted with:** LAW 518

Description: Prepare for legal practice in a global legal environment, including an understanding of how to handle the treaty and foreign law issues that can arise in the practice of virtually every area of law. The sources of international law and the relationship of international law (particularly treaties) to the U.S. legal system. An overview of conflict of law rules, a survey of differences in the major legal systems of the world, and comparative examination of how foreign legal systems regulate other areas of law studied in the first year, such as torts, contracts, property, and civil procedure.

Credit Hours: 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Offered:** SPRING**LAW 577 International Trade: Agriculture, Food & Wine****Crosslisted with:** LAW 577G

Notes: The course is delivered through a blended learning incorporating online teaching materials and modules.

Description: Seeks to raise competence in international trade and economic development through an understanding of the role and impact of agriculture and food. Understanding agricultural policy models, the role of intergovernmental organizations, and the growing impact of new impediments to trade such as those manifested in private standards are all key to appreciating today's globalized market for agriculture and food. The food and agriculture area is one that has witnessed dramatic transformation in markets and methods in recent years with retailers gaining an ever greater influence over production and distribution decisions. This development has been concurrent with and in contrast to the growing efforts in Aid for Trade in agriculture, food production and food security when the world's population is approaching 9 billion. Finally, trade in wine presents a microcosm of trade topics, including agriculture, technical barriers to trade (TBT), sanitary and phytosanitary measures (SPS), intellectual property, national treatment, and cross cultural negotiations, against the backdrop of a comparatively small agricultural sector. Provide students with a practical and case study-based background in global trade in food and agricultural products.

Credit Hours: 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**LAW 577G International Trade: Agriculture, Food & Wine****Crosslisted with:** LAW 577

Credit Hours: 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD

LAW 582 Domestic CyberSecurity**Crosslisted with:** LAW 582G

Description: Cybersecurity is one of the most important and challenging emerging legal issues of the 21st century. Networked computer systems give bad actors access to data and information stored on those systems (e.g., consumer financial or health information; trade secrets and other sensitive commercial information), control over the systems themselves (e.g., to damage or disrupt; to use for other computer-based activities), and access to physical-world control systems (e.g., control over industrial equipment, electrical infrastructure, or driverless cars). Amazingly, there is no coherent legal framework to address these issues. There is, however, an at-times incomplete and at-times overlapping patchwork of legal authorities that applies to many of them. Moreover, many of these issues implicate technical considerations: either technology makes it more difficult for the law to address them, or they are better solved by technology than through the law. This class provides students with an interdisciplinary introduction to cybersecurity law, focusing on the legal frameworks that exist today, the challenges of developing more comprehensive legal frameworks, and the nuts-and-bolts guidance that lawyers need to be able to give their clients when it comes to good (and bad) cybersecurity practices.

Learn the fundamental bankruptcy concepts.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**LAW 585 Litigation Capstone: Labor and Employment Focus****Crosslisted with:** LAW 585G**Prerequisites:** At least one of: Law 647G or Law 680G or Law 753G

Notes: Much of the students' work will be self-directed, but classroom sessions will offer opportunities for instruction and coaching of student performance of practice skills from experienced labor and employment attorneys. Class sessions may be scheduled for times other than the time that appears on the course schedule.

Description: Hands-on experience integrating a wide-range of employment and labor law doctrine with practice skills and professional ethics. Students will be divided into attorney teams to represent a particular client in a simulated dispute. The client's student attorney team will decide how to pursue potential claims or how to defend claims brought against the client. Claims may include unfair labor practice proceedings before the National Labor Relations Board, employment discrimination and sexual harassment charges before the Equal Employment Opportunity Commission and in litigation, arbitration of employee discipline under a collective bargaining agreement, arbitration under non-union employment contracts, defamation, and claims under the Family and Medical Leave Act and ERISA. During the term, students may experience interviewing and counseling clients, filing claims with administrative agencies, conducting research in labor and employment law, drafting pleadings and legal memoranda, negotiations, engaging in discovery, and representing clients in arbitration, mediation and litigation motion practice.

LAW 587 Law & Behavioral Science Seminar**Crosslisted with:** LAW 587G

Description: Actual and potential uses of science in the law. The course primarily focuses on social science but considers general principles that apply to all types of science in the law. Specifically, we will look at the use of social science as fact in litigation (e.g., consumer confusion and civil damages) and as context in litigation (e.g., syndromes and criminal defenses). A secondary objective is to look at how social science can be used to understand the more general function and purpose of the courts and more specifically the application of various legal practices and policies to social problems. Third, the course examines the concept of junk science in the law including the misuse of science in litigation and legislation. Throughout the course, we will consider how empirical research can shed light on matters of importance to the legal system.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**LAW 587G Law & Behavioral Science Seminar****Crosslisted with:** LAW 587

LAW 657 Empirical Legal Studies**Crosslisted with:** LAW 657G

Description: Introduction to one of the fastest growing areas of legal scholarship and practice - the use of empirical techniques in research and litigation. Learning how to be sophisticated and critical consumers of empirical research that lawyers and experts often use to resolve legal cases and controversies, to shape legislation, and to use as argument in public policy debates. Introduction to survey research methodology, designing and conducting experiments, data gathering and analysis through descriptive and inferential statistics. In addition to discussing how to perform these techniques, students read cases and articles in which each of the techniques has played an important role. The course introduces law students to the social sciences through a "hands on" approach. Students will collect and analyze their own data by completing small research projects related to their areas of interest. Class sessions include discussion of social science and legal materials, lectures on the basics of empirical analysis, assistance with analyzing statistical data with computer packages, assistance with interpreting data, and student presentations. Students fulfill the course requirements through writing a paper, participating in class, presenting their research to the class, and completing several exercises. Students will learn to use computer statistical software packages (SPSS) for these exercises.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**LAW 657G Empirical Legal Studies****Crosslisted with:** LAW 657

Credit Hours: 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL**LAW 685 Capital Punishment****Crosslisted with:** LAW 685G

Notes: Differs significantly from LAW 672G. LAW 672G directs primary attention to jurisprudential arguments regarding the justification of capital punishment in principle and in practice, with only secondary attention to a few of the central court cases. This course directs primary attention to the court cases and legal doctrine and policy issues arising out of those court cases. Thus, the two courses are complimentary with relatively little overlap, and neither presupposes the other. Those who wish to enroll in both courses are free to do so.

Description: Examines legal doctrine and policy regarding capital punishment in the United States. Draws heavily but not exclusively on decisions by the US Supreme Court. Topics addressed include: various Constitutional challenges and limitations according to Supreme Court decisions; aggravating and mitigating circumstances; jury selection and qualification; discriminatory application; the use of clinical testimony; and the role of counsel.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**LAW 685G Capital Punishment****Crosslisted with:** LAW 685

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**LAW 719 National Security Law****Crosslisted with:** LAW 719G

Description: Examines international and U.S. law relevant to the handling of national security matters. Studies the allocation of power under the Constitution between Congress and the President with respect to war powers and assess the role of the courts as a check on the political branches in this area, particularly as it relates to ongoing efforts to fight terrorism. Analyzes the military detention of suspected terrorists and their trial by military commissions. Focuses on international law governing the use of force, conflict management and collective security arrangements. Special attention will be given to the U.N. Charter, the doctrine of self-defense, arguments setting forth justifications for the unilateral use of force, intervention in internal conflicts, and the institutional framework for collective efforts to maintain international peace and security, including peacekeeping operations and peace enforcement actions.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

LAW 719G National Security Law**Crosslisted with:** LAW 719

Description: Examines international and U.S. law relevant to the handling of national security matters. Studies the allocation of power under the Constitution between Congress and the President with respect to war powers and assess the role of the courts as a check on the political branches in this area, particularly as it relates to ongoing efforts to fight terrorism. Analyzes the military detention of suspected terrorists and their trial by military commissions. Focuses on international law governing the use of force, conflict management and collective security arrangements. Special attention will be given to the U.N. Charter, the doctrine of self-defense, arguments setting forth justifications for the unilateral use of force, intervention in internal conflicts, and the institutional framework for collective efforts to maintain international peace and security, including peacekeeping operations and peace enforcement actions.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**LAW 752 Labor and Employment Law: Theory and Practice****Crosslisted with:** LAW 752G

Description: The class will have a limited enrollment. Preference given to students who have earned at least 6 credits from the following courses: Civil Rights Litigation, Civil Rights Litigation Seminar, Employment Law, Employment Law Seminar, Labor Law, Labor Law Seminar, Legal Control of Discrimination, Legal Control of Discrimination Seminar, Pension and Employee Benefit Law, Public Employment Law. A modest bridge between classroom instruction in labor and employment law and real world practice in the area. Local practitioners collaborate with faculty member to formulate problems for the class and participate in several class sessions. Students engage in intensive analysis of issues arising out of the problems; they may be asked to prepare and discuss work products that fall anywhere on a continuum between the scholarly (such as law review-type analyses of complex issues) and the intensely practical (such as drafting interrogatories).

Credit Hours: 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**LAW 752G Labor and Employment Law: Theory and Practice****Crosslisted with:** LAW 752

Description: The class will have a limited enrollment. Preference given to students who have earned at least 6 credits from the following courses: Civil Rights Litigation, Civil Rights Litigation Seminar, Employment Law, Employment Law Seminar, Labor Law, Labor Law Seminar, Legal Control of Discrimination, Legal Control of Discrimination Seminar, Pension and Employee Benefit Law, Public Employment Law. A modest bridge between classroom instruction in labor and employment law and real world practice in the area. Local practitioners collaborate with faculty member to formulate problems for the class and participate in several class sessions. Students engage in intensive analysis of issues arising out of the problems; they may be asked to prepare and discuss work products that fall anywhere on a continuum between the scholarly (such as law review-type analyses of complex issues) and the intensely practical (such as drafting interrogatories).

Credit Hours: 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**LAW 753 Labor Law****Crosslisted with:** LAW 753G

Description: Legislative and judicial patterns of the modern labor movement; the objectives of labor combinations; the forms of pressure employed for their realization and prevention; strikes, boycotts, picketing, and lockouts; the legal devices utilized in carving out the permissible bounds of damage suits involving labor activity; the labor injunction; the National Labor Relations Board; the nature of collective bargaining agreements; extra legal procedure for settling labor disputes—the techniques of mediation, conciliation, and arbitration.

LAW 784 International Satellite Communications Law

Crosslisted with: LAW 784G

Description: The branch of space law which is focused most on practical and commercial applications without a doubt is the satellite communications sector. The present class will address the specific legal regimes dealing with satellite communications law in particular at the international level. Thus, it will address the role of the International Telecommunication Union (ITU) in allocating, allotting and assigning frequency spectrum and orbital slots/orbits, and the role of the World Trade Organization (WTO) in regulating the international trade in satellite communication services. Also, the unique roles of the international satellite organizations INTELSAT and INMARSAT, especially since their transition to privatized companies kicked off, will be addressed. Finally, other, more regional developments in the USA, Europe and elsewhere will be briefly touched upon.

Credit Hours: 1

The present class will address the specific legal regimes dealing with satellite communications law in particular at the international level. Thus, it will address the role of the International Telecommunication Union (ITU) in allocating, allotting and assigning frequency spectrum and orbital slots/orbits, and the role of the World Trade Organization (WTO) in regulating the international trade in satellite communication services. Also, the unique roles of the international satellite organizations INTELSAT and INMARSAT, especially since their transition to privatized companies kicked off, will be addressed. Finally, other, more regional developments in the USA, Europe and elsewhere will be briefly touched upon.

Ethical code of conduct and other issues involved in publishing in the organizational sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MNGT 990 Seminar in History of Management Thought****Description:** Development of management thought from the ancient civilizations of Sumer and Egypt, through the Middle Ages, to more recent developments. Scientific Management School, the contributions of Henri Fayol, and the Hawthorne research. The evolution of management as a body of knowledge.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MNGT 994 Seminar in Selected Topics I****Prerequisites:** Management department permission**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**MNGT 995 Seminar in Selected Topics II****Prerequisites:** Management department permission**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**MNGT 996 Directed Reading or Research****Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** IND**MNGT 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Marketing (MRKT)

MRKT 821 Applied Marketing Research**Prerequisites:** GRBA 813 or equivalent**Description:** Research methods to supply marketing information pertaining to the: assessment of the nature of demand, assessment of the extent of demand, marketing program development, and the monitoring of marketing performance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**MRKT 822 Survey of Buyer Behavior****Prerequisites:** GRBA 813 or equivalent**Description:** Survey of the literature of buyer behavior. Economic, sociocultural and psychological aspects of buying behavior as the basis of marketing strategy and public policy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MRKT 972

MRKT 824 Advanced Quantitative Analysis in Marketing**Crosslisted with:** SRAM 824**Prerequisites:** GRBA 813 or equivalent**Description:** Review, evaluation, and design of advanced marketing research investigations. State-of-the-art methodological issues relevant to marketing to provide an understanding of multivariate data analysis pertinent to the marketing literature. Analysis of linkage, structure, and causality/change for marketing phenomena.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 826 Services Marketing****Crosslisted with:** MRKT 426**Prerequisites:** MRKT 341**Description:** Services marketing and the services marketing process. Key concepts, issues and terminology. Specific tools and frameworks enabling communication with other professional marketers and analysis of services marketing situations to make realistic recommendations for managerial action.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 828 Sports Marketing****Prerequisites:** GRBA 813 or equivalent.**Description:** Basic concepts and theories unique to sports marketing, review of the basic principles of marketing in the context of sports. Framework provided for incorporation of unpredictable nature of the sports industry and exploration of the complex relationships between the elements of sports and marketing. Current research in the area of sports marketing, coverage of the growing popularity of women's sports, and the globalization of sports.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MRKT 896**MRKT 830 Strategic Issues in Marketing Communication****Prerequisites:** GRBA 813 or equivalent**Description:** Analysis and application of current concepts regarding the formulation and evaluation of marketing communication strategy in organizations which operate on a profit and not-for-profit basis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 835 Marketing Channels and Distribution****Prerequisites:** GRBA 813 or equivalent**Description:** Marketing management issues related to selection of intermediaries, channel control, marketing institutions, channel power and pricing. Distribution management issues: location, finished goods inventory, transportation, communication, and customer service.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 841 Digital Marketing and Electronic Commerce****Crosslisted with:** MRKT 441**Prerequisites:** MRKT 341; MRKT 350 or MNGT/MIST 350.**Description:** Strategies to deal with opportunities and challenges of evolving technology and marketing in digital networks of customers, suppliers, and employees; social and mobile marketing; different interactive marketing platforms for e-commerce; the future and strategic, societal, and ethical implications of technology and interactive marketing in e-commerce.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 845 Advanced Marketing Analytics****Prerequisites:** GRBA 851**Description:** Web, social media, and consumer text analytics; analyzing consumer data streams from the Internet, mobile devices, and sensors; handling very large volumes of data; general data analysis software operation for various marketing problems; marketing platform software for general and specific tasks; learning machines in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 850 Data Driven Marketing Strategy****Prerequisites:** GRBA 851 or one or more graduate or undergraduate statistics classes that cover basic statistics through least-squares regression.**Description:** Theory and strategic use of large marketing databases. Translating market data into insights for decisions like pricing, advertising response, resource allocation, and new product forecasting. Topics covered include market response models, linear models, clustering and classification, conjoint analysis techniques, resource allocation models, forecasting models, customer profitability analysis, customer choice modeling, value pricing, product line decisions and other significant strategic marketing issues facing today's managers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 855 Marketing and Globalization****Crosslisted with:** ABUS 855**Prerequisites:** GRBA 813 or equivalent**Description:** Globalization and resulting changes in the business environment. Access to new consumers, new supplies. The effect on consumer choices. Readings from scholarly and popular press, videos, and a "real world" application. Marketing strategies developed for Nebraska firms and organizations such as value-added food marketers.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**MRKT 896 Sports Marketing Practicum****Prerequisites:** MRKT 828 and permission**Description:** Supervised sports marketing related internship.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD

MRKT 898 Seminar: Special Topics**Prerequisites:** GRBA 813 or equivalent**Description:** Current topics in marketing; services marketing, ethics, and business-to-business marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**MRKT 921 Seminar in Marketing Communication Strategy****Prerequisites:** Permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921A Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921B Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921D Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921E Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921G Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 921J Seminar in Marketing Communication Strategy****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931 Marketing Channels Topical Seminar****Prerequisites:** Permission.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931A Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931B Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931D Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931E Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931G Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 931J Marketing Channels Topical Seminar****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 940 Marketing Management****Prerequisites:** Permission.**Description:** Decision-making activities in problems concerned with the development and management of marketing programs. Strategy choices in situations involving product development, market analysis and segmentation, channels, merchandising, promotion, pricing, and marketing research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 944 Theory of Logistics****Prerequisites:** Permission.**Description:** Critical examination of various theories of structure and operation of logistics systems. Application of logistics theory to business problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MRKT 945 Qualitative Research Methods in Business Seminar**Prerequisites:** Permission.**Description:** Developing qualitative research skills, analyzing theory development and research process. Research design, data collection, qualitative data analysis and interpretation, theory-development, and evaluation of qualitative research. Latest development in qualitative research in business and social science disciplines.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 954 Problems in International Marketing****Prerequisites:** Permission.**Description:** Simulation of marketing decision making in an international environment. Material in the course is balanced between the developed and underdeveloped countries of the world in Europe, Africa, Asia, and the Americas. Case materials are used as a basis for class discussion. Cases and discussions focus on specific interests of students enrolled.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 970 Development of Marketing Theory****Prerequisites:** Permission.**Description:** Continuing development of marketing theory, utilizing a review of "classic" and current marketing literature. Historical roots of marketing as a discipline, the requirements for marketing theory, and current efforts and future directions in the development of a mid-range theory of marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 971 Marketing and Society****Prerequisites:** Permission.**Description:** Role of the marketing activities and the marketing system in society.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 972 Seminar: Behavioral Research in Marketing****Prerequisites:** MRKT 822, and permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 980 Marketing Colloquium****Prerequisites:** Permission**Description:** Seminar in dissertation research topics and methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 996 Directed Reading or Research****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 24**Format:** IND**MRKT 998 Seminar in Special Topics****Prerequisites:** Permission**Notes:** New topics announced prior to each term in which course is offered.**Description:** Current topics in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 18**Format:** LEC**MRKT 998A Seminar in Special Topics****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 998B Seminar in Special Topics****Description:** New topics announced prior to each term in which course is offered. Seminar in current topics in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 998D Seminar in Special Topics****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 998E Seminar in Special Topics****Description:** New topics announced prior to each term in which course is offered. Seminar in current topics in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 998J Seminar in Special Topics****Description:** New topics announced prior to each term in which course is offered. Seminar in current topics in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MRKT 998K Seminar in Special Topics****Description:** New topics announced prior to each term in which course is offered. Seminar in current topics in marketing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MRKT 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Materials Engineering (MATL)

MATL 860 Mechanical Aspects of Materials

Crosslisted with: MATL 460

Prerequisites: MECH 325 and MATL 360, or equivalent.

Description: Emphasizes those principles at the atomistic or molecular level that relate mechanical properties and behavior of different classes of materials to their structure and environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: MATL 875; MATL 960; MATL 962

MATL 861 Materials Laboratory II

Crosslisted with: MATL 461

Prerequisites: MATL 360.

Description: Application of scientific principles in the laboratory to the analysis of materials problems and selection of engineering materials.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

MATL 862 X-ray Diffraction

Crosslisted with: MATL 462

Prerequisites: PHYS 212.

Description: Principles of crystallography. Production and properties of X-rays. Interaction of X-rays with atoms and the nature of diffraction (direction and the intensities of diffracted beams). Diffraction patterns and intensity measurements.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 864 Thin Films and Surface Engineering

Prerequisites: Graduate standing in engineering, physics, chemistry, or permission

Description: Thin films play an important role in a myriad of applications ranging from magnetic recording media, architectural glass panels, and microelectronics to coatings for reduction of wear and corrosion in components on board the space shuttle. Includes: vacuum science and technology; pumping systems and instrumentation; thin film deposition techniques; surface modification techniques; characterization of thin film properties; microstructural, physical and mechanical properties; and comparisons of surface enhancement techniques in terms of suitability, performance, and cost.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 865 Applied Physical Metallurgy and Design

Crosslisted with: MATL 465

Prerequisites: MATL 360 or equivalent.

Description: Principles of alloying; alloy selection; modification of the physical properties of structural alloys by thermal, mechanical, and chemical treatment; solidification and joining phenomena.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 866 Materials Selection for Mechanical Design

Crosslisted with: MATL 466

Prerequisites: MATL 360 and MECH 325; or permission.

Description: Rational selection procedure for the most suitable materials for each particular mechanical design. Introduction of materials selection charts and the concept of materials performance indices. Case studies in mechanical design, taking materials selections, shape and process into account. Projects on materials selection at the design concept and the design embodiment stages.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 867 Principles of Powder Metallurgy

Crosslisted with: MATL 467

Prerequisites: MECH 200; MECH 325; MATL 360 or equivalent.

Description: Basic principles of powder metallurgy, with emphasis on methods of producing metal powders, determination of their characteristics; the mechanics of powder compaction; sintering methods and effects; and engineering applications.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 868 Failure Analysis: Prevention and Control

Crosslisted with: MATL 468

Prerequisites: MECH 325; MATL 360 or equivalent.

Description: Metallurgical tools for analysis of failures; types and modes of failures; sources of design and manufacturing defects. Case histories utilized to illustrate modes of failures and principles and practices for analysis. Design concepts and remedial design emphasized with these case studies. Several projects involving case analyses and design by students included.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 869 Physical Materials Systems

Crosslisted with: MATL 469

Prerequisites: PHYS 212 and MATL 360.

Description: Development of the principles controlling the formation of the structure of engineering materials. Phase diagrams, diffusion, interfaces and microstructures, solidification and diffusional transformation and diffusionless transformations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATL 870 Thermodynamics of Alloys**Crosslisted with:** MATL 470**Prerequisites:** MATL 360 and MECH 200, or equivalent; MATH 208 or parallel.**Description:** Materials thermodynamics of closed systems, introduction to liquid and solid solution alloys, relationship to gas phase, application to binary systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATL 875; MATL 960; MATL 970; MATL 972**MATL 871 Electron Microscopy of Materials****Crosslisted with:** MATL 471**Prerequisites:** PHYS 212.**Description:** Introduction to electron beam instruments. Electron interactions with materials. Basic aspects of electron diffraction, image formation and spectrum generation by materials. Acquisition and analysis of images, diffraction patterns and spectral data. Resolution and sensitivity limits of electron probe methods. Practical experience in the use of electron microscopes for characterization of materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 872 Kinetics of Alloys****Crosslisted with:** MATL 472**Prerequisites:** MATL 360 or equivalent; MATH 221/MATH 821.**Description:** Kinetics of gas-liquid-solid reactions in alloy systems; analysis of diffusion models applicable to such systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 873 Corrosion****Crosslisted with:** MATL 473**Prerequisites:** CHEM 109 or equivalent.**Description:** Fundamentals of corrosion engineering, underlying principles, corrosion control, and materials selection and environmental control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 874 Extractive Metallurgy****Crosslisted with:** MATL 474**Prerequisites:** MATL 360 and MECH 200 or equivalent.**Description:** Unit operations and processes utilized in production of ferrous, nonferrous, and refractory metals. Examples of production techniques for metal bearing ores, scrap metals, and domestic waste. Control of impurity and alloy content and their relationship to physical properties.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 875 Glass and Ceramic Materials****Prerequisites:** MATL 860 and 870, or permission**Description:** Principles underlying the processing and microstructure evolution in nonmetallic materials, particularly glasses and ceramics. Structure-property relations in ceramics for engineering applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 877 Organic and Inorganic Electronic Materials and Devices****Crosslisted with:** MATL 477**Prerequisites:** Permission.**Description:** The course introduces the optical and electronic processes in inorganic and organic molecules and polymers that govern the behavior of practical organic electronic and optoelectronic devices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 898 Laboratory and Analytical Investigation****Crosslisted with:** MATL 498**Description:** Investigation and written report of research into specific problems in any major area of materials engineering.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LAB**MATL 960 Materials Aspects of Fracture****Prerequisites:** MATL 860; MATL 870**Description:** Utilization of certain aspects of applied elasticity, plasticity, and materials physics to explain the relationship between materials structures and mechanical properties. Includes review of various types of material failure and mechanical tests employed to predict behavior of materials with emphasis on metals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 962 Imperfections in Crystals****Prerequisites:** CHEM 882; MATL 860**Description:** Fundamental properties of defects in solids. Energy considerations for point, line, and plane defects. Equilibrium and nonequilibrium concentrations of defects and annealing theory. Mutual interactions of defects and formation of secondary defects. Interaction of defects with other perturbations of the crystal lattices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 970 Advanced Thermodynamics of Materials****Prerequisites:** MATL 870, MATH 821 or equivalent**Description:** Applications of thermodynamic concepts to phase equilibria in materials systems. Systematics of solution theories and lattice modeling. Experimental methods; computer modeling in materials thermodynamics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATL 972 Transformation in Materials**Prerequisites:** CHEM 882; MATL 870**Description:** Classical nucleation theory, homogeneous and heterogeneous nucleation. Precipitation studies in solids including transition precipitates. Kinetics of growth of precipitates. Diffusion controlled transformation process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATL 997 Research Other Than Thesis****Prerequisites:** Advanced graduate standing and permission**Description:** Supervised non-thesis research and independent study.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 24**Format:** IND**MATL 998 Advanced Materials Topics****Prerequisites:** Permission**Description:** Course offered as the need arises to teach advanced topics in materials characterization, processing, synthesis or properties not covered in other 900-level courses.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC

Mathematics (MATH)

MATH 800P Number and Operation for K-3 Mathematics Specialists**Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Description:** Number and operations. Place value and its role in arithmetic operations. Development of fractions and number systems. Develop the habits of mind of a mathematical thinker and to develop a depth of understanding of number and operations sufficient to enable the teacher to be a disciplinary resource for other K-3 teachers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 800T Mathematics as a Second Language****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Notes:** MATH 800T is intended for mid-level mathematics teachers.**Description:** Numbers and operations. Careful reasoning, problem solving, and communicating mathematics both orally and in writing. Connections with other areas of mathematics. Development of mathematical thinking habits.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 801P Geometry, Measurement, and Algebraic Thinking for K-3 Mathematics Specialists****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences.**Description:** Polygons, polyhedra, rigid motions, symmetry, congruence, similarity, measurement in one, two and three dimensions, functions, mathematical expressions, solving equations, sequences. Develop the habits of mind of a mathematical thinker and to develop a depth of understanding of geometry, measurement and algebraic thinking to enable the teacher to be a disciplinary resource for other K-3 teachers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 802P Number, Geometry and Algebraic Thinking II for K-3 Math Specialists****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Notes:** MATH 802P will not count toward the MA or MS degree in mathematics or statistics.**Description:** Number sense and operations in the context of rational numbers, geometry and algebra in grades 4-6 curriculum, and how the mathematical content in grades K-3 (e.g., Taylor-Cox, 2003) lays a foundation for abstract thinking beginning in grades 4 and beyond. Designed to develop a depth of understanding sufficient to enable the teacher to be a disciplinary resource to other K-3 teachers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 802T Functions, Algebra, and Geometry for Middle Level Teachers****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Description:** Variables and functions. Use of functions in problem solving. Theory of measurement, especially length, area, and volume. Geometric modeling in algebra. Graphs, inverse functions, linear and quadratic functions, the fundamental theorem of arithmetic, modular arithmetic, congruence and similarity. Ways these concepts develop across the middle level curriculum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 803P Algebraic Thinking in the Elementary Classroom****Prerequisites:** A valid elementary or early childhood teaching certificate.**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** Course explores the mathematics supporting algebraic thinking in elementary mathematics. Develops a deeper understanding of algebraic properties and greater flexibility in mathematical reasoning. Case studies, video segments, and student work samples will be examined. Complex mathematical problems will be worked with connections made between participants' thinking and that of their students.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 804P Problem Solving and Critical Thinking in the Elementary Classroom**Prerequisites:** A valid elementary or early childhood teaching certificate.**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** Course uses problem-solving experiences to develop teachers' critical-thinking skills in order to build a strong foundation for teaching and communicating mathematical concepts. Provides a guided opportunity for the implementation of problem-solving instruction is aligned with the Mathematics Standards in both the primary (K-2) and intermediate (3-5) elementary classroom.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 804T Experimentation, Conjecture and Reasoning****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Notes:** MATH 804T is intended for middle-level mathematics teachers.**Description:** Problem solving, reasoning and proof, and communicating mathematics. Development of problem solving skills through the extensive resources of the American Mathematics Competitions. Concepts of logical reasoning in the context of geometry, number patterns, probability and statistics**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 805T Discrete Mathematics for Middle Level Teachers****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences.**Notes:** MATH 805T is intended for mid-level mathematics teachers.**Description:** Concepts of discrete mathematics, as opposed to continuous mathematics, which extend in directions beyond, but related to, topics covered in middle-level curricula. Problems which build upon middle-level mathematics experiences. Logic, mathematical reasoning, induction, recursion, combinatorics, matrices, and graph theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 806T Number Theory and Cryptology for Middle Level Teachers****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences**Notes:** MATH 806T is intended for mid-level mathematics teachers.**Description:** Basic number theory results and the RSA cryptography algorithm. Primes, properties of congruences, divisibility tests, linear Diophantine equations, linear congruences, the Chinese Remainder Theorem, Wilson's Theorem, Fermat's Little Theorem, Euler's Theorem, and Euler's phi-function. Mathematical reasoning and integers' connections to the middle school curriculum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 807 Mathematics for High School Teachers I****Prerequisites:** MATH 208 and 310.**Notes:** Not open to graduate students in mathematics.**Description:** Analysis of the connections between college mathematics and high school algebra and precalculus.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 807T Using Mathematics to Understand Our World****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences.**Notes:** MATH 807T is intended for middle-level mathematics teachers.**Description:** The mathematics underlying several socially-relevant questions from a variety of academic disciplines. Construct mathematical models of the problems and study them using concepts developed from algebra, linear and exponential functions, statistics and probability. Original documentation, such as government data, reports and research papers, in order to provide a sense of the role mathematics plays in society, both past and present.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 808 Mathematics for High School Teachers II****Prerequisites:** MATH 310 and 350.**Notes:** Not open to graduate students in mathematics.**Description:** Analysis of the connections between college mathematics and high school algebra and geometry.**Credit Hours:** 0**Max credits per semester:****Max credits per degree:****Format:** LEC**MATH 808T Concepts of Calculus for Middle Level Teachers****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences.**Notes:** MATH 808T is intended for middle-level mathematics teachers.**Description:** The processes of differentiation and integration, their applications and the relationship between the two processes. Rates of change, slopes of tangent lines, limits, derivatives, extrema, derivatives of products and quotients, anti-derivatives, areas, integrals, and the Fundamental Theorem of Calculus. Connections to concepts in the middle level curriculum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 809 Math for High School Teachers II, Using Math to Understand Our World**Crosslisted with:** MATH 409**Prerequisites:** MATH 310, MATH 314, MATH 380/STAT 380**Notes:** Not open to MA or MS students in Mathematics. This course is for students seeking a mathematics major under the Education Option and for students in CEHS who are seeking their secondary mathematics teaching certificate.**Description:** Designed around a series of projects in which students create mathematical models to examine the mathematics underlying several socially-relevant questions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 810T Algebra for Algebra Teachers****Prerequisites:** Admission to the MAT or MScT program in mathematics or to a graduate program in the College of Education and Human Sciences.**Description:** The integers. The Euclidean algorithm, the Fundamental Theorem of Arithmetics, and the integers mod n . Polynomials with coefficients in a field. The division algorithm, the Euclidean algorithm, the unique factorization theorem, and its applications. Polynomials whose coefficients are rational, real or complex. Polynomial interpolation. The habits of mind of a mathematical thinker. The conceptual underpinnings of school algebra.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 811T Functions for High School Teachers****Prerequisites:** A valid secondary mathematics teaching certificate or by permission**Description:** Course examines mathematics underlying pre-calculus material through problem solving. Connections to other topics in mathematics, including algebra, geometry and advanced mathematics are highlighted.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 812T Geometry for Geometry Teachers****Prerequisites:** A valid secondary mathematics teaching certificate**Description:** Course examines mathematics underlying high school geometry through problem solving. Topics include Spherical, Euclidean and Hyperbolic geometry, introduction to Neutral geometry, Platonic and Archimedean solids and projective geometry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 814 Linear Algebra****Prerequisites:** A grade of P, C, or better in MATH 107 or MATH 107H**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** Fundamental concepts of linear algebra, including properties of matrix arithmetic, systems of linearequations, vector spaces, inner products, determinants, eigenvalues and eigenvectors, and diagonalization.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 415, MATH 815; MATH 433, MATH 833; MATH 842**MATH 814T Linear Algebra for Teachers****Prerequisites:** A valid secondary mathematics teaching certificate or by permission.**Description:** Emphasis on connections between linear equations, linear transformations and the geometry of lines and planes. Applications to production planning, encryption methods, and analyzing data. Topics include methods of solving linear systems with an emphasis on solution behavior, along with behaviors exhibited by explicit linear transformations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 815 Theory of Linear Transformations****Crosslisted with:** MATH 415**Prerequisites:** MATH 314/814 and either MATH 325 or MATH 310.**Description:** Topics fundamental to the study of linear transformations on finite and infinite dimensional vector spaces over the real and complex number fields including: subspaces, direct sums, quotient spaces, dual spaces, matrix of a transformation, adjoint map, invariant subspaces, triangularization and diagonalization. Additional topics may include: Riesz Representation theorem, projections, normal operators, spectral theorem, polar decomposition, singular value decomposition, determinant as an n -linear functional, Cayley-Hamilton theorem, nilpotent operators, and Jordan canonical form.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 816T Math in the City for Teachers****Prerequisites:** An undergraduate course in at least one of statistics, differential equations or matrix algebra; a valid secondary mathematics teaching certificate**Description:** A modeling course run in collaboration with area businesses or organizations in which real world problems are studied. Course emphasizes how mathematics is used outside academia.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 817 Introduction to Modern Algebra I**Prerequisites:** MATH 417**Description:** Topics from elementary group theory and ring theory, including fundamental isomorphism theorems, ideals, quotient rings, domains. Euclidean or principal ideal rings, unique factorization, modules and vector spaces including direct sum decompositions, bases, and dual spaces.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 818**MATH 818 Introduction to Modern Algebra II****Prerequisites:** MATH 817**Description:** Topics from field theory including Galois theory and finite fields and from linear transformations including characteristic roots, matrices, canonical forms, trace and transpose, and determinants.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 901; MATH 902; MATH 905; MATH 909; MATH 913; MATH 921; MATH 922; MATH 928; MATH 929**MATH 820 Elementary Analysis for the Sciences****Prerequisites:** Math 208 and evidence of adequate preparation**Notes:** Students in the sciences and Statistics cannot count MATH 820 toward a minor in Mathematics.**Description:** A mathematical introduction to elementary analysis (the calculus). Specifically, it is a demanding course that introduces concepts in abstraction: the axiomatic method, proofs, and mathematical thinking and writing in the context of elementary real analysis, or the theory underlying calculus. Specific topics include: logic, sets, functions; the real number system (field and order axioms, completeness axiom); mathematical induction; limits of sequences and functions, convergence, and continuity; the derivative and Riemann integral.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHME 815; CHME 825; MECH 881**MATH 821 Differential Equations****Prerequisites:** A grade of P, C, or better in MATH 107 or MATH 107H**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** First- and second-order methods for ordinary differential equations including: separable, linear, Laplace transforms, linear systems, and some applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 842; MATL 472, MATL 872; MATL 970; MECH 416, MECH 816; MECH 449, MECH 849; MECH 454, MECH 854; MECH 480, MECH 880; MECH 810; MECH 933; MECH 936; MECH 937; MECH 938; METR 880; METR 924; PHYS 451, PHYS 851**MATH 822 Advanced Calculus****Crosslisted with:** MATH 322**Description:** Uniform convergence of sequences and series of functions, Green's theorem, Stoke's theorem, divergence theorem, line integrals, implicit and inverse function theorems, and general coordinate transformations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 456; MECH 812; MECH 939; METR 965**Groups:** Advanced Mathematics Courses**MATH 823 Complex Analysis****Crosslisted with:** MATH 423**Prerequisites:** A grade of P, C, or better in MATH 208 or MATH 208H**Description:** Complex numbers, functions of complex variables, analytic functions, complex integration, Cauchy's integral formulas, Taylor and Laurent series, calculus of residues and contour integration, conformal mappings, harmonic functions. Applications of these concepts in engineering, physical sciences, and mathematics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 824 Introduction to Partial Differential Equations****Crosslisted with:** MATH 424**Prerequisites:** A grade of P, C, or better in MATH 221 or MATH 221H**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** Derivation of the heat, wave, and potential equations; separation of variables method of solution; solutions of boundary value problems by use of Fourier series, Fourier transforms, eigenfunction expansions with emphasis on the Bessel and Legendre functions; interpretations of solutions in various physical settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 812**Groups:** Advanced Mathematics Courses**MATH 825 Mathematical Analysis I****Prerequisites:** MATH 325**Description:** Real number system, topology of Euclidean space and metric spaces, continuous functions, derivatives and the mean value theorem, the Riemann and Riemann-Stieltjes integral, convergence, the uniformity concept, implicit functions, line and surface integrals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 826

MATH 826 Mathematical Analysis II**Prerequisites:** MATH 825**Description:** Real number system, topology of Euclidean space and metric spaces, continuous functions, derivatives and the mean value theorem, the Riemann and Riemann-Stieltjes integral, convergence, the uniformity concept, implicit functions, line and surface integrals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 921; MATH 922; MATH 924; MATH 925; MATH 932; MATH 933; MATH 935; MATH 941**MATH 827 Mathematical Methods in the Physical Sciences****Crosslisted with:** MATH 427**Prerequisites:** A grade of P, C, or better in MATH 221 or MATH 221H**Notes:** Not open to mathematics majors. Not open to MA or MS students in mathematics.**Description:** Matrix operations, transformations, inverses, orthogonal matrices, rotations in space. Eigenvalues and eigenvectors, diagonalization, applications of diagonalization. Curvilinear coordinate systems, differential operations in curvilinear coordinate systems, Jacobians, changes of variables in multiple integration. Scalar, vector and tensor fields, tensor operations, applications or tensors. Complex function theory, integration by residues, conformal mappings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 828 Principles of Operations Research****Crosslisted with:** MATH 428**Prerequisites:** MATH 314; STAT 380 or MECH 321.**Description:** Introduction to techniques and applications of operations research. Includes linear programming, queueing theory, decision analysis, network analysis, and simulation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 830 Differential Equations I****Prerequisites:** MATH 325**Description:** Phase diagrams, bifurcation theory, linear systems, the matrix exponential function, Floquet theory, stability theory, existence (Poincare-Bendixson Theorem) and non-existence of periodic solutions for non-linear ordinary differential equations, self-adjoint equations, and Sturm-Liouville theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 831**MATH 831 Differential Equations II****Prerequisites:** MATH 830**Description:** Vector calculus, transport equations, Laplace's equation, the heat equation, the wave equation, maximum principles, mean-value formulae, finite speed of propagation, energy methods, solution representations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 832 Linear Optimization****Crosslisted with:** MATH 432**Prerequisites:** MATH 314 or 314H; MATH 310 or 310H or MATH 325**Description:** Mathematical theory of linear optimization, convex sets, simplex algorithm, duality, multiple objective linear programs, formulation of mathematical models.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 833 Nonlinear Optimization****Crosslisted with:** MATH 433**Prerequisites:** MATH 314/814 and MATH 310 or MATH 325.**Description:** Mathematical theory of unconstrained and constrained optimization for nonlinear multivariate functions, particularly iterative methods, such as quasi-Newton methods, least squares optimization, and convex programming. Computer implementation of these methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 839 Mathematical Models in Biology****Crosslisted with:** MATH 439**Prerequisites:** A grade of P, C, or better in MATH 107 or MATH 107H**Notes:** Has a small laboratory component.**Description:** Discrete and continuous models in ecology: population models, predation, food webs, the spread of infectious diseases, and life histories. Elementary biochemical reaction kinetics; random processes in nature. Use of software for computation and graphics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses

MATH 840 Numerical Analysis I**Crosslisted with:** CSCE 440, CSCE 840, MATH 440**Prerequisites:** CSCE 155A, CSCE 155E, CSCE 155H, CSCE 155N, or CSCE 155T; MATH 107.**Notes:** Credit toward the degree may be earned in only one of the following: CSCE/MATH 440/840 and MECH 480/880.**Description:** Principles of numerical computing and error analysis covering numerical error, root finding, systems of equations, interpolation, numerical differentiation and integration, and differential equations.

Modeling real-world engineering problems on digital computers. Effects of floating point arithmetic.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**MATH 841 Approximation of Functions****Crosslisted with:** CSCE 441, CSCE 841, MATH 441**Prerequisites:** MATH 221/MATH 221H and MATH 314/MATH 314H.**Description:** Polynomial interpolation, uniform approximation, orthogonal polynomials, least-first-power approximation, polynomial and spline interpolation, approximation and interpolation by rational functions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**Groups:** Advanced Mathematics Courses**MATH 842 Methods of Applied Mathematics I****Prerequisites:** MATH 821 and 814, or their equivalents**Description:** Interdependence between mathematics and the physical and applied sciences. Includes the calculus of variations, scaling and dimensional analysis, regular and singular perturbation methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 843; MATH 938**MATH 843 Methods of Applied Mathematics II****Prerequisites:** MATH 842 or permission**Description:** Application of partial differential equation models to problems in the physical and applied sciences. Includes derivation of partial differential equations, the theory of continuous media, linear and nonlinear wave propagation, diffusion, transform methods, and potential theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 937; MATH 938**MATH 845 Number Theory****Crosslisted with:** MATH 445**Prerequisites:** MATH 310 or 310H.**Description:** Fundamentals of number theory, including congruences, primality tests, factoring methods. Diophantine equations, quadratic reciprocity, continued fractions, and elliptic curves.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 847 Numerical Linear Algebra****Crosslisted with:** CSCE 447, CSCE 847, MATH 447**Prerequisites:** MATH 314**Description:** Mathematics and algorithms for numerically stable matrix and linear algebra computations, including solution of linear systems, computation of eigenvalues and eigenvectors, singular value decomposition, and QR decomposition.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 942, MATH 942**Groups:** Advanced Mathematics Courses**MATH 850 Discrete Mathematics I****Prerequisites:** MATH 310 or 325**Description:** Enumeration of standard combinatorial objects (subsets, partitions, permutations). Structure and existence theorems for graphs and sub-graphs. Selected classes of error-correcting codes. Extremal combinatorics of graphs, codes, finite sets and posets.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 852**MATH 852 Discrete Math II****Prerequisites:** MATH 850**Description:** Enumeration of standard combinatorial objects (subsets, partitions, permutations). Structure and existence theorems for graphs and sub-graphs. Selected classes of error-correcting codes. Extremal combinatorics of graphs, codes, finite sets and posets.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 856 Differential Topology****Prerequisites:** MATH 471/871**Description:** Introduction to a selection of topics in differentiable manifolds, smooth maps, vector fields and vector bundles, embeddings and immersions, differential forms, integration on manifolds, and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 865 Introduction to Mathematical Logic**Crosslisted with:** MATH 465**Description:** Semantical and syntactical developments of propositional logic, discussion of several propositional calculi, application of Boolean algebra and related topics, semantics and syntax of first order predicate logic including Godel's completeness theorem, the compactness theorem.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 871 Topology I****Prerequisites:** MATH 325 or MATH 417**Description:** Topological spaces, continuous functions, product and quotient spaces, compactness and connectedness, homotopy, fundamental groups.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 856; MATH 872; MATH 921; MATH 922**MATH 872 Topology II****Prerequisites:** MATH 871 and MATH 417**Description:** Fundamental groups and the van Kampen theorem, covering spaces and the Galois correspondence, applications to groups, homology and the Mayer-Vietoris theorem.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 874M Topics in Chemical Pedagogy - Mathematics Integration****Crosslisted with:** CHEM 874M, TEAC 874M**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. May be counted towards the MAT and MScT degrees in mathematics and statistics, not the MA, MS, or PhD. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 887 Probability Theory****Crosslisted with:** MATH 487**Prerequisites:** MATH 314 and one of MATH 309, MATH 310, or MATH 325**Description:** Probability, conditional probability, Bayes' theorem, independence, discrete and continuous random variables, density and distribution functions, multivariate distributions, probability and moment generating functions, the central limit theorem, convergence of sequences of random variables, random walks, Poisson processes and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 889 Stochastic Processes****Crosslisted with:** MATH 489**Prerequisites:** MATH 314 and STAT 380 (or STAT 880)**Description:** Markov chains, continuous-time Markov processes, the Poisson process, Brownian motion, introduction to stochastic calculus.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Advanced Mathematics Courses**MATH 896 Seminar in Mathematics****Crosslisted with:** MATH 496**Prerequisites:** Permission.**Description:** Topics in one or more branches of mathematics.**Credit Hours:** 4.00**Max credits per semester:** 4**Max credits per degree:** 13**Format:** LEC**Groups:** Seminars, Ind Study, Topics**MATH 897 Reading Course****Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** IND**MATH 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**MATH 901 Algebra I****Prerequisites:** MATH 818 or permission**Description:** In-depth treatment of groups, rings, modules, algebraic field extensions, Galois theory, multilinear products, categories.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 953**MATH 902 Algebra II****Prerequisites:** MATH 818 or permission**Description:** In-depth treatment of groups, rings, modules, algebraic field extensions, Galois theory, multilinear products, categories.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 915; MATH 953**MATH 905 Commutative Algebra****Prerequisites:** MATH 818 or permission**Description:** Selected topics from classical ideal theory, Dedekind rings, completions, local rings, valuation theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 909 Theory of Semigroups

Prerequisites: MATH 818 or permission

Description: Selected topics from semigroups of transformations, ideal structure and homomorphisms, free semigroups, inverse semigroups, matrix representation, decompositions and extensions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 911 Theory of Groups

Description: Basic topics of infinite and finite group theory from among geometric, combinatorial, and algorithmic group theory, homology of groups, solvable and nilpotent groups and representation theory.

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 18

Format: LEC

MATH 913 Introduction to the Theory of Rings

Prerequisites: MATH 818

Description: Elementary ring theory and examples of rings, the Jacobson radical and the structure of semi-simple rings, rings with minimum condition, Wedderburn's theorem, structure of modules.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 915 Homological Algebra

Prerequisites: MATH 902 or permission

Description: Basic topics in homological algebra, including homology of complexes, extensions, tensor and torsion products and homological dimension, with application to rings and algebras.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 918 Topics in Algebra

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 18

Format: LEC

MATH 921 Real Analysis I

Prerequisites: MATH 818, 826, and 871 or permission

Description: Semicontinuity, equicontinuity, absolute continuity, metric spaces, compact spaces, Ascoli's theorem, Stone Weierstrass theorem, Borel and Lebesgue measures, measurable functions, Lebesgue integration, convergence theorems, L_p spaces, general measure and integration theory, Radon-Nikodym theorem, Fubini theorem, Lebesgue-Stieltjes integration.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: MATH 928; MATH 929

MATH 922 Real Analysis II

Prerequisites: MATH 818, 826, and 871 or permission

Description: Semicontinuity, equicontinuity, absolute continuity, metric spaces, compact spaces, Ascoli's theorem, Stone Weierstrass theorem, Borel and Lebesgue measures, measurable functions, Lebesgue integration, convergence theorems, L_p spaces, general measure and integration theory, Radon-Nikodym theorem, Fubini theorem, Lebesgue-Stieltjes integration.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 923 Topics in Analysis

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 18

Format: LEC

MATH 924 Theory of Analytic Functions I

Prerequisites: MATH 826 or permission

Description: Complex number field, elementary functions, analytic functions, conformal mapping, integration and calculus of residues, entire and meromorphic functions, higher transcendental functions, Riemann surfaces.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 925 Theory of Analytic Functions II

Prerequisites: MATH 826 or permission

Description: Complex number field, elementary functions, analytic functions, conformal mapping, integration and calculus of residues, entire and meromorphic functions, higher transcendental functions, Riemann surfaces.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 927 Asymptotic Methods in Applied Mathematics

Description: Methods for approximating the solutions of differential equations, including local analysis near singular points, singular perturbation methods, boundary layer theory, WKB Theory, and multiple-scale methods. Asymptotic expansion of Laplace and Fourier integrals. Illustration of the use of asymptotics from journals in mathematics, science, and engineering.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 928 Functional Analysis I

Prerequisites: MATH 818 and 921, or permission

Description: Banach and Hilbert Spaces, linear operators and functionals, completely continuous operators, spectral theory, integral equations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MATH 929 Functional Analysis II**Prerequisites:** MATH 818 and 921, or permission**Description:** Banach and Hilbert Spaces, linear operators and functionals, completely continuous operators, spectral theory, integral equations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 932 Advanced Ordinary Differential Equations I****Prerequisites:** MATH 826 or permission**Description:** Cauchy-Peano existence theorems, continuity and differentiability of solutions with respect to initial conditions, differential inequalities, uniqueness theorem, oscillation theory, Poincare-Bendixson theory, stability theory, almost periodic solutions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 933 Advanced Ordinary Differential Equations II****Prerequisites:** MATH 826 or permission**Description:** Cauchy-Peano existence theorems, continuity and differentiability of solutions with respect to initial conditions, differential inequalities, uniqueness theorem, oscillation theory, Poincare-Bendixson theory, stability theory, almost periodic solutions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 934 Topics in Differential Equations****Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 18**Format:** LEC**MATH 935 Advanced Methods in Applied Mathematics I****Prerequisites:** MATH 821 and 826**Description:** Banach and Hilbert spaces, operator theory with application to differential and integral equations; spectral theory for compact, self-adjoint operators.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 936**MATH 936 Advanced Methods in Applied Mathematics II****Prerequisites:** MATH 935 or permission**Description:** Distributions, Green's functions and boundary value problems; integral transforms and spectral representations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 937 Nonlinear Partial Differential Equations****Prerequisites:** MATH 843 or 941 or permission**Description:** Nonlinear wave propagation and shock structure with applications, dispersive waves, hyperbolic systems, group velocity and the method of stationary phase. WKB approximation and perturbation methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 938 Mathematical Modeling****Prerequisites:** MATH 842, 843 and permission**Description:** Advanced course in mathematical modeling for students who desire experience in formulating and analyzing open-ended, real-world problems in the natural and applied sciences. Participation in a few group projects that require conceptualization and analytical, numerical, and graphical analysis with formal oral and written presentation of the results.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 939 Topics in Applied Mathematics****Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 18**Format:** LEC**MATH 941 Partial Differential Equations****Prerequisites:** MATH 826**Description:** Theory of hyperbolic, elliptic, and parabolic equations. Classification, existence and uniqueness result, solution representations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MATH 937**MATH 942 Numerical Analysis III****Crosslisted with:** CSCE 942**Prerequisites:** CSCE/MATH 840 or 841 or 847**Description:** Advanced topics in numerical analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 953 Algebraic Geometry****Prerequisites:** MATH 901-902**Description:** Affine geometry, coordinate rings, the Zariski topology, function fields and birational geometry, the Nullstellensatz, Krull dimension and transcendence degree, smoothness, projective geometry, divisors, curves.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MATH 958 Topics in Discrete Mathematics**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 18**Format:** LEC**MATH 990 Topics in Topology****Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 18**Format:** LEC**MATH 995 Research Seminar****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**MATH 996 Seminar****Description:** Advanced topics in one or more branches of mathematics.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MATH 997 Reading Course****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**MATH 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Mechanical Engineering (MECH)

MECH 801 Analytical Methods in Engineering I**Description:** Basic topics in real analysis and linear algebra with examples of applications from diverse branches of engineering and applied physics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 802**MECH 802 Analytical Methods in Engineering II****Prerequisites:** MECH 801 or permission**Description:** Continuation of ENGM 801 topics in complex analysis, linear algebra, ordinary and partial differential equations, and other areas of applied mathematics. Examples of applications from diverse branches of engineering and applied physics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 803 Internal Combustion Engines****Crosslisted with:** MECH 403**Prerequisites:** MECH 300 or equivalent.**Description:** Basic cycle analysis and engine types, fundamental thermodynamics and operating characteristics of various engines are analyzed, combustion processes for spark and compression-ignition engines, fuels, testing procedures, and lubrication systems are evaluated. Emphasis on the thermodynamic evaluation of the performance and understanding the basic operation of various engine types.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 804 Theory of Combustion****Crosslisted with:** MECH 404**Prerequisites:** MECH 300 and MECH 420/MECH 820.**Description:** Stoichiometric analysis of combustion processes. Energy transfer, flame propagation, and transformation velocities during combustion. Combustor applications and design considerations. Emission formation and methods of control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 904**MECH 805 Turbomachinery****Crosslisted with:** MECH 405**Prerequisites:** MECH 300 and MECH 310/CIVE 310.**Description:** Thermodynamic analysis and design of axial and radial flow turbines, compressors, and pumps. Fundamentals of the operating characteristics and performance parameters of turbomachines will be evaluated. Cavitation and blade element theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 806 Air Conditioning Systems Design****Crosslisted with:** MECH 406**Prerequisites:** MECH 300 or equivalent.**Description:** Application of thermodynamic and fluid dynamic principles to the design of air conditioning systems. Comprehensive design project is an integral part of the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MECH 807 Power Plant Systems Design**Crosslisted with:** MECH 407**Prerequisites:** MECH 300 or equivalent.**Description:** Application of thermodynamic and fluid dynamic principles to the design of Power Plants. Comprehensive design project is an integral part of the course.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 808 Heat Exchanger Design****Crosslisted with:** MECH 408**Prerequisites:** MECH 300 or equivalent.**Description:** Design methodology for various heat exchangers employed in mechanical engineering. Introduction to computer-aided design as applied to heat exchangers. Practical exercises in actual design tasks.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 810 Viscous Flow I****Prerequisites:** MECH 310 and MATH 821**Description:** Dynamics and kinematics of laminar flows of viscous fluids. Development of the equations of motion in general and some exact solutions to them. Flows with small to large (laminar) Reynolds numbers including fundamental concepts of the boundary layer on a flat plate.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 918; MECH 812**MECH 812 Viscous Flow II****Prerequisites:** MECH 810, MATH 822 or MATH 824 or MECH 890**Description:** Vorticity dynamics. Ideal flows in a plane and in axisymmetric and three-dimensional geometries. Advanced boundary layer theory. Introduction to stability and turbulent flows.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 912; MECH 916**MECH 813 Aerodynamics****Crosslisted with:** MECH 413**Prerequisites:** MECH 200 and MECH 310/CIVE 310.**Description:** Subsonic and supersonic air flow theory, dynamics of flight, performance parameters, rotoranalysis, and special topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 814 Compressible Flow****Crosslisted with:** MECH 414**Prerequisites:** MECH 300 and MECH 310/CIVE 310.**Description:** Analysis of the flow of compressible fluids by means of the momentum equation, continuity equation, and the laws of thermodynamics and some application of thermodynamic laws to incompressible fluids.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 815 Two-Phase Flow****Crosslisted with:** MECH 415**Prerequisites:** MECH/CIVE 310; MECH 380 or parallel.**Description:** Transport phenomena of homogeneous and heterogeneous types of mixtures such as solid-liquid, liquid-liquid, and liquid-gas. Properties of components and mixtures. Flow induced vibrations and parameter distributions. Optimization and design problems in multiphase systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 816 Engineering Acoustics****Crosslisted with:** MECH 416**Prerequisites:** MECH 310 and MATH 221/MATH 821.**Description:** Transverse and longitudinal traveling waves. Acoustic wave equation of fluids. The reflection, transmission, radiation, reception, absorption, and attenuation of sound. Acoustic cavities and waveguides. Sound propagation in pipes, resonators and filters.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 820 Heat Transfer****Crosslisted with:** MECH 420**Prerequisites:** MECH 310.**Description:** Heat transfer by conduction, convection, and radiation. Correlation of theory with experimental data and engineering design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AREN 412; AREN 810; MECH 404, MECH 804; MECH 922; MECH 923; MECH 924**MECH 821 Elements of Nuclear Engineering****Crosslisted with:** MECH 421, ENGR 421**Prerequisites:** ENGR 300 or ENGR 301 or ENGR 310; MATH 208/ MATH 208H; and PHYS 212/PHYS 212H**Description:** Survey of nuclear engineering concepts and applications. Nuclear reactions, radioactivity, radiation interaction with matter, reactor physics, risk and dose assessment, applications in medicine, industry, agriculture, and research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ENGR 410; ENGR 420

MECH 822 Industrial Quality Control**Crosslisted with:** MECH 422**Prerequisites:** MECH 321 or STAT 380.**Description:** Statistical process control and quality assurance techniques in manufacturing. Control charts, acceptance sampling, and analyses and design of quality control systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**MECH 824 Laser Material Processing with Compressible Flow Perspective****Crosslisted with:** MECH 424**Prerequisites:** Permission.**Description:** Fundamentals of laser material processing. Laser material interactions from the compressible flow perspective. Analytical, semi-analytical, and numerical approaches.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 825 Solar Energy Engineering****Crosslisted with:** MECH 425**Prerequisites:** MECH 420 or permission.**Description:** Conversion of solar energy into more useful forms with emphasis on environmental heating and cooling applications. Includes solar energy availability, solar collectors and design, solar systems and their simulation and solar economics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 826 Heat Transfer at Nanoscales and in Ultrashort Time Domains****Crosslisted with:** MECH 426**Prerequisites:** MECH 420.**Description:** Heat transfer in nanoscale and nanostructured materials. Heat transfer in ultrafast laser materials processing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 828 Analysis of Thermal Data****Crosslisted with:** MECH 428**Prerequisites:** MECH 420 or parallel.**Description:** Indirect measurement of thermal properties and heat flux are explored with various methods, and optimization, with examples drawn from engineering practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**MECH 831 Computational Heat Transfer and Fluid Flow****Crosslisted with:** MECH 431**Prerequisites:** MECH 310; MATH 314; MECH 420 or parallel.**Description:** Finite difference methods for steady and transient diffusion and convection-diffusion problems. Finite volume technique for the solution of multi-dimensional fluid flow, and heat and mass transfer problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 932**MECH 836 Introduction to Continuum Biomechanics****Crosslisted with:** MECH 436**Prerequisites:** MECH 373; MECH 310; MECH 420.**Description:** Introduction to biomechanics. Basic anatomy, biomaterials, kinematics, dynamics, visco-elasticity, bio-fluid mechanics, and bio-heat transfer.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 837 Biomedical Device Design****Crosslisted with:** MECH 437**Prerequisites:** MECH 223, MECH 325 and MECH 373, or equivalent**Description:** Design of devices intended for use in biomedical environments. Introduction to modeling of the bio-environments, bio-materials, and material selection. Overview of design methodologies and strategies used in biomedical device design from a material properties perspective. Introduction to federal regulation and other pertinent issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 838 Mechanics of Biomaterials****Crosslisted with:** MECH 438**Prerequisites:** MECH 325 or AGEN/BSEN 324 or parallel**Description:** Theory, application, simulation, and design of biomaterials that apply mechanical principles for solving medical problems (case studies in artery, brain, bone, etc.). Tentative Topics include Mechanical characterization of biomaterials; Bio-manufacturing a tissue; Function-structure relationship; Design and analysis of medical implants; Active response of biomaterials: growth and remodeling mechanism; Cellular behavior and measurements, etc.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 842 Intermediate Kinematics****Crosslisted with:** MECH 442**Prerequisites:** MECH 342.**Description:** Analytical cam design. Geometry of constrained plane motion and application to the design of mechanisms. Analysis and synthesis of pin-jointed linkage mechanisms.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 943

MECH 843 Introduction to Piezoelectricity with Applications**Prerequisites:** MECH 325, MECH 373, or equivalent, or permission**Description:** Electrostatics, equations of piezoelectricity, static solutions, propagation of plane waves, waves in plates, surface waves, equations for piezoelectric rods and plates in extension and flexure, finite element formulation, finite element analysis of static, time-harmonic, and transient problems with applications in smart structures and piezoelectric devices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 844 Intermediate Dynamics of Machinery****Crosslisted with:** MECH 444**Prerequisites:** MECH 342 and MECH 350.**Description:** Fundamentals of vibration, vibration and impact in machines, balance of rotors, flexible rotor dynamics and instabilities, parametric vibration, advanced dynamics and design of cam mechanisms, and dynamics of flywheel.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 845 Mechanical Engineering Design Concepts****Crosslisted with:** MECH 445**Prerequisites:** MECH 200, MECH 342, MECH 350, and MECH 310/CIVE 310.**Description:** Development of design concepts. Introduction to synthesis techniques and mathematical analysis methods. Applications of these techniques to mechanical engineering design projects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 945**MECH 848 Advanced Mechanics of Materials****Crosslisted with:** MECH 448**Prerequisites:** MECH 373, MECH 325.**Description:** Stresses and strains at a point. Theories of failure. Thick-walled pressure vessels and spinning discs. Torsion of noncircular sections. Torsion of thin-walled sections, open, closed, and multicelled. Bending of unsymmetrical sections. Cross shear and shear center. Curved beams. Introduction to elastic energy methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 910; MECH 915; MECH 930; MECH 933; MECH 935; MECH 937; MECH 938; MECH 939; MECH 940; MECH 941; MECH 952**MECH 849 Advanced Dynamics****Crosslisted with:** MECH 449**Prerequisites:** MECH 373 and MATH 221/821.**Description:** Particle Dynamics using Newton's laws, energy principles, momentum principles. Rigid body dynamics using Euler's equations and Lagrange's equations. Variable mass systems. Gyroscopic motion.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 915; MECH 935**MECH 850 Mechanical Engineering Control Systems Design****Crosslisted with:** MECH 450**Prerequisites:** MECH 350.**Description:** Applications of control systems analysis and synthesis for mechanical engineering equipment. Control systems for pneumatic, hydraulic, kinematic, electromechanical, and thermal systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 851 Introduction to Finite Element Analysis****Prerequisites:** MECH 325 and MECH 880 or permission.**Description:** Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 950; MECH 951**MECH 852 Experimental Stress Analysis I****Crosslisted with:** MECH 452**Prerequisites:** MECH 325.**Description:** Investigation of the basic theories and techniques associated with the analysis of stress using mechanical strain gages, electric strain gages, brittle lacquer, photoelasticity, and membrane analogy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 952**MECH 853 Robotics: Kinematics and Design****Crosslisted with:** MECH 453**Description:** Robotics synthesize some aspects of human function by the use of mechanisms, sensors, actuators, and computers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 854 Introduction to Continuum Modeling****Crosslisted with:** MECH 454**Prerequisites:** MATH 221/821, MECH 325 and MECH 373.**Description:** Basic concepts of continuum modeling. Development of models and solutions to various mechanical, thermal and electrical systems. Thermo-mechanical and electro-mechanical coupling effects. Differential equations, dimensional methods and similarity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MECH 855 Vehicle Dynamics**Crosslisted with:** MECH 455**Prerequisites:** MECH 343 and MECH 350.

Description: Introduction to basic mechanics governing automotive vehicle dynamic acceleration, braking, ride, handling and stability. Analytical methods, including computer simulation, in vehicle dynamics. The different components and subsystems of a vehicle that influence vehicle dynamic performance.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 856 Dynamics of Internal Combustion Engines****Crosslisted with:** MECH 456**Prerequisites:** MECH 342 and MECH 343.

Description: Basics of design of the internal combustion engines. Design of various engine parts such as pistons, connecting rods, valve trains, crankshafts, and the vibration dampers. Dynamics of the engine. The vibration of the crankshaft assembly and the valve train. Balancing of the engines.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 857 Mechatronic Systems Design****Crosslisted with:** MECH 457**Prerequisites:** ECEN 231; MECH 350 or parallel.

Notes: Lab sessions allow for constructing mechatronic systems. Lab time arranged. A comprehensive design project included.

Description: Theory, application, simulation, and design of systems that integrate mechanical, computer, and electronic components.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 958**MECH 858 Digital Control of Mechanical Systems****Crosslisted with:** MECH 458**Prerequisites:** MECH 450.

Description: Introduction to digital measurement and control of mechanical systems. Applications of analysis and synthesis of discrete time systems.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 870 Theory and Practice of Materials Processing****Crosslisted with:** MECH 470

Description: Theory, practice and application of conventional machining, forming and non-traditional machining processes with emphasis on tool life, dynamics of machine tools and adaptive control.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 970**MECH 874 Manufacturing Systems I****Crosslisted with:** MECH 474

Description: Principles of automated production lines; analysis of transfer lines; group technology; flexible manufacturing systems; and just-in-time; and optimization strategies for discrete parts manufacturing.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 875 Introduction to Mechanical Vibrations****Crosslisted with:** MECH 475**Prerequisites:** MECH 373 and MATH 221.

Description: Review of rigid body dynamics; equations of motion, free vibration, damping; linear response of one, two, and multi-degree of freedom systems; forced vibrations, harmonic, periodic, impulse, and general responses; resonance and vibration isolation; rotating imbalance; Fourier transforms, digitization and analysis of experimental data.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 975**MECH 876 Manufacturing Information Systems****Crosslisted with:** MECH 476

Prerequisites: Senior standing; CSCE 155A, CSCE 155E, CSCE 155H, CSCE 155N, or CSCE 155T or equivalent.

Description: An exploration of information systems and their impact in a manufacturing environment. Software, hardware, database systems, enterprise resource planning, networking, and the Internet.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 880 Numerical Methods in Engineering****Crosslisted with:** MECH 480**Prerequisites:** MATH 221/MATH 821; CSCE 155N.

Notes: Credit towards the degree cannot be earned in both CSCE/MATH 440/840 and MECH 480/880.

Description: Numerical algorithms and their convergence properties in: solving nonlinear equations; direct and iterative schemes for linear systems of equations; eigenvalue problems; polynomial and spline interpolation; curve fitting; numerical integration and differentiation; initial and boundary value problems for Ordinary Differential Equations (ODEs) and systems of ODEs with applications to engineering; finite difference methods for partial differential equations (potential problems, heat-equation, wave-equation).

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CHME 496, CHME 896; MECH 851; MECH 888**MECH 881 Introduction to Nuclear Engineering****Prerequisites:** MATH 820 or 821

Description: Introduction to nuclear physics, radiation interaction with matter, reactor fundamentals, and the application of equipment and principles associated with reactor safety and operations.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MECH 883 Engineering Analysis with Finite Elements**Crosslisted with:** MECH 483**Prerequisites:** MECH 310; MECH 343; MECH 350; MECH 420 or parallel.**Description:** Analysis of engineering systems using finite elements; a critical and challenging task performed during the design process for many engineering systems. Four very distinct domains are studied: Structural stress analysis, heat transfer, fluid flow, and modal analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 888 Nonlinear Optimization in Engineering****Prerequisites:** MATH 208; MATH 314; MECH 480/MECH 880**Notes:** Numerical analysis and computer programming recommended.**Description:** Nonlinear optimization using gradient-based and evolutionary methods. Constrained and unconstrained nonlinear optimization, Karush-Kuhn-Tucker conditions, penalty and barrier methods. Applications to optimal design in sciences and engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**MECH 890 Advanced Analysis of Mechanical Engineering Systems****Description:** Engineering mathematics review. Formulation and solution of engineering problems including basic laws, lumped parameter models, and continuous systems. Examples drawn from all areas of mechanical engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 812; MECH 932**MECH 891 Special Topics in Engineering Mechanics****Crosslisted with:** MECH 491**Description:** Treatment of special topics in engineering mechanics by experimental, computational and/or theoretical methods. Topics vary from term to term.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**MECH 898 Laboratory and Analytical Investigations****Crosslisted with:** MECH 498**Description:** Investigation and written report of research into specific problem in any major area of mechanical engineering.**Credit Hours:** 6.00**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LAB**MECH 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**MECH 900 Advanced Thermodynamics****Prerequisites:** Permission**Description:** Classical thermodynamics providing precise and true understanding; advanced methodologies and applications to mechanical engineering tasks; axiomatic foundations of classical thermodynamics, engineering applications to working substances in motion; systematic generalizations to exotic substances; and selected topics as illustrations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 902 Optimal Control Theory****Prerequisites:** MECH 350 or equivalent.**Description:** Dynamic Programming, The Euler-Lagrange equation, Bang-bang principle in optimal control, Viscosity solutions to the Hamilton-Jacobi-Bellman equation, Pontryagin's Maximum Principle to solve optimal control problems, Linear Quadratic Regulator problems, Numerical solutions to optimal control problems, Calculus of variations to solve infinite dimensional optimization problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**MECH 904 Advanced Combustion Theory****Prerequisites:** MECH 804 or equivalent**Description:** Detailed analysis of modern combustion wave theory, particularly chain reaction calculations and flame temperature determination. Gas dynamics of flames. Advanced mass transfer as applied to combustion. Aerodynamics of flame stabilization by vortices. Critical examination of present experimental techniques and results.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 910 Continuum Mechanics****Prerequisites:** MECH 848 and permission**Description:** The continuum. Geometrical foundations of continuum mechanics. Rectilinear and curvilinear frames. Elements of tensor analysis. Analysis of stress. Analysis of strain. Equations of motion. Constitutive equations. Fundamental laws. Applications to deformable systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 939**MECH 912 Advanced Topics in Fluid Dynamics****Prerequisites:** MECH 812 or permission**Description:** Selected topics from one or two of the following fields: magneto-fluid-mechanics, three-dimensional boundary layers, fluid-mechanical stability, hypersonic flow, theory of turbulence, rarefied gas dynamics or other current research interest area.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MECH 915 Stress Waves in Solids**Prerequisites:** MECH 848; MECH 849**Description:** Waves in rods, beams, strings, and membranes. Sound waves in air. Dilational and distortional waves. Reflection and refraction of waves. Rayleigh surface waves. Love waves. Applications of transform theory and the method of stationary phase to wave analysis. Waves in anisotropic and viscoelastic media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 916 Turbulent Flows****Prerequisites:** MECH 812**Description:** Methods of description and basic equations of turbulent flows. Isotropic and homogeneous turbulence, energy spectra and correlations. Introduction to measurements. Transition theory and experimental evidence. Wall turbulence, engineering calculations of turbulent boundary layers. Free turbulent jets and wakes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 918 Fundamentals of Finite Elements****Description:** Derivation and implementation of the finite element method. Introduction to the theory of finite element methods for elliptic boundary-value problems. Applications to time-independent physical phenomena (e.g., deformation of elastic bodies, heat conduction, steady-state fluid flow, electrostatics, flow through porous media). Basic coding techniques. A basic understanding of ordinary differential equations and matrix algebra as well as some programming skills are assumed.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 951**MECH 921 Quality Engineering: Use of Experimental Design and Other Techniques****Description:** Extension of industrial quality control methods and techniques. Off-line and online quality control methods. Development of quality at the design stage through planned experiments and analyses. Experimental design methods include factorial, 2k, 3k, and fractional factorials designs. Includes applied project in design of quality.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 922 Conduction Heat Transfer****Prerequisites:** MECH 820 or permission**Description:** Theory of heat conduction; analytical, numerical, graphical and analog methods of solution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 923 Convection Heat Transfer****Prerequisites:** MECH 820 or permission**Description:** Theory of heat transfer by convection. Analytical, numerical, and empirical solutions. Selected applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 924 Radiation Heat Transfer****Prerequisites:** MECH 820 or permission**Description:** Theory of heat transfer by thermal radiation. Formulation and analytical and numerical solutions. Selected applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 925 Manufacturing and Dynamic Systems Modeling****Prerequisites:** MATH 821**Description:** Difference and differential equation models directly from series of observed data. Underlying system analysis including impulse response, stability and feedback interpretation. Forecasting and accuracy of forecasts. Periodic and exponential trends in seasonal series. Modeling two series simultaneously. Minimum mean squared error control and forecasting by leading indicators. Illustrative applications to real life data in science and engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 930 Mechanics of Composite Materials****Prerequisites:** MECH 848 or permission**Description:** Introduction to composite materials. Properties of an anisotropic lamina. Laminated composites. Failure theories. Analysis of composite structures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 932 Advanced Finite Element Methods****Prerequisites:** MECH 831, MECH 890**Description:** Review of basic finite element methods including field problems and continuum solid mechanics problems. Advanced linear methods: eigenvalues and mode superposition, convection-diffusion problems, Stokes flow problems. Nonlinear methods for heat transfer, fluid flow, and solid mechanics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 933 Theory of Elasticity I****Prerequisites:** MECH 848 and MATH 821**Description:** Plane stress and strain. Solution of two-dimensional problems by polynomials. Two-dimensional problems in polar coordinates. Triaxial stress and strain. Torsion of noncircular cross section. Bending of prismatical bars. Hydrodynamical analogies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MECH 934; MECH 942

MECH 934 Theory of Elasticity II**Prerequisites:** MECH 933**Description:** Foundation of the theory of large deformation. Equations of linear elasticity. Complex representation of the general solution of the equations of plane theory of elasticity. Conformal mapping. Solutions of problems in three-dimensional elasticity in terms of potential functions. Axially symmetric problems. Variational methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 935 Nonlinear Mechanics****Prerequisites:** MECH 848, MECH 849**Description:** Physical systems in solid mechanics which lead to nonlinear differential equations. Graphical, numerical, and exact solutions of the governing differential equations. Physical interpretation of the solution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 936 Theory of Elastic Stability****Prerequisites:** MECH 325 or MECH 373 and MATH 821**Description:** Lateral buckling of beams; failure of columns; bending and buckling of thin plates and shells. Consideration of classical and modern theories.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 937 Theory of Plates and Shells I****Prerequisites:** MECH 848 and MATH 821**Description:** Basic equations for the bending and stretching of thin plates with small deformations. General theory of deformation of thin shells with small deflections. Large deformations theories of plates and shells. Effect of edge conditions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 938 Theory of Plates and Shells II****Prerequisites:** MECH 848, MATH 821**Description:** Large deflection shell theory. Critical examination of effects of boundary conditions. Additional topics from folded plates, orthotropic plates and shells, sandwich plates and shells, use of complex transformations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 939 Viscoelasticity****Prerequisites:** MECH 848 or MECH 910, MATH 821 or MATH 822**Description:** Introduction to linear and nonlinear viscoelastic material behavior. One dimensional response. Linearity of material response. Quasi-static and dynamic problems. Time-temperature superposition. Viscoelastic beams. Multidimensional response. Nonlinear response.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 940 Fracture Mechanics****Prerequisites:** MECH 848 or permission**Description:** Modes of failure. Elastic stress field near cracks. Theories of brittle fracture. Elastic fracture mechanics. Elastic-plastic analysis of crack extension. Fracture toughness testing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 941 Mechanics of Dislocations and Cracks****Prerequisites:** MECH 848 or permission**Description:** Mathematical theory of straight dislocations in isotropic and anisotropic elastic media. Dislocations on and near an interface. Dislocation interactions. Discrete and continuously distributed dislocations. Applications to mechanics of materials: grain boundaries and dislocation pile-ups. Applications to fracture mechanics: Griffith-Inglish crack, Zener-Stroh-Koehler crack, Bilby-Cottrell-Swinden-Dugdale crack.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 942 Theory of Plasticity****Prerequisites:** MECH 933**Description:** Basic concepts of plasticity. Yield conditions and yield surfaces. Torsion of cylindrical bars and Saint Venant-Mises and Prandtl-Reuss theories. General theory of plane strain and shear lines. Steady and pseudo-steady plastic flow. Extremum principles. Engineering applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 943 Machine Design****Prerequisites:** MECH 842 or permission**Description:** The student's competence in designing machine members to withstand various static and dynamic loads, to analyze failure, and to design members for optimum balance of weight, cost, and reliability is advanced to a level beyond that of MECH 843. Impact loading, fatigue, optimum design of mechanical components, lubrication, and environmental considerations (mechanical properties at high and low temperature, creep, stress corrosion, fretting corrosion, etc.) are tested. Laboratory includes completion of one or more realistic individual design projects and the use of engineering case studies to illustrate more complex interactive design than would be feasible to actually carry out in one semester.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MECH 945 Probabilistic Design of Machine Elements**Prerequisites:** MECH 845; STAT 880; or permission**Description:** Application of probability to the design of machine elements. Rational determination of component factor of safety based on probability densities of strength and of in-service stress. Statistical study of cumulative damage resulting from varying magnitude stress cycles. Probability of survival of fatigue-life design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 950 Impact Engineering****Prerequisites:** MECH 851**Description:** Design and analysis of structures that undergo impact. Nonlinear, large-deformation finite element analysis of structures. Vehicle crashworthiness, roadside safety design, sheet metal forming, and projectile impacts.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 951 Advanced Topics in Finite Element Methods****Prerequisites:** MECH 851 or MECH 918, or permission**Description:** Theory and application of finite element methods. Topic varies with interest of instructor and may include: finite elements for the analysis of fracture; mixed variational formulations; hybrid stress elements; plasticity; non-linear elasticity; large deformations of structures; plate and shell elements; transverse shear effects in beams, plates and shells; "locking" phenomena; treatment of singularities; dynamics of large systems; "enhanced" strain methods; methods for solving non-linear algebraic systems; architecture of computer codes for non-linear finite element analysis; and treatment of constraints arising in nearly incompressible material models.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 952 Experimental Stress Analysis II****Prerequisites:** MECH 848 and MECH 852**Description:** Surface strains and their measurement, principally by bonded wire resistance strain gages. Static and dynamic measurements using both oscilloscope and direct writing oscillograph, associated electrical circuits. Use of brittle coating in conjunction with strain gages. Evaluation of stresses from strain data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 958 Advanced Mechatronics****Prerequisites:** MECH 457/MECH 857**Description:** Theory, application, simulation, and design of systems that integrate mechanical, computer, and electronics components. Analyze, design, simulate, and build mechatronic systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 970 Advanced Manufacturing Processes****Prerequisites:** MECH 870**Description:** Theory, practice and technology of advanced manufacturing processes, with emphasis on process mechanism, surface integrity, tool and machine design, adaptive control and expert systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 975 Advanced Vibrations****Prerequisites:** MECH 875**Description:** Variational mechanics, Hamilton's principle, and energy formulations for linearly elastic bodies. Eigenvalue and boundary value problems. Non-self adjoint systems. Approximate methods: Ritz and Galerkin. Gyroscopic systems. Nonconservative systems. Perturbation theory for the eigenvalue problem. Dynamics of constrained systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MECH 991 Seminar****Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 10**Format:** LEC**MECH 996 Advanced Laboratory and Analytical Investigations****Description:** Semester projects involving research into a specific problem in any major area of mechanical engineering.**Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LAB**MECH 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Mechanized Systems Management (MSYM)

MSYM 812 Hydraulic Power Systems**Prerequisites:** MSYM 245 and 312**Description:** Theory and application of fluids under controlled pressure to perform work in mobile and industrial applications. Operation of components and functional planning of circuits with emphasis on troubleshooting and analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MSYM 816 Sensors and Control Systems for Agri-Industries**Prerequisites:** MSYM 245**Description:** Application of sensors for measurement of process control variables and implementation of microcomputer-based measurement and control systems. Basic electrical and electronic instrumentation plus control of electrically, pneumatically and/or hydraulically powered systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MSYM 832 Mechanized Agricultural Systems****Prerequisites:** Permission**Notes:** Offered odd-numbered calendar years.**Description:** Advanced concepts of equipment used in agriculture. Site specific management (precision agriculture). Hardware development and information technologies applied to generic agricultural production.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MSYM 833 Equipment and Tractor Testing****Crosslisted with:** MSYM 433**Prerequisites:** MSYM 232; and STAT 218 or STAT 380 or MECH 321**Notes:** Offered spring semester in even-numbered calendar years.**Description:** Principles and procedures involved in testing agricultural equipment and tractors. Actual test planned, scheduled, conducted and reported. Test may be based upon procedures used at the Nebraska Tractor Testing Laboratory or involve other equipment being used for research in the department.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**MSYM 836 Embedded Controls for Agricultural Applications****Crosslisted with:** AGEN 436, MSYM 436, AGEN 836**Prerequisites:** AGEN/BSEN 260 or MSYM 416**Description:** Introduction to the basics of embedded controller programming, and the development of Controller Area Network (CAN) bus systems in agricultural applications. Interfacing sensors with analog and digital signals, closed loop control of actuators, transmission and reception of CAN messages, programming of CAN messages in a distributed controller set up for sensor data acquisition, and actuator control will be studied.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**MSYM 852 Irrigation Systems Management****Crosslisted with:** MSYM 452, WATS 452, AGRO 452**Prerequisites:** MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211**Notes:** AGRO/SOIL 153 recommended.**Description:** Irrigation management and the selection, evaluation, and improvement of irrigation systems. Includes soil-water measurement, crop water use, irrigation scheduling, irrigation efficiency, measurement of water flow, irrigation systems, groundwater and wells, pumping systems, applying chemicals with irrigation systems, and environmental and water resource considerations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**Prerequisite for:** AGEN 854, MSYM 854; AGEN 955, AGRO 955, CIVE 955, GEOL 985; MSYM 855**MSYM 854 Irrigation Laboratory and Field Course****Crosslisted with:** AGEN 854**Prerequisites:** AGEN 453/853, or MSYM 452/852**Notes:** Offered during the summer pre-session in even calendar years.**Description:** A laboratory and field course which emphasizes irrigation water supply and distribution systems. Laboratory topics include performance of surface, sprinkler, and drip irrigation systems; pipeline hydraulics; flow in streams, canals, and irrigation pipelines; irrigation pumping systems; irrigation well hydraulics; and soil water properties. The field trip includes visits to irrigation water supply and hydroelectric power projects; water resources agencies; irrigation field research sites; and manufacturers and installers of agricultural irrigation systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**Offered:** SUMMER**Prerequisite for:** AGEN 954**MSYM 855 Advanced Irrigation Management****Prerequisites:** MSYM 852 or equivalent**Notes:** AGRO 861 recommended**Description:** Theory and practice in on-farm irrigation management including irrigation response functions and irrigation uniformity concepts; field evaluation of surface and sprinkler irrigation systems; estimation of evapotranspiration and irrigation scheduling; water quality problems and salinity control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MSYM 862 Equipment Systems****Crosslisted with:** MSYM 462**Prerequisites:** Senior standing in MYSM**Notes:** Capstone course.**Description:** Team-based activities to evaluate equipment systems, make technical and economic recommendations, develop professional written and oral reports. Topics include equipment system performance and management, project scheduling and planning, cost estimation, reliability analysis, and risk assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MSYM 865 Food Engineering Unit Operations**Crosslisted with:** FDST 465, FDST 865, MSYM 465**Prerequisites:** FDST/MSYM 363.**Description:** Unit operations and their applications to food processing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MSYM 869 Bio-Atmospheric Instrumentation****Crosslisted with:** AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, AGRO 869, GEOG 869, HORT 807, METR 869, NRES 869**Prerequisites:** Junior standing; MATH 106; 4 hrs physics; physical or biological science major.**Description:** Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Physical Geography**MSYM 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 475, POLS 475, POLS 875**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**MSYM 892 Special Topics in Mechanized Systems Management****Crosslisted with:** MSYM 492**Prerequisites:** Permission**Description:** Subject matter in emerging areas of Mechanized Systems Management not covered in other courses within the curriculum. Topics, activities, and delivery methods vary.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**MSYM 896 Principles and Problems in Mechanized Agriculture****Crosslisted with:** MSYM 496**Prerequisites:** 15 hours in MSYM or closely related area.**Description:** Individual or group projects in research, literature review, or extension of course work under the supervision and evaluation of a departmental faculty member.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 12**Format:** IND**MSYM 897 Masters Project****Crosslisted with:** AGEN 897, BSEN 897**Prerequisites:** Admission to M.S. in Agricultural and Biological Systems Engineering or M.S. in Mechanized Systems Management, and permission of major advisor**Notes:** Intended for students who are pursuing an Option II or III master's degree in Agricultural and Biological Systems Engineering, or Mechanized Systems Management.**Description:** Conception, design, development, and completion of a project that requires data collection, synthesis, analysis of results, and the development of a final written report that will be defended in the final oral examination.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**MSYM 898 Special Projects in Management of Mechanized Systems****Prerequisites:** 15 hours in mechanized systems management or closely related area**Description:** Individual project specifically designed for a student to pursue or explore a special topic under the guidance and evaluation of a faculty member.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**MSYM 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND

Medieval and Renaissance Studies (MRST)

MRST 814 Medieval Culture

Crosslisted with: HIST 414, HIST 814, MRST 414

Prerequisites: Junior standing.

Notes: Pre-1800 content.

Description: Historical context of changes in religion, literature, philosophy, and the arts, 400-1450.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

MRST 821 The German Reformation

Crosslisted with: HIST 421, HIST 821, RELG 421, MRST 421

Prerequisites: Junior standing.

Notes: Pre-1800 content.

Description: The cultural and intellectual developments of the German Reformation against its social background. The religious and political events of the first half of the sixteenth century. Transition from medieval to modern Christianity. The transmission and revolutionary nature of evangelical doctrines. The gradual institutionalization of the new churches.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

MRST 826 Reformation Thought

Crosslisted with: HIST 426, HIST 826, MODL 426, MODL 826, MRST 426, RELG 426, RELG 826

Prerequisites: Junior standing

Description: Life and thought of significant figures and schools of thought in the Reformation period

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

MRST 830 Early European History Through Biography

Crosslisted with: HIST 430, HIST 830, MRST 430

Prerequisites: Junior standing

Notes: Pre-1800 content.

Description: Individuals from late medieval/early modern Europe, such as Joan of Arc, Henry V, and Eleanor of Aquitaine. Examines how history can be used to serve social, cultural, and political needs, and the difficulties of determining historic truth about a person or event.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

MRST 832 England: Reformation to Revolution, 1530-1660

Crosslisted with: HIST 432, HIST 832, MRST 432

Prerequisites: Junior standing.

Notes: Pre-1800 content.

Description: History of English society, politics, and culture from the time of Henry VIII through that of Elizabeth I, Shakespeare, Donne, Charles I, Cromwell, and Milton.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

Meteorology (METR)

METR 808 Microclimate: The Biological Environment

Crosslisted with: AGRO 408, GEOG 408, HORT 408, METR 408, NRES 408, WATS 408, AGRO 808, GEOG 808, HORT 808, NRES 808

Prerequisites: Junior standing, MATH 106 or equivalent, 5 hrs physics, major in any of the physical or biological sciences or engineering.

Description: Physical factors that create the biological environment.

Radiation and energy balances of earth's surfaces, terrestrial and marine. Temperature, humidity, and wind regimes near the surface. Control of the physical environment through irrigation, windbreaks, frost protection, manipulation of light, and radiation. Applications to air pollution research. Instruments for measuring environmental conditions and remote sensing of the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGRO 907, HORT 907, METR 907, NRES 907; BSEN 954, NRES 954

Groups: Physical Geography

METR 811 Dynamic Meteorology I

Prerequisites: CSCE 150E; MATH 208/208H; METR 205; PHYS 211/211H

Description: Equations of thermodynamics, momentum, and continuity are derived and applied to atmospheric motion. Energy conservation, flows, and conversions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: METR 943

METR 812 Dynamic Meteorology II

Prerequisites: CSCE 150E; MATH 221/821; METR 311; PHYS 211/211H

Description: Applications of the principles of dynamic meteorology to the problems of forecasting and meteorological problems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: METR 943

METR 815 General Circulation of the Atmosphere**Crosslisted with:** METR 415**Prerequisites:** Junior standing; METR 475/875; PHYS 211/211H; and PHYS 221.**Description:** Development of the atmospheric circulation regimes, from planetary scale (e.g., the planetary waves) to synoptic scale (e.g., the cyclones and anticyclones) and mesoscale, their seasonal variations, and their roles in horizontal vertical energy and water transport and budgets in the Earth system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 821 Cloud Physics****Crosslisted with:** METR 421**Prerequisites:** METR 223 and METR 323 or equivalent.**Description:** Buoyancy and parcel mixing, cloud physics instrumentation, the role of aerosols in precipitation processes, growth of liquid cloud droplets/raindrops/ice crystals, processes associated with falling precipitation particles, drop size distributions and their moments, applications to convection, and parameterizations of cloud microphysical processes for numerical modeling applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 823 Physical Meteorology****Prerequisites:** CSCE 150E; METR 205; PHYS 212/212H**Description:** Physical principles that provide the foundation for meteorology. Absorption, scattering, and transmission of radiation in the atmosphere, cloud physics, precipitation process, atmospheric optics, atmospheric electricity, and lightning.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** METR 924**METR 828 Air Pollution****Crosslisted with:** METR 428**Prerequisites:** 6 hrs. METR and CHEM 109.**Description:** Basic processes (e.g., emission, transport, first-order chemical reaction, and deposition) associated with air pollution and their combination with meteorology for air quality forecasting. Environmental topics: acid rain; smog; air pollution; ozone hole; greenhouse gases; aerosols; long-range transport; civic regulations and international treaties on air pollution; and climate change.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 833 Boundary-layer Meteorology****Crosslisted with:** METR 433**Prerequisites:** METR 223 and MATH 208/208H**Description:** Basic concepts of atmospheric turbulence and fundamental dynamics, thermodynamics, and structure of the atmospheric boundary layer are discussed. Atmospheric boundary layer parameterizations used in modern weather and climate models are presented.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** METR 933**METR 841 Synoptic Meteorology****Prerequisites:** METR 205**Description:** Dynamic and thermodynamic concepts and principles applied to synoptic-scale weather forecasting. Dynamics, energetics, structure, evolution, and motion of extra-tropical cyclones. Meteorological communications, interpretation and analysis of weather maps, and thermodynamic diagrams.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**METR 842 Advanced Synoptic Meteorology-Climatology****Crosslisted with:** METR 442**Prerequisites:** METR 341.**Description:** Analysis and forecasting of subsynoptic-scale weather systems. Convection, thunderstorm models, severe local storm forecasting techniques, mesoscale convective complexes, vertical cross-sections, isentropic analysis, and weather radar.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** METR 944**METR 843 Severe Storms Meteorology-Climatology****Crosslisted with:** METR 443**Prerequisites:** METR 311, METR 341 or parallel**Description:** Dynamics of various types of severe weather (blizzards, flash floods, lightning, thunderstorms and winter and summer tornado outbreaks). Interpretation of the numerical and statistical models utilized to forecast these phenomena. Synoptic case studies of severe weather occurrences. Recent research on severe weather.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 844 Mesoscale Meteorology****Crosslisted with:** METR 444**Prerequisites:** METR 311**Description:** Dynamics and conceptual models of mesoscale meteorological phenomena and processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

METR 850 Climate and Society

Crosslisted with: AGRO 450, GEOG 450, METR 450, NRES 452, AGRO 850, GEOG 850, NRES 852

Prerequisites: Junior standing or above.

Notes: Offered spring semester of even-numbered calendar years.

Description: Impact of climate and extreme climatic events on society and societal responses to those events. Global in scope and interdisciplinary.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

Groups: Physical Geography

METR 854 Statistical Analysis of Atmospheric Data

Crosslisted with: METR 454

Prerequisites: 6 hrs METR and MATH 107/107H.

Description: Application of univariate statistics, hypothesis testing, statistical forecasting, forecast verification, time-series analysis, principal component analysis, and cluster/multivariate analysis to atmospheric data for different applications in the atmospheric sciences (from short-term weather forecast to long-term climate prediction).

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: METR 965

METR 863 Radar Meteorology

Crosslisted with: METR 463

Prerequisites: METR 323.

Description: The fundamental principles of weather radars and the basic application of these principles.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 864 Satellite Meteorology

Crosslisted with: METR 464

Prerequisites: METR 223.

Description: Concepts and principles related to meteorological observations from satellites. Applications for weather analysis and forecasting.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 865 Satellite Remote Sensing of Atmosphere

Crosslisted with: METR 465

Prerequisites: METR 323

Description: Principles of atmospheric radiation and techniques for satellite image processing. Application of data calibration, image registration and enhancement, noise filtering and multi-spectral classification of satellite images. Survey of various satellite sensors used for monitoring different atmospheric processes and constituents.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 869 Bio-Atmospheric Instrumentation

Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, AGRO 869, GEOG 869, HORT 807, MSYM 869, NRES 869

Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.

Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Physical Geography

METR 870 The Climate System: Analysis and Prediction

Crosslisted with: METR 470

Description: Maintenance of the climate system and climate change over time. Global budgets of energy, water, and momentum and their balance. Development of simple, physically-based models of climate and of climate change.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 871 Tropical Meteorology

Crosslisted with: METR 471

Prerequisites: METR 223 and METR 311.

Description: Atmospheric phenomena unique to the tropics, and their connection to the global circulation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 875 Physical Climatology

Crosslisted with: METR 475

Prerequisites: METR 205.

Description: Global energy and water balance regimes of the earth and its atmosphere. Utilization of physical laws to reveal causes and effects of interrelationships in the climatic system.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: METR 415, METR 815; METR 483, METR 883, NRES 467, NRES 867

METR 878 Regional Climatology

Crosslisted with: METR 478, NRES 478, NRES 878

Prerequisites: NRES/METR 370.

Description: Regional differentiation of the climates of the earth on both a descriptive and dynamic basis. The chief systems of climatic classification.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 879 Hydroclimatology

Crosslisted with: NRES 479, METR 479, WATS 479, BSEN 479, NRES 879, BSEN 879

Prerequisites: NRES 208 or METR 100 or METR/NRES 370.

Notes: Offered spring semester of even-numbered calendar years.

Description: Interaction between earth's climate and the hydrologic cycle. Energy and water fluxes at the land-atmosphere interface. Atmospheric moisture transport, precipitation, evaporation, snowmelt, and runoff. Impacts of climate variability and change on the hydrologic cycle.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 880 Theory of Climate

Prerequisites: MATH 221/821 or MATH 221H; PHYS 142 or equivalent

Description: Foundation and maintenance of earth's climate system and its variation over time. Climate modeling.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 883 Global Climate Change

Crosslisted with: METR 483, NRES 467, NRES 867

Prerequisites: Junior standing; and METR 475/875.

Notes: Offered fall semester of even-numbered calendar years.

Description: Elements of climate systems, El Nino/LaNina cycle and monsoons, natural variability of climate on interannual and interdecadal scales. Paleoclimate, and future climate, developed climate change scenarios and climate change impacts on natural resources and the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 887 Earth's Climate: Past, Present, Future

Crosslisted with: METR 487

Prerequisites: 6 hrs METR or 6 hrs GEOL.

Description: How the Earth's climate has varied and the forcing mechanisms related to those changes. Themes that reappear through Earth's climate history and into the future; causes of climate change; the natural response times of the multiple components; and the role of greenhouse gases within the climate system at differing time scales.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 895 Internship in Meteorology-Climatology

Crosslisted with: METR 495

Prerequisites: Permission.

Description: Application of meteorology-climatology learning with on-the-job training.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: FLD

METR 898 Special Topics in Meteorology-Climatology

Crosslisted with: METR 498

Prerequisites: Permission.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

METR 903 Seminar in Meteorology and Climatology

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 907 Agricultural Climatology

Crosslisted with: AGRO 907, HORT 907, NRES 907

Prerequisites: NRES 808; STAT 801A or equivalent

Description: Offered spring semester of odd-numbered calendar years.

Analysis and use of climatological data as applied to agricultural activities and the use of climatological information to assist in decision making.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 908 Research Practicum

Prerequisites: Graduate standing.

Description: A cohort of students from a variety of STEM disciplines will apply concepts in interdisciplinary science collaboration and communication, data analytics, and research methods. This application will occur in a real-world context as students work together to develop and carry out a research project leading to results suitable for publication in the peer-reviewed literature, or to a high-quality proposal suitable for submission to a funding agency. Students will learn about writing and reviewing proposals for funding, and about writing and reviewing manuscripts for the peer-reviewed literature.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 924 Atmospheric Radiative Transfer

Prerequisites: METR 423/823; MATH 221/221H/821; and permission

Description: Theory of scattering by atmospheric particles (e.g., clouds, aerosols, and molecules), atmospheric radiative transfer equations, and techniques for solving these equations. Atmospheric transfer of both solar and terrestrial radiation. Numerical experiments with radiative transfer models and comparison with observations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 933 Land-atmosphere Interactions

Prerequisites: METR 433/833, or equivalent

Description: Investigate the physical processes involved in land-atmosphere interactions, focusing on the coupling between land surfaces (especially the soil and vegetation cover) and the atmospheric boundary layer.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

METR 943 Dynamics of Severe Convective Storms**Prerequisites:** METR 411/811 and 412/812, or equivalent**Description:** Advanced concepts related to severe convective storms. Tornado-genesis, super-cell formation, rotation, movement, morphology, quasi-linear convective systems, deep convective initiation, hail, mesoscale convective systems, and RKW (Rotunno-Klemp-Weisman) theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 944 Advanced Synoptic Theory and Application****Prerequisites:** METR 842 or equivalent**Description:** Advanced theoretical background in synoptic meteorology, and opportunities to apply these concepts to real-world problems. Topics include the quasi-geostrophic equations, static stability effects, midlatitude cyclones, upper-level waves, frontogenesis, semi-geostrophic theory, potential vorticity, and IPV thinking.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 965 Radar Signal Processing and Applications****Prerequisites:** MATH 322/822 or equivalent, METR 454/854 or equivalent, METR 323 or equivalent**Description:** Hands-on signal processing experience designed to build understanding of radar signal processing methods and radar data limitations. Topics include propagation of radiation, pulse modulation, application of the radar equations, signal statistics and Fourier methods, advanced methods to gather atmospheric data using radar and radar polarimetry.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**METR 987 Seminar in Climatic Change****Description:** Climates of the past emphasizing the Quaternary period. Paleogeographic changes in response to climatic fluctuations. Techniques for recording and reconstructing past climatic variations. Modeling the changing climate. Climatic changes and human affairs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

Modern Languages (MODL)

MODL 826 Reformation Thought**Crosslisted with:** HIST 426, HIST 826, MODL 426, MRST 426, MRST 826, RELG 426, RELG 826**Prerequisites:** Junior standing**Description:** Life and thought of significant figures and schools of thought in the Reformation period**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Pre-1800 History**MODL 842 Survey of Medieval German Literature in Translation****Crosslisted with:** GERM 442, GERM 842, MODL 442**Prerequisites:** Permission.**Notes:** German majors expected to read the works in German translation and to write their papers in German. Non-German majors read the works in English translation.**Description:** Development of German vernacular literature during the Middle Ages. Include works that represent the philosophical/religious literature, the heroic epic, and the romance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MODL 843 Dante and His Times****Crosslisted with:** MODL 443**Description:** The Divina Commedia and some minor works; extensive readings in the social background of the thirteenth and fourteenth centuries.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MODL 854 Russian Intellectual Tradition****Crosslisted with:** MODL 454, RUSS 454, RUSS 854**Prerequisites:** Junior standing.**Description:** Major Russian thinkers from 1700 to the present. Focus on the evolution of ideas in the Russian context and the relationship between Russian and European thought.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MODL 870 Introduction to Literary Theory****Description:** Lecture and discussion about important figures and movements in the history of literary theory. Reading of representative texts to develop a critical lexicon. Bibliographic and methodological component, tailored to needs of modern language students, and required of all graduate students.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MODL 872 Digital Humanities Practicum****Crosslisted with:** ENGL 472, ENGL 872, HIST 472, HIST 872, ANTH 471, ANTH 871, MODL 472**Prerequisites:** Junior standing.**Description:** Provide students with real, in-depth experience in collaboratively creating digital humanities projects. Guided by faculty with expertise in a broad range of digital humanities methods and resources, students work in teams to tackle challenges proposed by UNL researchers and/or local and regional humanities organizations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Digital Humanities

MODL 878 Pro-seminar in Latin American Studies

Crosslisted with: ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, ANTH 878, GEOG 878, HIST 878, POLS 878, SOCI 878, EDPS 878

Prerequisites: Junior standing and permission.

Notes: Topical seminar required for all Latin American Studies majors.

Description: An interdisciplinary analysis of topical issues in Latin American Studies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

Groups: Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research

MODL 880 Seminar in Applied Linguistics and Methodology

Description: Theoretical and practical aspects of second language teaching and learning with special emphasis on the application of principles of applied linguistics along with related disciplines of education to structured teaching and learning situations. MODL 880, or its equivalent, is required of all graduate students in modern languages. It does not qualify as a course for Nebraska State Teacher Certification.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 883 Curriculum Design and Language Program Direction

Crosslisted with: TEAC 883

Description: Examination of curriculum design and language program direction for foreign/second language learning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 891 Special Topics

Crosslisted with: MODL 491

Description: Consideration of topics in the area of language, literature, and civilization.

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: LEC

MODL 895 Internship in Digital Humanities

Crosslisted with: ENGL 895E, HIST 895

Description: Active participation in an ongoing digital humanities project in the Center for Digital Research in the Humanities, including weekly meetings designed to build technical and project management skills.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 918 Interdisciplinary Seminar in Nineteenth-Century Studies

Crosslisted with: ENGL 918, HIST 918

Description: Invention of the nineteenth century, gender, colonialism, class, realism science and technology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

MODL 919 Interdisciplinary Approaches to the Nineteenth Century

Crosslisted with: ENGL 919, HIST 919

Description: Introduction to the nineteenth century in North America (focusing on the US), Great Britain, and Europe (focusing on France, Germany, Russia, and Spain), organized through themes such as constructions of gender and sexuality, democracy in the nation-state, and challenges to religion.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 946 Interdisciplinary Readings in Digital Humanities

Crosslisted with: HIST 946, ENGL 946, ANTH 946

Description: Methods, theories, and practices of digital humanities scholarship.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 988 Introduction to the Interdisciplinary Study of the Middle Ages

Crosslisted with: AHIS 988, ENGL 988, HIST 988, MUSC 988

Description: Methods and state of research in the disciplines—art, music, literature, language, history, philosophy—dealing with the Middle Ages.

Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MODL 989 Introduction to the Interdisciplinary Study of the Renaissance

Crosslisted with: AHIS 989, ENGL 989, HIST 989, MUSC 989

Description: Methods and state of research in the disciplines—art, music, literature, language, history, philosophy—dealing with the Renaissance.

Assistance in independent reading and research in subjects related to the student's own research interests. Taught jointly by faculty members in art, music, theatre, English, history, classics, modern languages, and philosophy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Music (MUSC)

MUSC 824 Piano Pedagogy I: Foundations, Philosophies, and Theories

Crosslisted with: MUSC 424

Prerequisites: 10 hrs applied piano.

Description: The history, materials, and methodologies of piano pedagogy from a perspective of wellness promotion. Special issues pertaining to teaching beginning, intermediate, and advanced students. Observation experience and a supervised teaching practicum.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: MUSC 425, MUSC 825

Groups: Music Literature and Pedagogy

MUSC 825 Piano Pedagogy II: Approaches to Studio Teaching**Crosslisted with:** MUSC 425**Prerequisites:** MUSC 424/824.**Description:** Issues pertinent to studio piano teaching, including business issues, developing effective strategies for teaching selected musical and technical skills. Observation experience and a supervised teaching practicum.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MUSC 826**Groups:** Music Literature and Pedagogy**MUSC 826 Piano Pedagogy III: Pedagogical Methods and Literature****Prerequisites:** MUSC 825**Notes:** MUSC 826 requires observation experience and a supervised teaching practicum.**Description:** Teaching methods and literature. Identification of musical/interpretive and technical challenges in literature. Development of strategies for sequencing literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MUSC 827**MUSC 827 Piano Pedagogy IV: Group Teaching and Research and/or Writings****Prerequisites:** MUSC 826**Notes:** MUSC 827 requires observation experience and a supervised teaching practicum.**Description:** Teaching piano in group settings. Relational dynamics and curricular issues. Individual research and writing on selected topic of interest serves as a culminating experience for the piano pedagogy course sequence.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUSC 830J Music and Text in the English Renaissance****Crosslisted with:** ENGL 830J**Prerequisites:** MUSC 366**Description:** Interconnections between musical and literary composition at a time when practitioners in both areas were profoundly influenced by developments in each others' fields.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUSC 835 Music and Film: History and Analysis****Crosslisted with:** MUSC 435**Prerequisites:** MUSC 366 or THEA 489/889.**Description:** Selected films, composers, scores, and the historical contexts. Historical trends in film and film scoring as well as how those trends are being interpreted by contemporary filmmakers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Music History**MUSC 836 Introduction to Graduate Studies in Music I****Description:** Music as a field of scholarly inquiry, incorporating basic research tools and techniques.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**MUSC 837 History of Jazz: Origins to Bop****Crosslisted with:** MUSC 437**Prerequisites:** MUSC 366.**Description:** The history of jazz from its musical antecedents in the Nineteenth Century to the birth of modern jazz via Bebop in the 1940s. Important musical artists and trends within the larger context of American history in the Twentieth Century.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Music History**MUSC 838 History of Jazz: Post Bop****Crosslisted with:** MUSC 438**Prerequisites:** MUSC 366.**Description:** The development of modern jazz from the late 1940s to the present. Important artists and trends within the larger context of American history in the Twentieth Century.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Music History**MUSC 839 Music in the Lives of People****Description:** Roles and functions of music among various groups of people. Music - Composition (MUCP)

MUCP 810 Film-scoring for Music Majors**Crosslisted with:** MUCP 410**Prerequisites:** Major in Music**Description:** Fundamentals of music composition for visual media will be addressed, including technical and creative aspects for the preparation of distribution-ready music for use in motion pictures. Students will collaborate with producers of original films with no pre-existing music.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**MUCP 860 Computer Programming in Electronic Music****Crosslisted with:** MUCP 460**Description:** Exploration of powerful synthesis, interface, and control capabilities of various software programs with a focus on generating and manipulating audio. This is a hands-on, practical and technical overview of practices relating to the creative use of working with digital audio useful for software-based step-sequencers, synth bass/pads, musical interfaces, and many other tools for digital media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUCP 885 Orchestration****Crosslisted with:** MUCP 485**Notes:** Letter Grade only.**Description:** Exploration of instrumental color and orchestral style, covering idiomatic writing for individual and groups of instruments, traditional and contemporary notational practices, and modern digital applications for score production.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**MUCP 886 Jazz Arranging I: Small Ensembles****Crosslisted with:** MUCP 486**Prerequisites:** MUSC 266**Notes:** Fluency in basic jazz theory is strongly recommended.**Description:** Development of basic professional competency in the areas of scoring and music preparation for small jazz ensembles of varying instrumentations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MUCP 487, MUCP 887**MUCP 887 Jazz Arranging II: Large Ensembles****Crosslisted with:** MUCP 487**Prerequisites:** MUCP 486/886**Description:** Development of basic professional competency in the areas of scoring and music preparation for large jazz ensembles of varying instrumentations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUCP 983 Seminar in Music Composition****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC

Music - Ensembles (MUEN)

MUEN 841 All-Collegiate Choir**Notes:** Audition not required. Off-campus performance as approved by the instructor and the Director of the School of Music.**Description:** Standard choral works.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR

MUEN 843 Varsity Chorus**Notes:** Choral ensemble for tenor or bass voices.**Description:** Rehearsal and performance of tenor and bass choral literature chosen from folk songs, spirituals, Broadway and Cornhusker favorites.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR**MUEN 844 Small Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844A String Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844E Brass Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844I Clarinet Choir****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844J Flute Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844L Trombone Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844M Horn Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844P Percussion Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844T Saxophone Ensemble****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR**MUEN 844U New Music Consort****Notes:** Requires off-campus performances as approved.**Description:** Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 4**Format:** SDO**Offered:** FALL/SPR

MUEN 844V Small Vocal Ensemble

Notes: Requires off-campus performances as approved.

Description: Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Format: SDO

Offered: FALL/SPR

MUEN 844W Tuba/Euphonium Ensemble

Notes: Requires off-campus performances as approved.

Description: Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Format: SDO

Offered: FALL/SPR

MUEN 844Y Jazz Small Group

Notes: Requires off-campus performances as approved.

Description: Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Format: SDO

Offered: FALL/SPR

MUEN 844Z Pep Band

Notes: Requires off-campus performances as approved.

Description: Small groups of primarily like instruments organized for supervised and scheduled rehearsals of music appropriate for the ensemble.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Format: SDO

Offered: FALL/SPR

MUEN 845 The University Singers

Notes: Audition required. Performances on and off campus as approved by the instructor and the Director of the School of Music.

Description: Repertoire from the choral literature of the Renaissance through contemporary periods.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

MUEN 846 University Chorale

Notes: Choral ensemble for soprano and alto voices.

Description: Rehearsal and Performance of soprano and alto choral literature.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

Offered: FALL/SPR

MUEN 847 Symphony Orchestra

Notes: Audition required. Off-campus performances as approved by the instructor and the Director of the School of Music. May include collaborations with faculty, students, or guest soloists, and with choral ensembles.

Description: Rehearsal and performance of major orchestral works of the eighteenth through the twenty-first centuries.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

Offered: FALL/SPR

MUEN 848 Bands

Prerequisites: 2.00 GPA

Notes: First round auditions must be completed by July 1.

Description: Rehearsal and performance of literature appropriate for various kinds of bands.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

Offered: FALL/SPR

MUEN 848A Wind Ensemble

Prerequisites: 2.00 GPA

Notes: First round auditions must be completed by July 1.

Description: Rehearsal and performance of literature appropriate for various kinds of bands.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

MUEN 848B Symphonic Band

Prerequisites: 2.00 GPA

Notes: First round auditions must be completed by July 1.

Description: Rehearsal and performance of literature appropriate for various kinds of bands.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

MUEN 849 Chamber Singers

Notes: Audition required. Off-campus performances as approved by instructor and the Director of the School of Music.

Description: Select vocal ensemble specializing in the rehearsal and performance of vocal chamber music ranging from early music to contemporary literature.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 12

Format: SDO

Offered: FALL/SPR

MUEN 852 Graduate Chamber Music**Notes:** Off-campus performances as approved.**Description:** Quartets, trios, duos, and miscellaneous chamber groups organized for supervised and scheduled rehearsals and performances of music appropriate for the ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR**MUEN 853A UNL Jazz Orchestra****Notes:** Open by audition or by permission of the Director of Jazz Studies. Auditions are held the weekend before each term. Performances are held on and off campus as approved by the Director of Jazz Studies and the Director of the School of Music.**Description:** Jazz instrumental large ensemble.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR**MUEN 853B UNL Big Band****Notes:** Open by audition or by permission of the Director of Jazz Studies. Auditions are held the weekend before each term. Performances are held on and off campus as approved by the Director of Jazz studies and the Director of the School of Music.**Description:** Jazz instrumental large ensemble of standard instrumentation.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR

Music - Opera (MUOP)

MUOP 855 Musical Theatre Techniques**Crosslisted with:** THEA 455, THEA 855, MUOP 455**Description:** Advanced training in the integration of acting, movement, and singing skills for the performance of musical theatre. Training in artistic decision making that generates a character within a musical. Focus on a discipline of preparation and the resulting practice of performance; practical experiences with solos, duets, and ensembles from American Musical Theatre Repertoire.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Opera/Music Theatre Performanc**MUOP 856 Advanced Opera Performance Techniques****Prerequisites:** MUOP 356 or audition and permission**Description:** Techniques of role development. Advanced opera performance training through the coordination of singing, movement, emotional expression, and characterization.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**MUOP 857 Music Theatre Performance****Prerequisites:** Audition and permission**Description:** Preparation for and performance of a chorus, minor, or major role in a fully staged Nebraska (Lincoln) Opera Theatre production.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUOP 858 Philharmonia Chamber Orchestra****Crosslisted with:** MUOP 358, MUOP 58**Notes:** Open by audition or permission of ensemble director.**Description:** Rehearsal and performance of chamber orchestral and operatic repertoire of the seventeenth through the twenty-first centuries.**Credit Hours:** 1.00**Max credits per semester:** 1**Max credits per degree:** 12**Format:** SDO**Offered:** FALL/SPR**Groups:** Opera/Music Theatre Performanc

Music Education (MUED)

MUED 832 Beginning Graduate Studies in Music Education**Prerequisites:** Undergraduate degree in music education**Description:** An introduction to the National Core Arts (Music) Standards and selected library, Internet, and writing style resources necessary for success in music education graduate study.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 834 Advanced Instrumental Conducting****Prerequisites:** MUSC 376**Description:** Extension of basic conducting skills as related to orchestral and band literature; score analysis, keyboard and pitch imagery skills, advanced baton technique, interpretation and expressive conducting. Addresses the art of conducting from the experienced educator's perspective.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 836 Psychology and Sociology of Music****Description:** Psychological and sociological principles involved in music learning and performance. Musical aspects of human development, motivation, expressive performance, creativity, performance anxiety, emotional response to music listening, and social uses of music.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

MUED 838 Inclusive Music Education

Description: Function and contribution of music in the education of the handicapped. Methodology and materials to implement an effective music program. Development of musical experiences for exceptional students of all ages. Public Laws 94-142 and 95-561, music Individualized Education Programs, assessments, adaptations of curriculum materials, current methodologies and research.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 843 Introduction to Research in Music Education

Prerequisites: Undergraduate degree in music education

Description: Interpretation and application of research results. Enables student to design, implement, and report research in the classroom.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: MUED 898

MUED 845 Historical and Philosophical Foundations of American Music Education

Crosslisted with: TEAC 845

Prerequisites: Undergraduate degree in MUED

Notes: MUED 845 is required for a graduate degree in music education.

Description: Historical overview of American music education practices from the Singing School tradition to today. Major philosophical influences in American music education, writings regarding aesthetic education, equity, ethical practice, gender, meaning, and profundity. The writings of Stuble, Reimer, Mark, Gary, Hylton, Richmond and others are considered.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 862 Choral Literature and Conducting for School Ensembles

Prerequisites: MUSC 374

Description: Selection and evaluation of choral music for the school ensemble. Curricular concerns, rehearsal and conducting techniques.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 863 Instrumental Literature and Conducting for School Ensembles

Prerequisites: MUSC 374

Description: Selection and evaluation of instrumental music for the school ensemble. Curricular concerns, rehearsal and conducting techniques.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 873 Approaches to Middle School General Music

Crosslisted with: MUED 473, TEAC 873

Prerequisites: MUED 344.

Description: For prospective new and experienced general music/middle school teachers. Characteristics of middle school students, materials, methodology, guitar and recorder techniques, and curriculum development.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Music Education

MUED 881 Music in Early Childhood Education

Crosslisted with: TEAC 881

Prerequisites: MUED 344 or 370

Description: Prepares the teacher of the young child (3-8 years) in the musical skills, methodology, and materials needed to carry out a successful program of music in the public and private schools, the nursery schools, and day-care centers.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 886 Advanced Choral Conducting

Prerequisites: Permission

Description: Designed for the practicing choral directors. Conducting techniques for, and score preparation of, Renaissance, Baroque and twentieth-century choral literature.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

MUED 890 Workshop Seminar

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

MUED 893 Workshop Seminar

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

MUED 896 Independent Study in Music Education

Crosslisted with: MUED 496

Prerequisites: Permission

Description: Individual, scholarly study designed to enable a student to pursue a selected topic in music education with the direction and guidance of a faculty member.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 9

Format: IND

Groups: Music Education

MUED 897 Student Teaching**Crosslisted with:** MUED 497

Description: Supervised teaching experiences in schools with accompanying seminar which focuses on: teacher certification, teacher and students rights and responsibilities, proper conduct of teachers, selected legal aspects of education, methods of communicating with parents and community members, and current issues which impact education. MUED 897 does not apply towards the master of music degree.

Credit Hours: 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** FLD**Groups:** Music Education**MUED 897D Student Teaching - Elementary Music****Crosslisted with:** MUED 497D

Description: Supervised teaching experiences in schools with accompanying seminar which focuses on: teacher certification, teacher and students rights and responsibilities, proper conduct of teachers, selected legal aspects of education, methods of communicating with parents and community members, and current issues which impact education. MUED 897 does not apply towards the master of music degree.

Credit Hours: 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** FLD**Groups:** Music Education**MUED 897T Student Teaching - Secondary Music****Crosslisted with:** MUED 497T

Description: Supervised teaching experiences in schools with accompanying seminar which focuses on: teacher certification, teacher and students rights and responsibilities, proper conduct of teachers, selected legal aspects of education, methods of communicating with parents and community members, and current issues which impact education. MUED 897 does not apply towards the master of music degree.

Credit Hours: 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** FLD**Groups:** Music Education**MUED 898 Masters Research Project****Prerequisites:** MUED 843

Description: Opportunities to design and implement a major research project with the direction and guidance of a faculty member.

Credit Hours: 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**MUED 899 Masters Thesis**

Prerequisites: Admission to Master of Music Option I program and permission of major adviser

Credit Hours: 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**MUED 928 Seminar in the Curriculum and Teaching of Music****Prerequisites:** Undergraduate degree in music education

Description: Critical evaluation of current literature, yearbooks, research, new developments, and experiments in the curriculum and teaching of general music.

Credit Hours: 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 961 Current Approaches to Elementary Music Education****Crosslisted with:** TEAC 961**Prerequisites:** Teaching experience

Description: Implementation of current programs, materials, and techniques for the improvement of music instruction in the elementary school.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 980 Quantitative Research Techniques in Music****Prerequisites:** EDPS 859 and Admission to Ph.D. in Music Program

Description: An in-depth examination of quantitative research designs and statistical techniques, with emphasis on their application to music research.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 982 College Teaching in Music**

Description: Competencies and understandings in music curriculum design and development, instructional strategies, and assessment techniques that contribute to being an effective college music instructor. MUED 982 is for graduate students in music who are preparing to teach at the college level.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 987 Seminar in Music Education****Description:** Intensive study of topics in music education.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

MUED 989A Doctoral Seminar: Music Learning and Cognition**Prerequisites:** Admission to Ph.D. in Music Program**Description:** This course is an in-depth study of the cognitive mechanisms underlying the acquisition of musical knowledge and skills. Specific attention is given to the following, in the context of music learning: emotion and expression, self-regulation and metacognition, and sociocognitive development**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 989B Doctoral Seminar: Philosophy and Policy****Prerequisites:** Admission to the Ph.D. in Music Program**Description:** Philosophy guides choices within the discipline of music education and is informed by pedagogy, research, and perceptions of educators. Policy is the application of solutions and frameworks to solve problems and results from the philosophies of those articulating and defending policy. Both sides of the paradigm will be analyzed and discussed resulting in the identification of problems existing in music education, K-12 schools, higher education, and music in society at large. Solutions will be offered for such problems and policies designed and defended.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 989E Doctoral Seminar: Technology for Teaching, Research & Outreach****Prerequisites:** Admission into the Ph.D. in Music Program.**Description:** Advanced course in music technology presented in a seminar format which focuses on the adoption and adaptation of technology in higher education in the areas of teaching, research, and outreach within the context of music as the discipline.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 989J Doctoral Seminar: Individual Differences in Music Learning****Prerequisites:** Admission to the Ph.D. in Music Program**Description:** This course is an in-depth study of individual differences in music learning and development. Specific attention is given to learner variability in music learning environments in terms of ability/disability, gender, culture, and socioeconomic status. Using the framework of Universal Design for Learning, students are engaged in a process for making music learning concepts accessible in a variety of inclusive environments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 989K Doctoral Seminar: Assessment in Music****Prerequisites:** Admission to Ph.D. in Music Program**Description:** An in-depth examination of the purposes, issues, trends and measurement tools of assessment in music in five major areas—aptitude, cognitive musical achievement, musical performance, creativity, and attitude (plus other affective variables) in both historical and contemporary contexts.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 989L Doctoral Seminar: Philosophy in Music****Prerequisites:** Admission into PhD in Music Program**Description:** An exploration of (1) central issues that any music philosophy ought to consider, (2) significant philosophical positions championed throughout history, and (3) significant music philosophers and their writings (recent past & present).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**MUED 990 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**MUED 993 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC

Music Ensemble (credit only) (MUCO)

MUCO 840A Accompanying Vocal**Crosslisted with:** MUDC 440A, MUDC 840A, MUCO 440A**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 5**Format:** SDO**Groups:** Music Ensembles for Elective C**MUCO 840B Accompanying Instrumental****Crosslisted with:** MUDC 440B, MUCO 440B, MUDC 840B**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 5**Format:** SDO**Groups:** Music Ensembles for Elective C

Music Ensemble (degree credit) (MUDC)

MUDC 840A Accompanying Vocal

Crosslisted with: MUDC 440A, MUCO 440A, MUCO 840A

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 5

Format: SDO

Groups: Music Ensembles for Elective C

MUDC 840B Accompanying Instrumental

Crosslisted with: MUDC 440B, MUCO 440B, MUCO 840B

Credit Hours: 1

Max credits per degree: 5

Format: SDO

Groups: Music Ensembles for Elective C

Music - Student Recitals (MUSR)

MUSR 998 Graduate Recital in Applied Music

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 12

Format: IND

Natural Resources (NRES)

NRES 800 Sampling, Data Management and Visualization

Prerequisites: Graduate standing is required.

Description: Implement best practices for scientific computing. Practice with a scientific workflow from the design of the sampling scheme, through generation of the data in the field or lab, up to the point of analysis. Understand cognitive constraints on visualization. Use modern software tools to produce publication quality data visualizations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LAB

NRES 801 Topics in Applied Ecology

Description: A survey of ecological and sociological frameworks used in the applied ecological research. Emphasis on fisheries and wildlife, grasslands, forests, aquatic habitats, and human dimensions of natural resources.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Offered: FALL

NRES 802 Aquatic Insects

Crosslisted with: BIOS 485, BIOS 885, ENTO 402, ENTO 802, NRES 402

Prerequisites: 12 hrs biological sciences.

Description: Biology and ecology of aquatic insects.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: BIOS 485L, BIOS 885L, ENTO 402L, ENTO 802L, NRES 402L, NRES 802L

NRES 802L Identification of Aquatic Insects

Crosslisted with: BIOS 485L, BIOS 885L, ENTO 402L, ENTO 802L, NRES 402L

Prerequisites: Parallel ENTO 802, NRES 402/802, BIOS 485/885.

Description: Identification of aquatic insects to the family level.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

NRES 803 Ecological Statistics

Crosslisted with: STAT 803

Prerequisites: STAT 801 or equivalent; prior experience with "R" software

Notes: Available online.

Description: Model-based inference for ecological data, generalized linear and additive models, mixed models, survival analysis, multi-model inference and information theoretic model selection, and study design.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

NRES 806 Plant Ecophysiology: Theory and Practice

Crosslisted with: AGRO 806, HORT 406, HORT 806, NRES 406, AGRO 406

Prerequisites: Junior standing; 4 hrs ecology; and 4 hrs botany or plant physiology.

Description: Principles of plant physiology which underlie the relationship between plants and their physical, chemical and biotic environments.

An introduction to the ecological niche, limiting factors and adaptation.

An overview of the seed germination and ecology, plant and soil water relations, nutrients, plant energy budgets, photosynthesis, carbon balance and plant-animal interactions. An introduction to various field equipment used in ecophysiological studies.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

NRES 807 Plant-Water Relations**Crosslisted with:** AGRO 807**Prerequisites:** AGRO 325 or equivalent; MATH 106 recommended

Description: Quantitative study of water relations in the soil-plant-atmosphere system. Basic physical processes, which describe the movement of water in the soil and the atmosphere, and the physiological processes, which describe water movement inside of the plant. Stomata physiology and the effects of internal water deficits on photosynthesis, respiration, nitrogen metabolism, cell division and cell enlargement. Results from integrative models used to study the relative importance of environmental versus physiological factors for several plant-environment systems.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NRES 808 Microclimate: The Biological Environment****Crosslisted with:** AGRO 408, GEOG 408, HORT 408, METR 408, NRES 408, WATS 408, AGRO 808, GEOG 808, HORT 808, METR 808**Prerequisites:** Junior standing, MATH 106 or equivalent, 5 hrs physics, major in any of the physical or biological sciences or engineering.

Description: Physical factors that create the biological environment. Radiation and energy balances of earth's surfaces, terrestrial and marine. Temperature, humidity, and wind regimes near the surface. Control of the physical environment through irrigation, windbreaks, frost protection, manipulation of light, and radiation. Applications to air pollution research. Instruments for measuring environmental conditions and remote sensing of the environment.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** AGRO 907, HORT 907, METR 907, NRES 907; BSEN 954, NRES 954**Groups:** Physical Geography**NRES 809 Laboratory Earth: Earth and Its Systems**

Description: The earth as a system and the "real world" applications of fundamental physical science processes in this system. Interaction of energy and matter in the geosphere, in the hydrosphere, and in the atmosphere. The earth's relationships to the sun, moon, and other astronomical objects in the solar system.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 810 Landscape Ecology****Crosslisted with:** HORT 812**Prerequisites:** 12 hrs biological sciences or related fields including BIOS 320

Description: Spatial arrangements of ecosystems, the interaction among component ecosystems through the flow of energy, materials and organisms, and alteration of this structure through natural or anthropogenic forces.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 811 Plant Tissue Culture****Crosslisted with:** BIOS 811, HORT 811

Description: Survey of techniques used in plant cell, tissue and organ culture, including current research. Laboratory emphasizes practical manipulation of plant cells, tissues, and organs, including examples from woody and herbaceous plant species.

Credit Hours: 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**NRES 812 Introduction to Geographic Information Systems****Crosslisted with:** GEOG 412, GEOG 812, NRES 412

Description: Introduction to conceptual foundations and applications of computer-based geographic information systems (GIS). GIS database development, spatial data analysis, spatial modeling, GIS implementation and administration.

Credit Hours: 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** GEOG 422, GEOG 822; GEOG 432, GEOG 832; GEOG 922, NRES 922**Groups:** Techniques**NRES 813 Environmental Leadership****Crosslisted with:** ALEC 410, ALEC 810, NRES 413**Prerequisites:** Junior standing.

Notes: Offered on the World Wide Web (WWW) fall semester of odd-numbered years and in the classroom fall semester of even numbered-years.

Description: Major leaders in conservation and ecology that emphasizes agricultural and cultural issues and relationships with the environment.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 814 Laboratory Earth: Earth's Natural Resource Systems**

Description: Fundamental concepts in the Earth and physical sciences in the understanding of Earth's natural resource systems. Rock and mineral, water, soil, and energy resources. Social factors, human dependence, and the impact of these on natural resource systems.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 817 Agroforestry Systems in Sustainable Agriculture****Crosslisted with:** HORT 418, HORT 818, NRES 417**Prerequisites:** 12 hours biological or agricultural sciences.

Description: The roles of woody plants in sustainable agricultural systems of temperate regions. Emphasis on the ecological and economic benefits of trees and shrubs in the agricultural landscape. Topics include: habitat diversity and biological control; shelterbelts structure, function, benefits and design; intercropping systems; silvopastoral systems; riparian systems; and production of timber and specialty crops. Comparison of temperate agroforestry systems to those of tropical areas.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

NRES 818 Introduction to Remote Sensing**Crosslisted with:** GEOG 418, GEOG 818, NRES 418**Prerequisites:** 9 hours of GEOL, NRES or GEOG.**Notes:** Advanced standing in geography, natural resources, environmental sciences, engineering or agronomy recommended.**Description:** Introduction to remote sensing of the earth from aerial and satellite platforms. Aerial photography, multispectral scanning, thermal imaging and microwave remote sensing techniques. Physical foundations of remote sensing using electromagnetic energy, energy-matter interactions, techniques employed in data acquisition and methods of image analysis. Weekly laboratory provides practical experience in visual and digital interpretation of aerial photography, satellite imagery, thermal and radar imagery. Applications in geographic, agricultural, environmental and natural resources analyses.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** GEOG 420, GEOG 820; GEOG 421, GEOG 821, NRES 421, NRES 821**Groups:** Techniques**NRES 819 Chemistry of Natural Waters****Crosslisted with:** GEOL 418, GEOL 818, NRES 419, WATS 418**Prerequisites:** CHEM 109 and 110, 113 and 114, or CHEM 111.**Description:** Principles of water chemistry and their use in precipitation, surface water, and groundwater studies. Groundwater applications used to determine the time and source of groundwater recharge, estimate groundwater residence time, identify aquifer mineralogy, examine the degree of mixing between waters of various sources and evaluate what types of biological and chemical processes have occurred during the water's journey through the aquifer system.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOL 418L, GEOL 818L, NRES 419L, NRES 819L, WATS 418L; GEOL 917, NRES 917**NRES 819L Chemistry of Natural Waters Laboratory****Crosslisted with:** GEOL 418L, GEOL 818L, NRES 419L, WATS 418L**Prerequisites:** CHEM 109 and 110 or CHEM 113 and 114; GEOL 418 or parallel.**Description:** Basic laboratory techniques used to perform water analysis including various wet chemical techniques, instrument use (AA, IC, UV-Visible) and computer modeling. Techniques for sample collection and preservation, parameter estimation and chemical analysis.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**NRES 820 Applications of Remote Sensing in Agriculture and Natural Resources****Crosslisted with:** AGRO 419, GEOG 419, GEOL 419, NRES 420, AGRO 819, GEOG 819, GEOL 819**Notes:** GEOG 418/NRES 418 recommended**Description:** Introduction to the practical uses of remote electromagnetic sensing in dealing with agricultural and water-resources issues.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Techniques**NRES 821 Field Techniques in Remote Sensing****Crosslisted with:** GEOG 421, GEOG 821, NRES 421**Prerequisites:** NRES 418/818**Description:** Field techniques as they relate to remote-sensing campaigns. Research methods, systematic approaches to data collection, field spectroscopy, collecting ancillary information linked with spectroscopic data sets as well as aircraft or satellite missions and subsequent analyses of acquired data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Techniques**NRES 822 Laboratory Earth: Earth's Changing Systems****Crosslisted with:** NRES 422**Description:** Fundamental concepts related to understanding Earth's changing natural systems in the past, present, and the future. The cycling of matter and energy; the relationship between human activity and environmental change; and the consequence of these relationships.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 823 Integrated Resources Management****Crosslisted with:** NRES 423**Prerequisites:** Natural resource science or related major**Description:** Integrated and multiple-use management. Economic, political, social, and physical impacts on natural resources management priorities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 824 Forest Ecology****Crosslisted with:** NRES 424**Prerequisites:** NRES 220 or BIOS 207**Description:** The structure and function of forest ecosystems including their response to global change; emphasis on forest succession and disturbance regimes in order to understand the dynamics of forested landscapes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

NRES 825 Geostatistics**Crosslisted with:** GEOL 825**Prerequisites:** MATH 106 and STAT 218**Notes:** Offered fall semester of odd-numbered calendar years.**Description:** Practical methods for solving spatial interpolation and related estimation problems with emphasis on geostatistical methods. Introduction to applied statistical simulation and prediction in geology, hydrogeology and environmental studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 826 Invasive Plants****Crosslisted with:** AGRO 426, AGRO 826, HORT 426, HORT 826, NRES 426**Prerequisites:** AGRO/HORT/SOIL 153; AGRO/HORT 131**Description:** Identification, biology and ecology of weedy and invasive plants. Principles of invasive plant management by preventative, cultural, biological, mechanical and chemical means using an adaptive management framework. Herbicide terminology and classification, plant-herbicide and soil-herbicide interactions, equipment calibration and dosage calculations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**NRES 827 Introduction to the Global Positioning System (GPS)****Crosslisted with:** GEOG 427, GEOG 827, NRES 427**Prerequisites:** Junior standing.**Notes:** Familiarity with mapping and GIS recommended.**Description:** Integrated lectures, lab exercises and field experience provide an understanding of GPS technology and applications. Students will learn to collect, correct and use GPS data in a geographic information system (GIS) environment.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**NRES 828 Leadership in Public Organizations****Crosslisted with:** ALEC 428, ALEC 828, NRES 428**Prerequisites:** Junior standing.**Description:** Leadership in theories, research, and practices in public organizations and natural resource agencies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 829 Human Dimensions of Natural Resource Management****Description:** Introduction to, and understanding of, human dimensions of natural resource management. Interdisciplinary theories and frameworks for understanding and addressing natural resources management will be examined. Historical, psychological, cultural, and social influences will be reviewed. Integrative approaches to sustainable ecosystem management will also be explored.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 829A Food Security: A Global Perspective****Crosslisted with:** ANTH 429A, ANTH 829A, AGRO 429A, AGRO 829A, HORT 429A, HORT 829A, NRES 429A, NUTR 429A, NUTR 829A**Prerequisites:** Junior standing.**Description:** Overview of the technical and sociocultural dimensions of global food insecurity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 830 Laboratory Earth: Climate Research Applications****Description:** Climate-change issues serve as a context to develop research questions and design a discrete, locally oriented research project through which they define a problem, analyze data, and develop conclusions to potentially impact decision-making in their community. Designed for science educators. NRES 830 is offered fall semesters.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 831 Waterfowl Ecology and Management****Crosslisted with:** NRES 431**Prerequisites:** NRES 311.**Description:** Ecology and identification of North American waterfowl, management of habitats and populations, and current management issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 832 Laboratory Earth: Human Dimensions of Climate Change****Description:** Examine science behind global climate change. Use primary data sets to understand the implications for climate change at global and regional/local scales. Focus on potential impacts on human systems including drought, sea level rise, severe weather and populations most likely to be impacted by climate change. Designed for science educators. NRES 832 is offered spring semesters.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 833 Wildlife Management Techniques****Crosslisted with:** NRES 433**Prerequisites:** NRES 311.**Description:** Survey of methods used to obtain data and make decisions for wildlife management. Scientific methods for wildlife science; monitoring and surveys; construction of management plans; habitat use, classification, and management; harvest management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

NRES 834 Environmental Education and Interpretation**Crosslisted with:** NRES 434, ENVR 434**Notes:** Requires 20 hours of service.**Description:** Examination of formal and informal environmental education and interpretation. Knowledge, application and practice relevant to science teachers and park, extension, museums, and zoo educators.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 835 Agroecology****Crosslisted with:** AGRO 435, AGRO 835, HORT 435, NRES 435**Prerequisites:** For AGRO/HORT/NRES 435: Senior standing. For AGRO/NRES 835: 12 hrs biological or agricultural sciences.**Description:** Integration of principles of ecology, plant and animal sciences, crop protection, and rural landscape planning and management for sustainable agriculture. Includes natural and cultivated ecosystems, population and community ecology, nutrient cycling, pest management, hydrologic cycles, cropping and grazing systems, landscape ecology, biodiversity, and socioeconomic evaluation of systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 836 Evolution of Cenozoic Mammals****Crosslisted with:** GEOL 436, GEOL 836, NRES 436**Prerequisites:** GEOL 103**Description:** Survey of mammalian evolution with emphasis on the origin, radiation, and phylogenetic relationships of Cenozoic fossil mammals. Overview of climatic and ecological changes affecting mammalian adaptations and hands on experience with specimens.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** GEOL 935**NRES 837 Adaptive Natural Resource Management****Description:** From cultural taboos to the current socio-ecological framework, the art and science of natural resource management has and continues to evolve. The primary focus of this course is to introduce students to the concepts of structured decision making and adaptive management, but in doing so the course will explore the history of natural resource management and the various management paradigms that have and continue to dominate resource management. At the completion of this course students will have an understanding of the theory and practice of adaptive management as well as an understanding of why we continue to move toward a more transparent and scientific methodology of natural resource management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LAB**NRES 838 Grassland Conservation: Planning and Management****Crosslisted with:** NRES 438**Prerequisites:** Introductory soils and introductory ecology**Description:** Apply fundamental grassland ecology principles to grassland conservation and identify grassland establishment and management practices appropriate for different environmental and cultural situations. Based on field study, critically analyze management options and outcomes for several grasslands and develop a management plan for a grassland resource.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 840 Great Plains Ecosystem****Crosslisted with:** AGRO 440, AGRO 840, RNGE 440, NRES 440, GRAS 440**Prerequisites:** Junior standing.**Notes:** BIOS 101 and 101L, or equivalent, recommended.**Description:** Characteristics of Great Plains ecosystems, interrelationships of ecological factors and processes, and their application in the management of grasslands. Interactions of fire, vegetation, grazing animals and wildlife.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**NRES 841 STEM Education Seminar****Crosslisted with:** GEOS 811**Prerequisites:** Graduate student in a science, technology, engineering, or mathematics (STEM) discipline.**Notes:** This seminar is designed for graduate students interested in STEM education in formal or informal environments with children or adult learners.**Description:** Acquire familiarity with the broad range of current STEM education research, outreach, and other activities taking place at UNL and across the nation in order to build a larger context for and connections to one's own STEM research and activities.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** RCT**NRES 842 Wildland Plants****Crosslisted with:** AGRO 442, AGRO 842, RNGE 442, NRES 442, GRAS 442**Prerequisites:** Junior standing.**Notes:** BIOS 101 and 101L, or equivalent, recommended.**Description:** Wildland plants that are important to grassland and shrubland ecosystem management and production. Distribution, utilization, classification, identification (including identification by vegetative parts), uses by Native Americans, and recognition of grasses, forbs, shrubs, exotic and wetland plants.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL

NRES 844 Ecosystem Monitoring and Assessment**Crosslisted with:** AGRO 444, AGRO 844, RNGE 444, NRES 444, GRAS 444**Prerequisites:** Junior standing.**Notes:** NRES 220 or equivalent, recommended.**Description:** Measurement and monitoring of the important vegetation and environmental factors used to develop management guidelines in grasslands, savannas, woodlands, and wetlands. Emphasis on using ecosystem monitoring protocols for assessment of wildlife habitat, fuels management for wild-land fire, livestock production, and watershed function. Requires field sampling and travel to local field sites.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NRES 845 Human Remains in Forensic Science****Crosslisted with:** FORS 445, FORS 845, NRES 445**Prerequisites:** LIFE 120/L and LIFE 121/L, CHEM 109, CHEM 110, and FORS 120/L.**Description:** Forensic anthropology within the broader context of forensic sciences and physical anthropology. Decomposition and bone modification through artificial means. Determination of individual identity, diet, chronic pathology and cause of death from human remains.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL**NRES 846 Pollen Analysis for Behavioral, Biological and Forensic Science****Crosslisted with:** FORS 446, FORS 846, NRES 446**Prerequisites:** BIOS 109 and FORS 120.**Description:** Collection, processing, identification of common North American pollen types. Pollination ecology relating to scene reconstruction. Fundamental statistics and presentation requirements for a legal and scientific audience.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** FALL**NRES 847 Archaeoparasitology: The Archaeology of Disease****Crosslisted with:** NRES 447**Description:** Study of parasites, their hosts, and the relationship between them. Human parasitology is especially interesting due to the adaptation of human populations to a great variety of parasites over long periods of time in the global diversity of environments. Fundamental understanding of human-parasite relations and methods of recovery of parasites from a variety of archaeological remains.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NRES 848 Advanced Topics in Wildlife Damage Management****Crosslisted with:** NRES 448**Prerequisites:** NRES 348**Description:** Economic, global, and public policy issues relative to situations in which wildlife damage personal property or natural resources, threaten human health and safety, or are a nuisance. Demonstration and discussion of technological advances in fertility control, damage resistance, toxicology, behavioral modification, and biological management.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**NRES 849 Woody Plant Growth and Development****Crosslisted with:** BIOS 849, HORT 849**Prerequisites:** CHEM 251 and AGRO 325**Description:** Plant growth and development specifically of woody plants as viewed from an applied whole-plant physiological level. Plant growth regulators, structure and secondary growth characteristics of woody plants, juvenility, senescence, abscission and dormancy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 850 Biology of Wildlife Populations****Crosslisted with:** BIOS 450, BIOS 850, NRES 450**Prerequisites:** NRES 311; MATH 104 or above; STAT 218 or equivalent**Description:** Principles of population dynamics. Management strategies (for consumptive and nonconsumptive fish and wildlife species) presented utilizing principles developed.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING**NRES 851 Soils, Water, and Environmental Chemistry****Crosslisted with:** ENVE 851, NRES 451**Prerequisites:** NRES/WATS/SOIL/AGRO/GEOL 361 or graduate standing**Description:** Environmental chemistry related to the fate and transport of organic contaminants in soil-water environments. Application of computer simulation models (i.e., MODFLOW) for predicting contaminant fate in aquifers. Basic chemical and biological principles of remediating contaminated soil and water.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING

NRES 852 Climate and Society

Crosslisted with: AGRO 450, GEOG 450, METR 450, NRES 452, AGRO 850, GEOG 850, METR 850

Prerequisites: Junior standing or above.

Notes: Offered spring semester of even-numbered calendar years.

Description: Impact of climate and extreme climatic events on society and societal responses to those events. Global in scope and interdisciplinary.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

Groups: Physical Geography

NRES 853 Hydrology

Crosslisted with: NRES 453

Prerequisites: MATH 106

Notes: Not available for credit for engineering students and not a substitute for CIVE 456.

Description: Introduction to the principles of hydrology, with emphasis on the components of the hydrologic cycle: precipitation, evaporation, groundwater flow, surface runoff, infiltration, precipitation runoff relationships.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGEN 957, BSEN 957, CIVE 957, GEOL 957

NRES 854 Ecological Interactions

Crosslisted with: BIOS 454, BIOS 854, NRES 454

Prerequisites: LIFE 121; LIFE 121L; BIOS 207 or NRES 220; Senior Standing

Description: Nature and characteristics of populations and communities. Interactions within and between populations in community structure and dynamics. Direct and indirect interactions and ecological processes, competition, predation, parasitism, herbivory, and pollination. Structure, functioning and persistence of natural communities, foodweb dynamics, succession, and biodiversity.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 855 Soil Chemistry and Mineralogy

Crosslisted with: AGRO 455, AGRO 855, NRES 455, SOIL 455

Prerequisites: AGRO/HORT/SOIL 153 or GEOL 101; CHEM 109 and 110; CHEM 221 or 251; or equivalent.

Description: Chemical and mineralogical properties of soil components. Inorganic colloidal fraction. Structures of soil minerals as a means of understanding properties, such as ion exchange and equilibria; release and supply of nutrient and toxic materials; and soil acidity and alkalinity.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 856 Mathematical Models in Biology

Crosslisted with: BIOS 456, BIOS 856, NRES 456

Prerequisites: LIFE 120; LIFE 120L; LIFE 121; LIFE 121L; MATH 107

Description: Biological systems, from molecules to ecosystems, are analyzed using mathematical techniques. Strengths and weaknesses of mathematical approaches to biological questions. Brief review of college level math; introduction to modeling; oscillating systems in biology; randomness in biology; review of historically important and currently popular models in biology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 857 Green Space and Urban Forestry Management

Crosslisted with: NRES 457, HORT 457

Prerequisites: Junior or senior standing, Graduate student.

Description: A focus on the management of trees, parks, and green infrastructure in rural and urban communities. Perspectives from community planning, landscape architecture, urban forestry, natural resources, horticulture, and environmental policy. Development and implementation of green space and forest management plans encompassing societal needs and biological limitations in rural and urban communities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

NRES 858 Soil Physical Determinations

Crosslisted with: AGRO 458, AGRO 858, NRES 458, SOIL 458

Prerequisites: SOIL/AGRO/GEOL/WATS 361; PHYS 141 or equivalent; MATH 102 or 103.

Description: Survey of measurement techniques and principles used in characterizing the physical properties of soils. Includes analysis of experimental design and sources of experimental error. Techniques include: particle size analysis, soil water content, pore size analysis, field sampling techniques, soil strength, and saturated hydraulic conductivity.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LAB

NRES 859 Limnology

Crosslisted with: BIOS 459, BIOS 859, NRES 459, WATS 459

Prerequisites: 12 hrs BIOS, including BIOS/NRES 220/BIOS220x; two semesters CHEM.

Description: Physical, chemical, and biological processes that occur in fresh water. Organisms occurring in fresh water and their ecology; biological productivity of water and its causative factors; eutroplication and its effects.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: BIOS 866, NRES 866

NRES 860 Soil Microbiology

Crosslisted with: AGRO 460, BIOS 460, NRES 460, SOIL 460, AGRO 860, BIOS 860

Prerequisites: One semester microbiology; one semester biochemistry or organic chemistry.

Description: Soil from a microbe's perspective-growth, activity and survival strategies; principles governing methods to study microorganisms and biochemical processes in soil; mechanisms controlling organic matter cycling and stabilization with reference to C, N, S, and P; microbial interactions with plants and animals; and agronomic and environmental applications of soil microorganisms.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

NRES 861 Soil Physics

Crosslisted with: AGRO 461, GEOL 461, NRES 461, SOIL 461, WATS 461, AGRO 861, GEOL 861

Prerequisites: AGRO/SOIL 153; PHYS 141 or equivalent, one semester of calculus.

Description: Principles of soil physics. Movement of water, air, heat, and solutes in soils. Water retention and movement, including infiltration and field water regime. Movement of chemicals in soils.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGEN 955, AGRO 955, CIVE 955, GEOL 985

NRES 862 Conservation Biology

Crosslisted with: NRES 462

Prerequisites: 12 hours of biological sciences, including NRES 220 and NRES 222 or equivalent.

Description: Current issues in conservation biology. Theoretical principles from the areas of ecology and genetics to effectively preserve and manage biological diversity and small populations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 863 Fisheries Science

Crosslisted with: NRES 463

Description: Fisheries biology emphasizing the determination and evaluation of vital statistics for the management of fish populations. Basis of specific management techniques. May also be offered at Cedar Point Biological Station.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: NRES 871

NRES 863L Fisheries Science Lab

Crosslisted with: NRES 463L

Description: Field and laboratory skills needed for fisheries biology emphasizing the determination and evaluation of vital statistics for the management of fish populations. Applied data collection and fish sampling techniques will be used. May also be offered at Cedar Point Biological Station.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

NRES 864 Fisheries Biology

Crosslisted with: BIOS 464, BIOS 864, NRES 464

Prerequisites: BIOS/NRES 489/889 or equivalent.

Description: Biology of fishes. Factors that affect fishes in the natural environment. Techniques used in the analysis and management of fish populations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 865 Soil Geomorphology and Paleopedology

Crosslisted with: GEOL 465, GEOL 865, NRES 465

Prerequisites: GEOL 450/850 and NRES 477/877

Description: Soils and paleosols as evidence in reconstruction landscape evolution and paleoenvironments. Role of paleosols in stratigraphy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 866 Advanced Limnology

Crosslisted with: BIOS 866

Prerequisites: NRES 859 or equivalent

Description: In-depth consideration of selected areas of limnology including stream limnology, primary production, secondary production, nutrient cycling, and eutrophication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 867 Global Climate Change

Crosslisted with: METR 483, METR 883, NRES 467

Prerequisites: Junior standing; and METR 475/875.

Notes: Offered fall semester of even-numbered calendar years.

Description: Elements of climate systems, El Nino/La Nina cycle and monsoons, natural variability of climate on interannual and interdecadal scales. Paleoclimate, and future climate, developed climate change scenarios and climate change impacts on natural resources and the environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 868 Wetlands

Crosslisted with: BIOS 458, NRES 468, WATS 468, BSEN 468, BSEN 868

Prerequisites: CHEM 109 and CHEM 110, or CHEM 105 and CHEM 106; Junior or Senior Standing.

Notes: Offered even-numbered calendar years.

Description: Physical, chemical and biological processes that occur in wetlands; the hydrology and soils of wetland systems; organisms occurring in wetlands and their ecology wetland creation, delineation, management and ecotoxicology.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

NRES 869 Bio-Atmospheric Instrumentation

Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, MSYM 469, NRES 469, AGRO 869, GEOG 869, HORT 807, METR 869, MSYM 869

Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.

Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Physical Geography

NRES 870 Lake and Reservoir Restoration

Prerequisites: 12 hrs NRES or related fields

Description: Theory, processes, and mechanisms underlying lake and reservoir water quality degradation and/or pollution. Remediation of eutrophication and its effects. Current techniques used to restore and protect degraded lakes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 871 Quantitative Fishery Assessment

Prerequisites: STAT 218 or equivalent; NRES 463/863 or equivalent; BIOS/NRES 489/889 or equivalent

Notes: Offered spring semester of even-numbered calendar years.

Description: Advanced quantitative techniques of fishery science required to support management practices targeted at populations (recruitment, growth and mortality), communities (e.g., predator-prey interactions) and ecosystems e.g., bio-stressors).

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 872 Applied Soil Physics

Crosslisted with: AGRO 472, AGRO 872, NRES 472, SOIL 472, WATS 472

Prerequisites: AGRO/HORT/SOIL 153 or equivalent; MATH 104 or MATH 106 or equivalent.

Description: Emphasis on applied soil physics. Discussion of theoretical principles followed by field and laboratory exercises and applications. Fluxes of water, solutes, air, and heat through the soil. Emphasis on water infiltration, water retention, other soil hydraulic properties. Components of soil water balance. Management of soil water.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NRES 873 Ecological Anthropology

Crosslisted with: ANTH 473, ANTH 873

Description: Human adaptive systems and their ecological contexts. The dynamic inter-relationships between subsistence, technology, social behavior, human demography, and ecological variability.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Cultural Anthropology

NRES 874 Herpetology

Crosslisted with: BIOS 474, BIOS 874, NRES 474

Prerequisites: BIOS/NRES 386 and permission.

Notes: BIOS 388 recommended.

Description: Fossil and living amphibians and reptiles. Anatomy, classification, ecology and evolution.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

NRES 875 Water Quality Strategy

Crosslisted with: NRES 475, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 475, MSYM 875, POLS 475, POLS 875

Prerequisites: Senior standing.

Notes: Capstone course.

Description: Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: American Government&Public Pol

NRES 876 Mammalogy**Crosslisted with:** BIOS 476, BIOS 876, NRES 476**Prerequisites:** 8 hrs BIOS; BIOS/NRES 386 or NRES 311.**Notes:** May also be offered at Cedar Point Biological Station. Field trips are required and may occur outside of scheduled class time. Lab and field time emphasize diversity of mammalian families and species identification of Nebraska mammals.**Description:** Evolution, natural history, ecology, and functional morphology of planetary mammals and mammals of the Northern Great Plains.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**NRES 877 Great Plains Field Pedology****Crosslisted with:** AGRO 477, GEOG 467, NRES 477, SOIL 477, GEOG 867**Prerequisites:** AGRO/SOIL 153.**Description:** Spatial relationship of soil properties on various parts of landscape typical of the Plains, causal factors, and predictions of such relationships on other landscapes. Grouping these properties into classes, naming the classes, and the taxonomy that results from this grouping. Application of a taxonomy to a real situation through making a field soil survey in a region representative of the Plains border, predicting land use response of various mapped units as it affects the ecosystem, and evaluating the effectiveness of the taxonomic system used in the region surveyed.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Groups:** Physical Geography**NRES 878 Regional Climatology****Crosslisted with:** METR 478, METR 878, NRES 478**Prerequisites:** NRES/METR 370.**Description:** Regional differentiation of the climates of the earth on both a descriptive and dynamic basis. The chief systems of climatic classification.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 879 Hydroclimatology****Crosslisted with:** NRES 479, METR 479, WATS 479, BSEN 479, METR 879, BSEN 879**Prerequisites:** NRES 208 or METR 100 or METR/NRES 370.**Notes:** Offered spring semester of even-numbered calendar years.**Description:** Interaction between earth's climate and the hydrologic cycle. Energy and water fluxes at the land-atmosphere interface. Atmospheric moisture transport, precipitation, evaporation, snowmelt, and runoff. Impacts of climate variability and change on the hydrologic cycle.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 880 Vertebrate Population Analysis****Prerequisites:** 12 hrs. of biological sciences, MATH 104 or 106**Notes:** NRES 880 is offered spring semester of even years.**Description:** Introduction to the estimation of demographic parameters from surveys and mark-recapture data. Emphasizes analytical skills used to estimate population vital rates, such as abundance, density, population size, survival rates, home range size, and movement rates. Reinforces use of multiple hypotheses in scientific investigations, as well as model selection processes.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**NRES 881 Environmental Conflict Management****Description:** This two-day short-course is designed to aid students development of theoretically grounded practical approaches to facilitate and manage environmental conflict. The course will provide students with skills to perform well in conflict situations and help students manage conflict in diverse environmental contexts. The program blends presentations, group discussions, conflict analysis, and strategy design exercises and simulations into a highly engaging learning environment. Participants learn from each other and develop personalized tools that can be applied immediately. wo-day short-course taught fall semester of even numbered years.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**NRES 882 Ecophysiology of Wildlife****Crosslisted with:** NRES 482**Prerequisites:** NRES 220 or BIOS 207; AGRO 215/BIOS 206; BIOS 386**Description:** Evaluation of the conserved physiological principles that are broadly used across animal groups, as well as the many unique adaptations used by specific taxa. Focuses on all major vertebrate groups, including fish, birds, mammals, reptiles and amphibians, and links the physiological mechanisms that allow them to survive to the environments in which they live. Highlights methods scientists use to gather physiological information, and the ways in this information can be used by scientists in a variety of different fields.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 883 Ecological Economics****Crosslisted with:** AECN 883, CDEV 883**Prerequisites:** AECN 141 or ECON 212 or equivalent**Description:** A synthesis across the notion of "utility" as represented in traditional environmental and natural resource economics, "ecology" in ecological economics, and "community" in behavioral economics. Ideas from thermodynamics with a focus on renewable resources. Development, organization, and enhancement of eco-business, eco-industry, eco-government and eco-communities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

NRES 884 Water Resources Seminar

Crosslisted with: AGRO 484, GEOG 484, GEOL 484, NRES 484, WATS 484, AGRO 884, GEOG 884, GEOL 884, WATS 884

Prerequisites: Junior or above standing.

Description: Seminar on current water resources research and issues in Nebraska and the region.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

NRES 887 Hydrogeology

Crosslisted with: GEOL 889

Prerequisites: GEOL 888/NRES 488 and MATH 208

Description: Principles of flow through porous media with emphasis on basic classical solutions, flow-net analysis, and elementary modern numerical solutions that aid in the analysis and development of groundwater supplies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: GEOL 988; NRES 918

NRES 888 Groundwater Geology

Crosslisted with: GEOL 488, GEOL 888, NRES 488

Prerequisites: GEOL 100-level course; MATH 106 or equivalent.

Description: Occurrence, movement, and development of water in the geologic environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGEN 955, AGRO 955, CIVE 955, GEOL 985; GEOL 470, GEOL 870; GEOL 889, NRES 887; GEOL 986; NRES 918

NRES 889 Ichthyology

Crosslisted with: BIOS 489, BIOS 889, NRES 489

Prerequisites: LIFE 120 and LIFE 121

Notes: May also be offered at Cedar Point Biological Station.

Description: Fishes, their taxonomy, physiology, behavior, and ecology. Dynamics of fish stocks and factors regulating their production.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Prerequisite for: BIOS 464, BIOS 864, NRES 464, NRES 864; NRES 871

NRES 891 Seminar in Natural Resource Sciences

Description: Presentations of special non-thesis topics, and/or research plans, and/or thesis research results.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

NRES 891A Seminar: Writing in Science

Notes: The goal of this class is to make you a better writer through discussion and critique of published scientific papers.

Description: Writing is the core of how we communicate our scientific findings; fostering good writing skills now will help you throughout your career regardless of if you remain in academia. This class is suitable for all graduate students working on a proposal or a manuscript, or who want to focus on improving their academic reading and writing skills.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

NRES 891B Readings in Aquatic Ecology

Prerequisites: Admission to the Graduate Program in the School of Natural Resources

Description: Read classic (highly cited, generally 25-75 years old) papers and more recent follow-up (<10 years) papers on topics relevant to many areas of aquatic ecology. The goal is to read the basis of the concepts taught in modern Limnology courses and to see how these concepts are currently evolving in the literature. Students will be responsible for choosing a topic and classic paper from a list (see below) and finding (with help) a modern follow up to the issue, and then will lead the group discussion on that topic.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: IND

NRES 892 International Study Tours in Natural Resource Management

Crosslisted with: NRES 492, NRES 492H

Prerequisites: Permission.

Notes: Off-campus travel may be required. Choice of subject matter and coordination of on- and off-campus study is at the discretion of the instructor.

Description: Group educational tours to sites that illustrate the diversity of approaches to natural resources management found around the world.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: FLD

NRES 896 Independent Study

Prerequisites: 12 hrs natural resource sciences or closely-related fields; permission

Description: Individual or group projects in research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Credit Hours: 1-5

Min credits per semester: 1

Max credits per semester: 5

Max credits per degree: 5

Format: IND

NRES 897 Master of Applied Science Project**Crosslisted with:** AGRI 897, AGRO 897, HORT 897**Prerequisites:** Admission to Master of Applied Science degree program**Notes:** Project activity for the Master of Applied Science degree.**Description:** Design, develop and complete a project that requires synthesis of the course topics covered in the primary area of emphasis.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**NRES 898 Special Topics in Natural Resources****Crosslisted with:** NRES 498**Prerequisites:** 6 hrs NRES or equivalent.**Description:** Current issues in natural resource sciences.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** LEC**NRES 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**NRES 906 Crop Growth and Yield Modeling****Crosslisted with:** AGRO 906**Prerequisites:** AGRO 325/HORT 325 Introductory Plant Physiology or equivalent**Notes:** Recommended: AGRO 406/806 NRES 406/806 HORT 406/806 Plant Ecophysiology or equivalent.**Description:** Understanding and use of crop simulation models and ability to build crop models. Studying principles and quantitative descriptions of crop production ecology. Offered fall semester of odd-numbered calendar years.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 907 Agricultural Climatology****Crosslisted with:** AGRO 907, HORT 907, METR 907**Prerequisites:** NRES 808; STAT 801A or equivalent**Description:** Offered spring semester of odd-numbered calendar years. Analysis and use of climatological data as applied to agricultural activities and the use of climatological information to assist in decision making.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 916 Environmental Law and Water Resource Management Seminar****Crosslisted with:** CIVE 916**Prerequisites:** Permission**Description:** An interdisciplinary seminar with the Department of Civil Engineering. Contemporary environmental issues and water resource management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 917 Environmental Isotope Hydrology****Crosslisted with:** GEOL 917**Prerequisites:** NRES 819 or equivalent**Description:** Theory and use of stable, radiogenic and radioactive isotopes in hydrologic studies. Abundance and variation of the stable isotopes of oxygen, hydrogen, carbon, sulphur, chlorine, nitrogen, and strontium. Application of the isotopes to determine water origin, movement, geochemical history, recharge age and residence time, and to delineate contaminant sources and solute migration.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 918 Applied Groundwater Modeling****Prerequisites:** GEOL/NRES 488/888 or 889, MATH 208/208H, or equivalent**Notes:** Offered fall semester of odd-numbered calendar years.**Description:** Forward and backward numerical analysis of groundwater flow systems and their interactions with other hydro-logic components. Groundwater model development and parameter estimation using MODFLOW, PEST, and other widely used modeling packages.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 920 Xenobiotics in the Environment****Crosslisted with:** AGRO 920, ENTO 920, EOHT 920, HORT 920**Prerequisites:** Recommend one course each in organic chemistry, soil science, biochemistry, plant physiology, microbiology and ecology**Description:** Fate and ecotoxicological impacts of biologically foreign compounds in soil-water-plant environments; uptake, mechanisms of toxicity and metabolism in plants and other biota. Herbicides and other pesticides.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 922 Seminar in Geographic Information Systems (GIS)****Crosslisted with:** GEOG 922**Prerequisites:** GEOG/NRES 812 and 822; or equivalent**Description:** Study of current research and trends in geographic information systems (GIS), GIScience, and GeoComputation. Advanced spatial analytical techniques and geospatial modeling emphasizing GIS applications in natural resources assessment, environmental analyses, agriculture, and land management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

NRES 935 Seminar in Historical Geography**Crosslisted with:** GEOG 935**Description:** Discussion of current literature and research on selected aspects of historical geography. Specific theme of course varies according to instructor.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**NRES 954 Turbulent Transfer in the Atmospheric Surface Layer****Crosslisted with:** BSEN 954**Prerequisites:** MATH 821; MECH 310 or NRES 808 or BIOS 857; or equivalent**Notes:** Offered spring semester of odd-numbered calendar years.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 965 Managed Aquatic Systems****Description:** Theoretical aspects of structure and function in aquatic systems managed for human needs, ecological processes, river-reservoir interface, energy flow (including fate and transport), population dynamics, and multiple-use systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NRES 992 General Seminar****Crosslisted with:** AGRO 992, HORT 992**Notes:** Agronomy and Horticulture PhD students should enroll in this course twice.**Description:** Expected of all Agronomy and Horticulture graduate students. Presentation of thesis/dissertation or non-thesis topics in agronomy, horticulture or related subjects. Agronomy and Horticulture PhD students should enroll in this course twice.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 5**Format:** LEC**NRES 996 Research Other Than Thesis****Prerequisites:** Permission**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**NRES 996A Research in Soils****Crosslisted with:** AGRO 996A**Prerequisites:** 12 hrs AGRO or closely related sciences, and permission**Credit Hours:** 2-5**Min credits per semester:** 2**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**NRES 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Nutrition and Health Sciences (NUTR)

NUTR 805 Research Methods**Prerequisites:** Graduate standing**Description:** Philosophy, goals, and methodologies related to research in nutritional science. Survey and application of basic research tools.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 806 Advanced Teaching Strategies****Crosslisted with:** ALEC 805, TEAC 805**Description:** Contemporary and innovative teaching strategies, emphasizing learner-centered instruction, suitable to teaching in college and postsecondary institutions, outreach programs public schools, and other settings. Students participate in active learning as they apply learning theory in practice, prepare and demonstrate teaching methods, and plan for instruction in discipline areas of their choice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ALEC 400, ALEC 800; TEAC 905, ALEC 905**NUTR 807 Principles of Epidemiology for Nutrition and Public Health****Crosslisted with:** NUTR 407**Prerequisites:** NUTR 250 and 3 cr hrs Statistics.**Description:** Application of basic concepts of epidemiology to nutrition and public health to include epidemiological research design, estimating outcome measures and determining cause and effect and effectiveness of interventions to prevent and treat disease.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 810 Transdisciplinary Obesity Prevention****Crosslisted with:** CYAF 810**Prerequisites:** NUTR 455 or equivalent; Graduate standing**Description:** Using a transdisciplinary team of faculty and guest lecturers, students will be introduced to the interrelationship of obesity and dietary components, behavior, exercise and sports science, physical activity, health promotion, genetics, nutrigenomics, child development, family dynamics, cultural issues, epidemiology, population disparity, educational leadership, public policy and other related topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 910, CYAF 910

NUTR 812 Multimedia Applications for Education and Training**Crosslisted with:** ALEC 412, ALEC 812**Description:** Practical applications in developing and evaluating multimedia resources for students. Surveys new applications, creates and develops various instructional materials, and reviews current practice against relevant theory. Use current software packages to develop materials for various audiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 820 Molecular Nutrition****Prerequisites:** BIOC 831**Description:** Roles for nutrients in signal transduction, gene expression, intracellular trafficking and cell death.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**NUTR 821 Molecular Nutrition Techniques****Prerequisites:** BIOC 831**Notes:** NUTR 820 recommended.**Description:** Basic techniques for molecular studies in nutritional sciences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 829A Food Security: A Global Perspective****Crosslisted with:** ANTH 429A, ANTH 829A, AGRO 429A, AGRO 829A, HORT 429A, HORT 829A, NRES 429A, NRES 829A, NUTR 429A**Prerequisites:** Junior standing**Description:** Overview of the technical and sociocultural dimensions of global food insecurity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 830 Nutritional Anthropology****Crosslisted with:** ANTH 430, ANTH 830, NUTR 430**Prerequisites:** ANTH 242 or equivalent.**Description:** Anthropological approaches to the study of nutrition. Background to nutrition science; bio-cultural aspects of obesity, fertility, lactose intolerance, and infant feeding practices; biological differences in nutritional requirements, fertility, and mortality; interpretation of nutritional deficiencies in skeletal remains; reconstructing prehistoric diets from archaeological evidence; and evaluation of relationships between dietary patterns and dental remains in fossil record.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Biological Anthropology**NUTR 834 Food and Nutrition in Biocultural Perspective****Description:** This seminar-style course takes a multidisciplinary, holistic, comparative approach to examine the complex transformation of biological hunger into what is culturally defined as cuisine. Because food patterns are the result of unique combinations of elements, including ecological, historical, cultural, political, colonial, and illness and disease factors, a broad approach is essential. We consider how edibles are transformed and examine the impact of dietary patterns on health, growth and development, and rates of malnutrition globally.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 841 Functional Properties of Food****Crosslisted with:** FDST 441, FDST 841, NUTR 441**Prerequisites:** NUTR 245 and BIOC 401; or FDST 448.**Description:** Relationship of structure and functionality of ingredients in food systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 449**NUTR 845 Experimental Foods****Crosslisted with:** FDST 445, FDST 845, NUTR 445**Prerequisites:** NUTR 244 and 245; BIOC 401.**Description:** Introduction to food research. Application of research techniques to selected problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 449**NUTR 855 Teaching Learners to Learn****Crosslisted with:** EDAD 855, EDPS 855, SPED 855, TEAC 855**Description:** Effective teachers facilitate student learning. Facilitating student learning depends on understanding learning principles and on designing instruction that is compatible with learning principles. Instructors can provide learning-compatible instruction that helps students learn more effectively and ultimately teaches them how to learn. Assists teachers to teach in learning-compatible ways and helps them embed within their curriculum a program for teaching learners to learn.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 856 Clinical Exercise Physiology****Crosslisted with:** NUTR 456**Prerequisites:** NUTR 486/886 or equivalent.**Description:** Cardiovascular, pulmonary, metabolic, pharmacologic, endocrinologic, renal, neurologic, inflammatory, and orthopedic aspects of clinical exercise physiology as they relate to exercise testing and programming.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR

NUTR 857 Classroom and Outreach Experiences in Food and Nutrition

Description: Supervised classroom or outreach experiences in educational or community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: FLD

NUTR 858 Exercise, Sports & Performance Nutrition

Prerequisites: BIOS/NUTR 484/884.

Description: Synergistic effects of nutrition and exercise on physical performance, including the potential influences of dietary supplements.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 859 Nutrition: A Focus on Life Stages

Prerequisites: 3 hours undergraduate nutrition and 6 hours undergraduate natural sciences

Description: Nutritional needs throughout the life span including pregnancy, lactation, growth and aging. Approaches to nutrition education for different ages.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 860 Health Behavior Theories and Approaches

Description: Foundation course for developing expertise in public health theory as it applies to physical activity and nutrition and related core practices as an essential means to addressing today's public health issues. Consideration of approaches for complex social problems. Exposure to behavioral theories and models as well as examples of their use in research and application. Understanding and positively influencing health behaviors with a focus on improving nutrition and physical activity, while gaining an appreciation for the gap and limitations that exist between theory and practice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 862 Health Policy

Description: Critical thinking about policy issues related to health. Identify and define policy issues and problems, formulate different policy options, predict factors that may affect implementation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 870 Cost Control for Foodservice

Crosslisted with: NUTR 470

Prerequisites: NUTR 370

Description: Principles of cost control for foodservice. Integration of cost control and foodservice/restaurant management principles which influence financial integrity. Utilization of the computer as a tool to enhance decision making capabilities.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

NUTR 871 Vines, Wines and You

Crosslisted with: HORT 471, HORT 871, NUTR 471, HRTM 471, HRTM 871

Prerequisites: 6 hrs science or equivalent experience; 21 years of age or older

Notes: Proof of age is required.

Description: Origin, botany, historical and cultural significance of the grapevine and related species. Principles and practices of vineyard establishment, management and processing of grape products, importance and/or scope of grape and wine industry; global and local significance. Culinary applications, health, environmental and safety-related issues, business and industry relations and experience.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 873 Organization and Administration of Foodservice

Crosslisted with: NUTR 473

Prerequisites: NUTR 370.

Description: Organizational, administrative, and human relations concepts to foodservice. Utilization of computer applications in administration of a foodservice facility.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: NUTR 973

NUTR 875 Applied Dietetic Practice and Concepts

Prerequisites: Admission to Dietetic Internship

Description: Scientific basis for clinical and community practice and current developments in foodservice systems in professional settings. Documenting professional development.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: FLD

NUTR 880 Introduction to Functional Electrocardiography

Crosslisted with: NUTR 480

Prerequisites: NUTR 486; NUTR/BIOS 484.

Description: Theory and application of electrocardiography in graded exercise testing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 884 Physiology of Exercise

Crosslisted with: NUTR 484

Prerequisites: BIOS 213 or equivalent..

Description: Effects of physical activity on the circulatory, respiratory, and other physiological processes.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: NUTR 486, NUTR 886; NUTR 858

NUTR 886 Exercise Testing and Exercise Programming in Adult Fitness and Cardiac Rehabilitation**Crosslisted with:** NUTR 486**Prerequisites:** NUTR/BIOS 484/884; EDPS 459/859 or STAT 218**Description:** In-depth analysis and development of the techniques and knowledge prerequisite for certification in adult fitness and cardiac rehabilitation as prescribed by the American College of Sports Medicine.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** NUTR 456, NUTR 856; NUTR 488**NUTR 891 Special Topics in Human Sciences****Crosslisted with:** HUMS 891, SLPA 891, TEAC 891, TMFD 891, CYAF 891**Description:** Aspects of human sciences not covered elsewhere in the curriculum.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 894 Essentials of Strength Training & Conditioning****Crosslisted with:** NUTR 494**Prerequisites:** Junior Standing**Description:** Overview of the scientific principles and practical applications of strength and conditioning that integrate physiological responses, adaptations, testing, exercise techniques, program design, and periodization for athletic performance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 896 Independent Study****Crosslisted with:** NUTR 496**Prerequisites:** 12 hrs in major related areas; permission.**Notes:** Supervised and evaluated by departmental faculty members.**Description:** Individual projects in research, literature review, or creative production.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**NUTR 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**NUTR 910 Research Planning and Grant Writing for Childhood Obesity****Crosslisted with:** CYAF 910**Prerequisites:** NUTR 810 or CYAF 810**Description:** The purpose of this course is to examine the philosophy, goals, and methodologies related within the concept of childhood obesity research and to apply the principles of the transdisciplinary nature of childhood obesity prevention and treatment in transdisciplinary obesity prevention research and evaluation. The course will include acquisition of resources to address childhood obesity issues, exposure to funding opportunities, research design and grant development, translation of research or programmatic findings to community and professional audiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** NUTR 911, CYAF 911**NUTR 911 Practicum: Experiential Learning Experiences in Childhood Obesity Prevention****Crosslisted with:** CYAF 911**Prerequisites:** NUTR 910 or CYAF 910 or concurrent**Notes:** Practicum: Experiential Learning Experiences in Childhood Obesity Prevention is a section of the Nutrition and Health Sciences Practicum course.**Description:** An applied, monitored, and supervised field based learning experience. Gain practical experience as they follow a negotiated and/or directed plan of study. The purpose of this course is to provide students with transdisciplinary experiential learning experiences related to childhood obesity prevention or treatment. Students will work with the course instructor to determine a practicum site that meets the student's interests and the requirements of the course. Students will work collaboratively with a transdisciplinary team of individuals at the practicum site to meet the course student learning outcomes through hands on experiences.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** FLD**NUTR 920 Teaching Practicum****Crosslisted with:** CYAF 920, TMFD 920**Prerequisites:** CYAF 918**Description:** Supervised classroom experiences designed to develop competencies in teaching at the college level.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**NUTR 921 Interdepartmental Nutrition Seminar****Crosslisted with:** ASCI 921**Prerequisites:** Permission**Description:** Presentation and discussion of current literature and research in the field of nutrition.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

NUTR 922 Lipid Metabolism and Metabolic Syndrome

Description: Concepts of lipid and lipoprotein metabolism; impact of genetic and nutrient factors on energy metabolism and homeostasis; development and prevention of metabolic disorders.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 925 Energy Metabolism

Crosslisted with: ASCI 925

Prerequisites: ASCI 821, BIOC 831, or NUTR 455 or 950

Notes: Offered odd-numbered calendar years.

Description: Critically evaluate how research in bioenergetics has contributed to scientific discoveries in the fields of nutrition, biochemistry, and physiology. Methodologies for determination of human and animal energy expenditure and body composition. Specifically, direct calorimetry, indirect calorimetry and comparative slaughter techniques. Emphasis on components of organ and tissue energy expenditures. Background information important in other nutrition courses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 926 Carbohydrate and Lipid Nutrition

Crosslisted with: ASCI 926

Prerequisites: BIOC 831, ASCI 821 or NUTR 455 or 950

Notes: Offered even-numbered calendar years.

Description: Nutrition and metabolism of carbohydrates and lipids by animals and humans. Emphasis on fundamental principles and current concepts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 927 Protein and Amino Acid Nutrition

Crosslisted with: ASCI 927

Prerequisites: ASCI 421/821 or NUTR 455 or 950; BIOC/BIOS/CHEM 431/831

Notes: Offered even-numbered calendar years.

Description: Nutrition and metabolism of proteins and amino acids by animals and humans. Fundamental principles and current concepts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 930 Sociological/Anthropological Research Methods in Education

Crosslisted with: CYAF 930, EDPS 930, TEAC 930

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 15

Format: LEC

NUTR 930A Ethnographic Methods

Crosslisted with: CYAF 930A, EDPS 930A, TEAC 930A, ANTH 930A

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 930B Special Topics in Qualitative and/or Quantitative Research Methods

Crosslisted with: CYAF 930B, EDPS 930B, TEAC 930B

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

NUTR 930D Discourse Analysis Across School, Home and Community Settings

Crosslisted with: CYAF 930D, EDPS 930D, TEAC 930D

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 930E Introduction to Linguistic Analysis of Classroom Interaction

Crosslisted with: CYAF 930E, EDPS 930E, TEAC 930E

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 930J Hermeneutic Traditions in Education

Crosslisted with: CYAF 930J, EDPS 930J, TEAC 930J

Description: Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

NUTR 930K Quantitative Research Traditions in Education**Crosslisted with:** CYAF 930K, EDPS 930K, TEAC 930K**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 930M Introduction to Multimodal Textual Analysis****Crosslisted with:** CYAF 930M, EDPS 930M, TEAC 930M**Description:** Empirical and theoretical research into the sociocultural problems and the lived experiences of people across educational, family and community settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 945 Complications of Maternal Obesity****Crosslisted with:** ASCI 945**Description:** Introduction to overnutrition and its complications during maternal obesity and metabolic syndrome.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NUTR 949 Biochemistry of Nutrition****Crosslisted with:** ASCI 949, BIOC 949, BIOS 949**Prerequisites:** BIOC 832 or 839**Notes:** Offered odd-numbered calendar years.**Description:** Offered odd-numbered calendar years. Interrelationships of nutrients, nutritional state and metabolic processes. Energy metabolism, integration of nutrition and metabolism and nutritional regulation of gene function.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NUTR 950 Integrated Principles of Human Nutrition****Prerequisites:** 12 hours of biological sciences which includes biochemistry and physiology**Description:** Integration of concepts of nutrient metabolism with food intake recommendations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927**NUTR 952 Advanced Clinical Nutrition****Prerequisites:** 6 hrs medical nutrition therapy or clinical nutrition**Description:** Interrelationships between diet intervention and disease. Current theories.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 954 Fundamentals of Nutrition Counseling****Prerequisites:** 12 hours NUTR and 6 hrs social science**Description:** Theories of behavior change and application to nutrition counseling. Practice in development of nutrition counseling skills. Current nutrition problems and applications to diverse clients.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 956 Community Nutrition****Prerequisites:** NUTR 356**Description:** Historical perspectives, research methodology, and assessment techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 960 Nutrient Function During Exercise****Description:** Exercise and its influence on human metabolism and nutrition via biochemical and physiological pathways. Current research topics and trends addressing the interrelationships between exercise and energy, macronutrients, and micronutrients.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**NUTR 973 Organizational Administration in Food Service and Restaurant Management****Prerequisites:** NUTR 873**Description:** Investigation of foodservice/restaurant organizations and administration. Critical evaluation of current literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**NUTR 986 Graduate Seminar****Prerequisites:** Permission**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**NUTR 990 Nutrition and Health Sciences Seminar****Description:** Presentation and discussion of topics and research, by faculty, graduate students, and guest speakers, related to areas of expertise within Nutrition and Health Sciences**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** FALL/SPR

NUTR 991 Field Studies in Education**Crosslisted with:** EDAD 991, TEAC 991**Prerequisites:** Permission**Description:** Identification and solutions of problems associated with program planning; organizational, administrative, and instructional procedures within an institutional setting. Designing, implementing, and evaluating new or modified patterns of operation and teaching within a public school, postsecondary institution, or adult education agency.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**NUTR 992 Advanced Human Nutrition Topics****Prerequisites:** Permission**Description:** In-depth evaluation of current human nutrition issues.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**NUTR 994 Advanced Food Topics****Prerequisites:** Permission**Description:** In-depth evaluation of food studies, culinology, and research issues.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**NUTR 995 Doctoral Colloquium****Prerequisites:** Permission**Description:** Intended primarily for doctoral students, although non-doctoral students are admitted with permission. Work with a faculty mentor, either on an individualized or on a small group basis. Outcome-based scholarly activities. The interaction between research and practice.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 18**Format:** IND**NUTR 996 Research Other Than Thesis****Prerequisites:** Permission**Credit Hours:** 1-8**Min credits per semester:** 1**Max credits per semester:** 8**Max credits per degree:** 8**Format:** IND**NUTR 998 Special Topics in Human Sciences****Crosslisted with:** CYAF 998, TMFD 998**Prerequisites:** Permission**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** IND**NUTR 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Philosophy (PHIL)

PHIL 801 Philosophical Analysis**Prerequisites:** Permission from philosophy graduate adviser**Description:** Seminar for beginning graduate students whose primary goal is the development of basic philosophical skills such as the analysis of primary texts, the writing of philosophical papers, and sustained oral discussion. Readings include a significant number of important works drawn from diverse areas of philosophical inquiry. Class meetings devoted primarily to student presentations of reading materials and their own written work. Effective oral discussion on the part of the student required.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 805 Philosophy of Language****Crosslisted with:** PHIL 405**Prerequisites:** 9 hours PHIL.**Description:** Introduction to some of the basic concepts and problems in the philosophy of language. Topics to be discussed include reference, definite descriptions, names, demonstratives, truth, meaning, speech acts, and the logic of expressions involving so-called "propositional attitudes." Authors studied include Frege, Russell, Tarski, Austin, Grice, Strawson, Quine, Kripke, Kaplan and Davidson.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 809 Theory of Knowledge****Crosslisted with:** PHIL 409**Prerequisites:** 9 hours PHIL.**Description:** Intensive study of basic problems in the Theory of Knowledge: the nature of knowledge, the analysis of perception and memory, the justification of induction, the problem of how one knows other minds, and the analysis of a prior knowledge. Readings from recent work.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

PHIL 811 Formal Logic**Crosslisted with:** PHIL 411**Prerequisites:** PHIL 211 or MATH 310 or MATH 325 or CSCE 235.**Notes:** PHIL 411 is a second course in symbolic logic.**Description:** An advanced course in symbolic logic, covering metatheoretical results about selected systems of logic. Topics may include: the soundness and completeness of classical propositional logic, and of some propositional modal logics; non-classical propositional logics; and extensions of and alternatives to classical first-order predicate logic**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 812 Modal Logic****Crosslisted with:** PHIL 412**Prerequisites:** PHIL 211; 6 additional hours in PHIL.**Description:** Syntax and model theory of quantified modal logic with applications to e.g., deontic logic, epistemic logic, and the philosophy of logic.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 814 Philosophy of Mind****Crosslisted with:** PHIL 414**Prerequisites:** 9 hours PHIL.**Description:** Main problems in the philosophy of mind, including dualism and materialism, instrumentalism and eliminativism, wide and narrow content, qualia, and mental causation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 817 Philosophy of Science****Description:** Intensive study of some main problems in the philosophy of science: explanation and prediction in the sciences, the nature of scientific laws, functional explanations in the biological and social sciences, the structure of scientific theories, the ontological status of theoretical entities, the reduction of scientific theories, the confirmation of scientific hypotheses, and value judgments in the acceptance of scientific hypotheses.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 818 Metaphysics****Crosslisted with:** PHIL 418**Prerequisites:** 9 hours PHIL.**Description:** Intensive study of main problems in metaphysics, especially universals and particulars, the relation of mind and matter, the categories of the real, criteria of identity, and existential propositions. Readings from recent philosophers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 820 Philosophy of Social Science****Crosslisted with:** PHIL 420**Prerequisites:** 9 hours PHIL.**Description:** The epistemological character of the social sciences. Character and explanatory role of social scientific generalizations, various explanatory strategies for social matters, the continuity or discontinuity of the social sciences with the special sciences, the importance of interpretation, and the place of rationality.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 823 Advanced Ethics****Crosslisted with:** PHIL 423**Prerequisites:** 9 hours PHIL.**Description:** Critical study of leading theories in ethics, with close attention to major works, chiefly modern and contemporary. Includes naturalism, intuitionism, emotivism, utilitarianism, Neo-Kantian ethics, and various current positions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 825 Political and Social Philosophy****Crosslisted with:** PHIL 425**Prerequisites:** 9 hours PHIL.**Description:** Critical study of main problems and leading theories in social and political philosophy. Origin and justification of political obligation, with emphasis on social contract theories; the nature and foundation of individual rights and the strength of these rights when they conflict with each other and with concern for the common good; the principles of social justice and the obligation to protect the welfare of others; and the concepts of personal autonomy, liberty, equality, and freedom. Readings from a combination of historical and recent work, and emphasis on relating the various issues to current problems in society.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 850 Ancient Philosophy****Crosslisted with:** PHIL 450**Prerequisites:** 9 hours PHIL.**Description:** Advanced survey of ancient philosophy from the pre-Socratics through Aristotle, concentrating on central epistemological and metaphysical issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 860 History of Modern Philosophy****Crosslisted with:** PHIL 460**Prerequisites:** 9 hours PHIL.**Description:** Advanced survey of early European philosophy from the late renaissance through the Enlightenment, concentrating on central epistemological and metaphysical issues.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

PHIL 871 Kant**Crosslisted with:** PHIL 471**Prerequisites:** 9 hours PHIL.**Description:** Kant's philosophy, and of problems in the interpretation of his writings. The primary text will be the First Critique.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 896 Philosophical Themes****Crosslisted with:** PHIL 496**Prerequisites:** Permission.**Description:** Library work and conferences.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**PHIL 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**PHIL 903 Philosophy of Mathematics****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 905 Philosophy of Language****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 911 Topics in Logic****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 913 Advanced Epistemology****Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**PHIL 914 Philosophy of Mind****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHIL 915 Advanced Metaphysics****Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**PHIL 917 Philosophy of Science****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 920 Ethical Theory****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 921 Aesthetics****Prerequisites:** Graduate standing in the humanities**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**PHIL 923 Philosophy of Psychology****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 925 Social and Political Philosophy****Description:** Intensive discussion of one or more of the main problems of social and political philosophy. Variable content. Possible topics are: political obligation, the concept of political authority, natural rights, the public interest, the aims of the state, and distributive justice.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**PHIL 952 Greek Philosophy****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 955 Empiricism****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC

PHIL 957 Quine**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 960 Rationalism****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 971 Kant****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 991 Special Studies in Philosophy I****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**PHIL 992 Special Studies in Philosophy II****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** IND**PHIL 998 Dissertation Seminar****Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**PHIL 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Physics (PHYS)

PHYS 801 Computational Physics**Crosslisted with:** PHYS 401**Prerequisites:** PHYS 311 or parallel.**Description:** Re-formulation of physics problems for solution on a computer, control of errors in numerical work, and programming.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 811 Methods of Theoretical Physics I****Description:** Fundamentals of applications of linear algebra, tensor analysis, complex analysis, ordinary differential equations and special functions to problems in theoretical physics with emphasis on special relativity, electrodynamics and nonrelativistic quantum mechanics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 812 Methods of Theoretical Physics II****Description:** Green's functions and integral transforms to solve boundary value problems in various physical systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 813 Methods of Theoretical Physics III****Description:** Application of discrete and continuous groups to various problems in solid state physics, atomic physics, high-energy physics and classical mechanics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 822 Introduction to Physics and Chemistry of Solids****Crosslisted with:** PHYS 422, ECEN 422, ECEN 822**Prerequisites:** PHYS 213 or CHEM 481/881, MATH 221/821.**Description:** Introduction to structural, thermal, electrical, and magnetic properties of solids, based on concepts of atomic structure, chemical bonding in molecules, and electron states in solids. Principles underlying molecular design of materials and solid-state devices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 831 Thermal Physics****Crosslisted with:** PHYS 431**Prerequisites:** PHYS 213.**Description:** Thermal phenomena from the point of view of thermodynamics, kinetic theory, and statistical mechanics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 841 Experimental Physics I****Crosslisted with:** PHYS 441**Prerequisites:** PHYS 213, 223 and 231**Notes:** Lab fee required.**Description:** Methods and techniques of modern experimental physics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 442, PHYS 842

PHYS 842 Experimental Physics II**Crosslisted with:** PHYS 442**Prerequisites:** PHYS 441/841 or permission.**Notes:** Lab fee required.**Description:** Continuation of PHYS 441/841.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 443, PHYS 843**PHYS 843 Experimental Physics III****Crosslisted with:** PHYS 443**Prerequisites:** PHYS 442/842 or permission.**Description:** Continuation of PHYS 442/842.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 851 Electromagnetic Theory****Crosslisted with:** PHYS 451**Prerequisites:** PHYS 213; MATH 221/821.**Description:** Theory of electric and magnetic fields and their interaction with charges and currents, Maxwell's equations, electric and magnetic properties of matter.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 452, PHYS 852**PHYS 852 Optics and Electromagnetic Waves****Crosslisted with:** PHYS 452**Prerequisites:** PHYS 451/851.**Description:** Production of electromagnetic waves, wave guides and cavities, properties of waves, plane waves, reflection and refraction, interference and coherence phenomena, polarization. Optical properties of matter.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 861 Quantum Mechanics****Crosslisted with:** PHYS 461**Prerequisites:** PHYS 213 and 311; or permission.**Description:** Basic concepts and formalism of quantum mechanics with applications to simple systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 862 Atoms, Nuclei, and Elementary Particles****Crosslisted with:** PHYS 462**Prerequisites:** PHYS 461 or permission.**Description:** Basic concepts and experimental foundation for an understanding of the physics of atoms, nuclei, and elementary particles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 880 Introduction to Lasers and Laser Applications****Crosslisted with:** ECEN 480, ECEN 880, PHYS 480**Prerequisites:** PHYS 213/(UNO) PHYS 2130.**Description:** Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 891 Special Topics in Physics****Crosslisted with:** PHYS 491**Prerequisites:** PHYS 213 and permission.**Description:** Topics vary.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**PHYS 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**PHYS 911 Classical Mechanics****Description:** Lagrangian and Hamiltonian formulations of the laws of motion; variational principles; dynamics of rigid bodies; other advanced topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 912; PHYS 928**PHYS 912 Statistical Physics****Prerequisites:** or parallel: PHYS 911 and 916, or permission**Description:** The laws of thermodynamics and thermodynamic functions; ensembles; Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; kinetic theory and transport phenomena. Application to macroscopic systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 927**PHYS 913 Electromagnetic Theory I****Description:** Electrostatics, magnetostatics, and Maxwell's equations; solutions to boundary value problems and Green's functions; electromagnetic radiation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 914; PHYS 918; PHYS 928

PHYS 914 Electromagnetic Theory II**Prerequisites:** PHYS 913 or permission**Description:** Special relativity and covariant formulation of electrodynamics; kinematics and dynamics of charged particles; radiation from moving charges; multipole radiation fields.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 928**PHYS 916 Quantum Mechanics I****Prerequisites:** Permission**Description:** Introduction to the formalism of quantum mechanics; applications to elementary systems; angular momentum; scattering theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 912; PHYS 917; PHYS 925; PHYS 927**PHYS 917 Quantum Mechanics II****Prerequisites:** PHYS 916 or permission**Description:** Hilbert-space formulation of quantum mechanics; stationary and time-dependent perturbation theory; variational methods; spin; many-particle systems and identical particles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PHYS 918; PHYS 926**PHYS 918 Quantum Mechanics III****Prerequisites:** PHYS 913 and 917, or permission**Description:** Introduction to relativistic electron theory; formal scattering theory; semi-classical radiation theory; second quantization and application to many-particle systems, elements of quantum electrodynamics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 925 Introduction to Atomic and Molecular Physics****Prerequisites:** PHYS 916 or permission**Description:** Selected topics in atomic and molecular physics with emphasis on experimentally observed phenomena, including atomic and molecular spectra and scattering phenomena, and molecular structure.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 926 Introduction to Nuclear and Elementary-Particle Physics****Prerequisites:** PHYS 917 or permission**Description:** Selected topics in nuclear and elementary particle physics with emphasis on experimentally observed phenomena, including nuclear forces, energy levels, nuclear models, decay of unstable nuclei, fundamental interactions and classification schemes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 927 Introduction to Solid-State Physics****Prerequisites:** PHYS 912 and 916, or permission**Description:** Selected topics in solid-state physics with emphasis on experimentally observed phenomena, including the structure and thermal, electric, magnetic, and elastic properties of metals, semiconductors, and insulators.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 928 Introduction to Plasma Physics****Prerequisites:** PHYS 911, 913, and 914**Description:** Fundamentals of plasma physics. Motion of charged particles, basic plasma models, waves in plasma, laser-plasma interactions. Applications such as magnetic and inertial confinement fusion, astrophysics, plasma-based accelerators, advanced light sources, and semiconductor materials processing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PHYS 951 Advanced Topics in Solid-State Physics****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**PHYS 955 Advanced Topics in Atomic Physics****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**PHYS 996 Research Other Than Thesis****Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 18**Format:** IND**PHYS 998 Special Topics in Physics****Prerequisites:** Permission**Description:** Offered as the need arises to treat special topics not covered in other 900-level courses.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**PHYS 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Plant Health Program (DPLH)

DPLH 691 Plant Health Colloquium

Description: Exploration of professionalism and professional opportunities in plant health and importance of leadership development.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 2

Format: LEC

DPLH 695 Plant Health Internship

Description: Professional experience in integrating interdisciplinary knowledge, practical problem-solving, and developing and implementing integrated plant and pest management systems.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 16

Format: FLD

Plant Pathology (PLPT)

PLPT 801 Biology of Plant Pathogens

Crosslisted with: AGRO 801, HORT 801

Prerequisites: PLPT 369 or equivalent.

Description: Molecular and cellular approach to the study of plant pathological principles.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PLPT 866; PLPT 965, AGRO 965, HORT 965

PLPT 802 Ecology and Management of Plant Pathogens

Crosslisted with: AGRO 802, HORT 802

Prerequisites: PLPT 369 or equivalent; an introduction to biochemistry course

Description: Principles of plant disease epidemiology and disease control through cultural, biological, chemical and host plant resistance strategies.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PLPT 866; PLPT 965, AGRO 965, HORT 965

PLPT 813 Biological Control of Pests

Crosslisted with: ENTO 813

Prerequisites: 12 hrs biological sciences and/or agricultural sciences

Description: Principles and practices of using natural enemies and antagonists to manage the abundance of pests and reduce economic losses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PLPT 814 Turfgrass Disease Management

Crosslisted with: AGRO 414, AGRO 814, HORT 414, HORT 814, PLPT 414, TLMT 414, TLMT 814

Prerequisites: BIOS/PLPT 369 or one semester of introductory plant pathology.

Description: Pathogens, epidemiology, and control of diseases specific to turfgrass.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

PLPT 817 Plant Pathology Principles and Application

Crosslisted with: AGRO 817, HORT 817

Prerequisites: 12 hours of prior coursework in the plant sciences

Description: Introduction to the biology of plant pathogenic organisms; pathogen-plant interactions; environmental influences; cultural, resistance, and chemical strategies for plant disease management.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PLPT 866 Phytopathogenic Nematodes

Prerequisites: PLPT 801 or 802; and permission

Description: Principles of nematode-induced disease of plants.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PLPT 867 Plant Associated Microbes

Prerequisites: A course in general microbiology, bacteriology, or mycology. A course in general plant pathology is highly recommended.

Description: Biology, ecology, and taxonomy of bacteria and fungi pathogenic or beneficial to plants. Microorganism isolation from plants and soil. Identification and plant inoculation.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

PLPT 891 Plant Disease Field Tour

Description: Diseases in Nebraska agricultural, urban, and wildland plant ecosystems; field diagnosis and management. One-week tours will be held in the summer prior to semester of enrollment.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

PLPT 892 Special Topics in Plant Pathology

Prerequisites: 12 hrs of microbiology, plant science or related fields

Notes: Topics vary.

Credit Hours: 1-4

Min credits per semester: 1

Max credits per semester: 4

Max credits per degree: 12

Format: LEC

PLPT 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major advisor.

Description: Research and writing towards the master's thesis

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

PLPT 963 Genetics of Host-Parasite Interaction

Crosslisted with: AGRO 963, HORT 963

Prerequisites: BIOS 820; and permission

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PLPT 965 Plant Virology

Crosslisted with: AGRO 965, HORT 965

Prerequisites: PLPT 801 or 802; and permission.

Notes: PLPT 865 is offered odd-numbered calendar years.

Description: Virus molecular biology; virosphere; virus-vector relationships; plant resistance to virus infection economic impact and control of plant diseases by viruses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SPRING

PLPT 968 Seminar in Plant Pathology

Crosslisted with: AGRO 968, HORT 968

Prerequisites: Permission.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Offered: SPRING

PLPT 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Description: Research and writing towards the PhD dissertation

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Political Science (POLS)

POLS 800 Research Methods

Crosslisted with: SRAM 800

Description: Basic techniques used in quantitative political science research. The general linear model. Basic probability theory, ordinary least squares regression, and how to solve problems often encountered when conducting quantitative analyses in political science.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 801 Scope and Methods of Political Science

Description: The character of political science as a form of inquiry-what it seeks to know it and how it seeks to know it. The discipline of political science as a science; the meaning of concepts, generalizations, laws, theories and explanations; and concept formation and theory building as embodied in major studies of politics. Alternative understandings of the character and possibility of a science of politics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 802 Professional Development in Political Science

Prerequisites: Permission

Description: Professional development topics, teaching methods, grant writing and article writing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 820 Core Seminar in American Government

Description: Literature in American governmental institutions, processes, policies, and law. Students required to do extensive reading in these areas. Introduces the beginning graduate student to the field of American government.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 825 Congress and Public Policy

Crosslisted with: POLS 425

Description: The policy making role of the Congress including the institutionalization of the House and the Senate, an analysis of congressional behavior, the committee process, and the policy responsiveness of Congress.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: American Government&Public Pol

POLS 826 Topics in American Public Policy

Crosslisted with: POLS 426

Description: A significant public policy in American politics. Topics: science, technology, and public policy; or health politics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

Groups: American Government&Public Pol

POLS 830 Political Communication**Crosslisted with:** COMM 430, POLS 430, COMM 830**Prerequisites:** 12 hrs communication studies.**Description:** Role of communication in the political process, with emphasis on communication strategies in political campaigns. Includes communication variables important in the political process, an application of communication theory and principles to political rhetoric, and analysis and criticism of selected political communication events.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**POLS 831 Core Seminar in Public Policy and Process****Description:** Intended for graduate students interested in a review of the field.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**POLS 836 Public Policy Analysis: Methods and Models****Description:** Qualitative and quantitative approaches to public policy analysis. Nature of politics and policy, formation of public policy, analysis of policy content, methodological triangulation, participatory policy making designs, and the role of the analyst. Construct and implement a multi-method policy analysis for a local community agency.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**POLS 841 Constitutional Law****Crosslisted with:** POLS 441**Description:** Supreme Court doctrine determining the distribution of powers within the national government and between the national government and the state governments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**POLS 842 Civil Liberties: Freedom of Expression and Conviction****Crosslisted with:** POLS 442**Description:** Supreme Court doctrine interpreting the First Amendment, covering freedom of speech, assembly, and association; freedom of the press; and freedom of religion.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**POLS 843 Civil Liberties: Issues of Fairness and Equality****Crosslisted with:** POLS 443**Description:** Supreme Court doctrine covering the rights of the accused, the right to privacy and the right to racial and sexual equality.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**POLS 850 Core Seminar in Biology and Politics****Description:** Introduction to the relationship between the fields of biology and politics. The political implication of genetics, physiology, neuro-imaging, and evolutionary psychology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**POLS 859 International Political Economy****Crosslisted with:** POLS 459**Description:** Interface of politics and economics in the international arena. Political dimension of international economic issues emphasized. Includes: liberal, mercantile, and radical approaches; theories of imperialism; dependency and interdependency; distribution of the global product; the global division of labor; the political aspects of markets; the politics of trade, aid, investment, multinational corporations, food, and energy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar**POLS 860 Core Seminar in International Politics****Description:** Extensive reading required. Rigorous survey of the literature in international relations, including international law and international organization. Intended to introduce the beginning graduate student to the field of international relations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**POLS 863 American Foreign Policy and the Use of the Military****Crosslisted with:** POLS 463**Description:** Military action as an instrument of American foreign policy. Constitutional basis of the president's and Congress's war powers; assessments of the role of the White House, Congress, CIA, senior pentagon officials, the American public, and military alliances - NATO and coalitions of the willing - in supporting and directing the use of military action abroad; and the political and strategic consequences of various American applications of military force.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human Rights and Security**POLS 866 Pro-seminar in International Relations I****Crosslisted with:** ECON 466, POLS 466, AECN 467, ANTH 479, ANTH 879, ECON 866, GEOG 448, GEOG 848, HIST 479, HIST 879, SOCI 466, SOCI 866**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations.**Description:** Topic varies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar Integrative Courses, Research Variable group based on topic Comp Intrntnl & Reg Develpmnt Human-Economic Geography

POLS 867 Pro-seminar in International Relations II**Crosslisted with:** ECON 467, ECON 867, POLS 467**Prerequisites:** Senior standing and permission.**Notes:** Open to students with an interest in international relations. Emphasis on political process, with attention to law, philosophy, economics, and culture. Coverage of the United Nations, regional organizations, private agencies, and national foreign policies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human Rights and Security**POLS 873 Problems in International Law and Organization****Crosslisted with:** POLS 473**Notes:** POLS 361 or 469 highly recommended.**Description:** Selected issues in international law and organization. Content varies. Includes: US Senate's treatment of treaties, use of customary law by US courts, current cases before the World Court, leading legal issues handled by the UN Security Council and General Assembly, etc.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Human Rights and Security**POLS 875 Water Quality Strategy****Crosslisted with:** NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 475, MSYM 875, POLS 475**Prerequisites:** Senior standing.**Notes:** Capstone course.**Description:** Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** American Government&Public Pol**POLS 876 Ethnic Conflict and Identity****Crosslisted with:** JUDDS 476, POLS 476**Description:** Theories of nationalism and ethnic conflict. Case studies of Europe, the Middle East, and Africa. The post-Cold War era as multi-polar and multi-civilizational. The states and different cultures that compete for influence and authority to dominate the "New World order." The division of the world along ethnic, religious, and class lines rather than by ideology. The future of international politics and the reassessment of the causes of "conflicts of culture" and their containment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar**POLS 877 Israel and the Middle East****Crosslisted with:** JUDDS 477, POLS 477**Description:** Israeli politics, society, and relations with its neighbors, particularly the Palestinians. Rise of Zionism and the Palestinian response to it; wars between Israel and Arab neighbors, and the eventual peace agreements between the two; the internal dynamics of Israeli political life; and state of Zionism today.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** International Relations&Compar**POLS 878 Pro-seminar in Latin American Studies****Crosslisted with:** ANTH 478, GEOG 478, HIST 478, LAMS 478, POLS 478, SOCI 478, MODL 478, EDPS 478, ANTH 878, GEOG 878, HIST 878, SOCI 878, MODL 878, EDPS 878**Prerequisites:** Junior standing and permission.**Notes:** Topical seminar required for all Latin American Studies majors.**Description:** An interdisciplinary analysis of topical issues in Latin American Studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**Groups:** Regional Geography Lat Am,Asian,Middle East Hist International Relations&Compar Integrative Courses, Research

POLS 879 Core Seminar in Comparative Politics

Description: POLS 879 is intended to introduce the beginning graduate student to the field of comparative politics. Survey of the field of comparative politics. General theory and methodology; issues and crises in a number of functional areas; participation and socialization; and the special problems confronting the area specialist.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 880 Core Seminar in Political Theory

Description: Students required to read extensively and to take a final examination. Rigorous survey of some of the major areas of concern in empirical and normative political theory.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 891 Individual Readings

Prerequisites: Permission

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

POLS 895 Internship

Description: Internship in government agencies, quasi public agencies, private firms (profit and nonprofit), and other organizations.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: FLD

POLS 898 Special Topics

Crosslisted with: POLS 498

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 24

Format: LEC

POLS 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

POLS 901 Dissertation Prospectus

Prerequisites: Permission

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

POLS 920 Seminar in American Government

Prerequisites: Permission

Credit Hours: 3

Max credits per semester: 3

Psychology (PSYC)

PSYC 821 Psychology of Gender

Crosslisted with: PSYC 421, WMNS 421, WMNS 821

Prerequisites: 12 hrs PSYC.

Description: Theory and research on the role of gender in human behavior and attitudes. Diverse theoretical positions on the development of gender and the biological, social, and cultural bases that influence the relationship between gender and a variety of areas of human experience (e.g., intelligence and achievement, emotion, relationships, sexuality, physical fitness, stress, and coping).

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 825 Psychology of Racism

Crosslisted with: ETHN 425, PSYC 425

Prerequisites: PSYC 350.

Description: Major terms and issues in psychology that pertain to race and racism in the United States. General principles of the psychology of racism that are universal. Psychology of the major racial minority groups in the United States examined through their unique cultures, histories, traditions, and collective identities. Research methods for the psychology of racism reviewed as a basis for interpreting research results.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 828 Health Psychology

Crosslisted with: PSYC 428

Prerequisites: Junior or Senior standing.

Description: The relationship between psychological factors and physical health. Health behavior, health decision-making, health promotion and coping from a variety of theoretical perspectives.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 840 Perspectives in Psychology

Crosslisted with: PSYC 440

Prerequisites: 12 hrs psychology including PSYC 350 or concurrent enrollment in PSYC 350

Description: Currently important fundamental issues in psychology, focusing on controversies within the science of psychology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 850 Advanced Research Design and Data Analysis

Crosslisted with: PSYC 450

Prerequisites: PSYC 350 with a grade of B or better.

Notes: PSYC 450/850 (usually offered in the fall) and PSYC 451/851 (usually offered in the spring) can be taken in any order.

Description: Presentation of advanced, experimental, quasi-experimental, and non-experimental research designs and statistical models employed in psychological and behavioral research. Factorial ANOVA and ANCOVA designs and analysis, with interpretation and presentation of the results in oral, written, and web-based formats. Create, perform, and present an individual research project.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

PSYC 851 Multivariate Research Design and Data Analysis

Crosslisted with: PSYC 451

Prerequisites: PSYC 350 with a grade of B or better

Notes: PSYC 450/850 (usually offered in the fall) and PSYC 451/851 (usually offered in the spring) can be taken in any order.

Description: Presentation of multivariate research designs and statistical models employed in psychological and behavioral research. Analysis using multiple regression and linear discriminant function models; interpretation and presentation of the results in oral, written, and web-based formats. Create, perform, and present an individual research project.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

PSYC 858 Behavior Genetics

Crosslisted with: PSYC 458

Prerequisites: PSYC 273

Description: Introduction to concepts and research in behavior genetics. The role of heredity in normal and disordered behaviors will be examined, with a special emphasis on the mechanisms by which genetic variation influences individual differences in behavior.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 860 Human Memory

Crosslisted with: PSYC 460

Prerequisites: PSYC 263.

Description: Issues in human memory within the context of cognitive psychology: attention; short and long term memory; retrieval processes; semantic memory; how long-term memory is involved in comprehension and knowledge; how emotion affects memory; and the major research paradigms used in the study of memory.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 861 Animal Learning & Cognition**Crosslisted with:** PSYC 461**Prerequisites:** Junior or Senior standing**Description:** Evaluation and discussion of studies in learning and cognition that draws from the research literature with nonhuman animals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 862 Motivation and Emotion****Crosslisted with:** PSYC 462**Prerequisites:** Junior or Senior standing**Description:** Major problems and methods involved in the study of motivation and emotion including theoretical considerations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 863 Perception****Crosslisted with:** PSYC 463**Prerequisites:** PSYC 263 OR PSYC 273**Description:** Analysis and comparison of approaches to the study of current problems in human perception and information processing. Psychophysical judgment, signal detection theory, perception of form and space, and the role of imagery in perception.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 865 Behavioral Neuroscience****Crosslisted with:** BIOS 465, BIOS 865, PSYC 465**Prerequisites:** PSYC 273**Description:** Relationship of physiological variables to behavior, an introduction to laboratory techniques in neuropsychology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 866 Attention and Performance****Crosslisted with:** PSYC 466**Prerequisites:** PSYC 263.**Description:** Theory and research on human attention and the critical link between attention and performance within the context of cognitive psychology. The influence of various factors on attention (e.g. emotion, video games, cognitive disorders) and how these influence behavior (e.g. eye movements, perception, motor control, search).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 871 Human Sexuality and Society****Crosslisted with:** CYAF 471, EDPS 471, PSYC 471, SOCI 471, CYAF 871, EDPS 871, SOCI 871**Prerequisites:** Junior or Senior standing**Notes:** Open to advanced students planning careers in the professions in which knowledge of human behavior and society is important (e.g., helping professions, medicine, law, ministry, education, etc.).**Description:** Interdisciplinary approach to the study of human sexuality in terms of the psychological, social, cultural, anthropological, legal, historical, and physical characteristics of individual sexuality and sex in society.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 883 Advanced Social Psychology****Crosslisted with:** PSYC 483**Prerequisites:** PSYC 288.**Description:** Current problems, methods, and findings in the study of individual behavior as it is influenced by the social environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 886 Clinical Psychology****Crosslisted with:** PSYC 486**Prerequisites:** PSYC 380.**Description:** Fundamental procedures in clinical practice, a critical evaluation of diagnostic and therapeutic techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 889 Child Behavior and Development****Crosslisted with:** PSYC 489**Prerequisites:** PSYC 289 or CYAF 160; PSYC 350 or permission.**Description:** Current issues in theory and research in developmental psychology examined (e.g., emotional development, the changing American family, the preschool years, social understanding), along with methods of research in these and other areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**PSYC 901 Pro-seminars in Cognition and Learning****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

PSYC 902A Developmental: Biological and Cognitive Development**Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 902B Developmental: Social and Personality Development****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 903 Proseminar in Personality****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 904 Proseminar in Physiological****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 905 Proseminar in Sensation and Perception****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 906 Proseminar in Social Psychology****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 907 Proseminar in Cognitive Psychology****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 908 Proseminar in Clinical-Community****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 909 Proseminar in Psychopathology****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 910 Proseminar in History and Philosophy of Psychology****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 920 Seminar in Psychology: Abnormal****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 921 Seminar in Psychology: Developmental****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 922 Seminar in Psychology: Clinical****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 924 Seminar in Psychology: Learning****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 925 Ethics for Psychologists****Prerequisites:** Permission**Description:** Introduction to ethical principles and reasoning for research, teaching and professional practice in psychology.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** PSYC 925B**PSYC 925A Ethics for Clinical Psychologists****Prerequisites:** Advanced graduate standing and permission**Description:** Application of ethical principles to practica and professional practice. Critique of the status of a professional mental health discipline, a discipline's ethical code, and practice in society.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

PSYC 925B Ethics for Psychology and the Law**Prerequisites:** PSYC 925**Description:** Application of ethical principles to the practice of psychology in interaction with legal institutions with an emphasis on the communication of psychological expertise and research to those legal institutions.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**PSYC 926 Seminar in Psychology: Personality****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 928 Seminar in Psychology: Motivation & Emotion****Prerequisites:** Advanced graduate standing and permission.**Description:** Seminar that examines some basic tenets of the psychology of emotion and motivation from a social psychological perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**PSYC 929 Seminar in Psychology: Social Behavior****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 930 Seminar in Psychology: Psychometric Methods****Prerequisites:** Advanced graduate standing and permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**PSYC 941 Fundamentals of Research Design and Data Analysis 1****Prerequisites:** Instructor permission**Notes:** PSYC 941 is usually offered every fall.**Description:** Presentation of basic methods, designs, and data analysis techniques employed in psychological and behavioral research. Univariate and bivariate statistical analyses and research hypothesis testing, multiple groups ANOVA, multiple regression, and the general linear model (GLM).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PSYC 942; PSYC 944; PSYC 948**PSYC 942 Fundamentals of Research Design and Data Analysis 2****Prerequisites:** PSYC 941 and instructor permission**Notes:** PSYC 942 is usually offered every spring.**Description:** Presentation of additional basic methods, designs, and data analysis techniques employed in psychological and behavioral research. Factorial designs and ANOVA, integrating these designs into the general linear model (GLM), testing and comparing models, uses of statistical control, path analysis, linear discriminant function analysis, and cluster analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PSYC 943; PSYC 944; PSYC 948**PSYC 943 Fundamentals of Multivariate Modeling****Prerequisites:** PSYC 942 and instructor permission**Notes:** Pre-requisite for PSYC 944 and PSYC 948.**Description:** Presentation of the core topics in modern multivariate analysis, including extensions of linear models involving link functions, maximum likelihood and Bayesian estimation, missing data, path models for multivariate regression and mediation, repeated measures analysis of variance, and exploratory factor analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 944 Multilevel Modeling in the Behavioral Sciences****Prerequisites:** PSYC 941 & 942 or instructor permission**Description:** Applications of the multilevel model (i.e., hierarchical linear model, general linear mixed model) for analyzing nested data with a particular focus on longitudinal data analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**Prerequisite for:** PSYC 945**PSYC 945 Advanced Multilevel Models****Prerequisites:** PSYC 944 and permission**Description:** Advanced applications of the multilevel model (hierarchical linear model, general linear mixed model) for examining multiple sources of variation, models for crossed sources of nesting, three levels of nesting, heterogeneous variances, multivariate outcomes, and non-linear outcomes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 946 Psychology of Survey Response****Crosslisted with:** SRAM 946**Description:** Cognitive and communicative processes affect on dynamics of survey interviewing and relationships to principles of survey design. Effects of question wording on comprehension; question order and context on attitude; communicative and retrieval processes on validity of retrospective behavioral reports; and impact of response alternatives on answers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

PSYC 947 Questionnaire Design**Crosslisted with:** SOCI 947, SRAM 947**Description:** Design of questionnaires for survey research and the theoretical and practical issues arising from them. Selection of appropriate measurement techniques for assessing opinions, past behaviors and events, and factual material.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 948 Structural Equation Modeling in the Behavioral Sciences****Prerequisites:** PSYC 941 & 942 or instructor permission**Notes:** PSYC 944 and PSYC 948 may be taken in any order.**Description:** Fundamentals and foundations of SEM (model specification and identification, data preparation, model estimation, model respecification, reporting results) and specific applications of path analysis (moderation, mediation, and moderated mediation) and latent variable modeling (standard and nonstandard CFA models, integrating latent variables into path models, multiple group analysis).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**PSYC 955 Introduction to Clinical Assessment****Prerequisites:** Permission**Description:** Introduction to the theory and application of assessment procedures and techniques. Measurement and interpretive issues in clinical assessment. Laboratory introduction to structured techniques emphasizing intellectual assessment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PSYC 956; PSYC 957; PSYC 958**PSYC 956 Clinical Assessment Techniques****Prerequisites:** PSYC 955 or permission**Description:** Didactic and laboratory training in the administration, scoring, and beginning interpretation of projective and objective assessment techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** PSYC 957; PSYC 958**PSYC 957 Topics in Clinical Assessment****Prerequisites:** PSYC 955 and 956 and permission, or equivalent advanced training and permission**Description:** A selected topic taught during the course. Examples include clinical neuropsychology, assessment techniques and assessment batteries, individual case conference presentation, and assessment of sexual dysfunctions.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 958 Seminar in Dispositional Assessment****Prerequisites:** PSYC 955 and 956 or permission**Description:** Advanced interpretation, issues, and research in clinical psychology assessment. Emphasis on the "dispositional assessment" model of clinical analysis. Student presentations and individual case interpretation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 960 Seminar in Alcohol Use and Abuse****Prerequisites:** Permission**Description:** Biopsychosocial perspective of alcohol abuse. Focus on multiple factors that contribute to alcohol problems, including physiological/genetic, psychological and sociocultural determinants. Intervention, treatment and prevention issues. Societal and governmental attitudes and policies. Emphasis on theoretical and empirical literature bearing on the above areas.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 961 Psychology of Decision Making****Description:** Psychological, economic, and biological perspectives on decision making in humans and nonhuman animals. Examines the role of psychological mechanisms including learning, memory, heuristics, emotions, and theory of mind in decision-making contexts such as probability judgments, risky choice, intertemporal choice, and cooperation. Includes biological component examining an evolutionary perspective on decision making.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 963 Group Processes and Group Psychotherapy****Prerequisites:** Open to students in community-clinical psychology or permission**Description:** Group phenomena which are relevant to mental health service providers. Incorporates both didactic and experiential teaching of group process and group outcome issues. Focus on group process issues in group therapy (using the group concepts of Yalom and other writers) and experiencing these concepts in a training group.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 970 Clinical Interviewing****Prerequisites:** Admission to the community-clinical psychology program**Description:** Basic skills needed in seeing a mental health client (e.g., listening, empathy, reflection and restatement) explored through didactic, group interaction and live individual interviews. Focus is preparing the student to meet their first psychotherapy client in a competent manner. Doing observing and rating pseudo and patient interviews.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

PSYC 971 Psychological Literature I

Description: Reading assignments in special fields; library reading, conferences.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

PSYC 972 Psychological Literature II

Description: Reading assignments in special fields; library reading, conferences.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: IND

PSYC 974 Teaching Methods for Psychology

Prerequisites: Permission

Description: Teaching methods, philosophical perspectives to teaching, practical ideas about classroom instruction, and career issues in higher education.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PSYC 990

PSYC 975 Advanced Experimental Psychology

Prerequisites: Permission

Description: Typical refinements of controlled investigations. General methodology and practice in carrying out a few prolonged experiments.

Credit Hours: 1-9

Min credits per semester: 1

Max credits per semester: 9

Max credits per degree: 9

Format: LEC

PSYC 976 Psychology of Race and Ethnicity

Description: Theoretical and practical implications for the impact of race and ethnicity on psychological processes and functioning. The meaning of race and ethnicity for notions of self, identity acquisition and maintenance, intra- and inter-group processes, measurement of biases and discrimination. Methods to improve the treatment of race and ethnic issues within the field of psychology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 979 Cultural Diversity in Psychology

Prerequisites: Permission

Description: Influence of culturally driven world-views on psychological functioning and on psychological theory. American psychological theory, research and practice influenced by the socialization and world-views of the contributing psychologists. Ways in which existing theory and practice accommodate—or fail to accommodate—the world-views and experiences of racial/ethnic minorities in the contemporary United States.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 981 Clinical Intervention I

Prerequisites: Graduate standing in clinical psychology training program or permission of director of clinical training

Description: Practical and didactic training in assessment and intervention for psychological and behavioral disorders. Emphasis on entry-level clinical skills including establishment of the therapeutic relationship, case conceptualization, and development of treatment plans within the scientist-practitioner model.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: PSYC 982

PSYC 982 Clinical Intervention II

Prerequisites: PSYC 981 and either graduate standing in clinical psychology training program or permission of director of clinical training

Description: Practical and didactic training in assessment and intervention for psychological and behavioral disorders. Emphasis on conceptualization of more complex cases, assessment and treatment of a broader range of cases, and evaluation of efficacy of interventions within the scientist-practitioner model.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 983 Therapy in Clinical Psychology I

Prerequisites: Permission

Description: Theory and methods employed by different "schools" of therapy analyzed and related to basic psychological theory.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 985 Law and Behavioral Science

Description: Examines actual and potential uses of social scientific research findings and theories in the law and the methods for evaluating the quality and application of social scientific evidence. The uses of social scientific evidence to determine facts, to make law, to provide contextual background for legal decisions, to plan litigation and to assess the functioning of the legal system are examined in a variety of substantive areas. Topical coverage includes: establishing community standards in obscenity cases, the death penalty, research ethics, explaining and predicting behavior, jury decision making, eyewitness reliability and pretrial publicity.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

PSYC 986 Child Psychopathology and Assessment

Prerequisites: Advanced graduate standing and permission

Description: Major categories of child psychopathology, theoretical formulations of etiology of such disorders, empirical findings and issues related to each disturbance and appropriate instruments for assessing each disorder.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

PSYC 987 Child Therapy**Prerequisites:** Advanced graduate standing and permission**Description:** Various child intervention techniques with an emphasis on behavioral parent training for child noncompliance.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 988 Mental Health Law****Description:** Addresses both civil and criminal issues that are likely to arise in practice. These include: civil competence for a variety of purposes; civil guardianship and conservatorship; civil commitment; confidentiality and privilege; health care provider liability in the context of mental health care; competence to proceed at several stages of the criminal process; criminal responsibility; and criminal sentencing. Critical review of the mental health laws throughout the nation and their psychological foundations. Emphasis on the research that illuminates the problems facing mental health law, system, and processes and the available solutions. Includes the insanity defense, competency to stand trial, guardianship, conservatorship, and civil commitment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL**PSYC 989 Topics in Law and Psychology I****Description:** In-depth analysis of specific psycholegal topics. Previous course titles have included Aging and the Law, Eyewitness Testimony, Privacy, Mental Health Policy, Legal Decision Making, Jurors/Jury Decision Making, Institutional Reform and Deinstitutionalization, Legal Policy and Child Development, Domestic Violence, Psychological Testimony in Criminal Cases: Battered Women's Cases, Expert Evidence, Children and the Law, and Psychology and Family Law.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**PSYC 990 Practicum in Teaching Methods for Psychology****Prerequisites:** PSYC 974 and permission**Description:** Students will contract with instructor to teach an undergraduate psychology course under supervision. Individual instruction on teaching methods, classroom assessment, and practical classroom techniques.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**PSYC 991 Research Methods in Social and Personality Psychology****Prerequisites:** Permission and second-year graduate standing; at least 1 sem graduate-level statistics**Description:** Research design and the application of design to real research problems, including the application of statistics, problems of control, confounding, alternative explanations, demand characteristics, and experimenter effects. In addition to readings in theory of design and experimentation, the practical solution of design problems and critique of research are emphasized.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 992 Field Methods in Psychology****Prerequisites:** Second-year graduate standing and permission**Description:** Design and implementation of field research, including observational methods, experimental and quasi-experimental designs, and program evaluation. In addition to readings in the theory of field research methodology, the solutions to specific, commonly occurring design and statistical problems are emphasized.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 993 Seminar in Program Evaluation****Description:** Major issues involved in the evaluation of programs which deliver human services. Includes needs assessments, outcome evaluation techniques, qualitative methods, goal attainment scaling, multi-attribute utility theory, role relationships and political problems with which evaluators must contend.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**PSYC 995 Psycholegal Research Other than Thesis I****Notes:** Absent the prior approval of the Dean, only those students enrolled in the Law/Psychology Joint Degree Program may register for this course. Absent the prior approval of the Dean, no student may take more than six hours of Research in a Selected Field and/or Psycholegal Research.**Description:** A substantial research and writing project on a psycholegal topic. The research is supervised and approved by a faculty member in the Law/Psychology program.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND**Offered:** ALL

PSYC 995A Psycholegal Research Other than Thesis II

Notes: Absent the prior approval of the Dean, only those students enrolled in the Law/Psychology Joint Degree Program may register for this course. Absent the prior approval of the Dean, no student may take more than six hours of Research in a Selected Field and/or Psycholegal Research.

Description: A substantial research and writing project on a psycholegal topic. The research is supervised and approved by a faculty member in the Law/Psychology program.

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 6

Format: IND

Offered: ALL

PSYC 996 Research Problems Other Than Thesis

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 24

Format: IND

PSYC 997 Clinical Practicum

Prerequisites: Full graduate standing in clinical psychology training program or permission of director of clinical training

Description: Individually supervised evaluative and diagnostic work with clinic subjects. Emphasis on the refinement of skills in evaluating and diagnosing behavior deviations.

Credit Hours: 1-30

Min credits per semester: 1

Max credits per semester: 30

Max credits per degree: 30

Format: IND

PSYC 998 Practicum in Law and Psychology

Prerequisites: Full graduate standing in Law/Psychology Graduate Training Program or permission of the director of the Law/Psychology Program

Description: Supervised fieldwork in law and psychology. Emphasis on the integration of legal analysis and psychological research in the formulation or implementation of public policy.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: IND

PSYC 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Raikes School of Computer Science and Management (RAIK)

RAIK 802 RAIK: DSGN STUDIO I

Crosslisted with: GRBA 802

Prerequisites: Admission to the MBA program; BSAD/CSCE/RAIK 402H

Description: The first semester of a two semester sequence of the Raikes School of Computer Science and Management Graduate Design Studio. Application of software design principles in a team oriented project management setting. Complete projects in consultation with private and public sector clients.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: RAIK 803, GRBA 803

RAIK 803 Raikes School: Design Studio II

Crosslisted with: GRBA 803

Prerequisites: Admission to the MBA program; GRBA/RAIK 802

Description: The second semester of a two semester sequence of the Raikes School of Computer Science and Management Graduate Design Studio. Application of software design principles in a team oriented project management setting. Complete projects in consultation with private and public sector clients.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Religious Studies Program (RELG)

RELG 806 Second Temple Judaism

Crosslisted with: JUDES 406, RELG 406

Description: An in-depth study of the literature, history and culture of Judea and the Jews in the Second Temple period, from 550 BCE to 70 CE. Readings include apocalyptic texts, Wisdom literature, and selections from the Dead Sea Scrolls.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: JUDES 308, RELG 308

RELG 826 Reformation Thought

Crosslisted with: HIST 426, HIST 826, MODL 426, MODL 826, MRST 426, MRST 826, RELG 426

Prerequisites: Junior standing

Description: Life and thought of significant figures and schools of thought in the Reformation period

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Pre-1800 History

RELG 889 Medieval Literature and Theology**Crosslisted with:** ENGL 489, ENGL 889, RELG 489**Description:** The relationship between significant medieval theologies and primary medieval poets and prose masters.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Literary and Cultural Studies

Russian (RUSS)

RUSS 803 Russian Grammar and Stylistics**Crosslisted with:** RUSS 403**Prerequisites:** RUSS 301, 302, 303 or 304**Notes:** See instructor if you believe an equivalent course(s) may count for prerequisite.**Description:** Detailed analysis of Russian morphology and syntax to achieve greater sophistication in self-expression.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**RUSS 841 Advanced Literary Analysis****Crosslisted with:** RUSS 441**Prerequisites:** RUSS 301, 302, 303 or 304**Notes:** All the readings, discussions, and assignments are in Russian. See instructor if you believe an equivalent course(s) may count for prerequisite.**Description:** In-depth study of a work, period, or genre with emphasis on textual analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**RUSS 842 Russian Poetry****Crosslisted with:** RUSS 442**Prerequisites:** RUSS 301, 302, 303 or 304.**Notes:** See instructor if you believe an equivalent course(s) may count for prerequisite.**Description:** Russian poetry of the nineteenth and twentieth centuries.

Teaches poetry appreciation and acquaints them with the culture, history and philosophy of the country through poetry.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**RUSS 854 Russian Intellectual Tradition****Crosslisted with:** MODL 454, MODL 854, RUSS 454**Prerequisites:** Junior standing.**Description:** Major Russian thinkers from 1700 to the present. Focus on the evolution of ideas in the Russian context and the relationship between Russian and European thought.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**RUSS 883 Russian Literature in Translation II****Crosslisted with:** RUSS 483**Prerequisites:** Junior standing.**Description:** Survey of twentieth-century Russian literature, to include works by Babel, Blok, Bely, Zamyatin, Bulgakov, Zoshchenko, Gorky, Sholokhov, Pasternak, Solzhenitsyn, and Rasputin. Prepares students to appreciate literature and acquaint them with Russian literature, culture and philosophy.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**RUSS 898 Special Topics in Russian****Prerequisites:** RUSS 301 and 302.**Notes:** Specific topic to be covered in any given semester and credit to be awarded to be determined by the instructor at that time.**Description:** Language, literature, and civilization.**Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

Science Literacy (SCIL)

SCIL 800 Experiential Learning in Food, Energy and Water Systems II**Crosslisted with:** SCIL 400**Prerequisites:** 15 hours of coursework towards the Food, Energy, and Water in Society Minor including SCIL 300 (at the 400 level) or 12 hours of graduate coursework (at the 800 level).**Description:** A multifaceted experience that serves as a culminating academic and intellectual experience for students. Students will complete an internship or a research project in an approved professional or academic setting that will provide them with a challenging and engaging experience. As part of this experience, students will cater knowledge and skills from the minor as appropriate for a professional career, begin to build a network for support and future employment, and clarify individual professional goals and strategies for career development. The experience will culminate in the development of a creative product that illustrates the students' knowledge and skills relevant to food, energy, and/or water systems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**Prerequisite for:** SCIL 300**SCIL 888 Teaching Undergraduate Science****Crosslisted with:** AGRI 888, AGRI 488, SCIL 488**Description:** The dynamics of undergraduate student learning. Begin to develop the reflective practice of progressive instructional improvement. Interpreting improved educational outcomes in terms of the ability of the instructor to manipulate undergraduate student interactions with instructional materials in an active learning environment.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** FALL

Social Work (SOCW)

Sociology (SOCI)

SOCI 807 Strategies of Social Research: Qualitative Methods

Crosslisted with: SOCI 407

Description: Systematic review and application of qualitative research methods, including participant observation, unstructured interviewing, audiovisual techniques and personal document analysis; data collection and interpretation emphasized as well as different theoretical assumptions underlying their various approaches.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 835 Mass Communication

Crosslisted with: SOCI 435

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Analysis of the structure and effects of the media of mass communication.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 842 Personality and Social Structure

Crosslisted with: SOCI 442

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Personality and the sociocultural environment.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 843 Sociology of Mental Health

Crosslisted with: SOCI 443

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Social origins of mental health and illness; social distribution of mental health by race, class, and gender; social construction of mental health; mental health care systems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 844 Population Dynamics

Crosslisted with: SOCI 444

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Historical and cross-cultural approach to population issues by linking changes in fertility and mortality to social institutions. Focuses on the link between population processes and such issues as gender roles, the role of the family, the Third World, and poverty and inequality.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 848 Family Diversity

Crosslisted with: ETHN 448, SOCI 448, ETHN 848

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Analyzes diversity in family structure and family choices. Includes: rural families, gay/lesbian families, Native American families, African American families, Latino families, working class and working poor families and cohabitation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 849 Perspectives on Families

Crosslisted with: SOCI 449

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Sociological perspectives on marriage and different family types. Focuses on formation and organization of families, and issues confronting families. Emphasizes contemporary research and theory.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 852 Sociology of Religion

Crosslisted with: SOCI 452

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Consideration of sources and nature of religion, drawing on contributions of anthropologists, sociologists, psychologists, and others. Emphasis on interaction of religion and society.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 854 Physical Health Disparities

Crosslisted with: SOCI 454, ETHN 454

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Contribution of social inequality to health outcomes; Intersection of individual and social factors through which racial, economic, and gender differences in health emerge.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SOCI 855 History of Sociological Theory

Crosslisted with: SOCI 455

Prerequisites: 9 hours of SOCI, or Senior standing.

Description: Survey of the nineteenth- and early twentieth-century writers whose ideas have had a strong impact on the development of contemporary sociology and sociological theories. Emphasis on the work of such persons as Karl Marx, Emile Durkheim, Max Weber, George Herbert Mead, and Georg Simmel.

Credit Hours: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SPED 472

SPED 806 Reading and Writing Disabilities: Adolescents

Crosslisted with: SPED 406, TEAC 806

Prerequisites: SPED 212 and TEAC 441 (required for undergraduate students only). Parallel with SPED 406A/806A.

Description: Theory and techniques for assessing and teaching word identification, vocabulary, comprehension and writing skills in grades 7 to 12.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SPED 806A Reading Center Practicum II

Crosslisted with: SPED 406A, TEAC 806A

Prerequisites: SPED 212 and TEAC 441 (required for undergraduate students only). Parallel with SPED 406/806.

Notes: Requires two hours per week in a Reading Center.

Description: Teaching and/or tutoring experience evaluating and instructing students with reading problems in a Reading Center. Assessment, instructional planning, delivery of instruction, writing diagnostic reports and parent communication.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LAB

SPED 807 Foundations of Secondary Special Education

Description: Provide future special education teachers with both the historical timeline and current legislation regarding services for students with mild/moderate disabilities. Chronological events and legal mandates that public schools must reinforce to provide an equal education for all students.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SPED 408, SPED 808

SPED 808 Methods and Instruction for Secondary Special Education

Crosslisted with: SPED 408

Prerequisites: SPED 407 or 807.

Description: Instill practices of "Explicit Instruction" and a framework for instructional planning. Provide a practicum experience for future teachers to practice their knowledge and skills on a weekly basis in a secondary school setting.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 809 Intro to Autism Spectrum Disorder

Description: Designed for educators of children and youth with Autism Spectrum Disorder. Provides characteristics, assessment process, and etiology. Includes overview of interventions and evidence-based practices.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SPED 810

SPED 810 Autism Spectrum Disorder (ASD): Methods

Prerequisites: SPED 809 or equivalent

Notes: Majors in severe disabilities must parallel with SPED 896P (1 cr). SPED 810 requires observations in schools and applied assignments.

Description: Planning, implementing, and evaluating intervention programs for individuals with Autism Spectrum Disorder. Apply assessment data to develop functional outcomes and select instructional strategies using evidence-based interventions.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 814 Instructional Methods for Students with Mathematics Learning Disabilities

Crosslisted with: SPED 414

Prerequisites: SPED 201; sophomore standing.

Description: Understanding characteristics of students with math learning disabilities and potential causes. Evidence-based instructional strategies in math for teaching students with math learning disabilities and those who are at-risk.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

SPED 815 Reading and Writing Disabilities: Elementary Students**Crosslisted with:** SPED 415**Prerequisites:** SPED 201, TEAC 311, TEAC 313 for elementary education majors; SPED 201, TEAC 416A, TEAC 416B, TEAC 397D for inclusive early childhood education majors; SPED 201, SPED 212, and SPED 414 (or equivalent) for SPED majors. Must be taken with: SPED 415A/815A.**Notes:** Priority will be given to students who will be student teaching the following semester.**Description:** Theory and techniques for assessing and teaching early literacy skills in small groups and one-on-one for children who struggle with literacy.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**SPED 815A Practicum in Reading and Writing Disabilities-Elementary****Crosslisted with:** SPED 415A**Prerequisites:** SPED 201, TEAC 311, TEAC 313 for elementary education majors; SPED 201, TEAC 416A, TEAC 416B, TEAC 397D for inclusive early childhood education majors; SPED 201, SPED 212, and SPED 414 (or equivalent) for SPED majors. Must be taken with: SPED 415/815.**Notes:** Priority will be given to student who will be student teaching the following semester.**Description:** This reading and writing practicum is taken parallel with as SPED 415 or SPED 815**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LAB**Prerequisite for:** SPED 415, SPED 815; SPED 415A, SPED 815A**SPED 824 Functional Behavioral Assessment****Prerequisites:** SPED 454 or equivalent. Admission to Graduate Degree or Certificate program in Special Education.**Description:** Functional behavioral assessments and development of behavior intervention plans based on the assessments. Contextual and curriculum manipulations, and replacement behavior training.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 942**SPED 846 Visual Impairments: Characteristics****Prerequisites:** Admission to Graduate Degree or Certificate program in Special Education.**Description:** An introduction to current educational programs and services for children with visual impairments, including children with additional disabilities. Topics include the history of educational services for this population, developmental characteristics, psychosocial aspects, and current and past legislation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 847; SPED 849; SPED 852; SPED 852A; SPED 852B; SPED 853**SPED 847 Etiologies of Students with Visual Impairments****Prerequisites:** SPED 846. Admission to Graduate Degree or Certificate program in Special Education**Description:** Structure and function of the visual system, conditions that affect visual ability, and the functional and environmental implications of low vision. Strategies for enhancing visual ability in children with visual impairments and children who have additional disabilities. Conducting Functional Vision Assessments.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 852; SPED 852A; SPED 852B**SPED 849 Braille Codes and Material Adaptations for Students with Visual Impairments****Prerequisites:** SPED 846**Description:** Basic skills in literary Braille transcription and codes. Acquire competence in reading and writing Braille and using the Perkins braillewriter and slate/stylus.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 851; SPED 852; SPED 852B**SPED 851 Braille II****Prerequisites:** SPED 849 or permission of instructor.**Description:** Advanced skills in Nemeth (mathematics code) and/or Literary code. Basic activities in braille formatting, foreign language, music and identification of braille technology devices and resources.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 852; SPED 852B**SPED 852 Instructional Methods for Teachers of Students with Visual Impairments****Prerequisites:** SPED 846, 847, 849, and 851. Admission to Graduate Degree or Certificate program in Special Education**Description:** Methods and materials for educating children who are totally blind or have low vision, including students with multiple impairments. Practical skills in selecting, designing, and/or modifying materials for content area subjects: mathematics, science, social studies, creative arts, foreign language, and other subjects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** SPED 852B**SPED 852A Applied Technology Methods for Students with Visual Impairments****Prerequisites:** SPED 846 and 847, or equivalents**Description:** Theory and skill development in the selection and use of technology for students with visual impairments. Technology assessments, data collection, equipment feature, source of equipment, funding sources, writing technology instructional plans, and demonstration of using various equipment and technology.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

SPED 852B Applied Instructional Methods to Teach Students with Visual Impairments**Prerequisites:** SPED 846, 847, 849, 851, and 852; or equivalents**Description:** Practice using appropriate instructional methods and materials for educating the blind and low vision child.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**SPED 853 Orientation and Mobility I****Prerequisites:** SPED 846. Admission to Graduate Degree or Certificate program in Special Education or permission of instructor.**Description:** Theory and applied practice in basic orientation and mobility techniques for use with students with visual impairments. Practical methods for work in concept development, orientation skills, travel skills and techniques, personal safety and independent travel. Needs of specific populations such as people with low vision and individuals with additional disabilities. Vision simulators and occluders. An introduction to the history and development of the profession.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 854 Basic Skills: Orientation & Mobility****Notes:** Students will be expected to travel around the community to practice and demonstrate competency of performing and teaching travel techniques.**Description:** Acquisition of instructional strategies for teaching orientation and mobility to students with visual impairments; application of knowledge through performance-based activities, including blindfold and vision simulator.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SUMMER**SPED 855 Teaching Learners to Learn****Crosslisted with:** EDAD 855, EDPS 855, NUTR 855, TEAC 855**Description:** Effective teachers facilitate student learning. Facilitating student learning depends on understanding learning principles and on designing instruction that is compatible with learning principles. Instructors can provide learning-compatible instruction that helps students learn more effectively and ultimately teaches them how to learn. Assists teachers to teach in learning-compatible ways and helps them embed within their curriculum a program for teaching learners to learn.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 856 Supervising Special Education****Crosslisted with:** EDAD 856**Description:** For principals or other administrators who have special education programs in their buildings. Overview of disabilities, related law, special education programs, personnel issues, etc., and instructional methods and administrative support for effective integration of disabled students into regular programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 857 Special Education Administration****Crosslisted with:** EDAD 857**Description:** Intensive preparation for special educators who intend to administer special education programs in the public schools. Information about best practices in special education, including programming, supervision, legal/regulatory issues, financing, personnel, as well as current controversial topics which are affecting these programs in the schools.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 858 Special Education Law****Crosslisted with:** EDAD 858**Description:** Body of law that pertains to the organization, administration, and implementation of special education programs in PreK-12 schools. Substantive and procedural rights of disabled students, and the authority and responsibility of states and school districts that are grounded in state and federal law.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 860 Issues in Early Childhood Special Education****Notes:** Prior course in early childhood education or introduction to special education course (SPED 201)**Description:** Introduction to the history, philosophy, and research related to early intervention practices with children 0-5 years of age. Discussion of issues related to legal mandates, model programs, family involvement, integration, transitions, service delivery systems, teamwork and assessment for young children.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SPED 861 Infants with Disabilities and Home Visiting****Prerequisites:** SPED 960. Admission to Graduate Degree or Certificate program in Special Education**Notes:** SPED 861 requires a practicum in home visiting.**Description:** Assessment and intervention strategies for developing appropriate early intervention programs for infants and toddlers with disabilities. Rationale and principles for conducting home-based, family-centered, and transdisciplinary services.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

SPED 862 Preschool Children with Disabilities

Prerequisites: An assessment and applied behavior analysis course; Admission to Graduate Degree or Certificate program in Special Education or permission of instructor.

Notes: SPED 862 requires an applied experience.

Description: Selection, design and implementation of developmentally appropriate, classroom-based interventions for young children with disabilities. Ecological assessments; activity and instructional planning; selection and use evidence-based strategies; consultation practices for inclusive settings.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SPED 882

SPED 863 Medically Fragile infants

Prerequisites: Major in Special Education, Speech-language Pathology or Child Youth and Family Studies. Senior status or permission of instructor.

Notes: Prior coursework or experiences with children with disabilities advised.

Description: Understanding and design of developmental care and learning opportunities for children with complications of prematurity and extended hospital stays. Neonatal and postnatal development as well as common conditions associated with low birth weight and prematurity are reviewed. Assessment and supports considered in contexts of hospital, family home and community care settings for young children with special health care needs who are at risk for or show developmental disabilities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 872 Deaf or Hard of Hearing: Characteristics

Prerequisites: Admission to Graduate Degree or Certificate program in Special Education or permission of instructor.

Description: Education of students who are deaf or hard of hearing, including history, definitions, etiology, identification, assessment, professional roles, and educational programming. Examine attitudes, assumptions, and stereotypes of persons who are deaf or hard of hearing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SPED 873; SPED 874; SPED 875

SPED 873 Deaf or Hard of Hearing: Content Methods

Prerequisites: SPED 872 and admission to Graduate Degree or Certificate program in Special Education.

Notes: SPED 873 is for all students in the hearing impaired program.

Description: Methods for teaching content areas (science, math, and social studies) to students who are deaf or hard of hearing, birth through 21. Adapting curricula and materials in these areas to meet the language and learning needs of students who are deaf or hard of hearing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 874 Deaf or Hard of Hearing: Language Arts & Literacy

Prerequisites: SPED 872 and admission to Graduate Degree or Certificate program in Special Education.

Description: Assessment instruments, curricula and instructional methods for developing language and literacy for children who are deaf or hard of hearing, birth through 21. Methods for coordinating speech, language and/or auditory training in the home and classroom with that in the speech and/or language therapy program, and connecting this to literacy development and strategies.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Offered: FALL

SPED 875 Sensory Disabilities: Itinerant Teaching

Prerequisites: SPED 872 or parallel with SPED 875. Admission to Graduate Degree or Certificate program in Special Education or permission of instructor.

Description: Methods for providing services for students who are visually impaired and/or deaf or hard of hearing, using itinerant and consultative models. Professional and parent in-service development, team-based problem solving, curriculum based pull-out services. Ecological assessment; technologies; and use of interpreters and paraprofessionals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 876 Language Development for Teachers

Description: Foundations of normal speech and language development and potential difficulties in early stages of communication and later classroom success. Analysis of child language samples. Strategies for explaining language development to parents and professional colleagues

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SLPA 884, SPED 884

SPED 880 Educating Students with Intellectual and Developmental Disabilities

Description: Concepts related to history, definitions, identification, etiology, and assessment of students with intellectual impairments and developmental disabilities. Examine attitudes, assumptions, and stereotypes concerning persons with intellectual impairments and other developmental disabilities. Instructional methods, adaptations and teaming to provide individualized interventions and include students in least restrictive environments/general education settings. Applied assignments will be conducted in field experience and student teaching.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL/SPR

SPED 882 Specialized Instruction for Students with Severe and Multiple Disabilities

Prerequisites: SPED 881 for Severely/Multihandicapped endorsement or SPED 862 for Preschool Handicapped endorsement. Majors in severe disabilities must parallel with SPED 896P. Admission to Graduate Degree or Certificate program in Special Education.

Notes: SPED 882 requires observations in schools and applied assignments.

Description: Selection, design, and implementation of best practice instruction for students with severe disabilities, multiple disabilities, or deaf-blindness.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 884 Deaf or Hard of Hearing: Speech & Language Issues

Crosslisted with: SLPA 884

Prerequisites: SPED 876 or equivalent. Admission to Graduate Degree or Certificate program in Special Education or by permission of instructor.

Description: Theories of speech and language development, evaluation, and intervention programming for children who are deaf or hard of hearing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 886 Assessment, Evaluation, and Instruction of At-Risk Readers

Crosslisted with: TEAC 886

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

SPED 886A Special Topics in Literacy Assessment

Crosslisted with: TEAC 886A

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 886B Internship in Literacy Assessment and Instruction

Crosslisted with: TEAC 886B

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: FLD

SPED 892 Special Topics in Education

Crosslisted with: EDAD 892, EDPS 892, EDUC 892, TEAC 892, CYAF 892

Prerequisites: EDPS 859 or parallel; EDPS 859 or equivalent

Description: Aspects of education not covered elsewhere in the curriculum.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SPED 893N Workshop Seminar

Crosslisted with: TEAC 893N, EDAD 893N, EDPS 893N

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

SPED 895 Independent Study in Special Education

Crosslisted with: SPED 495

Prerequisites: Prior arrangements with faculty member and permission.

Description: Special research or reading project under direction of a faculty member in the department.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: IND

SPED 896D Directed Field Experience: Deaf/Hard of Hearing

SLPA 863 Language Disorders in Elementary School-aged Populations

Description: Advanced information about language disorders, assessment, and intervention in elementary school-aged children.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 863L Language Disorders in Elementary School-aged Population Lab

Prerequisites: Parallel enrollment in SLPA 863 required

Description: Practical application of language assessment and intervention in elementary school-aged children with language disorders.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

SLPA 865 Voice Disorders

Prerequisites: SLPA 455

Description: Etiology and symptoms of voice disorders, procedures used in clinical evaluation, and methods and procedures used in therapy.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: SLPA 981

SLPA 870 Evidence-based Practice

Description: Identification and weighing of levels of evidence relating to clinical and research activities. Develop an understanding of evidence-based medicine and outcomes-based education.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 873 Hearing and Balance II

Crosslisted with: SLPA 473

Prerequisites: SLPA 271

Description: Overview of the principles of audiologic assessment including diagnosing adults with hearing impairments, using physiologic and behavior test procedures. Performance of a basic audiological test battery (including case history, otoscopy, air/bone conduction, pure-tone audiometry, masking, acoustic immittance, and otoacoustic emission). Understand the background theory and interpretations of audiological tests and their implications for dizziness/imbalance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 884 Deaf or Hard of Hearing: Speech & Language Issues

Crosslisted with: SPED 884

Prerequisites: SPED 876 or equivalent. Admission to Graduate Degree or Certificate program in Special Education or by permission of instructor.

Description: Theories of speech and language development, evaluation, and intervention programming for children who are deaf or hard of hearing.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 885 Fluency Disorders

Description: Research related to the nature, diagnosis and clinical management of stuttering is considered. Therapy models are presented along with data bearing on the efficacy of particular approaches. Specific rehabilitation procedures.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 886 Augmentative Communication

Crosslisted with: SLPA 486

Description: Introduction to the augmentative communication options for persons unable to speak or write because of physical, language, or cognitive disability.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 888 Linguistic Needs of Bilingual and Culturally Different Students

Crosslisted with: SLPA 488

Prerequisites: SLPA 250 and 251

Description: Theoretical and applied information about situational factors which have an impact on spoken and written language; addresses how individual differences due to gender, handicapping conditions, socio-economic status, and cultural-ethnic background contribute to diversity in communication patterns and often act as a barrier to successful interactions in learning and social settings.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 891 Special Topics in Human Sciences

Crosslisted with: HUMS 891, NUTR 891, TEAC 891, TMFD 891, CYAF 891

Description: Aspects of human sciences not covered elsewhere in the curriculum.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 892 Counseling and Behavior Issues in Communication Disorders

Description: Basic skills in counseling and behavior management as applied to the field of communication disorders. Practical, direct application to students' clinical work with individuals with a variety of communication disorders

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 3

Format: LEC

SLPA 893 Clinical Decision Making

Description: Critical thinking skills necessary for decision-making during the assessment and treatment of individuals with communication disorders. Understanding and applying clinical processes related to the practice of speech-language pathology.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: FLD

SLPA 896 Readings and Research in Speech-Language Pathology and Audiology**Crosslisted with:** SLPA 496**Prerequisites:** Permission.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** IND**SLPA 897A Advanced Practicum: Audiology****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 20**Format:** FLD**SLPA 897B Advanced Practicum: Speech Language Pathology****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**SLPA 897C Advanced Practicum: Speech-Language Pathology Year 2****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** FLD**SLPA 897E Advanced Practicum: Externship****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**SLPA 897G Advanced Practicum: Public Schools****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** FLD**SLPA 897T Advanced Practicum: Externship in Audiology****Description:** Supervised practicum experiences provided with difficult speech, language and/or hearing problems in a variety of clinical, medical, geriatric, rehabilitational and public school settings.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 12**Format:** FLD**SLPA 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**SLPA 902 Clinical Assessment****Description:** Introduction to the basic psychological and physiological clinical measures for assessment of hearing in adults. The course includes instruction and practice in understanding, presentations and laboratory practice are used to facilitate the classroom to clinic transition.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SLPA 908 Auditory Physiology and Pharmacology****Description:** Lectures exploring the fundamental nature of the auditory system from the level of the outer ear to the cerebral cortex. Emphasis will be placed on studying the genetic, anatomical, neurochemical, pharmacological, and physiological bases for both normal and pathological auditory function.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**SLPA 912 Perception of Sound****Description:** Psychoacoustic aspects of audition, including instrumentation, masking level differences, scaling, difference limen, loudness, critical bands and critical ratios, absolute threshold measurement, differential threshold measurement, temporal summation, and speech recognition.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Offered:** SPRING**SLPA 918 Auditory Assessment of Infants and Children****Prerequisites:** SLPA 271 or equivalent**Description:** Development of the auditory system in infants and young children. Techniques used in differential diagnosis, and screening of auditory disorders in the pediatric population.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

SLPA 920 Auditory Electrophysiological Assessment

Description: This course focuses on current auditory electrophysiological assessment procedures, and includes theory, instrumentation, techniques and procedures. Test result interpretation is discussed in relation to underlying anatomy and physiology. Laboratory exercises are included.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 924 Amplification I

Prerequisites: SLPA 271 or equivalent

Description: Design and operation of basic digital amplification systems. Discussion of advanced signal processing strategies used in current hearing aids. Instruction and laboratory practice in the electroacoustic analysis and real-ear probe microphone measurements of hearing aid systems and making earmold impressions. Introduction to earmold/plumbing acoustics.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

SLPA 926 Amplification II

Prerequisites: SLPA 271 or equivalent

Description: Evaluation, candidacy and selection of hearing aids for adults and children. Discussion of current and emerging prescriptive and fitting verification methods. Instruction and laboratory experience in verification of hearing aid fittings using real-ear probe microphone measurements along with administration of validation measures. The course will also address special hearing aid fittings and troubleshooting hearing aid problems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 928 Hearing Conservation and Industrial Audiology

Description: Theories and basic resources for participation in industrial, government, or community hearing conservation programs.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 930 Genetic Basis of Communication and Learning

Description: Study of embryology and genetics related to communication and learning. Embryology of human development is discussed with specific emphasis on development of the brain, craniofacial, and inner ear structures. The genetic basis of normal development is examined, as well as disorders of hearing, balance, communication, and learning.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 932 Vestibular Assessment I

Description: The first of a two-course series on the normal and pathophysiology of the human balance system and tools for its investigation and treatment. Normal anatomy and physiology of the balance and ocular motor systems, contrasted with a wide range of pathological conditions. Electro-nystagmography (video-nystagmography two- and three-dimensional recordings) and assessment of the otolith organs. Students will initiate and carry out directed laboratory assignments.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

SLPA 934 Vestibular Assessment II

Description: The second of a two-course series on the normal and pathophysiology of the human balance system and tools for its investigation and treatment. Advanced techniques for patient assessment using rotational chair and posturography protocols. Techniques for full assessment in an office situation without extensive equipment. Options for treatment and management of this group of patients. Vestibular and balance rehabilitation therapy program development.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 936 Implantable Prosthetics

Description: Design, operation, candidacy, assessment, surgical procedures, fitting, verification, and rehabilitation procedures related to implantable prosthetic devices for individuals who are deaf and hard of hearing. Cochlear implants, bone anchored hearing aids, implantable middle ear devices, and auditory brainstem implants.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 938 Business and Financial Management

Description: An overview of principles and procedures as they relate to an audiology practice. Topics discussed include budgeting, pricing, billing, and coding, regulatory issues, and human resource management. Students are required to design an audiology practice and develop a business plan as part of this course.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 940 Aural Rehabilitation Across the Lifespan

Description: This course provides students with a survey of approaches to aural rehabilitation for adults and children with hearing loss in various rehabilitative and habilitative settings. Principles of early intervention and family-centered practices are presented for infants and toddlers with hearing loss. Information and techniques for the development of auditory perception and spoken language skills for children with hearing loss. For adults information regarding psychosocial, emotional, and vocational consequences of hearing loss is presented. Speech perception training and communication effectiveness approaches for adults with hearing loss are viewed. Principles of auditory + visual communication are discussed.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SLPA 942 Seminar in Audiology

Description: Research and clinical procedures; findings and implications in audiology and hearing science.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 966 Swallowing Disorders

Prerequisites: Parallel registration with SLPA 966L

Description: Swallowing disorders of children and adults. Procedures used in assessment, diagnosis, and intervention.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 966L Swallowing Disorders

Prerequisites: Parallel registration with SLPA 966

Description: Practical application of assessment, diagnosis, and treatment of swallowing disorders in children and adults.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

SLPA 968 Motor Speech Disorders

Prerequisites: SLPA 853

Description: Motor speech disorders resulting from neuropathology of the central and peripheral nervous systems as found in cerebral palsy, Parkinsonism, and other developmental and acquired neuromotor problems of children and adults.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: SLPA 981

SLPA 981 Seminar in Speech Pathology

Prerequisites: SLPA 851, 865, 967, and/or 968

Description: Research procedures, findings and clinical implications.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

SLPA 985 Traumatic Brain Injury

Prerequisites: SLPA 853

Description: Assessment and treatment of child and adult cognitive and communication disorders resulting from traumatic brain injury.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 986 Right Hemisphere Dysfunction

Description: Communication disorders resulting from stroke or other acquired nervous insult to the non-language dominant hemisphere of the brain. Cognitive and communication assessment, intervention issues pertaining to problems with orientation, visual perception, visual motor skills, abstract language and reasoning, and pragmatic behaviors.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 987 Aphasia in Adults

Prerequisites: SLPA 853

Description: Adult language disorders resulting from stroke or other acquired central nervous system insult. Includes historical/theoretical development of understanding, cerebral dominance for language, classifications, rationale for diagnostic and therapeutic management, prognostic factors, agnosias and apraxia.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SLPA 988 Dementia

Description: Etiology, characteristics, assessment, and intervention pertaining to cognitive and communication disorders associated with various types and stages of dementia.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

SLPA 994 Doctoral Capstone

Description: Selection of the topic for this project should take place no later than Fall of the second year by consultation with the project advisor. Enrollment in SLPA 994 is required during each semester that the project is underway. Students must receive prior permission from their advisor before registering for capstone hours. The capstone experience represents a major research project containing a significant treatment of some aspect of audiology.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 9

Format: IND

SLPA 995 Doctoral Seminar**Prerequisites:** Permission**Description:** The course is intended primarily for doctoral students, although non-doctoral graduate students may be admitted with special permission of the instructor. Students are immersed in outcome-based scholarly activities with a faculty mentor. Working on either an individualized or small group basis, students develop, execute and report one or more projects addressing the interaction between research and practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 18**Format:** IND**SLPA 996 Research Problems Other Than Thesis****Prerequisites:** Permission**Credit Hours:** 1-9**Min credits per semester:** 1**Max credits per semester:** 9**Max credits per degree:** 9**Format:** IND**SLPA 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Statistics (STAT)

STAT 801A Statistical Methods in Research: Non Calculus**Prerequisites:** Introductory course in statistics.**Notes:** This is an introductory, non-calculus based course for students who will not take statistics courses beyond STAT 802, 803 or 804. Students interested in taking more advanced statistics courses should register for STAT 801B.**Description:** Statistical concepts and statistical methodology useful in descriptive, experimental, and analytical study of biological and other natural phenomena. Practical application of statistics rather than on statistical theory.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** AGRO 816E; AGRO 907, HORT 907, METR 907, NRES 907; AGRO 931, ASCI 931, HORT 931; CIVE 963; CIVE 964; NRES 803, STAT 803; STAT 802; STAT 841; STAT 850; STAT 870; STAT 873; STAT 875; STAT 876**STAT 801B Statistical Methods in Research: Calculus****Prerequisites:** Introductory statistics course; at least one semester of calculus.**Notes:** This course (not STAT 801A) is a pre-requisite for Stat 870, 873, 875 and 876. Can also be used as a pre-requisite for Stat 802 and 803.**Description:** Statistical concepts and methodology useful for description, analysis and interpretation of experimental and observational studies. Practical application of statistics and essential background for subsequent courses in statistics.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**STAT 802 Design and Analysis of Research Studies****Prerequisites:** STAT 318 or STAT 801A.**Description:** Essential statistical characteristics of a research study intended to assess the impact of treatment, environmental or population conditions on response. Focus is on both designed experiments and on studies for which controlled experiments are not feasible but characteristics of controlled experiment must be mimicked to the extent possible. Methods to assess power and compare efficiency of alternative designs are considered. Course covers major design structures, including blocking, nesting, multilevel models, split-plot and repeated measures, and statistical analysis associated with these structures.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**Prerequisite for:** AGRO 816E; ASCI 944, STAT 844; STAT 831; STAT 870; STAT 877; STAT 902; STAT 971**STAT 803 Ecological Statistics****Crosslisted with:** NRES 803**Prerequisites:** STAT 801 or equivalent; prior experience with "R" software**Notes:** Available online.**Description:** Model-based inference for ecological data, generalized linear and additive models, mixed models, survival analysis, multi-model inference and information theoretic model selection, and study design.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**STAT 804 Survey Sampling****Prerequisites:** STAT 880 or IMSE 321**Description:** Sampling techniques: simple random sampling, sampling proportions, estimation of sample size, stratified random sampling, ratio and regression estimates.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

STAT 810 Alpha Seminar**Prerequisites:** Statistics graduate student**Description:** Program requirements, resources available, tips for academic success, professional statistical organizations, career paths, history of statistics, ethics, statistical conferences, statistical blogs and online forums, frequentist and Bayesian paradigms, current research in department.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**STAT 811T Statistics for Middle-Level Teachers****Prerequisites:** A valid teaching certificate or permission. An undergraduate course in introductory statistics is desirable, but not essential.**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** Designed primarily to develop and equip middle-level teachers with the statistical knowledge they need for teaching. The course follows an inquiry/discovery design, dedicating much of class time to activities, discussion and group work. The course emphasizes topics in statistics that are part of the middle-school mathematics curriculum, as well as their application in other disciplines. The course also includes statistics that are used in education and school-based research.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 812T Statistics for High School Teachers****Prerequisites:** A valid secondary mathematics teaching certificate.**Notes:** Not open to MA or MS students in mathematics or statistics.**Description:** The statistical concepts typically taught in a high school statistics class, including linear regression, two-way tables, sampling distributions, statistical inference for means and proportions, chi-square tests, and inference for regression. Some experience with basic statistical concepts (mean, standard deviation, elementary probability) is necessary. The course is inquiry-based, and will emphasize applications and statistical thinking.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 821 Statistical Methods I****Prerequisites:** Matrix Algebra; concurrently taking STAT 882, or passed STAT 882 with grade of B or higher, or passed STAT 880 with grade of B or higher.**Notes:** Designed for Statistics MS majors and minors.**Description:** Introduction to essential statistical methods and supporting design and modeling theory for professional statistical practice. First in a three semester sequence. Focus of this course on methods for single response variable and non-hierarchical study design.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**Prerequisite for:** ASCI 944, STAT 844; STAT 822; STAT 831; STAT 870; STAT 873; STAT 874; STAT 875; STAT 902; STAT 973**STAT 822 Statistical Methods II****Prerequisites:** STAT 821; concurrently taking STAT 883, or passed STAT 883 with grade of B or higher, or passed STAT 880 with grade of B or higher.**Notes:** Course is designed for Statistics MS majors and minors.**Description:** A continuation of Statistical Methods I. Second in a three semester sequence on essential statistical methods and supporting design and modeling theory for professional statistical practice. Focus in this course of methods for single response variable and multiple sources of random variation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 823; STAT 825**STAT 823 Statistical Methods III****Prerequisites:** STAT 822; STAT 883 with grade of B or higher, or STAT 880 with grade of B or higher.**Notes:** This course is designed for Statistics MS Majors.**Description:** Introduction to essential statistical methods and supporting design and modeling theory for professional statistical practice. Third in a three semester sequence. Focus of this course on methods for situations that extend beyond the single-response-variable, designed study cases featured in Statistical Methods I and II. These include multivariate statistics, non-linear models, non- and semi-parametric statistics, observational studies, and other theory and methods deemed appropriate as statistical science continues to evolve.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 950; STAT 983**STAT 825 Principles of Statistical Consulting and Interdisciplinary Collaboration****Prerequisites:** STAT 822 or instructor permission.**Description:** Introduction to the role and purpose of statistical consulting and interdisciplinary collaboration. Topics include: asking good questions, dealing with difficult clients, communicating statistics to non-statisticians, determining solutions, and collaborating.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 830 Sensory Evaluation****Crosslisted with:** FDST 430, FDST 830, STAT 430**Prerequisites:** Introductory course in statistics.**Description:** Food evaluation using sensory techniques and statistical analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

STAT 831 Spatial Statistics**Prerequisites:** STAT 802 and knowledge of matrix algebra or Stat 821**Notes:** Offered odd-numbered calendar years.**Description:** Statistical methods for modeling and analyzing correlated data, with emphasis on spatial correlation. Descriptive statistics, time series, correlograms, semivariograms, kriging and designing experiments in the presence of spatial correlation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 832 Statistics in Sports****Description:** Statistical methods useful for analyzing sports-related data.

Descriptive statistics, graphical representations, experimental design, discriminant analysis and optimization.

Credit Hours: 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**STAT 841 Statistical Methods for High Throughput Biological Data****Prerequisites:** STAT 801A or equivalent.**Description:** Basic biological concepts. Multiple testing and false discovery rate. Second generation sequencing and statistical issues. ChIP-seq. RNA-seq. Empirical Bayes methods and software. Normalization, experimental design and commonly used models for microarray data. Metabolomics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 842 Computational Biology****Crosslisted with:** BIOC 842, STAT 442, BIOC 442**Prerequisites:** Any introductory course in biology, or genetics, or statistics.**Description:** Databases, high-throughput biology, literature mining, gene expression, next-generation sequencing, proteomics, metabolomics, system biology and biological networks.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 843 Next-Generation Sequencing and Systems Biology****Prerequisites:** Any introductory course in biology, statistics, computer science or mathematics**Description:** Next-generation RNA and genome sequencing, systems biology. Regulatory networks of transcription, protein-protein interaction networks, theory and practice. Databases, data integration and visualization. Students present computational biology publications and projects.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 844 Quantitative Methods for Genomics of Complex Traits****Crosslisted with:** ASCI 944**Prerequisites:** ASCI 861U or AGRO/ASCI/HORT 931 or BIOS 818 or equivalent; STAT 802 or 821 or equivalent.**Description:** Quantitative genetic analysis of complex traits. Quantitative methodologies for connecting phenotypes with high-dimensional genomic information to understand polygenic traits from both prediction and inference perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**STAT 847 Biometrical Genetics and Plant Breeding****Crosslisted with:** AGRO 932**Prerequisites:** AGRO 931**Notes:** STAT 802 recommended. Offered odd-numbered calendar years.**Description:** Theoretical concepts involved in planning breeding programs for the improvement of measurable morphological, physiological, and biochemical traits that are under polygenic control in crop plants of various types.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 850 Computing Tools for Statisticians****Prerequisites:** STAT 801A or equivalent; STAT 462, 880, or equivalent is recommended.**Description:** Introductions to statistical computing packages and document preparation software. Topics include: graphical techniques, data management, Monte Carlo simulation, dynamic document preparation, presentation software.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**STAT 862W Applied Variance Component Estimation in Livestock Genetics****Crosslisted with:** ASCI 862W**Prerequisites:** ASCI 862V**Notes:** This is a 5-week course taught by Speidel and Enns (Colorado State University). Permission required before registering. Contact the Animal Science Department at 402-472-6440.**Description:** Principles in the estimation of (co)variance components and genetic parameters required to solve mixed models typical in livestock genetics. Focus on applied knowledge of approaches used to estimate the G and R sub-matrices of the mixed model equations. Demonstrate models commonly used in parameter estimation. Introduce scientific literature concerning implementation, and attributes of the solutions, of variance component estimation strategies.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC

STAT 868 An Introduction to R Programming**Crosslisted with:** ASCI 868**Prerequisites:** Graduate Standing**Notes:** This is a 5-week course taught by Maltecca (North Carolina State University).**Description:** Introduction to the R environment for statistical computing, including use of R as a high-level programming language and as a gateway for more formal low-level languages. Material includes language structure, basic and advanced data manipulation, statistical analysis with R, and using R as a programming language.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Prerequisite for:** ASCI 869, STAT 869**STAT 869 MCMC Methods in Animal Breeding: A Primer****Crosslisted with:** ASCI 869**Prerequisites:** ASCI 868.**Notes:** This is a 5-week course taught by Maltecca (North Carolina State University).**Description:** Principles of Markov Chain Monte Carlo (MCMC) methods in animal breeding. Materials include random variable generation, Monte Carlo integration, stochastic search, Expectation-maximization (EM) algorithm and Monte Carlo EM, Markov Chain principles, Metropolis-Hastings algorithm, Gibbs sample, and MCMC for genomic data. Illustrations developed using R software.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**STAT 870 Multiple Regression Analysis****Prerequisites:** STAT 801A, STAT 802 or STAT 821 concurrently**Description:** Linear regression and related analysis of variance and covariance methods for models with two or more independent variables. Techniques for selecting and fitting models, interpreting parameter estimates, and checking for consistency with underlying assumptions. Partial and multiple correlation, dummy variables, covariance models, stepwise procedures, response surfaces estimation, and evaluation of residuals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 874; STAT 875; STAT 974**STAT 873 Applied Multivariate Statistical Analysis****Prerequisites:** STAT 801A or STAT 821**Description:** Multivariate techniques used in research. Reduction of dimensionality and multivariate dependencies, principal components, factor analysis, canonical correlation, classification procedures, discriminant analysis, cluster analysis, multidimensional scaling, multivariate extensions to the analysis of variance, and the general linear model.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 973**STAT 874 Nonparametric Statistics****Prerequisites:** STAT 821 or STAT 870**Description:** Introduction to nonparametric statistics - methodology and supporting theory. Focus of this course is broadly divided into three components: traditional (e.g. distribution-free hypothesis testing), function estimation (e.g. alternatives to parametric linear and nonlinear models) and modern methods that emphasize prediction (e.g., density estimation, robustness, computational methods, reproducing kernel Hilbert space methods).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**STAT 875 Categorical Data Analysis****Prerequisites:** STAT 801A and STAT 870, or STAT 821**Description:** Analysis of contingency tables. Regression models for binary, multi-category, and count responses. Tools for model building. Exact inference methods.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 876 Introduction to Survival Analysis****Prerequisites:** STAT 801A.**Notes:** Offered every other odd-numbered calendar year. Knowledge of at least one statistical package (SAS, R, Splus, SPS) is required.**Description:** Application, theory and computational aspects of survival analysis. Survival and hazard functions; parametric models for survival data; censoring and truncation mechanisms; nonparametric estimation (confidence bands for the survival function, interval estimation of the mean and median survival time); univariate estimation of the hazard function; hypothesis testing; regression models (with fixed covariates, with time dependent covariates); and model diagnostics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 877 Introduction to Mixed Model Analysis****Prerequisites:** STAT 802**Description:** Practical application of mixed models for data analysis, estimation, prediction, and testing. This course covers linear mixed models (LMM) for normally distributed data and generalized linear mixed models (GLMMs) for non-normally distributed data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING

STAT 880 Introduction to Mathematical Statistics**Prerequisites:** MATH 208 or 107H; STAT 218 or equivalent**Notes:** STAT 880 is not open to students earning a MA or MS degree in mathematics or statistics. This course requires command of material covered in MATH 107 or 107H, and STAT 218. It is also recommended to have command of materials covered in MATH 208 or 208H.**Description:** Introductory mathematical statistics. Probability calculus; random variables, their probability distributions and expected values; sampling distributions; point estimation, confidence intervals and hypothesis testing theory and applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** CSCE 970; ECON 917; MATH 489, MATH 889; MECH 945; STAT 804; STAT 821; STAT 822; STAT 823; STAT 884**STAT 882 Mathematical Statistics I-Distribution Theory****Prerequisites:** MATH 208 or MATH 107H.**Description:** Sample space, random variable, expectation, conditional probability and independence, moment generating functions, special distributions, sampling distributions, order statistics, limiting distributions and central limit theorem.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ECON 917; STAT 821; STAT 883; STAT 971; STAT 973**STAT 883 Mathematical Statistics II-Statistical Inference****Prerequisites:** STAT 882**Description:** Interval estimation; point estimation, sufficiency and completeness; Bayesian procedures; uniformly most powerful tests, likelihood ratio test, goodness of fit tests.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 822; STAT 823; STAT 950; STAT 971; STAT 980; STAT 982; STAT 983**STAT 884 Applied Stochastic Models****Prerequisites:** STAT 880 or IMSE 321 or equivalent**Description:** Introduction to stochastic modeling in operations research. Includes the exponential distribution and the Poisson process, discrete-time and continuous-time Markov chains, renewal processes, queueing models, stochastic inventory models, stochastic models in reliability theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 889 Statistics Seminar****Prerequisites:** Permission**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**STAT 892 Topics in Statistics and Probability****Prerequisites:** Permission**Description:** Special topics in either statistics or the theory of probability.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 24**Format:** LEC**STAT 898 Statistics Project****Prerequisites:** Permission**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 5**Format:** IND**STAT 899 Masters Thesis****Prerequisites:** Admission to the Masters Degree Program and permission of major adviser**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 99**Format:** IND**STAT 902 Advanced Experimental Design****Prerequisites:** STAT 802 or STAT 821**Description:** Advanced design concepts and methods used in research: construction, analysis and interpretation of incomplete block designs, split-plots, confounded and fractional factorials, response surface methods, and other topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 904 Theory of Experimental Design****Prerequisites:** Permission**Description:** Theory of underlying construction and analysis of designed experiments. Multifactor designs, fractional factorials, incomplete block designs, row and column designs, orthogonal arrays, and response to surface designs. Optimality criteria. Mathematical and computer-aided design theory.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 930 Advanced Statistical Consulting and Interdisciplinary Collaboration****Prerequisites:** Permission**Notes:** For advanced Masters degree students or PhD students in Statistics.**Description:** Exposure to more complex statistical consulting problems and how to resolve them. Topics include: major areas of consulting, interdisciplinary collaboration, and effective communication.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Prerequisite for:** STAT 997

STAT 950 Computational Statistics I**Prerequisites:** STAT 883; STAT 823 or concurrent enrollment.**Notes:** Prior experience with "R" software is required.**Description:** Statistical computing needed for research and advanced statistical analyses. Topics include: bootstrap, high performance computing, jackknife, Linux, Markov chain Monte Carlo, Monte Carlo simulation, numerical differentiation and integration, optimization, parallel processing, permutation tests.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 951**STAT 951 Computational Statistics II****Prerequisites:** STAT 950**Notes:** Knowledge of a high-level programming language is recommended**Description:** A continuation of Computational Statistics I. Topics will be chosen from big data management and data analysis, data generation, high performance and throughput computing, importance sampling, machine learning, optimization, programming languages, web scraping, working with databases.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 970 Linear Models****Prerequisites:** MATH 314/814.**Description:** Methods and underlying theory for analyzing data based on linear statistical models. General linear model with specific models as special cases: including linear models applications.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 971**STAT 971 Advanced Statistical Modeling****Prerequisites:** STAT 802, STAT 882, STAT 883, STAT 970 and take Statistics MS Comprehensive Exam prior to start of STAT 971**Description:** Statistical modeling beyond the "general linear model" normally-distributed data, fixed-effects-only case. Focus on, but not limited to, the theory and practice of generalized and mixed linear models. Issues include translation of study design to plausible models, inference space, data and model scale, conditional vs. marginal models, correlated data, zero-inflated data, likelihood-based estimation and inference.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 973 Theory of Multivariate Analysis****Prerequisites:** STAT 873, STAT 882 and STAT 821 or equivalent**Description:** Statistical inference concerning parameters of multivariate normal distributions with applications to multivariate datasets.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 974 Nonlinear Regression Analysis****Prerequisites:** STAT 870 and introductory calculus.**Description:** Basic concepts of nonlinear models and their associated applications. Estimating the parameters of these models under the classical assumptions as well as under relaxed assumptions. Major theoretical results and implementation using standard statistical software.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 980 Advanced Probability Theory I****Prerequisites:** STAT 883**Notes:** This course requires command of material covered in MATH 325 or equivalent.**Description:** Construction of probability spaces, random variables and expectations, monotone and dominated convergence theorems, Fatou's lemma, modes of convergence, Kolmogorov law of large numbers, central limit theory, conditional probability given a sigma field.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** STAT 981; STAT 984**STAT 981 Advanced Probability Theory II****Prerequisites:** STAT 980**Description:** A continuation of STAT 980 providing depth in probability theory and stochastic processes. Topics include convergence properties of random variables and treatment of several important stochastic processes.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 982 Advanced Inference****Prerequisites:** STAT 883**Description:** Uniformly minimum variance unbiased estimators, decision-theoretic Bayes estimation, frequentist testing (likelihood ratio tests, Neyman-Pearson lemma, uniformly most powerful tests), Bayes testing and Bayes factors, nonparametric tests, multiple comparisons procedures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 983 Statistical Learning****Prerequisites:** STAT 823, STAT 883**Description:** Model selection including sparsity methods and their oracle properties, information methods, cross-validation and stochastic search. Basic theory of kernel methods for regression. Classification: linear and quadratic discriminants, Bayes classifier, nearest neighbor methods, kernel methods for classification. Introduction to neural networks and recursive partitioning. Model averaging methods and measures of complexity. Cluster analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

STAT 984 Asymptotics and Applications**Prerequisites:** STAT 980**Description:** A continuation of STAT 980 providing breadth in commonly occurring major subfields of statistics that rely heavily on probability theory. Large sample theory estimation, testing, expansion, and convergence in a variety of settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**STAT 992 Advanced Topics in Probability and Statistics****Prerequisites:** Permission**Description:** Special topics in either statistics or probability.**Credit Hours:** 1-5**Min credits per semester:** 1**Max credits per semester:** 5**Max credits per degree:** 24**Format:** LEC**STAT 997 Practicum in Statistical Consulting****Prerequisites:** STAT 930**Description:** Participation in statistical consulting activities of the Statistics Department under faculty supervision. Prepare written reports to clients summarizing consultation results and to statistics supervisor summarizing statistical issues and findings.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** FLD**STAT 999 Doctoral Dissertation****Prerequisites:** Admission to Doctoral Degree Program and permission of supervisory committee**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Supply Chain Management and Analytics (SCMA)

SCMA 831 Advanced Enterprise Systems**Description:** Analytical approach to the design, planning, and control of operations management systems, including domestic and international, manufacturing and service operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 832 Planning and Controlling Supply Chain Systems****Prerequisites:** GRBA 815 (Supply Chain Management Strategies)**Description:** Taught predominately by the case method with a few classes for review and summary lectures. Concentrates on higher management decisions involving the manufacturing, service, and public sectors. Facilities planning, labor, aggregate planning, strategic planning, capacity management, and trade-off analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 833 Advanced Topics in Supply Chain Management****Prerequisites:** GRBA 815**Description:** Advanced conceptual and methodological practices in designing and planning supply chain systems. Advances and strategies in supply chain procurement, transportation, distribution and warehousing, globalization, outsourcing, and technology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 834 Advanced Topics in Lean Supply Chain Management****Prerequisites:** GRBA 815**Description:** Focus on the improvement of supply chain operations through the application of lean management principles. Topics include just-in-time, six-sigma, theory of constraints, and associated tools and applications. The course would be offered primarily in the on-line MBA program.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 836 Project Management and Implementation****Notes:** Department Supply Chain Management and Analytics not Management**Description:** Planning and managing projects from initiation through implementation. Use of tools and techniques for bidding, planning budgeting scheduling, risk management and implementation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 837 Risk and Simulation Modeling****Description:** Analytical and simulation models for decision making in functional areas such as finance, accounting, marketing, personnel, operations, and inventory. Construction of decision models for practical applications. Emphasis on analyzing alternatives and implementing solutions that result in increased productivity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 839 Global Supply Chain Management****Prerequisites:** GRBA 815**Description:** Focus on global aspects of supply chain managing with primary emphasis on sourcing and distribution strategies. Topics will include sourcing strategies, concepts and tools. Specific issues include make versus buy decisions, supplier evaluation and selection, total cost of ownership, contracts and legal terms, negotiation, and purchasing ethics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

SCMA 844 Managing Logistics in the Supply Chain**Prerequisites:** GRBA 815**Description:** Examination of physical distribution activities in the marketing mix from the viewpoints of both providers and users of components of logistics systems. Logistics problems of concern to the marketing manager include time and place utility concepts, spatial relationships of markets, channel design, transportation modes, and inventory management.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 847 Advanced Supply Chain Technology****Prerequisites:** GRBA 815**Description:** Technological advancements to include radio frequency identification systems, automated storage and retrieval systems, distribution routing systems. Description of physical characteristics, potential to support supply chain management, and implications on inventory management within supply chains.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 851 Predictive Analytics****Prerequisites:** GRBA 851**Description:** This course will focus on how knowledge management has been successfully applied in business in the form of predictive analytics. Predictive analytics extends statistical and/or artificial intelligence to provide forecasting capability. It will also describe in non-technical terms the statistical and artificial intelligence-based tools commonly used in forecasting and other business decisions involving big data.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 852 Data Management and Organization****Prerequisites:** GRBA 851**Description:** Technology of databases and related human and managerial considerations. Databases are studied from the perspective of the logical organization, as well as from the perspective of managers and applications programmers, in the use of organizational data. Consideration of physical organization and SQL. Practical applications of databases.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 853 Business Data Mining and Descriptive Analytics****Prerequisites:** GRBA 851**Notes:** The Supply Chain Management Analytics department is changing the name to be more reflective of the content.**Description:** Data mining applies quantitative analysis to support humans in identifying actionable information from large amounts of data. Actionable means that value can be obtained, which for businesses usually relates to making money. This course will focus on how data mining has been successfully applied in business. It will also describe in non-technical terms how the statistical and artificial intelligence-based tools commonly used in data mining work. The course will also address ethical issues related to use of information obtained through data mining.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 854 Advanced Descriptive Analytics****Prerequisites:** GRBA 851**Description:** This course will focus on exploratory and initial data mining, including cluster analysis and link analysis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 855 Prescriptive Analytics****Prerequisites:** GRBA 851**Description:** This course will focus on how optimization modeling techniques can be used to make the best decisions in a variety of business analytics applications. The emphasis will be on the formulation of different optimization problems and the use of the correct quantitative techniques to solve these problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SCMA 996 Directed Reading or Research****Prerequisites:** Permission of Department Chair**Description:** Specific topic covered in any given term and credit awarded is to be determined by the instructor.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** IND

Survey Research and Methodology (SRAM)

SRAM 800 Research Methods**Crosslisted with:** POLS 800**Description:** Basic techniques used in quantitative political science research. The general linear model. Basic probability theory, ordinary least squares regression, and how to solve problems often encountered when conducting quantitative analyses in political science.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

SRAM 816 Principles of Survey Analysis

Description: Introduction to the basic principles of causality and inductive logic in contemporary social and behavioral science. One, two, and multi-way layouts in analysis of variance, fixed effects models, and linear regression in several variables; the Gauss-Markov-Theorem; multiple regression analysis; and basic principles of experimental and quasi-experimental designs.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: SRAM 917

SRAM 817 Cross-cultural and Multi-population Survey Methodology

Description: Multi-national research projects and the methodological challenges. Key aspects of cross-national, cross-cultural survey research, study design and organization; survey error and bias; question design; harmonization; adaptation and translation; survey process quality monitoring and control; and process and output documentation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 818 Data Collection Methods

Description: Effects of various data collection methods on survey errors. The strengths, weaknesses, and challenges of data collection modes and mixed-mode methods. Processes underlying data collection and practical challenges that arise with each mode; coverage error; nonresponse error; interviewer effects and training; timing; and mode effects.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 819 Applied Sampling

Description: Design of probability samples, sampling populations of humans and unique challenges posed by such populations, restricted by cost and available sampling frames. Simple random sampling, stratification, cluster sampling, systematic sampling, multistage sampling, and probability proportional to size sampling, area probability sampling, and telephone samples.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 824 Advanced Quantitative Analysis in Marketing

Crosslisted with: MRKT 824

Prerequisites: GRBA 813 or equivalent

Description: Review, evaluation, and design of advanced marketing research investigations. State-of-the-art methodological issues relevant to marketing to provide an understanding of multivariate data analysis pertinent to the marketing literature. Analysis of linkage, structure, and causality/change for marketing phenomena.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 863 Basic Regression Analysis

Crosslisted with: SOCI 862

Description: The logic and techniques of sociological data analysis: use statistical software to run linear regression analyses and assess violations of regression assumption; the development of theoretically driven models; and the interpretation of results from linear regression analyses.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 865 Survey Design and Analysis

Crosslisted with: SOCI 465, SOCI 865, SRAM 465

Prerequisites: SOCI 205 and SOCI 206.

Description: Basic issues related to the design and analysis of sample surveys. The basics of questionnaire construction, sampling, data collection, analysis and data presentation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 894 Professional Development in Survey Research

Description: Basic principles of practice including ethical requirements and procedures, Institutional Review Board (IRB) and Collaborative Institutional Training Objective (CITI), personal conduct, plagiarism. Introduction to relevant databases, data archives, key surveys. Practice in critical discussion, report and abstract writing, creating and presenting conference papers. Provides first year MS students with a grounding in key principles and components of professional practice needed for a career in survey research and related fields.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

SRAM 895 Internship

Prerequisites: Permission

Description: Experience applying concepts and methods of survey research in preparation for a professional career.

Credit Hours: 3-6

Min credits per semester: 3

Max credits per semester: 6

Max credits per degree: 6

Format: FLD

SRAM 896 Practicum in Survey Research and Methodology

Prerequisites: Permission

Description: Application of theory and research gained during internship.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: IND

SRAM 898 Special Topics

Description: Topic varies.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 24

Format: LEC

SRAM 899 Masters Thesis

Prerequisites: Admission to masters degree program and permission of major adviser

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 99

Format: IND

SRAM 902 Seminar in Research Methods

Crosslisted with: SOCI 902

Prerequisites: Permission

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

SRAM 915 Advanced Sampling

Description: Advanced topics related to sampling error in surveys.

Complex sample designs used to measure populations of humans, effect of nonresponse on sampling error and data analysis; methods available to "repair" the missing information; the implications of complex sample designs for analyses; and variance estimation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 917 Principles of Survey Analysis II

Prerequisites: SRAM 816

Description: Key components of analytic models used in analysis of survey data. Analysis of variance (anova), linear regression (ols) and generalized linear model (glm) to include estimation of coefficients for a specified set of "structural equations" designated by a hypothesized causal structure (i.e., SEMs). Main statistical models for estimating nonlinear regression coefficients. Introduction to principles of maximum likelihood estimation (mle) and alternative estimation approaches. Focus on development of the ability to conduct independent quantitative research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 920 Instrument Design and Development for Cross-cultural Surveys

Description: Design instruments for multi-population surveys and to produce versions in different languages. Major approaches and strategies used in cross-national and cross-cultural research to design, test, adapt, and translate instruments for multilingual use.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 921 Total Survey Error

Description: Common language of survey errors across social science disciplines. Causes of survey coverage, nonresponse, measurement, and processing errors; techniques used to reduce the error in practice; and statistical models and designs that exist to measure the error. Implications of cost and trade-offs between error sources.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 922 Randomized and Nonrandomized Research Design

Description: Logic of causal inference in research design. Obstacles to causal inference, faulty measurement, un-representativeness, spuriousness, specification errors, and confounds, Experimental and quasi-experimental designs, with inferential pitfalls peculiar to each design. Statistical procedures to illustrate the logic behind various data analytic approaches and the different problems that can limit conclusions derived from these tools.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 941 Intermediate Statistics: Experimental Methods

Crosslisted with: EDPS 941

Prerequisites: EDPS 859 or EDPS 942

Description: Computation, interpretation, and application of analysis of variance techniques, including factorial and mixed model designs. Computer and microcomputer software accessed.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 942, SRAM 942

SRAM 942 Intermediate Statistics: Correlational Methods

Crosslisted with: EDPS 942

Prerequisites: EDPS 859 or EDPS 941

Description: Various correlational-based statistical procedures presented, including linear and nonlinear regression, multiple regression, statistical control, analysis of interactions, the general linear model, factor analysis, and discriminant analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: EDPS 941, SRAM 941

SRAM 946 Psychology of Survey Response

Crosslisted with: PSYC 946

Description: Cognitive and communicative processes affect on dynamics of survey interviewing and relationships to principles of survey design. Effects of question wording on comprehension; question order and context on attitude; communicative and retrieval processes on validity of retrospective behavioral reports; and impact of response alternatives on answers.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 947 Questionnaire Design

Crosslisted with: PSYC 947, SOCI 947

Description: Design of questionnaires for survey research and the theoretical and practical issues arising from them. Selection of appropriate measurement techniques for assessing opinions, past behaviors and events, and factual material.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

SRAM 970 Theory and Methods of Educational Measurement**Crosslisted with:** EDPS 970**Prerequisites:** EDPS 870**Description:** Presentation of various measurement theories and concepts, including classical true-score theory, reliability and validity, test construction, item response theory, test equating, test bias, and criterion-referenced tests.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SRAM 971 Structural Equation Modeling****Crosslisted with:** EDPS 971**Notes:** EDPS 942 and EDPS 970 or equivalents required; EDPS 972 recommended.**Description:** Introduction to the techniques of path analysis, confirmatory factor analysis, and structural equation modeling with emphasis on the set-up and interpretation of different models using the LISREL program. Model testing and evaluation, goodness-of-fit indices, violations of assumptions, specification searches, and power analyses..**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SRAM 972 Multivariate Analysis****Crosslisted with:** EDPS 972**Notes:** EDPS 941 and EDPS 942 or equivalents are required.**Description:** Techniques of multivariate analyses, including multivariate analysis of variance and covariance, multivariate multiple regression, multigroup discriminant analysis, canonical analysis, repeated measures (Multivariate model), and time series. Mathematical models presented and analyzed. Instruction complemented by appropriate statistical software packages.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** EDPS 980**SRAM 998D Seminar in Special Topics****Prerequisites:** Permission**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**SRAM 999 Doctoral Dissertation****Prerequisites:** Admission to doctoral degree program and permission of supervisory committee chair**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 99**Format:** IND

Teaching, Learning and Teacher Education (TEAC)

TEAC 800 Inquiry into Teaching and Learning**Description:** Contemporary educational research from multiple theoretical perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** TEAC 888**TEAC 801 Curriculum Inquiry****Description:** The relationship between curriculum theory and/or research to educational practices.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** TEAC 888**TEAC 802 Contemporary Children's Literature: Principles and Practices****Crosslisted with:** TEAC 402**Prerequisites:** TEAC 302 and successful completion of student teaching or permission.**Description:** Contemporary literature for children, all forms and genres; development of meaningful and creative learning activities for children; professional readings and research related to children's literature.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 803 Student Teaching Seminar****Prerequisites:** Parallel enrollment in TEAC 897**Description:** Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 803A Student Teaching Seminar: Elementary (K-6)****Description:** Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**TEAC 803B Student Teaching Seminar: Secondary Education****Prerequisites:** Parallel enrollment in TEAC 897**Description:** Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 803G Student Teaching Seminar: Elementary Foreign Language

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803I Student Teaching Seminar: Secondary Art

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803N Student Teaching Seminar: Secondary Language Arts

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803P Student Teaching Seminar: Secondary Mathematics

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803Q Student Teaching Seminar: Middle School

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803R Student Teaching Seminar: Secondary Modern Language

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803V Student Teaching Seminar: Secondary Science

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803W Student Teaching Seminar: Secondary Social Science

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803Y Student Teaching Seminar: Mainstreaming

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 803Z Student Teaching Seminar: Multicultural

Description: Professional development experiences including inquiry-driven projects, on-line discussions and standards-driven professional portfolios.

Credit Hours: 1-2

Min credits per semester: 1

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 805 Advanced Teaching Strategies

Crosslisted with: ALEC 805, NUTR 806

Description: Contemporary and innovative teaching strategies, emphasizing learner-centered instruction, suitable to teaching in college and postsecondary institutions, outreach programs public schools, and other settings. Students participate in active learning as they apply learning theory in practice, prepare and demonstrate teaching methods, and plan for instruction in discipline areas of their choice.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: ALEC 400, ALEC 800; TEAC 905, ALEC 905

TEAC 806 Reading and Writing Disabilities: Adolescents

Crosslisted with: SPED 406, SPED 806

Prerequisites: SPED 212 and TEAC 441 (required for undergraduate students only). Parallel with SPED 406A/806A.

Description: Theory and techniques for assessing and teaching word identification, vocabulary, comprehension and writing skills in grades 7 to 12.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

TEAC 806A Reading Center Practicum II**Crosslisted with:** SPED 406A, SPED 806A**Prerequisites:** SPED 212 and TEAC 441 (required for undergraduate students only). Parallel with SPED 406/806.**Notes:** Requires two hours per week in a Reading Center.**Description:** Teaching and/or tutoring experience evaluating and instructing students with reading problems in a Reading Center. Assessment, instructional planning, delivery of instruction, writing diagnostic reports and parent communication.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LAB**TEAC 808 Improvement of Instruction in School Mathematics****Crosslisted with:** TEAC 408**Description:** Techniques, plans, and procedures for improving instruction in mathematics. Analysis of current instructional and supervisory practices. Evaluation of research and instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC**Prerequisite for:** TEAC 907**TEAC 808A Improvement of Instruction in School Mathematics Primary: K-3****Crosslisted with:** TEAC 408A**Description:** Techniques, plans, and procedures for improving instruction in mathematics. Analysis of current instructional and supervisory practices. Evaluation of research and instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 808B Improvement of Instruction in School Mathematics****Elementary:** 4-6**Crosslisted with:** TEAC 408B**Description:** Techniques, plans, and procedures for improving instruction in mathematics. Analysis of current instructional and supervisory practices. Evaluation of research and instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 808E Improvement of Instruction in School Mathematics****Secondary:** 7-12**Crosslisted with:** TEAC 408E**Description:** Techniques, plans, and procedures for improving instruction in mathematics. Analysis of current instructional and supervisory practices. Evaluation of research and instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC**TEAC 808J Improvement of Instruction in School Mathematics Special Topics****Crosslisted with:** TEAC 408J**Description:** Techniques, plans, and procedures for improving instruction in mathematics. Analysis of current instructional and supervisory practices. Evaluation of research and instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 810 Educational Program for Kindergarten Children****Crosslisted with:** TEAC 410**Description:** Recent developments in education of children and their bearing on the selection and guidance of appropriate activities and materials for the kindergarten. Related functions of home, school, and other educational agencies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 811 Reading Processes and Practices****Crosslisted with:** TEAC 411**Description:** Overview of reading processes and programs with attention to strategies for comprehension and word identification, approaches, and materials. A. Teaching Reading B. Special Topics in Reading C. Response to Intervention - Reading**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 811A Teaching Reading****Crosslisted with:** TEAC 411A**Description:** Overview of reading processes and programs with attention to strategies for comprehension and word identification, approaches, and materials.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 811B Special Topics in Reading****Crosslisted with:** TEAC 411B**Description:** Overview of reading processes and programs with attention to strategies for comprehension and word identification, approaches, and materials.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC

TEAC 811C Response to Intervention - Reading**Crosslisted with:** TEAC 411C**Description:** Overview of reading processes and programs with attention to strategies for comprehension and word identification, approaches, and materials.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 812 Improvement of Instruction in Elementary School Science****Crosslisted with:** TEAC 412**Prerequisites:** 12 hrs education including TEAC 315 or permission; teaching experience or student teaching**Description:** Techniques, plans, and procedures for improving instruction in elementary school science. Current practices, issues, and trends; evaluation of instructional materials.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813 Studies in Teaching English as a Second Language****Crosslisted with:** TEAC 413**Description:** Preparation for teaching K-12 learners whose language of nurture is not English.**Credit Hours:** 1-15**Min credits per semester:** 1**Max credits per semester:** 15**Max credits per degree:** 15**Format:** LEC**TEAC 813A Second Language Acquisition****Crosslisted with:** TEAC 413A**Description:** Theoretical exploration of how second / additional languages are learned.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813B ESL: Teaching and Curriculum****Crosslisted with:** TEAC 413B**Description:** Preparation for teaching K-12 learners whose language of nurture is not English**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813D World Languages Assessment****Crosslisted with:** TEAC 413D**Description:** Preparation for teaching K-12 learners whose language of nurture is not English**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813E Special Topics in TESOL****Crosslisted with:** TEAC 413E**Description:** Individual or group study of specific and timely topics in the teaching of English to speakers of other languages (TESOL)**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 813J Intercultural Communication****Description:** Introduction to intercultural communication and the theoretical and methodological tools needed to understand the tenets and implications of intercultural communication for application in personal and professional practices. Readings will deal with misunderstandings and the impact of cultural factors on the making of meaning, as well as discrimination and the impact of unequal power relations on communication, media impact in a globalized world, language, identity and communication, and intercultural competence.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813K Linguistics for Language Teachers****Crosslisted with:** TEAC 413K**Description:** An introduction to basic concepts in linguistics such as phonetics, phonology, morphology, syntax, semantics, neurolinguistics, discourse analysis and language variation. Designed for teachers (or future teachers) of English as an additional language, but also for world language teachers, classroom activities feature identifying theoretical underpinnings of practical language issues and connect them to questions language learners will have.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** ESL and Linguistics**TEAC 813M Teaching Multilingual Learners in Content Areas****Crosslisted with:** TEAC 413M**Notes:** Required for English Language Learner (ELL) certification.**Description:** Theory and pedagogy in the teaching of multilingual learners at all levels of K-12 education. Identify and design linguistically and culturally responsive instruction for multilingual learners in the content areas (e.g. language arts, science, mathematics, social sciences)**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 813P Teaching English as an International Language****Crosslisted with:** TEAC 413P**Description:** Methodologies for teaching English to speakers of other languages (TESOL) in domestic and international settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 813T ICMEE Expansion: Teacher-Learner Inquiry**Prerequisites:** Permission**Notes:** Only completers of ICMEE eWorkshops will be eligible to take this course.**Description:** Builds on linguistically responsive pedagogical skills developed in an ICMEE eWorkshop. Specific attention will be paid to the articulations of connections among teaching practice, global contexts, and local communities, with the objective of improving teaching and learning for multilingual K-12 learners.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 6**Format:** PSD**TEAC 814 Evaluation in Career and Technical Education****Crosslisted with:** CYAF 814**Description:** Two aspects of evaluation in the classroom: 1) selection and use of evaluation in assessing learning, and 2) consideration of conceptual and methodological issues in conducting evaluation to determine and account for the effectiveness of programs.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 815 Studies in Dual Language Education****Description:** The foundation, theory, and practice of teaching dual language learners.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 815A Foundations of Dual Language Education****Description:** The foundation, theory, and practice of teaching dual language learners.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 815B Special Topics****Description:** The foundation, theory, and practice of teaching dual language learners.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 815E Emerging Reading and Language****Description:** The foundation, theory, and practice of teaching dual language learners.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 815J Spanish in the Content Areas****Description:** The foundation, theory, and practice of teaching dual language learners.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 816 Inclusive Early Childhood Methods****Crosslisted with:** TEAC 416**Prerequisites:** Admission to the Inclusive Early Childhood Teacher Education Program; CYAF 374 and CYAF 374L.**Description:** The creation and practice of developmentally appropriate instruction in curricular areas for K to 3rd grades. Role of the teacher and/or facilitator in relationship to the primary curriculum and learning environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**TEAC 816A Literacy Methods for the Primary Student: K to 3rd****Description:** The creation and practice of developmentally appropriate instruction in curricular areas for K to 3rd grades. Role of the teacher and/or facilitator in relationship to the primary curriculum and learning environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 816B Social Studies and Science Methods for the Primary Student: K to 3rd****Description:** The creation and practice of developmentally appropriate instruction in curricular areas for K to 3rd grades. Role of the teacher and/or facilitator in relationship to the primary curriculum and learning environment.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 816D Unified Primary Schooling: Methods and Teaching K-3****Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 817 Emerging Reading and Language****Prerequisites:** Elementary endorsement**Description:** Research, theory and practice associated with literacy development in children from birth to age 8. Language and concept development, emerging reading and writing behaviors, appropriate materials and evaluation within a holistic view teaching and learning.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 818 Teaching Writing in K-12 Schools****Crosslisted with:** TEAC 418**Description:** Learning and teaching of writing with consideration given to developmental factors of children and adolescents.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 820 Teaching Foreign Language in the Elementary School**Crosslisted with:** TEAC 420**Description:** Theory, research and practice of most recent foreign language models and strategies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 822 Principles and Practices in Social Studies Education****Description:** Current issues and trends in the curriculum and teaching of social studies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**TEAC 822A Principles and Practices in Social Studies Education: Special Topics****Description:** Current issues and trends in the curriculum and teaching of social studies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 825 Work-Based Learning/Coordinating Techniques****Crosslisted with:** TEAC 425, EDAD 825**Description:** Foundation and scope of current and projected vocational cooperative education programs and general education work experience. Coordination techniques, selection and placement, instructional procedures, youth leadership activities, organization and administration, and evaluation of cooperative occupational education.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 828 Improvement of Instruction in Industrial Education****Description:** Special contemporary curricular and teaching aspects of industrial education. Research, curriculum content, teaching strategies, and the application to the instructional setting.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 829 Instructional Communication****Crosslisted with:** COMM 427, TEAC 429, COMM 827**Prerequisites:** COMM 101.**Description:** Advanced introductory course in instructional communication, focusing on understanding variables associated with the communication process in instructional settings and managing instructional communication more effectively. Provides an experimental and a cognitive understanding of the role of communication in the instructional process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 830 Introduction to Philosophy of Education****Crosslisted with:** TEAC 430**Description:** Fundamental ideas and skills that students can use to begin to form personal philosophical perspectives on education that can be justified intellectually, practically, and ethically. Using case studies of realistic school situations and the theoretical work of a range of writers in education, students explore conceptions of teaching, learning, curriculum, and the relationship between school and society.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 831 Studies in the Foundations of Education****Crosslisted with:** TEAC 431**Description:** Social and cultural analyses of curriculum, teaching, and education policy from disciplinary perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC**TEAC 831A Studies in the Foundations of Education - The Anthropology of Education****Crosslisted with:** TEAC 431A**Description:** Social and cultural analyses of curriculum, teaching, and education policy from disciplinary perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 831J Studies in the Foundations of Education - Special Topics****Crosslisted with:** TEAC 431J**Description:** Social and cultural analyses of curriculum, teaching, and education policy from disciplinary perspectives.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 832 Higher Education in America****Crosslisted with:** TEAC 432, EDAD 832**Description:** History and development of America's colleges and universities and a study of some recent trends and problems in higher education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 833 Comparative Education****Crosslisted with:** TEAC 433**Description:** Foundations, trends, and problems of selected national systems of education as seen in cultural perspective.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 833A Comparative Education Survey**Crosslisted with:** TEAC 433A

Description: Comparative Education investigates origins, goals, organization, challenges, and accomplishments of various countries' school systems with intentional comparisons to American practices. The 'A' format is a survey course that considers examples from all over the world. The 'B' format focuses on a single country (plus the U.S. for comparative purposes) and includes overseas travel-study (e.g., to South Korea, South Africa, or Chile) and visits to schools in the visited countries.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 833B Comparative Education: Special Topics/Travel Study****Crosslisted with:** TEAC 433B

Notes: This course could be taken more than once for additional credits assuming the student uses it for travel-study to different places. For example, a student could not visit South Korea twice with the same professor teaching the same syllabus, but could visit South Korea once (as one 3-hour course) and South Africa (as another 3-hour course).

Description: Investigates origins, goals, organization, challenges, and accomplishments of various countries' school systems with intentional comparisons to American practices. The 'B' format focuses on a single country (plus the U.S. for comparative purposes) and includes overseas travel-study (e.g., to South Korea, South Africa, or Chile) and visits to schools in the visited countries.

Credit Hours: 3-9**Min credits per semester:** 3**Max credits per semester:** 9**Max credits per degree:** 9**Format:** FLD**TEAC 834 Ethics and Education****Crosslisted with:** TEAC 434

Description: Basic issues in ethics and education. Using theoretical material and case studies, students consider such ideas and issues as the nature of moral judgment, equality, justice, caring, and respect for persons, and discuss how educators might respond in ethically justifiable ways to difficult situations they may encounter.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 835 Ethnic Minorities and American Education**

Description: Chronological entry of European immigrant groups into an American society during the formative years of the development of the American public school system. Record of American social and educational history is replete with examples of inter- and intra-group human conflict as each immigrant group attempted to carve out its niche in a New World setting during a period of mass migration from Europe. Historical, sociological, and psychological barriers that became inherent during a dynamic period of nation building.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 836 Latin American Education****Crosslisted with:** TEAC 436

Prerequisites: 12 hours education, social sciences, or Latin American Studies; or permission.

Description: Survey of contemporary practices and problems in Latin American education, with special emphasis on the role of education in the national development.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 836A Professional Development: Literacy Coaching**

Description: Equip professionals to contextualize their training in the whole school setting. Issues in the teacher change process, professional development practices, program needs assessment and administration, literacy assessment, materials selection, individuals coaching, and intervention design.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 836B Professional Development: Special Topics**

Description: Equip professionals to contextualize their training in the whole school setting. Issues in the teacher change process, professional development practices, program needs assessment and administration, literacy assessment, materials selection, individuals coaching, and intervention design.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 836E Professional Development in Education: Supervision of Pre-service Teachers**

Description: Equip professionals to contextualize their training in the whole school setting. Issues in the teacher change process, professional development practices, program needs assessment and administration, literacy assessment, materials selection, individuals coaching, and intervention design.

Credit Hours: 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 838 Linguistics in Language and Learning Contexts****Crosslisted with:** TEAC 438

Description: Discusses the relationships among language and learning, educator and learner discourses, and knowledge and action in connection to sociolinguistics, educational practice, and professional development. Introduction to English language morphology, syntax, phonology, semantics, and pragmatics as well as the language of schooling, its linguistic as well as socio-cultural and cognitive features. Addresses issues of diversity and social justice in education.

Credit Hours: 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 839 Literature for Adolescents**Crosslisted with:** TEAC 439**Prerequisites:** Admission to a Teacher Education Program.**Description:** Wide range of young adult literature available for use in schools. Critical and rhetorical tools for responding to a variety of literary texts and techniques for eliciting a wider range of responses to literature; consideration for readers aged 11-16.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 840 Culture and Schooling****Description:** Description and explanation of cultural values as they relate to education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 840A Culture and Schooling: Gender****Description:** Description and explanation of cultural values as they relate to education.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 840B Culture and Schooling: Gender and Science****Description:** Description and explanation of cultural values as they relate to education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 840D Culture and Schooling: Special Topics****Description:** Description and explanation of cultural values as they relate to education.**Credit Hours:** 1-6**Min credits per semester:** 1**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 840E Culture and Schooling: Rural Education****Description:** Description and explanation of cultural values as they relate to education.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 840M Language and Power****Notes:** This course counts towards the Graduate Certificate in Social Justice and Diversity Education**Description:** Designed for students interested in the relationship of language and power, discourse, knowledge and action both in social theory and in educational practice and across a variety of institutional, community, and individual settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 841 Content Area Reading, Grades 4-12****Crosslisted with:** TEAC 441**Description:** Simultaneous teaching of academic content and functional teaching of reading in the content areas; assessment of comprehension, vocabulary/concept attainment; analyses of text; improvement of content area learning through reading/writing development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 842 Objectives and Methods of Science Teaching****Description:** Development of objectives, course offerings, and organization of subject matter and methods of instruction in science courses. Current national science education curriculum trends.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** TEAC 924**TEAC 842A Objectives and Methods of Science Teaching: Elementary****Description:** Development of objectives, course offerings, and organization of subject matter and methods of instruction in science courses. Current national science education curriculum trends.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 842B Objectives and Methods of Science Teaching: Middle School****Description:** Development of objectives, course offerings, and organization of subject matter and methods of instruction in science courses. Max credits per degree: 3

Format: LEC

TEAC 851N Learning and Teaching Principles and Practices: Secondary Language Arts

Crosslisted with: TEAC 451N

Description: Theoretical issues in the area of teaching and learning as applied to the individual disciplines.

Credit Hours: 3-4

Min credits per semester: 3

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

TEAC 851P Learning and Teaching Principles and Practices: Secondary Mathematics**Crosslisted with:** TEAC 451P**Prerequisites:** Admission to the Teacher Education Program; completion of 80 percent of subject-area course work with a 2.5 GPA or better.**Description:** Theoretical issues in the area of teaching and learning as applied to the individual disciplines. Innovative methodology and planning, teaching, and evaluating math lessons for diverse learners.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**TEAC 851R Learning and Teaching Principles and Practices: Secondary Modern Languages****Crosslisted with:** TEAC 451R**Description:** Theoretical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**TEAC 851V Learning and Teaching Principles and Practices: Secondary Science****Crosslisted with:** TEAC 451V**Description:** Theoretical issues in the area of teaching and learning as applied to the individual disciplines. Investigates issues in secondary science learning and teaching with emphasis on contextualized practice in each field as well as interdisciplinary approaches to planning, research, testing, laboratory safety, and the affective and cognitive needs of diverse learners.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**TEAC 851W Learning and Teaching Principles and Practices: Secondary Social Science****Crosslisted with:** TEAC 451W**Description:** Theoretical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 3-4**Min credits per semester:** 3**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**TEAC 852 Curriculum Principles and Practices****Crosslisted with:** TEAC 452**Prerequisites:** Admission to the Teacher Education Program; completion of 80 percent of subject-area course work with 2.5 GPA or better.**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852I Curriculum Principles and Practices Secondary Art****Crosslisted with:** TEAC 452I**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852N Curriculum Principles and Practices Secondary Language****Crosslisted with:** TEAC 452N**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852P Curriculum Principles and Practices Secondary Mathematics****Crosslisted with:** TEAC 452P**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852R Curriculum Principles and Practices Secondary Modern Languages****Crosslisted with:** TEAC 452R**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852V Curriculum Principles and Practices Secondary Science****Crosslisted with:** TEAC 452V**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 852W Curriculum Principles and Practices Secondary Social Science****Crosslisted with:** TEAC 452W**Description:** Focus on practical issues in the area of teaching and learning as applied to the individual disciplines.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 854 Literature in Education**Crosslisted with:** TEAC 454**Description:** Comparative analyses of literature and the role of the reader as meaning maker in educational settings.**Credit Hours:** 3-9**Min credits per semester:** 3**Max credits per semester:** 9**Max credits per degree:** 9**Format:** LEC**TEAC 854A Literature in Education: Literary Response and Analysis****Crosslisted with:** TEAC 454A**Description:** Comparative analyses of literature and the role of the reader as meaning maker in educational settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 854B Literature in Education: Multiethnic Literature for Children and Adolescents****Crosslisted with:** TEAC 454B**Description:** Comparative analyses of literature and the role of the reader as meaning maker in educational settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 854E Literature in Education: Special Topics****Description:** Comparative analyses of literature and the role of the reader as meaning maker in educational settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 855 Teaching Learners to Learn****Crosslisted with:** EDAD 855, EDPS 855, NUTR 855, SPED 855**Description:** Effective teachers facilitate student learning. Facilitating student learning depends on understanding learning principles and on designing instruction that is compatible with learning principles. Instructors can provide learning-compatible instruction that helps students learn more effectively and ultimately teaches them how to learn. Assists teachers to teach in learning-compatible ways and helps them embed within their curriculum a program for teaching learners to learn.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856A Learning Models: Unified Learning Model****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. Unified learning model.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856B Learning Models: Theories and Applications Specific to Reading/Writing Instruction****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. Theories and applications specific to reading/writing instruction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856L Learning Models: Theories and Applications Specific to Instructional Technology****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. Theories and applications specific to instructional technology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856P Learning Models: Theories and Applications Specific to Mathematics Instruction****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. A. Unified learning model. Theories and applications specific to mathematics instruction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856V Learning Models: Theories and Applications Specific to Science Instruction****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. A. Unified learning model. Theories and applications specific to science instruction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 856W Learning Models: Special Topics****Description:** Introduction to current theoretical models of learning pertaining to schooling. Learner characteristics and applications to traditional classroom settings. Special topics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 857B Nebraska Writing Project****Crosslisted with:** ENGL 857B**Description:** Topics in writing instruction, explored via the National Writing Project Institute model, for K-12 and college teachers of writing in all curricular areas.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 858 Utilization of Modern Technology

Description: Strategies of incorporating modern technology into the professional workplace; provides a thorough understanding of the operation and evaluation of integrating technology into the curriculum.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 859 Designing Learning Experiences

Description: This reading and design seminar focuses on approaches to creating learning experiences. Drawing on behavior science, cognitive modeling, constructivism, sociocultural, problem-based, and social justice perspectives on learning—the course supports generative explorations in learning, design, and technology.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 860 Production and Utilization of Instructional Materials

Description: The use of technology to support the development of efficient and effective learning materials through the application of learning and design principles. Emphasis is on the development of skills for the actual production and utilization of instructional materials in ways that support teaching.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 861 Education for a Pluralistic Society: Foundation and Issues

Description: Educational practices and policies for people from historically oppressed groups in the United States Foundation of multicultural education. Discussion of contemporary educational issues within the context of multicultural and cultural diversity. Critique of curricular materials and resources promoting a multicultural perspective.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 861A Special Topics in Education for a Pluralistic Society

Description: Introduction to the field of Democratic Education to explore the defining issues, questions, and problems of the field. Readings and discussions on a breadth of issues related to democratic education including the purposes of schools, ideology and curriculum, the relationship between social class and citizen-production in schooling, and the role of discussion, deliberation, and trust in democratic schooling. Students will undertake the issue of how we are to prepare teachers in ways that promote democracy both within teacher education as well as K-12. Undergirding all of these conversations will be explicit attention to diversity, power, and voice. The role of social capital in democratic society, exploring how changing participation and group membership trends in the United States have consequences for democratic health.

Credit Hours: 1-9

Min credits per semester: 1

Max credits per semester: 9

Max credits per degree: 9

Format: LEC

TEAC 862 Seminar in Democratic Education

Description: Introduction to the field of democratic education; explores the relationship between democracy and schooling; examines purposes of schools, ideology and curriculum, the relationship between social class and citizen-production in schooling, as well as the role of discussion, deliberation, and trust in democratic schooling.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 873 Approaches to Middle School General Music

Crosslisted with: MUED 473, MUED 873

Prerequisites: MUED 344.

Description: For prospective new and experienced general music/middle school teachers. Characteristics of middle school students, materials, methodology, guitar and recorder techniques, and curriculum development.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Music Education

TEAC 874 Topics in Chemical Pedagogy

Crosslisted with: CHEM 874

Description: Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 12

Format: LEC

TEAC 874A Topics in Chemical Pedagogy - Green Chemistry

Crosslisted with: CHEM 874A

Description: Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.

Credit Hours: 2-3

Min credits per semester: 2

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 874D Topics in Chemical Pedagogy - Demonstrations for High School Chemistry

Crosslisted with: CHEM 874D

Description: Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 874E Topics in Chemical Pedagogy - Experiments for High School Chemistry**Crosslisted with:** CHEM 874E**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874J Topics in Chemical Pedagogy - Developing a Safety Culture****Crosslisted with:** CHEM 874J**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**TEAC 874K CHEM OF LIFE PROCESS****Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874L Topics in Chemical Pedagogy - Addressing Misconceptions****Crosslisted with:** CHEM 874L**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874M Topics in Chemical Pedagogy - Mathematics Integration****Crosslisted with:** CHEM 874M, MATH 874M**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. May be counted towards the MAT and MScT degrees in mathematics and statistics, not the MA, MS, or PhD. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874N Topics in Chemical Pedagogy - Inquiry Strategies****Crosslisted with:** CHEM 874N**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874P Topics in Chemical Pedagogy - Chemistry in the Workplace****Crosslisted with:** CHEM 874P**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 874Y Topics in Chemical Pedagogy - Graphing Calculator Activities****Crosslisted with:** CHEM 874Y**Description:** Topical chemistry content for high school teachers organized according to the National Science Education Standards. A maximum combined total of 12 hours from TEAC *869 and/or *874 may be counted toward a masters degree. Credit in this course will not count towards a graduate degree in chemistry. Courses are Web-based.**Credit Hours:** 2-3**Min credits per semester:** 2**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 875 Chemical Pedagogy in the High School Laboratory****Crosslisted with:** CHEM 875**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 875A Chemical Pedagogy in the High School Laboratory - Small-scale Experiments****Crosslisted with:** CHEM 875A**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 875B Chemical Pedagogy in the High School Laboratory - Technology Integration**Crosslisted with:** CHEM 875B**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 3-6**Min credits per semester:** 3**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**TEAC 875E Chemical Pedagogy in the High School Laboratory - Inquiry Experiments****Crosslisted with:** CHEM 875E**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 875K Chemical Pedagogy in the High School Laboratory - At-home Experiments****Crosslisted with:** CHEM 875K**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 875P Chemical Pedagogy in the High School Laboratory - Probe Experiments****Crosslisted with:** CHEM 875P**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 875T Chemical Pedagogy in the High School Laboratory - Traditional Experiments****Crosslisted with:** CHEM 875T**Description:** Laboratory-based courses addressing specific issues connected with teaching laboratory work in high school chemistry programs. Credit in this course will not count towards a graduate degree in chemistry.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880 Teaching with Technology****Crosslisted with:** TEAC 480**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880A Teaching with Technology: Survey of Instructional Technology****Crosslisted with:** TEAC 480A**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880B Teaching with Technology: Designing Instructional Technology K-12****Crosslisted with:** EDAD 880B, TEAC 480B**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880E Teaching with Technology: Instructional Technology in Mathematics****Crosslisted with:** TEAC 480E**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880J Teaching with Technology: Instructional Technology in Language Arts****Crosslisted with:** TEAC 480J**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 880K Teaching with Technology: Instructional Technology in Science**Crosslisted with:** TEAC 480K**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880L Teaching with Technology: Instructional Technology in Social Sciences****Crosslisted with:** TEAC 480L**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880M Teaching with Technology: Technology Supported Assessment and Evaluation****Crosslisted with:** TEAC 480M**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880N Teaching with Technology: Web Teaching****Crosslisted with:** TEAC 480N**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 880P Teaching with Technology: Special Topics****Crosslisted with:** TEAC 480P**Description:** Survey and analysis of the application of technology to improve teaching. Research and related literature on learning, teaching and curriculum, and the critical application of technology and the development of teaching strategies.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 881 Music in Early Childhood Education****Crosslisted with:** MUED 881**Prerequisites:** MUED 344 or 370**Description:** Prepares the teacher of the young child (3-8 years) in the musical skills, methodology, and materials needed to carry out a successful program of music in the public and private schools, the nursery schools, and day-care centers.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 882 Instructional Applications of Computers-Practicum****Crosslisted with:** TEAC 482**Prerequisites:** Permission.**Description:** A task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised tasks centered experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**TEAC 882A Modern Programming Tools****Description:** A task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised tasks centered experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**TEAC 882B Database and Interactive Web Development****Description:** A task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised tasks centered experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC**TEAC 882D Artificial Intelligence, and APIs in the Design of Learning Experiences****Crosslisted with:** TEAC 482D**Description:** Task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised task-centered experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 882E Advanced Web Design and Management****Description:** A task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised tasks centered experiences.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 15**Format:** LEC

TEAC 882J Creation of Instructional Activities for Portable Devices

Description: A task-oriented practicum for the demonstration of fluency with advanced technology and the application of instructional design to the development of educational resources. Supervised tasks centered experiences.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 15

Format: LEC

TEAC 883 Curriculum Design and Language Program Direction

Crosslisted with: MODL 883

Description: Examination of curriculum design and language program direction for foreign/second language learning.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 886 Assessment, Evaluation, and Instruction of At-Risk Readers

Crosslisted with: SPED 886

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

TEAC 886A Special Topics in Literacy Assessment

Crosslisted with: SPED 886A

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 886B Internship in Literacy Assessment and Instruction

Crosslisted with: SPED 886B

Notes: TEAC/SPED 886 includes case study and planning for special student populations.

Description: Analysis and use of informal and formal assessment and instructional strategies in clinic and classroom settings.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: FLD

TEAC 887 Effecting High School Improvement

Description: The relationships and interactions among the high school student, a teacher, and the curriculum to the issues of school district, higher education, philanthropy, state department of education, and federal involvement in high school improvement efforts. The imperative and challenges for improving high schooling for all students.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 888 Teacher as Scholarly Practitioner

Prerequisites: TEAC 800 and 801, or permission

Description: Seminar on the principles of practitioner inquiry and development of a proposal for an inquiry project.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 888A Special Topics in Inquiry

Description: Seminar on the principles of practitioner inquiry and development of a proposal for an inquiry project.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 889 Masters Seminar

Prerequisites: Permission

Description: Working with a faculty mentor on either an individual or small-group basis, the student plans, conducts, and reports a summative work project.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 890 Workshop Seminar

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

TEAC 891 Special Topics in Human Sciences

Crosslisted with: HUMS 891, NUTR 891, SLPA 891, TMFD 891, CYAF 891

Description: Aspects of human sciences not covered elsewhere in the curriculum.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 892 Special Topics in Education

Crosslisted with: EDAD 892, EDPS 892, EDUC 892, SPED 892, CYAF 892

Prerequisites: EDPS 859 or parallel; EDPS 859 or equivalent

Description: Aspects of education not covered elsewhere in the curriculum.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 893 Workshop Seminar

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

TEAC 893N Workshop Seminar

Crosslisted with: EDAD 893N, EDPS 893N, SPED 893N

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

TEAC 894 Professional Practicum Experiences

Prerequisites: Admission to Teacher Education Program

Notes: TEAC 894 does not count toward the MA or MEd degree.

Description: Guided observations and/or clinical experiences in schools and/or agencies offering programs for children/youth.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 10

Format: FLD

TEAC 894A Professional Practicum Experiences: Elementary (K-6)

Description: Guided observations and/or clinical experiences in schools and/or agencies offering programs for children/youth.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 10

Format: FLD

TEAC 894B Professional Practicum Experiences: Elementary Art

Description: Guided observations and/or clinical experiences in schools and/or agencies offering programs for children/youth.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

TEAC 908J Critical Conversations in U.S. Teacher Preparation Policy and Practice: Teacher Education To What E

Description: Explore teacher education in the United States through examining media artifacts, analyzing select books and readings, and engaging in activities and discussion. Study key issues in teacher education, the current context for teacher education in the U.S., the historical development of teacher education, agendas for reform, alternative pathways to teaching, and external and internal critiques of university-based teacher education. Engage in ongoing discussion to determine the quality of teacher education programs and develop policies at the state and national level to support high quality teacher preparation.

Data collection and analysis strategies and the application of those strategies to research problems.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 936 Seminar in College Teaching****Description:** Overview of teaching in post-secondary settings.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 937 Philosophy of Science and Educational Research****Description:** Major themes in philosophy of science and relates these to conceptions of research on human beings and social institutions, particularly as this is applied to schooling. Students consider such fundamental issues as whether educational research is a science, the form and purpose of educational research, and what research might imply for practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 944 Seminar in Curriculum Studies****Description:** Critical examination of issues in curriculum development with an analysis of research and literature on the subject.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** LEC**TEAC 944A Curriculum as Aesthetic Text****Description:** Critical examination of issues in curriculum development with an analysis of research and literature on the subject.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 944B Special Topics in Curriculum****Description:** Critical examination of issues in curriculum development with an analysis of research and literature on the subject.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 944D Curriculum Evaluation****Description:** Critical examination of issues in curriculum development with an analysis of research and literature on the subject.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 944E Curriculum as Spatial Text****Description:** Critical examination of issues in curriculum development with an analysis of research and literature on the subject.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 946 Instructional Improvement and Decision Making****Description:** Study and application of teaching models and techniques based on research, theory, and exemplary practice.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 946A Instructional Assessment****Description:** Study and application of teaching models and techniques based on research, theory, and exemplary practice.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TEAC 946B Special Topics in Instruction

Description: Study and application of teaching models and techniques based on research, theory, and exemplary practice.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 948 Instructional Leadership: Emerging Trends and Practices

Crosslisted with: EDAD 948

Description: Changing roles for persons engaged in instructional and curricular leadership in educational institutions. Literature on staff development, assessment and evaluation, and effective schools serve as the basis for studying and applying this information to a variety of educational settings. Issues such as teacher empowerment and site-based management, along with cooperative learning provide the focus of the activities.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 949 Seminar in Education

Description: Critical analysis of literature and research on teaching, learning, and schooling.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 9

Format: LEC

TEAC 949A Seminar in Education: Special Topics in Education

Description: Critical analysis of literature and research on teaching, learning, and schooling.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 950 Contextual Research in English/Language Arts

Description: Uses of qualitative research in English language arts; interpreting, planning, conducting, and reporting contextual research results.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 951 Seminar in Reading Education

Description: Scholarship in reading education, including the nature, results and implications of past and present research and non-research and contributions of historically significant scholars in the field of reading.

Credit Hours: 3-9

Min credits per semester: 3

Max credits per semester: 9

Max credits per degree: 9

Format: LEC

TEAC 951A Seminar in Reading Education: Research in Reading Education

Description: Scholarship in reading education, including the nature, results and implications of past and present research and non-research and contributions of historically significant scholars in the field of reading.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 951B Seminar in Reading Education: Special Topics

Description: Scholarship in reading education, including the nature, results and implications of past and present research and non-research and contributions of historically significant scholars in the field of reading.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

TEAC 952 Language and Learning

Description: Role that language plays in empowering and constraining children as they attempt to make sense of their world. Consideration of application of language scholarship for general instruction.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 953 Seminar on Writing in the Curriculum

Description: Writing development, writing instruction, and the use of writing in the content areas. Consideration of application of scholarship in writing for general learning and instruction.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TEAC 957B Nebraska Writing Project

Crosslisted with: ENGL 957B

Description: Summer institute for K-12 and college teachers of writing in all curricular areas, taught on the National Writing Project model.

Credit Hours: 6

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

TEAC 959 Portfolio in Instructional Technology Competencies

Prerequisites: Permission

Notes: No more than six credits of TEAC 959 may be counted towards a masters degree.

Description: Portfolio components represent a significant contribution to the solution of an instructional problem and reflect broadly the major competencies of instructional technology: problem definition, learner analysis, media selection and message design, production, and evaluation.

Credit Hours: 1-12

Min credits per semester: 1

Max credits per semester: 12

Max credits per degree: 12

Format: LEC

TEAC 960 Topical Seminar in Instructional Technology**Prerequisites:** Permission**Description:** An applied critical analysis of research in a delimited problem at the intersection of learning and technology (e.g., societal influences on learning technologies, virtual reality, artificial intelligence, voice navigation, Deleuze, drones).**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 961 Current Approaches to Elementary Music Education****Crosslisted with:** MUED 961**Prerequisites:** Teaching experience**Description:** Implementation of current programs, materials, and techniques for the improvement of music instruction in the elementary school.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TEAC 989 Psychology of Reading and Writing****Crosslisted with:** EDPS 989**Notes:** Prior graduate coursework in literacy or cognitive psychology recommended.**Description:** Study of the research literature on cognitive and motivational processes involved in reading and writing. Readings and classroom discussion will focus on theories and models of reading and writing. Specific topics include the roles of component processes of literacy such as attention, perception, memory, and problem solving, as well as studies of self-regulatory and social influences on literacy development and performance. Literacy research and models are examined at all levels of reading and writing, from early acquisition through high-level reading and writing expertise, as well as with respect to changes in literacy activities tied to new technologies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** FALL/SPR**TEAC 990 Workshop Seminar****Credit Hours:** 1-12**Min credits per semester:** 1**Max credits per semester:** 12**Max credits per degree:** 12**Format:** LEC**TEAC 991 Field Studies in Education****Crosslisted with:** EDAD 991, NUTR 991**Prerequisites:** Permission**Description:** Identification and solutions of problems associated with program planning; organizational, administrative, and instructional procedures within an institutional setting. Development, execution and reporting on one or more projects addressing the interaction between research and practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 18**Format:** LEC**TEAC 995A Doctoral Seminar: Ph.D. Pro-Seminar****Prerequisites:** Permission**Notes:** Intended primarily for doctoral students, although non-doctoral graduate students may be admitted with special permission of the instructor.**Description:** Outcome-based scholarly activities, individualized or small group basis. Development, execution and reporting on one or more projects addressing the interaction between research and practice.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 18**Format:** LEC

TEAC 995B Special Topics

Description: Outcome-based scholarly activities, individualized or small group basis. Development, execution and reporting on one or more projects addressing the interaction between research and practice. Intended primarily for doctoral students, although non-doctoral graduate students may be admitted with special permission of the instructor.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 15

Format: LEC

TEAC 996 Individual Research Projects

Prerequisites: Permission

Description: Individual research under faculty supervision.

Credit Hours: 1-10

Min credits per semester: 1

Max credits per semester: 10

Max credits per degree: 10

Format: IND

TEAC 997 Minor Research

Description: Individual research on approved topics in Elementary Education.

Credit Hours: 1-6

Min credits per semester: 1

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

TEAC 999 Doctoral Dissertation

Prerequisites: Admission to doctoral degree program and permission of supervisory committee chair

Credit Hours: 1-24

Min credits per semester: 1

Max credits per semester: 24

Max credits per degree: 99

Format: IND

Textiles, Merchandising and Fashion Design (TMFD)

TMFD 803 Apparel Design by Draping

Crosslisted with: TMFD 403

Prerequisites: TMFD 212 and 216

Description: Creative experience in designing apparel through the use of draping techniques.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: SDO

Prerequisite for: TMFD 471, TMFD 871; TMFD 823

TMFD 805 Advanced Textiles

Crosslisted with: TMFD 405

Prerequisites: TMFD 206; CHEM 105 or 109 or 113.

Description: Recent advances in the production and performance of fibers, yarns, finishes and dyes for textile products. Lab experiences designed to familiarize the students with standards, methods and equipment for evaluating textile product performance.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 806 Textile Testing and Evaluation

Crosslisted with: TMFD 406

Prerequisites: TMFD 206.

Description: Physical and chemical analysis of textiles using standard testing procedures. The calculation, interpretation, and evaluation of test results.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 807 History of Dress

Crosslisted with: TMFD 407

Prerequisites: Junior standing, AHIS 101 or 102 or 3 hrs HIST 130 or 131.

Description: Theoretical approach to the history of dress from ancient times through the twentieth century; examining dress in the context of social, economic, and artistic development of Western culture.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: TMFD 876, ANTH 883

TMFD 808 Textiles, Technology and Culture

Crosslisted with: TMFD 408

Prerequisites: Junior standing, TMFD 206, AHIS 101 or 102 or 3 hrs HIST 130 or 131.

Description: Textiles in the context of social, technical, political, aesthetic, and economic developments in the cultures of Europe, Asia, the Middle East, Africa and the Americas. Emphasis is placed on the relationship between social, technical, and aesthetic qualities of textiles, and their transformations, as well as stylistic similarities and differences across cultural and historical contexts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: TMFD 876, ANTH 883

TMFD 809 Museums: Theory and Practice

Prerequisites: TMFD 830

Description: Recommended practices for accessioning, handling, storage, exhibition, and preventative conservation of textiles and dress in museum collections. Philosophical and ethical issues confronting curators and collection managers.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 810 Body, Dress and Identity**Crosslisted with:** TMFD 410, WMNS 410A, WMNS 810A**Prerequisites:** Senior standing; 3 hrs PSYC or SOCI; TMFD 123.**Description:** Theories and research findings about the social, cultural, and psychological aspects of clothing and appearance in relation to the self and others. Emphasis on knowledge of entrepreneurial management and development strategies and growth in team-work settings.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**TMFD 822 International Textile and Apparel Sourcing****Crosslisted with:** TMFD 422**Prerequisites:** Senior Standing and TMFD 313**Description:** Comprehensive study of issues involved in global sourcing, including the scope, trends, and sustainability of current practices. An analysis of cultural, political, ethical, and economic perspectives related to global sourcing, production, trade and distribution of textiles and apparel products.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TMFD 823 Advanced Design in Mixed Media****Prerequisites:** TMFD 212, 216, 312, and 803 or 816**Description:** Creative experience in designing textiles and apparel as three-dimensional art forms with emphasis on conceptualization, expression, media, techniques, lighting, space, and movement as influential factors combined with exhibition experience. Topics vary.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** SDO**TMFD 824 Rendering and Production of Textiles and/or Apparel****Prerequisites:** Permission of instructor**Description:** Studio experience in working with a variety of media, including digital, to render and produce textiles and/or apparel; and Portfolio development.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** SDO**TMFD 825 Advanced Design for Printed Textiles****Crosslisted with:** TMFD 425**Prerequisites:** TMFD 144, TMFD 145, and TMFD 146.**Description:** Digital and other media for printed textiles. Design development, professional practices, and expressive and communicative concepts.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** SDO**TMFD 828 Coloration****Crosslisted with:** TMFD 428**Prerequisites:** 4 hrs CHEM and TMFD 206, for TMFD 428 (undergraduate) ONLY**Description:** Application classes of dyes. Physical and chemical properties of dyes within each class, methods of dye-fiber association, fastness properties of dyes, and recommended application procedures.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TMFD 830 Textiles****Description:** Fibers, yarns, fabric construction, and finishes as they affect use and care.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** TMFD 809**TMFD 851 Consumer Behavior****Prerequisites:** Admission to the Merchandising Specialization Masters Degree program or permission**Description:** Evaluation of psychological, sociological, and cultural theories of consumers' behavior through the examination of factors influencing consumers' decision-making process.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**TMFD 852 Professional Advancement****Prerequisites:** Admission to the Merchandising Specialization Masters Degree program**Description:** Analysis of leadership and how it affects organizational culture and change through a prism of past and current experiences. Various leadership styles will be examined and a personal leadership philosophy will be developed for professional advancement in merchandising.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

TMFD 854 Promotional Strategies in Merchandising

Prerequisites: Admission to the Merchandising Specialization Masters Degree program or permission

Description: Examination of intergrated marketing communications (i.e., promotional strategies and techniques) while fostering cultural and global awareness, social responsibility and ethical descitions-making in the field of promotion.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 855 Retail Theory and Current Practice

Prerequisites: Admission to the Merchandising Specialization Masters Degee program. Retail Management course

Description: Theoretical and applied analysis of merchandising strategies; assessment of internal and external environmental forces impacting strategic decisions by retail firms; synthesis of past and present trends in order to forecast probable future patterns.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 861 Historical and Contemporary Issues in Trade

Prerequisites: Admission to the Merchandising Specialization Masters Degree program or permission

Description: The examination of fiber, textile, and apparel industries in a global context. Specifically, a look at the historical development of the global and U.S. textile and apparel industries and how the global environment (economic, political, and social systems) affects the textile/ apparel production and trade.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 862 International Retail Expansion

Prerequisites: Admission to the Merchandising Specialization Masters Degree program

Description: Gain a comprehensive understanding of the scope, trends, practices and issues in international retail and merchandise management. Comprehend the process of global sourcing and supply chain management. The global retail system and the way goods are distributed to consumers in various countries will also be analyzed.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

TMFD 863 Retail Analytics

Description: Utilizing quantitative data from the merchandising industry to support managerial decision making: specifically, how to format and analyze typical consumer data. Applying analytical approaches to problem solving using Microsoft Excel including: Formulas, Functions, Solver, and Pivot Tables. Decision making and analytical skills will be improved while providing new perspectives and approaches to apply quantitative techniques and methods to solve real-world business problems. Learning to summarize and present quantitative information designed for industry stakeholders.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 864 Financial Merchandising Implications

Prerequisites: Admission to the Merchandising Specialization Masters Degree program

Description: The advanced study of financial trends in the merchandising industries; implications related to sole proprietors, partnerships, franchises, S corporations, and C coporations. Focus will be on the financial implications of recent advances in the field that assist graduate students as they embark on careers in academia and/or the merchandising industries.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 865 Strategic Planning

Prerequisites: Admission to the Merchandising Specialization Masters Degree program

Notes: This is a capstone course.

Description: Examination of the executive planning process utilized to develop successful corporate strategies; emphasis on the importance of a market orientation for building customer value and sustaining a competitive advantage.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 866 Product Design, Development & Evaluation

Description: Advanced study of issues and management strategies necessary to design and produce a competitively priced product. Examination of the role of globalization and rapidly changing technology on the development of a successful product.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: SUMMER

TMFD 870 Current Issues in Textiles, Fashion and Design

Prerequisites: 9 hrs textiles, merchandising and fashion design and permission

Description: Significant issues in textiles, clothing, and fashion design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 870A Current Issues in Textiles, Fashion and Design: Textiles

Prerequisites: 9 hrs textiles, merchandising and fashion design and permission

Description: Significant issues in textiles, clothing, and fashion design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 870B Current Issues in Textiles, Fashion and Design: Fashion

Prerequisites: 9 hrs textiles, merchandising and fashion design and permission

Description: Significant issues in textiles, clothing, and fashion design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 870D Current Issues in Textiles, Fashion and Design: Design

Prerequisites: 9 hrs textiles, merchandising and fashion design and permission

Description: Significant issues in textiles, clothing, and fashion design.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 871 Experimental Apparel Design

Crosslisted with: TMFD 471

Prerequisites: TMFD 803 for Graduate Level Course Only.

Description: Advanced work in the creation of apparel as visual communication. Design conceptualization with experimentation in media, structure, technique, and presentation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 6

Format: SDO

TMFD 873 Design Perspectives and Issues

Description: Contemporary issues in design with creative and/or curatorial work.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 874 Theory Development

Description: Emergence and synthesis of theory, current theoretical development, conceptual structures, theory construction as a framework for research and evaluation of scholarly publications.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

TMFD 875 Research Methods

Crosslisted with: HUMS 875

Description: Research methods that addresses practical and theoretical issues involved in designing, conducting, and evaluating research.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 876 Material Culture Research Methods

Crosslisted with: ANTH 883

Prerequisites: TMFD 807 or TMFD 808

Description: Research methods for material culture study applied to textiles and dress. Methodologies for artifact study and skills. Fiber microscopy as a tool for artifact analysis. Conceptual development, application and evaluation of a model for artifact study.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Offered: FALL

TMFD 877 Gender and Material Culture

Crosslisted with: TMFD 477, WMNS 477, WMNS 877, ANTH 467, ANTH 867

Prerequisites: Junior Standing; 3 hours in any of the following areas: ANTH, SOCI, HIST, AHIS, TMFD or WMNS.

Description: In depth analysis of the relationship between material culture and gender roles, categories, and performances. Engages with theoretical frameworks for material culture and gender, as well as topics such as the body, clothing, the built environment, technology and media.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 890 Workshop/Seminar

Prerequisites: Permission.

Notes: Presented by department faculty and visiting artists, scholars and scientists.

Description: Opportunity to analyze and evaluate techniques, develop skills, or study topics of special interest.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 9

Format: IND

TMFD 890A Workshop/Seminar - Textiles

Crosslisted with: TMFD 490A

Description: Workshops on a variety of topics by department faculty and visiting artists, scholars and scientists. Opportunity to analyze and evaluate techniques, develop skills, or study topics of special interest.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 890B Workshop/Seminar - Fashion

Crosslisted with: TMFD 490B

Description: Workshops on a variety of topics by department faculty and visiting artists, scholars and scientists. Opportunity to analyze and evaluate techniques, develop skills, or study topics of special interest.

Credit Hours: 1-3

Min credits per semester: 1

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TMFD 890D Workshop/Seminar - Design**Crosslisted with:** TMFD 490D**Description:** Workshops on a variety of topics by department faculty and visiting artists, scholars and scientists. THEA 884 Advanced Projects in Film Production and/or New Media**Crosslisted with:** THEA 484**Prerequisites:** THEA 489/889.**Description:** Projects in screenwriting, film production, digital animation, and new media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**THEA 885 Post Production for Film and New Media****Crosslisted with:** THEA 485**Prerequisites:** THEA 489/889.**Description:** Advanced studio software and techniques.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**THEA 886 Film: Producing****Crosslisted with:** THEA 486**Prerequisites:** THEA 481/881 and THEA 489/889**Description:** The budgeting, organizational, managerial and supervisory skills required by a creative film producer - from financing to distribution.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**THEA 887 Digital Motion Graphics****Crosslisted with:** THEA 487**Prerequisites:** THEA 489 or by permission.**Description:** Creating moving text and images using compositing and animation software. Introduction to basic 3D animation.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** THEA 473; THEA 474**THEA 889 Film Production II****Crosslisted with:** THEA 489**Prerequisites:** THEA 481/881, THEA 482/882, and permission.**Description:** Advanced film production techniques including sync-sound, lighting, lab post-production and film business. Small group production of Cinema Verite's Experimental and Narrative short films.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** MUSC 435, MUSC 835; THEA 415, THEA 815; THEA 426, THEA 826; THEA 454, THEA 854; THEA 484, THEA 884; THEA 485, THEA 885; THEA 486, THEA 886; THEA 488; THEA 496; THEA 838, THEA 438**THEA 891 Advanced Projects in Directing and/or Theatre Management and/or Stage Management****Crosslisted with:** THEA 491**Prerequisites:** THEA 202; THEA 300 or 301; and permission.**Description:** Selected projects in directing, theatre management, or stage management in University Theatre or Theatrix.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 9**Format:** IND**THEA 894 Internship in Theatre or Film****Crosslisted with:** THEA 494**Prerequisites:** Permission**Description:** Structured internships with professional organizations or individuals outside the University of Nebraska-Lincoln campus or with Nebraska Educational Telecommunications.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 6**Format:** FLD**THEA 898 Special Topics in Theatre Arts****Prerequisites:** Permission.**Credit Hours:** 1-24**Min credits per semester:** 1**Max credits per semester:** 24**Max credits per degree:** 24**Format:** LEC**THEA 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**THEA 940 Seminar in Theatre Design****Prerequisites:** Undergraduate major in theatre arts**Notes:** Prereq or parallel: THEA 810, 812, 818 and 932.**Description:** Problems and theories of scenery, costume, and lighting design for ballet, opera, musicals, and legitimate plays. Discussion of student projects and designed full-scale productions.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC**THEA 956 Seminar in Theatre History****Prerequisites:** Undergraduate major in theatre arts including 9 hrs theatre history and evolution of dramatic theory**Description:** Specialized topics in theatre history.**Credit Hours:** 1-3**Min credits per semester:** 1**Max credits per semester:** 3**Max credits per degree:** 12**Format:** LEC

Turfgrass and Landscape Management (TLMT)

TLMT 813 Turfgrass and Landscape Weed Management

Crosslisted with: AGRO 813, HORT 813

Description: Fundamental terminology associated with turfgrass and landscape weed management. Weed identification and the cultural practices and herbicide strategies to limit weed invasion and persistence.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

TLMT 814 Turfgrass Disease Management

Crosslisted with: AGRO 414, AGRO 814, HORT 414, HORT 814, PLPT 414, PLPT 814, TLMT 414

Prerequisites: BIOS/PLPT 369 or one semester of introductory plant pathology.

Description: Pathogens, epidemiology, and control of diseases specific to turfgrass.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

TLMT 827 Turfgrass Systems Management

Crosslisted with: AGRO 427, HORT 427, TLMT 427, AGRO 827, HORT 827

Prerequisites: TLMT 227 and TLMT 327.

Description: Critical evaluation of turfgrass settings to create economical and environmentally friendly management systems for professionally managed turf areas.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

TLMT 840 Turfgrass and Landscape Integrated Pest Management

Crosslisted with: HORT 840

Description: Principles of turfgrass and landscape plant pest management and tools to implement Integrated Pest Management (IPM) approaches. Creating healthy landscapes and effectiveness of IPM alternatives.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

TLMT 880 Modified Rootzones

Crosslisted with: AGRO 480, HORT 480, TLMT 480, AGRO 880, HORT 880

Notes: Offered as a five-week course.

Description: Modified rootzones and their applications in the turfgrass and landscape management industry. Correct applications and construction techniques.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Veterinary and Biomedical Sciences (VBMS)

VBMS 805 Introduction to Mechanisms of Disease

Prerequisites: ASCI 240 or equivalent, BIOC/BIOS/CHEM 831, VBMS/BIOS 841

Description: Offered odd-numbered calendar years. Designed for students of biological, animal, and veterinary sciences. Introduction to general pathology emphasizing etiology, pathogenesis, morphologic features, and fundamental alterations associated with the fundamental changes of disease.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: VBMS 975

VBMS 808 Functional Histology

Crosslisted with: BIOS 408, BIOS 808, VBMS 408

Prerequisites: BIOS 101 and 101L or LIFE 120 and 120L or BIOS 112; BIOS 213 or ASCI 240 or ASCI 340.

Description: Microscopic anatomy of the tissues and organs of major vertebrate species, including humans. Normal cellular arrangements of tissues and organs as related to their macroscopic anatomy and function, with reference to sub-cellular characteristics and biochemical processes. Functional relationships among cells, tissues, organs and organ systems, contributory to organismal well being. General introduction to pathological processes and principles underlying some diseases.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VBMS 811 Introduction to Veterinary Epidemiology

Prerequisites: Permission

Description: Offered summer semester of odd-numbered years. Introduction to concepts of epidemiology including definition and uses of epidemiology. Casual web theory of causation discussed and compared to the Henle-Koch postulates. Students use sampling methods to define population characteristics, detect disease and test hypotheses. Practical application of confidence, power, and sample size. Use of descriptive epidemiology to discuss population characteristics.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: VBMS 920; VBMS 921; VBMS 925

VBMS 820 Molecular Genetics

Crosslisted with: BIOS 420, BIOS 820, MBIO 420

Prerequisites: BIOS 206 and Senior standing

Description: Molecular basis of genetics. Gene structure and regulation, transposable elements, chromosome structure, DNA replication, and repair mechanisms and recombination.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: AGRO 963, HORT 963, PLPT 963; BIOS 945; BIOS 964, VBMS 964; FDST 908B

VBMS 824 Basic Molecular Infectious Diseases**Crosslisted with:** VBMS 424**Prerequisites:** BIOS 312.**Notes:** Offered spring semester of odd-numbered calendar years.**Description:** Introduction to the molecular, genetic and cellular aspects of microbial pathogenesis in humans and animals. Critical reviews of original scientific literature and development of manuscript and proposal writing.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Offered:** SPRING**VBMS 830 Veterinary Anatomy I****Crosslisted with:** VMED 630**Prerequisites:** For VBMS 830: none. For VMED 630: First year standing in the Professional Program in Veterinary Medicine**Description:** Comparative and topographic anatomy of the dog, cat, and pig.**Credit Hours:** 6**Max credits per semester:** 6**Max credits per degree:** 6**Format:** LEC**Prerequisite for:** VMED 631, VBMS 831**VBMS 831 Anatomy II****Crosslisted with:** VMED 631**Prerequisites:** VBMS 830**Description:** Gross anatomy of domestic ruminants, horses, and birds. An advanced course in detailed gross anatomy incorporating intensive dissection laboratory sessions and classroom lectures.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**VBMS 840 Microbial Physiology****Crosslisted with:** BIOS 440, BIOS 840, MBIO 440**Prerequisites:** BIOS 312; BIOS 313 or BIOS 314.**Description:** Molecular approaches to the study of prokaryotic cell structure and physiology, including growth, cell division, metabolism, and alternative microbial life styles.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 841 Pathogenic Microbiology****Crosslisted with:** BIOS 441, BIOS 841, VBMS 441, VBMS 441H**Prerequisites:** BIOS 312**Description:** Fundamental principles involved in host-microorganism interrelationships. Identification of pathogens, isolation, propagation, mode of transmission, pathogenicity, symptoms, treatment, prevention of disease, epidemiology, and methods of control.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** VBMS 805; VBMS 949**VBMS 841L Pathogenic Microbiology Laboratory****Crosslisted with:** VBMS 441L**Prerequisites:** BIOS 312.**Description:** Application of diagnostic microbiological techniques to the isolation, propagation and identification of common pathogens of human beings and animals. Case studies used, in the laboratory setting, to explore and test fundamentals of transmission, epidemiology and pathogenesis of selected infectious agents and to relate these to disease signs, treatments and methods of control.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LAB**VBMS 842 Endocrinology****Crosslisted with:** ASCI 442, ASCI 842, BIOS 442, BIOS 842**Prerequisites:** A course in vertebrate physiology and/or biochemistry.**Description:** Mammalian endocrine glands from the standpoint of their structure, their physiological function in relation to the organism, the chemical nature and mechanisms of action of their secretory products, and the nature of anomalies manifested with their dysfunction.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 843 Immunology****Crosslisted with:** BIOS 443, BIOS 843, MBIO 443**Prerequisites:** BIOS 206; CHEM 251 or CHEM 255 or CHEM 261.**Description:** Fundamental consideration of cellular and humoral mechanisms of immunity, the structure and function of immunoglobulins, antigen-antibody interactions; hypersensitivity; transplantation and tumor immunity; immune and autoimmune disorders.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BIOS 966, VBMS 966; VBMS 852; VBMS 908; VBMS 910; VBMS 948; VBMS 949**VBMS 845 Animal Physiology I****Crosslisted with:** VMED 645, ASCI 845**Prerequisites:** Undergraduate courses in biochemistry, biology and physiology.**Notes:** Primarily for students in animal or biological sciences or veterinary medicine.**Description:** Mammalian physiology and cellular mechanisms. Physiology of the cell, embryology, and neuro-sensory, neuromuscular, endocrine, and reproductive systems.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC

VBMS 846 Animal Physiology II**Crosslisted with:** VMED 646, ASCI 846**Prerequisites:** ASCI/VBMS 845 or BIOS 813**Notes:** ASCI/VBMS 846/BIOS 814/VMED 646 is designed for students in animal or biological sciences or veterinary medicine.**Description:** Mammalian physiology and cellular mechanisms. Physiology of the digestive, cardiovascular, respiratory, and renal systems.**Credit Hours:** 4**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**VBMS 847 Interdisciplinary Concepts in Beef Production****Crosslisted with:** ASCI 847**Prerequisites:** Degree in veterinary medicine or animal science, or allied agricultural degree**Notes:** Classroom attendance is required during each of the modules. Between modules distance education technologies (laptop computer, Internet access, a computer operating system with a word processor, spreadsheet, and presentation software, email, etc.) are used and required for discussion and assignments.**Description:** The contributions and interactions of the major academic disciplines upon the production, performance, health, profitability, and sustainability of beef cow and cattle feeding operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 6**Format:** LEC**VBMS 847A Interdisciplinary Concepts in Beef Production I****Crosslisted with:** ASCI 847A**Description:** The contributions and interactions of the major academic disciplines upon the production, performance, health, profitability, and sustainability of beef cow and cattle feeding operations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** ASCI 847B, VBMS 847B**VBMS 847B Interdisciplinary Concepts in Beef Production II****Crosslisted with:** ASCI 847B**Prerequisites:** VBMS 847A**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 848 Introduction to Veterinary Biotechnology****Prerequisites:** 12 hours of veterinary and biomedical sciences or DVM degree, or equivalent and permission**Description:** Information and assignments for VBMS 848 exchanged in the classroom and via Internet. Theoretical basis for emerging cellular, molecular and reproductive technologies, and their potential applications and impacts in the practice of food animal veterinary medicine.**Credit Hours:** 1-2**Min credits per semester:** 1**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**VBMS 852 Molecular Virology and Viral Pathogenesis****Prerequisites:** BIOS 843**Notes:** Offered even-numbered calendar years.**Description:** Introduction to virology with emphasis on molecular biology and pathogenesis. Concepts of virus replication strategies, virus-host interactions and virus pathogenesis.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** BIOS 950, VBMS 950; BIOS 966, VBMS 966; VBMS 949**VBMS 899 Masters Thesis****Prerequisites:** Admission to masters degree program and permission of major adviser**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 99**Format:** IND**VBMS 901 Diagnostic Techniques****Description:** Application of the principles of pathology to current problems in the diagnostic laboratory.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 10**Format:** LEC**VBMS 908 T Cell Biology: Repertoire and Effector Functions****Prerequisites:** BIOS 843**Notes:** Offered even-numbered calendar years.**Description:** Analysis of the literature of the cellular and molecular biology of T cell recognition and effector functions. Subject areas: Scientific Methodologies; Antigen Presentation; T Cell Receptor and Coreceptor; Thymic Structure and Self/Nonself Discrimination; T Cell Regulation; Allergy and Autoimmune Diseases; and T-Cell-Mediated Inflammation and Cytokine Network.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 909 Seminar****Credit Hours:** 1-4**Min credits per semester:** 1**Max credits per semester:** 4**Max credits per degree:** 4**Format:** LEC**VBMS 910 Topics in Immunology****Prerequisites:** VBMS 843 or BIOS 843**Description:** Basics of immunology; critical analysis of reports taken from scientific literature of immunology.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

VBMS 919 Regulation of Eukaryotic Gene Expression

Prerequisites: 1) BIOC 818 or 820; 2) BIOC 832; and 3) BIOC 838 or BIOS 837 or related laboratory experience

Notes: Offered even-numbered calendar years.

Description: Basic mechanisms regulating gene expression in eukaryotes during various physiological states. Emphasis on understanding specific and unique mechanisms in mammalian systems. Techniques used to study gene regulation.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VBMS 920 Measurement of Animal Disease and Production

Prerequisites: VBMS 811

Notes: Offered odd-numbered calendar years.

Description: Measurements of disease and production, the basic tenants of epidemiology, taught in detail including incidence density, risk rates, morbidity, mortality, cause specific rates, and life tables. Methods and implications of measuring disease at the farm, regional, and national levels. Sampling strategies and the impact of these on the standard error of the estimate. Implications and biases of using retrospective production data versus prospective data. Clinical epidemiology which includes definition of tests in veterinary medicine, individual and herd level sensitivity and specificity, receiver operating characteristics curves, positive and negative predictive values, serial and parallel interpretation of tests, Kappa statistics, and issues of precision, validity, and accuracy.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

Prerequisite for: VBMS 921; VBMS 925

VBMS 921 Analytic Observational Studies in Veterinary Epidemiology

Prerequisites: VBMS 811 and 920

Notes: Offered odd-numbered calendar years.

Description: Design, implementation, and analysis of cross-sectional, cohort, and case-control studies and field trials. Limitations, biases, implications of the results, and current uses of each. Evaluation of these methods as used in the scientific literature. Analyses includes chi-square tests, Cochran Chi-square tests, and epidemiologic measures of strength of association, effect, and total effect. Design, implementation, analysis and interpretation of field trials taught specifically as they relate to the practitioner.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VBMS 925 Critical Reading of the Epidemiology Literature

Prerequisites: VBMS 811 or 920; or permission

Notes: May be repeated for credit.

Description: Analysis of current epidemiology and animal health literature. Critical evaluation of study design, methods of analysis, biases, field applicability, and basis for conclusions.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 4

Format: LEC

VBMS 930 Advanced Food Animal Production Medicine

Prerequisites: Permission

Notes: Offered spring semester of even-numbered calendar years.

Description: Inter-relationships between animal health, disease, and well-being as they relate to the productivity and profitability of food animal production units. Integrates aspects of veterinary medicine, animal science, and agricultural economics. General concepts related to cattle, swine and sheep production systems, followed by specific issues that relate to different species.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VBMS 942 Genetics, Genomics, and Bioinformatics of Prokaryotes

Crosslisted with: BIOS 942

Description: Prokaryotic gene regulation, DNA exchange, DNA recombination and repair, comparative prokaryotic genomics and computer-based methods of analysis.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VBMS 944 Immunovirology

Prerequisites: Permission; organic chemistry; biochemistry; immunology and/or concepts in virology and virolopathogenesis

Description: Pathogenic microbiology recommended. Description of virus and immune system interactions, with emphasis on mouse and human models. Mechanism of antigen presentation of viral proteins and relationship to health and disease. Analysis of the hosts immune response to selected viral infections of the major systems: neural, respiratory, gastrointestinal and immune.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VBMS 948 Concepts in Experimental Immunology

Prerequisites: BIOS 843

Description: Recent advances in immunological techniques and review of conventional methods.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VBMS 949 Vaccinology

Prerequisites: VBMS/BIOS 841; BIOS 843, VBMS 843; VBMS/BIOS 852

Description: Analysis of the theory and mechanisms involved in the development of efficacious vaccines. Microbiological and immunological aspects as well as the manufacturing and regulatory aspects of vaccine development.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VBMS 950 Medical Molecular Virology**Crosslisted with:** BIOS 950**Prerequisites:** BIOS/CHEM/BIOC 431/831 and 432/832; VBMS 852**Notes:** Offered odd-numbered calendar years.**Description:** Current topics in molecular virology relevant to the natural history and pathogenesis of viral diseases of humans and animals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 951 Advanced Molecular Infectious Diseases****Prerequisites:** BIOC 832 or equivalent; 18 hours of biological, biomedical and/or veterinary sciences, including fundamental microbiology and genetics**Notes:** VBMS 824 and 843 or equivalent recommended. Offered spring semester of even-numbered years.**Description:** Molecular and cellular aspects of microbial pathogenesis. Key literature, synthesis of scientific problems into research proposals.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 964 Signal Transduction****Crosslisted with:** BIOS 964**Prerequisites:** BIOS 820.**Description:** Molecular basis of genetics in eukaryotes. Gene structure and regulation, transposable elements, chromosome structure, DNA replication and repair mechanisms and recombination.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 966 Advanced Viral Pathogenesis****Crosslisted with:** BIOS 966**Prerequisites:** BIOS 843; VBMS 852 or equivalent introductory course in virology or experience**Description:** Advanced analysis on the mechanisms of cell and tissue damage by viruses, the spread of viruses through the body, and the host response.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**VBMS 975 Seminar in Veterinary Histopathology****Prerequisites:** VBMS 805, or equivalent and permission**Notes:** May be repeated for credit.**Description:** Descriptive veterinary histopathology covering diseases of all body systems in animal species including domestic, laboratory, wildlife, birds, fishes, reptiles, and amphibians. Source material is worldwide in scope.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**VBMS 996 Research on Selected Problems in Veterinary Science****Credit Hours:** 2-10**Min credits per semester:** 2**Max credits per semester:** 10**Max credits per degree:** 10**Format:** IND**VBMS 998 Special Topics in Veterinary Science****Prerequisites:** Permission**Description:** The subject will be dependent on student demand and availability of staff. Reviews of specialized subject areas.**Credit Hours:** 1-10**Min credits per semester:** 1**Max credits per semester:** 10**Max credits per degree:** 10**Format:** LEC

Veterinary Medicine (VMED)

VMED 501 Veterinary Medicine Terminology**Prerequisites:** Must be admitted to the UNL-ISU Veterinary Medicine Program**Description:** Overview of medical terminology used by veterinarians.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**VMED 505 Principles in Population Medicine****Prerequisites:** Must be admitted to the UNL-ISU Veterinary Medicine Program.**Notes:** Students may be required to complete an off campus observation outside of regularly scheduled class times.**Description:** Prevention and control of disease in animal populations is a vital function of veterinary medicine. Familiar with population medicine concepts using a practical approach. While the primary focus is on population medicine as it applies to companion animal sheltering, the principles presented have broad application across several fields of practice including but not limited to large animal, zoo, wildlife, and research.**Credit Hours:** 1**Max credits per semester:** 1**Max credits per degree:** 1**Format:** LEC**Offered:** SPRING**VMED 511 Foundations of Veterinary Medicine****Prerequisites:** Must be admitted to the UNL-ISU Veterinary Medicine Program**Description:** Basic behavior, animal handling and restraint; medical record keeping; physical examination; and clinical cases.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** VMED 512**VMED 512 Foundations of Veterinary Medicine II****Prerequisites:** Must be admitted to the UNL-ISU Veterinary Medicine Program. VMED 511.**Description:** Animal welfare issues, clinical cases, animal handling and restraint.**Credit Hours:** 2**Max credits per semester:** 2**Max credits per degree:** 2**Format:** LEC**Prerequisite for:** VMED 513

VMED 513 Foundations of Veterinary Medicine III

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program. VMED 512.

Description: Ethical issues in veterinary medicine, clinical cases, animal handling and restraint.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: VMED 514

VMED 514 Foundations of Veterinary Medicine IV

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program. VMED 513.

Description: Ethical issues in veterinary medicine, clinical cases, animal handling and restraint.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VMED 521 Cattle Production Systems I

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Notes: Field trips to the Mead Facility will be made as necessary to complete certain objectives. Some field trips may be required on weekends.

Description: Overview of tools and methods veterinarians use to optimize productivity and improve financial success for beef cattle producers, including how to evaluate and monitor production/management strategies and how to integrate the many factors involved in decision making. Specific topics will include late winter feeding, managing cows for breeding, managing replacement heifers, estrus synchronization, artificial insemination, preparing for calving, handling newborn calves, herd genetics, bull selection, vaccines, parasite control, prebreeding health programs, branding, bull management, and marketing strategies.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Prerequisite for: VMED 522

VMED 522 Cattle Production Systems II

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program; Cattle Productions Systems I.

Notes: Field trips to the Mead Facility will be made as necessary to complete certain objectives. Some field trips may be required on weekends.

Description: Overview of tools and methods veterinarians use to optimize productivity and improve financial success for beef cattle producers, including how to evaluate and monitor production/management strategies and how to integrate the many factors involved in decision making. Specific topics will include pre-weaning processing, record analysis, data entry, reproductive management, pregnancy diagnosis, replacement heifer selection, weaning data, pregnancy diagnosis data, replacement heifer data, winter nutrition, and feedlots.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

VMED 531 Introduction to Animal Welfare

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: The objective of this course is to develop knowledge of the fundamental principles of animal welfare, in terms of science, ethics and cultural components.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

VMED 550 Nutritional Biochemistry

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets and horses under various physiological states. Understand fate of various nutrients in simple stomached animals, ruminants and cecal fermenters. Discuss clinical nutrition problems specific to each species.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VMED 583 Principles of Surgery I

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: General principles of surgery for and common surgical problems in animals.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Prerequisite for: VMED 589

VMED 584 Veterinary Clinical Pathology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Integration of hematology, clinical chemistry and cytology in mechanisms of disease.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 589 Anesthesiology and Small Animal Surgery

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program. VMED 583.

Description: Anesthetic equipment, agents and procedures for domestic animals. General principles of surgery of small/companion animal surgery.

Credit Hours: 5

Max credits per semester: 5

Max credits per degree: 5

Format: LEC

VMED 596 Special Topics in Veterinary Medicine

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Aspects of veterinary medicine not covered elsewhere in the curriculum presented as the need arises. Topic varies.

Credit Hours: 3.00

Max credits per semester: 3

Max credits per degree: 6

Format: LEC

VMED 596A Independent Study: Gross Systematic Pathology Lab

Prerequisites: Second year students in the Professional Program of Veterinary Medicine

Description: Evaluation, description and pathogenesis of gross pathologic images of most vertebrate species.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LAB

VMED 630 Veterinary Anatomy I

Crosslisted with: VBMS 830

Prerequisites: First year standing in the Professional Program in Veterinary Medicine

Description: Comparative and topographic anatomy of the dog, cat, and pig.

Credit Hours: 6

Max credits per semester: 6

Max credits per degree: 6

Format: LEC

Prerequisite for: VMED 631, VBMS 831

VMED 631 Anatomy II

Crosslisted with: VBMS 831

Prerequisites: VBMS 830

Description: Gross anatomy of domestic ruminants, horses, and birds. An advanced course in detailed gross anatomy incorporating intensive dissection laboratory sessions and classroom lectures.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 637 Veterinary Neuroanatomy

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Concepts of nervous system functioning, problem identification, and neurologic diseases.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VMED 642 Veterinary General, Cellular and Molecular Pathology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: General mechanisms of disease and lesion development in animals at the molecular, cellular, and organ levels. Topics include: introduction to pathology; basic terminology; overview of normal cell biology; cellular and tissue responses to injury; vascular disorders and thrombosis; acute inflammation; chronic inflammation and wound healing; diseases of immunity; neoplasia and tumor biology.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 645 Animal Physiology I

Crosslisted with: ASCI 845, VBMS 845

Prerequisites: First year standing in and admission to VMED.

Notes: Primarily for students in animal or biological sciences or veterinary medicine.

Description: Mammalian physiology and cellular mechanisms. Physiology of the cell, embryology, and neuro-sensory, neuromuscular, endocrine, and reproductive systems.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Offered: FALL

VMED 646 Animal Physiology II

Crosslisted with: ASCI 846, VBMS 846

Prerequisites: First year standing in and admission to VMED.

Notes: ASCI/VBMS 846/BIOS 814/VMED 646 is designed for students in animal or biological sciences or veterinary medicine.

Description: Mammalian physiology and cellular mechanisms. Physiology of the digestive, cardiovascular, respiratory, and renal systems.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

Offered: SPRING

VMED 650 Anatomical Radiology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: The study of normal radiographic anatomy of the dog and cat. Emphasis on patient positioning and proper selection of image modalities based on the anatomic area in question.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

VMED 654 Pharmacology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal and endocrine systems.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VMED 660 Veterinary Histology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Fundamental eukaryotic cell biology and early development, microscopic structure of basic cell types, tissues and organs of the body, following a system/apparatus approach.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 672 Veterinary Systemic Pathology I

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: The course will study the pathological changes that occur in the body and emphasize selected animal and zoonotic diseases or syndromes which occur with each system.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 673 Veterinary Systemic Pathology II

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program.

Notes: Continuation of VMED 672.

Description: Emphasis on disease process, immunopathology and pathogenesis and mechanisms of disease in domestic animals and select enzootic disease of wildlife and birds.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VMED 676 Veterinary Parasitology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Biology of parasites of major veterinary importance. The understanding required for control of parasitism.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

VMED 680 Veterinary Immunology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Principles and mechanisms underlying the immune system.

Credit Hours: 2

Max credits per semester: 2

Max credits per degree: 2

Format: LEC

VMED 686 Veterinary Microbiology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Bacteria and fungi of veterinary importance. Mechanisms of disease production and laboratory diagnostic methods.

Credit Hours: 5

Max credits per semester: 5

Max credits per degree: 5

Format: LEC

VMED 687 Veterinary Virology

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: The unique biological features of viruses in terms of their life cycle and tropism in their hosts.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

VMED 688 Veterinary Public Health

Prerequisites: Must be admitted to the UNL-ISU Veterinary Medicine Program

Description: Fundamentals of epidemiology, zoonotic diseases, occupational health, food safety, and other public health topics.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Water Science (WATS)

WATS 881 Stream and River Ecology

Crosslisted with: WATS 481, BIOS 481, NRES 481

Prerequisites: NRES 222 or equivalent.

Description: Fundamental physical drivers operating in stream and river ecosystems and how those vary in space and time. Major classes of organisms associated with stream ecosystems and their functional roles. Fundamental controls on biotic diversity in stream and river ecosystems and its variance. Major aspects of stream ecosystem function including energy flow and nutrient cycling. Ecosystem services provided by stream and river ecosystems and causes and consequences of human impacts on streams and rivers. Underlying principles of bioassessment and current methods of stream restoration.

Credit Hours: 4

Max credits per semester: 4

Max credits per degree: 4

Format: LEC

WATS 884 Water Resources Seminar

Crosslisted with: AGRO 484, GEOG 484, GEOL 484, NRES 484, WATS 484, NRES 884, AGRO 884, GEOG 884, GEOL 884

Description: Seminar on current water resources research and issues in Nebraska and the region.

Credit Hours: 1

Max credits per semester: 1

Max credits per degree: 1

Format: LEC

Women's and Gender Studies Program (WMNS)

WMNS 801K LGBTQ Drama and Popular Culture

Crosslisted with: ENGL 401K, ENGL 801K, WMNS 401K

Prerequisites: Junior standing.

Description: Overview of lesbian, gay, bisexual, transgender, and queer drama and popular culture.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

Groups: Literary and Cultural Studies

WMNS 802 Sexuality in Nineteenth and Twentieth Century America**Crosslisted with:** HIST 402, HIST 802, WMNS 402**Description:** Sexual practices and ideologies in American history from the 1800's to the present.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** United States or Canadian Hist**WMNS 810 Gender: An Anthropological Perspective****Crosslisted with:** ANTH 410, ANTH 810, WMNS 410**Prerequisites:** 6 hrs ANTH**Description:** Theoretical approaches to gender. Emphasis is placed on cross-cultural differences in gender socialization of as it pertains to sexual behavior, power within domestic and public spheres, and the impact of gender on individual aspirations.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Cultural Anthropology**WMNS 810A Body, Dress and Identity****Crosslisted with:** TMFD 410, TMFD 810, WMNS 410A**Prerequisites:** Senior standing; 3 hrs PSYC or SOCI; TMFD 123.**Description:** Theories and research findings about the social, cultural, and psychological aspects of clothing and appearance in relation to the self and others. Special emphasis will be placed on relationship(s) between the body, dress, and personal and social identities.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Prerequisite for:** TMFD 910**WMNS 814 Women's Literature****Crosslisted with:** ENGL 414, ENGL 814, WMNS 414**Prerequisites:** Junior standing.**Description:** A particular historical or other groups of literature by and about women, seen in their aesthetic and intellectual context.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**WMNS 814B Modern and Contemporary Women Writers****Crosslisted with:** ENGL 414B, ENGL 814B, WMNS 414B**Prerequisites:** Junior standing.**Description:** Selected women writers from the twentieth and twenty-first century.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Literary and Cultural Studies**WMNS 821 Psychology of Gender****Crosslisted with:** PSYC 421, PSYC 821, WMNS 421**Prerequisites:** 12 hrs PSYC.**Description:** Theory and research on the role of gender in human behavior and attitudes. Diverse theoretical positions on the development of gender and the biological, social, and cultural bases that influence the relationship between gender and a variety of areas of human experience (e.g., intelligence and achievement, emotion, relationships, sexuality, physical fitness, stress, and coping).**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**WMNS 840 Gender and Sexuality in the Ancient World****Crosslisted with:** CLAS 440, CLAS 840, WMNS 440**Description:** Ancient Greek and Roman evidence pertaining to the fields of women's studies, gender studies, and the study of sexuality.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**WMNS 841 Seminar in U.S. Women's and Gender History****Crosslisted with:** HIST 441, HIST 841, WMNS 441**Description:** In-depth, advanced thematic seminar that cultivates historical research and writing skills.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** United States or Canadian Hist**WMNS 845 Gender Economics and Social Provisioning****Crosslisted with:** ECON 445, ECON 845, WMNS 445**Prerequisites:** ECON 211 or ECON 212.**Description:** Introduction to the field of feminist economics. Critiques of economic theory and methodology along with gender and household decision-making, the care economy, international migration, development, globalization, the feminization of labor markets, and macroeconomics.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** General Economics and Theory**WMNS 847 Working with Gay, Lesbian, Bisexual and Transgender (GLBT) Youth in Professional Context****Crosslisted with:** CYAF 847, CYAF 447, WMNS 447**Description:** Contextual considerations and research-informed guidelines for working with Gay, Lesbian, Bisexual, and Transgender (GLBT) youth in professional settings such as education, mental health, medical, and community outreach. The systemic context of GLBT youth, including developmental transitions, unique stressors, peer relationships, familial environments, and ways to help GLBT youth thrive**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC

WMNS 859 Women and Gender in African Societies**Crosslisted with:** HIST 459, HIST 859, ETHN 459, WMNS 459**Description:** Explores how the contemporary women's movement has emerged within Africa and its relationship to social change.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**WMNS 875A Rhetorical Theory: Rhetoric of Women Writers****Crosslisted with:** ENGL 475A, ENGL 875A, WMNS 475A**Prerequisites:** Junior standing.**Description:** Rhetoric and rhetorical theory of women writers and speakers and its implications for literature, composition, literacy, feminist theory, and women's and gender studies.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Writing,Rhetoric,Culture**WMNS 876A Gender and Sexuality in Latin America****Crosslisted with:** HIST 476A, ETHN 476A, WMNS 476A, HIST 876A**Prerequisites:** Junior standing.**Description:** Experience of femininity and masculinity compared according to time and place, revealing the intimate connections with nation, modernity, race, and ethnicity.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**Groups:** Lat Am,Asian,Middle East Hist**WMNS 877 Gender and Material Culture****Crosslisted with:** TMTD 477, TMTD 877, WMNS 477, ANTH 467, ANTH 867**Prerequisites:** Junior Standing; 3 hours in any of the following areas: ANTH, SOCI, HIST, AHIS, TMTD or WMNS.**Description:** In depth analysis of the relationship between material culture and gender roles, categories, and performances. Engages with theoretical frameworks for material culture and gender, as well as topics such as the body, clothing, the built environment, technology and media.**Credit Hours:** 3**Max credits per semester:** 3**Max credits per degree:** 3**Format:** LEC**WMNS 885 Feminist Theories, Feminists' Perspectives****Crosslisted with:** WMNS 485**Prerequisites:** WMNS major or minor.**Description:** Introduction to feminist and gender theory. WMNS 951 History of Women and Gender

Crosslisted with: HIST 951

Description: A comparative approach, offering readings on a central theme from a variety of periods and/or areas. Themes vary.

Credit Hours: 3

Max credits per semester: 3

Max credits per degree: 3

Format: LEC

GRADUATE STUDIES POLICIES

This section of the catalog covers policy specific to Graduate Studies.

Any questions about these policies should be directed to Graduate Studies (<http://www.unl.edu/gradstudies/contact>).

It is the responsibility of the student to be familiar with the information in this catalog and on the Graduate Studies website (<http://www.unl.edu/gradstudies>), **and to know and observe all regulations and procedures relating to the program he or she is pursuing.** In no case will a regulation be waived or an exception granted because a student pleads ignorance of, or contends that he or she was not informed of, the regulations or procedures. A student planning to graduate should be familiar with the dates relating to application for graduation and other pertinent deadlines.

The University of Nebraska–Lincoln expressly reserves the right to: add or delete courses from its offerings and to change times or locations; change academic calendars without notice; cancel any course for insufficient registrations; modify, consolidate, or delete any program; and revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other regulation affecting students including, but not limited to, evaluation standards, whenever considered necessary or desirable.

Graduate Policy Contents

General (p. 494)

- Conduct, Academic Integrity, and Related Policy (p. 494)
- Governance (p. 495)
- Guidelines for Good Practice in Graduate Education (p. 495)

Admission (p. 498)

- Admission Categories (p. 499)
- Admission into Concurrent or Combined Programs (p. 499)
- Admission of Faculty and Staff (p. 500)
- Admission of International Students (p. 500)

Registration, Credit, and Grades (p. 501)

- Registration Requirements (p. 505)
- Tuition and Fees (p. 506)
- Academic Leave of Absence (p. 502)
- Graduate Credit (p. 504)
- Grades and Incompletes (p. 503)

Academic Program Requirements (p. 507)

- Majors, Minors, and More (p. 507)
- Doctoral Degrees (p. 508)
- Master's Degrees (p. 511)
- Educational Specialist Degree (p. 513)
- Certificate Programs (p. 513)
- Probation and Termination (p. 514)

Funding (p. 515)

- Assistantships (p. 515)
- Fellowships (p. 516)
- Loans and Need-Based Funding (p. 517)

Faculty (p. 517)

- Graduate Faculty and Associates (p. 517)
- Graduate Lecturers (p. 517)

General

Graduate Studies

In this section:

- Conduct, Academic Integrity, and Related Policy (p. 494) covers the Student Code of Conduct, academic integrity, professional conduct, nondiscrimination, sexual harassment, and student privacy.
- Governance (p. 495) covers the administration of Graduate Studies within UNL and NU.
- Guidelines for Good Practice in Graduate Education (p. 495) provides guidance for faculty and graduate students in the areas of professionalism and ethics, teaching, research, and advising and mentoring.

Conduct, Academic Integrity, and Related Policy

Graduate Studies

Student Code of Conduct

It is the responsibility of each student to understand and adhere to the Student Code of Conduct (<http://stuafs.unl.edu/dos/code>) at all times.

All graduate students are expected to conduct themselves in a professional, respectful manner in all aspects of their graduate education and in all interactions with peers, faculty, staff, and other members of the academic community.

Academic Integrity

Academic integrity is a universal principle in the scholarly community, fundamental to the work graduate students do as researchers, teachers, and students. The Student Code of Conduct (<http://stuafs.unl.edu/dos/code>) outlines the University's expectations regarding academic integrity and an Academic Integrity (<http://www.unl.edu/gradstudies/current/integrity>) page provides additional information. Graduate students are expected to know, understand, and comply with the Code and the university's policies on academic integrity, and act at all times with unwavering integrity.

Academic misconduct, when discovered, has serious consequences. In accordance with the established procedures as described in the Code, students who commit acts of academic dishonesty are subject to disciplinary action. These students are granted due process and the right to appeal any decision. Questions regarding procedures for incidents of academic dishonesty may be directed to the Dean for Graduate Studies.

Professional Conduct

Approved by the UNL Graduate Council, November 2015.

Graduate education must take place in an environment in which free expression, free inquiry, intellectual honesty, and respect for the rights and dignity of others can be expected. Ethical standards of conduct

should help ensure, not compromise, these features of the university environment.

All graduate students are expected to maintain the highest standards of academic and professional conduct in all aspects of their training and in all interactions with peers, faculty, staff, and other members of the academic community. Any failure to do so may be grounds for being placed on probation and/or dismissal.

Professional conduct violations consist of behavior that is inconsistent with the ethical standards in the professional roles for which the student is being trained that are not covered by policies governing academic integrity. This may include the student's performance in the role of researcher or scholar, teacher or mentor, supervisor, service#provider or colleague. Of particular note in this regard are behaviors that make the workplace hostile for colleagues, supervisors or subordinates (e.g., undergraduate students).

Graduate students are expected to adhere to ethical standards in a variety of work settings (e.g., offices, classrooms, clinics, and laboratories) within the explicit standards set by university policies. Being physically or verbally threatening, disruptive, abusive or hostile can make the workplace so unsafe or unpleasant that others cannot do their work.

Nondiscrimination

In accordance with UNL's Notice of Nondiscrimination (<http://www.unl.edu/equity/notice-nondiscrimination>): UNL is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. UNL is dedicated to creating an environment where everyone feels valued, respected and included. UNL does not discriminate on the basis of race, ethnicity, color, national origin, sex (including pregnancy), religion, age, disability, sexual orientation, gender identity, genetic information, veteran's status, marital status, and/or political affiliation in its programs, activities and employment. UNL complies with all local, state and federal laws prohibiting discrimination, including Title IX, which prohibits discrimination on the basis of sex.

The following persons have been designated to handle inquiries regarding non-discrimination policies:

- Title IX or Discrimination Inquiries: Institutional Equity and Compliance (<http://www.unl.edu/equity>)
- Disability or Discrimination Inquiries: Christy Horn (http://webapp.nebraska.edu/4in1/show_info.aspx?i=16558310), ADA/504 Compliance Officer

Sexual Harassment

The University of Nebraska-Lincoln reaffirms that all women and men — administrators, faculty, staff, and students — are to be treated fairly and equally with dignity and respect. Any form of sexual harassment is prohibited.

Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of sexual nature when:

- submission to such conduct is made either explicitly or implicitly a term of condition of an individual's employment or academic standing;
- submission to, or rejection of, such conduct by an individual is used as the basis for employment decisions or academic decisions affecting such individual, or

- such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive working/academic environment.

Sexual harassment will not be condoned during the work or school day, nor will acts of sexual harassment be permitted outside the work or school environment if such acts affect the normal work environment or student/teacher relationship. UNL provides grievance procedures for violations of this policy. For further information, contact Institutional Equity and Compliance (<http://www.unl.edu/equity>).

Appropriate corrective action will be taken in those instances where the foregoing policies have been violated. Any student or employee who is found to have violated any of the aforementioned policies will be subject to disciplinary action.

Student Privacy

Overseen by the Office of the University Registrar, directory information will be available to the public upon request and may be included in student directories published electronically and/or in hard copy. Students have the right to have directory information withheld from the public. See Directory Information (<http://registrar.unl.edu/directory-information>) for details on which pieces of data are included and how to manage your privacy settings.

Beyond public directory information, the Family Educational Rights and Privacy Act (FERPA) (<http://ferpa.unl.edu>) governs the release of student information.

Governance

Graduate Studies

Graduate studies at UNL are organized and conducted according to the rules and bylaws of the Graduate College of the University of Nebraska. The **UNL Dean for Graduate Studies** is responsible for coordinating and administering graduate-level programs and policies at the University of Nebraska-Lincoln. This Dean also maintains a close liaison relationship with the **Executive Dean of the Graduate College of the University of Nebraska**.

The governance of graduate programs that are principally lodged at UNL is by and through the graduate program committees and the **UNL Graduate Council**, in accordance with the policies and regulations of the University-wide Graduate College. The UNL Graduate Council serves as an advisory body to the Dean for Graduate Studies. The Council is composed of eight Graduate Faculty and two graduate students from the University of Nebraska-Lincoln.

Guidelines for Good Practice in Graduate Education

Graduate Studies

Intro

For Faculty and Graduate Students

Graduate programs help to advance human knowledge, educate professionals, and resolve problems to address societal needs. Graduate faculty and graduate students have a joint responsibility to accomplish these goals. Each graduate student should develop an understanding of and capacity for scholarship, independent judgment, academic rigor, and

intellectual honesty. Faculty and students must work together to create an atmosphere that ensures freedom of inquiry, fosters mutual respect, and demonstrates professional integrity.

Good practice in graduate education centers on responsible interactions between graduate students and graduate faculty, supported by college and department staff. The following guidelines are based on the collective experience and wisdom of the major research universities. These guidelines are intended to be constructive and instructive to faculty and graduate students; as such, they do not constitute statements of institutional policy or requirements.

Each category below provides information for students and faculty members on their individual roles and responsibilities.

Professionalism and Ethics

High quality graduate education depends upon the professional and ethical conduct of the participants. Faculty members and graduate students have complementary responsibilities in the maintenance of academic standards and the creation of high quality graduate programs. Excellence in graduate education is achieved when both faculty and students are highly motivated, possess the academic and professional backgrounds necessary to perform at the highest level, and are sincere in their desire to see each other succeed.

Graduate Student Role

- Take primary responsibility to inform themselves of the specific policies and procedures governing their graduate studies (p. 494) at the University of Nebraska-Lincoln.
- Interact with faculty, staff and other students in a mature, professional, and civil manner in accordance with University policies.
- Conduct the whole of one's academic career with unwavering integrity.
- Talk with a trusted faculty member if there are concerns about integrity and ethics.
- Work with diverse faculty and peers regardless of their race, gender, religion, sexual orientation, or national origin.
- Exercise the highest integrity in taking examinations and in collecting, analyzing, and presenting research data.
- Participate in university, departmental, or program governance as a component of professional development.
- Participate in discipline-based activities, such as seminars and conferences, as a component of professional development.
- Manage time effectively for maximum professional development as well as personal health and well being, balancing competing demands such as being a student, a graduate assistant, a parent, a spouse, a caregiver, etc.
- Recognize that faculty and staff have many other professional responsibilities in addition to graduate education.

Faculty Role

- Inform themselves of the specific policies and procedures governing graduate studies (p. 494) at the University of Nebraska-Lincoln.
- Create an environment of the highest ethical standards and insist that students behave ethically in all their professional activities.
- Interact with students in a professional and civil manner in accordance with the University policies and relevant laws.

- Ensure a reasonable degree of confidentiality in communicating with students, taking care not to discuss a student's performance, research results, or behavior with other students.
- Impartially evaluate student performance regardless of religion, race, gender, sexual orientation, nationality, or other criteria that are not germane to academic evaluation.
- Serve on graduate student committees without regard to the religion, race, gender, sexual orientation, or nationality of the graduate student candidate.
- Prevent personal rivalries with colleagues from interfering with their duties as graduate advisors, committee members, or colleagues.
- Excuse themselves from serving as advisors on graduate committees or supervising assistantship work when there is a familial or other relationship between the faculty member and the student that could result in a conflict of interest.
- Not impede a graduate student's progress and completion of his/her degree in order to benefit from the student's proficiency as a teaching or research assistant.
- Encourage students to learn creatively and independently respect the academic freedom of students to express opinions that may differ from those of faculty.
- Provide oral or written comments and evaluation of students' work in a timely manner.
- Discuss laboratory and/or departmental authorship policy with graduate students before entering into collaborative projects.
- Ensure an absence of coercion with regard to the participation of graduate students as human research subjects in the faculty advisor's research.
- Refrain from requesting students to do tasks unrelated to their academic or professional development for the personal advantage of a faculty member.
- Familiarize themselves with policies that affect their graduate students.

Teaching

No matter what career a graduate student enters after degree completion, experience in teaching will be useful; presentations, evaluation and assessment, leading discussions, and the like, are activities that take place not only in the academy, but in a wide range of business, industrial, and government settings. Teaching includes interactions with students about instructional issues, such as holding office hours, reviewing tests or paper scores/evaluations with students, answering questions in special teaching centers in the discipline, tutoring, conducting labs, leading discussions, assisting students to solve problem sets, commenting on studio work, lecturing, or mentoring undergraduate researchers. Graduate students and faculty should work together to enhance student learning and promote the professional development of the graduate teaching assistant.

Graduate Student Role

- Work cooperatively with supervising faculty and other teaching assistants to accomplish the tasks set out by the TA assignment.
- Give adequate attention to the teaching role by conscientious efforts in planning, preparing, and implementing TA assignments.
- Achieve an appropriate balance between teaching responsibilities and other essential activities

- Take advantage of orientation and training opportunities offered as professional development; use the library and other services provided by Graduate Studies on teaching and learning.
- Proactively seek varied teaching opportunities.
- Engage in reflective evaluation of teaching activities.

Faculty Role

- Provide adequate training for teaching assistants appropriate for the responsibilities they will assume; in some cases training may be available through campus-wide or department training programs.
- Provide appropriate communication with and mentorship for teaching assistants to enhance their professional development and to ensure the quality of student learning.
- Develop a clear understanding with graduate students about their specific TA responsibilities, including division of authority and labor, expectations for performance, and the like.
- Observe the student's teaching to provide feedback on, and assistance for, current activities and recommendations for the student's future employment.
- Identify appropriate departmental and campus resources to assist graduate students in their professional development as teaching scholars.
- Foster opportunities for students to attain teaching competence.

Research

A student's academic performance and a faculty member's scholarly interest may coincide during the course of instruction and research/creative activity/performance. As the faculty-graduate student relationship matures and intensifies, direct collaborations may involve the sharing of authorship or rights to intellectual property developed in research or other creative activity. Such collaborations are encouraged and are a desired outcome of the mentoring process.

Graduate Student Role

- Learn the research methods, ethical dimensions, and historical knowledge bases of the discipline.
- Abide by the University's policy on research misconduct. This policy applies to researchers in all disciplines.
- Recognize that the faculty advisor, in nearly every case, will determine when a body of work is ready for publication and what is an acceptable venue, since the faculty advisor bears responsibility for overseeing students' performance and ensuring the validity of the research.
- Recognize that the faculty advisor provides the intellectual and instructional environment in which the student conducts research, and may, through access to teaching and research funds, also provide the student with financial support.
- Maintain absolute integrity in collecting, analyzing, and presenting research data.
- Preserve the data collected during experiments or noted during research (with precise identification of sources) to avoid future confusion or disputes about access or ownership.
- Acknowledging the contributions of the faculty advisor and other members of the research team to the student's work in all publications and conference presentations. (It is also appropriate to acknowledge the sources of financial support).
- Expect that their research results, with appropriate recognition, may be incorporated into progress reports, summary documents,

applications for continuation of funding, and similar documents authored by the faculty advisor, to the extent that the student's research is related to the faculty's research program and the grants which support that research.

- Recognize that the faculty advisor is responsible for monitoring the accuracy, validity, and integrity of the student's research. Careful, well-conceived research reflects favorably on the student, the faculty advisor, and the University of Nebraska.
- Maintain the confidentiality of the faculty advisor's professional activities and research prior to presentation or publication, in accordance with existing practices and policies of the discipline.

Faculty Role

- Provide students with knowledge of the current frontiers and opportunities in disciplinary and inter- or cross-disciplinary research.
- Clarify expectations for specific research responsibilities, including time lines for completion of research and the thesis or dissertation.
- Provide appropriate guidelines, including expected timetables, for completion of research projects, and respect students' research interests/goals.
- Acknowledge student contributions to research presented at conferences, in professional publications, or in applications for copyrights and patents
- Openly discuss authorship and intellectual property policies with graduate students.

Advising and Mentoring

The relationship between the graduate student and their graduate faculty supervisor is central to excellent graduate education. Graduate students develop best in a closely monitored environment in which the faculty provide both high expectations and high support.

Graduate student progress toward educational goals at the University of Nebraska is directed and evaluated by a graduate faculty advisor, the relevant graduate committee, and the student's supervisory committee. The advisor and the individuals on the committee provide intellectual guidance in support of the scholarly/creative activities of graduate students. The advisor, the supervisory committee, and the graduate committee also are charged with the responsibility of evaluating a graduate student's performance in scholarly/creative activities. The graduate student, the advisor, the supervisory committee, and the graduate committee comprise the basic unit of graduate education at UNL. It is the quality, breadth, and depth of interaction within this unit that largely determines the outcome of the graduate experience.

Graduate Student Role

- Devote an appropriate amount of time and energy toward achieving academic excellence and earning the advanced degree.
- Recognize time constraints and other demands imposed on faculty members and program staff.
- Initiate regular communications with faculty advisors, especially in matters related to research and progress within the graduate program.

Faculty Role

- Provide clear maps of the requirements each student must meet, including course work, languages, research tools, examinations, and thesis or dissertation, and delineate the amount of time expected to complete each step. A graduate student handbook, including written

documentation of departmental policies, program requirements and expectations for satisfactory performance can serve this purpose.

- Evaluate student progress and performance in regular and informative ways consistent with the practice of the field; offer fair opportunities for students to correct deficiencies in their work.
- Set aside adequate time to meet with students.
- Help students develop artistic, interpretive, writing, oral, and quantitative skills, in accordance with the expectations of the discipline.
- Assist graduate students in the development of grant writing skills, where appropriate.
- Take reasonable measures to ensure that each graduate student initiates a thesis or dissertation research in a timely manner.
- When appropriate, encourage graduate students to participate in professional meetings or perform or display their work in public settings.
- Create an ethos of collegiality so that learning takes place within a community of scholars.
- Provide a realistic view of the field and the current job market and make use of professional contacts for the benefit of their students, as appropriate.

Source

This is an updated version of the *Guidelines for Good Practice in Graduate Education* approved for distribution by the UNL Graduate Council in 1997. We gratefully acknowledge the earlier work of the of the following institutions: the Graduate College and Graduate Council at the University of Arizona; the Office of Graduate Studies at the University of California at Davis; the Office of Graduate Studies at the University of Southern California; the Graduate School at North Carolina State University and the Graduate Council at the University of Oregon. These guidelines are intended to be constructive and instructive to faculty and graduate students. They do not constitute a contract with current or prospective students.

Admission

Graduate Studies

INTERESTED IN APPLYING FOR ADMISSION?

If so, this policy handbook probably isn't what you want. Instead, check out our Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section for Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>), Steps to Admission (<http://www.unl.edu/gradstudies/prospective/steps>), and more.

Prospective students apply for admission using the Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section of the main Graduate Studies site; most do so without needing to consult this catalog for policy details.

Eligibility

The Graduate College (UNL Graduate Studies) is open to graduates of all colleges of this University and to graduates of other universities and colleges of recognized standing whose requirements for graduation are substantially the same as those in the corresponding colleges of this University. Students are selected on the basis of academic preparation, ability, and the availability of space in the desired academic program. *The University of Nebraska is a public university committed to providing a quality education to a diverse student body, and the University's*

nondiscrimination policy (<https://catalog.unl.edu/graduate-professional/graduate/admission/%20graduate-professional/graduate/general/conduct/#nondisc>) is applicable to all University activities, including admissions.

Applicants must hold a **baccalaureate or higher degree** from an institution that is regionally **accredited**, an institution that is accredited by an organization recognized by the Council on Higher Education Accreditation (CHEA), or from an accredited foreign institution that is recognized by Graduate Studies.

Special groups:

- International Students (p. 500)
- Faculty Seeking Additional Degree (p. 500)

Persons who have been **dismissed** from another institution for academic dishonesty or violations of student codes of conduct are not eligible for admission to UNL Graduate Studies.

Procedure and Materials

All materials submitted become the **permanent property** of Graduate Studies and will not be photocopied for individual use, returned, or forwarded to other agencies.

Information given falsely or withheld will affect the decision on an application and may make the applicant ineligible for admission and/or enrollment.

Most students apply and enroll toward just one graduate degree program at a time. It is possible, however, to **apply to two programs** simultaneously. To do so, treat each application as a completely separate entity, supplying for each an application, application fee, and any departmental materials. If accepted by both programs the applicant must select one program to enter, unless admission is for a double-major or dual-degree (p. 499) program. When an enrolled student plans to pursue a new program upon completion of another, it is advisable to apply for admission to the new program early in the academic year in which one plans to graduate.

Change of program: A graduate student, formerly or currently enrolled, who wishes to pursue a degree objective other than the one originally sought, must initiate a formal application for the new program by filing a new graduate application form, supplementing existing records, and fulfilling any departmental requirements prior to review by the departmental Graduate Committee and the College.

Admission Decisions

Acceptance for admission to a program leading to a master's degree, a doctoral degree, an educational specialist degree or a certificate is determined by the Graduate Committee within the academic unit and the Dean for Graduate Studies. This decision is based upon the applicant's record, experience, personal qualifications, and proposed area of study.

Departmental or area Graduate Committees make recommendations on all degree applications, but the final admission decision is the responsibility of the Dean for Graduate Studies. Notification of acceptance by a department Graduate Committee or faculty member is advisory only. Admission is granted solely by Graduate Studies and is confirmed by the issuance of a **Certificate of Admission**.

Academic departments will notify applicants concerning awards of financial assistance.

Negative admission decisions are not appealable.

Entry (Initial Enrollment)

Entry into UNL Graduate Studies is valid for the **specific semester indicated on the Certificate of Admission**.

US Military Veterans: All men and women who plan to attend the University and will be affected by the educational assistance and vocational rehabilitation laws administered by the Veterans Administration should inquire at the Office of the University Registrar (<http://registrar.unl.edu>) before registering for classes. See also: Veterans Resources (<http://registrar.unl.edu/veterans-resources>).

A newly admitted student may **defer enrollment** for a maximum of two terms if he or she meets certain Graduate College requirements and if the department in which graduate study would be pursued consents to the delay. Any funding offered for the original entry term is not guaranteed for the later entry term. Graduate Studies retains the right to revoke the earlier admission on the basis of new information or limited resources. International students who wish to delay their enrollment may be required to provide updated financial information for a new I-20 or DS-2019 immigration form.

Admitted students who neither defer nor enroll must reapply.

Admission Categories

Graduate Studies

INTERESTED IN APPLYING FOR ADMISSION?

If so, this policy handbook probably isn't what you want. Instead, check out our Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section for Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>), Steps to Admission (<http://www.unl.edu/gradstudies/prospective/steps>), and more.

Graduate students may be admitted into one of the following categories.

Degree or Graduate Certificate

Admission to the Graduate College as a degree-seeking or graduate-certificate-seeking student requires application to both Graduate Studies and the Graduate Committee within an academic unit. Applicants must submit an application, application fee, and one official transcript from all post-secondary schools attended, and fulfill any additional requirements the department specifies such as statement of goals, test scores, portfolios, etc. Requirements specific to each program are listed in Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>).

A current student who wishes to change to a different program should consult the Master's Specialist (<http://www.unl.edu/gradstudies/current/degrees/masters>) or Doctoral Specialist (<http://www.unl.edu/gradstudies/current/degrees/doctoral>); in some cases a new application is not necessary.

Non-Degree

Non-degree, post-baccalaureate admission to the Graduate College is completed through Graduate Studies. Applicants are reviewed for minimum standards upon receipt of an application, application fee and

one official transcript showing conferral of a baccalaureate or higher degree.

Special Categories and Objectives

- Students seeking another undergraduate degree should contact Undergraduate Admissions for advising and assistance.
- Students seeking a non-degree admission for an initial teacher certification, renewal of a teacher certification, or additional teaching endorsements should refer to the College of Education and Human Sciences' Teacher Certification and Renewal (<http://cehs.unl.edu/cehs/applying-your-teaching-certificate>).

Limitations

- Non-degree admission carries no guarantee of future admission to a degree program, nor does it guarantee that coursework completed as a non-degree student can later be applied toward a degree.
- Non-degree admission does not qualify students for assistantships or fellowships. Financial aid (<http://financialaid.unl.edu>) in the form of student loans is limited to those taking only undergraduate hours as prerequisites for admission to a specific graduate or professional program.
- Non-degree admission is not available to international students on F-1 student visas.

Changing From Non-Degree to Degree Status

It is imperative that any non-degree student who expects to later enter a degree program consult that program's academic department about the limitations on credit hours that may be completed prior to entry into the program. To enter a degree program, the student must apply to it through Graduate Studies and be recommended for admission by the degree program's Graduate Committee prior to completing half the hours required by the program. **There is no guarantee that credits earned as a non-degree student will be applied toward a graduate degree.** Some graduate-level hours completed by non-degree students prior to degree program enrollment may be included in a plan of study at the discretion of the major and/or minor department and with the approval of the Dean for Graduate Studies.

Visiting and Intercampus

Visiting From Outside NU

Admission is available to applicants who are actively pursuing graduate studies at U.S. institutions other than the University of Nebraska campuses, and requires submission of an application, application fee, and letter of good standing from the home institution. Enrollment is limited to two consecutive terms (semesters and/or full summer enrollment).

Intercampus Within NU

Students already attending one NU campus (UNL, UNK, UNMC, or UNO) may take a few courses at another NU campus while retaining their admission at their degree-objective (home) campus by submitting the Request for Intercampus Enrollment (<http://go.unl.edu/intercampus>), subject to approval by both campuses.

Admission into Concurrent or Combined Programs

Graduate Studies

INTERESTED IN APPLYING FOR ADMISSION?

If so, this policy handbook probably isn't what you want. Instead, check out our Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section for Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>), Steps to Admission (<http://www.unl.edu/gradstudies/prospective/steps>), and more.

See Majors, Minors, and More: Concurrent or Combined Programs (p. 507) for definitions and additional policies pertaining to Double Major, Dual Degree, and Joint Degree.

Admission to a Double Major

The professional and scholastic goals of some graduate students may be enhanced substantially by acquiring more knowledge than is provided by earning a minor. They can do this by studying in a second field as a double major.

1. **Applying to Two Majors at Once:** New applicants submit one application for each major program and only one application fee, and specify in the form's comment section that they are seeking a double major.
 - The applicant completes each program's application requirements, and each program's graduate committee reviews the application.
 - A decision by one graduate committee does not affect the decision of the other; criteria for acceptance may differ.
 - Acceptance to one or both does not guarantee admission for a double-major degree. Final approval rests with the Dean for Graduate Studies.
2. **Adding a Second Major to a Degree in Progress:** If a student currently in a degree program decides to pursue a second major, a new application is required for the second major.
 - The student declares the intent to add a second major (rather than switch majors) in the form's comment section.
 - The new application is subject to approval by the original major's graduate committee prior to review by the second major's committee.

Admission to a Dual Degree

To be a degree-seeking graduate student in more than one UNL degree program, a student must apply separately to both programs and receive admission to both programs, with the approval of graduate chairs for both programs and the Dean for Graduate Studies.

When a student has received admission for two master's programs, the same course credit will not be accepted for more than one degree without prior approval of the Graduate Program Committees through which the programs are administratively assigned and the Dean for Graduate Studies.

See Majors, Minors, and More (<https://catalog.unl.edu/graduate-professional/graduate/admission/dual-double-joint/%20graduate-professional/graduate/degrees/majors>) for a list of established dual degree programs. See program summaries (<http://www.unl.edu/gradstudies/prospective/programs>) for application instructions and departmental contacts.

Admission of Faculty and Staff

Graduate Studies

INTERESTED IN APPLYING FOR ADMISSION?

If so, this policy handbook probably isn't what you want. Instead, check out our Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section for Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>), Steps to Admission (<http://www.unl.edu/gradstudies/prospective/steps>), and more.

Faculty

Faculty Seeking Additional Degree

A member of the faculty in an instructional department who holds the rank or equivalent rank of assistant professor or above, or who holds an appointment for a specific term, or a member of the administrative staff holding the rank of assistant professor or above, may pursue a graduate degree at NU only after receiving special permission from the cognizant academic dean or administrative supervisor and from the campus Graduate Council responsible for the program which the faculty member wishes to pursue.

The degree cannot be in the faculty member's own department or in a closely-related department or area. Whether it is **too closely related** shall be determined by the Dean for Graduate Studies of the campus involved, in consultation with the Graduate Committees of the two departments or areas. Permission may be granted to pursue a degree in the equivalent department on another NU campus.

Graduate Faculty will have that status suspended upon receiving permission to pursue an advanced degree in the Graduate College.

- With **permission** from the appropriate campus Dean for Graduate Studies and Graduate Committee, they are eligible to continue to teach graduate courses, supervise graduate students at a level commensurate with their former rank in the Graduate Faculty, and serve on graduate supervisory and examining committees.
- Upon completing or withdrawing from an advanced degree program, the original Graduate Faculty status shall be **reinstated** upon recommendation by at least two-thirds of the Graduate Faculty of the department or area if the person returns to the same department in which they held an appointment originally. A change of appointment to another department requires that the person follow the established procedure for obtaining Graduate Faculty status.

Faculty Non-Degree Admission

Members of the university community employed on a permanent full-time basis and holding the rank of Assistant Professor or above may be admitted on a non-degree basis to take courses for personal and professional growth by supplying an Application for Graduate Admission and the application fee.

Staff

All other University staff members are eligible for admission to all graduate admission categories and are subject to standard admission requirements.

Admission of International Students

Graduate Studies

INTERESTED IN APPLYING FOR ADMISSION?

If so, this policy handbook probably isn't what you want. Instead, check out our Prospective Students (<http://www.unl.edu/gradstudies/prospective>) section for Programs Offered (<http://www.unl.edu/>)

gradstudies/prospective/programs), Steps to Admission (<http://www.unl.edu/gradstudies/prospective/steps>), and more.

The University of Nebraska-Lincoln welcomes students from all countries as part of the student body and Graduate Studies encourages applications from qualified students throughout the world.

Eligibility

It is recognized that educational systems in other countries differ from that of the United States. Comparability of international course work and degrees will be determined by departmental Graduate Committees and by Graduate Studies. Generally, a four-year first university degree from an academic institution outside the U.S. will be accepted as comparable to the U.S. bachelor's degree (<http://www.unl.edu/gradstudies/prospective/international/degrees>) if the degree grants eligibility for graduate study at institutions within the same country.

How and When to Apply

Application materials from international students must include uploaded copies of all college- or university-level transcripts or mark sheets (<http://www.unl.edu/gradstudies/prospective/international/transcripts>) (records of courses and marks earned), with certificates, diplomas, and degrees plus certified English translations. These unofficial documents will be used for application review. Official documents are required from all students who are admitted and enroll. Photocopies of certified records cannot be used. Students enrolled in other U.S. institutions may have certified copies of all foreign records sent directly to Graduate Studies.

It is recommended that applicants outside the U.S. begin applying approximately one year in advance of the desired first enrollment. See Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs>) for deadlines for each program.

All international applicants seeking F-1 student visas must apply for degree programs rather than non-degree, post-baccalaureate status.

Funding Requirements

Evidence of adequate financial resources (<http://www.unl.edu/gradstudies/prospective/international/financial>) for tuition and living expenses is required of all international students seeking F-1 or J-1 visas, including those who received their baccalaureate degrees at UNL. Students should not assume funds or work opportunities will be available at a later date, and should be prepared to have their living and educational expenses increase annually. University-wide fellowships may be sought after one year of graduate study in the U.S. More information is available to eligible candidates from Graduate Studies.

English Proficiency

See English Proficiency (<http://www.unl.edu/gradstudies/prospective/international/english>) in our Prospective Students section for additional information.

When Applying: TOEFL or IELTS

Applicants to the Graduate College whose native language is not English are required to submit a Test of English as a Foreign Language (TOEFL) score of at least 550 on the paper-based TOEFL; 79 on the Internet-based TOEFL or an International English Language Testing System (IELTS) overall band score of at least 6.5. Some departments require higher scores for admission.

Upon Arrival: English Language Test (ELT)

Typically all new international students are required to take the ELT upon arrival in Lincoln if they are not native speakers of English and their scores are:

- A TOEFL iBT writing score below 25 or a TOEFL total below 100
- An IELTS writing score or total IELTS score below 7.0

Each international student's Certificate of Admission will state whether they are required to sit for the ELT. Exemptions from the ELT requirement may be granted based on sufficiently high TOEFL or IELTS writing scores, or for non-native speakers who have received a bachelor's or more advanced degree from a U.S. university or a university outside the U.S. at which English is the official language of instruction.

International Teaching Assistant Institute

New holders of teaching assistantships (p. 515) who are non-native speakers of English must attend the International Teaching Assistant Institute (<http://www.unl.edu/gradstudies/current/ita>).

Registration

Graduate Studies

General

Procedures and dates pertaining to registration are provided by the Office of the University Registrar (<http://registrar.unl.edu>) and the Academic Calendar (<http://registrar.unl.edu/academic-calendar>). Additional questions concerning graduate-level registration may be referred to Graduate Studies.

Enrollment eligibility closes after three consecutive terms without enrollment. Formerly-enrolled graduate students who have not attended classes for one year or more may request reactivation by emailing graduate@unl.edu.

Drop and Add

Students may drop or add classes from the beginning of priority registration through the last day on which classes may be added for a term, as published in the Academic Calendar (<http://registrar.unl.edu/academic-calendar>).

- Students who do not register for classes until after the beginning of the term will be charged a late registration fee.
- After the end of the add period, a course may be added to a student's record only with permission from the instructor and Graduate Studies.
- Tuition liability for a course begins after the add period for a term.

Impacts of Withdrawal

Before withdrawing from courses, some students should seek information on the ramifications of withdrawal:

- **Graduate assistants** should contact their department Graduate Chair.
- Students withdrawing **after the term's last day to add classes** should contact the Office of Scholarships and Financial Aid (<http://financialaid.unl.edu>) about potential impacts on eligibility for aid or loan deferral.
- **International students** should consult the International Student and Scholar Office (<http://isso.unl.edu>).

All courses dropped after the **second week** of the term are noted on the student's academic record (transcript) with a grade of "W" (withdrawn).

Timing of Withdrawal

Before the 3/4 point of the term, students may withdraw from classes regardless of circumstance. A course drop becomes effective for tuition and grade purposes on the date the transaction is processed by the student.

After the 3/4 point of the term, any withdrawal from classes must be for extraordinary circumstances and will be granted only **by petition** through Graduate Studies, based on the following documentation:

1. A written request from the student within 60 days of the end of the term.
2. Written permission from the instructor.
3. Documentation for illness, death in the family or abrupt change in work schedule.

Download: Petition for late withdrawal (https://www.unl.edu/gradstudies/docs/petition_for_late_withdrawal.pdf)

Correction of Registration Errors

A graduate student who has registered in error (for example, for the undergraduate level of a 400/800 course) should correct the error through the **normal drop and add process** during the term in which the error occurred.

In the event the error is not recognized until a grade is posted, the student may request correction of registration within **sixty days** of the posting of the grade to the Office of the University Registrar (<http://registrar.unl.edu>). Changes to a student registration record will not be made more than sixty days after grades are posted.

Auditing a Course

Auditing gives a student the privilege of attending class, but **credit is not earned** and a grade of AU is assigned when auditing a class. All persons wishing to audit a course must be admitted and eligible to enroll in classes for the term in which they audit. Tuition and fees for audited courses are the same as for graded courses. Audited courses cannot be applied toward a graduate degree or certificate.

To audit a course:

1. Register for the class online.
2. Pick up a Permit to Audit Card at the Office of the University Registrar (<http://registrar.unl.edu>).
3. Obtain the instructor's permission to audit the course by having him or her sign the Permit to Audit Card.
4. Turn in the signed Permit to Audit Card at the Office of the University Registrar no later than the last day to add a class for the term.

Academic Leave of Absence

Graduate Studies

Purpose

Doctoral students in candidacy are required to maintain active status through continuous registration from the time they advance to candidacy until they graduate. In the event that a student is unable to continue active participation, the student must complete an Academic Leave of

Absence to temporarily suspend his or her graduate studies and the pursuit of a degree.

Policy

An Academic Leave of Absence may be granted to students for illness or injury, to provide care or assistance for family and dependents, to meet military service obligations, or for other personal reasons.

A leave can be used to suspend study for **one semester up to a full academic year** during which the student is not expected to make progress toward their degree.

- The one-year time limit can be **extended** for military service or in other cases subject to approval by Graduate Studies.
- A leave can be granted for **current and/or future** semesters only, not for prior semesters.

Students granted a leave are **not required to register for any credit hours** for the period covered by the leave.

- With no enrollment, no tuition and fee costs are accrued during the leave.
- The time limit for reaching candidacy or for completing the Ph.D. is extended only by the number of semesters the student is on leave.
- For Ph.D. students in candidacy, an approved leave satisfies the continuous enrollment requirement (p. 510).

Students **returning** from an approved leave do not need to be readmitted.

Eligibility

- Be a doctoral student in good standing (3.0 or above), with at least one semester of prior graduate enrollment at UNL.
- Be admitted into candidacy by Graduate Studies.
- Get approval from their graduate program.
- Have no course enrollments for the duration of the leave. If already enrolled during the leave, students must officially withdraw from those courses.
- If international, get approval from the International Student and Scholars Office (ISSO). SEVIS updates may be needed and immigration regulations may restrict eligibility; ISSO can help to identify other possible courses of action.

Implications

Students should expect to make **no academic progress** during a leave. A student on leave cannot:

- Take qualifying examinations for advancement to candidacy or final examinations for the degree (although language competency examinations are allowed)
- File a thesis or dissertation
- Make extensive use of faculty/staff time or resources (except for planning a return from leave)
- Receive academic credit for work done during the leave at another institution (unless approved in advance by the faculty advisor and Graduate Studies)

It is the responsibility of any student with **federal financial aid or loans** to consult the Office of Scholarships and Financial Aid and/or their loan agency before applying for a leave, to determine how a leave could affect aid, eligibility to defer loan repayment, and loan status.

A student on leave is not registered for classes and **does not receive the benefits, services, and eligibility** associated with registered-student status, including:

- Graduate assistantships or other student work titles and their benefits (e.g., tuition remission, student insurance, @unl.edu email address)
- UNL Libraries (unless applying for a “community member” library card)
- University Health Center and student health insurance
- UNL Campus Recreation Centers
- UNL fellowship support and research grants
- UNL graduate awards
- Most forms of University financial support
- Access to laboratories, equipment, and other controlled-access campus facilities

Students considering a leave are strongly encouraged to explore alternatives, discuss the impact on their plan of study with the graduate chair and their faculty advisor, and develop a strategy for completing the degree program.

In many cases students are better served by **alternatives that maintain enrollment and eligibility for student services**, for example:

- Modifying program expectations
- Reducing coursework, research, teaching or other educational responsibilities
- Working at a slower pace
- Delaying milestone deadlines
- Taking incompletes in the current semester with a plan to address them at a later time

Procedures

Requesting a Leave

1. Students consult their faculty advisor and their department's graduate chair to determine whether a leave is the most appropriate course of action.
2. The student submits a completed Academic Leave of Absence form (http://www.unl.edu/gradstudies/current/Academic_Leave_Request_Form.pdf) to Graduate Studies with the required signatures.
3. Upon approval by Graduate Studies, an email notification with a copy of the signed form is sent to the student, graduate chair, and faculty advisor.

Extending a Leave

To extend an approved leave, students must notify the graduate program chair and their advisor at least four weeks prior to the end of the semester in which the leave terminates. An extension requires approval of the department and (if international) ISSO.

Returning from Leave

Students on academic leave must notify Graduate Studies of their intent to return: in writing, to graduate@unl.edu, at least four weeks prior to the end of the leave. The Master's or Doctoral Specialist will notify the graduate chair and the faculty advisor of the student's intent to return.

Grades (Including In Progress and Incomplete)

Graduate Studies

Grading System

The University uses an A through F grading system.

- Letter grades with point value:
 - A+ (4.0), A (4.0), A- (3.67)
 - B+ (3.33), B (3.0), B- (2.67)
 - C+ (2.33), C (2.0), C- (1.67)
 - D+ (1.33), D (1.0), D- (0.67)
 - F (0)
- Grades without point value:
 - W (dropped/withdrew)
 - I (incomplete), IP (in progress), XP (no progress)
 - P (pass/C or better), N (no pass)

Graduate students taking undergraduate classes for deficiencies generally have a grade requirement set by the department. However, if no specific standard has been set, the graduate student is required to meet the same standard an undergraduate would be held to. That is, if the class is taken Pass/No pass, pass is the equivalent of a C or better.

Scholastic Grade Requirements

Credit in graduate-level courses is attained as follows:

- Within the student's major department or area, for 800-level courses with 400 or lower counterparts:
 - Minimum grade of B required.
 - Courses graded B- or lower, or pass/no-pass (P/N), cannot be used on a Memorandum of Courses (master's) or Program of Study (doctoral).
- Otherwise: For 900-level courses, 800-level courses without 400 or lower counterparts, or courses in minor, collateral, or supporting areas of work:
 - Minimum grade of C or P (pass) required.
 - Courses graded C- cannot be used on a Memorandum or Program.
 - The comprehensive exam for the minor may be waived only if all grades in the minor are at least a B or P (pass).

Graduate students who do not maintain satisfactory progress may be placed on probation, terminated from a degree program, and/or denied permission to continue graduate studies in the University.

In Progress vs. Incomplete

IP and XP: For research, thesis, and dissertation hours

- **In Progress (IP)** indicates satisfactory work in progress. The student is making progress or effort as determined by the faculty supervisor (research effort, literature review, draft chapters, etc.).
 - The IP stands until successful defense and acceptance of the research project, thesis, or dissertation, when a **P or letter grade** is submitted.
- **No Progress (XP)** indicates lack of adequate progress.
 - Because XP is not used in GPA calculation, no direct academic sanction (such as academic dismissal from the University)

will be imposed for earning one or more XP grades. However, graduate programs may use a series of XP grades as a **basis for terminating a student** from the program. Graduate committees should define these criteria, document them in graduate student handbooks, and discuss the process with their students.

On a transcript IP and XP count toward attempted hours, but for Financial Aid they count differently. Any IP or XP grades remaining at graduation will convert to I, if not graded as P or with a letter grade.

Use of IP and XP instead of I for graduate research, thesis, and dissertation hours is recommended by the UNL Graduate Council as of October 9, 2014. The I grade impacts satisfactory academic progress (SAP) (<http://financialaid.unl.edu/sap.shtml>) assessments in ways that can result in a student's federal financial aid being suspended, while IP and XP differentiate whether progress is being made, enabling more appropriate assessment and avoiding unnecessary aid suspensions and appeals.

I: For any other courses/hours

The grade of **Incomplete (I)** should be used only for courses that are **not** graduate research, thesis, or dissertation hours.

For any I grade in a graduate course, the instructor of the course determines the requirements and deadlines for completing it. It is helpful to have these expectations in writing to prevent miscommunication.

- A student with a grade of I **should not re-register for that course** within the time frame for the removal of the I. Re-registration will incur new tuition charges.
- **If the instructor leaves the University** prior to the date set for the completion of a course, the chair of the academic department of the course will assume the role of the instructor.

When requirements are satisfied, the instructor replaces the I with a grade indicating completion. Some courses must become graded (not I).

- All Incomplete **courses on the Memorandum of Courses or Program of Study** must become graded prior to graduation.
- Graduate courses **not on the Memorandum or Program** and not to be used to complete the degree may remain I. The grade of I will be on the transcript but will not affect the GPA.
- **Undergraduate courses** receiving an I will lapse into the grade of F after one calendar year.

Grade Appeals

Appeal of grades in graduate-level courses shall be made through the graduate student grade appeal procedures for the campus through which the grade was awarded.

- Students who believe their evaluation in a course has been prejudiced or capricious must first attempt to resolve the matter with the **Course Instructor** within 30 days of the posting of the grade report by the Office of the University Registrar.
- If unsuccessful, the student may then file a written appeal to the **Graduate Chair** for consideration by the Graduate Committee responsible for the administration of the course. This appeal must be filed within 60 days of the posting of the grade report by the Office of the University Registrar. If the department does not have a graduate program, the standing grade appeal committee of the department would consider the appeal. A written determination of the appeal shall be presented to the student and instructor.

- If the matter is unduly delayed or not resolved, the student may present the original appeal documentation to the **Dean of Graduate Education** who shall request a review by a subcommittee of the Graduate Council. A final appeal may be made to the full Graduate Council, if it agrees to hear the case. Since awarding grades in courses occurs at the individual campus level, the decision of the Graduate Council shall be final and is not subject to further appeal beyond the campus.
- If the instructor's grade is overturned, the instructor of record has the right of appeal, in writing, at the same successive levels of review.

SOURCE: Graduate Council Minutes (March 9, 1993; revised August 16, 2018)

Graduate Credit

Graduate Studies

Course Levels

Courses by number level:

- 800s and 900s: These are graduate courses. 800-level courses without counterpart 400-level or lower numbers, as well as 900-level courses, are open exclusively to graduate students except by permission of the Dean for Graduate Studies.
- 500s, 600s, and 700s: These are professional courses in law, dentistry, and architecture. Law courses carry graduate credit only if the letter "G" follows the course number.
- 400 or lower: These are undergraduate courses and cannot be applied toward a graduate degree.

A student who enrolls in a course must have completed the general prerequisite, including any specific prerequisite indicated for the course. In graduate-level courses, there is a required differentiation of faculty expectation regarding course work, student performance and grading criteria. In 800-level courses with an undergraduate-level counterpart, each of these differentiated expectations must be described in the course syllabus.

Credit by Examination

Credit by examination cannot be earned in graduate level courses or applied to graduate degree programs.

Transfer Credit

For any graduate degree, at least 50 percent of the minimum number of graduate credits required for the degree must be completed at the University of Nebraska.

To be accepted as transfer credits, graduate credits must be:

- Earned at an institution fully accredited to offer graduate work in the field of the student's major.
- For graduate coursework, not professional coursework.
- *To be accepted toward a master's degree:* Not older than 10 years or applied toward any previous graduate degree.
- *To be accepted toward a doctoral degree:* Not applied toward any previously completed doctoral degree.
- Approved by the graduate committee for quality, suitability, and being equal to or superior to offerings available at UNL.
- Approved by Graduate Studies.

It is the responsibility of the student to ensure that official transcripts of graduate work taken elsewhere are received by Graduate Studies well before the student plans to complete all other requirements for the UNL degree.

Graduate Credit for Undergraduates

Seniors at UNL may be permitted up to 12 hours of credit for graduate courses taken in addition to the courses necessary for their undergraduate degree, provided that these credits are earned the calendar year prior to receipt of the baccalaureate. **Holding graduate credit keeps a senior in an undergraduate college; the student should consult Scholarships and Financial Aid** (<http://financialaid.unl.edu>) regarding continuation of any undergraduate scholarships or financial aid.

- Before registering for graduate courses, seniors must obtain approval from Graduate Studies using the Grad Credit for Undergraduate Students form (<http://research.unl.edu/gradstudies/credit>).
- Courses taken prior to completion of a bachelor's degree do not always transfer as graduate credit to other institutions, nor can there be a guarantee from Graduate Studies that these courses will apply toward a particular graduate program.
- The general prerequisite for taking 800-level courses as an undergraduate is at least 12 hours of work in the same department or area of study. The general prerequisite for 900-level courses is at least 18 hours in the same department or area of study.
- Intercampus enrollment allows undergraduates at other University of Nebraska campuses to take graduate-level coursework at UNL. Any arrangement to hold for graduate credit must be made at the student's bachelor's-degree campus; UNL can certify graduate credit only for those students graduating from UNL. Students from outside the University of Nebraska must wait until they qualify as graduate students to receive graduate credit.

Double-Counting

"Double-counting" refers to the use of a limited number of credit hours toward the requirements of two separate degrees or programs. This allows the student to earn two degrees for fewer total credit hours than would normally be required if both programs were taken independently.

At the departmental level, graduate committees may stipulate that credits for core-requirement courses cannot be double-counted in their programs.

Established Dual Degree Programs: In general, no more than nine credits may be double-counted. Both degrees must be completed within the time allowed and awarded at the same commencement. If awarded at separate commencements, double-counting is not allowed.

Two Master's Degrees: Students pursuing two independent master's degrees may double-count, with prior approval of both graduate committees, no more than nine credits. Both degrees must be completed within the time allowed and awarded at the same commencement. If awarded at separate commencements, double-counting is not allowed.

Master's and Doctorate (Distinct Disciplines): In general, no more than nine credits may be double-counted. Both degrees are completed within the time allowed. The master's degree must be awarded before the doctoral degree.

Master's En Route to Doctorate (Same Discipline): Upon recommendation by the graduate program, a doctoral candidate may earn

a master's degree in the same discipline, upon completion of the master's degree requirements or upon successful passing of the comprehensive exam. The degree may not be awarded retroactively.

Graduate and Professional (e.g., PhD-JD, MCRP-MArch): Generally, there can be no more than a 30% credit overlap between degrees based on the lower credit requirements. Both degrees must be completed within the time allowed.

Graduate Degree and Graduate Certificate: Certificate courses may be used toward the completion of a degree as determined by the departmental or interdepartmental Graduate Committee administering the certificate program. Contact the program's Graduate Chair for more information.

Two Graduate Certificates: Double-counting is not allowed.

Accelerated Master's: In general, no more than 12 credits may be double-counted between the bachelor's and master's programs.

Registration Requirements

Graduate Studies

Summary

Minimum enrollment requirements for certain statuses or outcomes are as follows. Full-Time Certification (p. 506) is abbreviated here as FTC.

Status or Result	Min Enr: Fall or Spring	Min Enr: Summer
Full-time status	9 cr, 1 cr if FTC	6 cr, 1 cr if FTC
Eligibility for typical assistantship (some depts. require more)	1 cr	0 cr
Exemption from FICA/Medicare withholding on assistantship	4 cr, 1 cr if FTC	4 cr, 1 cr if FTC
Access to UNL services (Libraries, Health Center, Rec Center as described below)	1 cr	1 cr

Access to Services

Registration is required for services such as door access, the Recreation Center, the University Health Center, and some Library resources.

Students who pay the University Health Center (UHC) fee are able to access reduced-cost healthcare services at the UHC. Students enrolled in less than 7 cr per term pay a reduced University Program and Facilities Fee (UPFF) that does not include the UHC fee; to use the UHC they may pay the UHC fee or procure UHC services on a fee-for-service basis.

Doctoral Candidacy

Doctoral students who have advanced to candidacy status must be registered every fall and spring semester until they graduate, in accordance with the Guidelines for Registration During Doctoral Candidacy (p. 510). Failure to maintain registration may result in the termination of the student's program.

Full-Time Status

Hour Requirements

Graduate students are considered full time when registered for 9 credit hours during an academic semester or at least 6 credit hours during the summer.

Status	Academic Year	Summer
Full-time (F)	9 cr	6 cr
3/4-time (T)	6-8 cr	4-5 cr
1/2-time (H)	4-5 cr	3 cr
Less than 1/2-time (L)	1-3 cr	1-2 cr

Full-Time Certification

Thesis-option master's students (Option I) (p. 512) and doctoral students in candidacy may request full-time certification (<http://research.unl.edu/gradstudies/fulltime>) each semester they are under-enrolled, for the time allowed for their degree.

- Eligibility: The student must be currently registered for at least one credit hour and have been registered at least half time (i.e., at least 4 credits) in the fall and spring terms prior to the initiation of the full-time certification status.
- Limitations: Master's students may use full-time certification no longer than 3 consecutive terms; doctoral candidates may use it no longer than 24 consecutive months.

Summer Assistantship

Graduate assistants are not required to register for courses during the summer term. Graduate assistants employed in the summer but who are not registered for 4 credit hours or certified full-time during the summer term are subject to FICA and Medicare taxes.

Financial Aid

Status	Academic Year	Summer
Full-time (F)	9 or more cr	8 or more cr
3/4-time (T)	6-8 cr	6-7 cr
1/2-time (H)	4-5 cr	4-5 cr

Summer minimum registration for financial aid is 4 credit hours. These credits may be in different summer sessions; aid is disbursed in the session the student reaches half-time enrollment.

Employment

Graduate students holding any **fellowship(s)** are required to be enrolled as a **full-time** student as defined above. Students with external or departmental fellowships must follow the specific granting agency requirements.

Graduate students holding a **traineeship** are required to be enrolled **full-time** or be full-time certified during the tenure of their traineeship. Other remunerative employment must follow the granting agency requirements.

Graduate assistants may not work more than **19.6 hours per week**, all jobs considered, including assistantship(s) and paid internships. Internships are considered work in a training environment related to the student's educational career for which they receive pay; an assistantship and an internship may not be held by a student simultaneously if the total

hours between the two equal more than 19.6 hours per week. This applies to fall and spring terms only.

Graduate students **not employed**, or graduate research assistants performing duties that are **100% thesis related**, may register for a maximum of 15 credit hours during an academic year semester, 6 credit hours during one five-week summer session, 9 credit hours during one eight-week summer session, or 3 credit hours during the pre-session.

Maximum Registration Guidelines

Graduate students who are employed are advised not to exceed the following registration guidelines established by the Graduate Council.

Hours Employed Per Week	Fall or Spring	Summer 8-Week	Summer 5-Week	Summer 3-Week(1)
0 hrs	15 cr	9 cr	6 cr	3 cr
8-16 hrs	12 cr	8 cr	5 cr	2 cr
17-20 hrs	10 cr	6 cr	4 cr	2 cr
Full-time	6 cr	4 cr	3 cr	1 cr

- ¹ One course permitted in the Summer 3-Week term for a maximum of 3 credit hours.

These guidelines reflect the fact that graduate-level course work serves mainly as a guide for independent, scholarly study. Graduate students are expected to master subjects and to devote substantial time in independent library and laboratory investigation beyond minimum credit hour requirements.

For courses offered within a summer session, a general guideline is a maximum registration of 1 credit hour per week of instruction.

Tuition and Fees

Graduate Studies

Rates

Tuition and fee rates are published by Student Accounts (<http://studentaccounts.unl.edu>) and subject to change at the direction of the Board of Regents.

Regulations pertaining to **Nebraska resident status for tuition purposes** are established by the Board of Regents. Initial determination of resident status is made at the time of admission and is noted on the Certificate of Admission. If a non-resident student wishes to change status, it is necessary to file a residency application with Graduate Studies. Requirements for resident status are included with the Application for Residency Classification for Tuition Purposes (PDF) (<http://go.unl.edu/residency>).

Refunds

Students who withdraw from the University within the first four weeks of a semester, or within the first two weeks of a summer session, may be entitled to a fractional refund of tuition, as listed in the Academic Calendar (<http://registrar.unl.edu/academic-calendar>). The conditions of eligibility for refunds are subject to change.

Graduate Assistants

Students holding a benefits-eligible graduate assistantship (p. 515) may receive tuition remission of up to 12 hours per semester during

the fall and/or spring semesters plus a portion of the student's health insurance premium.

- Payment of the student's portion of the health insurance premium, University program and facilities fees, library fees, technology fees, registration fees, special course fees, are the student's responsibility.
- If a graduate assistant resigns or terminates the assistantship during the semester before four full months of service, all benefits will be lost. The student then is responsible for the total tuition payment and health insurance premiums.

University Staff Scholarship

Members of the academic-administrative, managerial-professional, and office-service staffs employed full time are eligible for the Employee and Dependent Scholarship Program (<http://hr.unl.edu/general/dependentscholarship.shtml>).

Academic Program Requirements

Graduate Studies

The University of Nebraska-Lincoln offers over 160 different graduate programs: master's degrees, doctoral degrees, Educational Specialist degrees, and graduate certificates.

See Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs/colleges>) for current counts and offerings.

Majors, Minors, and More

Graduate Studies

Majors and Degrees

Approved major-degree programs are listed in Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs/colleges>). Graduate Studies requirements for completing a program are described in master's (p. 511), doctoral (p. 508), and Ed.S. (p. 513) overviews.

Concurrent or Combined Programs

Definitions

In all three cases, work for both programs must be completed at the same time.

- **Double Major:** One degree is conferred, with one diploma; two majors are completed and both are listed on the transcript.
- **Dual Degree:** Two degrees are conferred, with two diplomas. The degrees may be from two different institutions within the University of Nebraska (UNL, UNK, UNO, UNMC).
- **Joint Degree:** One degree from two institutions within the University of Nebraska. There is currently one approved joint degree program offered in Educational Administration (UNL-UNO or UNL-UNK).

Master's Degree with Double Major

After earning Admission to a Double Major (p. 499), students must meet minimum requirements for each of the majors. A minimum of **half the hours** must come from each major; the number of credits may vary based on the total required hours for each major. For each of the two majors, students must take a minimum number of credits, as specified for their Option, (p. 512) in courses open only to graduate students.

The student must satisfy the **comprehensive examination** requirements for each major.

- The examining committee shall consist of two graduate faculty members from each of the major departments/areas; it shall be co-chaired by one from each.
- All committee members must be resident Graduate Faculty, Graduate Faculty Associates, or courtesy members. At least one of the two members from each department must be Graduate Faculty or Graduate Faculty Associates.

Doctoral Degree With Double Major

At the doctoral level, five double majors are approved. Any other major pairings are subject to approval by the departmental graduate committees and the Dean for Graduate Studies.

- Statistics & Agricultural Economics
- Statistics & Agronomy
- Statistics & Animal Science
- Statistics & Economics
- Statistics & Natural Resource Sciences

Completed Degrees

After a degree is conferred, a second major cannot be added to it. Instead a student may apply for admission to a second program, and once admitted, complete all requirements of a full independent program.

Dual Degree Programs

The following dual degree programs have been established. *Individualized dual degree programs not listed here may be approved on a case-by-case basis by graduate chairs and the Dean for Graduate Studies.*

- Architecture (MArch) and business (MBA)
- Architecture (MArch) and community and regional planning (MCRP)
- Civil engineering (MS) and community and regional planning (MCRP)
- Law and accountancy (MPA)
- Law and business administration (MBA)
- Law and community and regional planning (MCRP)
- Law and educational studies (PhD)
- Law and journalism and mass communications (MA)
- Law and political science (MA)
- Law and psychology (MA or PhD)
- Legal Studies (MLS) and Psychology (PhD)

Second Master's Degree

Students who have earned a previous graduate degree at any institution may pursue additional degrees at the master's level degrees. The subsequent master's degree(s) may be in the same discipline as the previously earned degree, or in a different discipline. However, no graduate credits will be accepted as transfer credit toward a subsequent master's degree or graduate certificate program if the course work has been applied toward a previously completed graduate degree at any accredited institution, including UNL. Graduate course work not previously applied toward a degree may be considered for transfer to a subsequent master's if the graduate credits were earned within 10 years of completing the master's degree at UNL.

Minors

A minor is a course of study in addition to the major, effectively an abbreviated second major.

- For any major approved to offer a master's degree (<http://www.unl.edu/gradstudies/prospective/programs/colleges>), a minor of the same name is offered.
 - For example, an MA in History exists so a minor in History is available.
- A few additional minors have been established without a corresponding master's-level major. Some of these are also available as specializations.
 - Beef Cattle Nutrition
 - College STEM Education
 - Construction Management
 - Developmental and Learning Sciences
 - Medieval and Renaissance Studies
 - Quantitative, Qualitative, and Psychometric Methods (also available as a specialization)
 - Water Resources Planning and Management (also available as a specialization)
 - Women's and Gender Studies (also available as a specialization)

Master's Minor

A master's student may declare a minor on the Memorandum of Courses.

- A minor under any Option must consist of at least 9 credit hours.
- Depending on the Option (p. 512), a minor may be optional, required, or unavailable.
- A faculty member from the minor department must sign the Memorandum of Courses and the Final Examination Report.

Doctoral Minor

A doctoral student may declare a minor in their Program of Studies.

- The minor's credit hours are included in the total for the doctoral program and must include at least 15 hours, with 6 hours in courses open exclusively to graduate students (900 level, or 800 level without 400 level or lower counterparts).
- A graduate faculty member from the minor program must be a member of the student's Supervisory Committee.

Specializations

A specialization is a well-defined focus within a particular major or set of majors, typically 9 to 12 hours, established by approval of the UNL Graduate Council.

A student may choose a specialization while applying for admission or later when filing a plan of study. Once added to a student's program, the specialization is listed with the major on official records and transcripts.

Areas of Study

Areas — also known as concentrations or emphases — are informal and do not appear in official records.

Doctoral Degrees

Graduate Studies

Doctoral Overview

Doctoral Programs Offered

UNL Graduate Studies oversees four doctoral degrees:

- Doctor of Philosophy (PhD)
- Doctor of Education (EdD)
- Doctor of Musical Arts (DMA)
- Doctor of Audiology (AuD) — *As of October 1, 2016, the AuD is administered by Graduate Studies. Revisions to this catalog to include the AuD are not yet complete.*

See Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs/colleges>) for a current list of degrees and majors, Majors, Minors, and More (p. 507) for related policy, and the Graduate School Glossary (<http://www.unl.edu/gradstudies/glossary/#degrees>) for a better understanding of the different degrees.

UNL also offers additional professional doctoral programs — e.g., JD, DPH, DVM — which are not overseen by Graduate Studies or covered by Graduate Studies policy.

Core Doctoral Requirements

To qualify for a doctoral degree, it is the student's responsibility to meet the following requirements as part of the Doctoral Degree Milestones (<http://www.unl.edu/gradstudies/current/degrees/doctoral>):

1. Establish a Supervisory Committee (p. 508) prior to completion of one half of the doctoral coursework.
2. Complete a Program of Studies (p. 509), approved by the Supervisory Committee and filed in Graduate Studies prior to completion of one half of the doctoral coursework.
3. Achieve academic residency (p. 510).
4. Pass a comprehensive examination (p. 510) — in the major and minor fields of study.
5. Achieve candidacy (p. 510) and satisfy requirements for registration during candidacy.
6. Prepare a dissertation (for PhD or EdD) or doctoral document (for AuD or DMA), pass a final examination (p. 511) (defense), and submit the approved final version to the University.
7. Complete all work for the doctoral degree within eight years of filing the Program of Studies in Graduate Studies.

Research Responsibility

All research involving human or animal subjects must receive approval from the Institutional Review Board (IRB) and/or the Institutional Animal Care and Use Committee (IACUC). The IRB New Protocol Submission form is completed online via NUGrant (<http://nugrant.unl.edu>); the Application to Use Animals is available from the Office of Research Responsibility (<http://research.unl.edu/researchresponsibility/forms>).

Approval must be secured prior to the initiation of the research; the IRB and IACUC will not review projects already in progress. Evidence of IRB/IACUC approval must be submitted at the time the final dissertation is filed.

Supervisory Committee

The Supervisory Committee shall approve the student's Program of Studies; monitor the student's academic progress; approve the dissertation subject; prepare, give and evaluate the comprehensive examination; approve the final dissertation; and prepare, give and

evaluate the final examination. (SOURCE: *Graduate College Policy Handbook, 2018*)

A Supervisory Committee is established **before a doctoral student has accumulated 45 credit hours**, including any transfer hours, but excluding research or language tools. Prior to the approval of the student's Program of Studies, the Supervisory Committee is appointed by the Dean for Graduate Studies based on a recommendation of the departmental or interdepartmental Graduate Committee in the student's major.

The Supervisory Committee consists of at least four members of the Graduate Faculty (<https://catalog.unl.edu/graduate-professional/graduate/faculty>) or non-Graduate Faculty approved to perform specified Graduate Faculty duties. At least one Graduate Faculty member external to the academic department or program, but within the University of Nebraska Graduate College, must be included on the committee to serve as the Outside Representative. If the student is pursuing a minor, the committee member from the minor department may serve as the Outside Representative.

Graduate Faculty with **emeritus status** may co-chair the supervisory committees of doctoral students with a resident Graduate Faculty member.

Member Roles

- **Chair or Co-chair:** The Chair or Co-chair of a doctoral student's committee serves as the advisor and mentor of the student. The Chair or Co-chair may not serve as the Outside Representative or as a designated Reader.
- **Reader:** Two members of the committee are designated as Readers. They and the Chair read the draft(s) of the dissertation to determine whether the student is ready to defend. Special Members and Outside Representatives may serve as Readers.
- **Outside Representative:** The role of the Outside Representative is to broaden the scholarly representation of the student's committee and to provide an impartial perspective. If the student is seeking a minor, the faculty member representing the student's minor may serve as the Outside Representative.
- **Special Member:** A faculty member from another institution external to the University of Nebraska system may serve as an "extra" committee member. Only one Special Member may serve on a supervisory committee. Special Members have voting rights on the committee. A Special Member may serve as a Reader, but may not serve as the Outside Representative.

Changes to the Committee

Changes may be made to a Supervisory Committee any time prior to the submission of the Application for Final Oral Exam using a change request form as described in the Doctoral Milestones (<http://www.unl.edu/gradstudies/current/degrees/doctoral>).

If the Supervisory Committee **Chair** leaves the employ of the University, or retires or is otherwise unable to serve on the Committee, Graduate Studies must be notified immediately and a change in the Committee made as follows:

- If the student has achieved Candidacy, the former chair who has left may continue to serve as co-chair of the Supervisory Committee, with approval of the departmental Graduate Committee and the Dean for Graduate Studies. A second co-chair must be appointed who is a resident Graduate Faculty member.

- If the student has not achieved Candidacy, a new chair of the Supervisory Committee who is a resident Graduate Faculty member must be appointed immediately, with the agreement of the departmental/school Graduate Program Committee and the Dean for Graduate Studies.

If a **member other than the Chair** leaves the employ of the University or retires, a replacement should be appointed who is a resident graduate faculty member. When continuing expertise is needed and the faculty member is willing to continue serving, he/she may continue as a member of the Supervisory Committee, with the approval of the Supervisory Committee Chair and the concurrence of the Dean for Graduate Studies.

Program of Studies

Program Requirements

The Program of Studies must be filed in Graduate Studies prior to completion of half the coursework for the doctoral program.

- At least half of the graduate work, including the dissertation, will be completed in the student's major.
- It must contain sufficient credit hours:
 - PhD: At least 90 credit hours, including 12 to 55 hours of dissertation research.
 - EdD: At least 96 credit hours, including 6 hours of research tools and 12 to 55 hours of dissertation research.
 - DMA: At least 90 credit hours, including a minimum of 3 hours doctoral document research.
 - AuD: At least 87 credit hours.
- It must include any departmental language or research tool requirements.
- It must be filed within the same semester as the appointment of the Supervisory Committee.
- The time limit on granting the doctoral degree is eight years from the time of filing the student's Program of Studies in Graduate Studies.

Any subsequent change in the program is approved by the Supervisory Committee and the action reported to Graduate Studies in writing.

The Supervisory Committee will determine what course work taken prior to filing of a Program of Studies, including hours earned toward the master's degree(s), will be accepted as part of the program's 87-96 hours.

- The Supervisory Committee is not obligated to reduce the doctoral Program of Studies by applying course work completed prior to its appointment.
- Prior course work is assessed in relation to its contribution to framing a research foundation for the degree. Each course accepted must be current and relevant in relation to the desired degree.
- No graduate credit will be accepted from a previously awarded doctoral degree at any institution, including UNL.

Language and Tools

There is no uniform language or research tool requirement for UNL Graduate Studies. Students should contact their Graduate Chair for specific departmental requirements.

All required language or research tools requirements for the student's program should be listed on the Program of Studies by the Supervisory Committee and be satisfied prior to filing the Application for Admission to

Candidacy, which is due at least seven months before the scheduled final oral examination.

Academic Residency

Academic residency requires the doctoral student to enroll in a specified number of hours related to the degree within a specific timeframe. This ensures that each doctoral program is reasonably compact, continuous, and cohesive, and that a substantial portion is done under close supervision by the University. No additional hours over and above those for the required program of studies will be needed to fulfill academic residency.

For a student beginning a doctoral program:

- With a **bachelor's degree**: The requirement is 27 hours of graduate work within a consecutive 18-month period, and 15 of these 27 hours must be taken after receiving a master's along the way or completing 30 hours.
- With a **master's degree**: The requirement is 27 hours of graduate work within a consecutive 18-month period.
- As **University staff or a person employed full-time in their major field**: The requirement is 24 credit hours of graduate work within a consecutive two-year period, and 12 of these 24 hours must be taken after receiving a master's along the way or completing 30 hours. For registration restrictions, refer to University Staff Exemption (<http://nebraska.edu/faculty-and-staff/benefits/employee-and-dependent-scholarships.html>).

The academic residency requirement must be met **prior to the scheduling of the final oral exam**.

In exceptional circumstances, where it is clear that the purpose of residency will be fulfilled although the above formal conditions are not met, the student's Supervisory Committee may, with the approval of the Dean for Graduate Studies, designate an alternative procedure for satisfying the residency requirements.

Comprehensive Examination

When a student has substantially completed studies in the doctoral program, the student must pass a written comprehensive examination in the major and minor fields of study. At the discretion of the supervisory committee, an oral comprehensive examination may also be required.

Requirement and Scheduling

The Supervisory Committee arranges for comprehensive examinations at least seven months prior to the final oral examination (defense).

- The **written** comprehensive examination is an investigation of the student's breadth of understanding of the field of knowledge of which his/her special subject is a part. It is not a repetition of course examinations.
- An **oral** comprehensive examination may be required at the discretion of the Supervisory Committee. The oral exam may include the minor or related fields in addition to the major field of study. If an oral exam is required, it is part of the comprehensive exam requirements to be met before candidacy.

Examination Results

Upon successful completion of comprehensive exams, an **Application for Candidacy** should be filed as described in Doctoral Milestones (<http://www.unl.edu/gradstudies/current/degrees/doctoral/#candidacy>).

Otherwise, if the Supervisory Committee determines that the student has failed the comprehensive examination:

1. A letter is submitted by the chair of the Supervisory Committee to the Dean for Graduate Studies stating the conditions under which the student may attempt another examination.
2. Only one attempt may be made per academic term. Only two attempts overall are permitted, unless additional attempts are approved by the Supervisory Committee.

Candidacy

The Supervisory Committee files the **Application for Admission to Candidacy** as described in Doctoral Milestones (<http://www.unl.edu/gradstudies/current/degrees/doctoral>) once the student has:

- Met any provisional admission requirements
- Satisfied language and research tool requirements
- Passed the comprehensive examination(s)

This form must be filed in Graduate Studies at least seven months prior to the final oral examination (defense).

Continuous Registration

Once candidacy is achieved, the student must register for **at least one credit hour each fall and spring** until they graduate, even after meeting the total dissertation hours on their Program.

- **Failure to register will result in termination of candidacy and program.**
- Academic Leave (p. 502) can, for eligible students, provide an exception to the continuous registration requirement.
- Candidates do not need to register for **summer** unless required by their department during an assistantship, for a student visa, to defer student loans, or for Health Center access.

Credit Hours

Doctoral candidates may need to register for additional hours due to the following factors.

- To be exempted from withholding for FICA (Social Security) and Medicare, candidates being paid as graduate assistants must either have full-time status or register for 4 cr each term.
- Campus Services/Facilities: Graduate students registered for at least 1 cr per term are able to access the University Health Center (<http://health.unl.edu>), University Libraries (<http://libraries.unl.edu>), and Campus Recreation Center (<http://crec.unl.edu>). Additional charges may be incurred based on use.
- Health Insurance (<http://www.unl.edu/gradstudies/current/health>): All UNL students enrolled in at least 6 cr or full-time certified are eligible to purchase this plan. Graduate assistants and international students are automatically enrolled in health insurance.
- Eligibility for financial aid (<http://financialaid.unl.edu/eligibility.shtml>) typically requires enrollment of 4 cr per fall or spring. It also involves the fraction of attempted credit hours completed successfully (<http://financialaid.unl.edu/sap.shtml>) and whether the student has exceeded a maximum number of credit hours allowed for a degree objective.

Full-Time Status

Full-time status normally requires 9 cr each fall and spring. However, Candidates enrolling in at least 1 credit hour per term can be classified

as full-time if they request and are approved for Certification of Full-Time Status (<http://research.unl.edu/gradstudies/fulltime>) before each term.

Doctoral students may use full-time certification for a maximum of two consecutive years. To maintain full-time status beyond that, a candidate must again register for at least 9 cr each fall/spring.

Tuition and Fees

Retaining Resident Rate: Candidates who were classified as Nebraska residents for tuition purposes and relocate out of the state while maintaining continuous enrollment remain eligible for resident tuition.

All But Dissertation (ABD): Students who have completed all courses on the Program and who are registering for dissertation (999) hours in excess of the requirements of the Program to maintain continuous registration are eligible for a waiver of the non-resident portion of tuition. To qualify for this benefit, students must (1) have grades for all courses on the Program of Studies except for dissertation (999) hours and (2) send email to the Doctoral Specialist (<http://www.unl.edu/gradstudies/current/degrees/doctoral>) requesting this benefit. Once approved, this status remains in effect until the student graduates.

Dissertation and Final Oral Exam

Dissertation Requirements

The **dissertation** is of no fixed length. Students work with their advisor and/or Supervisory Committee to determine the subject of the dissertation.

The **dissertation abstract** may not exceed 350 words in length.

See Preparing a Dissertation (<http://www.unl.edu/gradstudies/current/degrees/guidelines>) for formatting required by Graduate Studies. Style guidelines are determined by the student's specific discipline.

Reading Committee

Following approval by the major advisor, the dissertation and abstract should be presented to the Reading Committee for review at least four weeks prior to the oral examination. The Reading Committee consists of two members from the Supervisory Committee, excluding the Chair or Co-chair.

An Application for Final Oral Exam (<http://www.unl.edu/gradstudies/current/degrees/doctoral/#examform>) is due in Graduate Studies at least two weeks prior to the scheduled defense, indicating that the committee chair(s) and the readers have read the dissertation, find it suitable for a defense, and grant permission for the defense to be held. All committee members should be given sufficient time to read the dissertation prior to the defense.

If only one member of the Reading Committee dissents, the dissertation defense or oral exam may proceed upon written recommendation by the supervisory committee, accompanying the Application for Final Oral Exam.

Final Oral Examination

Approval of the dissertation is solely the responsibility of the Supervisory Committee. The academic expectations and standards of acceptability for dissertations, as established by each departmental Graduate Committee, shall be the benchmark by which dissertations are judged. No individual or organization other than the University of Nebraska graduate faculty (or non-graduate faculty members granted permission to serve on Supervisory Committees) may participate in judging the acceptability of a

dissertation, including (but not limited to) journal editors, peer reviewers, and adjudicators.

Submission of manuscripts or other works for publication shall not be a requirement for the graduate degree. This does not preclude departmental Graduate Committees from stating in their graduate handbooks the expectation that a dissertation should yield publication-quality research or juried works; nor does it prevent graduate students from submitting manuscripts and publishing articles prior to defending their dissertation.

The final oral examination must be scheduled for a date when a majority of the Supervisory Committee, including the Chair(s), are available for the examination. Exceptions may be made only by permission of the Dean for Graduate Studies.

The final examination for the doctoral degree is oral and open to the University community and the public.

- The Supervisory Committee determines the defense's character and length. The examination may be devoted to the special field of the dissertation or to the Candidate's general knowledge, or it may be designed to test judgment and critical powers.
- All persons may be present during the dissertation presentation and general questioning. However, this is followed by a closed questioning portion of the examination for which all persons except the Candidate, Supervisory Committee, and invited faculty must be excused.
- The final oral examination over the dissertation may be waived only with the consent of the Dean for Graduate Studies.

The Supervisory Committee reports the results of the final oral examination to Graduate Studies.

1. If the committee agrees unanimously that the student has passed: A Report of Completion (<http://www.unl.edu/gradstudies/current/degrees/doctoral/#oralexam>) is signed by all committee members present for the defense.
2. If only one member dissents: The dissenting member files a letter of explanation in Graduate Studies, but the student is approved for the degree and a Report of Completion is signed accordingly.
3. If more than one member dissents: The student fails to pass the final oral exam. The committee files a report on the failure in Graduate Studies, indicating what the student must do before attempting another examination. A student may attempt a final oral exam only once per term.

Depositing

Following the successful completion of the oral examination, the student should complete the remaining Doctoral Milestones (<http://www.unl.edu/gradstudies/current/degrees/doctoral/#oralexam>).

Only abstracts and dissertations that meet all published requirements can be approved and stamped for depositing.

Depositing also involves payment of a processing fee and, if applicable, a fee to register a copyright.

Master's Degrees

Graduate Studies

Master's Programs Offered

See Programs Offered (<http://www.unl.edu/gradstudies/prospective/programs/colleges>) for a current list of degrees and majors, Majors, Minors, and More (p. 507) for related policy, and the Graduate School Glossary (<http://www.unl.edu/gradstudies/glossary/#degrees>) for a better understanding of the different degrees.

UNL's professional master's programs — e.g., MArch, LLM — are not overseen by Graduate Studies or covered by Graduate Studies policy.

Core Requirements

A student progresses toward a master's degree by completing the sequence of Master's Degree Milestones (<http://www.unl.edu/gradstudies/current/degrees/masters>) before their posted deadlines and while following these policies:

For All Master's Degrees

The **Memorandum of Courses** is filed before the **halfway point** — before grades (letter grades, no reports, or Incompletes) have been received in more than one half of the courses listed on the Memorandum — and on recommendation of the major and minor departments and approval of Graduate Studies.

- A student may NOT file a Memorandum and graduate in the same term.
- Students have **ten years** from the oldest course listed on the Memorandum to complete the degree. Courses exceeding this limit may not be used toward a master's degree.

A student is admitted to **Candidacy** for the master's degree when **admission deficiencies** have been removed and the Memorandum of Courses has been filed.

The student must **apply to graduate**.

The **Final Examination Report** is due in Graduate Studies at least four weeks (three weeks in summer) before the final exam, if required, but in no case later than four weeks before the final date for oral exams. The report will be accepted after all courses on the Memorandum have been completed or are in progress, and any Incompletes have been removed.

- **Written examinations** in major and minor fields, if required, must be passed at least one week prior to the oral exam.
- An **oral examination**, if required, is administered by the examining committee.
- See Examinations for the Master's Degree (p. 513) for full policy.

Additional For Option I (Thesis)

The **subject** of the thesis must be approved by the departmental Graduate Committee, and the thesis must conform in **style and form** to the guidelines in Preparing a Thesis or Dissertation (<http://www.unl.edu/gradstudies/current/degrees/guidelines>).

The **preliminary thesis and abstract** must be approved prior to the oral exam.

- A Candidate is eligible to apply for the final oral exam or its waiver only after the completed thesis is **approved by the advisor**.
- An electronic copy of the thesis is due in **Graduate Studies** at least two weeks (one week in summer) prior to the oral exam, or if the oral exam is waived, no later than two weeks before the final date for oral exams.

- The thesis must be presented to the **examining committee** at least two weeks prior to the oral exam.

After successful completion of the oral exam, the **finalized thesis** is due in Graduate Studies for **final approval** prior to **upload and deposit**.

Research Responsibility

All research involving human or animal subjects must receive approval from the Institutional Review Board (IRB) and/or the Institutional Animal Care and Use Committee (IACUC). The IRB New Protocol Submission form is completed online via NUGrant (<http://nugrant.unl.edu>); the Application to Use Animals is available from the Office of Research Responsibility (<http://research.unl.edu/researchresponsibility/forms>).

Approval must be secured prior to the initiation of the research; the IRB and IACUC will not review projects already in progress. Evidence of IRB/IACUC approval must be submitted at the time the final thesis is filed.

Thesis and Non-Thesis: Options I, II, and III

The NU Graduate College offers master's degrees under **three Options**, except in a few departments where such a choice is not feasible.

For All Options

- No courses older than **10 years** will apply toward master's degree requirements at UNL.
- A written or oral **comprehensive examination** is required.
- Courses open only to graduate students are those numbered at the 900 level, or at the 800 level without counterparts at the 400 level or below.

Option I

- Minimum **30 cr**, including 20-24 cr of regular coursework.
- **Thesis required**, equivalent to 6-10 cr. At least half of the required work, including thesis, must be in one major subject.
- Minor optional, at least 9 cr.
- 8 cr, in addition to the thesis, must be in graduate-only courses.

Option II

- Minimum **36 cr**, a major and one or two minors.
- **No thesis** required.
- Minor required, at least 9 cr.
- At least 12 of the 36 cr must be in graduate-only courses.

MEd is only available as Option II.

Option III

- Minimum **36 cr**.
- **No thesis** required.
- **No minor** available.
- At least 18 of the 36 cr must be in graduate-only courses.

Accountancy MPA is only available as Option III; its students must earn at least 20 cr in graduate-only courses and at least 15 cr of those must be in Accountancy.

Change of Option

Students may change their declared Option at any time during the program of study with written approval from the advisor, the Chair of the

Graduate Committee in the student's major, and the Dean for Graduate Studies. **The only exception to this policy is that students may not change from Option I to any other Option if certification of full-time status has been utilized.**

Comprehensive Examinations

Examination Requirement

All master's students are required to complete a **comprehensive examination – written and/or oral** as required by the appropriate academic departments.

- The **written exam**, if required, must be completed within **24 months** prior to the date of graduation.
- When an **oral examination** is required, the **examining committee** will consist of at least **three members** representing the major department and the minor department (if applicable), recommended by the major department and approved by Graduate Studies.
 - All professors on the examining committee must have Graduate Faculty status – full or Associate.
 - If a committee member **leaves the employ of the University or retires**, a replacement should be appointed. When continuing expertise is needed and the faculty member is willing to continue serving, the departing faculty member may remain as a member or co-chair of the committee, with approval of the department Graduate Committee and Graduate Studies.

For an **Option I** student's oral examination to be waived, the student must have completed a written examination within the 24 month time requirement, and the thesis must be approved in writing by a Graduate Faculty member in addition to the major advisor.

When the program includes a **minor**, the comprehensive examination in the minor field(s) (written and/or oral) may be waived subject to the approval of the minor department(s) provided all grades in the minor are at least a B or pass.

Examination Results

Upon **successful completion** of the examination(s), the student proceeds with steps outlined in the Master's Degree Milestones (<http://www.unl.edu/gradstudies/current/degrees/masters>).

- When the examining committee's "pass" decision is **not unanimous** but only one examiner dissents, the student is to be approved for the degree. The dissenting member files a letter of explanation in Graduate Studies.
- If a student **fails to pass** the final oral or written examination, the committee files a report on the failure in Graduate Studies and indicates what the student must do before taking another examination. Another examination may not be held during the same term.

Educational Specialist Degree

Graduate Studies

A student progresses toward the Ed.S. degree by completing the sequence of Ed.S. Milestones (<http://www.unl.edu/gradstudies/current/degrees/specialist>) before their posted deadlines and while following these policies:

The **Supervisory Committee** is established prior to completion of 42 credit hours of the Ed.S. program's required coursework. A Supervisory

Committee consisting of three graduate faculty is appointed with approval by the department's Graduate Committee Chair.

The **Program of Studies** is filed prior to completion of 42 credit hours of the Ed.S. program's required coursework.

- A minimum of **66 credit hours** beyond the baccalaureate degree is required for the Ed.S. The student must complete **at least 24 credit hours after approval of the Program.**
- While specific requirements are determined by departments, in general 40 to 50 hours will be in core courses within the unit or closely related units, 3 hours or more will be research, 6 hours or more will be practicum, and 6 or more hours will be electives.
- The time limit on granting the Ed.S. degree is **six years** from the time of filing the Program in Graduate Studies.

A written **Comprehensive Examination**, developed by the Supervisory Committee, is administered when the program is substantially complete. The committee determines the nature and duration of the examinations.

Once the student has met all requirements for the Ed.S. degree, a **Final Report Form** is signed by all Supervisory Committee members and submitted to Graduate Studies.

Certificate Programs

Graduate Studies

Graduate Certificates

Graduate certificate programs are designed for post-baccalaureate, graduate, or post-graduate students. See Programs: Graduate Certificates (p. 5) for course requirements and links to application instructions. A graduate certificate typically requires at least 12-15 credit hours of work past the bachelor's degree, but no more than 20 hours.

After completing the prescribed set of coursework, students receive a graduate certificate rather than a degree. Completion of the certificate is indicated on the UNL graduate transcript.

Graduate certificate programs may function independently of degree programs. Hours earned in certificate programs may be applied to a degree program (p. 504).

State Certifications for Educators

Educator certifications – in particular, the Teaching Certificate (initial or renewal), Administrative Certificate (initial or renewal), and various endorsements – are granted by the State of Nebraska's Department of Education (<http://www.education.ne.gov/TCERT>) rather than by UNL.

For more information refer to Programs: Teacher Certification (p. 13) or consult UNL's certification officer (<http://cehs.unl.edu/cehs/renewing-your-teaching-certification>).

Educational Administration and Supervision

The Department of Educational Administration offers a graduate-level administrator preparation program leading to a Certificate of Specialization in Educational Administration and Supervision (EDAS-SXCT). The minimum requirement is 66 semester credit hours, in a Program of Studies specified by the Department.

Requirements for the student:

1. Apply for admission as indicated for Educational Administration (<http://www.unl.edu/gradstudies/prospective/programs/EducationalAdministration>), get and accept an offer of admission to the program, and enroll.
2. Complete certificate requirements within six consecutive calendar years of acceptance into the program. At the time of completion, none of the credit hours approved may be more than ten years old, except for hours earned in a previous degree program.
3. Apply for graduation via MyRED. Once all requirements are complete, the department will notify Graduate Studies so the student may receive the certificate through Graduation Services.

Probation and Termination

Graduate Studies

Grounds

For all graduate students at UNL, probation or termination recommendations may be made under the following conditions:

- Failure to make academic progress as defined in the program's graduate student handbook
- Violations of the Student Code of Conduct (<http://stuafs.unl.edu/dos/code>)
- Failure to satisfy Scholastic Grade Requirements (p. 503)
- Failure in qualifying examinations, preliminary examinations, comprehensive examinations or final degree examinations
- Failure to master the methodology and content of one's field in a manner that is sufficient to complete a successful thesis or dissertation
- In fields leading to licensure or certification, ethical misconduct or lack of professional promise in the professional field
- Failure to satisfy conditions required for removal of probationary status or provisional admission

Graduate Committees employing additional conditions for probation or termination must specify these conditions in writing and inform all students affected by these conditions.

Process

How It Happens

Graduate students who do not maintain satisfactory progress may be placed on probation, terminated from a degree or certificate program, and/or denied permission to continue graduate studies in the University.

1. Probation or termination is initiated when the student's advisor or supervisory committee submits a recommendation to the departmental Graduate Committee.
2. If the Graduate Committee approves a recommendation for termination, the graduate chair must communicate it in writing to the Dean for Graduate Studies and the student.

After Termination or Dismissal

Students **dismissed from the University** due to violations of the Student Code of Conduct are ineligible to reapply for graduate study at UNL.

Students whose UNL **graduate program has been terminated** may apply for admission to another degree program or admission as a non-degree seeking student only with the approval of the Dean for Graduate Studies.

Termination Appeals Standard Appeal Procedure

In all cases, appeals are made **in writing** to the appropriate advisor, committee, or council.

1. The initial appeal is to the student's **advisor**.
2. *Doctoral students with an established supervisory committee*: If denied, the appeal may be submitted to the student's **supervisory committee**.
3. If denied, the appeal may be submitted to the departmental or interdepartmental area **Graduate Committee** administratively responsible for the student's graduate program.
4. If denied, an appeal may be made to the campus **Graduate Council** as described below. Normally this is the final appeals body; for exceptions see NU Executive Graduate Council section below.

When the appeal concerns graduate-level **qualifying examinations, comprehensive examinations, or final examinations**, the student is responsible for making reasonable efforts to ascertain the results of the examination within **30 days** after its completion, and the student's written initiation of the appeal must be filed within **30 days** following the student's receipt of notification of the evaluation.

When the appeal concerns a **termination of program**, the student's written initiation of the appeal must be filed within **30 days** following the student's receipt of the official written notification by Graduate Studies.

Graduate Council As Appeal Board

1. When a student's graduate program consists of registration **essentially or entirely on one campus**, the Graduate Council of the campus administratively responsible for the program will constitute the appeal board.
2. When a student's graduate program includes substantial registrations **on a campus other than the one administratively responsible** for the program, three members of the Graduate Council for the other campus will be designated by the Dean for Graduate Studies on that campus to augment the Graduate Council on the campus administratively responsible for the program. In this case, the augmented Council will constitute the appeal board. The decision concerning augmentation of a campus Graduate Council for a specific appeal involving registrations on a campus other than the one administratively responsible for the student's program will be made by the Deans for Graduate Studies on the campuses involved.

Appeal to the NU Executive Graduate Council

1. There is no absolute right of appeal to the Executive Graduate Council. The Executive Graduate Council will accept appeals only in those cases where in the exercise of its sole discretion it shall first find that one or more of the following grounds for accepting the appeal exist:
 - a. That the campus Graduate Council has violated some element of fair procedure (i.e., has failed to allow the parties concerned to present their cases fully to their campus Graduate Council);
 - b. That the campus Graduate Council has failed to examine or give adequate weight to important evidence relevant to one party's position;
 - c. That the campus Graduate Council has given undue weight to evidence not pertinent to the case; or
 - d. That some gross miscarriage of justice would be perpetrated if the decision of the campus Graduate Council is allowed to stand.

A decision by the Executive Graduate Council not to accept jurisdiction of an appeal shall be final and is not subject to further appeal.

1. Appeals to the Executive Graduate Council must be made in writing and must specifically outline the grounds for the appeal. Such appeal must be made within 20 working days of the day the decision of the campus Graduate Council is received (working days shall not include those days the University is not in session).
2. The Executive Graduate Council must make a decision to hear the appeal or not to hear the appeal within 30 working days after receipt of the appeal. Acceptance or denial of jurisdiction over the appeal will be made in writing.
3. The decision of the Executive Graduate Council on the merits of the case will be made and transmitted to the concerned parties within 40 working days after the decision to hear the appeal.
4. No person who was a member of the department or campus Graduate Council involved in the case will be eligible to participate in the decisions of the Executive Graduate Council either to decide whether the case should be heard or to decide the merits of the case. However, the Dean for Graduate Studies may replace members of the Executive Graduate Council not eligible for participation in the decision to hear the appeal or in the appeal itself.

Funding

Graduate Studies

Funding for graduate study is primarily in the form of assistantships (p. 515) and fellowships (p. 516). Additionally, the Office of Scholarships and Financial Aid maintains information on other forms of financial support such as loans and need-based funding (p. 517).

Assistantships

Graduate Studies

Intro

A graduate assistantship provides financial support for a graduate student for a set period of time during which the student is expected to pursue activities towards the advanced degree.

Time Required

Work required by an assistantship and not directly related to the student's degree program cannot exceed **13-19.6 hours per week (.33 to .49 FTE)**.

Although students on graduate assistantships may not have employment exceeding 19.6 hours per week from all sources both on and off campus during the period of the assistantship, there is no limit to time spent on studies and research relating to the advanced degree.

Because of the potential for exploitation of graduate students, any assignment of responsibilities, such as teaching a course, must be associated with a fair and reasonable compensation. Graduate students may not volunteer for any significant service to the department without an appropriate stipend.

Types of Assistantships

In each case, the student is expected to continue working towards the advanced degree while a graduate assistant.

- A **teaching assistantship** provides a stipend to a student who is typically assisting in an academic department's teaching program, i.e., grading, assisting a professor with a course, etc.
- A **research assistantship** provides a stipend to a student who is typically assisting a professor with a research project, enabling the graduate student to work towards an advanced degree.
- **Other graduate assistantships** provide a stipend to a student who is assisting an academic or nonacademic department with a wide variety of functions.

Eligibility

To hold a graduate assistantship a student must be admitted for a specific graduate degree objective and enrolled for credit during the tenure of the assistantship.

Individual departments make assistantship appointments. Students who wish to be considered for assistantships in their major should direct inquiries to the graduate chair of their department. All **international** graduate students who are to be teaching assistants at UNL must attend the Institute for International Teaching Assistants (<http://www.unl.edu/gradstudies/current/ita>).

Benefits

Benefits Offered

Tuition remission of up to 12 hours per semester is provided as a benefit of eligible assistantships. Students holding eligible assistantships are provided basic individual **student health insurance** coverage with related benefits. The University subsidizes part of the student health insurance (<http://www.unl.edu/gradstudies/current/health>) premium for eligible graduate assistants.

Within departments and within each level of differentiation (master's or doctoral, new or experienced, number of work hours), stipends should generally be equivalent. Guidelines used to determine stipend levels should be available to students through the department.

Assistants may be given **@unl.edu email addresses**; those accounts close at the end of the assistantship.

Eligibility For Benefits

Eligibility for assistantship benefits requires meeting all of the following criteria:

- A continuous appointment for four full months within the semester dates.
- The stipend meets the minimum salary level set by the University.
- The assistantship or combination of assistantships in one or more departments totals at least 13.33 hours per week employment.

Resignation or Termination

If a graduate assistant resigns or their assistantship is terminated during the semester **before four full months** of consecutive service (e.g., 120 consecutive days within the semester dates, August-December or January-May) **all benefits will be lost** and the student will be responsible for the total tuition payment and health insurance premiums.

Summer Tuition

If a graduate assistant, while on an appointment during both semesters of the preceding academic year, was paid a stipend meeting the **minimum qualification** for summer tuition, the student is not charged tuition for

the first 6 hours during the summer sessions. If such a stipend met the **next level of qualification**, the student is not charged tuition for the first 12 hours during the summer sessions. (Specific dollar amounts are available each year in the Guidelines for Graduate Assistantships (<http://www.unl.edu/gradstudies/facstaff/funding>).)

Non-Benefits-Eligible Assistantships

A student on a non-benefits-eligible graduate assistantship is charged tuition at resident rates if the stipend received is equal to, or greater than, the total of the amount set by the University for the relative summer session.

Hiring and Renewal

The responsibilities of the graduate assistant and the method by which the student will be evaluated should be provided in writing to the student by the immediate supervisor at the beginning of the assistantship.

General Responsibilities

Each department or unit shall establish its own documented procedures for recruitment, selection, retention and dismissal of graduate assistants in accordance with UNL graduate policy and Affirmative Action/Equal Opportunity guidelines. These procedures shall be made available to each graduate student and posted in the department. Individual departments may establish a required minimum course load (p. 505) for funded students.

Departments must provide students with an official signed offer letter (<http://www.unl.edu/gradstudies/facstaff/funding>), informing them of assistantship expectations, responsibilities, and compensation. A graduate assistant's duties are assigned by the departmental chair/head, graduate committee chair, administrative supervisor, or others.

Graduate assistants are expected to be assigned relevant professional work that may include, among other tasks:

- teaching or assisting in a course (under the supervision of a director or mentor)
- grading for a course
- working in a department-sponsored laboratory or instructional center
- assisting a professor on a research project, professional conference development, tutoring, or development of administrative skills

No graduate assistant should be assigned to a project which is primarily clerical or housekeeping. A portion of any project may have clerical elements, but all projects should incorporate decision-making, judgment, analysis and evaluation skills. All projects must be supervised by a member of the graduate faculty or administrative staff.

Renewal and Performance Evaluation

Assistantships without a fixed term specified in the initial letter of offer may, at the discretion of the department, be renewed if the following criteria are met:

1. Funding is available.
2. The student is making satisfactory academic progress.
3. The student's assistantship performance is judged to be satisfactory by his or her supervisor.

Where the number of years of funding is within those specified in the initial letter of offer, an assistantship must be renewed if these three criteria are met.

The faculty member or staff person who supervises the assistant's work should conduct a timely written evaluation of the student's performance (<http://www.unl.edu/gradstudies/facstaff/funding/#eval>) and provide a copy of that evaluation to the student and to the chair/director for placement in the student's file.

Evaluations of performance shall not be influenced on the basis of sex, age, disability, race, color, religion, marital status, veteran's status, national or ethnic origin, or sexual orientation, nor shall they be influenced by students' exercise of their First Amendment freedoms of expression and association.

Academic Freedom of GTAs

The academic freedom of graduate teaching assistants (GTAs) is not necessarily coextensive with that of faculty. All GTAs are engaged in supervised teaching or instruction. Supervisors are responsible for defining the nature, scope and manner of instruction to be used for each course. Supervisors should communicate the extent to which GTAs have discretion to introduce additional material. Graduate teaching assistants should follow the instructions of the supervisor. Graduate teaching assistants may not be penalized for expressing their own views on matters within the scope of the course, provided they adequately represent these views as their own.

In interpreting teaching evaluations, supervisors shall make every effort to distinguish legitimate critiques of the course from negative evaluations due to

- a. prejudice against the GTA on the basis of race, sex, sexual orientation, religion or other protected status, or
- b. disagreement with viewpoints expressed by the GTA or by students in the class.

Fellowships

Graduate Studies

Fellowships are awarded on a competitive basis in recognition of a student's demonstrated scholarship, scholastic and creative promise, and/or financial need. There is no service or work requirement associated with fellowship awards. A student holding a fellowship or a traineeship must be a full-time student during the period of appointment.

See also: fellowships for current students (<http://www.unl.edu/gradstudies/current/funding/fellowships>).

Eligibility

To be eligible for a fellowship a student must be admitted to a department or area with a specific graduate degree objective and enrolled in graduate academic coursework.

- Students enrolled in certificate-only programs with no degree objective are ineligible.
- International students must have completed one year of study at a US institution of higher education to be eligible.
- Employees of the University of Nebraska, other than graduate assistants, are ineligible.

Types of Fellowships

Tuition Fellowships remit tuition for the full or partial cost of graduate courses according to the specific fellowship guidelines for the term of

the award. Recipients of tuition fellowships are responsible for university program and facilities fees unless specifically included in the award announcement. Recipients must be admitted to a graduate program with a specific graduate degree objective.

Full Support Fellowships from Graduate Studies (Presidential and Fling Fellowships) provide stipend payments for recipients of these awards. Fellowship recipients are required to be full-time students (at least 9 credit hours or full-time certification) during the period of appointment and may hold another major fellowship. They may not engage in remunerative employment, including a graduate assistantship or traineeship.

Partial Support Fellowships allow students to hold other fellowships and assistantships.

External Fellowships such as those from NSF-GRFP, AAUW, or the Smithsonian are not awarded by UNL but recipients should notify the Fellowship Specialist in Graduate Studies.

Continuation

Continuation of graduate fellowships may be denied to recipients under any of the following conditions:

- Failure to satisfy Scholastic Grade Requirements (p. 503).
- Violations of the Code of Conduct (p. 494).
- Failure in qualifying examinations, preliminary examinations, comprehensive examinations or failure to make satisfactory progress as defined by the graduate program.

Assistantship Impact

Fellowship awards cannot have any impact on the amount of a graduate assistantship stipend unless there is an accompanying decrease in the teaching or research assignment and the corresponding FTE.

Loans and Need-Based Funding

Graduate Studies

Scholarships and Financial Aid

The Office of Scholarships and Financial Aid (OSFA) (<http://www.unl.edu/scholf>) does not participate in the granting of fellowships or assistantships but does maintain current information on **other forms of financial support** available to students.

FAFSA

To apply for Federal Work-Study, Federal Perkins Loans, Federal Stafford Loans, or Unsubsidized Federal Stafford Loans, students submit a Free Application for Federal Student Aid (FAFSA) as **early** as possible.

Federal Perkins Loans and Federal Work-Study are awarded on a **first-come, first-serve basis to domestic students** with a completed financial aid file as long as funds are available. *International students are ineligible to apply for federal loans.*

To have a completed file, a student must:

1. Submit a FAFSA.
2. Be admitted to a degree program (contact OSFA for exceptions).
3. If coming to UNL as a transfer student or after attending another postsecondary school as an undergraduate, submit a financial

aid transcript to OSFA from all schools attended. A financial aid transcript is required even if you did not receive financial aid.

4. Submit all documentation requested by OSFA as required for verification.

Satisfactory Progress

Satisfactory progress toward a degree is a requirement for receiving financial aid. Maintaining satisfactory progress requires:

1. successful completion of a minimum number of hours and
2. completion of the degree prior to reaching the maximum credit hour limit.

For details refer to the Office of Scholarships and Financial Aid: Satisfactory Academic Progress (<http://financialaid.unl.edu/sap.shtml>).

Faculty

Graduate Studies

Graduate Faculty

Full Membership

The Graduate Faculty is composed of all faculty members in tenure leading positions, including pre-tenured faculty, who are automatically appointed as Graduate Faculty at the time of hire. Faculty members in non-tenure leading positions—including professors of practice, research professors and adjunct faculty—may be nominated for appointment to the Graduate Faculty. Full membership status lasts for the duration of the faculty member's appointment with the University.

The Graduate Faculty may teach graduate courses, serve on final examining committees, serve on supervisory committees, and chair supervisory committees for both masters and doctoral students. The Graduate Faculty may vote on any matter presented to the Graduate Faculty, including the election of the University's Graduate Council. They may also hold any elected office in the Graduate College. Graduate Faculty have the additional responsibility of voting on certain nominations of Graduate Faculty in their department, school or interdepartmental area program.

Procedure for Nominating Graduate Faculty

Faculty members in non-tenure leading positions may be nominated for membership to the Graduate Faculty. Nominees must meet the following criteria:

1. Hold the rank of senior lecturer, assistant professor (including practice, research and adjunct faculty) or above;
2. Hold the terminal degree normally accepted for academic employment in the discipline or its clear equivalent as determined by the Graduate Committee of the nominee's department, school or interdepartmental area;
3. Be actively involved in scholarly activity and/or graduate teaching as part of his or her regular duties; and
4. Have demonstrated clear evidence of continuing scholarly activity at the national level and potential in the discipline, beyond teaching.

Using the nomination form for graduate faculty (https://www.unl.edu/gradstudies/facstaff/Graduate_Faculty_Nomination_Form.pdf), and assuming all criteria are met, the Graduate Faculty in the relevant department will vote on the nomination. A two-thirds majority of the Graduate Faculty must support the nomination. Submit the following

to the UNL Dean of Graduate Education: (1) The nomination form with signatures and (2) a letter from the graduate committee chair explaining the reasons for supporting the nomination. After campus-level review, the nomination is forwarded to the Provost and Dean of the Graduate College (for the NU system), who will either approve or defer the nomination. If approved, the Provost/Dean formally appoints the faculty member to the Graduate Faculty.

SOURCE: Graduate College Policy Handbook (revised, June 2018)

Graduate Faculty Associates

Provisional Status

Graduate Faculty “Associates” are non-tenure track faculty who are nominated and appointed to serve in a limited capacity. The provisional status is granted for a limited term not to exceed a period of four years from the start of the individual’s faculty appointment. Provisional status is not renewable after the term expires. Faculty who have provisional status can be nominated for full Graduate Faculty membership at any time.

Graduate Faculty Associates may teach graduate courses, direct master’s theses, serve on or chair master’s degree examining committees, and serve on doctoral supervisory committees. Associates may not chair or co-chair doctoral supervisory committees. Associates do not have a vote on the Graduate Faculty, nor can they hold any elected office in the Graduate College.

Procedure for Nominating Associates

Faculty members in non-tenure leading positions may be nominated for provisional membership to the Graduate Faculty. Nominations must meet the following criteria:

1. Nominee shall have the terminal degree and the rank of assistant professor (including practice, research and adjunct faculty) or above;
2. Nomination is submitted during the first four years of the individual’s faculty appointment.

Using the nomination form for associates (https://www.unl.edu/gradstudies/facstaff/Nomination_GradFacAssoc.pdf), the nominee must be supported by a majority of the departmental or interdepartmental graduate committee. The nomination form must have the signatures of the graduate committee chair and the department chair/head. Submit the following to the UNL Dean of Graduate Education: (1) The nomination form with signatures and (2) the nominee’s curriculum vitae. If approved, the Dean formally appoints the nominee to provisional membership, indicating the end date of the appointment.

SOURCES: Graduate College Policy Handbook (revised, June 2018); Graduate Council Minutes (September 24, 1996)

Graduate Faculty Emeriti

Upon recommendation of the departmental, school or interdepartmental graduate committee, retired Graduate Faculty who have been appointed to emeritus status may retain the rights and privileges associated with their Graduate Faculty status. These rights and privileges include permission to teach graduate courses, to serve as members of graduate programs, or to co-chair the supervisory committees of doctoral students with a resident Graduate Faculty member.

Procedure for Recommending Graduate Faculty Emeriti

Using the recommendation form for emeriti (https://www.unl.edu/gradstudies/facstaff/Nomination_GradFacEmeriti.pdf), an emeritus faculty member can be reappointed annually to the Graduate Faculty by recommendation of the department graduate committee. The recommendation form must have the signatures of the graduate committee chair and the department chair/head. Submit the form to the Dean of Graduate Education. If approved, the Dean formally appoints the emeritus faculty member to a one year term on the Graduate Faculty.

Graduate Lecturers

Graduate Lecturers are non-tenure track faculty who are nominated and appointed to serve in a limited capacity. Graduate Lecturers may teach graduate courses, serve as academic advisors, and supervise students in graduate-level courses related to professional training such as clinical, field experience, practicum, internship and laboratory courses.

Procedure for Requesting Graduate Lecturers

1. Eligible faculty members must hold the terminal degree normally accepted for academic employment in the discipline OR have achieved some extraordinary accomplishments as determined by the graduate committee of the nominee’s department.
2. Nominee must have completed at least two years of work experience relevant to the discipline to be taught. This may include teaching, research, clinical or other professional experience.

Using the request form for graduate lecturers (https://www.unl.edu/gradstudies/facstaff/Graduate_Lecturer_Appointment_Form.pdf), the recommendation must be endorsed by both the departmental graduate committee and the department chair/head. Submit the following to the Dean of Graduate Education for approval: (1) The nomination form with signatures, (2) the nominee’s curriculum vitae, and (3) a memo from Graduate Committee Chair explaining the reasons for the nomination.

SOURCE: Graduate Council Minutes (September 8, 1982; January 17, 2019)

Special Committee Members

Students may request the appointment of a faculty member from another institution outside the University of Nebraska system to serve on their supervisory committee. These external “special” members must hold a terminal degree appropriate to the discipline and have academic accomplishments comparable to the criteria for Graduate Faculty. Special Members are appointed as voting members of the supervisory committee and must be willing to participate in the student’s doctoral program in a manner consistent with this role. The Special Member may serve as one of the two appointed readers; but may not serve as committee chair, co-chair, or outside representative.

Procedure for Requesting Special Committee Members

Special Members are appointed on an individual student committee basis; a separate nomination must be submitted for each supervisory committee on which a Special Member intends to serve. In addition, only one Special Member may serve on each supervisory committee, and the committee must include a minimum of four members of the Graduate Faculty.

Using the request form for special members (<https://www.unl.edu/gradstudies/current/Doctoral-SpecialCommitteeMember.pdf>), the nomination must be endorsed by both the supervisory committee chair

and the departmental graduate committee chair. Submit the following to the Dean of Graduate Education for approval: (1) The nomination form with signatures and (2) the nominee's curriculum vitae.
