

# Sample 4-Week Throwing Progression for 12-Year-Old Little League Player

## Throw Descriptions and Tips:

- **On Knees:** Make sure to stay long with throwing arm - Focus on stretching arm out.
- **No Step:** Center feet towards target - Focus on upper body turning and throwing.
- **Step Throw:** Traditional step into throw - Focus on transferring weight and using legs.
- **Stride Throw:** Take a stride, then turn body toward target - Focus on involving the entire body.
- **Long Toss:** Introduce crow hop at further distances - Focus on gathering momentum to throw.

\*Throwing progression is modeled by a 46/60 Little League Field

\*\*Please note that these distances and throw counts should be used as guidance. It is important that you listen to your body and avoid throwing with arm fatigue or injuries to other body regions. If you feel as if you might be straining your arm you should stop throwing for the day and notify your coach and/or parents.
