

Appendix 2. Post-Session Questionnaire.

**EMS Personnel:**

- If you have used both translation tools today, which did you prefer and why?
- Were you able to get the information you needed? Why or why not?
- Did you think the translation tool helped with communication? Why or why not?
- What problems did you encounter?
- What did the translation tool do well?
- If you were trying to make this translation tool better, what changes would you make?
- Have you ever needed translation or interpretation during a medical emergency? If so, please describe your experience.

**LEP Participants:**

- How would you describe your experience trying to use this translation tool? Was it useful?
- Did you understand the EMT's questions? If not, please explain why.
- Was the EMT able to understand you with the help of the translation tool? If not, please explain why.
- Have you ever needed translation or interpretation during a medical emergency? If so, please describe your experience.
