

HP Device as a Service for Education

Power continuous, innovative learning for predictability in an unpredictable world.

Prepare for the future of education with consistent, sustainable access to innovative technology for modern learning. Partner with HP to enable elevated student outcomes while driving IT transformation.

Schools have a lot of equipment to manage. More than 80% of educators surveyed by EdWeek in 2021 reported

that their students have at least one school-issued computing device.¹ HP Device as a Service² helps your district overcome the complexities of device management and maintenance within the shift to a 1:1 device model, enabling you to optimize student experiences.

HP Device as a Service lets you:

Elevate student outcomes

Maximize learning through 1:1 technology with predictive monitoring and usage analytics³ that anticipate equipment issues. Devices keep performing and stay protected so students can learn without interruption.

Unlock instructor effectiveness

Allow teachers to spend their time teaching, from anywhere, with fewer technology disruptions. Teachers can monitor student engagement and improve lesson planning, relying on built-in predictive analytics and security, and better data and insights.

Transform IT operations

Free your IT resources to focus on strategic IT initiatives that can predict and resolve device issues before they occur. Reduce the complexity of managing separate devices with an integrated education solution to advance student outcomes while meeting the needs of your operations teams.

Customize your payment options

Get the technology, software, and services you need today without restricting critical cash flow. Scale payment predictability, plan customization, and device and service levels to suit your current and future needs and budget.⁴

Accelerate innovation

You need a partner who supports your classroom needs to deliver state-of-the-art devices, AI-enabled data insights, and award-winning services to future-proof a modern learning experience.
