Defence Cooperation

11. India-US defence cooperation is based on “New Framework for India-US Defence Cooperation”, which was renewed for ten years in 2015. In 2016, the defence relationship was designated as a Major Defence Partnership (MDP). On 30 July 2018, India was moved into the Tier-1 of the US Department of Commerce’s Strategic Trade Authorization license exception.

12. Defence cooperation is multifaceted and includes regular institutionalized bilateral dialogue, military exercises, and defence procurements. At the apex of dialogue mechanisms is the 2+2 Ministerial Dialogue co-chaired by the Minister of External Affairs and Minister of Defence and the U.S. Secretary of State and Secretary of Defense. This dialogue provides guidance on political, military and strategic issues. The fourth 2 + 2 Ministerial Dialogue took place in April 2022 in Washington DC.

13. The Defense Policy Group (DPG) headed by Defence Secretary and Under Secretary of Defense (Policy) provides a platform for a comprehensive review of defense dialogues/mechanisms. The 17th DPG was held in Washington D.C. in May 2023. Defence procurement from USA are growing and amount to almost US\$20 billion. Major US-origin platforms in use include C-130J, C-17, Apache, Chinook, MH60R helicopters, P8I. Other bilateral dialogue mechanisms are the Defense Production and Procurement Group (DPPG), Joint Technology Group (JTG), bilateral Maritime Security Dialogue, Industrial Security Summit and the Defence Trade and Technology Initiative.

14. Since 2022, three US' Maritime Sealift Command ships have visited Indian Shipyards for repair and allied services on the basis of commercial contracts.

15. Important defence agreements which provide the framework for interaction and cooperation are: Logistics Exchange Memorandum of Agreement (2016); Communications Compatibility and Security Agreement (2018); Industrial Security Agreement (2019); and Basic Exchange and Cooperation Agreement (2020) and Memorandum of Intent for Defense Innovation Cooperation (2018).

16. The India-US Defence Industrial Cooperation Roadmap which concluded in May 2023, seeks to fast-track technology cooperation and co-production in areas of mutual interest. The India-US Defense Acceleration Ecosystem (INDUS X) – a network of universities, incubators, corporates, think tanks, and private investment stakeholders was launched in June 2023.

17. Military to Military exchanges take place through high-level visits, Exercises, Training Courses, and regular service-specific bilateral mechanisms. India has the largest number of military exercises with USA, which are growing in scale and complexity. Important bilateral exercises include Yudh Abhyas (Army), Vajra Prahar (Special Forces), Malabar (Navy), Cope India (Air Force), and Tiger Triumph (tri-services). Red Flag, RIMPAC, CUTLASS Express, Sea Dragon, Milan are some of the Multilateral Exercises in which the two countries participate. INS Satpura was the first Indian naval ship to visit US mainland when it came to San Diego in August 2022 as a part of Azadi Ka Amrit Mahotsav. India joined the multilateral Combined Maritime Force (CMF) based in Bahrain, as an Associate Partner in April 2022.

Counter Terrorism Cooperation

18. Cooperation in counter-terrorism is one of the pillars of the bilateral partnership featuring information exchange, capacity building, operational cooperation and regular dialogue through the India-U.S. Joint Working Group on Counter-Terrorism. In 2017, both sides initiated a dialogue on domestic and international terrorist designations listing proposals. The last JWG on CT and Designations Dialogue was in New Delhi on 13 December 2022.

Security Cooperation

19. The Homeland Security Dialogue (HSD) at the Home Minister/Secretary of Department of Homeland Security level was established in 2010. The Indo-US Science and Technology Forum (IUSSTF) promotes cooperation in S&T and Innovation. U.S. National Science Foundation (NSF) and India's DST, MeITY and DBT signed Implementation Arrangements to support research collaboration in AI, advanced communication networks, quantum science , Internet of Things, Interdisciplinary Cyber Physical System, biotechnology manufacturing, bio safety and bio-security

34. India and the U.S. have a long history of cooperation in the civil space arena in Earth Observation, Satellite Navigation, Space Science and Exploration. Indian Space Research Organization (ISRO) has robust civilian space cooperation with the US National Aeronautics and Space Administration (NASA); National Oceanic and Atmospheric Administration (NOAA); US Geological Survey (USGS) and academic institutions. A Joint Working Group on Civil Space Cooperation last met in Washington D.C. on 30-31 January 2023, co-chaired by Scientific Secretary, ISRO and Associate Administrator of NASA.

35. ISRO and NASA are developing a microwave remote sensing satellite for Earth observation, NASA-ISRO Synthetic Aperture Radar (NISAR). NASA/JPL will contribute L-band Radar, while ISRO will contribute S-band Radar. The satellite and launch vehicle would be launched in early 2024 from Shriharikota, India.

36. ISRO availed NASA/JPL's Deep Space Network Antenna support for its Chandrayaan-1, Mars Orbiter Mission (MOM), Chandrayaan-2 mission, and upcoming Chandrayaan-3 satellite. ISRO and NASA successfully implemented Professional Scientific Personnel Exchange Programme (PESEP) in earth observation applications under the framework signed in April 2017. ISRO launched more than 200 satellites from the US, on-board Polar Satellite Launch Vehicle (PSLV), as co-passengers. In June 2023 ISRO signed with NASA the Artemis Accords to participate in peaceful and sustainable civil exploration of outer space. ISRO and NASA have agreed to enhance cooperation in human space flight including developing a Strategic framework for human spaceflight cooperating and mounting a joint effort to the International Space Station. NASA will train Indian

astronauts. A commercial Space Working Group would be set up under the Civil Space Joint Working Group to enhance collaboration between the US and Indian private sector.

37. **Initiative for Critical and Emerging Technology [iCET] was launched by the National Security Advisors in Washington, DC on 31 January 2023 to facilitate strategic technology collaborations in critical and emerging technologies, co-development and co-production, connect the respective innovation ecosystems especially in AI, quantum, telecom, space, biotech, semiconductors, emerging defence technologies and biotech. The second iCET meeting was held in New Delhi on 13-14 June 2023.**

Health Cooperation

38. There is a longstanding research collaboration in the health sector to develop new therapeutics and diagnostics. Under the Bilateral Vaccine Action Program (VAP), a ROTAVAC® vaccine to counter diarrhea in children was developed by an Indian company at an affordable cost. The 34th JWG of VAP was held in Washington DC in 2022.

39. There are more than 200 active collaborations between U.S. National Institutes of Health network of labs and leading research agencies, to deliver affordable health-care solutions.
