HELP SHAPE OUR FUTURE

As part of our long-term planning and stewardship of our building, we are beginning to market the two floors of classroom space located above the synagogue.

These beautifully built-out floors — which include classrooms, offices, and a private terrace — will become available for lease starting in July 2026.

We are approaching this with optimism and purpose, and have engaged a local brokerage to oversee the process.

While there is still ample time before availability, we believe now is the right time to begin outreach so that we can find the right fit — a non-profit who, like the Manhattan Star Academy, will be a compatible and friendly presence, and thrive along with LSS for many years.
